ANNUAL ROPE PULL A SOPHOMORE VICTORY

Upperclassmen Get the Jump and the Entire Freshman Team is Pulled Through Pond.

The annual Sophomore-Freshman rope-pull took place Saturday afternoon September 27. The day was perfect, and a large audience crowded the ropes on either side of the pond. The first pistol cracked shortly after two o'clock, and the Sophomores had gained a little ground, when the rope broke with a suddenness that sent some hundred men on their backs.

Quite a little time was needed to bring order and discipline back into the teams, and it was about 2:30 when the starter again fired. This time there was no accident, and in a very short while a splash announced the first Freshman baptism. Fifty-nine others followed, wallowing thru the mire and continuing up the bank for several yards. The only Freshman rally came at the end of fourteen minutes, when, with all their opponents high, but not dry on the western bank the Sophomores relaxed, but held their ground. A strong guard of upper classmen prevented the rope from being "sown-ventred." 1922 showed vast improvement over last Spring's attempt, making the pulls together and snappy.

Although the victory was very decisive, the Freshmen have no reason to be greatly disheartened. They lacked the pulling together that is essential of a good rope-pull team, but they showed grit, and none went thru that did not grasp the rope again and continue the fight on the other side.

PRES. BUTTERFIELD OPENS YEAR OF RECONSTRUCTION

Address Outlines Policies to be Followed on the Campus.

Massachusetts Agricultural College began its fall term officially Wednesday afternoon, September 24th, at 1:40 o'clock. Although several men had not yet returned, the auditorium was well filled.

The meeting began with the singing of a hymn by the student body. Dean Lewis then read from the scripture and offered prayer.

The address was given by President Butterfield, who spoke to the assembled students for the first time in a year. He expressed his pleasure in being able to be at M. A. C. again, and spoke of his difficulties in returning in time for Commencement last June. "College is beginning under most unusual circumstances, at a turning point certainly in our lives, perhaps in the history of the world. We welcome the entering and returning classes, but we give special

(Continued on page 2)

M. A. C. LEADERS SOON TO VISIT WESTERN ALUMNI

Dean Lewis and Willard Munson '05 Start on Trip for Memorial Building Committee.

On Oct. 2, Dean Lewis and Willard Munson '05, start on a trip for the Memorial Committee, which should infuse Western alumni with the enthusiasm that already is so evident here in the East. Two men could not have been chosen to better represent the spirit of the College. Mr. Munson was well known at M. A. C., playing varsity football, and being a member of the Senate. On the other hand, the versatility of Dean Lewis has always made him popular, while at Williams, in Major League baseball, and as Dean of this College. Moreover, he has a faculty for making any project in which he may be interested, a success.

At Cleveland, probably the first stop, an alumni meeting, headed by A. B. Taylor, will be held to greet these two men. At East Lansing, Mich., Dr. R. P. Lyman, Dean of the Veterinary Division of Michigan Agricultural College, will be the leader of the welcoming alumni. Chicago, Milwaukee, St. Paul and several Montana places are included on the itinerary.

Mr. Munson will also visit California, particularly Berkeley and Los Angeles, where Professor John W. Gregg and E. F. Damon '10, respectively, are in charge of alumni affairs.

Dean Lewis will not cross the Rockies, but will return from Montana by a different route through the Middle West, arriving in Chicago in time for the big night of October 25.

In addition to promoting interest in the Memorial Building, Dean Lewis will also spend some little time in looking over western agricultural colleges, and studying their various methods of administration. Dean Lewis will be back on the campus in early November.

HERBERT MYRICK '82 TO LEAD BIG SPRINGFIELD MEETING

Connecticut Valley Alumni Alm for Big Returns for Memorial Building.

All western alumni are invited to a talk-it-over meeting to be held at the Broadway Grill, Springfield, at 6-15 p.m. Thursday, Oct. 24.

Herbert Myrick '82 is heading a committee that is enthusiastic in its desire to put Springfield on top in the Memorial Building campaign. At a recent luncheon, details of a plan of campaign were worked out, that, according to the committee, is going to make Springfield a pace-maker.

President Butterfield will be a guest at this informal dinner, and several of

(Continued on page 2)

CLASSES IN THE ALUMNI ORGANIZING FOR DRIVE

Send in Many Ideas for Reaching Our Goal.

There has been nothing in recent years over which every Aggie man, both alumnus and undergraduate, can become more enthusiastic and nothing toward which he can better show a 100 per cent Aggie spirit of loyalty and devotion, than the present campaign to raise \$150,000 for the erection of a Memorial Building to the 49 "Sons of Old Massachusetts" who paid the supreme sacrifice in the world war.

The campaign, already under way among the alumni, will be launched on the campus among the undergraduates shortly. Several leaders will be selected from the student body to canvass the men, each leader being assigned to six students. This is thought to be the best way in which to reach every member of each class, and while the committee does not appeal for large personal donations, it does ask for and certainly has a right to expect that every M. A. C. man will do his share.

Following are extracts from some of the class letters now being sent out, which are typical of the feeling that exists among the alumni, concerning the campaign.

From the 1918 class letter:

"Is this a worth while proposition? Should Aggie support it? Harvard and Tech each want \$10,000,000. Aggie needs \$150,000. Isn't our Alma Mater worthy of support to this extent? Do those boys deserve a Memorial? Is it a good form of Memorial? Does Aggie need it? Can we afford not to make a success of this campaign?"

The 1905 class secretary, writing to the class, has this to say:

"We now can do our further, and a most active part, by standing solidly behind the grand old college that gave us our start and to whom we can never repay the debt we owe. Forty-nine of our college boys have paid their debts and lie buried in France, that the good name of M. A. C. may be immortal. These men willingly sacrificed their all. The sacrifice now asked of us, who remain, is negligible. We contribute a small part of the dividends we have received on our college training, back to our college to do our part in helping to build a fitting and a lasting memorial to those who have made the supreme sacrifice."

The 1916 class secretary has this to say concerning what is expected of every '16 man:

"Our chance to do this is by every man of us pledging, to the limit of his ability, money to put up the Memorial Building to the men of our college who died in service. This \$150,000 building is surely worth supporting, as surely as these boys deserve a memorial, this is

(Continued on page 3)

FOOTBALL SQUAD DEVELOPS STRENGTH—FEW OLD MEN

Forty Men Promise Competition for Positions and a Snappy Team.

For the first time since 1916 Aggie men will be represented on the gridiron by a football eleven which promises to be the equal of any other turned out here.

The coaching staff, headed by "Kid" Gore '13, and assisted by Palmer '16, and E. Grayson '17, has been hard at work for the past two weeks with a squad of 40 men, which seems to be fast rounding into shape. Palmer, captain of last season's Camp Devens team, will assist head-coach Gore for two weeks, handling the men in passing and kicking. E. Grayson, captain of the 1916-1917 Aggie eleven, who is here for the season, will be line coach.

Pond '20, who put up a strong game at half-back on the 1916-1917 eleven, has been elected captain, and will have four veterans of that season, F. Grayson, Whittle, Holmes, and Goodwin, as a nucleus around which to build a fast team.

The squad is especially strong in back-field material and a fast, smooth-working combination should be developed. The line, where Holmes is the only former varsity man, must be built up from former class team material, which looks good and should develop as the season advances. The work thus far has been largely on fundamentals, passing, falling on the ball, and tackling, with some shadow scrimmages for the purpose of familiarizing the men with the plays and of correcting mistakes. To date Pond and Poole have been showing up well in kicking, getting away several 55 and 60 yards punts.

There have been few injuries and considering the spirit and enthusiasm of the squad, there is every reason to believe that the season will be entirely successful and that the team will rank with the best that Old Aggie has ever produced.

Backfield candidates are: 1920, Ball, Dewing, Goodwin, Jakeman, Moynihan, Pond, and Readie; 1921, Whittle, Poole and Long; 1922, Clark and Mallon.

The line will be selected from the following: 1920, Babbitt, Daggett, Davenport, Grayson, Glavin, Gray, Holmes, Magionis; 1921, Bunker, Cascio, Gould, Walte, King, Mackintosh, and Mansell; 1922, Acheson, Bigelow, Cotton, Freeman, Field, Gilbert, Krasner, Stevens, Wentach, and Walker.

1921 CLASS MEETING

At the Junior class meeting Wednesday Sept. 24 the following were nominated for the Informal committee: P. Newell, C. D. Kendall, R. Kendall, S. M. King, R. Leavitt, G. H. Richards. From these six, three will be elected by the student body at assembly Wednesday Oct. 1.

ALMOST ENTIRE STUDENT BODY

PRESENT Y. M. C. A. RECEPTION

Pleasant Evening Spent in Making

Acquaintances With the New and

the Old Men.

Last Friday evening, at 8:00 o'clock,

the annual Y. M. C. A. Freshman

reception was held in the Drill Hall. It

was attended by the entire Freshman

class, in whose honor it was given, as

well as many former Aggie men, who

are returning to college after service

overseas, and nearly the entire student

body. As each man entered the Drill

Hall door he was given a little slip of

paper on which to write his name,

home address, and class. These were

planned on the spot to make introductions

easy. The several hundred students

then gathered in the gymnasium, and

after about an hour in which they

circulated among the crowd, making new

acquaintances or renewing old ones,

they gathered at the north end of the

hall for a few speeches. Lyons, the

president of the Y. M. C. A. cabinet, in-

troduced the speakers, each of whom

was allowed three minutes to talk.

President Butterfield first welcomed the

Freshmen and the older men who are

returning after their absence, and told

how glad he was to be back to Aggie so

soon. He then gave a short word of

advice to entering men. He emphasized

the point that this war had proved

more than ever before that the great

fundamental of success is character,

and that here at college is the best

place to build that character and de-

velop leadership.

Curry Hicks was the next speaker,

with a word for athletics. He advised

every man in college to go out for some

form of athletics, or if this was impossible

at least support the teams which do go

out, not only support them by attend-

ance at the games, but give them

mental support and an occasional word

of encouragement. It is the things

connected with the activities at college

that are longer remembered than the

studies—things that bring out our col-

lege spirit and make us appreciate

something about Aggie deeper than its

book teaching.

A short talk was then given by

George Palmer, football coach, in

which he prophesied the success of this

year's team. He pointed out the fact

that there was a larger squad out this

year than for many years past and that

the material was as promising. Captain

Pond followed him with a short im-

prompt talk on interest in the teams.

He spoke well, to the point. Captain

Wright, of the track team, came next

with a few words. Crafts spoke for the

Seante, and Mr. Rand urged every one

to give his support to non-athletics.

Mr. Fielder closed the list of speakers

with a few words for the Y. M. C. A.

Worthley led "Sons of Old Massachu-

setts," and the gathering broke up.

SPRINGFIELD MEETING

(Continued from page 1)

Springfield's most prominent citizens

have been invited. A large attendance

is expected, as many Connecticut Val-

ley alumni have already replied to the

preliminary announcement of the meet-

ing.

This Springfield committee consists of

Herbert Myrick '82, chairman; Theo-

dore S. Bacon '94; Charles A. Rice

'07; Waldo D. Barlow '09; Roger S.

Eddy '10; Carl A. Shute '13; and John

Dickson Birchard '17.

ASSEMBLY

(Continued from page 1)

welcome to the service men, "with the

strongest grip that man can give."

Colleges have lived changed lives dur-

ing the past few years, and must now

make a fresh start.

In making this start three things are

necessary. First, college activities, in-

cluding varsity teams, clubs, etc., must

be rebuilt, and the old order improved

on it possible. The chief incentive to

this rebuilding will be loyal support on

the part of all students.

"Secondly, new standards of student

efficiency must be established. The

chief business of the College is to help

men study. Because everything, not

only in colleges, but over all the world

is in a chaotic state, leadership is now

placed on colleges, inculcating both faculty and

students.

"Finally, we must endeavor to grasp

the big ideals of our College. We must

be true to name, and loyal to the pur-

pose of the institution, which is to pro-

duce agriculturalists, not isolated

farmers, but true citizens, understand-

ing and capable of taking a part in

national affairs.

"The time has now come when we

must grasp these principles. To fully

accomplish this, constructive thinking

and constant co-operation are needed.

The former is not easy. Knockers are

plenty, but those who criticize with a

definite idea of bettering in view, are

few. Co-operation is the key to our

modern civilization, and a necessity if

success is to be gained. If these two

things, constructive thinking and con-

stant co-operation, are followed, a good

year can be assured."

President Butterfield also announced

the building of a Woman's Building in

the near future, and spoke of the pro-

posed Memorial Building. In connection

with the latter, he read a poem, "We

Are the Dead," written by a former M.

A. C. instructor to promote interest in

the building project.

After President Butterfield's address,

the College song was sung. Dean Lewis

gave out a few notices regarding studies,

and a short mass meeting followed.

M. A. C. STOCK JUDGING TEAM

WINS AT SPRINGFIELD

First, Second and Third Individual

Prizes Also Come to Aggie.

M. A. C. won the Intercollegiate Stock

Judging Contest at Springfield on the

first day of the Eastern States Exposi-

tion by better than a hundred points.

Individually, the members took first,

second and fourth places.

This is the first contest that has been

held in connection with the Eastern

States Exposition, and it seems credit-

able that M. A. C. should have won.

Teams from New Hampshire and Con-

necticut competed, and finished second

and third respectively.

Only classes of fat stock were judged.

This same team will probably compete

in the New England Dairy Judging con-

test at the Brockton Fair on October 24.

Plans are laid for this team also to com-

pete in the National Intercollegiate

Contest at the National Dairy Show in

Chicago on October 6th, provided the

necessary funds can be obtained.

The team consists of the following

men, named in the order of their rank

at Springfield: E. H. Taylor '20, E. E.

Harvey '20, and A. C. Williams '20.

The Memorial Campaign.

This campaign which opens to-day to
secure funds for a Memorial Building
is, without a doubt, the most significant
campaign ever launched by Aggie men.
It is significant, first, because it means
the erecting of the most fitting and
appropriate form of memorial possible
to the courageous sons of Massachusetts
who died during the world war. It will
be a magnificent tribute to their sacri-
fice. A tribute worthy of the men in
whose honor it is being erected. It will
keep alive for generations the spirit of
those men who did so much for the
student activities on the campus. It is
significant also because it means the
addition of a building very much need-
ed, yes, badly needed and which is not
likely to be secured through state ap-
propriations. This building is signifi-
cant for yet another reason fully as
important as those just mentioned. It
means there will be, for the first time, a
suitable place for the alumni to get to-
gether on the campus. It will be a
common meeting ground for alumni and
students and is certain to bring their
interests closer together. It is bound to
bring back the tide of college life from
pleasant street to the center of the cam-
pus where it formally and rightfully be-
longed.

Another campaign for funds, no
matter for what purpose, no matter how
significant, how important, how bene-
ficial, may seem at first thought but
one more imposition on our good nature
but it is not that—it cannot mean that
to a true Aggie man. The spirit of
pride enters in to make these subscrip-
tions not a sacrifice to the giver but a

pleasure, a source of self-satisfaction in
the deed.

The Senior class when they entered
in the fall of 1916 were met by an
appeal for funds for the Alumni Ath-
letic Field and they met the issue by
pledging the largest sum of any class
then in college. It was a job well done
and they have looked back upon that
event with pride and satisfaction ever
since. They feel that it was one of the
best things which the class has done
during its college career and they
should do their best to keep up the
reputation in this present campaign.

If the class of 1923 can realize, to any
extent at all, the gratification which
every member of 1920 felt after success-
fully meeting the challenge for sub-
scription to the athletic field, they will
bend every effort possible to establish a
similar record now. Alright Freshmen,
let's see you do it! You men of 1921
and 1922 show us you can make the
Freshmen hustle for the honors!

Some hard headed alumnus may say:
A memorial to our heroes is a fine thing
and a building is a splendid kind of
memorial, but why not put up a library
or gymnasium which will be of some
use. That is just the point we want to
bring out. There is no building which
is absolutely needed more than the one
proposed. The present billiard room is
entirely too small, poorly lighted and
poorly ventilated; there is no place any-
where on the campus for a man to play
cards; the library is too crowded to
afford room for comfortable reading in
easy chairs; should a man care to do
any bowling he must march all the
way down town; and frequently one of
the two lower classes is driven out of
the Social Union Rooms to permit the
Senior class to hold a meeting or
smoker. The Senate and Adelpia
meet in various places whichever
happen to be the most convenient at the
time. The Collegian in its course of
expansion has outgrown its present
headquarters and the office of the
Musical Club is generally in the best
room of its manager! The same is true
of the managers of the varsity teams.
Shall we allow such a condition to
continue?

We are entering a period of recon-
struction, readjustment, and better
organization which will stimulate here
at M. A. C. a finer, stronger, more loyal
Aggie spirit than has ever been known
before. This new spirit, loyalty, and
enthusiasm must and will carry this
drive to a successful and glorious finish.
It is up to us, students of M. A. C. to
prove with our pocketbooks that we
want and intend to have this memorial
building and then without question the
alumni will back us up and in turn
prove they too want to have such a me-
morial. Did someone say: I'll pledge
five hundred dollars? Who's next?

Welcome Freshmen.

The COLLEGIAN extends a most
heartily and sincere welcome to the new
men and women at M. A. C. this fall.

We extend this welcome especially to
the class of 1923 for you are the men
who must bring Aggie customs again
into prominence, develop the college
activities to a broader, higher state of
perfection than ever before, and again
make the reputation of Aggie teams
ring throughout New England. You
are the men who will bring new life,
new enthusiasm, new ideas to Aggie,
and it is expected that you will develop,
as you go through college, a leadership
worthy of Aggie traditions.

The first thing, men of 1923, is for you
to get a clear understanding of the job
ahead of you and then put your nose to
the grindstone and push with all the
energy and enthusiasm that is in you.
Don't forget to tackle the studies hard
for they are the most important item on
the list; then choose the activities, like
athletic or non-athletic, which you like
best, and strive to make your mark.
Now is the time, if ever, to develop the
qualities of leadership and of clear,
logical thinking, and there is no better
way to obtain this end than to get into
some activity and try to boost Aggie.

Every member of your class down to the
last man should do his level best to
help M. A. C. regain her feet in this
first normal year following the war.
Those who do most for the success of
their Alma Mater, derive the most ben-
efit from college life, and those men
who hold the biggest positions on the
campus today are those who have
worked hardest for Aggie. On the
other hand, every man who fails to take
his share in college life delays the
progress of the institution just so much.

The upper-class men and the alumni
are looking to you men of 1923 with
hopeful expectancy. Show us that our
trust in your success is well founded!

"Mud Slinging."

There appeared last spring in several
of the college newspapers of New
England, articles depicting the ugly
feelings that had arisen between frater-
nities of their respective campuses.
The most of the trouble was over inter-
fraternity conference rules and "mud-
slinging". Disagreement in a greater or
less amount concerning the conference
rules is normal on a campus, and is to
be expected. But "mud-slinging" is
thoughtless and can easily be avoided.
On this campus, disagreement over
rules has heretofore been satisfactory
adjusted, but the prying, underhanded
evil of mud-slinging has not, in the
past, been absent.

It is certain that fraternities that fol-
low a policy of mud-slinging will
sooner or later feel the sting of their
own remarks. But the most cutting
affect falls on the college body. Though
the first disturbances may smooth over,
they will have prepared a seedbed for
further discussion. Repeated attacks
of this disease will tend to disorganize
the internal affairs of a college.
This college, in its present state of half-
interested support of college activities

NOTIONS

J. H. TROTT, Pleasant Street

ONE OF OUR FORTY-NINE

(AS TOLD IN A LETTER TO HIS MOTHER)

By A BROTHER OFFICER

LIEUT. WARREN S. HATHAWAY, '20
KILLED IN ACTION, NOVEMBER 3, 1918

"I CAME to the 23d Infantry early in August; at that
time your son had been with the regiment but a short
time. I was immediately attracted to him by his sunny
disposition and ever-present sense of humor. He always
had something bright to say and always had a smile. He
talked much of home and the loved ones left behind. I
had known him but a short time before he showed me your
picture and that of his fiancée. These he carried in his
pocketbook, and I assure you he looked at them often;
he also always carried with him a small Testament, which
he frequently read.

"He had such a winning personality, that being a
father myself and much older than he, I could not (I am
thirty-six years old) help calling him 'Son,' and he in
return always called me 'Pop.' I tell you these things
that you may understand the relationship between us
and that you may appreciate that, in a small measure, I
feel and know keenly what his loss means to you.

"We made a flanking movement to the left which
brought us to the edge of the woods and here the fire was
so intense that we were obliged to lie flat on the ground. I heard a laugh beside me and turned
my head to find it was 'Son.'

"Some bullets, Pop,' he said, and laughed again; he actually seemed to enjoy it. An instant
after, I heard a dull thud and without moving, and with scarcely a change in expression, he said,
'They've got me; don't you move, or they'll get you.'

"You see, even then, he gave no thought to himself. I looked over and saw a hole through
his overcoat through the shoulder blade about an inch from the point of the right shoulder. It
was not bleeding much and he remained perfectly conscious, though I could see he was in pain.
I took off his belt and light pack and asked if there was anything I could do. He nodded his head,
'No.'

"For some minutes he lay there on his stomach, his eyes closed; then he said, 'Lieutenant,
if I don't come back will you send my pocketbook and diary to my mother?' I told him I would
and asked him where they were. He said, 'In my blouse.' In reply to my question as to whether
or not he wanted me to get them, he said, 'No.'

"His funeral, held on the 5th of November, 1918, at 2:00 P.M., was a military funeral due an
officer of our army. There was a military band of thirty-five pieces; his casket in the hearse was
covered with an American flag, on each side of which was a firing squad. Myself and the other
officers of this hospital were pallbearers. In the funeral procession were one hundred wounded
enlisted men who were able to walk, some of whom probably had served under him. At the
grave, Chaplain Beebe gave the blessing. Three volleys were fired over the grave by the firing
squad. Taps were sounded and your son laid at rest in the American Military Cemetery, situated
in Mesves-sur-Loire, Nièvre, France."

Your Memorial Building Pledge Is Needed NOW.

MAIL TO—THE TREASURER—MASSACHUSETTS AGRICULTURAL COLLEGE—AMHERST, MASS.

1919.

For Value Received, I gladly promise to pay to the order of THE ASSOCIATE ALUMNI OF
THE MASSACHUSETTS AGRICULTURAL COLLEGE the sum of _____
Dollars, in four equal installments as follows:—on January 1, 1920, July 1, 1920, July 1, 1921, and July 1, 1922.
Payable at the office of the Treasurer of the Massachusetts Agricultural College, Amherst, Mass.
Reserving the right of anticipating payments and of paying the whole or any portion of the principal
before maturity.

CLASS _____

ADDRESS: _____

ANNOUNCEMENT

It will be impossible to acknowledge the receipt of individual pledges during the
month of October.

They will all be acknowledged immediately at the close of the Campaign.

In this rushing season, let men be particularly careful lest further "mud-slinging" shake the already crumbling solidity of the student body.

J. A. C.

EVERY AGGIE MAN AT AN AGGIE GET TOGETHER

Plan Early for October 25. Give the Date to M. A. C.

"Every Aggie man at an Aggie get together." This is the slogan for World Aggie Night on October 25th. It is planned to have these M. A. C. "hospitality centers" in every place where there are any number of Aggie men, and alumni are to be advised to attend the nearest one.

This date will be a big one on the campus, as the football team is to play Vermont, and a combined student body and alumni dinner is planned for that night in Draper Hall.

Each M. A. C. Club and local Association is planning for big things at these meetings. President Butterfield has been invited to be a guest of the M. A. C. Club of New York. Willard Munson '05 will be in San Francisco and Dean Lewis will probably be in Chicago with the Western Alumni Association at the Union League Club.

The places where these Aggie Nights will be held and the alumni who are arranging them are as follows:

Anburn, Ala., Dr. W. E. Hinds '08.
Los Angeles, Cal., E. F. Damon '10.
San Francisco, Cal., Professor J. W. Gregg '04.

Denver, Col., M. W. Thompson '06.
Bridgeport, Conn., S. C. Johnson '19.
Chicago, Ill., T. J. Moreau, Sec., '12.
New Orleans, La., T. H. Jones '08.

Baltimore, Md., S. B. Haskell '04.
Boston, L. E. Smith, Sec., '14.
Pittsfield, S. A. Hole '15.

Worcester, G. D. Melleau '15.
East Lansing, Mich., Dr. R. P. Lyman '02.

St. Paul, Minn., Prof. H. K. Hayes '08.
Bozeman, Mont., Prof. R. A. Cooley.

Charlotte, N. C., E. S. Draper '15.
Albany, N. Y., R. Smith '17.

New York City, A. T. Beals, Sec., '02.
Cleveland, Ohio, A. D. Taylor '05.

Providence, R. I., W. S. Fisher '08.
Havana, Cuba, W. E. Leonard '10.

CAMPUS CALENDAR.

FRIDAY, OCT. 3.

7:30 A. M.—Chapel.

SATURDAY, OCT. 4.

3:00 P. M.—Football, M. A. C. vs. Conn. Aggie.

SUNDAY, OCT. 5.

7:30 A. M.—Chapel.

WEDNESDAY OCT. 8.

3:00 P. M.—Assembly, Dr. W. I. Chamberlain, Hudson, Ct.

The new cement walks in front of Stockbridge and Draper Halls are some noticeable improvements made during the summer. They are much more in keeping with their surroundings than were the old board walks.

Y. M. C. A. HANDBOOK AGAIN GUIDES ENTERING CLASS

Book Was Compiled And Revised By Association Secretary.

The Freshman handbook which has been published this fall for the first time in two years has again appeared on the campus. It is a small pocket booklet containing information of interest or use to Freshmen. It opens with a greeting from President Butterfield, and a review of the purpose and activities of the Y. M. C. A. as a college organization at M. A. C.

After the opening chapter comes "Information for Freshmen" where there is a short article on the college, and its purpose, history, and staff appointments. A new feature of the handbook is the several columns being of the new Memorial Building with the story of its purpose, and of Aggie in the Great War. College customs, Senate rules, Expenses, self help, the Infirmary, and other things of importance to Freshmen are taken up, and the college songs, and cheers which are to be learned by every Freshman are given.

Extra curriculum activities are taken up individually and their purpose shown. The records of last year's athletic teams are given together with the Captains, Managers and such matter of interest. Non-Athletic activities such as the college publications, musical organizations, dramatics, fraternities, societies, and clubs are given with their various purposes so far as possible. The rushing rules for the season are given as well as the object of Adelphe, and Phi Kappa Phi. The book closes with a review of the usual social activities at M. A. C., and points of interest in Amherst and its vicinity.

FRESHMAN MATERIAL BEGINS TO SHOW FORM

Ability of Several Men New to the Game and Ex-High School Players Encouraging.

The Freshman class was fairly well represented at their first football practice when 14 men reported to Coach McCarthy on Freshman Field. Although some of the men have never played the game before there are also a number of former high school men who will form a nucleus for the eleven. The prospects for a good team are fair, but nothing more can be said at this early hour.

The players are:
Latour, Sargeant, backfield.
Grayson, tackle.
J. Wilson, Hillard, ends.

Although Hardy has had no previous experience, he is playing a good game in the line and may develop into a good center. Other men are Blanchard, Sherman, Mirth, Magget, Beals, Tarplain, Bates and McGready. The date of the first game is not yet settled.

Kels S. Boland ex-'19, who returned to college this fall has left to accept a position with the Quaker Oats Co. in Boston.

THAYER '13 APPOINTED HEAD FLORICULTURAL DEPARTMENT

Twenty-three New Appointments Made Since April 1, 1919.

Mr. Clark L. Thayer has been appointed head of the Department of Floriculture at the Massachusetts Agricultural College. Mr. Thayer graduated from the college in 1913, and since that time has been associated with the Department of Floriculture at Cornell University, serving under Prof. E. A. White, formerly head of the Department of Floriculture at the Massachusetts Agricultural College. Professor Thayer will come to Amherst Oct. 1.

The following men have received appointments to the faculty since April 1, 1919:

D. L. James, Extension Professor of Dairying.

C. H. Abbott, Instructor in Zoology.

J. D. Zink, In charge Extension Exhibits.

R. B. Cuddey, Assistant Extension Professor of Animal Husbandry.

John Newton, Instructor in Rural Engineering.

R. L. Holden, Instructor in Animal Husbandry.

W. R. Cole, Extension Instructor in Horticultural Manufactures.

T. G. Hull, Assistant in Veterinary.

W. S. Welles, Professor of Agricultural Education.

L. W. Barnes, Extension Professor of Agricultural Education.

C. H. Thayer, Instructor in Agronomy.

Gilbert Watts, Instructor in Vegetable Gardening.

L. H. Parker, Instructor in Mathematics.

Ray L. Torrey, Instructor in Botany.

A. W. Spaulding, Assistant Secretary Alumni Association.

James L. Strahan, Assistant Professor Rural Engineering.

A. L. Dean, Instructor in Poultry Husbandry.

F. E. Wheeler, Instructor in Dairying.

E. H. Noline, Extension Instructor in Poultry Husbandry.

H. J. Hart, Instructor in Physics.

A. M. McCarthy, Assistant in Physical Education.

Leland Spencer, Instructor in Farm Management.

Ed. R. W. Walker, Commandant.

CAMPUS NOTES

Arthur Center ex-20 was on the campus for the week end.

James Fenton ex-22 has transferred to Springfield Y. M. C. A. College.

Kenneth Blanchard ex-20 has transferred to the Harvard Medical School.

Albert Whittemore has entered M. A. C. in the class of 1922. He transferred from Brown University.

George J. Thyberg '21 left Wednesday for Dartmouth to enter the Tuck School of Business Administration.

Pleasant street which was resurfaced last summer now presents a smooth surface which all tourists and visitors to Aggie should appreciate. The resurfacing improved the appearance as well as the riding qualities and altogether Pleasant street is now a street of which we should be proud.

1920 CLASS MEETING

At a senior class meeting held in the Entomology building, last Friday at 7:00 o'clock, the following men were elected by the class as candidates for election by the students to the Informal Committee: Batchelder, Lottrop, MacLeod, Lyons, Stedman, Harrington, and Skinner.

ENROLMENT OF FRESHMEN BELOW NORMAL MARK

Only 118 Men This Year, as Against 153 in 1916. Many Two-year Men.

For some indefinable reason, the entering class this fall is considerably smaller than the average entering classes of the pre-war period. At the present writing there are 117 Freshmen who have registered, compared to 153 who registered in the fall of 1916.

The Seniors number at present 103, the Juniors 100, and the Sophomores 112. In addition to the regular enrollment, there are 24 unclassified students, and 174 short course men; the latter figure including those registered for the vocational poultry and rural engineering course. Following is the 1920 enrollment:

Abele, Trescott T., Quincy

Alexander, Donald B., Roxbury

Alger, Mason, West Bridgewater

Ames, Nathaniel J., Peabody

Arnold, Ike, Boston

Arrington, Luther B., Florence

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

INTELLECT AND VIGOR OF COLLEGE MEN CHALLENGED

President Butterfield Assigns Three Definite Tasks to Educated Men.

President Butterfield at the initial Sunday morning chapel of the year spoke in part as follows on the subject, "The New Challenge to College Men":

The recent challenge to college men was a challenge of war. It was met magnificently by undergraduates, by alumni, by faculties. In courage and spirit, in leadership and in practical efficiency, college men covered themselves with glory.

But there is a new challenge to college men, in some respects just as stimulating as, and possibly even more difficult than, the challenge to war—it might be called the challenge to a militant peace. There are at least three aspects of this new challenge, this call to leadership.

First of all, the college man is asked to get a clearer understanding of true democracy. At present the big "drive" for more democracy is toward industrial democracy, which means the active and full participation of workers in industrial management and consequently in a share of the profits. The nature of the problem is illustrated by the ideas held by the extreme groups. The very radical men, the revolutionists, demand complete overthrow of capitalism. Then, there are the stand-patters, whose most cherished ideal seems to be the sacredness of property and the satisfaction of all the old arrangements. They are against unions, against collective bargaining. Now, somewhere in between these extremes lies the true solution. Unquestionably, labor should have a larger, if not a dominant share in industrial management and a fuller share of the rewards. But the solution can be found only in justice to all concerned, fair dealing and co-operation.

The second challenge is a very personal one. Our American democratic idealism has emphasized the freedom and the possibilities of the individual. This is a fundamental aspect of democracy, but unchecked it leads to selfishness. Colleges have been training experts, specialists for professional, engineering and business service, but in general the motive has been individual success and not primarily public service. The new challenge is that college men shall be the servants of democracy in industry, in politics and in social welfare.

But a man is a servant of democracy only when he makes his work contribute primarily to the welfare of the community and only incidentally to his own aggrandizement. College men are called upon to gain an intelligent appreciation of the problems of the war's aftermath and how they may be met.

The third challenge to the college men of today is to gain that clearness of vision which shall distinguish moral values. One illustration of this need must suffice. The most insistent question just now before us is the question of the right of labor to strike.

There are evident limitations to this right to strike. The overwhelming public sentiment of Massachusetts is, for example, against the right of policemen to strike. This unfortunate strike betrayed the lack of clearness of vision in distinguishing moral values. Somebody blundered because he could not see the truth. But an even larger question is at stake and is going to be fought in the near future. Have any public employees the right to strike?

If the government is to own the railways or to own the mines, will railway employees and miners have the right to strike? The moral obligations of employer and employee are not merely to themselves and to each other, but to the public as a whole. It is quite impossible to conceive that the public, represented by its government, shall assume ownership and direction of great enterprises except on the theory that the whole affair is to be managed for the public interest. At bottom, it is all a question of morals.

This matter of moral values as a practical issue after all comes down to the question as to whether Christian standards and ideals are really workable. Personally, I think there is no distinction between true democracy and applied Christianity, and to my mind, the supreme challenge to the college man of today is to understand what democracy means, and how the principles of the Man of Galilee may be applied so as to secure true democracy.

C. A. C. GAME SEASON'S FIRST GRIDIRON CONTEST

Opponents a Problem, but Will Find a Fast Team Here.

M. A. C. will open its football season Oct. 4, taking on Connecticut Aggies at Alumni Field. Connecticut usually sends a fast aggregation here and their team this year will probably be no exception. It is impossible to predict what the probable M. A. C. lineup will be. In point of experienced material Aggie appears to have a slight advantage over her opponents and a close, fast game may be expected. The game will be called at 2:30.

The football schedule, as compiled by Professor Hicks consists of eight games, four of which are at home. New teams appearing on the list of opponents for the first time in years are: University of Vermont, New Hampshire State, and Rhode Island State. The Tufts game, usually arranged for mid-season, is the last game, and for the first time in ten years will be played here. The schedule:

Oct. 4, Connecticut A. C. at M. A. C.
11, Dartmouth at Hanover, N. H.
18, Worcester Tech at M. A. C.
23, University of Vermont at M. A. C.
Nov. 1, N. H. State at Haverhill or Durham.
8, Rhode Island State at Kingston, R. I.
15, Springfield Y. M. C. A. College at Springfield.
22, Tufts at M. A. C.

CONCERTS ARRANGED BY WOMAN'S CLUB

Brings Famous Musicians.

The Woman's Club of Amherst has arranged an excellent program of concerts by eminent artists to be given in College Hall this fall and winter. The program is as follows:

Mabel Garrison, Soprano, Oct. 1.
Reinold Weirerath, Baritone, Oct. 31.
Harold Bauer, Pianist, Nov. 5.
Berkshire String Quartet, Jan. 9.

The price of the tickets for the whole course is \$4.00, but for the students of the colleges, a special price of \$2.50 has been set. The price of a ticket for one concert is \$1.25. Tickets may be obtained at Miller's store.

Frank Hale ex-20 is taking a course at Bryant and Stratton Commercial School.

Bevo
THE BEVERAGE
The all-year-round soft drink

For college men, business men, professional men, men of sports—baseball, football, golf, tennis, shooting, riding. For everybody, everywhere, the year 'round, Bevo is hale refreshing soft drink. Ideal for the athlete or the man in physical or mental training—good to train on and gain on. Healthful and appetizing. It must be ice cold.

\$26,000—MEMORIAL BUILDING PLEDGES

Remarkable Showing Made by Students, Especially Two-year Men and Freshmen.

Aggie men smashed their way once again to glory last Wednesday by pledging \$26,000 to the Memorial Building Fund. The stupendousness of the amount is realized when one considers that the average pledge per student was almost \$40. Many contributions were made of \$100 or over, while many ranged from \$50 to \$90. In some instances the largest pledges were made by men who are up against it financially. When asked why they gave so much the answer was often in this nature, "Why shouldn't I give it? Didn't many of my classmates give their very lives that I might return to the campus and enjoy once again the scenes which I had given up as past."

Such a spirit is characteristic of Aggie thru and thru, although at times it seems less prominent.

The very nature of the campaign makes the result seem the more wonderful. It was not a "rah rah affair" by any means. There was no bell ringing, no cheering, or excessive urgings. Far from it! A committee composed of about eighteen men from each class, Freshmen included, was selected by the Senate. These men met Howard Russell '18 Tuesday evening in the old chapel. The details of the campaign were outlined clearly. Each man was given a quota of six classmates to interview personally, being responsible for the return of the pledge blanks by 2:00 P. M. Thursday. The ten individuals attaining the highest totals from their classes were to be given a trip to the Springfield banquet that evening.

At Wednesday Assembly Howard Russell gave a short, peppy talk to the student body, urging them to give for the sake of the men who sleep in Flanders' Field, and for the sake of old Aggie. The appeal carried its message, for when the committee distributed the pledge blanks the majority of it required no further urging. In most cases it hurt. One of the most pleasing features of this campaign was the return of the pledge blanks by 2:00 P. M. Thursday.

At Wednesday Assembly Howard Russell gave a short, peppy talk to the student body, urging them to give for the sake of the men who sleep in Flanders' Field, and for the sake of old Aggie. The appeal carried its message, for when the committee distributed the pledge blanks the majority of it required no further urging. In most cases it hurt. One of the most pleasing features of this campaign was the return of the pledge blanks by 2:00 P. M. Thursday.

POND FOOTBALL CAPTAIN

The football team recently elected A. L. Pond '20, captain of this year's team. Pond played varsity football in 1916, and has a reputation, both at M. A. C. and in New England as an excellent backfield player. Pond played half-back up to this Fall, when Coach Gore shifted him to quarterback. All of Aggie's fifteen points last Saturday were scored by his rushing and toe work.

Total undergraduate contributions to October 4th, \$26,235.

Total of all contributions to October 4th, \$54,977.

*Based on the proportion of men contributing to the total number of actual graduates. Percentages over 100 mean that members of the class who did not graduate have been active in helping their Class and their College.

†Majority of these pledges were made while undergraduates.

AGGIE MAN DECORATED DR. GOLDTHWAIT GETS D.S.M.

Major-General Edwards Made Presentation Commending Development Work.

Dr. Joel E. Goldthwait '85, a noted Boston orthopedic specialist, is the last M. A. C. alumnus to receive a war citation. Maj.-Gen. Clarence R. Edwards, in the presence of his staff at the northeastern department, recently pinned on the medal. The medal, although awarded by the War Department several months ago, was late in arriving. The citation, read by Maj. M. J. Moore, department adjutant, stated that "the award is made for special work in organizing the development section in France."

In the speech that followed the presentation, Gen. Edwards praised the efforts of Dr. Goldthwait. He reviewed the work of the surgeon and said that many a soldier saw active service who, but for the work of Dr. Goldthwait, never would have seen the front.

(Continued on page 2)

CROSS COUNTRY TRACK TEAM WILL HAVE FOUR MEETS

Six Challenges Received By Manager Kendall.

Cross country at Aggie during the last week made a favorable showing when fifteen men reported to Coach Dickinson in the Drill Hall. Although there has been none of this sport in the last two or three years a large number of the old men reported with the addition of a number of new material. The following are some of the candidates: 1920, Goff, Lyons, Crawford and Gordon. 1921, Slate, Jones and Lambert. 1922, Hooper and Sullivan. 1923, Tanner.

Lyons '20 will have charge of the team this fall and will be assisted by Oliver Flint, '17, who has always taken an interest in track at M. A. C. and will be of aid to the team.

The same course in Amherst will be used as formerly. Starting at Drill Hall and going in order through the ravine, by Flint Laboratory, Old Chapel,

(Continued on page 2)

M. A. C. WINS FIRST FOOTBALL GAME

Pond Makes 80-yard Run for Touchdown from a Kick-off.

Saturday afternoon saw the renewal of football at M. A. C., when Connecticut Aggie came to Amherst and was defeated 15-7 on Alumni Field.

Although M. A. C. won, it was not until the second half that she really showed a superiority over her opponents. During the first half both teams made several substantial gains. Those for M. A. C. were made on line plunges by Whittle, while those for C. A. C. came as the result of a backfield shift and end runs that baffled our men for quite a time. Several penalties were given on both sides for offside.

In the second half the Aggie team showed a new pep. Although Connecticut scored seven points, at the end of the third quarter Captain Pond caught the kickoff on his 18-yard line at the opening of the last quarter and ran 40 yards for a touchdown. For about 40 yards he had a clear field, but the last 40 yards of his run was spent in dodging his opponents.

The game in detail was as follows: Connecticut kicked off to M. A. C. Pond caught the ball and ran it back 15 yards. After a 5-yard penalty Pond ran through the Connecticut defense for 10-yards, giving Aggie first down again. After three attempts to gain ground the ball went to C. A. C. on an incomplete forward. Connecticut gained 12 yards in four downs and the ball went to M. A. C. on a blocked kick recovered by Gilven. Connecticut next intercepted a forward pass and ran it back 12 yards. Following a penalty for M. A. C. offside play Connecticut was held for downs and failed in an attempted field goal. Aggie carried the ball 15 yards in seven downs. Grayson caught a forward from Pond and ran 20 yards. The first quarter ended here. No score.

In the second quarter Aggie made one first down before being penalized 15 yards for holding. Pond punted 50 yards and Connecticut ran it back to the 30-yard line. Aggie held and Connecticut punted to Grayson. He ran the ball back to the middle of the field. From there M. A. C. went straight down the field to a touchdown, Pond going through left guard for the score. Pond kicked off and the half ended. Score, 6-0.

Pond kicked off and C. A. C. was held for three downs and they kicked. Connecticut recovered on a fumble. Aggie held and Connecticut tried a second dropkick that failed by three feet. Pond punted on the second down. By a series of end runs Connecticut brought the ball to M. A. C.'s 10-yard line when an attempted pass was intercepted by Leut. Pond kicked and

CONN. AGGIE DEFEATED

(Continued from page 1)

Connecticut, after being held twice, scored a touchdown and kicked the goal. Score: C. A. C. T., M. A. C. 6.

Connecticut kicked off to start the fourth quarter and Pond, aided by perfect interference, made the sensational run already mentioned. Aggie kicked off. C. A. C. was soon forced to punt. Connecticut held and Pond tried a drop which missed by inches. After C. A. C. tried a series of passes M. A. C. intercepted, and with 30 seconds to play Pond kicked a field goal from the 20-yard line. Final score, 15-7.

The good physical condition of the team was well brought to notice by the fact that the M. A. C. team was not forced to call time at all during the entire forty minutes of play.

HOWARD RUSSELL '18 SPEAKS FOR MEMORIAL BUILDING

Puts Life Into Drive for funds.
Munson.

The assembly of Oct. 1 had a definite purpose in view; namely, to enthuse the student body, and instigate it to make its part of the Memorial Building appropriation a large and suitable one.

After the college song had been sung, Dean Lewis introduced the principal speaker, Howard L. Russell '18, of Worcester. His talk was especially forcible, because he is well-known to the two upper classes, and spoke as an Aggie man to his college friends. Mr. Russell spoke of the great work that has already been done by the alumni, of the meetings in Boston and in other cities, where thousands of dollars have been pledged. He said that the students' opportunity had now come. Men are now coming back to Aggie every day, men from the classes of '18, '19, and '20, to finish their college courses. They tell me how good it seems to be back on the campus, but they all say that, somehow, the old life is missing. It belongs to the present student body to rebuild that old Aggie life.

You Freshmen have been here over a week, and haven't won anything yet. Get together, and put out winning teams. You Sophomores are letting the Freshmen break all the rules with impunity. Get after them, and show them where they belong. You Juniors aren't doing much to bring M. A. C. back to its old standards. And last of all, you Seniors, it is you who have seen life here at its best, and you should be the leaders in its reconstruction.

Moreover, right here today is a chance to begin your work. By subscribing largely to the Memorial Building, have one thing behind you this year that you will be proud of, and that will be a fitting symbol of the spirit of the present student body.

After Mr. Russell's talk, Willard Munson '05, who started Thursday afternoon with Dean Lewis on their Western trip, spoke a few words. "I am going to start tomorrow to the Western alumni. I want to take to them a message from you, and show them by your subscription that those now at M. A. C. are for this building with all their hearts. You will be the first to enjoy the privileges that it will afford you, and the alumni wants to feel that you are behind them in the project."

A mass meeting was held after assembly, and ballots were passed out for a new informal committee. The following men were elected: Seniors—H. L. Harrington, G. L. MacLeod, H. E. Lyons, and S. Batchelder. Juniors—R. F. Readle, S. M. King, and P. Newell.

HOME DEMONSTRATORS HAVE SUCCESSFUL CONFERENCE

Eighteen Experts in Household Economics Gather for Comparison of Ideas.

The Home Demonstration Agent Conference was held on the campus, Sept. 30 to Oct. 3 inclusive. The personnel consisted of eleven country home demonstration agents, one assistant county home demonstration agent, and seven urban agents.

Mr. Redman, acting director, opened the conference by giving a welcome to all present, and by giving information concerning administrative matters.

Household management, clothing efficiency, school lunches, food preservation, care and purchase of utensils, etc., were discussed and demonstrated throughout the conference.

Urban work is now being continued in seven of the cities, which were organized for work during the war in co-operation with the U. S. Department of Agriculture and M. A. C.

The group unanimously voted that the conference was the best ever held and should be a source of profit to all who attended.

COLONEL WILSON RESIGNS AS MILITARY INSTRUCTOR

Lt.-Col. in Charge of Military Training Here.

The College wishes to express its regrets over the recent departure of Colonel Wilson and family. Arriving at Aggie two years ago, the Colonel has served the government faithfully as commandant of the military department. Especially during the S. A. T. C. was Colonel Wilson's presence appreciated. During his brief stay at the College, the Colonel has made countless numbers of friends among the students as well as among the faculty, who now wish him all the fruits of happiness that his years of labor have earned him. He will make his home in Seattle, Wash.

Lieut. Colonel Walker has been assigned to take Colonel Wilson's position as commandant of the college. He is a man of wide experience, having served in the Philippine campaign, in Mexico, and in Cuba. It is Colonel Walker's aim to ultimately establish a cavalry unit at the institution. At present, however, his energies will be directed to bringing to perfection the R. O. T. C. Infantry Unit that was established here in 1916.

The progress of this unit was interrupted by the war early in 1917, but now with the college practically back on its old basis, the prospects are exceedingly bright for developments in the unit. The object of the training will be to give students of an educational institution opportunity to train for reserve officers at the same time training for their professional careers. The training will be compulsory for Freshmen and Sophomores and elective for Juniors and Seniors.

The course for the Juniors and Seniors will provide for a variety of subjects including 80 hours of minor tactics (practical), 20 hours of map making and map-reading (practical) and 10 hours of military law. This course should prove an interesting one for the military inclined as well as those who at present feel prejudiced against militarism.

TOWN HALL

Thursday, Oct. 9

Geraldine Farrar and Milton Sills in "Shadows"

A big modern drama unlike anything she has done before. In which the International celebrity sparks in an unusual role.

Fathe News Mutt and Jeff Topics of the Day (from Literary Digest).

CAMPUS NOTES

"Harry" White '15 has been back on the campus this week. He returned on a leave of absence from Teh-how Shantung, China, where he has been a missionary, and is residing with his family in Peabody.

"Sid" Johnson '19 was on the campus last Sunday meeting old friends. He is inspector for a dairy concern in Bridgeport, Conn.

"Dolly" Dole '15 was on the campus, this week, assisting "Kid" Gore in training the centers.

Ray Wason ex-'22 is now at Dartmouth.

Carl Bogholt '21 and Lawrence '22 are agents on the campus for the new co-operative laundry.

Kappa Gamma Phi Has New House. Kappa Gamma Phi has joined the fraternities on Pleasant street by occupying what was formerly the Gibb's house. Alterations in interior arrangement and the installation of a more extensive plumbing system have converted the house into a very comfortable living quarters.

Dr. Itano Married.

The COLLEGIAN has just received the following announcement which will interest to all readers of the paper. Dr. and Mrs. Hideo Noguchi of San Francisco announced the marriage of their friends, Dr. Arai Itano and Miss Yayeko Noda on Thursday, the twenty-eighth of August, 1919. Dr. and Mrs. Itano are at home at 7 East Pleasant street.

Prof. Waugh's New Book.

The library has recently received a copy of an interesting contribution, entitled, "Occupational Therapy in Tuberculosis" written by Captain Frank A. Waugh of the Sanitary Corps, U.S.A. This is a critical retrospect upon the program of physical reconstruction as developed in the military hospitals for tuberculosis in the United States. It is based on a year of good service, which Prof. Waugh spent at the United States base hospital, No. 16, in New Haven from July 1918 to August 1919. The forty-one pages of text are accompanied by a large number of splendid photographs, showing the sort of work which was carried on by our soldiers during the process of their reconstruction.

New Fossil Collection.

Otto Degener '22 has presented to the Entomology department of the college a small collection of fossil insects and plants. Mr. Degener collected the specimens himself during the summer at the Florissant Deposits near Pikes Peak, Colorado, on the site of an ancient lake.

1922 Class Meeting.

The Sophomore class held a short meeting Wednesday. C. F. Clark was elected manager of the class football team and Albert Higgin manager of the rifle team.

Freshman Class Meeting.

At the Freshman class meeting held on Wednesday in the Bowker Auditorium the matter of increasing the class pledge to the Alumni Memorial Building Fund was taken up, and it was decided that each member of the class should increase his pledge by \$3. The net increase realized by this will help the class standing in the campaign materially. The question of class dues was discussed, but no definite action was taken.

'15.—George F. Hyde announced, recently, the birth of a daughter at his home in Hurlock, Md.

WORK ON WOMEN'S DORM-ITORY STARTED ALREADY

Situation near the West Experiment Station.

The excavation work has been started on the women's dormitory, money for which was provided by the last Legislature. The amount of the appropriation was \$127,400. The site chosen for the location of the building is that immediately north of the West Experiment station and west of Pleasant Street.

The outside dimensions of the building are 154 feet by 54 feet, the construction will be of brick with fire walls. The dormitory will accommodate 98 girls and will provide quarters for the matron and care takers. Nearly all the rooms are arranged for two occupants, although there are a few single rooms.

The building will have three floors and a basement. The first floor has in the center, an attractive living room and two small parlors. The matron's quarters are on this floor and the remaining space is devoted to dormitory rooms. The second and third floors are designed exclusively for dormitory purposes. The basement has ample storage capacity and rooms for the maids.

The architect of the building is Mr. James H. Ritchie of Boston, who has designed all the college buildings during the last eight or ten years. The contract has been awarded to the E. F. Carlson Company of Springfield.

It is expected that the building will be completed and equipped for the beginning of the college year in September 1920.

WINS AT BIG BROCTON FAIR

Team Judges at the National Dairy Show This Week.

The M. A. C. Stock Judging Team, which is making a tour of the country, judging stock at the various fairs in competition with other college teams from all over the country; has been making an unusual time showing. At the Brocton Fair the team won over all other teams by 240 points. Williams of the M. A. C. team won first place, a Connecticut man was second, Taylor, M. A. C. third, a New Hampshire man fourth, and Harvey of M. A. C. fifth. This gave the M. A. C. team three out of the first five places, and an easy victory.

At the Eastern States Exposition at Springfield week before last the team won by 100 points, Taylor of M. A. C. making the best score on our team, Harvey second, and Williams third.

Last Saturday the team started for the National Dairy Show at Chicago and will there compete with teams from all over the country. The Show starts the early part of this week.

DR. GOLDTHWAIT DECORATED

(Continued from page 1)

Dr. Goldthwait's specialty consisted in developing men who were not permitted to be sent to the front because of minor defects, such as flat feet and the like. He had charge of the development battalion of the 29th division and of the thousands of men sent to the reconstruction and development camp. Dr. Goldthwait was a member of Aggie's "old school," and sang in the musical clubs and played class football before a varsity team was in existence.

The 1920 Index.

It is indeed gratifying to learn from the Business Manager of last year's Index that the Junior annual was a financial success. It has been so many years since such a report has been made on the campus, that the achievement is of exceptional interest. While it is not the best Index ever put out, it is an attractive annual, well arranged, and a decided credit to the class; but the important point about it is, that it met the conditions which existed here last year. The small size was justified by the limited number of students then in college, and still it was large enough to contain all the most interesting material. The reason for the success of the 1920 Index was due largely to the class cooperation between the business department and the rest of the board, and to the foresight and extreme care with which the whole book was planned. It has so often happened, as is frequently the case with undergraduate activities, that the expenses prove to be more than were expected and the receipts less than those anticipated, that the call for an extra tax to meet the financial deficiency has a familiar sound. The expenses of the 1920 Index, however, were carefully estimated, with this in mind, and the sources of income conservatively estimated. Once fairly launched, the Index was guided to financial success by the business efficiency of the manager.

Aggie Spirit Improving.

The amounts pledged for the Memorial Building by the undergraduate body is simply one indication that the old Aggie spirit has not died—it is still with us and is reviving rapidly. The magnificent pledge of the Freshman class shows that they have caught the college spirit, that they have made their first impression as a class, and that it is a good one. The spirit has taken hold of the short course men, for the first time to any appreciable extent, as indicated by their remarkable contribution to the drive. Not only that, but they are developing a fast football team and are demanding an outside schedule. The

spirit has begun to manifest itself at the Dining Hall in the good old cheers which have hardly been heard for two years. As was to be expected, the football game which resulted in a victory over Connecticut Aggie last Saturday did more, perhaps, than anything else could to get the student body into the spirit and feeling which used to pervade this campus. The game was well attended and the enthusiasm ran high for the first game of the season. We have seen the regret, in some of the other college papers, that the old spirit seemed to be lacking, that there was not the same life on the campus as in former years. That opinion has applied equally well to Aggie, but things are changing for the better here and on every college campus. The activities are slowly assuming their pre-war aspect, and campus life will soon reach its former pace.

A Farm Handbook.

The college library has recently received from H. J. Baker, an Aggie alumnus, a most interesting little handbook on agriculture, composed of the lecture outlines and summaries of the courses given to the students of the American E. F. University Farm School at Allerey, Saone-et-Loire, France. The material was prepared by instructors of the farm school for their own use in the class room, and originally there was no intention of having it printed. Some of the instructors had only a few days in which to prepare their material, and as the printing was done hurriedly, many typographical errors appear and the lectures are not uniform in makeup, yet the Allerey Handbook is a very interesting and valuable little book. It is divided into five sections: Agricultural Engineering, Agronomy, Animal Husbandry, Horticulture, and Rural Economics and Sociology. Under each division are several subjects presented in a very condensed form, yet containing nearly everything of importance. It is a book which students may profitably look up.

To 1923.

The average Aggie man is not wealthy. He is, in fact, as far as the strata of American society are concerned, of the middle class. Now-a-days, with life's necessities so dear, it means much actual sacrifice for parents to allow their children to attend college. But, realizing that they are in a position to better the chances of their sons and daughters, to make them command where they themselves have obeyed, these parents are willing to make sacrifices, and to utilize the opportunities that such an institution as M. A. C. affords.

The point is this—Entering men will find here time to loaf, time to squander minutes and money foolishly. Look a long time at costly pipes, banners, college fees, and the like. You will find plenty of time to acquire a social polish during your Junior and Senior years. Think twice before making a trip to "Hamp" or "over the mountain." You have four long years to accumulate luxuries, four short years to fit yourselves for life. Remember that every dollar you spend here has been wet with somebody's sweat. Make those dollars count! Every hour that you loaf has been balanced by an hour of labor. Make those hours count! Let your education come first. M. A. C. thinks more of her record of successful alumni than she does of her record of unsuccessful ones or informants. Some-

body's hands were blistered to send you here. Blister your brains! B. F. J.

3:00 P. M.—Assembly, Pres. K. L. Butterfield

FRESHMAN FOOTBALL TEAM PLAYS MONSON SATURDAY

Five Game Schedule Planned. New Schools Listed.

Under the guidance of Coach McCarthy the Freshman football team seems fast getting into shape. The schedule is changed this year compared to former years, in that the Monson game on Saturday opens the season, instead of being near the end of the list, as formerly. The squad has been working hard the past few days in preparation for the game. The work has consisted, of scrimmages, drills on fundamentals, and rehearsals of plays. Latour and Sargent have been showing up well in the backfield, while Hardy and Grayson look well for line berths. In scrimmage with the varsity first team last Tuesday the year eleven showed up very well and it is safe to assume that they will prove capable of upholding the reputation of former Freshman teams. It is impossible to predict at this time what the lineup for the Monson game will be. Coach McCarthy is trying to arrange a game with Greenfield for Oct. 18, which will round out a well balanced schedule of five games, as follows:
Oct. 11—Monson at Monson.
18—Greenfield at Greenfield (pending).
25—Deerfield at Deerfield.
Nov. 1—Arms Academy at Amherst.
8—Williston at Amherst.

'14.—Word has also been received from E. L. Pareis, who holds a good position with the Grasselli Chemical Co., Elizabeth, N. J.

SIMPLICITY

OF THE
DE LAVAL

Simplicity in cream separator construction avoids waste and makes possible quick and easy handling of milk.

The De Laval Cream Separator is remarkably simple. Thousands of De Laval separators are run and cleaned by children every day.

This simplicity means long life and freedom from repairs, and is the outcome of over forty years of unquestioned leadership in cream separator inventing, developing and perfecting.

Every part has been developed to its highest degree of simplicity coupled with efficiency, and the De Laval has earned for itself the name of being "the world's standard separator."

More De Laval separators are in use than of all other makes combined.

See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

A MESSAGE FROM YOUR BUILDING COMMITTEE

There are times when arguments are unnecessary.

We are so earnest in our desire to tell you all the "reasons" for your Memorial Building pledge that we could fill this page with them.

But isn't it a bit unnecessary to have to give arguments in favor of an undertaking like this?

We feel that there is something about this Campaign that should keep us away from posters, bell-ringing, and speech-making.

It is a quiet understanding among Aggie men to make good in a small way as those forty-nine boys did in a big way, that is going to "put it over" NOW.

ALUMNI NEWS

The following men are expected to be present from North Carolina on World Aggie night, Oct. 25: H. B. Bursley '13, H. T. Frost '15, J. C. Campbell '17, M. N. Goodwin '15, John Pellet '14, H. W. Baxter '16.

'94.—Ralph E. Smith of 145 North Serrano Ave., Los Angeles, Cal., has been doing field work for the University of California in the lower part of the state the past year.

'96.—E. W. Poole of New Bedford is battalion adjutant of the 14th Inf. State Guards now on duty in Boston.

'98.—William L. Howe is stationed at the South Army Boston, being a sergeant in the 11th Company from Marlboro.

'13.—George Mallett and Sid Johnson '19 are organizing an M. A. C. Club at Bridgeport, Conn., which will have a meeting in the near future.

'15.—Dick Sears is attending the Harvard Graduate School of Landscape Gardening.

'15.—Earl Draper is in charge of the campaign among the alumni in Charlotte, N. C.

'15.—"Dolly" Dole has a new position with the Berkshire County Farm Bureau.

'16.—E. F. Damon is in the sales department of the California Fruit Growers' Exchange, at Los Angeles.

'16.—"Duke" Curran is back on the campus helping Coach Gore with the football squad.

'16.—T. S. Rogers has returned to Boston from Texas bringing, as a surprise, a bride.

'16.—Benjamin Vener, who has been in the service as microbiologist and camp food inspector, has returned to Tait Brothers in Springfield. He was married shortly after the armistice was signed to Miss Gathel of Springfield.

'17.—Maurice Goldstein, formerly an ensign in the U. S. navy, took up his position with the Plymouth Creamery company the latter part of August.

'17.—Paul Latham has gone out west to enter the tractor business.

'17.—Bud Ross has charge of the Memorial Building campaign in the city of Boston.

'17.—The engagement of Ray Irving to Miss Marjorie Merrill of Tamilton is announced.

'17.—"Zip" Webster and his wife were around the campus last week.

'18.—Darwin S. LeVine of Sherborn, is running for representative from Middlesex county.

'19.—Willard French is working for the Warrior Mountain Fruit Co., Oldtown, Md. Bob Collins has a position with the same firm.

'19.—Eliot Bullen has charge of the dairy department at Walnut Hill Farm, Ralnes, Tenn.

'19.—"Bunny" Bowen is studying equipment and automatic development in the West Street Laboratories of the Western Union Telegraph Co.

'19.—Verne Fogg has a position as county agent in White River Junction, Vt.

'19.—E. S. Faber is teaching and coaching athletics at Allentown Preparatory School, Allentown, Pa.

'19.—"Bill" McKee is on the editorial staff of the *Berkshire World*.

'19.—"Earle" Phipps is assistant entomologist in Hudson, N. Y.

'19.—John Yesair left last week for Baltimore, Md., where he will take up the study of medicine at Johns Hopkins University.

'19.—Louis Hastings is taking a graduate course in microbiology at the University of Vermont this fall.

'19.—Announcement has just been received of the engagement of Miss Bertha Howard Barrows to Harold Edwin Spaulding.

'19.—Raymond T. Parkhurst has been doing extension work for the Iowa State college in the poultry department. His present address is 111 Russell ave., Ames, Iowa.

'19.—"Red" Blanchard is working on the Mortimer Peach Farm, Grafton.

'19.—Myrton F. Evans has just secured a position with Swift and Co., at Pawtucket, R. I.

'19.—"Red" Cosby has been employed this summer at the Emerson Laboratory in Springfield doing analytical work.

Ex-'19.—"Cy" Tirrel is still in the army and expects to go to Alaska.

HERE

Is the place for you to buy your clothes while you are in college. We have had over thirty years' experience in selling goods to college men at *reasonable* prices. For every dollar that you spend here you get full value, and remember that our goods make good or we will.

SPRINGFIELD MEETING STARTS DRIVE WITH \$4400

Undergraduate Leaders Enjoy Dinner and Enthusiasm of Older Men.

Last Thursday at the Hotel Bridge-way in Springfield a banquet was held as a part of the big Memorial drive in that section of the state. Beside the alumni there were a number of other men present, including President Butterfield and Prof. Hicks. Nine men from the student body were sent as guests, because of their work in raising the quota on the campus. They were Maples, Crawford, Cratis, and Harrington of 1920, McCarthy and Fuller of 1921, Gowdy, Collins, and Spring of 1922.

Toastmaster Myrick introduced the first speaker of the evening, Willard Munson '05, who had to leave early for his tour of the West to raise money for the drive. At the conclusion of his short talk he was given the college cheer.

In order that each might know all, each class was asked to stand as its number was called. The class of 1871 was the first class asked to stand. There were two members of this class present, Mr. Leonard and Mr. Tucker. The class of 1917 had the largest attendance.

President Butterfield was called on for a word in regard to the Memorial. One thought in particular was brought out in his remarks. It was that the time has come for the alumni to support the college in a financial way. He reminded the men that a building of this kind is a thing that the state can not give. If it is to be a true memorial, it must be given to memory by the College, not by the state. He mentioned the instance this summer when a group of men on the campus gave their state bonus to the fund. He remarked that a drive backed by this spirit can not fail. It must go over the quota.

Crawford '20, who alone collected \$794 in pledges, the highest amount turned in the college drive, was called on for a few words. He responded with a humorous story, illustrating faith in the future in pledging so much.

Other men who spoke were Mr. Harry '75, Al Spaulding '17, Mr. Parker, and Mr. Curtis.

The meeting broke up at 8:45, after the men present had responded generously and pledged about \$4400 to the fund.

CROSS COUNTRY

(Continued from page 1.)

through the field to Clark Hall, Prexy's Hill, through the orchard to Lover's Lane, East Pleasant Street, Fearing Street, Lincoln Avenue, and finishing on Alumni Field. This course is about five miles in length.

The following college athletic associations have written to Manager Kendall for meets; four of these applications will probably be accepted: Williams, University of Vermont, Tufts, Boston College, University of Maine and New Hampshire State.

BUSINESS BEFORE PLEASURE

The business of choosing the goods and measuring up must naturally come before the pleasure of wearing the finished suit. Choosing in "Tom's" new daylight Emporium is simple enough—and measuring is a matter of moments. Consult Walsh about your new suits.

The "Constitution" of To-day—Electrically Propelled

THE U. S. S. "New Mexico," the first battleship of any nation to be electrically propelled, is one of the most important achievements of the scientific age. She not only develops the maximum power and, with electrical control, has greater flexibility of maneuver, which is a distinct naval advantage, but also gives greater economy. At 10 knots, her normal cruising speed, she will steam on less fuel than the best turbine-driven ship that preceded her.

The electric generating plant, totaling 28,000 horsepower, and the propulsion equipment of the great super-dreadnaught were built by the General Electric Company. Their operation has demonstrated the superiority of electric propulsion over old-time methods and a wider application of this principle in the merchant marine is fast making progress.

Six auxiliary General Electric Turbine-Generators of 400 horsepower each, supply power for nearly 500 motors, driving pumps, fans, shop machinery, and kitchen and laundry appliances, etc.

Utilizing electricity to propel ships at sea marks the advancement of another phase of the electrical industry in which the General Electric Company is the pioneer. Of equal importance has been its part in perfecting electric transportation on land, transforming the potential energy of waterfalls for use in electric motors, developing the possibilities of electric lighting and many other similar achievements.

As a result, so general are the applications of electricity to the needs of mankind that scarcely a home or individual today need be without the benefits of General Electric products and service.

Figures that tell the Story of Achievement
Length—624 feet
Width—97 feet
Displacement—32,000 tons
Fuel capacity—a million gallons (fuel oil)
Power—28,000 electrical horsepower
Speed—21 knots

An illustrated booklet describing the "New Mexico," entitled, "The Electric Ship," will be sent upon request. Address General Electric Company, Desk 44, Schenectady, New York.

General Electric Company
General Office Schenectady, N.Y. Sales Offices in all large cities.

\$26,000 PLEDGED
(Continued from page 1)

ner in which the short course men came across. Self-organized, they raised the sum of \$3093. Surely the spirit of old Aggie lies not dormant within all of us.

The following table gives the latest information on the campaign up to Oct. 4. The faculty committee has not yet received all its returns, so a report will be made later of their success. The stenographers and clerical staffs around the campus have also promised us a surprise for next week.

| CONTRIBUTIONS BY CLASSES. | |
|---------------------------|-------------|
| 1920, | \$7161.00 |
| 1921, | 6006.50 |
| 1922, | 3875.50 |
| 1923, | 4701.00 |
| Total, | \$21,834.00 |

| SHORT COURSE PLEDGES. | |
|-------------------------|-----------|
| Unclassified, | \$558.00 |
| Two-year men (special), | 3,693.00 |
| Graduate students, | 150.00 |
| Total, | \$4401.00 |

The following table gives in a more detailed form the showing of the short course men:

| | |
|--------------------------|-----------|
| 1920, two-year men (15), | \$446.00 |
| 1921, two-year men., | 1942.00 |
| Federal Board men, | 1305.00 |
| Total, | \$3693.00 |

The Aggie men who belong to the federal board contributed \$1905.00.

Such was the spirit shown on the campus in a twenty-four hour campaign. Think of it, over \$4000 per hour, totaling in all over \$26,000.

The ten best campaign leaders in order of the amounts turned in are:

1920—John A. Crawford, Harold C. Harrington, James C. Maples. 1921—Lorenzo Fuller, Justin J. McCarthy, Elton J. Mansell, Edward Labrovitz. 1922—Herbert Collins, Hobart Spring and Carlyle Gowdy.

MUSICAL CLUBS MEET TO DISCUSS YEAR'S PROSPECTS**Good Material in Entering Class To Make Organization a Success.**

At a meeting held last Wednesday in Social Union about 30 men reported to Manager Horne as candidates for the Musical Clubs. At least half as many more are expected to report.

This year promises to be a very successful year for the clubs, as a number of the older men are back and as the class of 1923 seems to contain an exceptional amount of musical ability. With Harlan Worthley, Charles Boardman and Theodore Mitchell as a nucleus, the clubs will commence practice this week. Prof. F. P. Rand will be faculty manager this year.

As yet no schedule has been made out but the usual concerts will be held in Hadley and some other small town before Christmas. On Dec. 19, the Boston trip will commence, lasting until Christmas. After the New Year, concerts will be given in Worcester, Springfield, Pittsfield and a number of other cities.

Any men who wish to join the clubs should see R. S. Horne, Q. T. V. House.

"14.—Word has been received from Arthur W. Brooks of the Grassell Chemical Co., Elizabeth, N. J. He announces the birth of a son, Arthur W., Jr., Aug. 13. He also tells of meeting "Frank" Pitts '12 recently, who has been working in a chemical concern in Newark, N. J.

PROSPECTS FOR DARTMOUTH GAME ARE FAIR—M.A.C. LIGHT

Neither Team has Showed Exceptional Ability or Speed.

The second game on the football schedule, to be played with Dartmouth at Hanover next Saturday, should be fast and interesting. In the light of last week's games, M. A. C. should hold the big Green team down to at least a small score.

Dartmouth opened their season two weeks ago with Springfield, and tore the latter's first line to pieces, piling up forty points, without their own goal being seriously threatened. In that contest, Robertson, the Dartmouth half-back, played a remarkable game, while the entire backfield were constant gainers. Cammell, as quarter, played well, and Holbrook, who substituted for him in the last quarter, did some good forward passing. However, fumbles were frequent in the Dartmouth backfield, and the play was loose throughout.

Last Saturday, Dartmouth played Norwich, and was held down to a 13-0 score, all the Green points coming in the last part of the game. Dartmouth showed lack of good form in almost every department, the backs being unable to gain through the cadet's line. Robertson kicked well, having the better of a duel with the Norwich quarter. Robertson, also, with Holbrook, made most of Dartmouth's gains. Fumbling was costly, a fumbled punt being carried to the Green's five-yard line in the first period, and only Robertson's toe prevented a touchdown. No one in the Dartmouth line played a particularly good game, though most of the tackling was done by the secondary defence.

On Aggie's side, Pond is expected to counter-balance the punting of Robertson. He kicked well in the first game, and his goal from placement was clean-cut. Pond also showed up well as a ground-gainer, making several short runs in addition to his long sprint for a touchdown. Lent also made many gains for M. A. C. Forward passing was not a success in the first contest, and only once during the game was a gain made by this means.

The line, where the team lacks veteran skill, showed need of much bolstering for the attack of the heavy Dartmouth backs. The Connecticut team gained rather disconcertingly through the line last Saturday, especially in the third period. On the other hand, fumbles were not frequent.

From the evidence at hand, it seems that the two teams meeting next Saturday have similar weaknesses in their lines, and that both depend on their backs to cover that weakness. Considering these facts, Aggie can look for a well-fought contest, with even a remote hope for a victory.

POMOLOGY CLASS GOES TO THE NORTHAMPTON FAIR

Last Thursday the Senior class in pomology 75 made a trip to the Northampton fair to study the pomological exhibit. Accompanied by Mr. Drain of the pomology department, the class took the 1-30 trolley. Prof. Sears was the official judge at the fair, and after the students had been given an opportunity to study how the fruit had been placed each student was required to place five different varieties to test his ability at judging. The class looked around for suggestions for the Senior fruit show which is gotten up each

WHAT man doesn't like his pipe? There's nothing whets your smoke desires like seeing a good pipe lying around. Because you know that in it is the only real smoke satisfaction. Your appetite will be doubly whetted if it is a WDC, because in WDC Pipes all the sweetness and mellowness of the genuine French briar is brought out by our own special seasoning process. Then, too, WDC Pipes are good to look at. The designs are pleasing and workmanship perfect. You'll agree with us that our craftsmen are accomplishing their purpose—to make pipes that are without peers in all the world. Ask any good dealer. Be sure and look for the Triangle trademark. It's a guarantee against cracking or burning through.

spring by the members of this class for Farmers' week. The class was dismissed about 3:00 o'clock, and those who wished remained to see the rest of the fair and to return home later in the day. The trip was considered a decided success and many of the boys learned to distinguish more varieties than they would otherwise learn in a long time.

ALUMNI BANQUET DATES ARRANGED FOR OCTOBER 25

All Aggie Graduates and Ex-men Should Attend a Banquet.

The following banquets for World Aggie Night have been definitely decided upon. The place and time and local leader is given in as many cases as possible.

Havana, Cuba, Hotel Plaza, 7 p. m. W. E. Leonard '10.

Boston, City Club, 6:30 p. m. W. V. Hayden, '13.

Chicago, Ill., Union League Club, 7 p. m. Theodore Moreau, '12.

Worcester, State Mutual Restaurant, G. Melican, '15.

Providence, R. I., Hotel Dreyfuss, 6 p. m., Willis Fisher, '08.

Albany, N. Y., Hotel Ten Eyck, 8 p. m., Richard Smith, '17.

Los Angeles, Cal., Hotel Clark, E. F. Damon, '10.

New York City, City Club, 7 p. m., A. T. Beals, '02.

St. Paul, Minn., 1460 Hylthe Street, H. K. Hayes, '08.

Cleveland, Ohio, 2178 South Overlook, A. D. Taylor, '05.

Washington, D. C., Unshuman's Cafe, 8 p. m., J. A. Hyslop, '08.

San Francisco, Cal., Solavis Restaurant, 7:30 p. m., J. W. Gregg, '04.

New Orleans, La., Hotel Grunwald, 8 p. m., H. J. Neal, '09.

Springfield, 6-15 p. m. Bridgway Grill, Walter Barlow, '09.

Encouraging news concerning the Building fund has been received from W. Munson, '05, the alumni representative in the West. Speaking of the enthusiasm of the alumni he says, "The alumni are certainly glad to have someone from the east come to see them, one man came over one hundred miles to be present at an informal meeting last night."

SHORT COURSE ENROLLMENT UNUSUALLY LARGE THIS YEAR

Nearly Two Hundred Two-year Men and Women Desire Practical Training.

The new short course which has been started at M. A. C. this fall seems to have met with considerable success in drawing students. The present enrollment has already reached 173; a number which will probably be increased within the next month to about 225. There are 12 men now enrolled in the one-year poultry course which is a limited course. Besides these there are 10 taking a one-year course in rural engineering. The rest of the 172 are taking the two-year course. Forty men, so far, have been sent here by the Federal Board for vocational education, and some 25 to 50 more such men are expected to be sent here by the end of October. M. A. C. has been made the training center for the first district, which includes all of New England except Connecticut. Mr. Novitski, of the

Rural Sociology department, has been placed here by the Federal Board for vocational education as co-ordinator to make adjustments for the government with soldiers detailed to the college.

Courses for the two-year students include courses in agronomy, animal husbandry, dairying, farm business, pomology, horticultural manufactures, poultry, rural engineering, vegetable gardening, entomology, floriculture, forestry, hygiene and sanitation, English, farm and community problems, and rural home life. These courses are so arranged as to be quite general, and at the same time give the students the grasp of the subject that he needs. The course is quite practical and contains much individual laboratory work.

INTERCOLLEGIATE NOTES

Credit to C. A. C.

Connecticut Aggie should be given a lot of credit for continuing with their football schedule after having a member of their team killed in the first game of the season. That is enough to dampen the fighting spirit and enthusiasm of any eleven, yet they put up a stubborn fight from start to finish Saturday afternoon on Alumni field. Credit where credit is due; hats off to Connecticut Aggie!

German Revives.

Though the idea of dropping the study of German from several high school and college curriculums has been advanced more or less, it is rather interesting to note that at Trinity the enrollment in the German courses, especially beginners, German has gained at the expense of Spanish.

Pep from Football.

At a football mass-meeting held in Alexander Hall at Princeton a short time ago, a large number of alumni returned to attend and hear Coach Roper tell what was what and why in Princeton football, all of which goes to show that football enthusiasm cultivates a love of Alma Mater.

'17.—Mr. and Mrs. Edwin Warren Clark announce the marriage of their daughter, Esther Myra, to Charles Warren Curtin, on Saturday, Sept. 6.

TAYLOR WINS HOLSTEIN JUDGING PRIZE AT CHICAGO

Team Fares Poorly Among Born Stock Judges of Middle West.

In one of the keenest stock judging contests ever held at Chicago the Aggie team received twelfth place. There were fifteen teams competing and these were well scattered over the country, ranging from New Hampshire to Washington, and from the Dakotas to North Carolina.

One of the brightest factors of the contest was the showing made by E. Taylor '20, who romped away with the first prize in the Holstein class. Taylor has had considerable experience in judging cattle by assisting his father who is a cattleman of wide repute at the various expositions. The capturing of this prize by Taylor gives him, automatically the Holstein scholarship of four-hundred dollars that will allow him one year of post-graduate work in any Agricultural college of the country.

The results of the contest are entirely satisfactory to the Animal Husbandry Department, for it must be considered that the state colleges of the west have a great advantage over us by being near to so many cattle raising districts.

TRIAL RESULTS OF CROSS COUNTRY TEAM PROMISING

First Seven Men Within 275 Yards in First Race Over Three Mile Course.

The cross country team last Saturday showed that Aggie has excellent material for a fast team. At the end of the run State led Gordon by about half a yard, while Lyons, Grey, West, Crawford and Murray, in the order named, were well-bunched immediately behind them. Tanner '23, did well for the Freshmen, coming in eighth. Grey, West, Murray, Ball, Redding, Haslem, Becker and Evers are candidates for the team not mentioned in last week's issue.

The schedule has not yet been given out, but it is hoped that a meet can be arranged with W. P. I. next Saturday afternoon in Amherst, in addition to the football game.

Cross country has always been popular at M. A. C., and many good teams have been developed in past years. Last year, because of the uncertain war conditions, only one meet was held, and in that Springfield was beaten.

Nothing is known of the strength of any of the teams with which M. A. C. may compete, as few meets have been held thus far this fall, but with the material on hand a successful season may be looked forward to.

The Alpha Gamma Rho Fraternity announces the pledging of Newton C. Lincoln '21, of Newton.

FIRST INFORMAL OF YEAR COMES SATURDAY, OCT. 18

Committee Plans For Large Attendance—Football and Cross Country Give More Entertainment.

Saturday Oct. 18 witnesses the staging of the first informal of the year on the campus. The affair will be held in the Drill Hall as in ye good old days with the college orchestra furnishing the music. It has been so arranged that the informal will furnish a subsidiary item to the extensive program of the day, which consists of the W. P. I. football game, and possibly a cross-country race. Dancing will commence as soon after 8:30 as possible.

The committee in charge is making extensive preparations in anticipation of a record breaking attendance, and certainly no pains will be spared to make the first informal of the year the most successful since the war. However, the success of the event depends upon the student body and their

(Continued on page 10)

LIGHT AGGIE ELEVEN HOLDS DARTMOUTH TEAM TO SMALL SCORE OF 27 TO 7

First Football Score Against Dartmouth in Ten Years by M. A. C.

M. A. C. lost to Dartmouth 27 to 7 last Saturday in a well fought game at Hanover, in which Aggie crossed the Green goal line for the first time in ten years, and made the first score against Dartmouth on her home field since before the war.

Dartmouth's line far outweighed the Aggie line, but failed to make consistent gains on center plunges, most of the Green gains being made on tackle plays and end runs. Pond scored Aggie's one touchdown after four spectacular line plunges in which the ball was carried only 2 yards in the four downs.

Aggie won the toss, Dartmouth kicking to Aggie's five yard line, where Dartmouth recovered the ball from a fumble and sent it over the line for a touchdown, by a series of tackle plays, end runs, and straight line plunges.

Here the weight of the Dartmouth team showed to better advantage than at any other time during the game.

Pond caught the second kick-off and ran to our 20 yard line where he was tackled and later made a three yard gain through center only to loose the ball on an intercepted forward pass. Eckberg of Dartmouth broke through the line with the stolen ball, but was laid low in nearly a clear field by one of Whittle's pretty tackles. Aggie then held Dartmouth to short gains on several line plunges until she recovered the ball on one of Dartmouth's unsuccessful attempts to make a gain.

Pond kicked the ball to the 55 yard line, where Cannell of Dartmouth caught it and made a run through a broken field to our 15 yard line. Aggie then regained the ball, and Dartmouth was penalized 10 yards. Pond kicked to the 40 yard line where Aggie soon regained the ball by intercepting a forward. Pond again kicked and the ball was stopped on the 45 yard line. The Green then found it hard fighting and just made their distance on the fourth down. Hollbrook made a touchdown after a hard fight near the Aggie line, making the score 14 to 0. A couple of minutes later the first half ended.

The second half brought our men out even more determined than ever to hold the Green line and "carry it to 'em". Dartmouth kicked to our 15 yard line, and Pond kicked back to the 40 yard line. M. A. C. again recovered the ball only to have Dartmouth score on a blocked kick.

Aggie's turn then came to score, and the ball went over the line on a series of brilliant forwards caught by Grayson and a hard fight at the end. Pond kicked off to the 10 yard line where M. A. C. was penalized 5 yards for being off side. Aggie thus got the ball and kicked along the ground to the 45 yard line. Grayson recovered the ball on an intercepted forward, and made a 35 and a 15 yard gain on forwards which were a feature of the game. Dartmouth was then penalized 5 yards, bringing the ball to her two yard line, where Aggie pushed it over, against stubborn resistance, on the fourth down. Lent then kicked a goal and the score stood 21 to 7.

Pond was put out of the game soon after Aggie's score, and the M. A. C. line began to show the result of a hard fight. The Dartmouth line, renewed by substitutions, made one more touchdown, but failed to score a kicked goal, closing the game with the score 27 to 7.

Pond at quarter was Aggie's outstanding star, though forced to leave the game from injuries in the last quarter.

The Aggie line showed stubborn resistance to the heavier line of Dartmouth and showed considerable ability at forward passes. Grayson at right end caught several sensational passes and deserves considerable credit for his work. Goodwin at center also did some line work against men who far outweighed him. Other men who deserve mention are King for his fine tackling and line play, Whittle for tackling, Lent for his line plunges, and Holmes for play against a hard opposition.

Eckberg and Holbrook were the stars for the Green team, both figuring conspicuously in their line attacks. Dartmouth failed to make any successful forward passes, although several were attempted.

The Aggie team was well supported on the benchers, and the sixty-five or seventy students who were there to cheer the team on deserve credit for their loyal support. Such a showing as that so far away from home shows that the old Aggie spirit is still with us.

COACH DICKINSON LEAVES

M. A. C. FOR WASHINGTON

Will Take Up Work of Beautifying

Reed Hospital Grounds.

The departure, Thursday, of Laurence

S. Dickinson '10, Superintendent of

Grounds department, and also varsity

track coach, to take up landscape work

at the Walter Reed General Hospital,

Washington, D. C., is viewed with much

regret by both the students and faculty

of the College.

Coach Dickinson was graduated from

this college in 1910, leaving behind him

an enviable record of track achieve-

ments. Soon after, he accepted the

position of superintendent of grounds, a

responsibility which he handled until

recently. The notably splendid appear-

ance of the campus at all times speaks

well for his work in this line.

The phase of his efforts were better

known to the students in his work with

the track team. From the time of his

graduation he had acted as Nicolet and

Whitney. M. A. C. owes much of her

success in track to his efforts.

In addition to his other duties, he

acted as temporary general manager of

non-athletic activities during the past

year.

Coach Dickinson goes to the Walter

Reed Hospital for the purpose of laying

out and beautifying the grounds. As the war department has made this hospital a permanent institution, much landscape work will be necessary to keep pace with the new building program in force there. The task of completing this work in an artistic manner, in keeping with the general beauty of our national capital, lies before him. The COLLEGIAN wishes him success in his new enterprise.

FRESHMEN WIN FIRST GAME

DEFEAT MONSON 57 TO 0

Unusual Speed of Yearling Eleven

Scattered Monson Hopes.

In their first game of the season, the Freshmen won, to the tune of 57-0, at Monson Academy, Saturday. Playing a snappy, thorough game from the kick-off to the final whistle, the hard drills of Coach McCarthy, a former Monson and Aggie star, showed gratifying results. The first touchdown came after five minutes of play. From then on the Freshman goal was never in danger. Monson tightened up in the third quarter and held for the time being, but the Freshmen resumed their victorious march in the last session.

Their forward passing was of a high order, the greater part of the tries being successful. The feature of the game was Grayson's 60-yard run. Receiving the ball at the kick-off on the 30-yard line, before he was downed. Sargent, Tarplin, and Grayson excelled for the Freshmen, and Bradway and Ester for Monson.

The summary:

M. A. C. FRESHMEN. MONSON ACAD.

J. Wilson, A. Wilson, le re, Bradway

Latour, lt rt, Aldrich, Baskaloff

Mohr, lg rg, Allen, Ester

lhb, Stone

Sargent, rhh

Beals, lb

Score, M. A. C. Freshmen 57. Touch-

downs, Tarplin 3, Sargent 2, Grayson,

Mohr, J. Wilson, Blanchard. Goals

from touchdowns, Grayson 3. Referee,

Comee. Umpire, Hilliard. Head lines-

man, Orcutt. Time, 10 min. periods.

SHORT COURSE GAME

The two year men, playing their first

game of the season, were defeated by

Williston Academy Saturday, 20-0.

Despite the fact they had been in un-

iform for four days previous to the game

the short course men developed a sur-

prising staying power. The Will-

iston team had the advantage of weight,

training, and previous playing experi-

ence. End runs and line plunges net-

ted the home team a total of 20 points.

Raymond and Pickard excelled for the

short-course men Clifford for Monson.

The line-up for the two year men:

Lesmer re, Snelling rt, Trafion rg, Ray-

mond, Burnett c, Burnett, Knight lg,

Hoffman lt, Girard le, Pickard facing

capt. qh, Wiggin rhh, Steel lhb, Salo,

Perkins lb. Time four 10 minute pe-

riods. The lineup of the Williston

team was unobtainable.

INTERCOLLEGIATE NOTES

The Tufts football team is to hold secret practice the first four days of each week, as the authorities fear the presence of representatives of other institutions among the students who watch the daily work-out. Open practice will be held every Friday and on the day preceding a trip.

Princeton has instituted an artillery reserve officer's training course, with riding soon to begin. Fifty cavalry and light draft horses have been obtained from the War Department for this purpose.

The Tech, a semi-weekly published at M. I. T. has the enviable record of uninterrupted publication during the past three years, including the summer season.

A discussion is being carried on in the editorial columns of *The Harvard Crimson* as to the advisability of substituting synthetic foods for those now being served in the dining halls. Based upon the elements contained in fats and sugars, the recipe for scrambled eggs is: "To one quart of water add three quarts of sunlight, and gradually heat to a low temperature. Season to taste and serve cold." What will be the next "Ersatz" that our learned brethren of Harvard will concoct?

Stevens Institute has developed a new style in Fresh-Soph contests known as the Cage Ball Rush. The Cage Ball is on the order of a push-ball. The teams are divided into three or four equal parts, being ranged in lines 10 to 20 yards apart, parallel to the goal posts, which are the same as those of a football field. Each team has its half of the field. The object is to pass the ball over the bar between the posts without allowing the ball to touch the ground. Other rules make the game safe and the idea being to eliminate the possibility of injury.

M. A. C. SHOULD WIN GAME AGAINST W. P. I. SATURDAY

Showing of Aggie Team in First Two Games Better Than Worcester's.

In the third game of the season, the fast travelling Aggie eleven will line up against Worcester Tech Saturday afternoon at 2:30 on Alumni Field. After taking Connecticut Aggie into camp 15-7, and holding the big Green eleven 27-7, there is every reason to believe that Coach Gore's charges will be on the big end of the score, though no easy contest is looked for.

Worcester Tech is reported to have a team fully as fast as that of former years and one which will no doubt put up a stiff resistance to the Maroon and White offence. Early in the season the Worcester boys were beaten by Wesleyan 6-0, and last Saturday they lost to R. P. I. 13-0.

Following the Connecticut game, Coach Gore made some changes in the line, sending Glavin to left end, putting Bunker, who has been out with an injury to his shoulder, at left guard, and sending McIntosh to right guard. These changes appear to have strengthened the defence materially, and that the backfield has the necessary punch was clearly demonstrated by the series of rushes which took the ball over the Dartmouth goal line for the first time this season, on Saturday at Hanover. Several forward passes, with Grayson on the receiving end, were pulled off against the Green, and M. A. C. is certain to gain ground by the aerial route against W. P. I. Captain Pond

Entered as second-class matter at the Amherst Post Office. Accepted for mailing at special rate of postage provided for in section 1103, Act of October, 1917 authorized August 20, 1918.

A Snappy Cheer Leader.

The importance of a good, energetic cheer leader cannot be over emphasized, for he is the one man responsible for the development of the right kind of Aggie spirit. The success of athletics is largely due to his leadership in arousing interest and enthusiasm among the students. All mass meetings and celebrations are carried on under his supervision, consequently his influence on the morale of the student body is very important. The cheer leader must possess strong personality and ability to fill properly his position. Next Saturday's game will give the candidates for the assistant cheer leaders an opportunity to demonstrate their ability.

M. A. C. Press Club.

It has been suggested that an M. A. C. Press Club be organized on the campus. This is an excellent idea and the Collegian strongly advocates its adoption.

A Press Club is a very important undergraduate organization in most of the leading colleges and performs a valuable function in their publicity campaigns. It has long been recognized by these institutions that well organized publicity is necessary if they are to continue to grow and expand.

This college has never had sufficient publicity and as a result the growth of the college has not been as rapid as it should be. If M. A. C. is to adequately fulfill its purpose, the people in every city and town in this state must know what is being done by the college. There are several students on the campus this year writing for various Springfield and Boston newspapers. Why not organize and see that the newspapers of the smaller cities and towns are supplied with accounts of games and other news items.

Another suggestion is an undergraduate Publicity Committee which would send a notice to the High School and to the town newspaper every time an Aggie student made a position on a team or was elected to an office. This scheme, however, is better suited to the large universities where a plan of this kind

can be better organized or left to a bureau financed by the college or alumni association.

An M. A. C. Press Club, however, could very easily be formed on the campus and it is hoped that the suggestion will meet with approval and adoption.

LIBERTY BONDS

ACCEPTED AT PAR

BUILDING COMMITTEE

The Squib.

One phase of the general reconstruction work on the this campus is the re-appearance of the Aggie Squib.

The Squib is the outcome of many attempts on the part of M. A. C. students to publish a humorous paper. At varying intervals in the life of the college numerous leaflets have been printed. In 1914, the Friday War Cry, a two page collection of jokes, appeared. Out of the organization of the War Cry the Squib was born. It grew rapidly until it appeared in the form of a monthly magazine in the year 1916-1917. In December, 1917, on account of the war which left only two men on the staff, the publication was suspended.

The quality of the humor of past issues has varied from excellent to questionable, and naturally at the same time the situation of the finances has shifted from prosperous to bankrupt. The direct cause of the fluctuation of the financial situation is due to the support given the activity by the student body.

The same problem lies before the student body today—the problem of supporting a relatively new activity. The amount of support given the Squib staff in its efforts to publish a humorous paper of high quality will be an indicator of Aggie loyalty and Aggie progressiveness. Let men and women on this campus support the Aggie Squib and establish a college humorous paper.

CO-EDS ENTERTAIN AT OLD CHAPEL DANCE

Keen Rivalry for Partners Enlivens Evening's Program.

Social life at M. A. C. was further stimulated last Saturday night when the co-eds gave a party and dance in the old chapel. As is usual the men greatly outnumbered the women, but a number of cut-in dances gave everyone a chance to dance.

The party commenced at 7:30. Each person as he entered was promptly tagged as to name and home town. General introductions followed before the dancing started. The music was furnished by a two piece orchestra consisting of a piano and drum. In order that those that did not dance might be happy a game of Jenkins-up was played in the side room. A number of Paul-Jones's helped to bring the dancers together more. Ice cream was on sale in the hall during the dance. As guests of the girls were Prof. and Mrs. Phelan, Prof. and Mrs. Mackinnon, Mrs. Patterson and Dr. and Mrs. Iiano. The affair was considered successful by all who were present at the entertainment.

WAR RISK INSURANCE

Discharged soldiers, sailors, and marines, who have dropped or cancelled their insurance, may reinstate it within 18 months after discharge without paying the back premiums.

For example, if a man dropped \$10,000 of insurance in January, 1919, and applies for reinstatement the first of October for \$5000, all he will have to pay will be the premium for October on \$5000. In case he desires to reinstate the entire amount that he formerly carried, \$10,000, his premium payments will be the January and October premiums upon \$10,000.

If application for reinstatement is made promptly, the certificate of the insured concerning his state of health, which must be as good as at the date of discharge or at the expiration of the grace period, whichever is the later date, will be accepted. If the application is not made within the prescribed time limit, however, the formal report of examination made by a reputable physician must accompany the statement of the insured concerning his health.

Conversion of the reinstated term insurance into permanent United States Government life insurance is also provided for in the new ruling, under advantageous conditions.

Full particulars, application blanks, etc., may be had by corresponding with the Insurance Office, Headquarters Northeastern Department, Room 718, 99 Chaucer street, Boston, Mass.

SIMPLICITY

OF THE

DE LAVAL

Simplicity in cream separator construction avoids waste and makes possible quick and easy handling of milk.

The De Laval Cream Separator is remarkably simple. Thousands of De Laval are run and cleaned by children every day.

This simplicity means long life and freedom from repairs, and is the outcome of over forty years of unquestioned leadership in cream separator inventing, developing and perfecting.

Every part has been developed to its highest degree of simplicity coupled with efficiency, and the De Laval has earned for itself the name of being "the world's standard separator."

More De Laval are in use than of all other makes combined.

See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

WORLD AGGIE NIGHT
SATURDAY, OCTOBER 25

This is the date that M. A. C. men get together in every part of the world. It is *our* night.

In memory of that room in "South" or "North"—in memory of those years on Old Aggie's Campus—to recall those friendships of '71 or '80 or '93 or '16, make it *your* night.

Which of these Get-Togethers will you attend? You will help by writing a card to one of these men telling him to expect you on the 25th.

Y. M. C. A. PLANS OUTLINED FOR THE PRESENT YEAR

More Complete Program Than That of Last Year.

With the distribution of the Hand Book, the reception to entering men, and a very active week for the employment bureau, the College Y. M. C. A. has entered upon a busy year's work, which will cover a wide range of activities. Practically all new students have received the Hand Book, most of them about a week before college opened. The annual reception, on Friday evening, was attended by about 450, affording an opportunity for everybody to become acquainted with the student body and with the customs of the college. On Saturday, forty men were placed on farms and in other work, and other places were utilized for lack of applicants.

In keeping with its fundamental purposes, the Association in formulating its plans has kept in mind two goals, a more thorough knowledge of Jesus Christ and a closer acquaintanceship with him on the part of the whole college community, and the fostering of the spirit of service which grows out of this closer acquaintanceship.

The promotion of personal daily Bible study and prayer will be one of the chief aims. At present a large number of men are beginning their days in this way. It starts the day right, and is an unfailing source of strength. In the near future cards of daily readings and suggestive questions will be made available to everyone.

The mid-week devotional meeting, with speakers from the faculty and out of town, will be held each Thursday evening.

The association will cooperate with the local churches in finding leaders for Sunday School and Young Peoples' work, and by providing leaders for small churches in outlying communities.

Boys' Club work also will be emphasized, and men are sought who are interested in such work, with sewing and corn club and pig club work.

So far as possible, Americanization work will be undertaken, with a view to aiding foreign speaking people to learn English, become citizens, and enter more sympathetically into the life of the country.

The study of social problems and of missions will have a prominent place in the program, and in the winter there will be another series of group discussions on these subjects. Plans also have been made to have two or three outstanding authorities address the student body.

The Association will work hard for a Northfield delegation that will far outstrip the record representation of last year, when 23 Aggie men were there, and also will try to send full delegations to the great Y. M. C. A. and Student Volunteer Conventions this fall.

The Y. M. C. A. will cooperate with the directors of short courses by providing a social center for the short course men, and do everything possible to make their stay here pleasant and profitable. It desires to be of the utmost friendly service to all men of the college, and trusts that in case of need they will unhesitatingly make their wants known.

18.—Louis Lyons is now working for the Boston Globe. He is also taking a journalism course at Harvard.

M. A. C. MEN COME THROUGH

Landscape Gardeners form Partnership in Toledo, Ohio.

F. Ellwood Allen and Milton F. Sherman desire to announce their partnership as landscape architects and the opening of an office in Toledo, Ohio, 431 N. 1st Building. Mr. Allen was formerly assistant professor of landscape architecture at Ohio State University and Mr. Sherman practiced the profession in Boston. Both are graduates in their chosen professions and are in position to satisfy their clients with original designs of landscape architectural beauty. Both are graduates of M. A. C.

CORNELL FLORICULTURAL STAFF GIVES THAYER DINNER

The staff of the department of Floriculture at Cornell University gave a complimentary dinner at the Forest Home Inn, Sept. 29, to Clark L. Thayer who left to become Associate Professor of Floriculture at M. A. C. Professor Thayer brought with him the warm esteem and best wishes of all. During the six years he has been in Ithaca he has made many warm friends in the College and town. His careful preparation and the clear presentation of his lectures, also his personal interest in his students, have made him a valued teacher. His experience in floriculture have been varied and broad, and his associates at Cornell predict a strong development of the department at M. A. C. under Professor Thayer's direction.

COMMUNICATION

TO THE EPISCOPAL CHURCH STUDENTS IN MASSACHUSETTS AGRICULTURAL COLLEGE:

Through the courtesy of the COLLEGE I am writing as the Rector of Grace Church, both to welcome to Amherst those of you who are entering and to suggest to you all some thoughts on your relationship to the Church while you are in college. You are here to secure a good education, and to that end the College and the church should work in closest harmony and the college man should be the most intelligent member of the Church. And for this reason you learn that man is essentially religious and you yourselves are searching for Truth. You are finding out that Religion has to do with every department of life. In fact it is the key to right living. It is not merely emotion but the direction of the intellect, the feeling and the will to God and for men. In all ages God has influenced the willing souls of men with intellectually and morally, leading them onward and upward. But more than that He spoke once in history as Man to man in order to lift man to God. The Christian Religion tells you that Jesus Christ is Himself the Truth, the living, personal embodiment of Truth and the answer to the longing and seeking of the human soul. In Him was life and the life was the light of men. And the Church? It is His accredited agent till the end of time for bringing all the world into touch with God. Though broken in its expression into many divisions and humanly faulty, it is authoritative and universal in its scope and application. Its mission is to teach us in Christ's Name about God, and by prayer and sacrament to leave us in His Presence. Holy Communion is spiritual, personal touch with God, the crown of Religion and the incentive and dynamic for service. Thus pointing the way and providing the means of approach, the Church becomes the helper of every seeker after the Truth. Do you see my point? Many still think that the point of view of the Church is opposed to that of intellectual research. To the contrary, it supplements and explains it. Its purpose is to help you to think truly and to become future Christian leaders, whether as clergy or laity, in the life of the Nation. You need the Church and the Church needs you to represent it in the college life. I invite you to the services and to the use of the parish library of good religious books. There will be a general parish reception in Grace House Thursday evening, Oct. 16, to which you are cordially invited, and you will always find a warm welcome at our home at 50 Main Street. HERVEY C. PARKER.

STENOGRAPHERS GIVE DANCE FOR MEMORIAL FUND

Pleasant Entertainment at Harvest Social a Complete Success.

This Monday evening in the Drill Hall the stenographers of the college held a dance in order to raise money for the Memorial building fund. It certainly shows a fine spirit on the part of these young women, and should be a help in bringing in more contributions from the alumni.

The dance was in the charge of Miss Ruth Brooks under whom the following committees served: Decorations and refreshments, Emily Davidson, Pearl Davidson, and Laura Sabine; music, Clara Swift, Francis Powers, and Doris Tower; publicity, Florence Bridgman, Katharine Gardner, and Pearl Davidson.

The music was of the best and was served by Boyce's orchestra with Boyce at the piano, Wood on the saxophone, Luce playing the violin and Dumbard working the traps.

The refreshments were light but right to the point and consisted of cider and cookies.

The decorations were very simple but were in perfect harmony with the autumn out of doors. They consisted of red lights, piles of corn husks, pumpkins and sprays of autumn leaves. The piano was placed in the center of the room and was backed with a setting of the above named scenery.

The chaperons and guests of honor were Professor and Mrs. Robbins, Professor and Mrs. Patterson, Miss Skinner and President Butterfield.

The dance concluded just before 12 and was a great success not only because of the good time but because of the spirit in which it was given.

POMOLOGY CLUB NOTICE

The first meeting of the Pomology Club for the year was held last Tuesday evening in Wilder Hall. There were a large number present to discuss the program for the year. Professor Drain outlined to the club the policies and activities of the Horticultural Club of the Ohio State University of which he was a member. Plans were made whereby the club would be increased in size and activity. As a direct result of the excellent enthusiasm present, this coming week is to be marked by a drive for membership culminating in the regular meeting of Oct. 21, 1919, to which students are very cordially invited to attend. The meeting will be in Room A of French Hall.

16.—W. S. Dickinson is surgeon at the Educational Branch Base Hospital at Fort Sam Houston, Texas.

Who's the Profiteer?

"Not I," says the packer.
"Not I," says the manufacturer.
"Not I," says the retailer.
"Surely not I," says the consumer with the flat pocketbook. "And positively not the farmer!" thunders

The COUNTRY GENTLEMAN

True enough, the farmer has profited by war prices. But to what extent? Well, he has been able to paint his house so it looks as well as the grocer's in town.

He has been able to buy an automobile as good as the plumber's. His family has been able to wear clothes as good as the other church folks. In other words, the farmer for the first time has had a fair living wage for his labor, with a little return on the capital he has invested in his farm and its equipment. The farmer is not a profiteer, and THE COUNTRY GENTLEMAN will fight to prove his right to a fair profit for his labor and his products.

A year's subscription to THE COUNTRY GENTLEMAN (52 issues) is the biggest dollar's buy on the market. Get your money's worth—a hundred times over—by letting me order it for you today. Remember—

ONE DOLLAR A YEAR IS ALL IT COSTS!

SOUND ADVICE GIVEN MEN BY WESTERN EDITOR

Dr. Chamberlain Outlines Force of
Will Over Heredity and Environ-
ment.

At Wednesday assembly last week the speaker was Dr. W. I. Chamberlain of Hudson, Ohio. The subject of the informal talk by the speaker was "Like Produces Like." He commenced by saying that there are three great forces that shape the life and character, for usefulness or unusefulness for good or for bad of every human or animal being. They are heredity, environment, and human will.

He told of an example of his subject that occurred in the West. A certain farmer had grown some wheat and the chess-weed persisted in coming up after it. The men in the vicinity persisted in saying that the wheat had turned to chess; but they never could prove it. "If you sow wild oats you must reap wild oats." He then illustrated his point of citing examples of gratifying such as the Essex apple, and the Concord and Niagara grapes. A humorous poem entitled "Burbanking Time" delighted the audience.

Dr. Chamberlain then told of a cow that was bought for eight hundred and fifty dollars that was eight hundred dollars pedigree and only fifty dollars cow. As examples of heredity he mentioned a famous German musician who had a number of musicians in the family for generations. He told of a woman who was called the mother of thieves that had cost the state a million dollars.

We have no choice as to our parents said the doctor, if we are not perfect the Lord Almighty improves on us the best that he can under the circumstances. He mentioned Abraham Lincoln as being bereft of culture but succeeding because the human will outweighs all other things.

In the last few minutes of his talk he gave the following points as important to every man:

1. This One Thing I Do.
2. Actually take every step in life. Let nothing go till you have got to it and take it.
3. Conquer each thing.
4. Let your will rule, and help your conscience. There will be an impulse to seek the truth through it. The world should be built on righteousness.

After Dr. Chamberlain's remarks, Mrs. Hobbs, a representative of the women agriculturists in England spoke a few words in tribute to America's help in supplying food the last few years.

"Dr. Bob" Chisholm is chemist to the California Rex Spray Company at Berkeley, Cal., box 554. He is engaged in getting a number of new insecticides ready for the market.

CAMPUS NOTES

'13.—Dr. Glover E. Howe and George Melican former varsity coach, were on the campus recently, principally to witness the Connecticut-M. A. C. game.

Arthur Williams '17, was present for the Connecticut-M. A. C. game. He has received his discharge from the army and is about to enter the chemistry directory business in New York City.

Faculty Reception.

Invitations have been sent out to members of the faculty to attend a faculty reception at President Butterfield's house on Friday night, October seventeenth at eight o'clock.

The Kappa Sigma Fraternity announces the pledging of Joseph C. Hagar, 1921, of Marshfield, Mass., and Fred G. Gordon, 1920, of Plymouth, Mass.

Catholic Club Elects Officers.

The Catholic Club held its first meeting of the year last Thursday evening. A good number were present.

The evening was taken up principally by a discussion and on plans for the work to be carried out during the coming year. The officers for the year are: President, J. K. Delahunt; vice-president, J. D. Evers; secretary and treasurer, H. L. Collins; sergeant-at-arms, J. T. Sullivan; executive committee, Charles F. Doucette, J. J. McCarthy.

At the next meeting a reception will be given to the new members from the class of 1923 and from the two-year course.

"Jake" Thurston '15 is back on the campus for a few days. He has charge of the departments of floriculture and landscape gardening at Maryland Agricultural College.

Earl Utraper '15 was on the campus during the week.

Lewis W. Spaulding '18 was recently married to Miss Evelyn Richards of Nantucket. He and his bride were on the campus Saturday and Sunday.

"Steve" Richardson '18 came back to renew old acquaintances over the week end. "Steve" is engaged in market gardening at Arlington at present.

Henry C. Bigelow ex-'20 is studying at Haverford College, Haverford, Pa.

Albert Brason ex-'22 was back on the campus a few days last week. He is now employed as an agent by the Quaker Oats Co., but is planning to return to M. A. C. next fall.

A new honor system committee was elected which consists of H. Rice, R. Leavitt, P. Caselo, R. Mellen, and V. Allen. It is the purpose of the class in cooperation with the Sophomores to introduce the system in the Freshmen class and ultimately establish it as a college system.

An appeal was made for the support of the class Index by its editor in chief R. Mellen.

The Q. T. V. Fraternity announces the pledging of Richard W. Smith '21 of West Rutland, Vt.

Junior Class Meeting.

At the Junior class meeting held last Thursday in the Social Union Rooms, the following officers were elected: President, C. Mackintosh of Peabody; vice-president, C. D. Kendall of Worcester; treasurer, E. Mansell of Arlington; secretary, J. Snow of Arlington; class captain, L. Fuller of Lowell; sergeant at arms, H. Poole of Hudson; historian, R. Tillson of Whitman; cheer leader, L. Fuller.

NINE cases out of ten, the man who once smokes a WDC Pipe becomes a life member of the WDC club. He can't help it, because a WDC is certainly a man's size smoke. It's as sweet and mellow as carefully selected French briar and expert seasoning can make it. Not only material of the first water, but craftsmanship of the highest order, and designs that are most pleasing—all combine to make the WDC Pipe a smoke of peace, contentment and satisfaction. A man's smoke. Any good dealer will confirm this.

FIRST INFORMAL

(Continued from page 1)

active attitude. If the right attitude is displayed, it means that another one of the old college functions has returned to stay. Not only is the presence of the upper classmen solicited, but it is sincerely hoped that the Freshmen and the short course men make themselves noticeable by their presence, for as one of the prominent men on the faculty remarked: "It is part of one's education."

Under the new system that went into effect last year, the chaperons will bring the girls over on the trolley. However, it is necessary that the boys be on hand to meet them uptown. The convenience of this plan is questioned by many. At any rate the men are spared the expense and time of accompanying their guests. The chaperons will be announced at the time of purchasing the tickets.

The customary night-before-wed will be held Friday at 7:30. The presence of everybody is solicited.

Tickets on sale at Phi Sigma Kappa house during the week for \$3.00. After Thursday an additional charge of \$.25 will be made, so get your tickets early.

NEW CENSUS OF AGRICULTURAL STATISTICS TO BE TAKEN SOON

Farmers are Asked to Have Information Ready.

Washington, September 27: Fifteen million copies of the farm schedule have been ordered printed by the Bureau of the Census for use in gathering the agricultural statistics of the Nation for the Fourteenth Decennial Census. To facilitate the work of taking the census and promote accuracy, large numbers of schedules will be distributed in advance of the enumerator's visit in order that the farmer may become familiar with the questions and be prepared to furnish promptly the required data regarding acreage, tenure, values, live stock, and crops.

The Bureau anticipates that the coming census will show an increase of approximately one million farms since 1910 when the number of farms enumerated was 6,361,502, valued at more than forty billions of dollars.

The enumeration will begin on January 2, 1920, and it is planned to complete the gathering of both population and agricultural figures by February 1.

ALUMNI NEWS

The committee in charge of the World Aggie Night in Albany, on Oct. 25, has arranged for what they call a "good time meeting." This get-together, which is to be held at the Hotel Ten Eyck, will be attended by some 20 or 30 Aggie men in the capitol district around Albany. Richard W. Smith of Cambridge, N. Y., is in charge of the arrangements for this meeting. The following is an extract from a preliminary notice sent out by the committee:

"Our one object in arranging the program of this meeting is to have a good time. We're just going to forget our troubles, get back to rope-pull days, and have an evening of laughs, smokes, and the best meal we can find."

Along Monson's Trail.

Word received from Willard Monson tells of a very fine meeting that was held in Chicago at the Union League Club in October, and although pledges from Chicago alumni have not been received in any number, up to date at the

alumni headquarters, prospects of generous support from the Western Alumni Association are excellent.

Later.

A telegram was received at the alumni headquarters Monday morning from W. Monson in Chicago to this effect:

"The Western alumni are giving us the most enthusiastic reception and are pledging their unreserved support to the Memorial building. They realize that it is the first big job that the alumni have ever undertaken, and the cause is so worthy that every effort is being extended to accomplish a successful campaign."

(Signed.)

WILLARD MONSON.

Summary of Week's Pledging.

The pledges have not yet begun to come in from the South or West. The contributions the past week have been largely from local districts. The local leaders report that while they are working daily and covering their territory, the results of the campaign cannot be estimated until a later date.

'04.—Myron H. West, landscape architect, has just completed extensive plans for the future development of Auburn, Me.

'12.—Harry A. Noyes, who has a fellowship in the Mellon Institute is now employed in research work by the Welsh Grape Juice Company.

'15.—Word has been received from H. V. Marsh, who is still in the Agricultural Department of the public schools in Walpole, N. H.

'15.—Lester S. Tarr, who has been employed for a number of years as chemist in the Du Pont Powder Works, is now living at 435 South Grant avenue, Wilmington, Del.

'16.—C. H. Fernald, Jr., and "Intch" Schlottbeck are now attending the Harvard School of Business Administration.

'16.—Arthur Hendry is a field foreman on Conyer's fruit farm at Greenwich, Conn.

'16.—Mr. and Mrs. C. A. Huntington, Jr., announced the birth of a son, William Chester, on Sept. 7.

'17.—H. B. Pierce is teaching agricultural chemistry in Penn State College.

Ex-'17.—Wayland R. Porter, who returned from overseas a few months ago, has gone back to Carnegie Institute, Pennsylvania, to complete his course in engineering.

'19.—Arthur Chandler is representing the Bowker Insecticide Company in West Virginia. His present address is 1001 Fidelity Building, Baltimore, Md.

M. A. C. TEAM AGAIN SHOWS STRENGTH OF BACKFIELD

Substitutes Used on Line Hold Well. First String Never Troubled by Worcester.

Playing snappy football from the start to finish, the M. A. C. team turned back Worcester Tech 27-0, Saturday afternoon on Alumni Field, scoring one touchdown in each of the four periods. Only once, at the end of the second quarter, did the visitors get within scoring distance, and then they were forced to resort mostly to forward passing to bring the ball to Aggie's 30 yard line, being unable to make their distance through the line. In the first and last two quarters the play was entirely in Worcester's territory, and the Maroon and White backfield made the first downs consistently on line plunges.

The Aggie scoring machine got going early in the game, and pushed the ball over the Worcester goal line by straight rushing in seven minutes. Worcester kicked off to M. A. C. on her 20 yard line, and from here, on the fourth down, Lewandowski was forced to punt. Then, with W. P. I. on the offensive, the Aggie line held, and the visitors were also forced to kick. Once more in possession of the ball, Aggie began a march down the field, which ended with Poole going over for a touchdown. Lent kicked a goal; score M. A. C. 7, W. P. I. 0.

Poole recovered the ball when Worcester fumbled on running back the kickoff, and then began another attack on the visitors' line. However, W. P. I. took the ball on downs, and then, after gain-

(Continued on page 2)

FIRST INFORMAL OF YEAR A PRONOUNCED SUCCESS

Athletic Games and Well Decorated Hall. Entertains Fair Guests Last Saturday.

The first informal of the year was held in the Drill Hall last Saturday afternoon and evening, and was attended by 86 couples. The girls from Smith and Mount Holyoke left their respective towns on the two o'clock trolleys, and were met at the Center in Amherst by their partners. Most of the couples walked up to the college and went to the Worcester Tech. football game at three o'clock. After the game they went directly to the Drill Hall where the dance started at once.

The Drill Hall was decorated with College and Fraternity banners, and the chaperons corner and the orchestra was decorated with palms. Chairs for the dancers were arranged around the hall, and cosy corners with paper parasols made secluded nooks for those who wished. The lights overhead were covered with light blue crepe paper giving a very pleasant dim light. The orchestra was made up of students, was peppy and did excellently well.

The supper was served in Draper Hall after the ninth dance about quarter of seven, and the dancers were treated to a good dinner. From there the people returned to the Drill Hall and started dancing again about eight o'clock. The Smith girls had to take the nine o'clock trolley, and the Mount Holyoke girls the nine thirty trolley so the dance ended all too soon. The former left at the end of the fourth dance of the second half and the rest stayed as long

SIXTY FOUR FRESHMEN PLEDGED ON MONDAY

After Strenuous Season 57 Per Cent. of 1923 Pledge Fraternities.

Sixty-four Freshmen pledged to fraternities in chapel Monday morning, bringing to a close one of the liveliest rushing seasons in several years. Last year 71 Freshmen put on their buttons at the first pledging date, which was 61 per cent of the entire class. No further pledging can be done until the winter term now. The list of Freshmen pledged is as follows:

Q. T. V.

Twenty-four alumni meetings on the same evening in every part of the country is a feat, and of alumni co-operation that may be unique in intercollegiate history.

"World Aggie Night" is keeping the alumni office in Amherst and the local leaders busy answering "When, Where, Why, and How can I get there." Other localities than those listed last week are starting their own get-togethers and it is expected that over 75 per cent. of M. A. C.'s graduates will attend these meetings.

William V. Hayden '13, who is in charge of Boston's Aggie Night, was in Amherst recently arranging for speakers from the college. He described the program of the City Club meeting as "an organized strike of Aggie men for a good time, with no arbitration possible." Music by former M. A. C. musical club stars is to be one of the features.

New York is a little proud of having President Butterfield as the guest of the evening and the Board of Governors of the New York Alumni Club has had several preliminary meetings in order to arrange the best possible program.

Dean Lewis will be in Chicago with the Western Alumni Club; while his partner in the Western trip, Mr. Monson, will be in San Francisco with the Pacific Coast Club. E. F. Damon '10 is in charge of the meeting at Los Angeles which is being held under the direction of the Pacific Coast Club for Aggie men in Southern California.

It is expected that many new alumni clubs will be formed at these gatherings, particularly at Providence, R. I., Charlotte, N. C., Bridgeport, Conn., Albany, N. Y., Cleveland, Ohio, and Baltimore, Md. The Connecticut Valley Club will meet in Springfield and

will elect officers at this meeting for the coming year. For the benefit of alumni who will be at the college for the Vermont game, the Amherst Committee has arranged a meeting in the private dining room of Draper Hall. The class of 1917 has contributed a bit to the evening's entertainment in the form of a song folder "Those Good Old Songs of Yore" that contains the common Aggie campus chants. Copies have been forwarded to each alumni.

M. A. C.—WORCESTER GAME

(Continued from page 1.)

long 20 yards in six rushes, was held, and forced to punt again. The quarter ending with the ball in Aggie's possession in midfield.

On the third play after the opening of the second quarter, Poole broke through, evaded the only man between him and the goal line, and raced 40 yards for the second touchdown. No goal was kicked; score M. A. C. 13, W. P. I. 0.

Canfield's fumble lost Worcester the ball on M. A. C.'s 40 yard line. Then Maroon and White backfield advanced it 25 yards, only to lose it on downs. Tech, thus far mostly on the defensive, then varied their line bucking game with some open football, and gained 50 yards, executing three forward passes for good gains. The half ended, with the visitors within the 30 yard line, the nearest that they got to the M. A. C. goal line during the entire game.

Aggie came back strong in the second half, forcing Worcester to punt on the fourth play of the period. The play was then carried into W. P. I.'s territory; the Tech boys were forced back steadily to their 30 yard line, from where Whittle tried a drop kick. He missed it by barely three yards. Against Worcester's second offensive of the period the Maroon and White defence was a stone wall, and the visitors had to punt out of danger. From midfield Aggie began another march to the goal line, opening up big holes in the Worcester line, and paving the way for the backfield to advance the pigskin to the one yard line, from where Whittle went over for the third touchdown. Lent kicked the goal, bringing the score to 20-0 as the quarter ended.

W. P. I.'s brace at the beginning of the last period was short lived, for after making one first down, they gained but one yard in three rushes and were compelled to kick. Aggie scored the final touchdown of the game here, in the first seven minutes of the last quarter. Once more Worcester was pushed back 40 yards, this time in fourteen rushes. Lewandowski went over for the score, and Lent kicked goal. With the score 27-0 Coach Gore began to send in substitutes. Apparently the opposing eleven looked no different to them, for after taking the ball on downs, M. A. C. rushed it to the 8 yard line in short order, where it was when the final whistle blew and undoubtedly prevented another score.

Capt. Pond played only the first quarter, resting up for the Vermont game. Whittle, who replaced him at quarter, handled the team well. The punting of Lewandowski was of high calibre, and hard to handle, judging by the way they were juggled. Starr King played one of the best defensive games at tackle ever seen on Alumni Field, fast under kicks, aggressive and tackling hard. Harold Poole's long runs featured.

Fielder, at right halfback, and Brown at fullback, showed up well for Worcester. The lineup:

M. A. C.
Grayson, re
King, rt
Cotton, rg
Goodwin, c
Mackintosh, lg
Holmes, lt
Glavin, le
Pond, qb
Lewandowski, rbb
Lent, lhb
Poole, fb

Score: M. A. C. 27, W. P. I. 0.
Touchdowns: Poole 2, Whittle, Lewandowski. Goals from touchdowns: Lent 3. Substitutions: M. A. C., Whittle for Pond, Gray for Cotton, Cotton for Gray, Gray for Cotton, Delahunt for Mackintosh, Mackintosh for Goodwin, Daggett for Holmes, Jakeman for Lewandowski, Dewing for Glavin, and Gould for Delahunt; W. P. I., Bliss for Russell, and Fielder for Needham. Umpire: Larkin of Holy Cross. Referee: Johnson of Springfield. Head Linesman: Kennedy of Amherst. Time: 12 minute periods.

CROSS COUNTRY TEAM MEETS VERMONT AT BURLINGTON

Leave Friday Noon for Match with Green Mountain State Harriers.

The M. A. C. cross-country team will travel to Burlington, Vt., Saturday, to compete with the U. of V. in the second meet of the season. Probably seven men will take the trip. Nothing is known about the prowess of the Vermont runners, but from the information in hand, it looks as though Aggie should land a win. The W. P. I. meet showed a well-developed team, the first five men coming in at no great distance apart, and no one seeming greatly fatigued. Sinte, the season's dark horse, should see to it that Lyons has company in the van. Aggie has always been proud of her cross-country successes, and the combination of good coaching and the old fighting spirit will make this year no exception.

The interclass meet, which has been developing for some time, will be held on the first Saturday that the team has an open date.

M. A. C. DEFEATS WORCESTER IN CROSS COUNTRY RUN

Fast Time Made in Initial Contest Of Year.

The M. A. C. Cross Country Team came out victorious over the Worcester team on the home course last Saturday by the score of 22 to 33. The race started from the Drill Hall during the football game, and the course runs down past the Barns, the Poultry Plant, to the Flint Laboratory, to the Old Chapel, to French Hall, past President Interfield's house, north through the orchards past Lover's Lane, and east to East Pleasant Street, over Mt. Pleasant to Feating Street, to Lincoln Avenue, to Alumni Field, and around the track once. The team came on the field during the second quarter of the football game. The order in which the men came in was: Lyons, M. A. C. first, Hoar, W. P. I. second, Slate, M. A. C. third, Marston, W. P. I. fourth, Gray, M. A. C. fifth, Carlton, M. A. C. sixth, West, M. A. C. seventh, and Worcester men took eight, ninth and tenth places. First place counts one, second two etc., and the first ten places count, the lowest score winning. The time was 294 min. 20 sec.

The team did very well indeed, especially in view of the fact that the team has no regular coach, and that Gordon who came in second in the time trials was unable to run. Oliver Flint has given as much time as he could to the team and his work has been well appreciated, and successful as is shown by Saturday's results. He has other work, however, and is unable to give the team the time that has usually been put on it.

Interfraternity football is in vogue at M. I. T. along with baseball and relay.

AGGIE SQUIB ORGANIZES CRAWFORD EDITOR-IN-CHIEF

More Competitors Wanted for Art, Literary and Business Departments.

The Squib board which will handle the publication of the Squib has now been completed. The organization is as follows:

Editor-in-chief John A. Crawford '20
Literary Department
Editor—Frank A. Burke, '20
Associate Editor—Belding F. Jackson '22
Art Department
Editor—George A. Smith '20
Assistants—M. P. Webster '21
Edward B. Latorovitz '21

Business Department
Manager—Donald C. Douglass
Advertising—Laurence P. Martin
Several men have handed in their names signifying their desire to compete for positions on the Squib board. Those men are for editorial positions 1920 Brown, Doucette, 1921 Goff, Edman; for art positions, 1920 Boyce; 1921 Bunker, Fletcher, McNeilly; 1922, McKenzie; 1922 Town, Landow; for business, 1920 Peckham, Herrick, 1922 Mr. Smith.

The Squib board desires more men out for the art and business departments in order to complete the staff. Beside the general board there will be a staff of assistants. A contributor's board will also be organized.

AN A. E. F. FARMERS' CLUB

First Meeting of Overseas Men Brings Out Good Numbers.

A meeting was held in Stockbridge Hall last Tuesday night to consider the advisability of forming a local chapter of the A. E. F. Farmers Club.

The American E. F. Farmer's Club was organized at Beaune, France in June 1919, and was designed to unify and continue in the States, the activities begun in France by the 600 or more "Farmers' Clubs" instituted in the A. E. F. as a part of the educational program under the leadership of President Butterfield.

The purpose of the National Club, as stated in its constitution, is to enroll all army and navy men who are interested in agriculture, to keep each member informed regarding opportunities at home and abroad and to promote broader and better ideals.

The club voted to establish a publication. This magazine is to be called "World Agriculture" and is intended to present the broader aspects of agriculture which have been emphasized by the war. The purpose of the magazine is to present information about the economic relations and living conditions prevailing in each country by giving: First, a digest of report and opinion as presented in the agricultural press, at home and abroad; Second, by printing special illustrated articles about each country; Third, to provide an open forum for discussion of the question pertaining to rural progress.

The magazine is to be sent to all members of the club. Another meeting of those interested in forming a local chapter was held in Stockbridge Hall at 7:30, Tuesday Oct. 21. At this time further discussion of the plan took place. Among the questions considered were whether it is advisable to make the local chapter exclusively for overseas men or whether it would be better form a World Agricultural Club open to all members of the student body.

LAURENCE H. PARKER.

THE COLLEGE CLASS

Wesley Methodist Episcopal Church,

Corner Main and Whitney Streets.

A CLASS OF SEVERAL YEARS' STANDING.

Meets next Sunday, October 19, at 12 o'clock

World Aggie Night.

This Saturday will mark one of the biggest and most important days in Aggie's history. That is the date set for the formal wind-up of the Memorial Building fund drive, and the day on which is scheduled the greatest series of alumni reunions which have ever taken place.

This plan for holding what is in reality a big alumni reunion by gatherings in various cities all over the world, where a group of M. A. C. men is located, is a wonderful idea. It means that far more alumni will be able to meet together than could ever attend a reunion on the Campus. So it is bound to stimulate a more powerful alumni spirit and fellow-feeling for the college than has been produced by even the impressive reunions of former years. Saturday night should give every alumnus one of the very best times and be one of the most memorable evenings of his life, for is anything more enlivening and more enjoyable than renewing campus friendships, talking over college experiences, and meeting old chums perhaps for the first time since the war? That kind of a time can't be beaten! We fully expect to hear that these reunions have been well attended and thoroughly successful.

The splendid feeling always aroused at any gathering of Aggie men should go a long way toward insuring a triumphant climax to the Memorial Fund drive on October 25. The progress which has been made thus far in the campaign for contributions is very satisfactory, but the total amount pledged shows that despite the magnificent send off given by the undergraduate contributions, the goal is a long way off. The spirit is bound to tell, however, and we expect to see it demonstrated once more. We are confident the alumni will not disappoint us in coming through with a big Aggie victory on October 25.

Rushing Season Over.

During the past three and one-half weeks the majority of men on this campus have been engaged in that self-

satisfying pleasure, the motto of which is, "Look us over, we are as nearly perfect as the Lord ever made." And in so displaying the accomplishments of themselves and their fraternity brothers, and in obliterating the virtues of other men similarly engaged, they have lost view of the all important aim of college attendance. Other men, namely the Freshmen, occupied themselves probing for the truth in conflicting stories, and in polishing their manners for the next party. In deciding which group of men they closely resembled, they, too, have suffered a deterioration in their scholastic purposes.

With the rushing season a thing of the past, there looms into the consciousness of all, that exacting and unyielding Dean's board. Especially to the Freshmen is this spectre threatening.

Since this Dean's board is an indicator of the possibility of men's being dropped from college, it will be well that men keep their names off the list. Not only from the standpoint of the individual is this true, but also from the standpoints of the fraternity, class and college.

So it behooves every man who desires to graduate this coming June, or three years from then, to delve into his books diligently.

J. A. C.

LIBERTY BONDS

ACCEPTED AT PAR

BUILDING COMMITTEE

THE SPIRIT BACK OF IT

GENTLEMEN:

Enclosed find my pledge toward the Memorial Building and only wish that it might be more for such a laudable cause. I happened to be one of those who answered the call from Aggie during the Spanish war and my interest in your undertaking is doubly strong. In looking over the names of those who have pledged in the issue of the COLLEGIAN of Oct. 1. I was struck with the few names of men between classes of '95 to '05. As I knew these boys (and most of us are still boys when we think of Aggie) they were boys who would get on in this world and should be able to assist in your undertaking. Go after them hard; get one of their classmates to write them a letter and tell him to call them down good if they don't come through.

Just look back at some of the football teams I played on and was captain of at old Aggie, and tell everyone of those fellows to be out for practice on Jan. 1, 1920, July 1, 1920, July 1, 1921 and July 1, 1922. Tell them it is the deciding game of the year for M. A. C. and the undergraduates are all on the sidelines watching the outcome.

They have it in them to "come thru" and I am sure you will not be disappointed.

Here is to the "49" who gave their all for us and best wishes for your success in raising the funds and if when Jan. 1 rolls around you have not enough send out an emergency call to the same ones and we will come through again.

Yours very truly,
ALFRED D. GILE '00.

ROISTER DOISTER SOCIETY
ELECTS OFFICERS FOR YEAR

New Plans for Managerial Competition to be Used this Year.

The Roister Doister Dramatics Society met for their first meeting of the year last Wednesday afternoon in their office in the old chapel. Plans for the coming year were briefly discussed and many suggestions were made for the improvement and re-establishment of dramatics on the campus.

It was decided that instead of having two business managers as at present, from the Junior class, there should only be one who would be the Junior manager. This method is along the same line as the system used by the musical clubs at present. The idea of the system is to give the responsibility to one person who by working alone with the general manager obtains much more experience than two men could obtain. The position is filled by competition starting in the Freshman year. Any one interested should see C. M. Boardman '20.

The possibility of staging a student vaudeville sometime in December was also favorably discussed, developments toward its production will be announced in the near future.

The following officers were elected for the ensuing year: President, R. N. Smith '20; vice-president, G. Lockwood '21; secretary, Rosoff '21.

SIMPLICITY

OF THE

DE LAVAL

Simplicity in cream separator construction avoids waste and makes possible quick and easy handling of milk.

The De Laval Cream Separator is remarkably simple. Thousands of De Laval's are run and cleaned by children every day.

This simplicity means long life and freedom from repairs, and is the outcome of over forty years of unquestioned leadership in cream separator inventing, developing and perfecting. Every part has been developed to its highest degree of simplicity coupled with efficiency, and the De Laval has earned for itself the name of being "the world's standard separator."

More De Laval's are in use than of all other makes combined.

See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

WHY?

Why erect this "Student Union" type of Building as our Memorial?

Because:

We have at the present time no center of student activities on our Campus. There is little to encourage a democratic student life. Dormitory accommodations are insufficient. Our present Social Union Room is a make-shift. There is need of the right sort of place for College dances,—of a comfortable "homey" lounging room for class smokers.

College activities are recognized as a valuable and important part of undergraduate life—as an opening for men with initiative and ability,—as a training for the problems of business life.

At the present time undergraduate organizations have only make-shift offices or no offices at all. Their equipment is not an inspiration to business efficiency. The College Senate, The Collegian, The Musical Clubs, Dramatics, The "Y," and other organizations need a place to work.

As for the Alumni:

We have no permanent Alumni Headquarters—no place that Aggie Alumni can call their own. Given a place to do business, and a working organization, there should be no limit to the services which our Alumni Bureau can perform. We are getting the latter,—we need the former.

Finally:

If we could ask those forty-nine boys what they would have us do for them, wouldn't they ask us to do just this,—to erect just this sort of a Building, which will, in giving continual service to their College friends and class-mates, be a fitting tribute to the unselfish generosity of their last great sacrifice?

Pay your debt to those boys now. Put this pledge in the mail.
Send it to Amherst and make it count.

MAIL TO—THE TREASURER—MASSACHUSETTS AGRICULTURAL COLLEGE—AMHERST, MASS.

1919.

ADDRESS: _____

PRES. BUTTERFIELD TELLS OF HIS A. E. F. EXPERIENCES

Crawford '20 Makes Appeal for Squib Contributions at Mass Meeting.

At Assembly last Wednesday, President Butterfield outlined some of his experiences in Europe and the working plans of the American University.

President Butterfield told how, at first, the organization was carried on by the Y. M. C. A. and was developed only with the assistance of the army, but later the whole scheme was controlled by the United States government. In unison with the English and French Universities, the American collegessmen men to teach their soldiers. This government was slow to form its own school, but when it had been completed, the A. E. F. University had the best educational plans among the Allies. There were schools of engineering, agriculture, science, medicine, art, education, and many others, 12 in all.

The growth of the attendance in these courses was remarkable. The size went from a mere handful to over 15,000. Had men been kept in Europe longer the enrollment would have increased much further.

Besides the official experiences that he had, President Butterfield told of his experiences as a soldier. His insignia caused much amusement. He told of its various nicknames, the "order of the golden coffee," and the "unextinguishable gas jet," the appropriateness of which he commended. The experiences of the president were interesting and enlightening concerning the federal attempts at education.

In the mass meeting that followed, and after the usual announcements had been made, Crawford '20 made an appeal to the student body for *Squib*. He outlined the past and future plans for the *Squib*, and compared the past and the hoped-for qualities of the paper. The Senate passed out subscription blanks, and men were asked to subscribe to the paper for the year. Several of the men from the floor expressed opinions in favor of supporting the *Squib*. About 30 subscriptions were made out, enough for the paper to start on. It was hoped that more could be obtained. Four hundred were desired.

ALUMNI NEWS

The Worcester County Alumni Association has recently elected the following officers: President, Harry J. Harlow '93, Shrewsbury; vice-president, A. D. Perry '81; secretary, Howard L. Russell '18; treasurer, Richard Taft '15, Oxford. George Melican '15 and Stanley Wright '15, both of Worcester, were named as a committee to arrange for an Aggie banquet Oct. 25, in conjunction with M. A. C. banquets the same night in every city in the United States.

'04.—The Kansas State Agricultural College also has a *Collegian* from which we clip the following paragraph nominating M. F. Ahearn, as the most popular professor in the college:

Editor of the *Collegian*: Why haven't you nominated "Mike" Ahearn? How many of our students know that the only time we ever beat K. U. in football was when Mike was coach? I reckon that that ought to count for something in a popularity contest. He has always been an all-around booster for the college. Anybody who has heard him talk at a pep meeting knows that he can deliver the goods. He can tell a story better than anyone in Manhattan. He always has a pleasant smile for everyone. And he doesn't belong to the committee on student affairs.

'16.—"Spike" Mayo is headmaster of the Antrim School district, Antrim, N.H.

'16.—H. W. Bishop is working with the Supplee-Wills-Jones Milk Co. at 20th and Jefferson Sts., Philadelphia, Pa.

'16.—H. T. Edwards writes as follows:

"On June 30, 1910, I tendered my resignation as director of Agriculture of the Philippine Islands, and on June 25, 1917, entered the service of the United States department of Agriculture in the position of specialist in Fiber Plant Production, in the bureau of Plant Industry. Aside from service in the United States, I have been detailed during the past two years for investigational work in the Hawaiian Islands, the Philippine Islands, the Bahama Islands, the Virgin Islands, Cuba, Porto Rico, Santo Domingo and Haiti. My business address is office of Fiber Investigations, Bureau of Plant Industry, United States Department of Agriculture, and my home address is 1432 Webster St., S. W., Washington, D. C."

'19.—Quincy A. Bagg is working at the Willowbrook Farm, North Pembroke.

'19.—Robert B. Collins has a position with the "Sunset Orange and Lemon Co." at San Dimas, Cal. associated with E. F. Damon of M. A. C. '10.

'19.—William Mather is assistant chemist to the Rhode Island Experiment Station at Kingston, R. I., and is at present doing special work in agronomy, studying home grown seed. He was in Anherst with his family for a few days in September.

SENIORS ELECT OFFICERS

The Senior class elected on October 15 its officers for the first half of the year. They are as follows: President, G. F. MacLeod, of Lowell; vice-president, H. F. Worthington, of Greenwood; secretary, J. C. Maples, of Dorchester, N. Y.; treasurer, C. J. Daggett, of Albany, N. Y.; sergeant at arms, A. L. Pond, of Holliston; captain, Goodrich, of Melrose.

1923 MANAGERS

In a meeting held after Assembly last Wednesday, the Freshman class elected Alexander, manager of the football team, and Hubbard, class cheer leader.

KEENLY CONTESTED GAME EXPECTED WITH VERMONT

Visitors Have Won only One Game but Held Syracuse, Columbia and New Hampshire to Low Scores.

Next Saturday afternoon the fast University of Vermont team will come here for a football game with M. A. C. The Vermont team has made a good showing this season in its stiff schedule. Their scores are as follows:

U. of V. 21, Clarkson 2
Syracuse 27, U. of V. 0
Columbia 7, U. of V. 0
N. H. State 10, U. of V. 0

The Syracuse team defeated Pittsburgh, which is considered one of the best teams in the country, by the score of 27-0. New Hampshire's fast team got its points in the last two minutes of play. The scores and the standing of the teams that Vermont has played against indicate that there is a fast bunch coming here this week-end. Connelly the right halfback, Brook the star punter, and the first string ends are the dangerous men on the team.

M. A. C.'s scores give as favorable, if not a more favorable, impression. They are as follows:

M. A. C. 15, C. A. C. 7
Dartmouth 27, M. A. C. 7
M. A. C. 27, W. P. I. 0

The backfield last Saturday showed up as a very fast aggregation, and with Pond back in his position as a quarter, the team will probably show greater speed.

The plowing through the line by Poole, Lewandowski's plunges to one side or the other, and Lent's speed in all the plays will cause the visiting team much concern.

The line gave evidence of marked improvement. King's tackling was one of the best exhibitions of football ability and endurance ever given on Alumni Field. The use of substitute line-men shows that injury to the first string men will not hold up the team.

The lineup for the game will probably not differ from that of last Saturday's game except that Pond will be in the quarterback's position. With the same fighting spirit working that kept the ball in Worcester's territory for the greater part of the game, and that held Dartmouth, 20 pounds to a man heavier, to the score of 27-7, M. A. C. should win Saturday's game.

The *Campus*, a weekly published by the students of the University of Rochester has inaugurated a series of weekly suppers for the members of its staff. The plans call for informal newspaper talks from important members of the big metropolitan dailies.

TO-MORROW, AND TO-MORROW, AND TO-MORROW

That's where you are going to get left. You are putting off and putting off what you will have to do eventually. Quit postponing this measuring up for your Fall Suit at the House of Walsh. The best fabrics are disappearing day by day. You want a new suit ready for the first informal and it all takes time.

When a Farmer Quits Work

Where does he go?
What does he do?
How does he live? Well, the retired farmers have their own little Paradise, says

The COUNTRY GENTLEMAN

and there they spend their days basking in the sunshine, watering the lawn, dodging the real-estate highbinders, eating at the cafeterias, boosting the climate. Farmers, stockmen, dairy-men—thousands of them pack the old bankroll into the old jitney each year and hike for Paradise.

Freeman Tilden has lately been there for THE COUNTRY GENTLEMAN, and, with his humorous spectacles on, he has watched the retired farmers at work and play. He has written several articles which will be run as a series. At the same time there will start another great new series, "Doing His Best with What He's Got"—real stories of

farmers who are successful in a small way—and happy in a great way. The first article of each of these series will appear in the issue of THE COUNTRY GENTLEMAN that will come to you next week, if you send me, with your name and address, one dollar for a whole year's subscription—52 big, vitally helpful issues—and send it TODAY.

MUSICAL CLUBS PROGRESS WEEKLY REHEARSALS HELD

Results of Tryouts to be Announced
in the Near Future.

The musical clubs are now under way as the leaders have been elected and the rehearsals started. The Glee Club, especially, is coming well as the coach has been selected and tried the voices this Tuesday in order to determine who is capable enough for the quartet. Professor Bigelow has been chosen as coach, and he should be backed well by the students as everyone knows that he is an invaluable man to the college singing. First of all more candidates are needed to try out for parts. Tenors are needed the most. Rehearsals are to be held every Tuesday night in the old chapel.

The Mandolin Club is holding a rehearsal each Thursday night in the Social Union. Although the club promises to be up to par more men are needed to play the piano and the mandolin, and a good drummer would be a help as last year's drummer has left college.

Y. M. C. A. MID-WEEK MEETING STARTS THIS WEDNESDAY

Dr. Fitch of Amherst to Open Series
of Meetings. Many Fine Speakers Obtained.

The first of Y. M. C. A. mid-week meetings for this year will be held this evening in the Old Chapel, beginning at 6:40. The speaker will be Prof. Albert Parker Fitch of Amherst College.

These meetings, which will be held regularly on Wednesday evenings throughout the year, are intended to provide an opportunity for men to come together for the refreshment and deepening of their Christian spirit. They serve much the same purpose as does the weekly prayer meeting at home. Speakers of a high order are being obtained, men who by their experience are particularly able to serve young men. Among those who are to be here in the near future are Rev. James Gordon Gilkey of Springfield and Professor Ralph L. Cheney of Springfield College. The entire list for the first term will be announced soon.

All persons are most cordially invited to these meetings.

CAMPUS NOTES

K. Wright ex-'20, of Arlington, spent the week-end on the campus.

Bunker and Delchunt '20, of the football squad are at present convalescing at the infirmary from serious cases of infections.

Clifton W. Scott '20, left Friday morning for Reading, Mass., where he will spend the rest of the term as an apprentice teacher in agricultural work. This work will count 5 credits in Agricultural Economics, which was "Scotty's" major.

President's Reception.

President and Mrs. Butterfield gave a reception in their home last Friday evening to the new members of the faculty and corps of the different departments. The house was very attractively decorated with roses and palms. The hostess was assisted by Mrs. John Phelan, Mrs. C. E. Marshall, Mrs. Ray Stannard Baker, Mrs. R. J. Sprague, Mrs. W. B. Hart, Mrs. F. W. Morse, Mrs. C. S. Hicks, Mrs. Richard W. Walker, and Miss Edna Skinner.

Last Saturday afternoon, a committee of Y. M. C. A. members including Mr. Fielder, Maples, Mellen and Cook went over to Mount Holyoke College to attend a conference for discussion of the coming convention of the Student Volunteer Christian Association. This convention, which takes place once every four years, is to be held in Des Moines, Iowa, from December 31 to January fourth. It is expected that about eight thousand men and women from all the institutions of higher learning in the country will be present. The delegations will be composed of the Secretary of the college Y. M. C. A. or Y. W. C. A., a member of the faculty; and two student delegates plus one additional delegate for every one hundred students enrolled over two hundred.

Alumni who are now at Rhode Island State college and who will form the nucleus for the banquet on World Aggie night are Dr. B. L. Hartwell '80, L. C. Munson '82, L. F. Kinney '88 and F. W. Mather '19.

ALUMNI NEWS

'13.—Miller Jordan was around for the W. P. L. game last Saturday incidentally taking in the informal at the same time. He intends to start for Mexico within a few days where his business is located.

'16.—Lt. W. W. Jenna is the military attaché at the American Legation at Athens, Greece.

'16.—Mr. and Mrs. C. F. Goodwin, 28 Eleventh Ave., Haverhill, announce the birth on June 28 of a son; Clinton F. Jr. Clinton Sr. is supervisor of Agriculture for the public school department in Haverhill.

Attention '16:

The Secretary is on the job again, after turning over the army to the government, and requests that 1916 men sound off and let him know where they are, and what they are doing. Address: Perez Simmons, 34 Boylston St., Pittsfield.

'18.—"Og" Pratt, new superintendent of parks and playgrounds in Salem, spent the week-end on the campus.

SIX FROSH TAKE BAPTISM FOR NEGLIGENCE OF DUTY

Large Crowd Sees Execution of Sentences by the Senate.

With a delegation of six men from the entering class inspecting the M. A. C. water supply, the first pond party of the season was declared a success by all who witnessed it.

The event took place Friday afternoon, Oct. 24, at 12-45. A large crowd of spectators lined the sides of the pond to laugh and shiver.

The six delegates were marched from the Social Union rooms, accompanied by a large portion of the Sophomore class, and "Aggie's own" two piece band. The parade ended at a large wooden platform, six feet above the water's edge, erected on the northern end of the pond. A "strong arm" squad of Sophomores gave each delegate a rousing send-off. Before making the descent, each Freshman was obliged to cry aloud the reasons causing him to be present. The high cost of Frosh caps and matches, the new co-eds, and general freshness, were the principal causes.

Cohen, Searles, La Tour, McCready, J. Wilson, and Dowden represented the Freshmen. Special mention should be made of Cohen's dive, which easily excelled all others.

Those members of the Freshman class who find it burdensome to salute Seniors, and to keep off the grass, have been advised that pond water does not grow warmer as the season advances, and that the time-honored proverb here at Aggie is not "Spare the pond and spoil the Frosh."

POM. CLUB BOOMING WITH WELL ATTENDED MEETINGS

Most Progressive Agricultural Club at Present. To Give Fruit Show.

The Pomology Club held a record breaking meeting in Wilder Hall last Tuesday evening. About seventy-five men attended, the largest number present at a meeting of any of the agricultural clubs since the pre-war period.

The first part of the evening was occupied by a general discussion of the plans and work of the club. It was decided to secure, if possible, several of the most prominent fruit men of the state as speakers at the meetings.

Student papers and student debates were talked over and approved of. The various fruit magazines are to be reported upon and certain articles in them taken up at every meeting.

One of the important actions taken was the vote of the club to stand back try for goal was unsuccessful.

M. A. C. SURPRISES VERMONT TO TUNE OF 25-0

Whirlwind Backfield Scatters Visitors' Efforts to Futility.

The Maroon and White eleven, playing against a team that outweighed them 15 pounds to a man in the line, turned in its second consecutive victory, and its third of the season, against University of Vermont Saturday afternoon, by the decisive score of 25-0. The boys from the Green Mountain state came here confident of success, with a good record against superior teams, including Syracuse, but their line crumbled under the hammering of the Aggie backs, and their backfield was only twice able to make first down; this after Coach Gore had sent in practically a substitute eleven. The ball was in Vermont's possession only 10 minutes during the 48, and the nearest that they came to the M. A. C. goal line was 35 yards.

As against W. P. I. a week ago, Aggie rushed the ball over for a touchdown five minutes after the whistle, plowing through the visitor's line for 70 yards in 11 plays. Grayson ran Brock's kick-off back to the 30 yard line. With Aggie rushing, three plays did not gain the required distance, and Lewandowski punted. Confronted by a stone-wall defense, Brock punted for Vermont, and it was M. A. C.'s ball on her own 30 yard line. Pond gained 20 yards, and then Vermont was forced to fall steadily back to their two-yard line. Poole went through left guard for the score. No goal was kicked; M. A. C. 6, U. of V. 0.

Following a penalty Lewandowski punted to Vermont's 40-yard line. Then, on the first play, Pond broke through to recover a backfield fumble. A forward pass to Grayson, netted 20 yards, and the quarter ended with the ball on U. of V.'s 30-yard mark.

A Vermont fumble in the first few minutes of the second period, which Glavin recovered and ran back to the four-yard line, resulted in the second score shortly after. Three plays failed to advance the ball, and then Grayson, standing on the visitor's goal line, took a forward pass for a touchdown. The try for goal was unsuccessful.

(Continued on page 2)

ALUMNI AGGIE NIGHTS GIVE FUND BIG BOOST

Discuss Everything from Policies to Politics, with Memorial as Leading Topic.

"And everybody had a good time." This is the report from every one of Aggie's 24 Alumni meetings held last Saturday night.

\$126,000 is the estimate of the total after the results sent in by telegram are added to the present amount, but there still remains more than one-half of these gatherings to be heard from.

"Something From Every One" is the slogan now, as less than 40 per cent of Aggie's alumni have been heard from and the Building Committee is emphatic in its statement that Aggie's Memorial should represent some contribution from every living alumnus.

The reports of the various meetings received to date are briefly as follows:

NEW YORK.

"One of the most enthusiastic alumni meetings I ever attended." This was a statement of President Butterfield upon his return from the New York Alumni Club banquet which was held at the City Club. A detailed account of the meeting has not yet been received at alumni headquarters but a telegram from Walter L. Morse '85, the president of the club tells the story briefly:

"NEW YORK, Oct. 25, 1919.

A New York man's total pledges equals any Massachusetts man's pledge. Forty-five men pledged \$11,115.00 additional to any previous pledge. Canvas to continue."

The Massachusetts man's pledge referred to in this telegram is a pledge of \$5000.00 recently received at Amherst.

RUNNING KNOWLEDGE AND TRAINING WIN FOR M. A. C.

Vermont Shows Unexpected Speed But Loses in the Sprints.

Running over a hard course, blocked by several fences and swampy brook beds, the M. A. C. cross country team defeated the U. of V. team by a margin of three points. The score was 26-29.

(Continued on page 3)

BOSTON.
The Boston meeting was equally successful with something over 100 men present, most of whom had pledged previously. Approximately \$8000.00 was added to the former pledges. Politics and national events brought up some serious and interesting talks from alumnus and guests who were present.

H. W. Dana '90, the president of the Greater Boston Club was toastmaster. George H. Ellis of the board of trustees spoke on "Law and Order" and pointed out the necessity of re-electing Gov. Coolidge. Lt. Erford W. Poole, 8th Adj., 17th Reg., Mass. State Guard, said of existing conditions, "The college men of America hold the key that is going to unlock the door against this menacing, horrible thing. New England and the whole country rose up to preserve the right. We must all use our capacity for personal leadership."

Colonel G. Keenan '90 of South Boston, was one of the speakers. He and Dr. Goldthwait were the two New England men who returned from the A.E.F. as full fledged Colonels in the Medical Corps. Professor Hasbrouck was faculty representative at this meeting and told of conditions at the college. Capt. E. U. Edwards, Q. M. C. from Camp Devens was also one of the speakers. William V. Hayden '13 was in charge of the arrangements.

SPRINGFIELD.

Robert S. Fay '13 was in charge of what has been called by many, the best meeting Springfield has ever had. This meeting was held under the auspices of the Connecticut Valley Alumni Club of which Dr. M. H. Williams of Sunderland was president. Officers for the coming year were elected and Herbert Myrick '82 was elected president. Other officers are first vice-president, Dr. Theodore Bacon '94; second vice-president, Roger Eddy '10; secretary and treasurer, Walter Barlow '09.

Coach Gore and Robert Holmes direct from the 25-0 victory over Vermont were speakers. Robert Fay '13, Dr. Theodore Bacon '93, Harlan Worthley '20 and George Goodrich '20 all gave live talks on Aggie and the Memorial Building Campaign.

AMHERST.

The Amherst meeting was especially well attended as the alumni back to see

PROVIDENCE, R. I.

A new alumni association was formed at Providence. Willie S. Fisher '98 was elected president-secretary. An executive committee was elected composed of the following men: William C. Dickerman '01, E. M. Poole '08, E. A. White '19. It was voted to meet annually in October. The first active job the club has tackled is to convey all members of the organization to the M. A. C.—Rhode Island game on Nov. 8 in automobiles.

HAVANA, CUBA.

Cablegram—

"Present: Lewis '95, Dickinson '07, Leonard '10. Have five pledges \$1000."

LEONARD '10.

CLEVELAND, OHIO.

Telegram—

"Cleveland Alumni Association has subscribed one hundred per cent. membership and is solidly behind committee. Quota assigned is over subscribed fifty per cent. Feeling here is that all class secretaries should receive more power and really get behind this fund. Cleveland Association will do its best to subscribe any quota assigned to it if fund is still under subscribed after ninety per cent. of alumni and all of students have registered a pledge. This fund will be a huge success if every one shows real college spirit but without the real spirit it can never be a real success through over-subscribed."

A. D. TAYLOR '05.

THREE MORE RACES FOR

CROSS COUNTRY TEAM

Manager Kendall has announced the schedule of the cross country team for the remainder of the season. There will be three more meets, one of which is over the home course. As a climax to the season the last race will be at the big Intercollegiate meet at Boston.

The schedule is as follows:

Nov. 1—Williams at Amherst.

Nov. 8—New Hampshire at Durham.

Nov. 15—Intercollegiate meet, Boston.

VERMONT GAME

(Continued from page 1)

From their own 30-yard mark, the M. A. C. backfield battered their way to the Vermont four-yard line, only to lose the ball on downs. An exchange of kicks gave U. of V. the ball 30 yards from their own goal line, but King recovered for M. A. C. on a fumble just as the whistle blew, ending the half.

Glavin ran back U. of V.'s kickoff to midfield, and from here the Maroon and White backs pushed it 20 yards in five rushes. A penalty forced Lewandowski to punt, and for Vermont, Brock followed suit after an attempted line plunge was snuffed for no gain. The Aggie backfield here began another attack on the green jerseyed line, and ripped through almost at will, advancing to the five-yard mark in 12 plays. From here Grayson took another forward over for the third touchdown. No goal was kicked. Score, M. A. C. 18, U. of V. 0.

After two attempts to gain through our line, Vermont tried a forward pass, which went incomplete, and M. A. C. took the ball on downs. Two penalties and an exchange of kicks brought the ball to Vermont's 15-yard line as the quarter ended.

It was M. A. C.'s hall on Vermont's 15-yard line to open the last period. A forward pass gained five yards, a line plunge two more, and then Lewandowski plowed through for eight yards and a touchdown. Grayson sustained an injury to his knee on this play which will keep him out of the game for at least ten days. Pond kicked the goal, bringing the score to 25.

Following Brock's kickoff the ball was brought back into Vermont territory, where it remained until the end of the game. Whittle attempted a dropkick in the last few minutes that came very near adding three more points to the score. Following this, Vermont's kickoff was run back 10 yards and the game ended with the ball in midfield.

For M. A. C. Grayson turned in a brilliant offensive game at end, and Mackintosh put up a stellar defensive game at left guard.

Thomas excelled for Vermont.

The lineup:

| | |
|------------------|----------------|
| M. A. C. | U. OF V. |
| Grayson, re | le, Barrows |
| King, rt | lt, Schmidt |
| Gray, rg | lg, Sunderland |
| Goodwin, c | c, Margolski |
| Mackintosh, lg | rg, Soule |
| Holmes, lt | rt, Curran |
| Glavin, le | re, Thomas |
| Lewandowski, rbb | lbb, Smith |
| Whittle, lbb | rbb, Brock |
| Poole, fb | fb, Johnson |
| Pond, qb | qb, Haggerty |

Score—M. A. C. 25, U. of V. 0. Touchdowns—Grayson 2, Poole, Lewandowski. Goal from touchdown—Pond. Substitutions—M. A. C.: Dewing for Glavin, Lent for Grayson, Daggett for Goodwin, Delabunt for Gray, Cotton for Holmes, and Jakeman for Poole; U. of V.: Garrity for Curran, and Harris for Haggerty. Umpire—Swafield of Brown. Referee—McGrath of B. A. A. Head linesman—Kennedy of Amherst. Time—12 minute periods.

'11.—Major George F. Nickerson, Inf. U. S. A. is stationed at the Mendocino Hospital, Talmadge, California. Major Nickerson is suffering from a mental shock that occurred while he was overseas.

SNAP AND FIGHT TO BE THE WATCH WORD AT DURHAM

Previous Scores Point to M. A. C. as Probable Victor in Interstate Game.

M. A. C. should experience little difficulty in defeating New Hampshire State Saturday. If comparative scores point towards anything, the game is on ice. But paper work never yet won a game.

The scores:

N. H. State 10, Vermont 0
M. A. C. 25, Vermont 0
N. H. State 10, Norwich 7
N. H. State 12, Lowell Textile 2

New Hampshire has given an excellent account of herself up until a week ago Saturday, when she only rolled up 10 points on Vermont. Our score of 25 is significant. Again, on Saturday, she accumulated but 12 points at the expense of Lowell Textile. This last-named institution has the enviable record of an unbroken string of defeats in the hands of the Lowell High School for the past 10 years.

Nevertheless, as she possesses the dangerous qualities of both speed and weight, she is an opponent to be reckoned with. Forward passing is one of her specialties, having gained her many points in that way. But Aggie's ability at breaking them up is well known. However, New Hampshire's style of play is so similar to our own that she presents a real problem.

Reports from Durham indicate that this is to be their largest game of the season. The governor of New Hampshire will be present, music will be furnished by a special band, and the evening will see the culmination of a series of social events especially planned for the occasion.

With Captain Pond's outfit tearing them up as they did Saturday, there is little real doubt as to the outcome. The Aggie's board was merciful to the squad, only a few men being rendered ineligible. Injuries have not played the part expected at the close of the game Saturday. At present Pond and Grayson are both recovering rapidly and it is hoped that they will be able to start Saturday.

CROSS COUNTRY

(Continued from page 1)

The race was a typical Aggie victory, a race won at the tape. The pistol was fired at three o'clock. Immediately, Granger, Vermont's fastest man shot to the front at a hard pace. He was closely followed by his team. The Massachusetts men advisedly held back in the early start. At the first hill, however, M. A. C. showed the results of training. Lyons passed his man on the way up the hill. For a mile the teams were fairly well bunched together, but at the two mile mark, they had begun to string out. Unfortunately, for Vermont, Granger collapsed in a swoon as he was about to jump a five foot fence.

At the three mile mark, two of the Green Mountain men were in the lead, fifty yards ahead of the first M. A. C. man. The field of runners was strung out over a quarter of a mile at meadow, hill and road. Not until the runners got within a mile of the finish, did the real running ability show itself, every man lengthened his stride, quickened his pace, and swung toward the finish at a faster clip. The race on the last quarter mile, which was run on the circular cinder track, was well worth seeing. Two Vermont men led Lyons by 40 yards—Lyons made a pretty, well-

A Vital Question.

We reprint below an extract from the editorial column of the *Middlebury Campus* which we feel is worth passing on to Aggie students.

"Are you getting out of college what you came here for? Are you getting what you ought to out of it? Did you ever stop to think that you, as college men, will be looked to for leadership in solving the great problems of life? Whether you wish to or not, you will be expected to lead in just that way. Then ask yourself this: Are you capable of fulfilling such a responsibility? Do you ever think of such things? Do you ever follow out in your thought any one specific problem to its pitiless logical conclusions? No? Then how in the world are you going to be able to cope with such problems when you no longer have the college walls for refuge and can no longer take your instructor's views as your own? * * * * *

"In most of us the power of observation, the power to experience keenly, is not well developed. We see in this world only that for which we are looking, only that for which we are developed to see. Are you searching for the best things? And what is better than observation of things that are essential to the welfare of all mankind? What topics, after all, are more often discussed? The problems of the average man? His are the problems of all humanity.

"The community needs thinking men, leaders in the battle for right; the war is not over, but just begun. We have seen that the discussion by a small group of the great topics of the day may lead ultimately to the betterment of conditions in a circle far larger than that of the individuals who started the discussion. Then why don't we avail ourselves of our splendid opportunity to prepare ourselves to be a positive help rather than a negative discouragement in our community, in our state, perhaps in our nation? There is strength in unity; unity is the result of agreement in principles, and principles are brought out by discussion of the problems of everyday life. Let us avail

ourselves of the opportunity that we have; let us show those who are watching us that at Middlebury College there are earnest men, capable of reading, studying, thinking, men who are trying to discuss intelligently the great problems of the day, men who are eager to train themselves to observe keenly, to think clearly, and to express themselves effectively, men who are determined to be of the greatest possible help in the communities in which they live!

CAMPUS CALENDAR.

WEDNESDAY OCT. 29.

4-10 P. M.—Assembly speaker unannounced.

6-40 P. M.—Y. M. C. A. meeting.

7-30 P. M.—Animal Husbandry Club meeting, Prof. J. C. McNitt

BUILDING COMMITTEE

TWO YEAR MEN COME ACROSS FIRST WIN OF THE SEASON

Greater Weight and Straight Football Spells Defeat for the Rosary Eleven.

The two year football team defeated Rosary High School by the score of 13-0 at Holyoke last Saturday. The game started off with a walk down the field for the two year men resulting in a touchdown during the first 12 minutes of play. The second period neither team succeeded in making a score, but the two year men came through for another touchdown in the third quarter after seven minutes of play.

Rosary High had a few heavy men and showed a lot of fight, but the Aggie line-up far outweighed them. Nine substitutions for Rosary show how hard their line was hit. No men, however, were seriously hurt. Straight football was used by both teams for most of the game, although Rosary used several

Let's Go!

and measure up to day.

A HIGHER IDEAL

There would be no advantage in devoting the most valuable years of one's life to gain knowledge and experience, if greater possibilities and achievements were not forthcoming.

It is then proper to assume that because of his exceptional scientific training the agricultural college man is progressive, well advised in the most modern dairy practices and the methods that are likely to make dairying the most profitable.

You know that profitable dairy production cannot succeed without cleanliness, and you should also know that

is capable of maintaining a cleanliness that is productive of the highest quality dairy products, because it is used for thorough and sanitary cleaning by all Agricultural Colleges in the United States and Canada.

SIMPLICITY

OF THE
DE LAVAL

Simplicity in cream separator construction avoids waste and makes possible quick and easy handling of milk.

The De Laval Cream Separator is remarkably simple. Thousands of De Laval are run and cleaned by children every day.

This simplicity means long life and freedom from repairs, and is the outcome of over forty years of unquestioned leadership in cream separator inventing, developing and perfecting.

Every part has been developed to its highest degree of simplicity coupled with efficiency, and the De Laval has earned for itself the name of being "the world's standard separator."

More De Laval are in use than of all other makes combined.

See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office, as below.

1919.

For Value Received, I gladly promise to pay to the order of THE ASSOCIATE ALUMNI OF THE MASSACHUSETTS AGRICULTURAL COLLEGE the sum of _____ Dollars, in four equal installments as follows:—on January 1, 1920, July 1, 1920, July 1, 1921, and July 1, 1922. Payable at the office of the Treasurer of the Massachusetts Agricultural College, Amherst, Mass. Reserving the right of anticipating payments and of paying the whole or any portion of the principal before maturity.

CLASS _____

ADDRESS: _____

COMMUNICATION

The following letter was received recently from the mother of the late Ralph R. McCormack, of the class of 1921 and a member of the Kappa Sigma Fraternity, who was killed in an airplane accident at Pensacola, Fla. last winter:

Dear Mr. — and all the other Dear Boys of '21:

I received your kind little note and as I cannot talk with you personally, though I had better write. I am sending you a small donation by P. O. order to be used by the class as they see fit. I know you have many activities, athletic or otherwise, where you could use a little money. I want you to accept it as a gift from my boy. He loved his year with you all so much, and had spoken of it so many times. In the spring, if I feel stronger I will come up to the college as I want to see the places my boy spoke of and where he said he spent the happiest year of his life. I received a letter and a booklet from the college about the Memorial Building they are planning and think it a beautiful idea, and want to try and help a little.

Hoping to see you in the spring and wishing you all a happy and successful year, I remain yours sincerely,

MARY J. MCCORMACK.

DEPARTMENT OF AGRICULTURAL EDUCATION NOTES.

Professor W. S. Welles and Assistant Professor L. W. Barnes are new to the department this year, though not new to their respective lines of work. Professor Welles is to have charge of the courses in principles and methods of teaching, also the supervision of apprentice teachers, either undergraduate or graduate students. Professor Welles comes to us from Wisconsin, where he was State Supervisor of agricultural teaching under the State and Federal Boards for Vocational Education. He has had successful experience in the training of teachers of agriculture as well as of other subjects.

Assistant Professor Barnes will have charge of the courses in county and Farm Bureau work. This work is based on methods of visual instruction. He will also work in connection with the Extension Service instructors. Before coming to M. A. C. Professor Barnes was connected with the Extension Service of the University of Colorado for five years where he was State leader of the Junior Extension work. He was also an Assistant Director of Agricultural Education in France during the period of demobilization.

Mr. C. W. Scott of the Senior class went last week to Reading, as an ap-

prentice teacher under the direction of the department of Agricultural Education. His work at Reading will enable him to get experience in outlining and preparing material for teaching, practical experience in the work of teaching, and experience in directing students in their study periods, as well as directing them in their home project work. He will spend the remainder of this term at Reading, after which he will return to M. A. C. to complete his college course. While this type of work is not entirely new in the department, it has now been placed on a more substantial footing. It will be carefully supervised by the department in cooperation with the Massachusetts State Board of Education.

INTERCOLLEGIATE NOTES

Down at Rhode Island State College the Sophomores issue a challenge to the Freshmen or vice versa, for the annual rope pull. We wonder what would happen if the challenge was not accepted.

The Sophomores of Rochester University have laid down to their Freshmen a tenth commandment which is "Remember that the sidewalks have been laid for thy use; confine thy wandering footsteps to their surface."

From the Dartmouth of Oct. 11, referring to the Aggie eleven: "The backfield is their strongest point." Doubtless they know in Hanover by now that this backfield plays behind a real good line, and has driving power.

The first professional football team in the East, hailing from Gotham, and bearing the name of New York Giants, has been organized. Charley Brickley, famous in Harvard football circles, is responsible for naming the team.

At Princeton an absence from physical training counts as a double cut, while absences from classes count simply as single cuts. A Freshman, writing to the editor of the *Princetonian*, wants to know if 20 minutes of swimming is worth as much as two hours of Latin or chemistry.

At a recent meeting held by representative students and members of the faculty of Williams College, a discussion of the H. C. L. was held. It was found that the average yearly expenditure of the men had increased from \$800 to \$1200 per year. This was generally attributed to the increase of prices in the country over. The fact that so many students were supporting automobiles while in college was also mentioned. It was suggested that it is because of this that Williams has the name of being "a rich man's college." The possible remedies decided upon were a central purchasing agent for all student eating houses and the establishment of a co-operative store.

STUDENT FORUM DEVELOPS SPIRIT OF COLLEGE

Class Action Urged to Assort Itself. Results in Soph. Smoker Plans.

The Assembly last Wednesday was a student forum, in charge of Adelphi. After Crafts had read several notices, Dewing, '20, President of Adelphi gave a brief explanation of its purposes. He stated that Adelphi is a Senior honorary society, designed to promote smooth-running activities, and to give students an opportunity at forums, to present their views and opinions of college affairs and to air any grievances which they might have.

The first question brought up was that of credit system for student activities. Campbell '20, explained that the system allowed each man a certain number of credits, for extra-curriculum activities, which he could use as he wished; e. g. football might be five credits, Senate membership three, etc., and the maximum number ten. By the use of this method, one man could not be in too many things, and would accordingly have more time for studies, and could devote his best efforts to one or two activities. At present, the running of the various activities are concentrated in the hands of a few capable men. The credit system is designed to spread the responsibilities among a large number of students. Williams and M. I. T. both use this system, and find it very satisfactory. After Campbell finished, much was said, pro and con, and the question will doubtless be put to a vote in the near future.

The remainder of the meeting was devoted to discussing the traditions and customs of M. A. C. Goodwin was the first speaker. He stated that traditions mean much to Aggie graduates, and the memories of rope-pulls and class scraps remain verdant long after books are forgotten. "College spirit is a great thing, and athletic enthusiasm is the best means of developing it. Another spirit that has always prevailed here at Aggie is the old democratic spirit, that 'Hi' and 'Howdy' air that every visitor notices. One of the questions before us now is that of our present customs. Are they adequate; are they what we want? Some lively old customs are woefully lacking in spirit now. There is no band this fall to cheer on the team. Many of the best College songs are comparatively unknown. The nightshirt parade and the rope-pull lacked fighting spirit, while the banquet scrap is dying, and the picture scrap has already passed into oblivion. The lack of action in the Dining Hall was mentioned. Some made the statement that it resembled a morgue now,

THE DRESS CIRCLE

in Amherst might well be called the "Walsh Circle" for the best dressed men are usually found in both. Have you seen the Golf Suits and Golf Hose that came in on Saturday? A word to the wise is sufficient—Consult Tom.

1922 CLASS MEETING

At a class meeting and "pep" talk after assembly last Wednesday, 1922 elected Gladly, M. M. Smith, and Gas-kell on the Class Smoker committee. It was also decided to challenge 1923 to a six-man rope pull, to be held this fall.

Total undergraduate contributions to October 28th, \$27,179.
Total faculty contributions to October 20th, \$3,179.
Total of all contributions to October 28th, \$105,025.19.

*Based on the proportion of men contributing to the total number of actual graduates. Percentages over 100 mean that members of the class who did not graduate have been active in helping their Class and their College.

CAMPUS NOTES

The short course students have formed a society, which is to be known as the Gamma Alpha Gamma. They will hold a social dance in Masonic hall on Friday, Nov. 14. Jerry's Jazz band will furnish the music. Everyone is cordially invited.

Maurice Levine ex-21, is now a petty officer in the Navy Medical Corps. He is stationed at Newport, R. I.

Senate Meeting.

The Senate held a short meeting Tuesday, Oct. 14. It was voted to allow Freshmen to go without green bands or other class insignia on drill days. Jake-man reported that the Social Union program for the year had been completed.

Another Pledge.

The name of Edwin F. Ribero of Franklin, should be added to the list of the Freshmen who pledged Alpha Sigma Phi.

Corrections.

"Jack" Smith has been elected president of the Roister Doler dramatic society. (In a former note this was given as R. N. Smith.)

Instead of 30 subscriptions for the *Squib* as announced in the *Collegian* of Oct. 22, there are 350 now in.

New System for Freshmen.

Contrary to the custom of former years, when Freshmen were included in the Dean's monthly report, a new system has gone into effect, which saves first year men the publicity they once received. Under the new ruling reports are given to all Freshmen by their advisers, showing their standing to date in all subjects. This is thought to be an advantage over the old system in that the new student is given a chance to put in his time where it is most needed, thereby increasing his chances of passing all courses. It also serves to keep the Freshmen in closer touch with the advisers appointed for them.

Dr. Fitch to Speak.

Dr. Albert Parker Fitch of Amherst College will be the speaker at the first Sunday morning chapel on Nov. 2 in Bowker Auditorium. Dr. Fitch needs no introduction to Aggie students, having spoken here before on several occasions, always being well received. His contact with men of all walks of life in his experience as a preacher, and his appreciation of the position of the college student in the world of affairs today, gained from his service as a professor, lend a personal touch to the natural appeal of his sermons, and we should count ourselves fortunate in having a speaker of his calibre to open the Sunday Chapel Services for the year.

Junior Class Meeting.

A very peppy class meeting was staged last Thursday in the Social Union rooms. A Junior Prom committee was elected consisting of C. D. Kendall, J. W. Alger, D. C. Douglass, J. J. McCarthy, S. M. King, J. D. Snow, P. L. Robinson. The following men were elected to serve as the Junior Smoker committee: L. P. Fuller, P. W. Brown, R. F. Readie, H. R. Geer, R. G. Leavitt, D. A. Lent and J. J. McCarthy were elected to the inter-class athletic committee and W. I. Palmer was made manager of the cross country team. Following these elections the class *Inter* was discussed from various angles: R. A. Mellen, editor-in-chief and C. D. Kendall, business manager, gave a brief summary of what has been done and what is expected of each member of the class in the future. A general discussion followed, after which the meeting adjourned.

OPPOSITE THE TOWN HALL

Y. M. C. A. MEETING

At the Wednesday Evening Meeting of the Y. M. C. A. Professor Albert Parker Fitch, of Amherst College, spoke on the Elements of Success.

The earthly ministry of Jesus Christ, by all ordinary standards, was a complete failure. Jesus in most of his encounters with individuals was a failure. They were so lacking in spiritual vision and in sense of values that they could not grasp the significance of his life and teachings. The woman at the well saw in this great character, who was to dominate the world, only the magician who could tell her "all things that ever she had done." The rich young ruler, clamorous to know how he could obtain eternal life, turned quickly away, pitying himself, when he found that what he sought could be had only by ceasing to set high valuation upon material wealth. He was content to live and die in the snug comfort of wealth, when he might have become an everlasting power under Jesus Christ. He failed, from lack of vision and from cowardice.

Jesus seemed to fail also, for after a ministry of perhaps only fifteen months he was condemned by his own people to the most ignominious death which the times knew. But today he is conquering the earth, because what he did in those short months were perfect. His ignominious failures were in reality glorious successes.

Quality in achievement, not quantity, is what has lasting effect upon the world.

'14.—An Alumni farewell party was held at the apartment of Eldridge and Dexter, both of '14, at 78 St. Stevens, Boston. It is rumored that Eldridge will soon leave the bachelor's club.

'16.—Sergeant William C. Dickinson is in the educational branch of the army and is stationed at Fort Bayard, New Mexico.

ANIMAL HUSBANDRY CLUB
ORGANIZES FOR YEAR

Officers Were Elected. Next Meeting Oct. 29 at 7:00 P. M. in Arena.

At a meeting held in the Social Union rooms last Wednesday evening, the Animal Husbandry Club was organized for the coming year. E. E. Harvey acted as temporary chairman and called the meeting to order shortly after 7:00 o'clock. About 60 men were present and a lot of enthusiasm shown.

Mr. Holden of the Animal Husbandry Department gave a short talk expressing his ideas of what the club should be, and after some further discussion the following officers were elected: President, E. E. Harvey; vice-president, E. H. Taylor; secretary and treasurer, J. E. Littlefield.

The remainder of the evening was taken up principally by a discussion of plans and work for the club. A committee consisting of Mr. Holden, Harvey, Taylor, Littlefield, Graf and Thayer was appointed to plan for future meetings.

The next meeting will be held in Grinnell Arena, Wednesday Oct. 29 at 7:00 p.m. At that time Prof. J. C. McNitt will give a talk on his experiences overseas. A record breaking attendance is looked for and anyone at all interested in animal husbandry should make it a point to be present.

'07.—Clinton King, secretary of the class, is still on the job in the capacity of attorney on 31 Elm Street, Springfield. He paid a flying visit to the campus over the week-end.

'07.—Clifford B. Thompson died at Halifax, on July 6, after several years illness from a tropical disease, contracted during his residence in the Federal Malay States.

(Continued from page 1.)

of, and cooperate with, the Pomology Department in holding the annual fruit show. G. B. Woodward was nominated chairman of a committee to push this work. He is to select two regular students and two short course men to fill out the committee. An excellent show is expected.

Prof. F. C. Sears gave a very interesting talk on fruit conditions in the Northwest, as he saw them, on a recent trip through that territory. Following this lecture came a discussion of the varieties of apples and methods of orchard management. McIntosh apples were passed around for refreshments.

At the next meeting of the Club, November 4, Professor Waugh will be the speaker. Everyone with any interest in fruit growing is cordially invited to be present.

'97.—J. Gerry Curtis is forester and landscape engineer for the Carnegie Steel Corporation. Address, box 642, Muncie, Pa.

ALUMNI NEWS

The activity of the class secretaries is clearly brought out by the amount of alumni news that is found in the issues of the COLLEGIAN. From some classes there is always an abundant supply of notes, while from others not a one can be obtained throughout the college year. The COLLEGIAN endeavors as far as possible to serve as an Alumni paper and in order to continue this policy satisfactorily, some outside co-operation is necessary from those who are in touch with the Alumni. Perhaps at this very moment someone is inquiring about a man with whom you are in touch. Think it over the item may not be of much interest to you, but it sure would be mighty interesting to the thousands of COLLEGIAN readers. Send all items to the Alumni Editor or the Assistant Secretary of the Associate Alumni, Amherst.

'07.—The address of Charles M. Parker is now 50 Temple Street, Springfield.

'09.—Ed Burke took in the game Saturday.

'14.—Captain Tell W. Nicolet, Q-M-C, who has occupied a responsible position as one of the assistants to the Chief of the Construction Division of the Army, Washington, D. C., for the past two years, has just completed the compiling and writing of the Annual Report of the Chief of the Construction Division for the fiscal year ending June 30, 1919. The report is approximately 125,000 words in length and when printed will make a volume of about 250 pages. It deals with the activities of the War Department with respect to the construction of camps, cantonments, proving grounds, aviation fields, various ammunition and gas manufacturing facilities, and, in fact, all construction work performed for the Army in the United States, Canal Zone, Hawaii and the Philippine Islands since the declaration of war with Germany.

'14.—Mike Brewer was about the campus over the weekend. He was more than pleased to witness the decisive victory of the varsity over Vermont.

'16.—Sax Clark is with the Bureau of Markets, Boston.

'16.—Ray Eldridge is now located at 284 Plymouth Street, North Abington.

'16.—Harold G. Little is studying at Harvard Medical.

'16.—H. W. Bishop's present address is 310 Penn Street, Huntington, Pa.

CROSS COUNTRY TEAM LOSES FAST RACE TO WILLIAMS

First Defeat of Season for M. A. C.
Brown Leads Whole Distance.

The M. A. C. cross country team met its first defeat of the season, last Saturday, at the hands of Williams, by a score of 21-34. Williams' showed the value of a few stars, the men taking the first three places. The time was fast, Capt. Brown of Williams finishing first in 27 minutes, 28 1-2 seconds.

Lyons, who took fourth place, was the first Aggie to finish. He gave Coan, the Williams' third place man a great race, but the final sprint was too much, and Coan finished several yards ahead. Sixth, seventh, eighth, and ninth places were also taken by M. A. C. men.

This meet is no great discouragement to the team, as Williams' strength was well known. Their team was composed mostly of veterans who have been running for several years. The New Hampshire meet next Saturday will find M. A. C. prepared for a win.

The order in which the men came in was: Capt. Brown, Williams, first; Crafts, Williams, second; Coan, Williams, third; Lyons, M. A. C., fourth; Kellogg, Williams, fifth; Rollins, M. A. C., sixth; Slate, M. A. C., seventh; Grey, M. A. C., eighth; West, M. A. C., ninth; Adams, Williams, tenth.

LIBRARIAN'S CONVENTION

About fifty delegates to the conference of Massachusetts and Western Massachusetts Library clubs visited the M. A. C. library recently. The conference was held at Springfield and on the final day a party of sightseers stopped at Amherst on their return from an auto trip up the Connecticut Valley.

Mr. C. R. Green, the librarian at M. A. C. has put into effect a new idea in library service, through which farmers or teachers in remote rural districts may obtain collections of books on any subject they desire from the Collegelibrary. Application must be made through the local libraries and the books will be sent immediately. The local libraries are held responsible for the books but all transportation charges will be paid by the College.

'16.—Schenfele is connected with A. W. Lincoln and Co., investment securities, 10 Post Office Square, Boston.

SATURDAY'S SCORES

What our future football opponents did last Saturday:

R. I. State vs. M. A. C., Nov. 8.
Holy Cross 29, R. I. State 3.

Springfield vs. M. A. C., Nov. 17.
Harvard 20, Springfield 0.

Tufts vs. M. A. C., Nov. 22.
West Point 24, Tufts 13.

MEMORIAL BUILDING PLANS

At a meeting of the Memorial Building Committee in Boston on Saturday, Nov. 1, 1919, it was voted:

That the Campaign be extended until Dec. 15th, with a view of having an "Every Man Memorial" and with the purpose of increasing the percentage of Alumni who share in its building. Forty-three per cent. of the Alumni have brought the fund to a total of \$103,000, which, plus the pledges from the student body makes a total of \$129,000. The Committee feels that it is fair to ask the rest of the Alumni to guarantee the remainder.

It was further voted:
To let the contract for the Memorial Building on Dec. 1, 1919.

ALUMNI—READ THIS THEN PLAN TO COME

You Can Talk Over the Memorial
Drive Better on the Old Campus
Than in Any Other Place.

As a fitting climax to a successful football season, the final, and incidentally the next home game will be staged with our ancient, yet honored, rivals from Tufts on Alumni Field Saturday, Nov. 22. It certainly would be an inspiring sight to the student body as well as to the team, to witness an exhibition of "Aggie spirit and pep" raging once more unconfined. To you older men at college and to alumni who know how to give such an exhibition, is this appeal directed especially.

It is not an appeal made without a suitable foundation either, for we have a team on the field that is fighting as hard as any Aggie team of yore, a glance at the season's scores will make that point clear. In the first game of the season the team romped away with a game from Connecticut Aggie to the tune of 15-7; they held Dartmouth to a 27-7 score. This is the first time for ten years that our football team has scored on a Green team. They won a contest from W. P. I. 27-0, and one from Vermont University 25-0. Last Saturday they lost a game to N. H. State, in the last two minutes of play, by the score 9-7. Now, if that is not a record to be proud of, we would like to know.

The team surely needs and deserves the support of every one of us on Nov. 22. Tufts has a team that will give us a battle. They have made a creditable showing thus far in the season; their two stars who are now on the injured list will be in trim in time for the game. It has been rumored that there will be a hundred per cent quota present from Worcester. Remember the time, 2:00 p. m.; the day, Saturday, Nov. 22; and the place, Alumni Field.

'19.—Carlton Blanchard has gone into the hen business.

SECOND INFORMAL OF YEAR NEXT SATURDAY, NOV. 8

Committee Working Hard in Anticipation of a Record Breaking Crowd.

Plans have been completed to run the second informal of the year on Saturday Nov. 8. The committee has been working hard for this event in an endeavor to make it as successful as the first one and a record crowd is expected.

Dancing will commence at 3:30 p. m. sharp and will end in time for the Smith and Mt. Holyoke girls to catch their cars at 9:30 and 9:00 p. m. respectively. Supper will be served at Draper hall as usual and something real special on the menu has been promised. Tickets are now obtainable at Phi Sigma Kappa House for \$3.00. After 10:00 p. m. Thursday evening the price will be \$3.25. The chaperons will be announced at the time of purchasing the tickets. Remember, this is the last informal before Dec. 13!

STUDENT VAUDEVILLE TO BE STAGED DECEMBER 13

Plans are under way for a student vaudeville to be held on December 13. Doing this is a revival of an old college custom that has been extinct since 1916. It is open to the entire student body but is a sort of inter-club affair. Each fraternity, the Commons Club, the two-year men and the non-fraternity men are to put on an act of their own. It is to be run in conjunction with an informal. It is the first of a series of shows to be put on by the Rolster Dusters this year. The others are the Prom show, the Commencement show, and a college vaudeville. For particulars for the student vaudeville, see the manager of the Rolster Dusters.

'14.—W. A. Davis is experimenting on the production of onions in Concord. These experiments, so far, have proved successful and may lead to the adoption of the crop to a considerable extent.

AGGIE LOSES 9-7 TO NEW HAMPSHIRE

Drop Kick in Last Two Minutes of
Play Decides Game.

M. A. C. met its second defeat of the season in the hands of New Hampshire at Durham last Saturday. Although outplayed in the first two periods, Aggie started a drive down the field in the second half which the blue line was unable to resist. After an exchange of punts, the ball was advanced to the 4 yard line and the touchdown made on a beautiful forward pass to Grayson. A dropkick by Conners, following a trick play, resulted in a victory for the blue in the last few minutes of the game. New Hampshire got her touchdown by a blocked punt in the first quarter.

Both teams were in excellent condition and not a man was hurt despite the muddy field. The game was witnessed by an unusually large crowd of blue followers, while a loyal band of thirty or forty cheered on the Maroon and White.

New Hampshire received and made several long gains, but lost the ball on an unsuccessful dropkick. M. A. C. was held for downs again giving New Hampshire the ball. The blue fumbled on Aggie's 8 yard line M. A. C. capturing the ball. Lewandoski kicked over the goal line and Aggie retained the kick from the 20 yard line. After two first downs, M. A. C. recovered the ball but was penalized 15 yards for holding. This put the ball in play on the 10 yard line. Lewandoski's kick was blocked and a New Hampshire man fell on the ball over the goal line. Score: New Hampshire 6; M. A. C. 0. The goal failed. New Hampshire kicked the ball on the 20 yard mark. First down was made when the whistle blew for the end of the first quarter.

Goodwin recovered a fumble but M. A. C. was held for downs. Punts were exchanged several times during this quarter, neither team being able to make consistent gains. Poole was the only man who was able to worm his way through the blue line for a few yards. Gadiols and Conners for New Hampshire made some remarkable tackles in this period as well as in the rest of the game. New Hampshire tried two forward passes but both were intercepted. Mansell, King and Lewandoski did some fine defensive work for M. A. C. The first half ended with the ball in New Hampshire's possession on her 25 yard line. Score: New Hampshire 6—M. A. C. 0.

The Maroon and White team came back with a terrific drive the second half advancing the ball to the 25 yard line. New Hampshire caught a forward pass but M. A. C. recovered the ball on a fumble. A dropkick failed giving New Hampshire the ball on 20

yard line, but a penalty placed the ball back 15 yards. Aggie received the kick and advanced the ball to the 4 yard line when the quarter ended.

A beautiful forward to Grayson resulted in a touchdown for M. A. C. Whittle kicked the goal making the score 7-0 in favor of Aggie. New Hampshire received the kickoff. And in the first play was thrown back for a loss of 5 yards by Holmes. A forward pass was interrupted and New Hampshire kicked. Aggie's ball on 20 yard line. A series of end runs and line plunges netted 12 yards. A stiffer resistance was encountered and M. A. C. was forced to kick. The blue team lost 5 yards on an end run and another forward failed. Punt was exchanged and New Hampshire again attempted a forward pass. Holmes and Daggett nailed the next runner for a 10 yard loss. Aggie received the kick and Poole gained 7 yards through center. Lewandowski made a pretty end run of 16 yards. After failure to gain again, the light halfback kicked to their 25 yard line. New Hampshire made 12 yards on a long forward pass, but the next attempt failed. The blue team spread out and by a trick play the Quarterback shot through center of the line for a 20 yard run. From this position, a drop kick sailed over the bar giving the game 7-0 with but two minutes still to play.

SPRAGUE REVIEWS DYNAMIC POWER OF ROOSEVELT

Typical American is Great Example to Youth of Today

At Wednesday assembly last week the speaker was Dr. R. L. Sprague of the faculty. His subject which was very fitting at the time was "Our Good Old 'Teddy' Roosevelt".

The presidents after Lincoln up to Roosevelt were not men who took the civic interests of the country at heart. They were all men who had been fighters in war. Pres. Roosevelt started a new era in the United States. Grover Cleveland although immovable when determined was not a leader of people. Roosevelt was the first man who was prepared. He had a vision that a President should have. It stood for a civic and social progress. He was the first man to arouse the people. He awoke them to a certain civic consciousness.

Theodore Roosevelt was called a typical American. He has often been picked to represent the Anglo-Saxon type of man, but was far ahead of most Americans. He was, and is now in a certain sense, a powerful, aggressive, dynamic, and idealistic man. The war has brought out his realizations of American life. "The mighty played

a mighty mean trick on the Irish when he made T. R. an American".—John L. Sullivan. He demonstrates the converting powers of Anglo-Saxon ideas of life. These men come to be carried to heaven by their own strength and individualism.

He was often said to have a chip on his shoulder. This was perhaps so, but the chip was for a righteous cause. He once remarked at a banquet that the White House door swings to the laborer as well as to the financier, but no easier. Roosevelt was one man who understood the international question thoroughly; he surely knew how to play the game. An example of this was in the Venezuelan dispute with Germany. Progress was the one great thing that he stood for. What we want now is the spirit of Roosevelt. We want progress. Dr. Sprague concluded his talk by reading a short poem which ended thus: "I went away with still so much to do".

TEAM SHOULD FIND EASY PICKING AT RHODE ISLAND

Kingston Men Have Lost Every Game. Having Played Brown, Wesleyan, B. U., Stevens and Holy Cross.

The last of M. A. C.'s "preliminary" game comes Saturday when our grid-iron warriors journey forth to clash with the Rhode Island State aggregation at Kingston. Her record this season points to an easy win for Aggie.

Rhode Island, so far, has not met with any of the teams on our schedule. Therefore, comparative scores are unavailable. However, so far Rhode Island 0, Brown 27 Rhode Island 0, Wesleyan 35 Rhode Island 0, Boston University 14 Rhode Island 2, Stevens 31 Rhode Island 3, Holy Cross 29. It is noticeable that her scores have been made against teams of a high calibre. However, this is to be disregarded because none of them are the result of "straight" football, all coming from so-called "dukes." Her opponents have consistently remained in possession of the ball the greater part of the time.

Rhode Island's poor showing seems to have resulted from a light line and lack of ability on the defense. She depends principally upon the old-time line plunge plays to do the ground gaining. Aggie's line is well equipped to take care of this method. Couple this with our ends' ability at pulling them down out of the air, a whirlwind backfield, and general open style of play; the result should be heavily in our favor.

Rhode Island brought forth Saturday a dark horse in the person of Johnson, drop-kicker and punter. Another R. I. man who will bear watching is Turner, a speedy end.

In general, Rhode Island has been playing a string of hard, gruelling games with colleges larger than herself. She has been consistently defeated. Naturally, the morale of her team cannot help but be low. This factor alone will lose or win a game. On the other hand, our game Saturday resulted in practically no injuries, the team is going better than ever, and we have a good percentage of wins. The team's morale is high.

Aggie's prospects were never brighter. Without a doubt, she will come through Saturday with another win.

CROSS COUNTRY TEAM GOES TO NEW HAMPSHIRE

Hard Race Anticipated With Vic-
tors Over M. I. T.

The Aggie cross country team meets stiffest opposition so far this season, Saturday, when it journeys to Durham to meet the New Hampshire State aggregation.

The personnel of the New Hampshire team, headed by that veteran Nightingale, has been cleaning up all comers. Billingham, Leith, Thompson and Fitz are also to be reckoned with.

As New Hampshire did not participate in the recent intercollegiate, no dope is to be gained from this source. The defeat of M. I. T. in her hands, Saturday, is significant.

The course at Durham is six miles as compared with Aggie's five. Manager Kendall is making an effort to have the course shortened.

The team is eagerly awaiting the chance to give the formidable New Hampshire outfit the race of their lives. Their opponents are in one sense a one man team. But with Captain Lyons in his usual form, he will keep Nightingale plugging for his honors.

Aggie spirit has turned more than one seeming defeat into victory. The cross country team possesses its full share of this characteristic, and will undoubtedly upset all of the dopests coming through with a win.

At present it is not known as to just who will make the trip. Seven men of the following nine are to be selected: Lyons, Carleton, State, West, Rollins, Gray, Crawford, Hoff, and Gordon.

FROSH WIN AGAIN—ARMS ACADEMY BEATEN 34-0

Lighter Team Has Little Speed
Against Heavy 1923 Team.

The Freshmen football team continued its winning streak at the expense of the Lighter Arms Academy eleven on Alumni Field, last Saturday, by a score of 34-0. This makes it three in a row for the Freshmen, who have thus far defeated two academies and one high school.

The Arms team started well, holding the Freshmen scoreless in the first quarter, but they were unable to hold out. The Freshmen goal was threatened but once, then in the first quarter, when a series of end runs carried the ball close. But, as the line held, the Freshmen secured the ball, and were advancing down the field when the quarter ended.

In the second period, Sargent scored twice on long runs, and Grayson kicked the goals.

During the second half the score was swelled to thirty-four by Grayson's two runs for touchdowns, and by a touchdown by Tamplin. Two of the goals were kicked.

Coach McCarthy tried several substitutions in the last quarter, and these men showed up well. Sargent and Grayson starred for the winners; the latter securing 18, the former 12 points. This victory gives the yearlings confidence for the last and hardest game of the season, next Saturday, with Williston.

Richard W. Sears was on the campus over the week-end.

The Two Year Men

Any mention of the two year men has previously been suppressed in these columns because we believed it unwise to make any comment until the new men had a chance to organize and become adjusted to their new environment, and until the regular students could form their opinions with some degree of discretion and fairness. There is still, however, considerable discord between the two factions in the student body which we firmly believe can be remedied to a large extent.

The regular four year students were deprived of many of their major advisors last year because of the absence of these professors overseas in the A. E. F. University. This fall the students returned to resume their studies only to find that in one department, at least, the professor was devoting the greater part of his time to the two year men. This is manifestly unfair to the regular students who have given up a great deal that they might obtain all the benefits of a four year course. The short course men should have a separate staff of instructors in order to avoid this conflict and because it will soon be necessary anyway if that branch of the student body grows as it promises to do.

The fact that the short course men do not have to undergo any of the restrictions placed on freshmen is a source of much argument and discussion among the four year men. Indignation has been growing in the student body on this point, as it seems unfair for one group of men to enter the college and have to submit to certain fixed rules, while another group may enter without any restrictions whatever. On the other hand, the two year men resent any domination from upperclassmen, and with some degree of right, because they are only here for two short years and feel that they should enjoy the same freedom during that time which upperclassmen enjoy. Most of these men are considerably older than the regular students and for that reason alone, the regular freshmen rules would not be suited to them in all respects. A modified set of rules applicable to first year

men only in the short course is certainly justifiable, however. Whether these rules be drawn up and administered by the Senate or by a body of the short course men themselves is open to debate. The consensus of opinion is that the matter should be in the hands of the Senate.

Some visible distinction should be made between the two branches of the student body otherwise the enforcement of the freshmen rules is greatly hindered. The saluting of seniors being a case in point. At New Hampshire, this problem is solved by requiring the two year men to wear little skull caps with a figure 2 on them.

The short course men should have all the activities enjoyed by the regular students but they should be entirely separate and distinct from the regular undergraduate activities. The short course has a logical and important place in the state agricultural college but it should be developed without any relation to the four year course. The entrance requirements of the short course should be kept low and the standards of scholarship reasonably easy so that these men may assimilate as much knowledge as possible without danger of flunking out, but notwithstanding this they should be given plenty of work to do, in other words, considerably more than they are given now. The standards of the regular course should be maintained at even a higher plane than at present if the reputation of the institution is to continue to grow.

CAMPUS NOTES

Menorale Society

The Menorale Society held its first meeting of the year last Wednesday evening. A discussion of the plans for the next year was held. The officers for the year are: President, S. N. Rosoff; vice-president, Rose Labrovitz; secretary, H. B. Berman; treasurer, A. Sandow; executive committee, L. E. Baker, H. B. Berman; social committee, L. G. Quint, Rose Labrovitz, A. Sandow.

Halloween Party

Last Friday evening in Draper Hall the track table gave the rest of the dining hall a little good fun. About six o'clock they all entered the front door together dressed in varied costumes. Five were dressed as girls and five as boys, the girls trying to imitate

the co-eds. One of the boys was dressed as a 'hick', others as dunces and all were looking for a good time. The lights had been previously draped in orange crepe, and the hall looked very pretty. They were given a warm welcome and marched to their usual table over by the west door.

Men Taken Up in Airplane

Lt. Lucas of the Aerial Activities Corporation of Schenectady, N. Y., has been on the campus, and was flying in the vicinity of Amherst last week for

A HIGHER IDEAL

There would be no advantage in devoting the most valuable years of one's life to gain knowledge and experience, if greater possibilities and achievements were not forthcoming.

It is then proper to assume that because of his exceptional scientific training the agricultural college man is progressive, well advised in the most modern dairy practices and the methods that are likely to make dairying the most profitable.

You know that profitable dairy production cannot succeed without cleanliness, and you should also know that

is capable of maintaining a cleanliness that is productive of the highest quality dairy products, because it is used for thorough and sanitary cleaning by all Agricultural Colleges in the United States and Canada.

Indian in circle

CONSULT WALSH

three days. He took passengers up mostly from Amherst college, at the rate of fifteen dollars for ten minutes. Several Aggie men went up with him. He has taken up several women passengers as well. The airplane landed down by the M. A. C. sheep shed.

The Aerial Activities Corporation include Lt. Lucas, who was Adjutant at Bowling Field during the war, his brother and one other. They employ two mechanics. Their headquarters are at Schenectady, N. Y. and they travel around the country picking up passengers mostly from the colleges. They use a ninety horse power Curtiss machine. A Ford truck carries their supplies and a tent. Just now they are making a tour of the New England colleges.

Chemistry Club Starts.

A meeting of the Chemistry Club was held in the Library of the Chemistry Building last Thursday evening at 7 o'clock. There were not enough present to hold an election of officers so a temporary entertainment committee was elected to arrange a program for future meetings until an election can be held. It was decided to hold meetings twice a month in the Junior Lecture Room of the Chemistry Laboratory. Sophomores who are interested in the Club will be asked to join and it is hoped a large enrollment will result.

False Alarm.

On Friday night at 11 o'clock the men of the college were aroused from their beds and their studying by the call of the fire alarm which blew in number 18, the box on the east side of the campus near Clark Hall. Most people forgot that it was Halloween night so that before long a large crowd had gathered in the street. The whistle on the campus was not blown so that the student volunteer squad, who had gone to bed early for just such a possible call, was not awakened and slept through it all. The alarm was false, being the result of an outburst of youthful energy.

Q. T. V. held its first house dance of the season at their house on Pleasant St., on Saturday afternoon and evening. About 20 couples were present. The music was furnished by the Loomis, three piece, orchestra of Haydenville. Bias of Amherst catered. The chaperons were Mrs. Hicks and Mr. and Mrs. McCloud of Amherst.

Alpha Sigma Phi entertained its pledges Friday evening at a typical old time Halloween party. The decorations consisted of a supply of towels for the use of over-ambitious apple-bobbers. A "gang" of youthful prowlers furnished unlooked for novelties and surprises. "Eats" were served.

WORLD AGRICULTURE SOCIETY

At a meeting of overseas men held in Stockbridge Hall last week, a committee was appointed to consider the advisability of enlarging the proposed organization so that it may include all who are interested in the world-wide aspects of agriculture which the A. E. F. Farmers' Club, founded in Beaune, France, aims to promote.

Farming has outgrown local boundaries and even national limits. The war has demonstrated its international

The "Constitution" of To-day—Electrically Propelled

THE U. S. S. "New Mexico," the first battleship of any nation to be electrically propelled, is one of the most important achievements of the scientific age. She not only develops the maximum power and, with electrical control, has greater flexibility of maneuver, which is a distinct naval advantage, but also gives greater economy. At 10 knots, her normal cruising speed, she will steam on less fuel than the best turbine-driven ship that preceded her.

The electric generating plant, totaling 28,000 horsepower, and the propulsion equipment of the great super-dreadnaught were built by the General Electric Company. Their operation has demonstrated the superiority of electric propulsion over old-time methods and a wider application of this principle in the merchant marine is fast making progress.

Six auxiliary General Electric Turbine-Generators of 400 horsepower each, supply power for nearly 500 motors, driving pumps, fans, shop machinery, and kitchen and laundry appliances, etc.

Utilizing electricity to propel ships at sea marks the advancement of another phase of the electrical industry in which the General Electric Company is the pioneer. Of equal importance has been its part in perfecting electric transportation on land, transforming the potential energy of waterfalls for use in electric motors, developing the possibilities of electric lighting and many other similar achievements.

As a result, so general are the applications of electricity to the needs of mankind that scarcely a home or individual today need be without the benefits of General Electric products and service.

Figures that tell the Story of Achievement

Length—624 feet
Width—97 feet
Displacement—32,000 tons
Fuel capacity—a million gallons (fuel oil)
Power—28,000 electrical horsepower
Speed—21 knots

An illustrated booklet describing the "New Mexico," entitled, "The Electric Ship," will be sent upon request. Address General Electric Company, Desk 44, Schenectady, New York.

ENTOMOLOGY DEPARTMENT GETS FINE COLLECTION

St. George '18, Sends in Specimens
Gathered Around Washington, D.C.

The museum of the entomological department was enriched Friday by the receipt of a large collection of forest insect larvae from Raymond St. George, '18, now located at Washington, D.C.

The collection was made in and around Washington where the donor has been connected with the government bureau of entomology since his graduation. The shipment arrived in perfect condition due to the excellent technique used by St. George in packing. He found it necessary to immerge each specimen in boiling water, thus coagulating the body tissues and rendering them sufficiently stiff to withstand the severe treatment of modern express service.

The specimens were fully labeled, and consisted mainly of forest pests in the larvae stage of their development. In some cases, however, the life cycle of the insect was presented in all its forms.

This collection is the most complete of its kind ever received by the college museum.

St. George majored in entomology while a student here. Shortly after his graduation, he accepted a position in the department of forest insects, bureau of entomology, located at Washington, D.C. It is while here that he made this splendid collection, presenting them to his alma mater as a token of his indebtedness to her.

ALUMNI NEWS

The class of '15 has established an unprecedented record by being the first 100 per cent class in the present building campaign. A contribution of some kind has been received from every member of the class and the original quota has been over subscribed. The record:

| | |
|---|-----------|
| Total number subscribed, | 36 |
| Total number graduated who have subscribed, | 25 |
| Total number who did not graduate and subscribed, | 7 |
| Quota assigned to the class of '15, | \$3016.00 |
| Total subscribed to date, | \$5075.00 |
| Total percentage of membership who have subscribed, | 100 |

The following is a list of members and ex-members of the class of '15 who have subscribed to the memorial building fund thereby making their class the first with a 100 per cent record: R. L. Adams, G. H. Allen, Hugh L. Barnes, E. A. Bartlett, F. E. Best, E. C. Bruce, E. M. Carter, H. D. Crosby, E. C. Cushman, J. J. Gardner, Ralph P. Gay, W. B. Hatch, C. S. Holcomb, T. F. Hunt, R. E. Huntington, N. H. Ingham, J. R. Kelton, E. T. Ladd, C. W. Lewis, J. F. Lyman, W. A. Munson, E. W. Newhall, W. J. O'Neill, G. W. Patch, A. R. Paul, J. C. Richardson, W. M. Sears, Allen Swain, Monica S. Taft, A. D. Taylor, H. T. Thompson, B. Tupper, L. S. Walker, L. L. Whitaker, B. N. Willis, F. L. Yaw.

The officers of the new Baltimore club elected at the get-together on Oct. 25, are as follows: President, S. W. Wiley '08; vice-president, G. B. Briggs '09; secretary, M. W. Clough '15, 3401 Fairview Ave., Baltimore, Md. According to the chief scribe, W. K. French '19, everyone was enthusiastic over the campaign and voted the world might a huge success. The program as presented and

DE LAVAL Efficiency

The De Laval Cream Separator is the most efficient means of separating cream from milk. It skims to a trace, not only under ideal conditions, but under ordinary farm conditions.

The De Laval is efficient because over forty years' experience in manufacturing cream separators has brought out the best construction in every detail. That is why the De Laval skims close, turns easy and handles the milk and cream quickly.

The De Laval service is also efficient. Thousands of agents and salesmen are selected for their ability to give intelligent and prompt separator service.

More De Laval in use than that of all other makes combined.

For further information, see the local De Laval agent, or write to the nearest De Laval office.

An announcement of the Tufts-Aggie game is being sent to the clubs throughout New England and vicinity. General admission \$1.00, reserved seats between the 40-yard lines, 25 cents extra. Tickets may be ordered by mailing money order or check to Curry S. Hicks, Gen. Mgr. Athletics, Amherst.

Those who attended the Aggie Get-together at the Hotel Ten Eyck in Albany on Oct. 25 were Dr. E. Porter Felt '91, State Entomologist, Perley N. Eastman '98 and Richard W. Smith '17. Going on the old maxim that three's a crowd, they had a good old Aggie talk-fest and during the dinner discussed the respective merits of the various members of our honored faculty and the football teams of "unmy four" and "naughty six." A message from Presy was read with interest and a telegram announcing another Aggie victory raised everyone's spirits a thousand percent.

The officers of the Southern association as elected at the meeting on Oct. 25, are as follows: President, Earle S. Draper '15, 505 Trust Building, Charlotte, N. C.; honorary vice-presidents, Luther Nims '78, Horace E. Stockbridge; secretary and treasurer, Harold H. Bursley '13, 505 Trust Building, Charlotte, N. C.; directors, the officers and Robert T. Frost '15 and Herbert C. Baxter '18.

'05.—Eather C. Cushman recently visited college. She is at present, librarian in the Providence City Library.

'06.—An official report has been received of the death of Patricia P. Cardin on Sept. 30, from an operation for kidney trouble. Until very recently Cardin had been engaged in pathological work. While in college he was exceedingly popular with everyone with whom he came into contact and his death will be regretted by many.

'10.—Potter and Nash are with the State Dept. of Agriculture and may be reached at the U. S. Hotel, Boston.

'10.—Blampied, late of the Rheinland, is at the service and may be reached at 210 Union Ave., Framingham.

'10.—Plimsted is stationed at 53 Franklin Street, Boston with Eaton, Crane, and Pike.

'19.—Eugene Collette is sojourning in Gonaives, Haiti. In a recent letter he says: "Here I hold the position of Collector of Customs, Captain of the Port, Disbursing Officer for all government branches, and Liquidator and Sequestrator of German Property. In other words, this hamlet of some 25,000 African Magistrates does as I see fit in any of the above lines."

UNDERCLASSMEN AHEAD IN CROSS COUNTRY RACE

Freshmen Show the Results of Good Training in Trial Race.

Saturday afternoon the second string cross-country men held a trial run on the regular course. The race commenced at 2:30 o'clock with about 15 starters. The time of the race was 29 min. 45 sec. The first four to finish were the following in the order named: Woodworth '23, Tanner '23, Hooper '22, Cooper '21.

Woodworth finished about an eighth of a mile ahead of Tanner, and Tanner in turn finished about the same distance ahead of the next man. The race showed that the Freshmen have a nucleus for a strong team which promises material for varsity teams in the next year or two.

PROF. TYLER STATES ISSUES IN ARMISTICE DAY TALK

T. J. Hammond Outlines the Many Points for Which We Celebrate.

Tuesday morning a special assembly was held to commemorate the anniversary of the signing of the Armistice. The service was conducted by Dean Lewis and Rev. John Hawley of the First Church of Amherst.

The first speaker of the morning was Prof. John Tyler of Amherst College. He summarized his talk by saying that we should do our work and pay the cost. It is the only thing that we can do in these times of trouble. As an example of this he cited the college man. "Are you going to give up your college traditions for your duty?" "When you finish college are you going to put into it all that you can?"

Harlan Worthely '20, sang a solo after Mr. Tyler's speech.

The second speaker was Mr. Thomas J. Hammond the district attorney for this section. He spoke on the meaning of a holiday and why we are celebrating Armistice day. In France at the signing of the Armistice the people were not as merry-making as we were because over there almost every roof was sheltering a heart ache. Over here we had lost fewer men and therefore the victory seemed more of a natural triumph. In trenches the men were more reminiscent. Through it all they had come out the lucky ones to show the world that the two great duties of every people are to respect discipline and to show patriotism.

1923 CROSS-COUNTRY TEAM DEFEATS WILLISTON

Saturday afternoon the Freshman cross-country team ran the team representing Williston Academy. The race was three and three-quarters miles long and was won by the Freshmen handily in the time, twenty-three minutes and forty-one and three-fifths seconds. The individual star of the afternoon was Woodworth of the Freshmen who ran the race with the lead of three hundred yards over Belling of Williston. Tanner of the Freshmen was a close third. The summary of the finishers was as follows: Woodworth, M.; Tanner, M.; Severance, W.; Gay, M.; Tisdale, M.; Outterson, W.; Rummerville, W.; Mead, W.; Hartmae, W.; Newell, M.; Lynch, W.; and Fuller, M. Final score M. A. C. 1923, 26; Williston, 30.

Two short mass meetings have been held with a view of arousing enthusiasm for the Springfield and Tufts games. Upwards of \$100 has been raised to hire a band for the former game, and a second hundred was raised on Monday to revive and reequip the old Aggie band for the Brown and Blue contest.

NEW HAMPSHIRE TRACK TEAM ROMPS AWAY FROM AGGIE

Comparatively Level Course Prevents
M. A. C. From Fastest Running.

The Cross Country Team lost to New Hampshire State, 18 to 42, in a fast race last Saturday at Durham. The New Hampshire men set a fast pace with Billingham in the lead from the start. The course was four and a half miles long and lay over fairly level country with no bad hills. The roads were soft and muddy from recent rains. The M. A. C. men were grouped back of those in the lead, most of the way, and gained consistently on the hills, but were unable to hold their own on the level. Lyons gained on the final sprint, and came in third, but New Hampshire was too fast for the team as a whole. The time made by Billingham was quite fast, and he held an easy lead from start to finish. Nightingale and Leath, two of New Hampshire's best runners were unable to run, but in spite of that fact they had little trouble in winning. Those who placed, with their time, follows: Billingham, N. H., 25 min. 31 sec.; Paine, N. H., 25 min. 38 1/2 sec.; Lyons, M. A. C., 25 1/2 sec.; Graves, N. H., 26 min. 1 sec.; Weston, N. H., 26 1/2 sec.; Thompson, N. H., 26 min. 19 sec.; Fitch, N. H., 26 min. 20 sec.; Slate, M. A. C., 26 min. 25 3/4 sec.; Gray, M. A. C., 26 min. 41 1/2 sec.; Hubbard, N. H., 26 min. 41 3/4 sec.; West, M. A. C., 26 min. 55 sec.; Carleton, M. A. C., 27 min.

SECOND INFORMAL OF YEAR ATTRACTS EIGHTY COUPLES

Event in a Pronounced Success as a Result of Large Crowd and Tasty Dinner.

Considered from every standpoint—financial, a good time, good music, and good eats—the second informal of the year last Saturday was a pronounced success. The event was attended by approximately 80 couples who were enabled to jazz to perfection to the rhythm of the college orchestra of six pieces.

Dancing commenced at 3:30 p. m. sharp in the Drill Hall, which was tastefully decorated for the occasion with banners and floral displays. At 6:30 p. m. a brief respite was afforded the dancers to enable them to partake of the dinner prepared by Miss Diether at Draper Hall. Music recommenced at 7:30 and continued until 9:00.

The chaperons of the occasion were Miss Schrotky for Mt. Holyoke, Mrs. Duffey and Mrs. Howe for Smith, and Mrs. Bachrach for M. A. C.

'19.—E. F. Guba, has just resigned from his position with the Bureau of Plant Industry U. S. D. A. with whom he has been engaged through the summer on wheat rust investigations in the wheat belt. At present he is taking up work leading to a Doctor's degree in plant pathology, at the College of Agriculture, University of Illinois.

M. A. C. TRIUMPHS OVER R. I. STATE

Kingston Team Scores One Touchdown to Visitors' Three.

Massachusetts Aggie came through with another win on Saturday at Kingston, fending R. I. State to lower their colors 19-11. The small margin of victory may be in part accounted for by the absence of Capt. Pond from his regular quarterback berth, Grayson and Goodwin from the line, and by the fact that several of the other linemen were not playing their own positions.

The Kingston aggregation started off with a rush, taking the ball on downs after Johnston had kicked off to Aggie. Then the Maroon and White line held and Johnston fell back to try a drop-kick, which fell short. Toward the end of the quarter, after R. I. had pushed the ball to the 12-yard mark, and then thrice failed to gain, Johnston fell back 10 yards and booted one between the uprights for the first score.

Aggie scored shortly after the opening of the second quarter. Straight line bucking brought the ball to R. I.'s 25-yard mark, and Mansell, on a forward from Readle, went over for a touchdown. At half time M. A. C. had the ball back within 25 yards of the home team's goal line, with the score 6-3.

A recovered fumble was turned into the second Bay State score at the beginning of the third period. Lent, Jageman and Whittle rushing the pigskin practically to the goal line in six plays, and then Lewandowski went over for the touchdown.

R. I. got two points on a safety a few minutes later when Lewandowski fell on a misdirected pass behind his own goal line. Just before the period ended the Kingston outfit made its first and only touchdown. Following an exchange of punts Johnston took Poole's kick on our 25-yard line and ran it back for a score. The try for goal missed, and M. A. C. was leading 12-11 as the period ended.

In the last quarter a Rhody backfield fumble on Massachusetts' 20 yard line resulted in the last score of the game. It required three plays to go 20 yards, Poole going across for the final touchdown. Whittle kicked the goal, making the score 19-11 in Aggie's favor.

Mackintosh put up a good game at center, and Mansell was fast on the offensive.

Johnston was the bright spot in the R. I. lineup.

The summary:

FRESHMEN WIN INTERCLASS FOOTBALL GAME 13-0

First Time for Many Years that New
Men have Won.

On Armistice Day, immediately after
chapel, the annual class game between
the Sophomores and the Freshmen took
place. The contest was the most excit-
ing class game played on the campus
for a long time and was won by the
Freshmen by the score of 13 to 0.

In the first quarter the Sophomores
were in possession of the ball almost the
entire time. The line plunging of Giles
and the work of Clark on a fake kick
formation were the outstanding features
in this period. No score was made.

In the second period the Freshmen
kicked offside and the Sophomores car-
ried the ball down the field for 25 yards
due to the fine work of Wildner and
Giles. The Freshmen recovered the
ball and the half ended with the score
at 0 to 0.

In the second half the first year men
kept the ball most of the time, and with
good interference and fine work by
Grayson and Tarplin they carried the
ball over the line for two scores. The
first which came in the third quarter
was made by Tarplin who duplicated
his work in the fourth quarter. The
game ended with the ball near the
Freshman goal but in their own hands.
For the Freshmen, Davis, Tarplin,
and Grayson played a fine game while
Clark, Giles, and Murdock played well
for the Sophomores.

CAMPUS CALENDAR.

THURSDAY, NOV. 13.
7:30 P. M.—Meeting of Des Moines del-
egates at Mr. Fielder's.

FRIDAY, NOV. 14.
7:40 A. M.—Morning Chapel in Audi-
torium.

SATURDAY, NOV. 15.
3:00 P. M.—Football, M. A. C. vs. Spring-
field at Springfield.

SUNDAY, NOV. 16.
9:00 A. M.—Sunday Chapel. Rev. New-
ton M. Hall, North Congre-
gational Church, Springfield.

MONDAY, NOV. 17.
7:30 A. M.—Morning Chapel in Audi-
torium.

WEDNESDAY, NOV. 19.
3:40 P. M.—Assembly in Auditorium.
Speaker, Alva Agee, Sec.
New Jersey State Dept. of
Agriculture.

7:00 P. M.—1918 Class Smoker, Social
Union Room.

The Rev. Norman MacLeod, of the
Hartford Theological Seminary, Hart-
ford, Conn., will be the speaker at Sun-
day Chapel, Nov. 16. He was formerly
the college preacher at MacDonald Col-
lege, Quebec, Canada. MacDonald Col-
lege is the agricultural branch of Mc-
Gill University.

JUNIORS WIN INTERCLASS RUN BY EASY MARGIN

Disqualification of Six Men for Leav-
ing Course Changes Standing.

The Junior class cross-country team
won the interclass cross-country meet,
which was held Tuesday morning,
November 11. The course was reversed
in order that the varsity men should
have a fast start, and the finish was in
front of the Drill Hall. The final score
was 1921, 44; 1923, 56; 1922, 67; 1920, 70.

Several of the fastest men, including
Captain Lyons, got off the course, and
although they finished in the lead, they
were disqualified and given twenty-
fourth place. The score was counted
on the first five men of each class.

The Juniors' victory was expected
with a large entry of fast men, including
several varsity runners. The Freshmen
class did well, getting second place in
spite of the fact that their fastest man,
Woodworth, was disqualified.

The men finished in the following
order: Rollins '22, West '21, Macready
'23, Goff '21, Crawford '20, Holloway '20,
Tanner '23, Canavin (outside), Cooper
'21, Alger '23, Free '20, Sullivan '22,
Murry '22, Evers '21, Haslam '21, Gay '23,
Beckwith '22, Lambert '21, Preston '22,
Newell '23, Searles '23, Fuller '23,
Fletcher '21, (Lyons '20, Woodworth '23)
Gray '21, Carleton '20, Slate '21, Hooper
'22, disqualified.) Because of the dis-
qualification, no time was taken for
Rollins. Capt. Lyons finished in 28 min-
utes, 23 seconds.

N. E. INTERCOLLEGIATE RACE NEXT SATURDAY

Formidable Array of Stars Promises
Fast Contest.

The dual race of M. A. C.'s cross-
country team will take place Saturday
morning when they compete at N. E. I.
A. A. meet at Boston. Judging from
past performances, Aggie should make a
credible showing.

The course is laid out in and around
Franklin Field, and consists of the
usual levels, hills, plowed land, obsta-
cles, etc. However, it is well marked.
Entries to date number 110. This
means that at least a dozen teams will
compete. A complete list of these was
unobtainable.

Nightingale and Lieth of N. H. State,
Brown of Williams, Granger and Rowe
Vermont, and Lundgren of W. P. I. will
be watching. Their records have
proven them to be fast competitors.

In spite of this formidable line-up of
opposition, Aggie's barriers should give
a good account of themselves, and it
cannot be denied that we have an ad-
vantage in having a well balanced
team. Every man is in the best condi-
tion possible, having trained regularly.
A stiff workout this week will increase
their chances just that much. The
race Tuesday was over the course in the
reverse order with the intent of ac-
customing the team to a level start.
All in all, the spirit with which the
men have undergone the grueling
grind of training together with their
splendid performance this season should
enable the team to place well.

They will leave Friday afternoon in
charge of Captain Lyons and "Ollie"
Finn '17, who has been acting as coach.

George H. Heller of the Intercollegi-
ate Prohibition Association, will be on
the campus next Monday and Tuesday.
He will make his headquarters at the
M. A. C. office.

SATURDAY'S GAME SHOULD GIVE M. A. C. VICTORY

Close Game Expected Against the
Y. M. C. A. Training College
at Springfield.

With the season three-fourths over,
and a record of four wins and two de-
feats the M. A. C. eleven now turns to
the two big games of the schedule,
Springfield and Tufts, battling the
former next Saturday at Springfield.
The game promises to be just as fast
and scrappy as in days of old, with the
teams about evenly matched and with
the old Aggie prestige and moral to
offset whatever advantage the Red and
White may have in playing on their
own gridiron. The Y. M. C. A. col-
legians, always especially desirous of
annexing a victory over us, have built
up a team and a plan of attack with
Nov. 15 in view. Coach Berry has been
assisted for the past week or ten days
by Dr. McCurdy, a former gridiron star,
and well known as a football strategist
to followers of intercollegiate football.

The Springfield scores thus far hardly
do justice to the team, for Berry had
ten letter men as a nucleus and has de-
veloped a team only a trifle better than
the average. The record of four losses
and three wins does not show this, ow-
ing to the severity of the schedule.
The fact that Springfield played the
Dartmouth game minus two or three
veterans who will appear against Aggie
makes it impossible to judge by the
Green's score of 40-0 against the Red
and White and their 27-7 score against
Capt. Pond's outfit.

Graham, Schaefer and Drew, with
Brett alternating at quarter in place of
Graham, plus Civiletto, a Western re-
serve transfer, form a strong backfield.
The first three are veterans of one or
more seasons. Drew at fullback is the
heaviest man in the backfield, and
next to Watson the heaviest man on the
team. Civiletto's kicking practically
won the Tufts game. Aggie will be
outweighed in the line, especially on
the right side, where Watson, the rangy
dark boy, plays end, and Johnson, a
220 pounder, plays the guard position.
Both are linemen of two years' experi-
ence, and with Capt. Quinn, who will
probably play left end on Saturday, are
the main stays of the line.

Open work and speed are the funda-
mentals of the Home City eleven's of-
fense, and forward passes with Watson
on the receiving end have paved the
way for most of their scoring. Against
Harvard, Berry's team tried 31 forward,
lateral, double and triple passes, 13 of
which were successful, six of which
gained 10 to 20 yards. A wet field,
which made it impossible for Watson to
keep his footing, spoiled several other
chances for substantial gains over the
Crimson line.

Against Springfield's best, Coach
Berry will send his first string eleven,
and one which will start the game in
perfect physical condition. Aggie has
been outweighed in every game this
season, and this apparent handicap will
make no difference to the seasoned
backfield that has rolled up 100 points
against heavier lines. Pond will at-
tempt equal Civiletto at kicking.

A tight defence, an offence of four
powerful backs, and a determination to
win; these are M. A. C.'s assets against
an admittedly strong, clever team, and
they form a pretty solid basis for the
belief that the victory of four years ago
can be repeated, and the tie game of
three years' standing bettered.

On To Springfield!

Three more we are to invade the city of Springfield, march up to the football field, and cheer our team to victory! For the first time since the fall of 1916, we may have the opportunity to stake-dance down the main street and light their bon-fires for them. In addition, Aggie night is being planned for one of the theaters.

You men of the lower classes do not know, or realize, what an event next Saturday will be in your college life. It is one of the biggest days of the year. It is a day when you take a vacation from college routine and widen your circle of acquaintances. It gives you another side of college life which is sure to stimulate loyalty and a feeling of closer comradeship. It has always been the custom for every last living soul on the campus to make that trip and we are going to live up to our reputation. The whole student body is going down intent on winning that game against our old rivals. We are going to have a 25 piece band backed by all the spirit and enthusiasm of an old time Aggie crowd. Can any of you undergraduates resist the appeal of such a day? The entire student body is going down there determined to win and to back the team to the last man.

One Award.

At the football game Saturday the Amherst Freshmen pulled off something funny. They thought it was the inmates of the Herrick school think they are SANE BUT that doesn't prove anything. In a burlesque performance between the halves they carried a sign, "Moo-on-oo Aggie?"

We fail to see where the humor was apropos in a football game against Wesleyan. They must be worrying about us or they never would have thought of introducing anything into the comedy about Aggie.

However, we don't mind it, but why introduce the poor harmless cow? The Amherst students evidently do not realize what an important part the innocent bovine plays in their classical

life. To drop into Denel's drug store at most any hour of the day one would think that the aforementioned bovine played about as important a part in their self-satisfied lives as the checks from father.

Can you imagine the Amherst student body thriving on a breakfast of shredded Greek and soft boiled Latin poetry; a luncheon of cold Virgil with treatises of Caesar's Gallic Wars; a dinner of Demosthenes soup, hot roast Alexander's Invasions and Diogenes pudding? Neither can we.

On behalf of the Aggie student body we award to the Amherst Freshmen the hand knitted button hook. If their stunt was funny we hope that nothing sad ever happens in their young lives.

F. J. R.

COMMUNICATION

The Editor of Massachusetts Collegian.

Dear Sir:

With the last two sentences of the editorial "The Two Year Men" in the issue of Nov. 5, 1919, everyone must be in accord. It is certainly essential that as large a number of the Commonwealth's agricultural population as possible be enabled to secure up-to-date scientific data with regard to their business. To set the standard of admission as high as the four year course would undoubtedly be inadvisable as many who have not been able to take advantage of the educational opportunities, thru no fault of their own would be barred. It is to be noted that the college strongly recommends the completion of a high school course. It is true that plenty of work should be given but may that not be safely left in the hands of the faculty.

With other parts of the editorial there may be serious and honest differences of opinion. It is the general impression throughout the Commonwealth that the college was founded, and is sustained by the state for the primary purpose of raising agricultural standards and not for the exclusive benefit of any groups of students. The proposition that there should be two separate faculties is not well taken. Each and every student is entitled to the best that is obtainable along the teaching end. If two faculties were maintained one group would be likely to suffer. In this connection it is no doubt a hardship for the four year men to be without the services of any department, if such be the case. It, however, should not be forgotten that many of the two year men at present in the college would be taking the four year course had they not been in service.

If the two year course is a permanent fixture which the editorial hopes it will be, an enlarged faculty will doubtless be provided allowing for more specialization. Many of the faculty at Harvard have given courses in the Extension work in Boston, professors at Dartmouth College have given courses in both the college and the Tuck School and in the college and the Thayer School. At Boston University School of Law the Dean, in addition to retaining his private practice has given lectures at M. I. T., other professors have given courses in Northeastern College and one professor divided his time between the Boston University and Columbia University. In none of these cases was there any criticism that any student was neglected. Neither will there be at M. A. C. if a sufficient appropriation is made by the General Court for maintaining a faculty of the proper size.

I fail to see any reason for indignation

growing in the student body. The College is instituted by the Commonwealth and the only lawful restrictions that can be imposed on any student are that he obey the laws of the Commonwealth and maintain his scholastic standing at a grade fixed by the faculty.

All other restrictions are voluntarily suffered. Customs which have grown with the college, such as wearing coats in chapel, allowing classes to pass out in order of seniority and saluting members of the faculty should be followed by all as a matter of courtesy. The rules governing freshmen are well founded and generally advisable but the retention is not due to the old idea that a freshman should undergo a long period of hazing, however desirable that may have been, but to the fact

that it draws them together as a class and allows them to recognize those students with whom they will be in contact for four years and to become acquainted as quickly as possible. It might be wise if in the future, the first year students of the two year course adopt some "visible distinction" but the necessity and desirability of it for this year is practically past.

There should be no division by groups along the line of activity. Every student should be eligible for membership

A HIGHER IDEAL

There would be no advantage in devoting the most valuable years of one's life to gain knowledge and experience, if greater possibilities and achievements were not forthcoming.

It is then proper to assume that because of his exceptional scientific training the agricultural college man is progressive, well advised in the most modern dairy practices and the methods that are likely to make dairying the most profitable.

You know that profitable dairy production cannot succeed without cleanliness, and you should also know that

Confidence in one's clothier is a necessity to *easy manners*. We "make to fit", not "to measure". A most complete stock of clothes for formal functions. Evening suits and cutaways of the world's best wools at half the fine tailor's fee.

*If uneasy, money back.

Special "Shopping Service" for orders by mail.

The J. B. Ford Co., Sole Mfrs., Wyandotte, Mich.

How do we continue to have the most envied clothing business in Amherst?

Oh, simply by continuing to tailor our clothes in our usual unusual way!

Tailored by a Tailor—
Not Just Retailed by a Retailer!

RIGHT NOW

You should contemplate buying your fall needs. Let the "House of Walsh" Unknot Your Knotty Knotting Problems. Distinctive Cravats in Exclusive Designs.

in every general college fraternity, whether national or local, and for membership on varsity athletic teams and non-athletic clubs. A student may not be able to join a fraternity by reason of belonging to another and the chapter does not have to bid any man unless they wish to do so. The one year rule would eliminate most two year men from athletic teams and the three year rule might eliminate others.

The thing for every student in the college to do is to get together and pull for M. A. C. Make it the best college in the country. If the two year men get the college spirit while here they will go on and boost the College and inasmuch as the greater majority are likely to locate in Massachusetts there will be each year an increasing number of intelligent voters interested in seeing that the General Court does the right thing by the college in the matter of appropriations.

Very truly yours,
H. L. A.
1021 Short Course.

CHEM. CLUB ORGANIZES.
NEXT MEETING NOV. 20

Interesting Talk Given By Veterans Of Chemical Warfare Service.

Another one of the old college clubs came back with a start last Thursday evening, when all of the students interested in chemistry met in the laboratory to reorganize the old Chemistry Club. The meeting was originally scheduled for the department library, but due to the exceedingly large crowd present the scene of action was shifted to the junior lecture room.

The meeting was called to order by H. Berman '20, acting chairman, the minutes of the last meeting were read and the election of officers for the year ensued. The following were elected: President, A. L. Freilich '20, vice-president, E. C. Preston '21, secretary, Miss H. B. Millard '20, treasurer, F. K. Zercher '21, chairman of the Social committee, G. W. Edman '21.

Following the business meeting short talks were given by men who had actually seen real service in the chemical unit while in France. Fellows '20, read a very interesting article from the Chemical Journal entitled "The Chemical Laboratory as a publicity Agent." Freilich followed with an interesting narration of his work with the Chemical Unit over across, giving in detail the various stages of advancement in the uses of gases that he personally witnessed.

Refreshments were served in the form of cider and crullers. A meeting was announced for Thursday, Nov. 20, at which time an even larger attendance is expected than at this first organized get-together.

The Undergraduate Council of the University of Pennsylvania has adopted plans for the wearing of an "Activity Button" by the members of the Freshman class. In order to be eligible a man must be out for one or more of the athletic activities or publications, or serve as a class officer or chairman of one of the class committees.

CAMPUS NOTES

Frank Parks ex-'22, who is now at Harvard, was on the campus over the week-end.

Frank F. Hatchings '09, who was recently discharged from the service, visited old scenes this week-end.

Alva A. Agee, secretary of agriculture in the state of New Jersey, will be the speaker in assembly Nov. 19. He was formerly Dean of the New Jersey State College of Agriculture.

Arthur Center ex-'20, took in the informal Saturday.

Prof. Lockwood devoted Sunday afternoon to explanation of modern dairy equipment for the benefit of Lieutenants Lindstrom and Trulson, who are soon to return to France as members of the Commission for the Rehabilitation of the devastated areas.

James Leland '22, is confined to the infirmary with the chicken pox.

Red Cosby '19, was present at the informal.

Social union program committee, consisting of Dean Lewis, Secretary Watts, Treasurer Kenney, G. M. Campbell '20 and J. J. McCarthy '21, held a meeting last Thursday evening. The Social union program, as partially arranged, was voted upon. Several musical concerts have been already arranged as well as an extra special Prom concert. Negotiations are being carried on for the services of Leland Powers the famous humorist. Movies will be held this year as before. The complete program will be announced later.

Animal Husbandry Movies.

The Animal Husbandry club will hold a meeting in Stockbridge Hall Wednesday evening, Nov. 12 at 7:30. J. G. Watson of Brandon, Vt., the secretary of the Ayrshire Breeders Association will be the speaker and will show motion pictures of Ayrshire cattle. Every one is cordially invited and the meeting should be a very interesting one. The club is looking for an even larger attendance than at the last meeting.

Landscape Club Started.

On Tuesday, Nov. 4, the Landscape Gardening club was organized and plans made for the year. Officers were elected as follows: President, A. T. Boyce; vice-president, W. B. Peckham; secretary and treasurer, Miss M. E. Earley. A program committee of Clough, Clarridge, and Derrick was also elected. A short discussion followed concerning future meetings. Miss Earley furnished fudge for the occasion. The next meeting will be held Tuesday, Nov. 18 when Professor Waugh will speak. All students interested in landscape gardening are invited to be present.

Detroit Conference.

At a special meeting held Sunday, the Y. M. C. A. cabinet appointed John A. Crawford '20 to represent the Association at the International Convention of the Y. M. C. A. to be held at Detroit, Nov. 19 to 23. William A. Luce was elected as an alternate.

'19.—John Vickers has spent the summer and early fall traveling throughout the Western states. He is now in the Spokane valley.

FRUIT SHOW TO BE GIVEN BY POMOLOGY CLUB

Entries May Be Made Up to December First.

The Pomology Club is planning to hold the annual Senior Fruit Show, on December 5, 6 and 7 this year for the first time since the war. The show has usually been given by those majoring in Pomology, but owing to the large number of students interested in the subject this year it was decided to hold a bigger show with the co-operation of the Pomology Club. It is hoped that French Hall may be obtained for this purpose, and that a large number of the students will exhibit. Fruit may be sent to the Pomology Department for the show any time before December first and will be put in cold storage until the day of the show. It is planned to give three sets of prizes consisting of ribbons, for the Faculty, Student and Grower entries. The Horticultural Manufacture's Department will also make an exhibit, and it is hoped to have exhibits from the Floriculture and Market Gardening Departments as well. Orchard tools, implements and equipment will be shown and if room permits a mechanical grader will be set up and operated. Any students who are interested in the show or know anyone who might exhibit are urged to see Prof. Sears or G. B. Woodward '20.

COLLEGE TO SEND DELEGATES TO Y. M. C. A. CONVENTION

Eight Representatives Elected to Get Ideas on World Movements.

Eight members of the student body have been elected to represent the college at the Student Volunteer Convention at Des Moines, Iowa, Dec. 31 to Jan. 4. Misses Marion E. Earley '20 and Viola M. Cameron '22 will represent the women students; James E. Maples '20, Stewart P. Batchelder '20, C. Donald Kendall '21, Harold Poole '21, and Frederick V. Waugh '22, the men of the regular college course, while Roger Eatey will represent the short-course students. These delegates have all been elected by their respective groups from a number of candidates. It is possible that a foreign student will also be sent.

The Student Volunteer Convention is the largest student gathering in the world. Ordinarily it is held every four years, although it now has been six years since the last convention, owing to the war. The attendance this year will be about 9000, composed of 6000 students and 3000 faculty members, Christian Association secretaries, and others representing nearly every college in the United States and Canada, as well as many institutions in foreign lands.

The purpose of the Convention is to set before the students of America the world situation in the fields of religion, sociology and international relations, and the program of the Christian church with respect to these subjects, especially the foreign program. The issues presented are the largest in the world, and are presented by great authorities from all over the globe. Attendance at this convention is a most illuminating and inspiring experience, one of the greatest privileges that ever comes to a student.

'19.—Mattoon was on the campus recently for a brief visit. He has been working near Richmond, Va.

ALUMNI NEWS

Even on the far off shores of the Pacific Aggie alumni did not fail to gather on that memorable evening of Oct. 25. The banquet was held in Los Angeles and was the center of attraction for Aggie men in the western section of the country. The following 13 were present: O. F. Casey, 7711 Norton Ave., Hollywood, Cal.; C. H. Griffin '04, Eagle Rock, Cal.; L. F. Horner '01, San Pedro, Cal.; Phillip W. Brooks '03, Los Angeles Trust and Savings Bldg., Los Angeles, Cal.; Austin W. Morrill '00, Arizona; W. L. Curtis '07, 1264 West 2d St., Los Angeles, Cal.; C. F. Palmer '07, 1622 Bushnell Ave., South Pasadena, Cal.; Ralph S. Smith, Los Angeles, Cal.;

N. D. Ingham '14, Hollywood, Cal.; Robert B. Collins '19; F. B. Hills '12, Peterboro, N. H.; Howard M. Butterfield, Amherst; E. F. Damon '10, Ontario, Cal.

E. F. Damon reporting on the meeting writes: "We had quite a gathering some 3500 miles from the old campus and in spite of the fact that 13 were present things went off without a hitch. Before the meeting I had met very few of those present but from now on I hope to manufacture time enough to see them often. We were fortunate in having A. W. Morrill '00 of Arizona, F. B. Hills '12 of Peterboro, N. H. and Howard Butterfield of Amherst with us—all three just happened into town

and were received with open arms.

We were especially sorry that Willard Munson couldn't be with us on Saturday night, but we tried our best to do him justice the following Tuesday noon when six of us had an informal lunch with him at the Clark and heard his report. Needless to say we were all interested and to the last man we will all support the Memorial Building to the limit.

We tried to show Bill a small part of Southern California but he was in such a hurry to get away that we didn't have quarter time enough. We have decided to hold a dinner in Los Angeles at least once a year from now on. I want particularly to get in touch with some of the men who didn't come and show them the spirit that M.A.C. men have.

A report has been received of the Alumni meeting held in Bridgeport, on Oct. 25: "We had quite a royal dinner party at the Hotel Stratfield Saturday evening. The following were present: H. J. Strack '12, R. K. Clapp '12, L. A. Bevan '13, S. C. Johnson '19, R. P.

Walker, E. B. Snell '03, L. F. Harvey '03, S. B. Ferris '19, N. V. Blampied '16, U. S. Conley '14, G. A. Mallett '12. All songs were sung, the real old Aggie spirit held sway and did everyone's heart good to be there. We believe this Alumni Night should be continued every year. It makes fellows think of the old college and it ties us together. I know positively that it will bring more alumni back to visit old Aggie because their interest is renewed and they want to see the changes that they have heard about. We are going to meet between here and New Haven every three months and keep in touch with each other in the meantime."

1909 Class Notice.

On Sept. 27, the '09 men around Boston were called together at the Quincy Hotel, where a small but pleasant reunion was held. Before adjourning those present thought it was time that the class had another class letter and that the matter of a class reunion should be taken up. As the class secretary had expressed a desire of being relieved of his position, S. S. Crossman was elected temporary secretary until the class has a reunion and appoints a permanent one. The following were present at the meeting: Hubbard, Caffrey, White, Fulton, Smullyan and Crossman. Class secretary's address S. S. Crossman, 17 Highland Ave., Melrose Highlands.

'11.—S. H. Parsons is Associate Physicist, Bureau of Standards and is in charge of the investigation of radiators for aircraft engines. His present address is 1843 Calvert St., Washington, D. C.

'17.—E. S. Duffill is in the tourist business in Brookline.

RESOLUTIONS

Whereas, it has pleased God in his infinite wisdom to summon from our midst our beloved brother, Patrick P. Carlin of the class of '09 of the Massachusetts Agricultural College, be it Resolved, that we, the members of the Q. T. V. Fraternity, extend the deepest sympathy to the bereaved family; and be it further,

Resolved, that the Fraternity loses a true and loyal brother; and be it further,

Resolved, that a copy of the Resolutions be sent to our late brother's family, and that they be spread on the Records of the Fraternity, and that they be published in the Massachusetts Collegian.

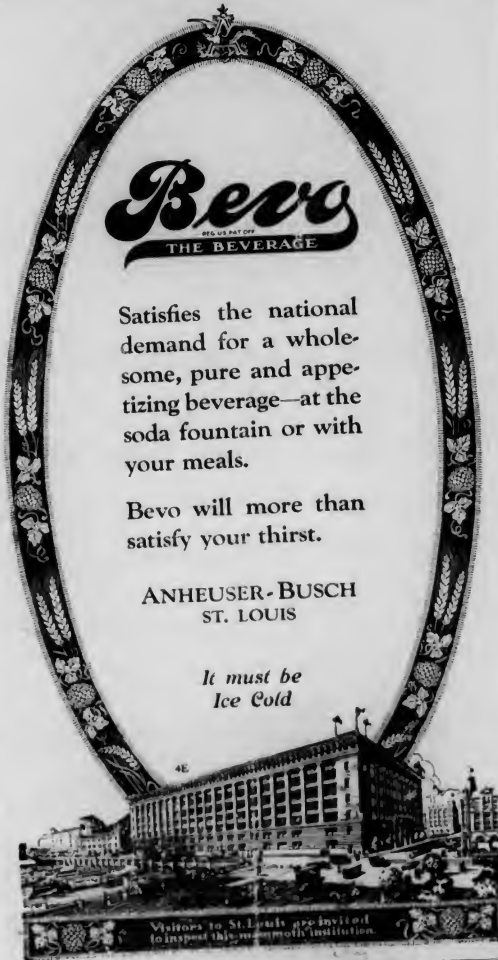

For the Fraternity,
CHARLES M. BOARDMAN,
LAWRENCE F. PRATT,
ROBERT M. LINGHAM.

GOOD CHANCE OF M. A. C. VICTORY OVER TUFTS

Annual Clash will See Two Strong
Elevens in Fast Game.

The annual Aggie football classic, that much talked of and anticipated gridiron battle with Tufts on Alumni Field Saturday afternoon promises to be all that any former M. A. C. Tufts mix ever was and then some, by virtue of certain features and conditions which seem destined to make this year's game the best ever. This game marks the resumption of football relations with the Medford college after a layoff of three years due to the war; it will be the closing contest of M. A. C.'s schedule; it is to be played at home for the first time; and Aggie's chances of winning look to be very good, better than for some years in fact, and this despite the fact that Tufts is rated high this season in intercollegiate football circles.

Coach Whelan's outfit, off to a poor start, had a reorganization and rebirth following the Yale game, and has developed wonderfully of late. The Brown and Blue will bring up a great team with a creditable record against greatly superior elevens. Their season began one week after ours and their first game, with Springfield was a victory for the latter. Norwich succeeded the following week in a close game and then on the following Saturday the "Hill" team was swamped by Yale 37-0. The

A. L. POND, Quarterback—Captain.

next week against West Point, the Army attempted to hold Tufts with their second string team, and, forced to call upon their varsity in the second half, they were lucky to get away with a 24-13 victory over the greater Boston lineup. University of Detroit, unbeaten up until that time, and heralded as one of the strongest teams in the middle west was forced to take the small

M. A. C. TEAM FINISHES SIXTH IN N. E. I. C. A. A.

Showing of Team up to Standard of
Previous Years.

In the annual N. E. I. C. A. A. bill and date run, held in Franklin Park, Boston, Saturday morning the M. A. C. cross country team finished sixth. The showing was fair for the team and was not below the average of positions gained by former Aggie runners.

The race started at ten-thirty, with ideal weather conditions. A field of twelve teams was entered but only nine lined up for the whistle. The M. A. C. team got a poor start when the whistle blew because of the peculiar manner in which the signal was given. There was no preliminary command before the whistle was blown. But the runners were well grouped at the first turn, Lyons, Gray and Rollins, held themselves in advanced positions for the first two miles. The middle hill, a steep grade similar to the poultry hill proved the value of training and conditions for the team. Lyons had moved up to sixth place, Gray ran to the tenth position, and the rest of the team followed in strong-out positions.

The last mile of the race, which was partly over thawed out and partly over a crushed stone straight away, plowed ground, provided keen competition for the places. Nightingale of New Hampshire pulled away from his teammate, Leath, and won by a margin of fifty yards, McMahon of M. I. T. edged past Brown of Williams, for third place,

(Continued on page 2)

M. A. C. IN 0-0 TIE WITH SPRINGFIELD

Against Heavy Odds Aggie Outplays
Old Rivals.

For the second time in as many games the annual M. A. C. Springfield game ended in a tie last Saturday. Three years ago each side was able to put across a touchdown, but this time neither team could score and the game ended with both goal lines uncrossed. Never was every foot of a gridiron more bitterly contested, and never did two teams use mightier physical efforts and take more daring chances to win than did Aggie and Springfield during those 60 minutes of mighty attempt down on Pratt Field.

The wearers of the Maroon and White were fighting against heavy odds and deserved to win if any team ever did. They had the aerial game of Coach Berry's men baffled at every turn, they completed more forward passes themselves, and though heavily outweighed they made twice as many first downs as their opponents by varying their old style plunging with an air attack that had their opponents baffled. They completed nine forward passes for a total gain of 105 yards, as against one completed by Springfield for a loss of three. More often were they within scoring distance, and once a single step outside of the side line by the receiver of a forward pass was all that stood be-

W. L. GOODWIN, Center.

tween them and victory.

As for Springfield their one and only chance to win came in the first three minutes. They had advanced to M. A. C.'s 20-yard line, and after being three times held in attempts to gain through the line, Capt. Quinlan attempted a drop kick. This fell far short and only once more during the entire game was our goal line in danger, and here Jake-man punted out of danger before the

DE LAVAL Efficiency

The De Laval Cream Separator is the most efficient means of separating cream from milk. It skims to a trace, not only under ideal conditions, but under ordinary farm conditions.

The De Laval is efficient because over forty years' experience in manufacturing cream separators has brought out the best construction in every detail. That is why the De Laval skims close, turns easy and handles the milk and cream quickly.

The De Laval service is also efficient. Thousands of agents and salesmen are selected for their ability to give intelligent and prompt separator service.

More De Laval in use than of all other makes combined.

For further information, see the local De Laval agent, or write to the nearest De Laval office.

TUFTS GAME PROSPECTS

(Continued from page 1)

end of the score, on Nov. 8, and last Saturday in the stadium the Brown and Blue held Harvard to a margin of 23 points.

F. GRAYSON, Right End.

Tufts has a heavy line and a fast, heavy, line plunging backfield composed of Connell and Thornton, halves, McNamara, full, and Smith, quarter. This man Thornton, an interscholastic star from Somerville, has lived up to prep school reputation in his first year Medford aggregation, and has been perhaps the most consistent ground gainer. Capt. Beacham and Barrett are sterling linemen, and Sanford, formerly of Medford High, has shown up well as an understudy at end. Practically every man on the team has come up to Coach Whelan with prep school training, many of them being from greater Boston schools of recognized standing.

Coach Welan, a Dartmouth grad, and coach at the Hill College for several years, has had a tough proposition to face this season, but seems to have built up a winning team in spite of it. He has equipped his eleven with a wide variety of plays, line plunges from fake formations and lateral passes. Their line will probably use the Minnesota shift with some variations.

S. GRAY, Left Guard.

Just what style of play Capt. Pond's team will use on Saturday against the invaders it is difficult to forecast, but one thing is certain; that the entire first team will start the game in perfect physical condition. Whatever advantage Tufts has in weight will count for little, judging from the way the Maroon and White warriors held off the attacks of a much heavier team at Springfield on Saturday, and if past performances at breaking up forward passing can be taken as a forecast it will take super-

human effort to get anything of this nature by the Aggie defence. Springfield completed one pass against us for a total loss of three yards. The work of the line has been of high calibre all season against odds. Holmes and MacIntosh are hard men to pass on the defence and King's interference and breaking up of formations has been a feature of nearly every game. Variety and versatility of play and formation by a seasoned backfield seems to be Old Aggie's best chance of victory in several years over their old time rivals. Capt. Pond and Lent are hard men to stop and good for long gains in a broken field. Lewandowski and Jakeman carry ability for better than 50 yard punts, and will make Tufts step to handle their kicks.

R. P. HOLMES, Left Tackle.

They line up at 2-30 as follows:

M. A. C. TUFTS
Grayson, re le, Ginsberg or Sanford
King, rt lt, Beacham (Capt.)
Gray, rg lg, Barrett
MacIntosh, c c, Pryor or Russo
Goodwin or Delahunt, lg rg, Riordan
Holmes, lt rt, Sellow
Mansell, le re, Macchia
Pond (Capt.), qb qb, Smith
Lewandowski or Jakeman, rbb
Whittle or Lent, lbb lbb, Thornton
Poole, lb rbb, Connell or White
lb, McNamara

M. A. C. TEAM FINISHES SIXTH

(Continued from page 1.)

Crofts of Williams got fifth place. Billingham of New Hampshire nosed out Lyons by inches after a long sprint. The New Hampshire team finished seven men in the first seventeen, an unusual showing.

The M. A. C. team, of whom the first men counted, finished as follows: Lyons, '20, sixth; Gray, '21, twentieth; Slate, '21, twenty-sixth; Rollins, '22, twenty-seventh; Carleton, '20, fortieth; West, '21, forty-third; Crawford, '20, fifty-third.

This New England championship race winds up one of the hardest cross-country seasons that M. A. C. has had. With a record of two wins and two defeats, and a creditable showing at the Boston run, the season is considered a success. Prospects for the team next year are promising, with four of this year's team as a nucleus, and some excellent material in the Freshman class.

FROSH WIND UP FOOTBALL SEASON WITH A VICTORY

Successful Schedule Carried Out with Four Wins and One Defeat.

The defeat of the Sophomores at the hands of the Freshmen, Tuesday morning, Nov. 11, by the score of 13-0, marked the close of a very successful season for the 1923 gridmen. Under the instruction of Coach Arthur M. McCarthy, 19, and with Capt. Raymond Grayson at its head the team developed a scrapping and ground-gaining combination. Due to several slight injuries during the season and to the scholastic status of some of the players, the line-ups of some of the different games have been more or less varied.

Four games were played with high and preparatory school eleven and in three of these as well as in the Sophomore game, which was the holiday attraction on Armistice Day, 1923 demonstrated its ability to emerge the winner. Williston, however, presented a brand of football which, coupled with greater weight and speed, held the Freshmen at bay. In spite of the great handicap the boys fought gamely till the final whistle, and displayed a good comeback in the second half.

Much credit is due Coach McCarthy for the manner in which he has developed a team from the green material which reported to him last fall.

It would be difficult to name any exceptional stars but it can modestly be said that Capt. Grayson at end, Sargent at halfback and Tarplin at quarter, exhibited proficiency in their various departments of the game. Davis is a fast line-plunging back, while Wirth at end, Hardy at center, and Mohor at tackle showed up well on the defense. Looking at the team's record from all angles it may be said, without exaggeration, that the 1923 Freshmen Football team has been a potent factor in athletics at Aggie this fall.

The following is the season's record of the team:

| DATE | SCORE | M.A.C.'S OPP |
|--|--------|--------------|
| Oct. 11. Monson Academy, at Monson, | 57 0 | |
| Oct. 25. Brattleboro High, at Brattleboro, | 26 14 | |
| Nov. 1. Arma Academy, at Amherst, | 34 0 | |
| Nov. 8. Williston Seminary, at Amherst, | 14 19 | |
| Nov. 11. 1922 vs. 1923, at Amherst, | 13 0 | |
| | 144 33 | |

'02.—A recent report has been received from the class secretary announcing the death on July 2 of Chester E. Dwyer. Death was the result of an automobile accident of two years previous. Since graduating from college he had resided in Nebraska City, Neb., where for a number of years he had been manager of the J. Sterling Morton Estate at Arbor Lodge. He is survived by a wife.

TEMPORARY STUDENT COUNCIL ADOPTED BY TWO YEAR MEN

To Act in Conjunction With Senate in Student Affairs.

For the purpose of self-government, the two year short course men have formed a student council similar to the Senate. The present incumbents are temporary, being appointed by President Butterfield for two months. At the expiration of their term of office a new council will be elected. The members are: Robert Hall, president; Hamilton Torrey, secretary; L. J. Burke, R. J. Conner, R. B. Estey, C. D. Shaw, R. W. Kirchner, F. O. Davis, W. S. Reid, H. D. Clapp, W. B. Shaw, and Reginald Burrington.

The task which lies before this new council is to solve the problems facing the two year men. Such questions as distinctive insignia, "Freshmen rules," etc., will be decided by them. In matters pertaining to the four year students, a committee of three has been appointed to confer with the Senate. These men are, W. B. Shaw, Robert Hall, and F. O. Davis.

A separate council of Federal Board men is to be formed to act in conjunction with the Two Year Short Course Council and the Senate.

Now for Tufts!

The last big game of the year comes this Saturday. It is the climax of the season! A victory over Tufts is the one ambition of the college. The game against Springfield, last week, resulting in a scoreless tie makes it all the more important that we win on the 22d. The whole squad is primed for the contest and the strong offensive power of Coach Gore's team, backed by Aggie's irresistible spirit will go a long way toward victory. Both teams, however, are going to meet strong opposition and either one will have great difficulty in carrying off the laurels. The strong Tufts eleven is sure to test the holding power of the Marston line to the limit. Tufts record so far this season is good proof that Aggie has a hard battle ahead of her and will have to fight every inch of the way down the field. The team is well prepared to meet a stiff resistance, however, and Captain Pond can be relied upon to open up a variety of plays which will result in final victory over our rival from Medford. Saturday's game will undoubtedly be a close, exciting, and mighty interesting one.

Reappearance of the Squib.

We are very glad to welcome the Squib back on the campus, and congratulations are extended to the members of the board on their first issue. The revival of Aggie's humorous paper is highly commendable. It is a publication which has been greatly missed during the war and which, we feel sure, will make a wide appeal to the present student body.

Practical Jokes.

On the way from the train last Saturday after the Springfield game, a few students conceived the brilliant idea of painting the score of the Williams-Amherst game on the sidewalk. That it was not done by any concerted action

is a good thing, for we are glad to know the majority of the student body has enough common sense to refrain from such childish tricks. To explain it by saying that it was merely an overflow of exuberant spirits is not sufficient. College men should be old enough to keep their excitement and enthusiasm within bounds.

COMMUNICATION

What shall be the agricultural policies of the new era? The men and women now in our colleges are preparing themselves to be its leaders. To what ends will they lead? Is their view to be restricted by local and national limits? Or will they have the world vision and help to plan our agriculture on world lines.

To these questions the World Agriculture Society offers an answer. Started by overseas men inspired by President Butterfield and his helpers, his Society proposes to establish chapters in the agricultural colleges throughout this country and in similar institutions abroad, for the purpose of studying the situation resulting from the war and pointing out the importance of co-operation among all nations in matters of food production, distribution and marketing. During the war, world policies in these matters proved necessary; the establishment and maintenance of peace demand policies even more extensive and more carefully considered.

Chapters of the World Agriculture Society, uniting students of all countries in an earnest effort to find and apply right principles in this, the most fundamental of all pursuits, can render a service of inestimable value. Through the magazine WORLD AGRICULTURE the Society will keep its members in touch with one another and bring its findings to the attention of statesmen and the public. The problems of the present and the future, in agriculture as in everything else, can be rightly solved only in proportion as we have understanding of all the conditions bearing upon them. It is the aim of the Society to promote this understanding.

Besides promoting study and discussion along world lines, the Society will have excellent opportunities for community service both in this country and abroad. Its Chapters could render much practical aid in the movements already started for the establishment of model agricultural institutions in the devastated regions of Europe. The Director of Agriculture for Belgium has offered six free scholarships to American students in Belgian agricultural colleges, with the understanding that provision for the same number of Belgian students be made in this country. Similar exchanges could be made with French and British institutions. South America offers opportunities. The International Institute at Rome has already promised to co-operate.

Here at M. A. C., where the Department and Major Clubs are so vigorous, a chapter of the World Agriculture Society can be especially useful as a unifying and broadening influence. It is proposed that the present Clubs, and others that may be formed, become Sections of the Chapter, each to hold its own meetings as in the past, uniting once a month with the others to exchange ideas on the developing world aspects of the topics studied by each. The different Sections can take

turns in arranging programs for these monthly Chapter meetings.

The proposal to organize chapters of the Society for World Agriculture has already been favorably received at many institutions in the United States and by leading men and women in other countries.

L. H. P.

ENTIRE STUDENT BODY OUT FOR RAZOO AND MASS MEETING

Pep Rally Held on Eve of Big Battle with Springfield.

Friday night at 7:30 Aggie made her first down against Springfield when the entire student body gathered at the Drill Hall for the big mass meeting. For a half-hour before the meeting a Razzo party was held in the streets of the town to make sure that every man should be there.

The Freshmen had already built a large bonfire which was touched off as soon as the College had assembled.

After one or two snappy cheers the following men gave short "pep" talks and told stories of the Springfield games of yore: Prof. Hicks, Spanning '17, George Chapman '05, "Bill" Dowd '18, Fredrick '20 and Berman '20. A word of the fire was telephoned to the team at Springfield and Coach Goresent back the word that the fire was as good to him as a victory. This brought a burst of shouting from the crowd that lasted for a full minute. The cheer leader next led a few more cheers and Goff '20 lead the crowd in a few of the old songs. The meeting broke up with the college song and a long yell for the team.

'12.—H. A. Noyes was the author of a long scientific article on soil acidity, published in the November issue of the Journal of Industrial and Engineering Chemistry issued from the Mellon Institute.

On rainy days the ordinary light-weight overcoat is like a sponge—soaks up the wet!

MORE THAN A TOGGERY—A COLLEGE INSTITUTION

EVENT AT BOSTON FINISHES CROSS COUNTRY SCHEDULE

A Good Nucleus Present for a Fast Team Next Year.

The New England Intercollegiate cross country run last Saturday closed a successful year for Aggie's cross country team. Two victories, two defeats, and a six-place in the Boston meet, make up the season's record.

The first meet was held October 22, and the four others came on succeeding Saturdays. W. P. I. was the first opponent, and was defeated 23-33. The U. of V. was next defeated, in Vermont, 26-29. The course at Burlington was very difficult, fences and swamps being numerous.

Williams gave the Aggie barriers their first defeat, on the Amherst course, by a score of 21-34. A few stars won the race for the Purple, and Aggie's first man took fourth place. New Hampshire also defeated M. A. C. at Durham, 14-42. The level course prevented the Aggie men from getting in their best work.

The last race of the year, at Boston, last Saturday, brought M. A. C. sixth place. New Hampshire took first place, and Williams tied Maine for second, showing the strength of the teams which defeated Aggie in dual meets. W. P. I. secured fifth, and the U. of V. seventh places.

Captain Lyons was Aggie's best distance runner, getting two firsts, one third, and one fourth in the dual meets. His coachings also gave the team its

confidence, and taught the men to run heady races. Slate, Carlton, and West have been close to the front in all the races. All the meets have been run in fast time, and the condition of the men after finishing has showed the results of the training.

Although the schedule has been short, Aggie has met the best teams in New England, and results have proved that M. A. C. is keeping up her old standard, and must be counted among the foremost in this autumnal track sport.

BASKETBALL PRACTICE STARTS

Last Monday evening at 8-15 the varsity basketball team began regular practice in the Drill Hall. Hereafter practice will be held every Monday, Wednesday and Friday at the same hour. For the first practice twenty-one men reported which does not include those

MANAGER CAMPBELL.

who, are now out for football, and makes the squad the largest that Aggie has ever had. Arthur McCarthy will coach the team until football is over when "Kid" Gore will take charge. Of these eligible for the team there are six former winners of the "M" including: Pond, Grayson, Harrington, Lent, S. V. Smith and Gowdy. With this as a nucleus it is hoped to whip a very good team into shape for the heavy schedule which has been arranged. Complete new uniforms will be furnished members of the squad.

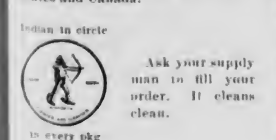

The schedule includes nine home games and seven away from home. Some of the longer trips will be to Dartmouth, to New York, to Troy, to Durham and to Storrs. Other games on the schedule are given in the full schedule published for the first time, in this issue.

CLUB NEWS

The Animal Husbandry Club held a very successful meeting last Wednesday evening when the lecture by Mr. J. G. Watson of Brandon, Vermont, attracted a crowd of two hundred men.

Mr. Watson is secretary of the American Aryshire Breeders Association but his talk was not confined to the Aryshire breed. The problem before the breeders of to-day is not more but better stock and in the improvement of stock there is a great field to work for men of ability. The Shorthorn breed shows the best examples of constructive breeding in the work of the Collings brothers, Bates and Craikshank.

Mr. Watson emphasized the importance of line breeding and gave as an example the Jean Armour tribe of Aryshires. In this family three generations of line breeding has doubled the production.

The Aryshire breeders of the country are looking toward a large average production rather than a few sensational records. Aryshire cows already hold all records for long distance production, one recently finishing an A. B. record at twenty-nine years of age.

Following the lecture several new men signed on as members of the club. The total membership has now reached the one hundred mark.

At the next meeting of the Chemistry Club to be held Thursday, November 20, at 7-15 P. M. in the Chemical Laboratory, Prof. Parker will give a brief talk on the advisability of combining the various clubs on the campus. This question has aroused much interest the past few weeks and all is the result of the A. E. F. Club which has been formed. Prof. Parker is especially fitted to speak on the subject, having spent several months in France with Frexy in the educational work.

This meeting is open to all of the clubs as well as to the regular Chemistry Club members. It is hoped that as good a showing will be made at this get to gether as in the first meeting.

The Catholic Club held a very successful meeting last Wednesday evening with about thirty-five members present. P. H. Wenz was elected as a delegate to the New England Province of the Federation of College Catholic Clubs to be held in Boston next week.

The next meeting will be held in Wilder Hall, Wednesday, November 19. The program has not been definitely arranged but the executive committee is busy making plans for this and other future meetings.

Last Wednesday evening Professor Sprague gave an interesting talk before the Menorale Society. His lecture dealt with the Prophecy of Amos in regard to the economic injustice of the present time. In this connection he brought in a short discussion of the threatened coal strike.

About twenty-five members attended the meeting and it is hoped that there will be as many present at the next, which will be held Tuesday, November 25.

Y. M. C. A. NOTES

Mr. Fielder and Crawford left last Tuesday for a student Y. M. C. A. conference to be held in Detroit from the 19th to the 23rd of this month.

The pledges which were given out in assembly last week are gradually coming in for the Y. M. C. A. budget.

TIE WITH SPRINGFIELD

(Continued from page 1)

Springfield attack became a serious menace.

Capt. Pond won the toss and chose to receive. Poole, in running back Johnson's kickoff, was interfered with by the official and Quilman recovered for Springfield. After the attempt to score mentioned above, Aggie took the ball on her own five-yard line and smashed through to within 20 yards of the Red and White goal posts, aided by a 35 yard run by Pond, the longest run of the game. From here Lewandowski punted to Springfield. Breit and Drew pushed it back

20 yards, and then, unable to penetrate the M. A. C. defence for further gains Johnson kicked. Lewandowski kicked back almost immediately and it was Springfield's ball on her 35-yard mark. From end to end Aggie was a stonewall against line plunges and Johnson again came to the rescue. The Maroon and White backfield plowed through for good gains, and aided by a recovered punt had advanced to 20 yards from the enemy goal line as the quarter ended.

Capt. Quilman's team was fighting hard now and took the ball on downs shortly after the opening of the second quarter. Springfield, though, was forced to punt on fourth down and M. A. C. was off on another offensive,

which netted 19 yards before Lewandowski kicked. Springfield now attempted to open up her forward passing game which had baffled other opponents this season. A backfield fumble spoiled their first attempt, a lateral pass, and their backfield began another attack on the M. A. C. line. Their gains were few and then became impossible. Aggie secured the ball on downs and almost immediately punted. The "Y" eleven tried another forward, a long one over the center of the line, that Grayson intercepted and ran back five yards. An attempted Aggie forward a few minutes later was intercepted by Weber, giving Quinlan's aggregation the ball ten yards into their own territory. Springfield backfield formations were broken up on their attempts to gain around the ends and through the right side of the line, and then Schaefer tried another forward, which found no receiver, and it was Aggie's ball as the whistle blew half time.

M. A. C. kicked off to Springfield to

DE LAVAL Efficiency

The De Laval Cream Separator is the most efficient means of separating cream from milk. It skims to a trace, not only under ideal conditions, but under ordinary farm conditions.

The De Laval is efficient because over forty years' experience in manufacturing cream separators has brought out the best construction in every detail. That is why the De Laval skims close, turns easy and handles the milk and cream quickly.

The De Laval service is also efficient. Thousands of agents and salesmen are selected for their ability to give intelligent and prompt separator service.

More De Laval is one that of all other makes combined.

For further information, see the local De Laval agent, or write to the nearest De Laval office.

open the second half. Brett made a short gain through right tackle; and then Springfield was held for downs and Johnson punted, Grayson running the kick back five yards. A forward pass netted 15 yards and then the Springfield line held. An exchange of kicks gave us the ball on our 20-yard line, from where it was shoved 15 yards by end runs and line plunges. Springfield took it on downs and fumbled, King recovering in midfield. The Aggie backfield plugged the line hard and got to within 15 yards of their objective only to have an attempted forward pass blocked behind the goal posts for a touchback, making it Springfield's ball at their 20-yard line. Third downs found them with better than 10 yards to go and Johnson punted to our 25-yard line from where the ball was put in play for the last quarter.

Jakeman, who replaced Lewandowski, punted shortly after the opening of the period. Springfield then gained 25 yards, Brett and Drew adding a little at a time, before the wearers of the striped jersey were forced to the defensive. An exchange of punts made it the "Y" ball at the 30-yard line, the closest they had been since the opening minutes of the game. They got no nearer after three shots at the line and Grayson intercepted Schaefer's forward pass on fourth down.

Aggie here worked two neat forwards in a row, to have Morin intercept the third and run it back five yards. After failing to gain, Springfield had punted to our 20-yard line and the game ended here with the ball in our possession.

Every man on the team played a hard, scrappy game from start to finish, and to pick out the work of any single one as a feature is impossible. From end to end the M. A. C. line was out-weighted more than ten pounds per man, and the game put up by Gray, Goodwin, and Delahunt at the guard positions is worthy of commendation, since Gray was out-weighted by his man 30 pounds, and Goodwin was laboring under a 58 pound handicap. King's interference was high class, Whittle's tackling spoiled many end runs, and the defensive playing of Mackintosh on both sides of the line was very good. Jakeman, called upon to do the kicking in the second half, turned in a very creditable performance.

Brett and Drew excelled for Springfield.

The line-up:

AGGIE COMPLETES FOOTBALL SEASON IN BLAZE OF GLORY

Most Successful Record Since 1904
Ends with Triumph Over Tufts.

By defeating Tufts last Saturday, Aggie polished off one of her most successful football seasons since 1904. With five victories out of a possible eight, trimming Connecticut Agricultural College, Worcester Polytechnical Institute, University of Vermont, Rhode Island State College, and Tufts College; and tying with Springfield Training School. Coach Gore's football machine, 1919 model, has left an enviable record behind it. The Maroon and White was defeated only by Dartmouth and New Hampshire State.

The points which make this year's team noteworthy are several. Within the knowledge of local authorities, it scored the first touchdown for Aggie against Dartmouth, since the two institutions have been meeting on the gridiron. Greatly outwitted by New Hampshire State, it was defeated by a field goal in the last minute of play. Up to this moment Aggie had led by a score of 7 to 0.

At Springfield, the tie-score result came as a surprise to many. Outweighed on the line by an average of 20 pounds, the indomitable spirit of the Maroon and White came to the front. The wisdom of a development of a superior forward passing game was evident. The results more than justified the time spent in its evolution. The success of the triumvirate, Pond, Grayson, and Mansell is demonstrated in the fact that by the use of the forward pass, Aggie was able to gain a total of 290 yards as contrasted with Springfield's 150.

Although the advisability of playing the two big games of the season in rapid succession is questionable, Aggie proved that she was more than able. The tight little score of 14-0 against Tufts was extremely gratifying. Again the aerial game played the biggest part in the success. Tufts never had possession of the ball within the Maroon and White's 20-yard line. Aggie's forwards netted her a total of 70 yards against eight yards on a lone pass by the Brown and Blue. Jakeman proved to be one of the stellar performers with his punting. His record was 14 boots for a total of 475 yards against the nine of his opponent for 270 yards.

Real team work, induced by the efforts of Coach Gore, coupled with a development of the aerial style of football, have been the winning factors for Aggie this season.

Of the 18 letter men this year, Coach Gore will lose 11, Capt. Pond, Grayson, Holmes, Glavin, Delahunt, Gray, Goodwin, Jakeman, Dewing, P. Readie, and Daggett. The election of Poole to the captaincy will give the team the bene-

HORTICULTURAL SHOW COMING DEC. 12, 13, 14

Professors Sears and Chenoweth
Planning for Large Attendance.

The Horticultural Show, which will be held in French Hall on Dec. 12, 13 and 14 is progressing rapidly and promises to be a larger and better show than ever. Many exhibits have already been sent in and many others have been promised. There will be separate prizes offered for fruit grown by growers, faculty and students, and also many firms dealing in horticultural supplies will send exhibits. The Horticulture and Horticultural Manufactures Departments will also have large exhibits. Any who are interested in exhibiting may send fruit to the Horticultural Show, M. A. C. Cold Storage Plant, Amherst, Mass., and it will be well cared for there until the day of the show. All fruit must be sent by Dec. 10 as the work of arranging the exhibits will start the following day and space arrangements must be allowed for. The premium list and rules are printed below.

PREMIUM LIST

Class 1. For the best plate of apples any variety listed below:

Bailey Sweet, Baldwin, Black Gilliflower, Blue Pearmain, Bellefleur, Esopus Spitzenburg, Fall Pippin, Fameuse, Golden Russet, Gravenstein, Grimes Golden, Hubbardston, Jonathan, King, Lady, Maiden Blush, McIntosh, Mother, Newtown Pippin, Northern, Opalescent, Palmer Greening, Peck's Pleasant, Pewaukee, Pound Sweet, Red Canada, R. I. Greening, Roxbury Russet, Seek-no-further, Stayman's Winesap, Sutton, St. Lawrence, Stark, Tolman Sweet, Twenty Ounce, Wagener, Wealthy, Winter Banana, Wolf River, Yellow Bellefleur.

Class 2. Best plate any variety not listed in Class 1.

Class 3. Best display of fruits, not less than ten varieties. These entries may compete in any of the preceding classes.

Class 4. Best box of apples, any variety.

Class 5. Best plate of pears, any variety listed below:

Kieffer, Anjou, Clairgeau, Seckel, Sheldon, Bosc.

Class 6. Best plate of pears, any variety not listed in Class 5.

PREMIUMS

Class 1-3. First, blue ribbon; second, red ribbon.

Class 4. First, blue ribbon; second, red ribbon; third, yellow ribbon.

Class 5-6. First, blue ribbon; second, red ribbon.

RULES GOVERNING THE EXHIBIT

1. Fruit shown in any of the above classes must be grown by the exhibitor. 2. The judges reserve the right to refuse premiums in case the numbers or character of exhibits does not justify an award.

(Continued on page 4)

AGGIE GAINS DECISIVE VICTORY OVER TUFTS

Fast Game Sees Old Rivals Beaten on Alumni Field
by the Score of 14-0.

The largest crowd ever on Alumni Field, upwards of 2000, saw M. A. C. close what was probably its most successful gridiron season with a clean cut, well earned and decisive victory over their old rivals, Tufts, on Nov. 22. To all that assemblage of football fans such a game must have been a treat, not to those who have followed Aggie football of late, it must have been particularly gratifying to know that such a smooth working machine, which turned back a really powerful team in no uncertain terms, could be built up in a single season. It augurs well for future gridiron successes here.

The game was fast and hard fought every minute, a battle royal from start to finish, with Aggie furnishing a majority of the thrills, though the Medford eleven called its every resource into play during the closing minutes of the game. A powerful line and a heavy, line plunging backfield, Whelan's team came here, in addition, with a bagful of trick plays calculated to catch the Maroon and White defence off their guard. Against Coach Gore's charges the conquerors of University of Detroit used only one play that was not immediately solved.

This was a wide end run from a fake formation that gained considerable ground for the Brown and Blue before its effect was checked. Forward after forward went incomplete in the visitor's aerial game, and their heavy backfield could not make first down consistently through the Aggie line.

Though the whole four periods were replete with good football, there were two big thrillers, these on the two plays that accounted for Aggie's 14 points, and which came in close succession near the end of the second period.

Thornton had punted to midfield, and Grayson by a brilliant piece of open field running had brought the ball to Tufts' 25 yard line. On the first play thereafter, Pond, standing on their 30 yard mark, got away a long forward pass to Mansell who was far beyond the scrimmage line, and raced over for a touchdown.

Following this Tufts kicked off, and the ball was put in play on Massachusetts' 40 yard line. Jakeman then contributed a fine 55 yard punt, the ball rolling over the Tufts goal line. At his own 20 yard line, Smith, the Medford quarter essayed to try a forward, which was intercepted by the fleet Lent. He ran through the entire opposing team for a touchdown.

Things broke in the visitor's favor at the start of the game when the Massachusetts kickoff carried barely 10 yards. After making first down around the ends, Tufts tried three line plunges with

no gain and a forward which was blocked, and lost her the ball on downs. Aggie was playing a waiting game and Jakeman punted to midfield. Whittle intercepted a Tufts forward pass after an attempted plunge through center had gained only a scant yard, and Jakeman punted again. Mackintosh recovered for Aggie when the visitors fumbled on the first play. A delayed pass gained two yards and then Smith got in the way of Pond's forward pass. After making first down at their 20 yard line, Thornton punted to midfield for the Medford collegians. Aggie could not gain around the ends and an attempted forward was intercepted by Connel. Tufts hammered our line to no avail for three downs and then Whittle duplicated Connel's stunt. Pond and Whittle on the first play completed a forward pass for a gain of five yards, and then Jakeman punted to the invaders' 20 yard line. Smith circled left end for 10 yards, Gray broke through to mix up the next play, and Thornton kicked. Aggie made four yards through the line and then Jakeman kicked to midfield, where the ball was when the quarter ended, Tufts failing to gain on two line plays.

Thornton opened the second period by kicking to our 30 yard line. Then, after the Maroon and White backfield had found a breach in the opposing line that netted 9 yards, Jakeman got away his best punt of the day and the longest of the game, a 60 yard sprit! Thornton kicked back, and Aggie tried a forward pass which Smith intercepted. Thornton's toe came to the rescue again. Pond's forward pass was intercepted, and Tufts tried line plunging again. They made a first down by this method, only to lose four yards on an attempted lateral pass and be forced to kick. An exchange of punts gave the greater position on the ball in midfield, and following two backfield fumbles that lost 15 yards, there came the kick on which Grayson made his 25 yard run, followed by the play already described, which resulted in the first score of the game. Lent's play for the second rally followed almost immediately, and the half ended soon after.

Starting the second half Tufts began to use an offense of end runs almost entirely. Thornton kicked off. Pond gained five yards through center, and Jakeman kicked to the Brown and Blue 30 yard line. Jakeman intercepted a forward pass after two end runs had gained first down for Tufts. A plunge through center netted three yards, but a successful forward, Pond to Grayson, was followed by a 15 yard penalty, and Jakeman punted. Tufts, working their fake end run at alternate ends, dis-

A Permanent Index Board.

The opinion has been expressed, in a communication received this week, that the Index Board should be made a permanent and continuous body, each board serving a year's apprenticeship under the preceding board of Juniors. This view should be most heartily endorsed. Such a plan would enable the members of the board to become familiar with the details and technicalities incident to publication, and the method of planning their work which would prevent the mistakes and misunderstandings that arise every year under the present system. The possibility of having the Index published on time would be greatly increased, and the probability of the annual being a financial drain on the class would be far less likely, if the board has had some previous experience. It has been found advantageous to organize permanent boards for the publication of the Junior Annual at many of the larger colleges, and past Index boards strongly favor the adoption of the system at M. A. C.

The Index as a College Annual.

It has often been stated by several students of prominence on this campus that the Index should not be called a Junior Annual but a college annual for the reason that in the Index we have presented to us not alone the activities of the Junior class but the activities of the college as a whole, and although the annual is entirely collegiate in its scope, in that it has for its sole purpose the presentation of college spirit in visualized form.

In an Index of recent issue there was featured the entire history of that great event which in the past meant so much toward the development of college spirit—namely the Banquet Season. Now the presentation of an event of this nature is of interest to the entire student body and to the alumni as well, for it is the one occurrence of our college life that we do not soon forget. Another article that is of wide interest

is the history of the college, which it is intended to run in the 1921 Publication. Thus it might be possible to give any number of examples to show that the Index is without a doubt collegiate in its nature.

Therefore bearing in mind the aforesaid statement, why would it not be possible to actually make the annual a college one by reorganizing the method of its publication. That is, to maintain the present system of choosing a Junior board in its Sophomore year but to elect the board somewhat earlier and then give the newly elected board opportunity to work in co-operation with the Junior Board. Through this system the new board would gain in experience so that when they became Juniors they would not be entirely new to the game but would possess a working knowledge of the methods used in producing the book and the chances of increasing the quality of production would be materially increased. G. W. E.

LIVE MASS MEETING HELD ON EVE OF TUFTS GAME

Speakers of Repute Present Ideas, College Band Stages Comeback.

The eve of the Tufts football game witnessed the peppiest mass meeting ever held in honor of any event at M. A. C. From the beginning of the razzoo to the last words of the College Song everything was snappy and then to crown the event a comeback was staged by the College Band and it sure was a comeback in every sense of the word. The meeting was in charge of cheer leader Robertson who certainly did things up brown in the selection of a program.

Preceding the meeting in the old chapel a razzoo party was held in which every living inhabitant in the vicinity of the college was made acquainted with the fact, that for the first time in the history of the college, Tufts was to be entertained at M. A. C. in football.

The first speaker of the evening was one who has always been known on the campus as an example of true spirit, Prof. Robbins spoke both humorously and interestingly about college spirit, and the applause tendered him bespoke his popularity.

As a fitting conclusion to the list of speakers, Coach (Kid) Gore was called upon to relate his experiences. He responded by giving a brief summary of the seasons work with the team and laid particular emphasis on the wonderful brand of spirit shown by the men on the squad and due appreciation to the other two graduate coaches, namely—George Palmer and Ed Grayson. He expressed his disappointment over the tie game at Springfield, but as a word of cheer in closing he said, "The slogan of the strong 1915 team was 'Tie Tufts and beat Springfield!' The slogan of the 1919 team is, 'Tie Springfield and beat Tufts!'"

DE LAVAL Economy

The truly economical cream separator is one which skims clean the greatest amount of milk for the longest period of time.

The fact that the De Laval skims clean makes a De Laval an especially good investment in the fall when many cows are going dry and clean separation of the strippings is desired.

With ordinary care, a De Laval Cream Separator lasts a lifetime, because its superior bowl construction permits of the bowl being made smaller in size and run at lower speed and with less exertion.

This durability, coupled with unequalled clean skimming and honest capacity rating, makes the De Laval the most economical separator in the long run.

Due to large capacity, easy turning and easy cleaning, the De Laval is also economical with the operator's time and effort.

More De Laval's in use than of all other makes combined.

The local De Laval agent can further explain the economy of the De Laval, or an inquiry addressed to the nearest De Laval office will bring a catalog and complete information.

Let Me Be Santa Claus

I'll save you all your shopping worries and cut your Christmas bills in half by sending your friends for a whole year a welcome weekly reminder of your thoughtfulness. What is this ideal gift?

The COUNTRY GENTLEMAN

Farmers value it as the greatest single help in their business. For East, West, North and South alike it contains the best, the most, the latest information on progressive farming. Women like its articles on poultry, on homekeeping, and its fiction.

There is a bully short story in each issue, and in the course of the year there are five book-length novels by such favorite authors as Zane Grey, Albert Payson Terhune and Henry Owen. No other gift that you can buy for a dollar will give one-quarter its value; no other present, whatever the cost, will give greater pleasure. Send me the list of your country friends, with their names and addresses and one dollar for each. At Christmas time each of these friends will receive, by mail, together with the first copy of his subscription, a 6 1/2 x 9 1/2 reproduction in full color of a Maxfield Parrish masterpiece, announcing in your name the gift of the most helpful of all publications for the farmer and his family.

A HIGHER IDEAL

There would be no advantage in devoting the most valuable years of one's life to gain knowledge and experience, if greater possibilities and achievements were not forthcoming.

It is then proper to assume that because of his exceptional scientific training the agricultural college man is progressive, well advised in the most modern dairy practices and the methods that are likely to make dairying the most profitable.

You know that profitable dairy production cannot succeed without cleanliness, and you should also know that

is capable of maintaining a cleanliness that is productive of the highest quality dairy products, because it is used for thorough and sanitary cleaning by all Agricultural Colleges in the United States and Canada.

Ask your supply man to fill your order. It cleans clean.

Team C—An Important Factor in the Varsity's Success.

CAMPUS NOTES

The second of a series of meetings to consider account keeping will be held in the Entomology Building on the Massachusetts Agricultural College campus, Monday, Dec. 8, at 2 p. m. This meeting will consist of a meat cutting demonstration by one of the local marketmen with a consideration of how to cook certain cuts by Miss Laura Gifford. All interested in this study are cordially invited.

1920 Class Meeting.

At a meeting of the Senior class held after assembly Wednesday, Nov. 19, Crawford and Freilick were elected to the public speaking council and Readley, Brown and Stedman were chosen for a class smoker committee. There was some discussion regarding the giving of a smoker to the whole student body but it was finally decided to put the matter off until after Thanksgiving.

The concert season for the Musical Clubs begins Dec. 12. On that date the "official dress rehearsal" in Hadley will be staged. The week following the clubs go to Boston for a five days' stay, during which time they play at the Newton High School, and the Copley Plaza, in Derry, N. H., and in Newburyport. The Glee Club this year is without any question better than it was a year ago. Coach Bigelow has done wonders with the clubs and the fellows have shown a lot of interest and enthusiasm. The Mandolin Club also promises well. The difficulty in getting a coach caused some delay in starting, but things are coming along fast now. Taken altogether the clubs will certainly show something pretty good to anyone who should happen to stray over to Hadley on the 12th.

AGRICULTURAL ECONOMICS NOTES

John D. Willard, Director of the Extension Service and Miss Lorian P. Jefferson are representing the department at the Country Life Conference and the American Farm Economic Association meeting which is being held at Chicago with the meeting of the Association of Agricultural Colleges and Experiment Stations. Mr. Willard is presenting a paper on the Economic Basis of Agricultural Prices at the American Farm Economic Association meeting.

The department is undertaking a study of ownership in Massachusetts. The study will be undertaken in cooperation with the farm bureaus and the department of education of the state. The purpose is to ascertain from 1000 farm owners in Massachusetts their agricultural and financial history, in other words to learn how many of them were born on farms or had farm experience as farm laborers, tenants or managers, before they became owners, where they obtained money to buy their farms and how much of their savings they have recently been putting into farm improvements. The study should throw a good deal of light on the necessary qualifications of farm owners as to financial status, training and experience. Miss Jefferson has general charge of the study.

*16.—Lewis V. Rowe, formerly county agent for Middlesex County is now in the Screen and Blinds business in Weston.

J.D. WILLARD TO BE DIRECTOR OF EXTENSION SERVICE

The trustees of the Massachusetts Agricultural College have elected John D. Willard of Amherst as Director of Extension Service.

Mr. Willard in 1916 was eminently successful as secretary of the Franklin County Farm Bureau; early in 1917 he became executive secretary of the Food Committee of the Massachusetts Public Safety Committee and later served as assistant to Henry B. Endicott, Food Administrator of Massachusetts. Early in 1919, Mr. Willard came on to the col-

lege staff in charge of the Extension work in marketing. In July Governor Coolidge appointed him to the Commission on the Necessaries of Life, and for the past three months Mr. Willard has been devoting practically all of his time to this work. Mr. Willard will take up his new duties about Jan. 1.

Willard K. French of Old Town was a welcome visitor on the campus the first of the week.

fit of the leadership of a man who has been a consistent ground-gainer at full-back. Around him as a nucleus, there will be Lewandowski, Leut, and Whittle in the backfield, with King, Mansell, and Mackintosh on the line. This gives Coach Gore a total of seven letter men with whom to build next year. From teams B, C, and the Freshmen, the following men have been playing a snappy, aggressive game all season. Much is expected of them in the future. In the backfield, Hurd, R. Radio, Clark, Davis, Touney, LeTour, Tarjolin, and Sargeant. On the line, Brigham, Cotton, Gould, Field, Walte, Wilson, Mohor, Bunker, and Grayson.

The schedule will remain essentially the same.

SOCIAL UNION PROGRAM FOR SEASON COMPLETED

Includes Several Artists, Well Known From Previous Appearances on Campus.

The Social Union Committee has arranged the following program for this winter's entertainments:

December 5th. Friday Ernest Gamble Concert Co.

January 3rd. Saturday, Leland Powers, Humorist.

January 16th. Friday, Pilgrim Quartet.

February 14th. Saturday, Magician.

March 6th. Saturday, Freshman Show.

March 14th. Sunday, Hoffman Quartet.

April 11th. Sunday, Prom Concert, Havens Trio.

Motion picture programs will be put on as opportunities arise during the winter.

The Ernest Gamble Concert Company is one of the best known popular concert companies in America. It has given exceptionally fine concerts at this institution on three occasions.

Mr. Leland Powers, the well known humorist, has appeared twice before on the Social Union programs.

The Pilgrim Quartet is one of the best male quartets of Boston.

The name of the Magician for February 14th. will be announced later.

The Hoffman Quartet which will appear March 14th. is composed of artists from the Boston Symphony Orchestra.

The Havens Trio which will give a concert in connection with the Junior Prom is composed of Mr. Raymond Havens, who gave us a piano a recital here two years ago, Mr. Alwin Schroeder, who for sixteen years has been first cellist of the Boston Symphony Orchestra, and Mr. Sylvain Noack assistant concertmaster in the Boston Symphony Orchestra.

WORD AGRICULTURAL CLUB OUTLINES PLANS

An informal meeting was held at the Davenport on Sunday evening, Nov. 23, to discuss the proposed M. A. C. Chapter of the World Agriculture Society. It was decided to ask the different Clubs to send two delegates each to a Committee which should formulate plans for the proposed federation.

The general purpose of the movement were stated as follows:

1. To further a sympathetic understanding among all nations in matters relating to the production, distribution and consumption of the products of the soil.

2. To encourage study of the principles which should control the agricultural policies of the world to the end that every individual may due his full duty and may enjoy his rightful share of the results.

3. To aid in the application of these principles through the dissemination of information, the exchange of students and teachers between educational institutions, the furthering of legislation, and the rendering of practical assistance in the agricultural regions devastated by the world war and whatever such assistance is needed.

4. To promote the correlation on world lines of all agencies concerned in rural improvement, technical, scientific, economic and social, and a greater appreciation of the possibilities of the country for development of the highest types of individual and social life.

Amherst, Mass., Wednesday, December 10, 1919.

No. 10

**ALUMNI
ANNUAL BOSTON CONCERT
AND DANCE**
Alumni Get Together
at
Copley Plaza, Dec. 20
ALL OUT!

The Musical Clubs will start their concert season next Friday evening, December 12, in the Hadley Town hall. This concert will give the clubs training for the Boston trip, which begins on the 19th of this month.

The most important event of the Boston trip is the annual alumni concert, held in the Copley-Plaza hotel, on the 20th. This concert is to be better than ever this year, and the clubs hope that all the Boston Alumni will plan to be present, and to make the evening an Aggie get-together in every sense of the word.

The clubs will open the trip at Newton High school on the 19th. On the 22nd they will be in Derry, N. H. This is the first time that Aggie has played in that town. It may possibly be added to the yearly schedule. On the 23rd, a concert will be given at Newburyport, Mass. The clubs have not played there for several years, and it is understood that plans are being made to make this program of especial merit.

A New Year's Eve party will be held in Amherst Town hall this year. Although this will come very soon after the end of the Christmas recess, a large crowd is hoped for to dance the old year out after the concert.

Scheduled plans for next year are merely tentative at present. The management hopes to arrange a week-end trip to Pittsfield, and a concert at Mount Holyoke College, in addition to the usual trips to Holyoke, Springfield and Hartford, and small towns near M. A. C. The quartette is showing up especially well at rehearsals, and all the other branches are doing fine work. Harlan

(Continued on page 9)

MORE VACATION

College will reopen with Chapel services at 7-30, Tuesday morning, December 30, instead of Monday, December 29, as formerly announced. This change is due to the fact that classes will be held on New Year's day which is a legal holiday.

GRAYSON ELECTED CAPTAIN OF BASKETBALL TEAM

Hard Practice Fast Rounding Squad Into Condition.

Saturday afternoon at a meeting of the basketball squad Forrest Grayson of Milford was elected captain for this year. Grayson is a letter man in both basketball and football. He played on the 1918 successful quintet and his fine work this fall was one of the bright spots in the football team's success.

Practices for varsity basketball are being held each day in the drill hall. It is too early in the season to pick out the five men who will line up against C. A. C. on Jan. 8. Coach Gore has a large squad out which includes some ten or a dozen men who will make keen competition for varsity material. At each practice one or two games are held between the four teams. This is usually preceded by a long drill in shooting baskets from fairs, and in shooting from the 18-foot distance. Manager Campbell is being assisted by Lockwood, Pratt and Bunker, and six Sophomores who are candidates for assistant managerships.

POMOLOGY CLUB READY FOR HORTICULTURAL SHOW

Several Outside Commercial Exhibits add Features to the Display.

The Pomology Club held its regular meeting at 7-30 Tuesday evening and was attended by a sizeable, but interested audience. Mr. Van Meter of the Extension Service was the lecturer, talking on the work and organization of the extension service and starting how the people of the state could use to better advantage. Several of the students then reported on fruit papers, and Stowe gave the Club a talk on the proposed organization of a chapter of the World Agriculture Society here at M. A. C.

The remainder of the meeting was given over to business in connection with the Horticultural Show. Woodward reported for the committee which has been working on this, and eight volunteers were secured to help with the setting up of the exhibits. The show will be in French Hall next Friday, Saturday and Sunday from 9 to 5 and Saturday evening. Both floors will be turned over for the exhibit, which will include, on the first floor, a flower exhibit, orchard implements, landscape designs, beekeeping, and plate fruits. On the second floor will be the Horticultural Manufactures exhibit, box fruits, a packing demonstration, fruit diseases, and Horticultural books.

There will also be representatives and exhibits at the show from Sherwin-Williams Co. and from F. A. Read & Co. of New York, dealers in fruit containers, and shipping equipment. Saturday afternoon at three o'clock Stowe will give

(Continued on page 7)

LOCAL TALENT TO BE TESTED IN UNUSUAL VAUDEVILLE

Roister Doisters Arranging First Student Show for December 13.

(By E. M. Boardman.)

Saturday night, Dec. 13, at 8-00 P. M., in Stockbridge Hall, marks the return of one of the pre-war customs to the Aggie campus. This is the annual Student Vaudeville which has always been a big feature in college entertainments, and this year's event promises to be no exception to the rule. There has been attempted nothing along this line since the fall of 1916 and it is therefore new to nearly all the student body. It is under the management of the Roister Doister Dramatic Society, but it is truly a real student show. Each act, and there are to be 12 of them, is put on by a separate group of men. Each fraternity, the Commons Club and the Non-Fraternity men have an act which is arranged by each respective organization. Originality and pep, with a touch of mystery, are the features of the entire bill. It is rumored that a big surprise is to be sprung on Saturday night and no one should miss it. As to the nature of this surprise no information can be obtained, but the various posters about the campus suggest many possibilities.

There is much good material in college for the vaudeville stage and it will all be there on the 13th. Such stars as "Jack" Smith, fresh from a long season in Paris; "King" Halbit of past vaudeville shows, and "Cohen" Levitt of 1921 Freshmen Show, will be on the boards. Several men, new to this form of activity, will also be featured in acts.

One of the main purposes for the Annual Student Vaudeville, early in the year, is to keep up the interest in dramatics at college and to bring out new material for later Roister Doister productions.

Special permission has been obtained from the authorities at both Smith and Mt. Holyoke to allow the girls to remain for the show. Smith girls must leave the center at 10-00 o'clock, and Mt. Holyoke girls will stay until 11-30. A special car will leave the cross-walks in time to connect with the 10-00 car for Northampton. Men going to the informal should procure a ticket for the show at the same time that they buy their informal tickets, as seats will be reserved in a special section for all informals and will be held until 8-00. The regular student ticket is good for this entertainment, but is not transferable. For those not holding such tickets the price is 50 cents.

The co-eds have the honor of being the first skaters on the campus pond this year. Two adventurous apries were seen flitting hither and yon over its frozen surface just after dawn Friday morning.

RELAY SQUAD LOOKS FAST NINE MEN OUT

Three of Last Year's Team Available
—Captain Wright Leaving
This Term.

In response to a call for candidates for indoor track, nearly twenty men have handed in their names to Manager Kendall. This list includes Dewing and Sullivan of last year's team, Pree who was on the 1918 team, and Carleton and Spring, also of last year's squad. Among the new men are Alger '21, Gray '21, a member of last year's interclass championship team, and Bent '22, who made a good showing on his class team. The Freshmen class has sent out several men who should make good. Captain Wright will not be available as he will graduate next month. His position will be hard to fill, but in spite of this fact, with such a wealth of other material, Aggie should be well represented on the board this winter.

W. M. Dewing will act as coach this season and with his experience under former coach Dickinson, he should be able to fill the position. Oliver Flint will look after the training and conditioning of the men.

The board track in back of the Drill Hall has been undergoing repairs and will present a new surface.

GAMBLE CONCERT PROVES TO BE SUCCESSFUL AFFAIR

First Social Union Entertainment
Highly Appreciated.

The opening entertainment of the year under the auspices of the Social Union, last Friday night in Bowker Auditorium, proved to be very successful, both in size and appreciativeness of the audience and in the excellent quality of the program.

The entertainment was a succession of musical numbers by the Ernest Gamble Concert Party, composed of Miss Verna Leone Page, violinist; Miss Helen Reed, concert pianist, and Mr. Ernest Gamble, basso cantante. This trio on its two previous engagements here has furnished a high class concert, and that of this season was no exception.

The numbers rendered were mostly classical, but with enough lesser operatic airs to add variety, and make the appeal of the concert general. Perhaps the two favorite selections were a piano solo, "Hungarian Rhapsodie Number Two," by Miss Reed, and the entire trio in "Let Us Have Peace."

The concert of Friday night certainly seemed like old times, and was a good beginning for the program of similar affairs which has been arranged. The next Social Union entertainment will be Saturday, Jan. 8.

LIBRARY SUBSCRIBES TO COLLEGE SERVICE BUREAU

The Library has recently subscribed to the special college service supplied by the Babson Statistical Organization Inc. of Wellesley Hills. This service secured by the Library in the way will consist of one copy of *Babson's Business Barometer*, *The Monthly Desk Sheet*, *The Weekly Barometer Letter*, and *The Mercantile Bulletin*, to be currently received and kept on file at the Library.

This material should be of great interest to the teachers and students in Agricultural Economics and practically all of the people who are interested in market conditions.

(Continued from page 1)

a demonstration of commercial fruit packing both in boxes and barrels.

There will be an eight page program published for the show which will be distributed free at the door. This program will give details of the show and a list of the premiums.

While scrimmaging in basketball practice Saturday, A. W. Smith '22, broke an artery in his nose. The services of a physician were necessary, before the flow of blood could be stopped.

NOT MERE FACTS BUT THEIR SIGNIFICANCE

Dr. Samuel A. Eliot Warns Against
Materialistic Tendencies in a
Technical College.

The speaker in Sunday chapel last week was Dr. Samuel A. Eliot, American Unitarian Association, Boston. He chose as his text, "Behold the day of the Lord that is wisdom, and depart from evil that is understanding." He emphasized the advantage of understanding in our relation to the world. The big disadvantage of education is that men so often forget the spiritual for the material and allow scientific explanations for the romantic things in life to become cut and dried, as chemistry, physics or a combination of sciences. If one can get away from this idea, however, and admire the pure natural beauty of things, at the same time using scientific knowledge in seeking for deeper significance or further reasons for the phenomena, he has attained things worth while. This attitude makes visible deeper beauty which otherwise cannot be seen. By such an attitude sight is changed to insight, and the spiritual power which is as great as science takes its true place in the relations of life.

The charm of wonder is looking at the big things of life makes us stop to analyze them. Such an attitude leads toward advancement, but the loss of this charm makes us dulled to the solution of great problems.

Saturday Dec. 6 the Phi Sigma Kappa fraternity held a dance at their house on Pleasant street. About 15 couples attended. The chaperons were Mrs. Howes of Smith College, Mrs. Dixon of Mt. Holyoke and Mrs. Hicks from Amherst.

CAMPUS NOTES

W. L. Baetle '23 who entered with the class this fall has left college and is now living on Wabash Ave., Chicago, Ill.

Special instruction is being given by the entomology department in the form of seminars to those men who are to take the civil service examination in April.

The class of 1921 met Wednesday evening for the purpose of discussing Index affairs. Such matters as the dedication, scheme of contents, etc., were voted upon.

The Library has recently subscribed to the special College Service of the Babson Statistical Organization, Inc. of Wellesley Hills. The service consisted by the Library in this way will consist of one copy of *Babson's Business Barometers*, the *Monthly Desk Sheet*, the *Weekly Barometer Letter*, the *Mercantile Bulletin*, and the *Commodity Bulletin*, all to be currently received and kept on file at the Library. This material should be of great interest to the teachers and students in agricultural economics and practically all of our people are interested in market conditions.

The College Library endeavors to serve the teachers and students engaged in regular college work, the investigators connected with the Experiment Station, the research workers of the Graduate School, and the people connected with the Extension Service. In addition, and not less important, are those of our people engaged in purely administrative, clerical, and industrial lines of work on this campus. We have books and magazines which should be of help and interest to office workers, carpenters, electricians, and many other men and women working here. All of it is available for use in the Library or at home and a cordial invitation is sent out to everyone connected with the College to come in or telephone and see what it can do for them.

1921 Index Coming
The 1921 Index board is laboring industriously in an effort to produce a publication that will compare favorably with those of the pre-war period and one which will be worthy of the fifteenth anniversary class. From beginning to end the watchword will be quality and not quantity. The length of the book will be a medium between the 1920 and 1918 (books) or approximately 250 pages. It will appear the latter part of February or the first part of March.

In addition to the usual line of subjects, there will be several new features presented including a complete history of the college compiled by one of Aggie's oldest and best known Alumni with several original photographs to accompany it, and many items of interest that have to do with the Pioneer Class of '71.

Menorah Society
Dr. Goldstein, of the Free Synagogue of New York City, spoke to the Menorah Society, at 11 A. M., Sunday, November 30, in the Entomology Building Library. Dr. Goldstein discussed the

Post Office. Accepted for mailing at special
rate of postage provided for in section 1103, Act
of October, 1917 authorized August 20, 1918.

The Honor System.

Any measure which is to be truly
effective must have its weapon of en-
forcement. The honor system is no ex-
ception to the rule. Public opinion is
the force that holds the wavering. In-
dividuals to the execution of the pledge.
Without public opinion the system is a
farce and admits opportunities for an
even greater measure of dishonesty
than exists without it.

It is quite evident that on this campus
there is not that sentiment against
cribbing necessary to prevent some men
from using unfair means to pass exam-
inations. Nor can such a sentiment be
created by merely mentioning it. It
must be born whole out of some ruth-
less experience, or it must grow from
infancy through the slow growth of a
reform program.

It is not at all to the credit of Aggie
that M. A. C. students do not feel the
sense of honor sufficiently strong to
make the honor system a success.
There have so far appeared no cham-
pions for it with a plan of student en-
forcement similar to those worked in
other colleges. We who pride ourselves
on the spirit with which the student
body supports its athletic teams, and
on the success of these teams against
rivals, have a score against us that is
no credit.

If we are to have an honor system we
must institute measures of responsibil-
ity to enforce it. If no men care to
stand out for the moral unity of M. A.
C. then no further disgrace should be
added by letting an unworkable plan
remain in practice. J. A. C.

COMMUNICATION

NON-ATHLETIC MEDALS

The purpose of this editorial is to
bring to the attention of the student
body and of the members of the faculty
who supervise non-athletics the fact
that conditions governing the distribu-
tion, and in fact the very size and ap-
pearance of the non-athletic medals
are unsatisfactory to the men concerned.
Of course, those who earn the medals
would like to receive them in a short

The first payment of Memorial
Building Pledges is due January 1.

These payments may be made
at registration at the Treasurer's
Office.

Prompt payment will do three
things:

It will increase the fund by saving
interest payments on borrowed
money.

It will enable the Committee to
meet contractor's bills promptly.

It will continue the Aggie spirit
that has meant success from
the start.

time after they are due, but everyone
is ready to sympathize with an organiza-
tion which has no funds. However,
that is not where the main difficulty
lies, for sufficient funds for a large
number of medals can easily be collected
by a small contribution from every man
at an Assembly. There should be no
objection to this method, since a student
tax was self-imposed for the purpose of
giving sweaters to varsity athletes, and
the non-athletic workers surely deserve
some token of appreciation for their
work almost as much as the varsity
man deserves his sweater.

The fact that the men must wait a
long time for the medals is of minor
importance, however, for they must
come eventually. The real objection is
that the medal as it is today is a large,
heavy, and not very decorative affair.
It may be taken for granted that the
varsity athlete is proud of his "M" and
is not at all averse to displaying it,
which is as it should be. It may also
be taken for granted that the non-ath-
letic worker is proud of his medal and
would like to display it, but since it is
made in the form of a watch fob, and
since the majority of college men wear
their watches on Waldemar chains in
their vest pockets, the medal is left at
home.

These are the facts in the case. May
it be respectfully suggested that they
may be remedied by making prompt
awards when the medals are earned,
and by changing the size of the medal
to that of a cent or a five cent piece in
order that it may be worn on the watch
chain. It really seems that these con-
siderations are no more than the men
to non-athletics deserve, and it is cer-
tain that the majority of them are
heartily in favor of the proposed
change. It is hoped that the proper
authorities will take prompt action.
E. B. L.

HOCKEY PRACTISE STARTS

WITH STIFF TRAINING

Candidates for this year's hockey
team were called out last Wednesday in
Assembly, 25 reporting. "Sonny" Man-
sell is coaching and has already started
the men off with hard work-outs in the
form of cross country running. A
training table has been started at Dra-
per Hall, and the men are to be required
to keep strict training. A good team
is expected, and an excellent schedule
is being worked out. The schedule
will be published the first of next term,
just previous to the time of the first
game.

J. S. Bennett, ex-'21 spent the week-
end on the campus. He is engaged in
constructive engineering work at Meri-
den, Conn.

DE LAVAL
Economy

The truly economical cream separator is
one which skims clean the greatest amount
of milk for the longest period of time.

The fact that the De Laval skims clean
makes a De Laval an especially good invest-
ment in the fall when many cows are going
dry and clean separation of the strippings
is desired.

With ordinary care, a De Laval Cream
Separator lasts a lifetime, because its supe-
rior bowl construction permits of the bowl
being made smaller in size and run at lower
speed and with less exertion.

This durability, coupled with unequalled
clean skimming and honest capacity rating,
makes the De Laval the most economical
separator in the long run.

Due to large capacity, easy turning and
easy cleaning, the De Laval is also econom-
ical with the operator's time and effort.
More De Laval's in use than of all other
makes combined.

The local De Laval agent can further
explain the economy of the De Laval,
or an inquiry addressed to the nearest
De Laval office will bring a catalog and
complete information.

SHORTCOURSE NOTES

A new club is to make its appearance
on the campus in the form of the Col-
ony Club for the 1920 to year men.

A large number of plans for clubs,
councils, and other organizations con-
cerning the two-year men are in the
president's office awaiting his action.

The two-year basketball team is mak-
ing rapid headway under the direction
of Coach Emory Grayson. A squad of
35 men reported for practice shortly be-
fore Thanksgiving. Plans call for a
varsity team to play all outside games
with a second team to participate in the
interclass series. The schedule includes
Smith Aggie, Clark School, Williston
Academy, St. John's School, Williston
Academy, Worcester Polytech, Second,
and others. R. W. Kierner is mana-
ger.

A HIGHER IDEAL

There would be no advantage in de-
volving the most valuable years of one's
life to gain knowledge and experience,
if greater possibilities and achievements
were not forthcoming.

It is then proper to assume that be-
cause of his exceptional scientific train-
ing the agricultural college man is pro-
gressive, well advised in the most mod-
ern dairy practices and the methods
that are likely to make dairying the
most profitable.

You know that profitable dairy pro-
duction cannot succeed without cleanli-
ness, and you should also know that

is capable of maintaining a cleanliness
that is productive of the highest quality
dairy products, because it is used for
thorough and sanitary cleaning by all
Agricultural Colleges in the United
States and Canada.

AGRICULTURAL EDUCATION
OBTAINS STRONG ADDITION

W. T. Welles, Former Head of School
of Educational Agriculture in
Wisconsin, Joins Local Staff.

"W. T. Welles, for 12 years head of
the School of Educational Agriculture
at the River Falls, Wis., State Normal
School, comes to the Massachusetts
State College at Amherst as professor
in Agricultural Education. It was
largely the genius and masterfulness of
Mr. Welles that enabled J. W. Crabtree
to transform a girls' normal school into
a husky co-educational institution, riv-
alling many agricultural colleges, carry-
ing off all honors in many athletic
sports. The most unimpeachable demon-
stration of Mr. Welles' superb leader-
ship is the fact that in competition
with the agricultural departments of
the State University and other state
normal schools, River Falls has supplied
more than one-half the teachers of agri-
culture in Wisconsin. Massachusetts
is as wise in capturing Professor Welles
as Wisconsin is foolish in allowing him
to go. Penny wise and pound foolish
seems to be Wisconsin's policy regarding
her state normal schools' finances."
—Journal of Education.

"Of.—The secretary desires informa-
tion as to the address and present occu-
pation of W. F. Chace. In this connec-
tion the secretary states that he does
not quite deserve the complimentary
reference made in the COLLEGIAN of
Oct. 29. Since 1912 the class has paid
most of his expenses. If the other
classes had done as much for their sec-
retaries doubtless these officials would
show more "pep."

MUSICAL CLUBS

(continued from page 1.)

Worthley, '20, who was greatly missed
last year, is doing solo work this ses-
son. About 50 men are out at present,
and practically all of them will go to
Hadley. Thirty-five men will take the
Boston trip, and the names will be
posted later.

BEEF DEFEATS PORK! SO

AN. HUS. CLUB DECIDES

The Animal Husbandry Club held a
very successful meeting last Wednesday
evening which took the form of a de-
bate on the subject of "Beef versus
Pork." Mr. Green spoke on the beef side
of the argument, while Graft, Lockwood,
and Bentley supported pork. Harvey,
Littlefield, and Haslam were others who
spoke in favor of beef. Following the
debate there was a general discussion
of the subject by members of the club.
Prof. V. A. Rice then gave a short sum-
mary and criticism of the debate and
expressed his views on the subject.
When put to the vote of the club the
debate was decided in favor of beef by
a large majority.

Preceding the debate a short busi-
ness meeting was held. A. C. Williams
and E. H. Taylor were elected as dele-
gates to the proposed M. A. C. Chapter
of the World Agriculture Society.

FIRST APPRENTICE TEACHER BEGINS VOCATIONAL WORK

Plan of Cooperation Between Board of Education and the College.

The first apprentice teacher of vocational agriculture under the new plan of cooperation between the Massachusetts Board of Education and the Massachusetts Agricultural College entered service during the month of October.

In addition to the constant supervision of local men, the apprentice is frequently visited by Mr. W. S. Welles, professor in vocational agricultural teaching, whose work at the college is coordinated with apprentice supervision. The apprentice makes regular reports to the college during his absence and, on his return to the college, should obtain a much greater value from later work in educational and technical courses.

To be able to be absent from the college for a term the student needs to accumulate an excess of credits so as to present the required total for graduation. He should also present a well rounded group of courses in agriculture, pomology and similar subjects. For teaching vocational agriculture, a considerable amount of farm experience is desirable, but a somewhat smaller amount may be accepted in the case of men preparing to teach science or other correlated subjects which are also included in the curriculum of the vocational school.

A large demand for these vocational school teachers in other states has frequently drained the Massachusetts supply and this demand seems likely to continue. Instructors in Massachusetts receive from \$1500 to \$2600, and directors receive more, so the field compares well with other lines of work. The department of agricultural education at the college is carrying out a campaign to meet the demand with well trained men. There is a possibility that a Senior may get in line for this field of work for next year by planning carefully before the beginning of the winter term. Any Junior who has this field in mind should begin now to plan his schedule of studies to permit absence from college any one of the three terms in his Senior year.

Freshmen or Sophomores who contemplate entering the teaching field may profit by consulting the department of agricultural education early as to the proper direction of their college work.

HELIUM GAS TALK BY PROF. DOUGHTY OF AMHERST

At the Chemistry Club meeting held last Thursday in the Chemical Laboratory Dr. Doughty of Amherst College gave a very interesting talk on The Chemical Genealogy of the American War Balloon. He traced in detail the history of the use of helium in airships and ended with an account of the high importance played by the gas in the recent war.

The social committee has planned for several trips during the next term to surrounding industrial plants and the chemistry laboratories of our neighboring institutions. Further details will be given later.

The club voted to suspend action on the proposed World Agricultural Society until some definite stand had been taken by the more agriculturally inclined clubs on the campus.

The next meeting will be on Thursday, January 1, 1918.

BOTANY DEPARTMENT OBTAINS TWO NOTABLE COLLECTIONS

The Botany Department has recently added two notable collections to its equipment for advanced work students. From an English scientific company comes a set of forty microscopic slides of plant remains from the Coal Period. This collection comprises sections of silicified roots, stems, leaves, and seeds, and the remarkable state of preservation of all of them not only enables the student to get an idea of the structure of ancient plants, but also presents documentary evidence of the Theory of Evolution.

The second collection comprises

nearly two hundred and fifty lantern slides illustrative of plant anatomy. These are from the famous collection of negatives made by Dr. E. C. Jeffrey of Harvard University. Many of them are high power microphotography, and probably represent the finest set of negatives of the kind in the world.

'87 and '04. - Dr. Arthur W. Gilbert '04 has been appointed state commissioner of agriculture by Governor Coolidge, and Evan F. Richardson '87 is one of the advisory board of the new department of agriculture. The appointments were made under the recent consolidation scheme.

LONG VISTAS AND NATURAL FLORA BEST SAYS HARRISON

Landscape Club Meeting Very Entertaining With Instructive Talk.

The last landscape gardening meeting was held Tuesday evening, December 2, in French Hall library. Professor E. K. Harrison of this college gave an illustrated lecture on "Planting".

He spoke of the necessity of planting, and detailed the proper methods to use. He asserted that long vistas, made possible by avenues of shade trees, are among the best assets an estate can have. Natural flora should furnish the bulk of decoration, and exotic plants should be used only as curiosities. Mr. Harrison's lecture was illustrated by stereopticon slides.

The next meeting will be held on Tuesday, December 30. The speaker will be announced.

At the Horticultural show in French Hall, December 12, 13, 14, the Landscape Gardening Department will exhibit one hundred pictures which were recently shown by a civic improvement association in Philadelphia. Several specimens of student work will also be shown.

The Landscape Club has met twice in the last two weeks. At the first meeting Prof. Wang of the faculty gave an interesting stereopticon lecture on National Parks. This meeting was attended by a number of girls from Smith College, who were present at the invitation of the department.

Ex-14—Vincent S. Harriman, formerly of Salem, is now teaching in the high school at Passaic, N. J.

CAMPUS NOTES

Professors Cooper, Jones, and Beaumont will represent M. A. C. at the sectional meeting of the American Society of Agronomy to be held in Boston, December 12 and 13.

The agronomy department is developing rapidly its plans for a series of field demonstrations in the use of fertilizers to be held next April in conjunction with the college farm.

Mark Richardson, ex-20, was about the campus over the week-end. He has just completed his civil service work at Camp Devens and intends to return to M. A. C. next term.

Plans and money are at hand for the completion of a graduate agronomy laboratory to be situated in Stockbridge Hall. The funds for this purpose were set aside by the trustees of the college.

A rare opportunity was afforded the 1920 men of the two year course majoring in pomology to study the question of fruit storage in Springfield, recently, under the direction of Professors Drain and Cole. The plants of Henry L. Perkins, wholesaler, and the Eastern States Storage Co. were visited, where a broader knowledge of not only fruit storage possibilities but also vegetables, berries, meat, butter, lard, eggs, ferns, and furs were gained. The entire plants in both cases were readily shown the class, even to the engine rooms where the ammonia and ammonia brine systems were in operation. The companies were very obliging in answering all questions and the class voted a most interesting and instructive morning. The class was dismissed in time to meet the special train at the Union station.

ALUMNI NEWS

'04—"Cuddie" O'Hearn, captain of the '03 varsity football team, and coach of the 1906 season, was an interested spectator at the Tufts game.

'07—G. H. Chapman is to spend some time this winter in Porto Rico, studying certain tobacco problems. Dr. Chapman was the referee at the tug-of-war held between the Sophomores and Freshmen at the Tufts game.

'08—R. H. Verbeck, who is now director of the New York State School of Agriculture at Canton, N. Y., had quite a novel experience while in the employ of Uncle Sam. He writes: "I returned from France July 19; serving abroad eleven months. I was commissioned first lieutenant at the second Plattsburg Camp and was later transferred to the Aviation Corps. I was commanding officer of the 281st Aero Squadron, from July 1918 to January 1919, and then served as athletic officer at Colombey les Belles.

'09—L. G. Willis is located at the Experiment Station, Mayaguez, Porto Rico.

'12—G. Scott Fowler has recently been transferred from the position of assistant chemist at the Naval Proving Grounds, Indian Head, Md., to the position of assistant chemist at the Naval Torpedo Station at Newport, R. I.

'15—Roderick C. Hall of Worcester left Vancouver, B. C. Nov. 27, for an extensive journey through the far East, where he will visit Japan, China, and the Philippines. He intends to be there two or more years.

'17—S. D. Kelsey is at present in Marsovan, Turkey, where he is an agricultural instructor at the mission school there. He is also in industrial work, and has charge of the disbursement of funds for the aid of the refugees.

GLEE CLUB'S SHOWING CAUSE FOR COMMENT

Excellent Quality of Music Shown by All Three Musical Clubs at Hadley.

The Musical Clubs commenced their season's program last Friday night when they staged the annual Hadley concert in the Town Hall.

The hall was filled with an audience that fully appreciated the concert which proved that the clubs this year are going to be of a standard superior to that of the last few years. The Glee Club in particular showed the results of their fine training under Coach Bigelow.

The program was as follows:

1. Tri-State H. A. Lincoln
2. "Dear Old Massachusetts" F. D. Briggs "18
3. Popular Song Medley Glee Club
4. "Fiddle and I" Quartet
5. "Harmon N. Worthley '20" Arr. by Knipfer
6. "Swords out for Charles" Fred. F. Bullard
7. "Quartet" Glee Club
8. "Slumber Soft" F. Mohring
9. Popular Medley Glee Club
10. "Sons of Old Massachusetts" Knight '20

After the concert the college orchestra played dance music which was enjoyed by fifty couples until twelve o'clock. At that time a special car left for Amherst.

The following men are members of this year's Musical Clubs:

Harlan N. Worthley '20, Leader of Glee Club
Charles M. Boardman '20, Leader of Mandolin Club
William Luce '20, Leader of Orchestra

S. Horne '20, Manager of the

Howard '21, Assistant Man-

born, Meserve, Goodridge, own, Readie, Hurlburt, Hol-

ft, Goolwin, Dunbar, Cole,

Ball.

er, Caselo, Davidson, Doug-

aslam, Labrovitz, McNulty,

Newton, Sloan and Spencer.

1923—Cotton, Holman, Spring, Vinlon,

Warren and Waugh.

1923—Faneuf, Fuller, Sandow, Sears,

Slade, Wendell, A. Wilson and Towne.

The clubs leave for Boston December 19, at noon.

At the track meeting held recently it was decided that all men desiring to try out for the indoor team should apply for equipment Thursday or Friday, Dec. 18 or 19. The first practice will be immediately after the beginning of the winter term.

MEMORIAL BUILDING CONTRACT AWARDED

The Ernest F. Carlson Company to Start Construction as Soon as Working Conditions are Favorable—Pledges from \$1 to \$5000 Have Been Received—Committee Issues Appeal to Alumni Who Have not Pledged to Make an Already Successful Project a Real Memorial by Having Every Man Represented on the Roll of Givers.

It has been "put over."

At a meeting of the Memorial Building Committee, held at the Hotel Bellevue, Boston, Dec. 13, it was voted to award the contract for the Memorial Building to the Ernest F. Carlson Company of Springfield.

Mr. Carlson is the contractor who is at present working on the women's dormitory at M. A. C.

M. A. C. will probably be the first college in the country to actually construct a Memorial to her sons who died in the war. It has been this aim which has actuated the prompt and efficient work of the Memorial Building Committee throughout the past six months and they are to be commended in this achievement of their purpose.

Mr. Atherton Clark '17 chairman of the Memorial Building Committee, has announced that the American Trust Company of Boston, Mass., has made possible the immediate construction of the building.

In order to take advantage of the co-operation of this company and to use them with all possible fairness, it has been requested that pledges be paid promptly and that if, at any time, it becomes possible, advance payments be made to the Treasurer's Office at Amherst. These advance payments will represent more than their face value as they will save interest payments on loans secured by the Committee.

The class standings show that classes have considerably increased their percentages during the past two weeks but there is still a great deal to be desired in order to improve this record.

The classes of 1905, 1919, 1918 and 1885 have all reached the 100 percent mark.

FRELICK PRESIDENT OF RIFLE ASSOCIATION

Organization Gets Under Way. Practice Starts Next Term.

The rifle team met last Tuesday evening and held elections. Frellick '20 was elected captain and president; Lambert '21, secretary and Robinson '21, treasurer. There are about 25 men out for the team, and practice will start immediately after vacation. It is hoped that matches with individual colleges can be arranged to fit the men for the matches. If such matches can be arranged, they will be announced later.

GAME CANCELLED.

The basketball game with Connecticut Agricultural College, for January 3, has been cancelled.

VAUDEVILLE SHOW BRINGS OUT DRAMATIC TALENT

Act Entitled "Over the River" is Clever Satire on Those Socially Inclined.

The annual student vaudeville show on Saturday night in Bowker Auditorium under the auspices of the Rolater Dancers, advertised as being full of mystery, pep, and originality, lived up to expectations, and delighted a large audience made up largely of informal guests from Smith and Mt. Holyoke.

Twelve acts were put on, one by each fraternity and two by non-fraternity groups, in addition to the mysterious part of the program, which proved to be a skit by the coeds that made a big hit. All of the acts were original and in variety arranged from imitations of the "I'll slap your wrist" type, to caricatures of the "leathernecks" of the prize ring. Dark face actors are most in evidence no less than five sketches being black face acts.

"While the Clouds Roll by," a minstrel show by Lambda Chi Alpha, was a first class sketch with a first class chorus. Goodwin and Fuller as acrobats and jokesters, proved popular with the audience.

Walker and Babbitt in "Over the River," were true to life, the latter outflung very successfully as a demure Smith maiden.

The "Platz-Copier Hotel," with Bog bolt as clerk, Bunker and Jones as colored porters, and Hubbard as the transient guest, was a farce on high class hotel service with the addition of humor of local import and drew several big laughs.

7 7 7 7 proved to be the coed act, and was well received. It was a burlesque on Freshman pond parties, with Miss Chase as the candidate for baptism, and Miss Boles acting as her attendant in the capacity of nurse. "Tony and Cleo," Leavitt and "Jack" Smith, in "The Coils of the Temptress" proved to be the best act of the show. It was a burlesque on Anthony and Cleopatra, mixed with decidedly modern jokes and jazz, and was a scream all the way through. Lockwood and Collins as Egyptian slaves in this act are very good.

Raymond Swift in that "Melody Man" was especially good on the cornet and (Continued on page 51)

COLLEGIAN COMPETITION STARTS DECEMBER, 31.

Many Men Expect to Try Out For The Paper.

The competition for the COLLEGIAN Board will commence immediately after the Christmas vacation. The positions open are as follows: Editorial Department, one Sophomore; three Freshman. Business Department, one Sophomore; three Freshmen. Competitors should hand in their names on a slip of paper at the COLLEGIAN office. The rules for the competition and the basis for earning credits will be announced later.

A. L. Tower '14 is returning to college January 1, to take up advanced work in Agricultural Education. He will also teach certain classes in the two-year course.

LELAND POWERS NOTED HUMORIST COMINO

The second Social Union entertainment will be held Saturday evening, Jan. 3, in Stockbridge Hall. Leland Powers, the famous American humorist, will give readings. Mr. Powers has been here twice before, and is known to Aggie men as a very good entertainer. This entertainment will be one of the last numbers on this year's program.

HORTICULTURAL SHOW BEST IN SEVERAL YEARS

Pomology Club and Department Show
Quality of Work That M. A.
C. Stands For.

The Horticultural show held in French Hall closed Monday evening, after one of the most successful exhibits that the department ever had. The attendance was excellent all through the display in spite of the varying weather. The County Agents were given an opportunity to see the exhibit by special request on Monday afternoon.

There were four large exhibits that attracted a great deal of attention. Starting at the north end of the first floor of French Hall, there was the Floral Exhibit, the Landscape, the Art Exhibit, and the Pomological Exhibit. The Horticultural Exhibit was on the second floor. The display of the Pomological Department was featured by the artistically decorated tables prepared by the students. The center table was decorated for Christmas and others were decorated with roses and carnations. The roses were of particular interest because of the two new varieties just originated by the Hadley Rose Houses. They are the "Pilgrim" and the "Crusader" which resembles the famous Hadley rose but are yet quite distinctive. The carnation display showed the various kinds grown very effectively. There were only a few chrysanthemums left but the big silver cup won on the campus showed that the flowers had been of their usual high quality as this is the third consecutive year that the cup has come here.

The Landscape Gardening department showed a remarkable collection of photographs of Memorials as collected by the American Federation of Arts. They were of especial interest because of the agitation for wartime memorials that is going on now nearly everywhere.

The Pomological exhibit was primarily a plate exhibit. There were many varieties from many parts of the country. There were classes of competitive plates for student, faculty and growers. The following won prizes as listed:

Baldwin—1st, H. Whitcomb; 2nd, H. L. Harrington; 3rd, Allen Stiles.
Wolf River—Allen Stiles.
McIntosh—1st, G. B. Woodward; 2nd, A. Stiles.

Faculty
Baldwin—1st, C. R. Green; S. R. Parker
R. I. Greening—1st, C. R. Green; 2nd, M. Gaskill
Winter Banana—C. R. Green
Roxbury—1st, M. Gaskill; 2nd, C. S. Green
Westfield—M. Gaskill
Swar—W. R. Hart
Blue Pearmain—M. Gaskill

Growers
Baldwin—1. Blee Farm Brattleboro, Vt.
2. A. L. Fish, Colrain.
3. Valley View Farm, Shelburne.
Winter Bananas—C. L. Witherell, Middlebury, Vt.

Delicious—C. L. Witherell, Middlebury, Vt.

Greening—A. P. Smith, Stow.
Wagener—E. E. Adams, Millis.
Stark—E. E. Adams, Millis.
Opalescent—E. F. Richardson, Millis.
Spy—Walnut—Knoll Farm, Reading.
McIntosh—A. P. Smith, Stow.

The department exhibit consisted of varieties divided up according to their adaptation. Also there were plates from Washington, Wisconsin, Kansas, Iowa, New York, etc., showing the development of certain apples in the various districts all over the country. A striking example was the Ben Davis which is so disliked around here, and yet to see this apple as it is grown in Washington convinces us that the variety is not so bad but merely out of place in Massachusetts.

The Horticultural Manufactures Exhibit was on the second floor and the room was full of wonderful examples of modern cookery as taught from the manufacturers viewpoint. The jelly contest was of much interest. The prizes being awarded to C. B. Fuller, W. A. Luce and P. C. Whittle respectively. There were fruit, butters, preserves and many canned products, showing the practical and economical use of orchard by-products. In this room was an exhibition by the department showing some model equipment and fruit and product analyses. Also in the other end of the room was a display of package fruit illustrating the method of packing the various containers.

One of the minor displays, but none the less important, was the exhibition of equipment. There were the pruning and spraying tools with orchard picking necessities. In the center was an agricultural display set up by Charles Doucette, which included the equipment of a modern bee hive with old models as a background. The extension service showed three sets of their extension libraries as they send them out to all the libraries that request them. Here also were the disease and insect exhibits as displayed by the botany and entomology departments. Howard '20 made a very good exhibit of orchard pests, using real specimens as a foundation.

One of the attractions was the "Attract-o-scope," an automatic machine for showing slides. This machine was placed directly in the center of the room containing the plate exhibits facing the hall. Slides were shown from the various departments exhibiting.

Stowe '20 gave an instructive packing demonstration on Saturday afternoon. The success of the show was primarily due to the way in which the students backed the committee. This committee was appointed by the Pomology Club. The committee consisted of G. B. Woodward, chairman, C. C. Crowe, W. A. Luce, H. S. Reid, and R. W. Burrington. There were sub-committees appointed to take charge of the smaller branches of the work.

SENATE NOTES

At the Senate Meeting last Tuesday in Draper Hall several topics were discussed with President Butterfield and Dean Lewis. Robertson's report of the money collected for the band was read and a lengthy discussion on saluting followed. A report of the Athletic department was next presented and it was voted: That the matter of souvenir footballs for M men be taken up with the student body and if possible a tax of twenty-five cents be collected.

FULLER ELECTED MANAGER OF FOOTBALL FOR 1920

Vote in Assembly Gives Him Much Bought Position.

Lucius Fuller, of Lowell, has been elected manager of the football team for the coming year. Fuller entered college with the class of 1920 from the Haverhill High School. He played center on the 1920 freshmen team. He was elected class leader in his sophomore year. From the S. A. T. C. unit at this college, he was sent to the Central Officers Training Camp at Camp Lee, Va., in the second group. He did not return to college last year but came back this fall with the class of 1921.

CONFERENCE OF COUNTY AGENTS HERE THIS WEEK

The Problems of Extension Service
Workers Being Discussed by
Authorities.

The seventh annual conference for the consideration of problems confronting county agents and other extension workers is now being held in Stockbridge Hall. It began Monday, Dec. 15, and will end Friday, Dec. 19. Among the subjects already discussed are: The Farm Home Survey, Club Work, Home Demonstration Work, Agricultural Work. Some of the speakers were: John D. Willard, Director of Extension, M. A. C.; A. J. Brundage, State Club Leader; Ralph Ross, City Director of Americanization Work at Springfield; and E. H. Thompson, President of the Springfield Farm Loan Bank. The program for the remainder of the week follows:

WEDNESDAY, DEC. 17.

1:30 p. m.—Section meetings.

A. Club Work. (Joint conference of Club Workers and Farm Bureau Managers.)

Leaders, A. F. Macbougall, B. H. Gaskill.

B. Home Demonstration Work.

Recent Progress in Nutrition.

Leader, Miss Lucy Gillett.

C. Agricultural Work.

Reports of Project Committees.

Discussion.

1. Live Stock.

2. Poultry.

3. Pomology.

4. Soils and Crops.

7:30 p. m.—Section Meetings.

A. Club Work.

Some Good Features of Club Work in My Country.

P. E. Alger, Miss Beniah Hazard, E. A. Howard, Miss Dorothy Stockin, Miss Eunice Homer.

B. Home Demonstration Work.

Recent Work in Milk Manufacture.

Prof. W. P. R. Lockwood, M. A. C.

C. Agricultural Work.

Reports of Project Committees.

Discussion.

1. Dairying.

2. Gardening.

3. Farm Management.

4. Marketing.

7:30 p. m.—Recreation.

THURSDAY, DEC. 18.

9:00 a. m.—General Session.

Relation of State Grange to Agriculture.

Leslie R. Smith, Hadley, Mass.

Third Campaign for 1920.

Mr. Benjamin Andrews, Savings Division, Washington, D. C.

9:30 a. m.—Section Meetings.

A. Club Work.

Elimination or Expansion—Either, Neither or Both.

Selections of County and State Champions.

State Letters.

County Letters.

The next issue of the COLLEGIAN will be published Jan. 7.

The Des Moines Convention.

There has never been a time when a gathering of students from all the American colleges and universities for the discussion of present world problems could be more valuable than now. The need has never been greater for educated and intelligent men to get a clear understanding of the serious problems the world is facing and of the methods being advanced to solve them and bring about a closer relation between nations.

This college is sending a delegation of nine representatives to the eighth convention of the Student Volunteer Movement to be held at Des Moines, Iowa from Dec. 31 to Jan. 4.

Many of the foremost leaders of this country, and from other countries as well, will present their views on religious, social, and economic problems, and the scope and influence of the foreign missionary movement will be described. These problems will be subsequently discussed by small groups of students and in this way a wonderful opportunity will be given to get the opinions of men from various parts of the country and to hear the standpoints from which these problems are viewed by people of foreign lands. People are beginning to realize that one of the greatest needs of the present day is a stronger and more practical Christianity in the business as well as in the social world.

The Des Moines convention, which is held every four years, will be the largest ever held with between 6000 and 8000 delegates. It should mean a great deal to the college and to the delegates who have been elected to represent M. A. C., because it is bound to broaden their views on social and religious problems, strengthen their convictions, and widen their vision of Christianity. The intercourse with students of other colleges, also, will surely give them many valuable and constructive ideas for the betterment of conditions on the campus.

COMMUNICATIONS

PROFESSOR HAROLD E. ROBBINS:

When the college opens for Winter term we will not have with us one of our best professors, Professor H. E. Robbins. Professor Robbins is leaving for good to go into business, due to the high cost of living coupled with the low pay of teachers.

Professor Robbins is a graduate of both Trinity and Yale colleges. He is entitled to put both BS and MA after his name. He first taught in the University of Colorado in the department of Physics and Mechanics. From there he went to Hartford High School as head of the Science Department. In 1913 he came to M. A. C. as Assistant Professor of Physics. In the six years that he has been here he has built up the department of Physics so that it now offers courses comparable to the major courses.

His best work while here was the building up of the Non-Athletics Association. He gathered together all the various non-athletic activities under one head, and placed them on a firm financial and constitutional basis.

Professor Robbins represents the high idealized, red-blooded sort of teacher that we need at M. A. C. He was a friend and advisor of the student at all times. We all wish him success.

R. R. BROWN.

228 West 72nd Street,

NEW YORK CITY, NOV. 12th, 1919.

TO THE NON-GRADUATE ALUMNI OF THE MASSACHUSETTS AGRICULTURAL COLLEGE:

Up to a few years ago, you received annually notices of the reunions of the New York Alumni Club, such being mailed to every address we could obtain; responses came to us from far and near, yes distant lands, and couched in terms of abiding love for our Alma Mater. The largely increased mailing list caused this practice (the expense of which was met by the voluntary support of a few men) to be discontinued, and to our regret.

You without degrees, represent a large percentage of Massachusetts Aggies, whose work has been and is of high import. Frederick A. Ober of the Class of 1872, walked home to eastern Massachusetts, in June 1890—only one year at our Alma Mater was his privilege, for reverses had come and it was necessary to get to work, which he did at first as a shoemaker. Ober died a few years ago; he was a pioneer in exploration, natural history (especially ornithology). A truly great man. Daniel Willard entered the Class of 1882, in October 1878; he left college the following March to go himself to work, as trackman on the Central Vermont; his record as a transportation man is one of the successful romances of American endeavor, and for over ten years he has been president of the Baltimore and Ohio Railroad. Both of these men I have known intimately and I am fully aware of what the college meant to them and does to Willard. (I never forgot the big men on the Faculty and neither does Willard.)

Today we Alumni, whether degreed or not, have before us the responsibility of raising the funds for a building, a Memorial to our boys lost "Over There." No American college has a larger percentage of men sacrificed than ours and it is questionable whether any has as large. Indeed Robert H. Chapon, Class of 1914, was killed in action at Verdun, December, 1914, and lies in an

unknown grave; this lad may have been the first American collegian to die. Words are not necessary to emphasize the need of this honor to our glorious dead, now immortal. Further, this building will fill a general college function, which is imperative. We must remember that our highly endowed institutions, Harvard, Yale, Williams are yearly collecting from their Alumni for support and maintenance. We, educated by state and federal maintenance, have now our duty before us. The shades of Chadbourne and Clark and Goessmann and Goodell and Stockbridge and Tutten and Morris and "Daddy" Mills, we do not forget; and do they forget us? Some of you, my brethren, are on the down slope of life; the beautiful hopes of our youth have been found in many cases to have been illusions—yet life with its disappointments and troubles has been made richer for us by what we received in the old Hampshire County town. From those who have been more fortunate financially, more must be expected than from those less blessed.

October 25th was the world-wide Aggie night; we had but thirty-eight at our gathering, for many were in attendance in their own localities; despite subscriptions already sent in, over eleven thousand dollars was pledged. Further, it was developed that men may take time as to payments covering three to five years. One subscription by a non-graduate, (his time in college a year and half) was to the amount of five hundred dollars and he gratefully testified that his present interest had been kept alive by the notices he and you have received.

Forty-nine of our boys are dead; forty-nine immortal stars in the firmament of glory; forty-eight Americans representing indirectly our forty-eight states and the forty-ninth, the young

Frenchman, representing France, our incomparable friend of Revolutionary days.

I know and am assured that you have given or will give this matter your most serious attention and in due time communicate with the authorities of Amherst what you propose to do in remembrance of the holy dead, and for the daily good of generations to come at the College.

Most fraternally in Massachusetts Aggie,
JOHN ASHCROFT CUTLER, M. D., '82.*

HOCKEY SQUAD BEGINS TO SHOW FORM. PROSPECTS GOOD

Road Work Necessary to Condition Men. Little Ice So Far.

A squad of about 25 men has reported for varsity hockey and been working out for past two weeks. On account of the unsettled weather they have had only two nights on the pond. Road work and chalk talks to the evening has been the order. E. J. Mansell '21 is acting as coach of the team.

Competition is keen for all positions but especially so for the goal tender's job. Among the forward men McCarthy and Leavitt, stars of last season, are showing up especially well, and with Mansell should make a strong offensive combination. Dowd also looks like a valuable man. For the defense position, are Captain Crafts, Delehunt Glavin, Newell, Poole, Allen and Collins are among the most promising.

At the present time prospects for a good team are very bright, and provided we have the ice everything points to a successful season.

Robert Starkey has been elected manager of the 1921 Basketball Team.

DE LAVAL Economy

The truly economical cream separator is one which skims clean the greatest amount of milk for the longest period of time.

The fact that the De Laval skims clean makes a De Laval an especially good investment in the fall when many cows are going dry and clean separation of the milkings is desired.

With ordinary care, a De Laval Cream Separator lasts a lifetime, because its superior bowl construction permits of the bowl being made smaller in size and run at lower speed and with less exertion.

This durability, coupled with unequalled clean skimming and honest capacity rating, makes the De Laval the most economical separator in the long run.

Due to large capacity, easy turning and easy cleaning, the De Laval is also economical with the operator's time and effort.

More De Laval in use than of all other makes combined.

The local De Laval agent can further explain the economy of the De Laval, or an inquiry addressed to the nearest De Laval office will bring a catalog and complete information.

EIGHTEEN MONTHS IS UP
DECEMBER 31, 1919

Last Date for Reinstatement of Men Discharged a Year and a Half Ago.

The COLLEGIAN prints the following notice at the request of the War Risk Insurance Bureau:

Discharged soldiers, sailors and marines who have dropped their War Risk Insurance may reinstate it without paying all the lapsed premiums, providing that they make application within 18 months after discharge from the service. It will only be necessary to pay pre-

miums for two months and sign a statement to the effect that the applicant is in as good health as he was at the date of his discharge. No physical examination is required. In case a man was discharged over 18 months ago he can be reinstated if he will make application before Dec. 31, 1919. It will not be necessary to reinstate for the full \$10,000. A person may reinstate \$1000 or more.

Provision has also been made to permit persons to convert their war insurance to other kinds of government insurance such as ordinary Life, Twenty Year Endowment. The Government is to remain in the insurance business for the benefit of those who served in the war.

Every discharged soldier or his dependents should be interested in the

above matter and immediately write to or call on the "Department Insurance Officer, Room 717, 99 Chancery Street, Boston, Mass." All information will be furnished and assistance given at that office or through the mail.

Personal attention will also be given to any matter concerning the service such as Liberty Bonds, Compensation, back pay due, personal effects and the return of bodies of deceased soldiers, etc.

Prof. W. R. Hart, of the Department of Agricultural Education was in Boston Saturday attending a meeting of the Massachusetts Schoolmaster's Club. The topics discussed were, "The College Trained Teacher" and "Cooperation of the Schools of the State."

COLLEGE VAUDEVILLE

(Continued from page 1)

and was given prolonged applause, to which he replied with an encore number that proved just as big a hit.

Excellent music was furnished by the College Orchestra. The program:

A HIGHER IDEAL

There would be no advantage in de-
noting the most valuable years of one's
life to gain knowledge and experience,
if greater possibilities and achievements
were not forthcoming.

It is then proper to assume that because of his exceptional scientific training the agricultural college man is progressive, well advised in the most modern dairy practices and the methods that are likely to make dairying the most profitable.

You know that profitable dairy production cannot succeed without cleanliness, and you should also know that

is capable of maintaining a cleanliness that is productive of the highest quality dairy products, because it is used for thorough and sanitary cleaning by all Agricultural Colleges in the United States and Canada.

Shown in circle

Ask your supply man to fill your order. It cleans clean.

The J. H. Ford Co., Sole Mfrs., Wyandotte, Mich.

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

WORLD'S LARGEST PIPE MANUFACTURERS

FAULTY FUSES ADD TO MERRIMENT OF INFORMAL

Candle Lights Give Aspect of Old Fashioned Dance.

"Lights, lights, where are the lights?" Such was the general cry that silently, oh so silently, ascended from the informants at the Drill Hall. The cause was a wilted fuse in the primary block, just back of the transformer on the main line. After a period of frenzied searching for the faulty connection or some other equally important article, the brains of the college met in conference. Candles were suggested. Presto! Change! The old Drill Hall emerged from its obscurity, but with a decided change for the better. The usual harsh, white light of the high-power mazdas was missing, and in its place was the softer half-revealing glow of innumerable small flames wavering at regular intervals along the radiator ledge. But as the conventions must be respected, a hard-working electrician was hurriedly transported to the scene of action. He soon had everyone in good humor and the real lights blazed forth.

All of which means this. Last Saturday afternoon seventy odd couples indulged in the third informal of the year, but under difficulties. For a period of many minutes the lights consistently refused to function. When the services of an electrician were finally obtained the matter was easily adjusted.

The music was excellent, considering the absence of illumination. The personnel of the orchestra included: Boyce, Sargent, Hanson, Dunbar and Adams.

The chaperons from Smith, Miss Putnam and Miss Kingsley; from Mt. Holyoke, Mrs. Cameron; from M. A. C., Mrs. Hicks.

Because of the combination of the informal with the student show, dancing was continuous from three to seven, with a short intermission. Supper was served at the dining hall at seven. The student vanderbilt completed the program.

RELIGION GAINING NEW ASPECT SAYS REV. DAY

Bridgeport Clergyman Gives Theological Version of Gospels.

Rev. William H. Day of Bridgeport, Conn., was the speaker in chapel last Sunday. He spoke of the work and the times of the apostles, and how Christianity got its start without the aid of riches or government backing.

It was deep enough to resist all these adverse circumstances, and to arise as a direct result of the resentment of the crucifixion of Christ. We now need religion in every branch of our life, and especially in business. Religion now has come to mean something different; it is a spirit or a belief in an ideal which impels people to doing things that are nobler and higher.

CAMPUS NOTES

The Social Union will present Leland Bower, humorist, at Stockbridge Hall, 8:00 p. m., Saturday, Jan. 3.

On the Wednesday night following the opening of college the Musical Clubs will give a concert at the Amherst Town Hall.

The second issue of *The Squib* appeared on the campus Saturday, December 12. This number was labeled the "Advertising Number."

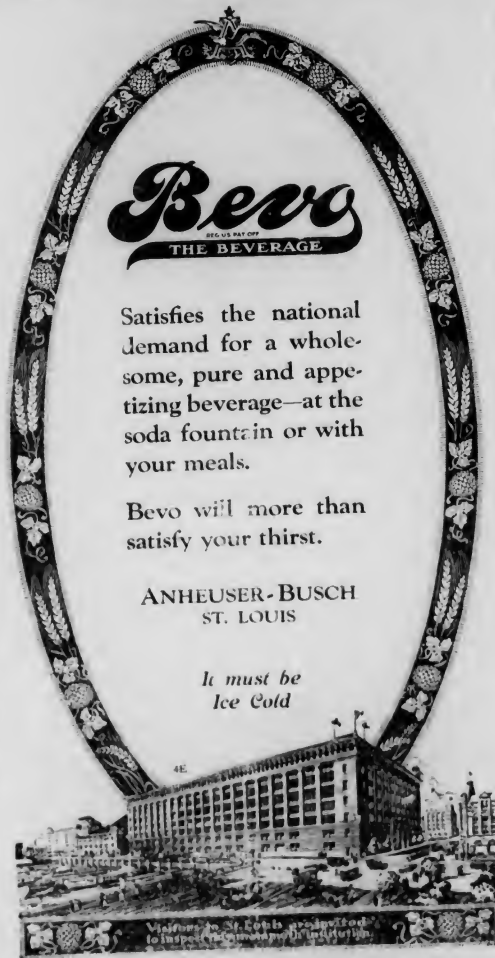

Catholic Club Meeting.

The Catholic Club held a meeting last Wednesday evening. P. H. Wemisch, who represented the club at the recent convention in Boston, reported. A plan for a joint meeting with the Newman club of Smith College was discussed. The club is also making plans for the Collegiate Catholic convention, which is to be held next February and March.

1923 Favors Honor System.

The Freshmen class held a meeting last Friday evening in the Social Union. R. B. Smith was elected manager of the Freshmen basketball team and Norman D. Hillyard manager of the inter-class 1923 team. There was a long discussion of the honor system with the sentiment of the class in favor of adopting it, but at the request of Hena Patterson voting on the matter was put off until a future meeting.

The Department of Zoology will present a course in genetics next term which will be an addition to the present curriculum. This course is given in response to a demand of instructors in other departments that students coming up to them have a knowledge of such a subject. It will be a three-credit course open to Juniors and Seniors and to Sophomores by permission. It is assumed to be a prerequisite to a major in Animal Husbandry.

**MUSICAL CLUB
PRAISED**
Each of Four Clubs
as New Y. C. Library
me M. A. C. Library

Commencing on December nineteenth the college musical clubs went on their annual trip to the Eastern part of the state. From every standpoint, financial, musical, and social, the trip was a success.

The clubs left Amherst at noon December 19 and went to Newtonville. On Friday night in the Newton High School Hall a concert was given to a large and appreciative audience. After the concert a dance was held in the High School Gymnasium until twelve o'clock. The headquarters of the clubs was the United States Hotel in Boston.

Saturday night a concert was given at the Copley Plaza in Boston. The concert was enjoyed by a number of Alumni who are always anxious to hear the clubs in town. After the concert a number of people at the hotel remarked as to the superior work of the M. A. C. clubs in comparison with the other clubs that have performed in Boston this year. A dance was then held until eleven-thirty in the Swiss Room. The dining hall was open to those who wished refreshments.

Sunday, the men visited friends and relatives near the city and on Monday noon they left Boston for Derry, New Hampshire. A number of people in the town showed a fine spirit of appreciation in housing the men over night, so that by supper time everyone was comfortably installed in homes about town. The concert that evening was followed by a pleasant surprise to the members of the clubs, for the Women's Club of Derry brought tables and dainties onto the stage, so that in no time a tempting lunch was set before the men. The dance that night lasted until midnight.

At Newburyport on the following night the same willingness to accommodate the men was shown. The housing was under the direction of Waugh Little. The concert was undoubtedly the best of the trip and was followed by dancing until one o'clock.

The men separated the day before Christmas and returned to their respective homes. The manager and leaders are well satisfied with the showing made by the clubs. The Glee Club in particular was repeatedly encouraged. The orchestra was in fine shape and provided excellent dance music after the concert. Much credit is due Harlan Worthley '20 for his excellent solo work.

A new years concert was given in Amherst last Wednesday which brought out a large crowd of townspeople and college men. The next concert will be in Holyoke.

15.—E. F. Clark is superintendent of the Mount Fair Farm, Middlebury, Conn.

ANNUAL ALUMNI DAY JANUARY 23-24
MAKE YOUR PLANS TO BE ON THE CAMPUS
As Many Men Back as Possible Necessary for a Real Rousing Time.

PROGRAM FOR ALUMNI DAY

January, 23d-24th.

Friday, January 23d.

During class hours—Alumni talks in departments

6:00—8:30 p. m.—M. A. C. Dinner—Draper Hall (Faculty, Students, and Alumni)

8:30 p. m.—Freshmen vs. Deerfield Academy, Basketball Game—Drill Hall.

Saturday, January 24th.

9:30 a. m.—Alumni Round Table, Room 114, Stockbridge Hall. (President, E. F. Richardson presiding)

2:00 p. m.—M. A. C. vs. Boston College Hockey Game. Campus.

3:00 p. m.—M. A. C. vs. Tufts Basketball Game. Drill Hall.

5:00—6:00 p. m.—Musical Clubs concert—Auditorium, Stockbridge Hall.

8:00 p. m.—Fraternity banquets.

Upon registration at the Alumni Office, No. 2 South College (First Entry) tickets will be issued to Alumni that will admit to the dinner in Draper Hall, the Freshman Basketball game, the Tufts Basketball game, and the Musical Clubs concert.

"Come back and see your College at work and enjoy a week-end of interesting events."

This is the invitation sent by the Student Body to the Alumni of the College, and it is expected that an unusually large number of M. A. C. men will avail themselves of this opportunity to visit the campus and renew old acquaintances.

After all the alumni is closer to the student body than many undergraduates realize and not only what is done on the campus in the way of student activities and athletics, but what is taught there, is of vital interest to the alumnus. It is with an idea of giving alumni an opportunity to see and hear what is going on in the various courses, and further, to let the undergraduates know what those very courses meant to the after-diploma life of a college man, that Friday's program has been arranged.

Department heads are now busy completing arrangements with alumni who have been invited to talk informally to classes. These talks are not to be lectures nor endorsements of the various courses, but rather in the nature of tips as to how the game is played and some of the things that have been found most advantageous in its preparation.

Tufts is to be played in basketball, and the game with the Medfordites is bound to be a live one. This event as well as a varsity hockey game with Boston College on the college pond is on the program for Saturday afternoon.

These two games are to be followed by a musical club concert in the Auditorium.

Fraternity banquets are scheduled for eight o'clock Saturday night and the arrangements for these different gatherings are now being completed.

The committee in charge of the arrangements and program are Prof. Hicks, Mr. Rand, Mr. Watts, A. W. Spaulding '27 assistant alumni secretary, Gordon Crafts, '20, president of the Senate, and George Campbell '20, president of the Interfraternity Conference.

**HOCKEY TEAM MEETS AM-
HERST THIS SATURDAY**

Little Known of Real Strength of
Two Teams. Prospects Good.

The M. A. C. hockey team meets Amherst next Saturday, January 10, on Pratt Rink. This is the first game of an eleven game schedule with some of the fastest teams in the East. A

(Continued on page 6)

**CONN. AGGIE BASKETBALL
TEAM TO PLAY HERE**

First Game of Season Promises to
be a Fast One.

The M. A. C. basketball team of 1920, a team built up largely from experienced material and now fast rounding into shape as a smooth working quintet, will play its first game of the season, this week, taking on Connecticut Aggie on Wednesday night. It will stack up against Rhode Island State on Saturday night. Both are old basketball rivals who in former appearances here have forced Aggie to the limit to win, and this year is likely to prove no exception.

The "Nutmeg State" aggregation is fast this season, with Lockwood, twice captain of the team and the only veteran, playing at right forward; Grunwald, captain, at center; and a pair of hard fighting backs in Putnam and Prescott. Sickler, former captain of Hartford High, and Lord of Loomis Institute, second string backs along with Alexander, a fast forward, are but little inferior to the regulars and will undoubtedly get into the game here.

Wesleyan defeated Connecticut recently 44-30 in a hard, fast game, featured by the shooting of Lockwood. He caged six baskets from the floor.

Little is known of the Rhode Island State five which opposes Aggie on Saturday night. Brown defeated the Kingston lads 33-21, though the latter put up a strong game and forced Brown to extend itself to win. The team is new with the exception of Capt. Malloy, a veteran of three seasons. He is a fast clever player on the offensive, and the individual star of the team. Against Brown his work was conspicuous.

The Maroon and White lineup for these two games is somewhat uncertain. Captain Grayson will play one of the guard positions, while Pond and A. W. Smith seem likely to start at the forward berths. Though both of these games are with opponents of more or less unknown strength, owing to the fact that neither have played more than one or two games, the Aggie quintet has been travelling fast in practice, and should be off with a good start in each contest.

**TRACK TEAM BEGIN-
NING TO ROUND OUT**

Old Material Forms Solid Nucleus
for New Quartet.

Under the leadership of Dewing '20, assisted by Flint '17, working in the Poultry Department, the M. A. C. indoor track team is being built up in a most encouraging manner. The following men are now candidates: Skinner '20, Dewing '20, Carleton '20, Harrington '20, Pree '20, Robertson '20, Gray '21, Alger '21, Bent '22, and Sullivan '22.

The Holyoke Valve & Hydrant Co.

Telephone 506

Several Freshmen are also practicing, although they cannot run on the varsity. Most of these men have represented Aggie before, in cross country, outdoor track, or on the relay team.

Dewing is a three letter man, and has had much experience on the varsity teams of other seasons. Free was on the varsity relay team before entering the service. Gray was a member of the cross country team last fall. Carleton and Sullivan were both on last year's relay team, and the latter was M. A. C.'s big bet in the dashes last spring. Alger and Bent have participated in class and fraternity races, but have not had varsity experience.

Practice is held Monday, Wednesday and Friday at 5 P. M., on Tuesday and Thursday at 4 P. M., and on Saturday either morning or afternoon. Much of the practice is being done in the moonlight now, a fact which adds to the freshness of the atmosphere. The cold weather has only served to give an impetus to the speed and the general development of the team.

The schedule has not yet been announced, but there will be, in all probability, three or four meets this season. The most important of these will be the B. A. A. meet, in Boston, on Feb. 7. A meet may also be arranged with Amherst College.

SHORT COURSE BASKETBALL TEAM IS PROMISING

Experienced Material Scarce But Good Team Spirit Promits Rapid Progress.

The short-course basketball team opened its season this afternoon in a fast game with the Amherst High School. Up until the time of going to press the final results and line-up were unobtainable.

Starting with a nucleus of but five men who have had former training, Coach Grayson has been able to develop a speedy, clean-passing outfit. This is due to the splendid spirit shown by the men in reporting regularly for practice.

The squad consists of about twenty men. From this number two teams have been picked, one to represent the short-course men in the "outside" games, and the other to participate in the interclass series. The short-course team is to be a fifth competitor in the interclass series this winter.

Confident of their abilities despite a lack of former playing experience, the two-year men have agreed to take on such quintets as are reproduced by Smith Aggie, Williston, Sumfield, Willabram, and others of an equal calibre.

Coach Grayson, assisted by manager Kerchner, has succeeded in doing the almost impossible by rounding into shape a snappy, aggressive organization. For material he was dependent upon more of the strong-and-willing type rather than on the experience. Among the latter are Burnett of Proctor Academy, Follandslee of New Hampshire State, Shaw of Westfield High, Hadcock of Tisbury High, and Leone of Morgan Academy.

"12.—Prof. H. A. Noyes is to direct the research and experimental work of the newly organized Agricultural Department of the Welch Grape Juice Co. of Westfield, N. Y. Prof. Noyes is naturally known for his work in agricultural and horticultural research, he is also associated with the Mellon Institute of Industrial Research at Pittsburgh, Pa.

PROF. WAUGH CALLS ATTENTION TO CAMPUS BEAUTY SPOTS

Lantern Slides Prove Slogan of "See America First."

A very interesting illustrated lecture on the natural and architectural features of the campus and the country in the vicinity of Amherst was given at Assembly last Wednesday by Professor Frank A. Waugh of the department of Horticulture.

Slides were shown, representing the college campus of more than a decade ago with its absence of shade trees and shrubbery, and its old-fashioned architecture. Then views of the same site taken recently, showing the improvement in appearance gained by the careful and systematic planting of trees and shrubs, were thrown on the screen. Slides showing the changes that have taken place in the buildings, such as North College, which formerly housed the Chemical Laboratory, were also given. Then colored photographs of the present buildings, several from the architectural point of view, where the surroundings and students passing in and out were emphasized, were shown. Out-of-the-way nooks on the campus which possess pastoral or wild beauty, such as the ravine, the woods back of the campus, and the pond, were also represented, a few well disguised by the snows of winter, others garbed in summer foliage. The beauty of the college pond, with the willow trees on its banks, and its margins lined with iris, was well brought out.

In addition to these views, many others were given, showing the avenues of great maple trees in all the splendor of their autumn foliage found in the township of Amherst and neighboring towns. The views of the wild forest region at Mt. Toby, where a reservation belonging to the college is situated, showing the brooks lined with maple and white birch trees, the old camping ground where the companies of the military unit of former days used to pitch their tents, the delightful picnic grounds there in the grove—all revealed the beauties of nature about us and made last Wednesday's Assembly the most pleasant and interesting to the student body in many months.

"16.—R. C. Eakes is in landscape work in Atlanta, Ga.

LAST CONCERT OF SERIES TO BE THIS FRIDAY

Berkshire Quartet, Perhaps the Best in the Country, Will Give Recital of Chamber Music.

On Friday evening of this week, the last of a series of concerts by eminent musicians will be given. The entertainers for that evening will be the Berkshire String Quartet.

The Berkshire String Quartet is one of the three or four quartets of the highest quality in the country. Of similar ability are the Florentine Quartet, and the Letz Quartet. The Berkshire Quartet is perhaps the logical successor of the old Kneisel Quartet, the pioneer organization of its kind.

TOWN HALL

Wm. S. Hart and Jane Novak

Thursday "Wagon Tracks"

A noble and honest tale of Buckskin, Hamilton, man, and of the brother he loved. And of another man, too, whose head was that brother's blood. And of a woman. You'll never forget Wm. S. Hart in this big, human, soul-searching picture.

HOCKEY GAME WITH AMHERST

(Continued from page 1)

four game trip is included, on which Springfield, Tufts, M. I. T., and Boston College are played. Nearly all the February games are played on the home rink, and include the best contests of the year.

LELAND S. GRAFF 1922

Both the weather conditions and the wealth of material make the outlook very bright for a team which will compare well with those that were ranked fourth among New England colleges a few years ago. The ice is excellent condition, and present signs do not indicate a recurrence of the slush that was so prevalent last year.

The candidates for the team are Deahunt '20, Donette '20, Sawyer '20, Sanderson '20, Anderson '20, Dowd '20, Crafts '20, Redding '20, Allan '21, McCarthy '21, Newell '21, Poole '21, Goombs '21, Snow '21, Mallon '21, Lyons '22 and Collins '22. Crafts, Allan, Redding, and McCarthy are former varsity men, and form a nucleus for the team.

The first hard scrimmage took place last Saturday. Collins, Crafts, McCarthy, Mansell, Dowd, Donette, and Newell played on the first team. The names of those who will play in the Amherst game have not yet been announced.

The prospects for the Amherst game can only be based on the strength of our candidates, as Amherst has played no games thus far. No hockey has been played with our old rival for several years, and this fact, in addition to this being the first game of the season, should serve to bring out all the Aggie spirit which has been latent since the Tufts game in November.

Manager Graff has announced the following schedule:

Jan. 10.—Amherst at Amherst, Pratt Rink.
Jan. 14.—Springfield at Springfield.
Jan. 15.—Tufts at Medford.
Jan. 16.—M. I. T. at Cambridge.
Jan. 17.—Boston College at Boston.
Jan. 24.—Boston College at M. A. C.
Feb. 5.—Amherst at M. A. C.
Feb. 7.—Rensselaer at M. A. C.
Feb. 14.—Springfield at M. A. C.
Feb. 21.—Williams at Williamstown.
Feb. 28.—Tufts at M. A. C.
Feb. 21.—M. A. C. Second vs. Williston at Easthampton.

"13.—The marriage of Miss Janet G. Carleton to 'Jake' Thurston on December 26 has been announced.

THE MARK OF SUCCESS IS SERVICE—REV. ATKINSON

Amherst Preacher Gives Straight-Forward Address in Chapel.

The speaker at Chapel last Sunday morning was Rev. William A. Atkinson, of Amherst. Dr. Atkinson brought a message of out-of-door, choosing his text from Philippians 3:14—"I press toward the mark for the prize." He spoke of the fact that churches had for the past few summers held open-air services and imagined that what they were doing was something very fine and new. Truly it was fine but as for being new it was not. Christ's best words were spoken on hill-tops, or out in Peter's boat in the open air. Those were the first open air services. The apostle Paul, from whose writings the text of the morning was taken, loved the out-of-doors. The text itself refers to an out-of-door sport, the foot-race, where the prize to be won was the laurel wreath. In such a case as this the shortest distance to the goal is a straight line. In actual life, however, it is not always the best method to go straight toward the object desired. Indirect routes to things are often the most worth while. What are some of the things worth while? Happiness is a prize that you and I have a right to obtain. But happiness is seldom attained by those spending all their time directly searching for it. It is more often won by the indirect route. The happiest people are those trying to make others happy.

Heaven is a second prize that is worth struggling for. Everyone wishes to reach it after the race of life is run. There are two extreme classes of people who hold erroneous ideas of heaven—those who claim to have become Christians and then slide through the remainder of life, thinking that the gates of heaven will swing wide at their approach after having accomplished nothing in their lives to merit the prize, and those who never give a thought to heaven at all. The indirect route is again the most commendable. Living the good life and helping others, not for the selfish purpose of saving yourself, alone, is the path that leads to heaven.

Success is another prize worth obtaining. "Living the life to the full" is the measure for attaining success. The indirect route of service leads to true success. Dr. Grenfell left a promising business position in his home in England to go into the wilds of Labrador on a mission of service to the poor people living in savagery and ignorance there. Today he is Sir Wilfred Grenfell. The life of Christ was one of supreme service. At one time there was a single man who believed in him—John the Baptist. Then his disciples, then the multitudes believed, and now Christ is winning the world. It remains for everyone of us to press toward the mark for the prize, not selfishly, but with the thought of service.

"85.—Rear Admiral G. H. Barber M. C. is now stationed at the U. S. Naval Hospital, Las Animas, Colo.

The New Term.

The passing of the old term is being followed by the starting of the new one. The flurry of the new college year should have died down by this time and the purpose of coming to college should have had time to assert itself forcefully. The weeding out process by the faculty has decreased the number of students by little so that the college, as a body, feels little difference between the present term and the past other than that of the weather.

It is natural for animals especially, for the lower animals, to hibernate when cold weather comes. Man is an animal and it is not surprising to notice his decrease in outdoor activity and the accompanying increase of indoor exploits. The student finds outlets for his energy during the winter in social life, in a limited number of sports, in the more intellectual games, or better, the less physical games, such as billiards and bowling, and in a greater application of time to his studies. By his retreat from the North wind to his room, he automatically limits his vision of the outside world and at the same time unconsciously narrows his view point on college life. Such is the danger of the student's hibernation, the loss of interest in the larger college problems.

On the other hand, if the student maintains a constant degree of activity but over a narrower field, his attention toward one particular issue may become more acute.

From the standpoint of college betterment, would it not be wiser for the college student to display his superiority over the lower animals by directing his efforts more thoroughly toward the political problems such as the desirability and the practicability of the honor system rather than to succumb to the demands of the elements by subduing himself in his room?

J. A. C.
'08.—The present address of P. W. Farrar is 63 Harvard street, Springfield.

COMMUNICATION

It IS Progressing.

The two middle classes have the Honor System—an Honor System which at such an early stage is working better than the average Honor System worked elsewhere. It has passed through its darkest period, a period in which the Conservatives said, "Let us drop the Honor System; it is not working." Now, the Honor System is on its upward path. Why? Because the classes under this system have begun to get a little "sore" when they have seen classmates acting dishonorably. At first they stood for these dishonorable actions with just a little murmur of disapproval, but soon the conditions became too irksome and then followed outbreaks of angry comment which made the few affected in each class feel rather cheap.

The Honor System at M. A. C. is going through the stages of development that all Honor Systems must go through. The next step will be a violent outbreak of feeling against wrong doers. As a result of this outbreak M. A. C. will lose one or two of its students and the Honor System will be much strengthened. We have not reached the stage where every man will report any other whom he sees acting dishonorably, but the time is not far ahead when the great majority will see to it that no one gives or receives aid during an examination conducted under the Honor System. This will take a number of years, but this spirit which already has a foothold is bound to grow. The feeling against alcoholic drink grew until it expressed itself in the prohibition act.

You know that there are not more than 3% of a class that will start dishonorable proceedings if no one else is acting that way. M. A. C. has entrance requirements high enough that if a man passes them he is reasonably sure to be able to pass all courses required for graduation. There are a few who get into M. A. C. who, although on the face of things may be eligible, have not really the entrance requirements. Perhaps they persuaded their kind High School principal to certify them for their school would do better when they got in college or by some other means not according to the straight and narrow path.

It is this handful of men who not being able to stay in college fairly resort to unfair means, either forced to by necessity, or by force of habit. Do these fellows measure up to the standard that M. A. C. sets for its students? No. Well then, since they do not belong here and are the ones that cause all the trouble by their demoralizing influence, why keep them here? Why not report their actions?

Men, the Honor System hinges on the single point that to work the individual must convince himself that it is his duty to report a man if he sees him acting dishonorably. Quite a number already see it this way. Let us all get that spirit and do what we can to eventually make the Honor System at M. A. C. one of the best in the country, one that all colleges can point to as a perfectly working Honor System.

P. J. CASCIO.

DR. CHAMBERLAIN EXPLAINS RUBBER-MAKING PROCESS

Chem. Club Plans For Annual Trip To Nearby Factories.

An interesting and well-attended meeting of the Chemical Club was held Thursday, Jan. 1, at 7:30 in the Chemical Laboratory. As soon as the meeting was brought to order, President Frellek introduced the speaker of the evening, Dr. Chamberlain, who had chosen for his talk the manufacture of synthetic rubber.

Prof. Chamberlain explained briefly the relation of rubber to other chemicals, such as turpentine, camphor, and resin. He then told how rubber was prepared in the South American and Malayan forests. After these in-

You possibly have wondered why dairymen who use

Wyandotte
Cleaner and Cleanser

are so much more successful and prosperous than those who do not. There is nothing unusual about this when you consider the many advantages that are derived from the use of this material.

This cleaner thoroughly removes all objectionable and fermentative matter from dairy and creamery apparatus, leaving it pure, sweet, sanitary and clean, which is the condition most desired for the production of dairy products of the highest quality. It also proves to be an economy of considerable importance, because of the saving in time, labor and cleaning material necessary to fully accomplish your cleaning needs.

Make Sure of Your DE LAVAL Cream Separator Early in 1920

There's no happier or better way of starting the New Year right than by making sure of a new De Laval. If you are either without a cream separator or are using an inferior or half-worn-out machine that should be replaced.

For three years now, thousands of those who wanted a De Laval have had to wait weeks for it and many have had to buy a second-grade separator. The demand has simply exceeded the possible supply, though more De Laval have been made each year than ever before.

More and better De Laval will be made this year than ever before—as many available plant additions and skilled workmen can produce—but the demand gives every indication of being even greater still.

Order your De Laval now. Make sure of getting it. Let it save half its cost by spring.

See the nearest De Laval local agent at once, or write the nearest De Laval office below for any information desired.

Electricity—the Master Force in Manufacturing

THE marvels of electricity have revolutionized our manufacturing industries. With belts and pulleys replaced by electric motors operating automatic—almost human—machines, many a slow and tedious process has been eliminated. The factory worker's task of yesterday is made pleasant by his command of this magic power.

The Crane Company's plant at Chicago—electrical through-out—is a model of industrial efficiency. Its 10,000 horsepower of driving energy is brought by three small wires from a distant power plant. Then electricity drives the machinery which handles the coal for heating, cuts the steel, sifts the sand and sorts the material—in fact does everything from scrubbing the floor to winding the clock.

Such an institution is marvelous—superhuman—made thus by the man-multiplying force of electricity. The General Electric Company has been instrumental in effecting this evolution. First, by developing successful electric generating and transmission apparatus to furnish economically this modern form of power. Secondly, through many years of active co-operation with hundreds of manufacturers, it has mastered the art of applying the use of electrical energy to a multitude of needs. And finally, through branch offices and other distributing channels, its products are made accessible to all.

CLASS BASKETBALL WILL DEVELOP SURPRISES

Entering Class Claims More Than Usual Knowledge of the Game.

The interclass basketball series starts this Thursday evening with a game between 1920 and 1922, and one between 1921 and 1923. Little is known of the prowess of the two even classes but rumors indicate a knowledge and experience of the game in both teams. The odd-numbered classes have developed a definite ability already and are eager for their first contest together.

Juniors Have Experience

About fifteen candidates turned out for the first practice of the Junior class basketball team last Thursday evening. Among these are Whittle and Rendlo, veterans of former class teams, and Caslo, Brigham and Long of last year's Sophomore team. Jones, Waite and Rosoff are other promising men. From this material 1921 should be able to develop a strong combination and with a little practice show the way to the Freshmen in the first game of the interclass series Thursday night.

R. L. Starkey is manager of the team and C. P. Whittle has been chosen captain.

1923 vs. Northampton

The Freshman "varsity" basketball team is fast rounding into shape for its first scheduled game, which is to be played next Saturday, January 10, in the M. A. C. Drill Hall. The opponent, Northampton High School, is considered to possess the fastest team in the Connecticut Valley. At present, the most promising candidates are as follows: Forwards: Alexander, Alger, and Marshman. Backs: Grayson, Hall, Sargent, and Tamey.

POWERS SUBSTITUTE

(Continued from page 1.)

Union series, and the performer was Mr. Rice, an associate of Mr. Leland Powers, the noted comedian, who on account of illness was unable to be present himself.

Mr. Rice gave a reading of the three-act comedy, "Peaceful Valley." The setting of this play is in the White Mountains of New Hampshire, and the plot involves natives of the section with summer boarders from New York City. The first scene is at Jonathan Ford's summer hotel, where Hosea White or "Hosey," the young hotel waiter, meets Miss Virginia Rand, a charming girl from the city. This acquaintance develops into a romance, and also brings Hosea into contact with Ward Andrews, the villain of the play. From him Hosea learns the whereabouts of his sister Martha, long lost in New York City, and with Miss Rand's help he goes there and finds her. The last scene finds Martha returned to her home, and the two young people, Virginia and Hosea, happily united.

It is a simple but effective play, full of spirit and good humor. The reader's impersonations were true to life, and gave a chance for much contrast of expression and feeling. His depiction of the hero, "Hosey," with various eccentricities, and of crabbily old Jonathan Ford, were the bright lights of the evening.

Aggie is given the closing date on Tuf's football schedule for 1920, Nov. 20 at the Medford oval. Bowdoin appears on the Hill College's schedule for the first time in five years, while Harvard and Yale are dropped.

COLLEGIAN COMPETITION STARTS WITH THIS ISSUE

Fifteen Candidates for Position on Staff. Contest Lasts Whole Term.

The annual competition for positions on the COLLEGIAN board opened Dec. 31 at midnight. Ten Freshmen and five Sophomores have recorded their intention of trying out. A keen competition is expected.

The competition will extend up to and including the last issue of this term. Calls were issued on Dec. 15, 30 and 31 with the net result recorded above. Three Freshmen and one Sophomore are to be elected to the editorial and business staffs, respectively.

This year brings many changes in the rules. For eligibility to election to the business staff, a minimum of 15 credits will be required. These may be obtained by office work, routine work, or by obtaining advertising. One credit will be given for each two hour's work. It is stipulated in the rules that at least one credit shall be earned for the obtaining of advertising. One point will be given for each column inch of new advertising or each two column inches of renewed advertising.

The editorial department requires a minimum of 20 credits. One credit will be given for reading one of several books used by the Rural Journalism department. A quiz based upon this reading will be given to the competitors at the end of the ten weeks. If the candidate shows a sufficient knowledge of the subject, he will be credited with one point. A maximum of five credits will be given for office work or proof reading at the rate of one point for each two hours. The majority of the credits must be earned by news articles turned in and actually used. The material for these must be obtained independent of the assignments made in the regular staff. Credit at the rate of one point for each six column inches of new material and for each seven inches of "rewrite" material. One general assignment will be made to the competitors each week. The best article of those turned in will be printed and the author thereof will receive the credit for it.

When a candidate obtains the minimum requirement in credits, it merely renders him eligible for election. The board reserves the right to withhold election. Elections will be held immediately following the last issue of the term. A bi-weekly statement of individual standings will be printed in the COLLEGIAN columns.

The following men are candidates for the editorial staff: 1922, Cary, Randall, Bromley, Leonard, Chapin; 1923, Lindskog, Gay, Fuller, Gamzue, Arrington, Cohen and Burke. For the business staff: 1922, Buck; 1923, Whitaker, Buckley and Folsom.

DEPARTMENT NOTES

C. W. Scott '20 will complete his work in Reading, where he has been taking a course in apprentice teaching under the supervision of the Department of Agricultural Education on Dec. 19. He will return to college next term.

The Walker Chemical Laboratory at W. P. I. is to be enlarged during the coming year, practically doubling its present capacity. The cost of the renovations will be in the neighborhood of \$175,000.

LARGE NUMBER OF SHORT COURSE MEN ENTERED

Amherst Lodging Facilities Taxed to Capacity.

The M. A. C. winter short-course opened Dec. 30 with 100 in attendance. The same courses as have been offered in former years will be given a very few minor changes. Professor Thelan is in charge.

Because of the difficulty of finding rooms for these students, the course was not advertised extensively. A serious effort is being made to locate sufficient suitable lodgings for those men now enrolled. The unusually large influx of students other than the four-year men has taxed the lodging facilities of Amherst to the limit. With the expected increase in the two-year enrollment this coming year, a large number of suitably located rooms will have to be found.

RIFLE TEAM MATCHES ARRANGED. FIRST ON JAN. 16

Tufts Team Shoots Here on That Date.

The Rifle Club held a meeting Wednesday, Dec. 31, at which most of the competitors for the team were present. It was announced that final arrangements had already been made for the Aggie-Tufts match which is to be shot on some range Jan. 16, and which will consist of two targets of ten shots each. The challenge of the Boston Revolver and Rifle Club has also been accepted and this match will probably take place the latter part of this month. On Feb. 23 a match with M. I. T. is to be shot. Practice for these meets, which are to be shot later in the term, has already begun.

Although the rifle team has not received much support either from the student body or from the Athletic Department it is an old established activity which has in former years been very successful and has brought much fame to Aggie. It has won the indoor championship four times and has carried off the cup for outdoor matches the largest number of times among the first-class colleges, and it requires but one more triumphant year to make this cup Aggie's property forever.

CAMPUS NOTES

Dr. Drachler Coming.

At a meeting of the Menorah Society Friday evening in the Entomology Building, Secretary Berman gave a lengthy talk on the Intercollegiate Menorah Convention, which was held in New York city last week. Mr. Berman, who was chosen delegate for the Convention, brought back some interesting ideas which he presented in his talk. Professors Englander and Freehol, of the Hebrew Union College, will address the Society in the near future. The Menorah Society has also procured the services of Dr. Drachler, of Smith College, for talks on the Bible.

Louis Berman ex-'20, who is attending Boston University, is playing on the varsity basketball team there.

The Commons Club announces the pledging of William L. Dowd, '20, North Amherst, and of Leo J. Fitzpatrick, '23, Brockton.

Cuts taken directly before or after a recess at Princeton result in the offender's being put on probation. Our double cut system is not so harsh after all.

ALUMNI NEWS

'85.—The Prince of Wales, on his recent visit to this country, decorated Dr. J. D. Goldthwaite of Boston and a Smith College lecturer on hygiene with the Order of Companion of St. Michael and St. George in recognition by Great Britain of his work among the British soldiers. Dr. Goldthwaite is also the holder of the Distinguished Service Medal.

'12.—F. J. Merrill of Kansas City, Mo., and vice-president of the Central Orchards Co., gave a very interesting talk to the Danvers Masonic Club on fruit growing in the Middle West. The concern with which Mr. Merrill is affiliated is this year employing over 2000 men and shipping over 60 car loads of fruit—mostly apples.

'13.—Ralph E. Gaskill of Essex County Agricultural School and Farm Bureau is proving to be quite a factor toward the improvement of the herds and crops of his section. Just recently he journeyed to Maine to obtain two carloads of quality cattle for the farmers in the county.

'14.—Harold C. Black, who for several years has been with the Moor's Nurseries of Morrisville, Pa., has opened up a business of his own with headquarters at Trenton, N. J.

'15.—Ashley C. LeDue is now teaching agriculture at the German Township High School, McClellandtown.

'15.—Merton C. Lane is scientific assistant of the Cereal and Forage Insect Investigation which is being conducted by the Bureau of Entomology of the U. S. D. A.

'16.—Fred W. Barnes is now in San Francisco on board the U. S. S. Champlain with part of the fleet.

Ex '16.—Philip C. Porter is back in college again, taking the 10 week's Short Course.

'16.—An announcement has recently been received of the arrival of Jason, Robert Alfred, to Mr. and Mrs. Harold A. Mestrom of 34 Monroe St., Concord, N. H.

'17.—Raymond Irving, is attending the Harvard School of Business Administration.

'17 Miss Katherine Fellows is in charge of the green houses of the S. T. Bodine estate, Villa Nova, Pa.

William C. Pauley, a former graduate student at M. A. C., is in the landscape business in Atlanta, Ga.

Q. T. V. Fraternity Reunion.

The Q. T. V. Fraternity held a banquet and reunion at the City Club, Boston, followed by a theater party on the evening of Dec. 27. The toastmaster was David Potter '16 of Concord. The speakers included Charles H. Boardman of Amherst; William M. Sears '15 of Wolcott; S. S. Crossman '09 of Melrose Highlands; and William Saville, Jr. '17 of Waban.

The plan of the C. A. U. campus places an infirmary and two cemeteries close to the dining hall.

GEORGE H. RICHARDS '21 SUCCUMBS TO POISON

Ex-1920 Man Dies After Short Ill-
ness of Seven Days. Whole
College will Miss Him.

After an illness of seven days, death claimed George H. Richards, of the class of '21, at 5-30 o'clock, Tuesday morning, Jan. 13. He had been slightly ill for a few days previous to his going to the College Infirmary last Wednesday.

George Richards entered M. A. C. with the class of 1920, from the Central High School of Springfield, in the fall of 1916. He became prominent in athletics during his first year at this college. He played class basketball and class baseball for two years, was on the varsity basketball squad a short while in his Sophomore year and played on the infield on last year's varsity baseball team. In his Freshman year he was manager of the class rifle team. He was also advertising manager of the 1921 Index.

His college course was interrupted by his war service. At the end of the fall term in 1917, he initiated as a cadet in the Balloon Service of the army, and was sent to Omaha, Neb. After the armistice was signed he returned to college in time to be enrolled with the class of 1921.

During this last year he has tried for positions on the athletic teams but has been handicapped by occasional light illnesses. During the Christmas vacation he had a wisdom tooth extracted and from that time to the first day of his evident illness, his physical condition was on the decline. After a restless night he went to the infirmary last Wednesday. His case developed dangerous symptoms of septic poisoning, which rendered him unconscious. He was sent to his parents' home in Springfield Saturday. From then until Tuesday morning when he died, he was unconscious most of the time.

In all his activity George Richards won the confidence of his fellows by his sincerity and his wit. Although he did not rank among the best scholars in his class, his judgment and opinions on matters were esteemed.

The funeral services will be held Thursday or Friday at his home in Springfield. Memorial services will be observed Sunday evening at the Phi Sigma Kappa fraternity house from 6-00 to 6-30.

Goaway, 1908, to Speak.

The Department of Entomology is to have as a speaker to the classes Mr. Carlton C. Gowley '08, who has had many interesting experiences as Entomologist for the British Government in British East Africa.

PROPOSITION VI. WINS BY PLURALITY OF 25 VOTES

Faculty Vote, However, Gives Proposition I. Most Favor.

A vote on six propositions in regard to the ratification of the Peace Treaty and the League of Nations was taken in chapel, Monday, Jan. 12, which showed the leaning in favor of acceptance of the League. This vote was the purpose of having a series of talks on the ratification which has been given for the last week.

At chapel Worthley '20, voiced a protest against the presentation of the subject by those in charge. He made a point in his discussion that only one side of the question, the arguments for the League of Nations had been explained. He hinted as his opinion that the Dean's office had not fairly presented the issue. He protested also that the vote would not be a representative vote because only one side of the question was known.

Assistant Dean Patterson explained that no one could be obtained to explain the Senate's stand against the League and consequently that side could not be given.

M. A. C. LOSES FIRST GAME OF SEASON TO CONNECTICUT

Visitors Show Results of Early Training by Winning, 28-19.

The Connecticut Aggie quintet, presenting a tight defense, coupled with good shooting, defeated Aggie 28-19 last Wednesday evening in the Drill Hall. It was the first game of the season for the Maroon and White team, while the Nutmeg State lads have played three games previously. This may account for their superior all round work that was enough better to spell a margin of victory of nine well-earned points.

Both teams were off to a slow start and the game was rather loosely played during the first half, though for the first few minutes the score was close, with Connecticut increasing its lead toward the end of the period. The second half was more interesting, the visitors outscoring the home team by a margin of but one basket.

Alexander dropped a neat one from long range after five minutes of play for the first score, and Lockwood had shot two fouls before Grayson got M. A. C.'s first score, a long distance goal from the floor. Lockwood and Alexander continued the scoring for the Blue and White, the former caging five from the foul line and one from the floor; and the latter two from the floor and one on a free try. Grayson followed his first ringer with another almost immediately after, followed by a free try. Pond dropped one clean, from near the centre.

STUDENT VOLUNTEER CON- VENTION INSTRUCTIVE

Delegates Form Resolutions Pertaining to College and National Association Activity.

The Massachusetts Agricultural College was represented at the Student Volunteer Convention at Des Moines, Iowa, by ten delegates, including: C. G. Fielder, Y. M. C. A. Secretary, Marlon E. Earley, J. C. Maples, W. I. Goodwin, Viola Cameron, C. McIntosh, R. S. Mellen, E. V. Waugh, R. B. Eatey, and H. Eryslan. This conference, which was held from Dec. 31 to Jan. 4, was attended by delegates from practically every college in the United States and Canada. Approximately 8000 persons, of whom many were foreign students, met each day in the huge coliseum. The meetings were held every morning and evening, and were addressed by: Robert E. Speer, Robert P. Wilder, Sherwood Eddy, Dean Charles R. Brown of Yale, Samuel Higginbotham, and many other men prominent in the missionary field, who gave interesting and inspiring recollections of missionary work. They also brought out very forcefully the great need for work in the various foreign fields, and eloquently pointed out the need for a more virile religious attitude on the part of the student.

Each afternoon was set aside for simultaneous meetings in the various local churches—where students were addressed on agricultural, industrial, educational and other phases of the missionary work, and where the missionary activities of the various sects were outlined and discussed.

An exhibit in the auditorium gave graphically the extreme need for missionary work in the different parts of the world. Many pictures taken by missionaries were displayed and all books on the subject were on exhibition and for sale.

The program which was drawn up by delegates from New York City and favorably voted on by the delegation leaders was as follows:

I. That we unite in January in reporting this convention to the colleges which we represent, and to our communities, through the churches.

II. That we unite in February and March in the study of the teachings of Jesus from the standpoint of their application to conditions at home and abroad.

III. That we unite in April, or before, in cooperation with the Young Men's and Young Women's Christian Associations, the Inter-church World Movement and the Student Volunteer Movement in recruiting for Christian callings at home and abroad.

IV. That we press upon our colleges the urgency of campus-wide participation.

M. A. C. QUINTET WINS FIRST VICTORY OF SEASON, 26-15

Maroon and White Shows Much Improvement in Its Play Against Rhode Island.

Aggie's basketball tossers broke into the winning column by trouncing the Rhode Island State Five to the tune of 26-15, last Saturday evening on the Drill Hall floor. It was the second game of the season for the Maroon and White, and a marked improvement was noticed over the style of play exhibited in the Connecticut game of last Wednesday.

The game throughout was characterized by loose team work and individual efforts. Neither sideshowed any adeptness toward making points from free tries, as a total of 7 out of a possible 20 will show. At times and in the second half especially, Rhode Island exhibited rare flashes of form, but her formations were soon broken up by the splendid defense of Aggie.

The game at the start was slow, neither side being able to get within shooting distance of the hoop. However many opportunities for scoring presented themselves by the many fouls, from both technical and personal penalties that were inflicted. The Blue and White was the first to avail itself of this manner to make a score, Malloy hitting the basket twice in short order in the first few minutes of play. Grayson scored first for M. A. C. on a free try shortly thereafter.

The two teams now settled down to real basketball, but each side missed several close shots at the ring. The first floor goal of the game was made by Inn of Rhode Island after nine minutes of play. It was a pretty shot, made after a pass from underneath the basket. Pond duplicated the shot for M. A. C. three minutes later when he hit the net perfectly after receiving a clever pass from Grayson. Grayson followed immediately with a spectacular shot from the 15 foot mark, making the score five in all.

The Maroon and White forged ahead when Grayson succeeded in dropping in a free try which seemed to take the heart out of the Kingston boys. During the remainder of the half they were unable to score a single point, due in a great measure to the wonderful defensive game exhibited by Gowdy. In the meantime, the combination of Grayson and Pond had rolled up three goals from the floor, and a few seconds preceding the referee's whistle, Thompson placed a neat shot making the final count for the first half: M. A. C. 15 Rhode Island 5.

The second half opened with an unusual display of form by the visitors. They completely dazzled the Maroon and White combination. When the smoke had cleared after some five minutes of play, the work of Dunn and Malloy had netted the Rhode Island

team four goals bringing them within two points of Aggie's score. Here ended the Rhode Island drive, and but for a single goal by Holden in the middle of the half, it was their last scoring. Grayson opened up the M. A. C. drive by placing a count shortly after Malloy's last one and henceforth there was little doubt as to the outcome of the game. When the final gong sounded, Aggie had amassed a total of 26 points to Rhode Island's 15.

The game did not bring out any individual stars but the work of Thompson at center and Gowdy on the defense for M. A. C., and Dunn and Malloy forwards for Rhode Island deserves special mention. The summary:

M. A. C. Rhode Island
Pond, rf lg, Murphy
Grayson, lf rg, Antyous
Thompson, c c, Hudson
Stedman, rg lf, Malloy
Gowdy, lg rf, Dunn
Score at end of first half—M. A. C. 15, Rhode Island 5. Goals from floor—Pond 4, Grayson 4, Thompson 3, Hudson 3, Malloy 3, Dunn 2. Foul—Grayson 4, Malloy 5. Substitution—For Rhode Island, Holden for Hudson, Hudson for Dunn, Malloy for Holden, Lucy for Malloy. Referee—Swaffield. Timer—McLaughlin. Score—M. A. C. 26, Rhode Island 15.

HONOR SYSTEM TO BE GIVEN NEW TRIAL AT M. A. C.

Assembly Vote Also Changes Index from a Class to a College Annual.

The Student Forum at last Wednesday's assembly was marked by a lively discussion on the keeping or dropping of the Honor System. Dewing '20, in behalf of Adelphi, introduced the subject in a brief speech stating that Adelphi was now in favor of it, that with a new constitution, and the backing of the Senior class, it could be put through successfully. The faculty feels that great progress has been made and that even in the way the system now stands, it is a great improvement over the old "watch-dog" system. When the discussion was thrown open to the student body, Cascio '21 spoke in favor of retaining the system and stated that public sentiment should be in favor of it in accordance with the spirit of the college. The question whether the honor system was a good thing in itself or whether the way of handling it was at fault, was raised by Maples '20. Cascio made the reply that if the system had not been as successful as it might have been, it was due to lack of Senior support. Boyce brought out the point that it was impossible to prove a man guilty of cribbing under the Honor System and that in all cases a man's honor rests with himself. Further arguments in behalf of the system were brought forward by Lyons and Frellick of the class of 1920.

A second feature of the Forum was the discussion as to whether the Index should be made into a college annual or not. Crawford '20 pointed out the fact that so doing would not change the subject material, but would lighten the burden on the Junior class and would mean the incorporating of the competitive work in the Sophomore class, and the overcoming of the financial deficit of the publication by the entire support of the student body. It would also result in an increase of circulation. Maples added also that it would incur a great elimination of mistakes because each year the editor

elected would have the advantage of working with the editor preceding him. In putting the matter to a vote, it was found to be the sentiment of the college to make the Index a college annual.

CONNECTICUT GAME

(Continued from page 2.)

of the floor just before the whistle, making the score 12-7 in favor of the Blue and White.

Aggie started the second half with a rush, Lent and Pond narrowing Connecticut's lead by four points, before Alexander could get the range of the basket. Then Connecticut's defense tightened and Aggie had to resort to long shots almost entirely from this on. Alexander doubled his count on the first half, getting four baskets from the floor almost in succession at the middle of the period.

The shooting of Lockwood from the foul line, that of Alexander from the floor, and the defensive work of Lord featured for Connecticut. Gowdy played a stellar defensive game at left guard for M. A. C.

The summary:

| CONN. AGG. | | | |
|--------------|-----|-----|-----|
| | Gls | Fls | Pts |
| Lockwood rf | 3 | 5 | 11 |

BASEBALL SCHEDULE FOR NEXT SPRING COMPLETE

Sixteen Games, Eight in Amherst Arranged For.

The baseball schedule for the season of 1920 has been approved by the Athletic Board and released for publication. Manager Rice has arranged for seven games to be played on Alumni Field and a return game on Pratt Field, so that half the games played will occur in Amherst.

H. L. RICE '21, Mgr. 1920 Baseball.

The strength of the baseball team cannot be accurately foretold. Last season's showing was not so favorable to M. A. C. as it is hoped the coming season will be. With a nucleus of most of last year's material consisting of Captain Pond, Ball, Carleton, Crafts, Dewing, Jakeman and Luce of 1920 and several more men in the lower classes, a good team may be expected.

The complete schedule is as follows:
April 22.—Colby at M. A. C.
April 24.—W. P. I. at M. A. C.
April 30.—Rhode Island at M. A. C.
May 1.—C. A. C. at Storrs
May 7.—New Hampshire at Durham
May 8.—Tufts at Medford
May 14.—U. of V. at Burlington
May 15.—Middlebury at Middlebury
May 22.—Trinity at M. A. C.
May 26.—Amherst at M. A. C.
May 28.—C. A. C. at M. A. C.
May 31.—Springfield Y. M. C. A. at Springfield
June 5.—Union at Schenectady
June 9.—Dartmouth at Hanover
June 14.—Amherst at Amherst
June 19.—U. of V. at M. A. C.

SENATE MEETING

The football emblems have been ordered and the style will be "1920". An overwhelming vote was cast at assembly last Wednesday in favor of an honor system with a revised constitution.

It was decided to have delinquent freshmen report at the next meeting. This move is in anticipation of an Arena Party in the near future.

AMHERST HOCKEY GAME POSTPONED UNTIL TUESDAY

Plans Being Considered for that Date. Hard Week for Team.

Owing to the poor condition of the ice on both the M. A. C. and Amherst rinks it was thought advisable to postpone the opening hockey game last Saturday. The game will probably be played next Tuesday.

The next week, starting today, will be the first and the hardest week for the team. They play at Springfield today. Tomorrow Tufts are their opponents, in Medford. Friday and Saturday they play M. I. T. and Boston College. These four games with the possible addition of Amherst next Tuesday will complete a pretty steady week of hockey for the team.

Coach Maass feels that his squad is in pretty good shape, and is confident of victory in all of these games. More ice is all that is needed now.

M. I. T. will undoubtedly prove to be the hardest combination to defeat. However, the Aggie team has been working well together and with good team work should bring home a "clean sheet" to Amherst next Sunday.

Although definite action has not been taken, the following preliminary lineup has been given out: McArthur, rw; Leavitt or Redding, lw; Mansell, c; Crafts, Collins and Dowd, defense; Delabunt, g.

FLORICULTURE CLUB HAS FIRST MEETING SINCE '17

Cascio '21 Elected President. Prof. Thayer to Arrang for Next Meeting.

A meeting of men interested in forming a Floriculture club was held Thursday evening at French Hall. Owing to the early hour of meeting, 7:00 P. M., there were only 10 men present. Cascio '21, was elected temporary chairman and took charge of the meeting. A plan to combine the club with the Landscape club was discussed and turned down. The following officers were then elected: Cascio '21, president; Holmes '20, vice-president; Woodbury '20, secretary and treasurer. Prof. Thayer read a letter from Prof. L. H. Parker, inviting three members of the club to attend a meeting of various club representatives interested in forming a World Agricultural Society. This meeting is to be held at the Davenport on Jan. 16. Thayer, Holmes and Hunter were appointed to attend this meeting. Thayer was appointed to arrange for the next meeting, which will probably be held on Alumni Day. A speaker and a set of slides have been engaged for two coming meetings, to be announced later.

Wellesley, too, has student vaudeville, but it differs from Aggie student vaudeville in that it is given by the upper classes for the entertainment of the Freshmen.

The Des Moines Convention.

The delegates who have just returned from the Student Volunteer Convention in telling of their impressions have failed to emphasize several important points of real value which were gained from the trip. This splendid speech of Dean Brown of Yale on the current international problems, and the inspiring address of Dr. Sherwood Eddy depicting the European attitude toward the United States and the part Christianity must play in solving the great social problems of the world were thoroughly appreciated. Also the delegates could not have failed to be impressed with the earnest and enthusiastic attitude toward their work which the foreign missionaries possess; and with the urgent need for Christianity in India, Africa, China, and other countries which was so vividly and forcefully presented. The evening given over to descriptions of Non-Christian religions and the detailed explanations of why Christianity is superior was certainly most interesting, as was also one of the afternoon meetings on Agricultural Missions which our delegation attended.

There were several other valuable impressions gained from the Convention however. The fact that the churches are broadening their viewpoint was expressed by Dr. W. H. Foulkes who said, "Men today care more how the church can save the world than how it can save its own soul." That emotional religion does not appeal to the present generation was quite evident; and that the need is for a more practical and wide spread Christianity.

There was some dissatisfaction expressed that the Convention was not practical as had been expected, and disappointment over the fact that mere personal experiences were not related, and that the attitude of the church and the missionaries toward the solution of concrete problems was not given. The interchange of these opinions among the delegates and discussion of the various speeches proved to be one of the greatest benefits of the Convention, however.

The meeting of the delegation led from all parts of the country was a good

opportunity to obtain the trend of thought, and it was evident that similar representative conventions of college students were desired to discuss general social, industrial and political problems.

President's Annual Report.

The annual report of the trustees which the President made on January 9th, strongly emphasizes the urgent need for an increase in the salaries of the college is to maintain the present standard of its staff of instructors. The report stresses the need for an increased building program to keep pace with the rapidly growing enrollment and it also points out the difficulties which have been encountered in changing over to a strictly state institution. The rapid growth of the two-year course is described and the report of the Director of Short Courses is given in full. An increase in the teaching staff is asked and new dormitories are advocated. The legislative budget includes a new Library Building and a new Chemistry Laboratory which we most earnestly hope will be granted.

CAMPUS CALENDAR.

WEDNESDAY, JAN. 14.

3:00 p. m.—Assembly. Col. R. L. Kees, Washington, D. C.

3:40 p. m.—Hockey, M. A. C. vs. Springfield.

MONDAY, JAN. 19.

7:40 a. m.—Chapel.

TUESDAY, JAN. 20.

7:00 p. m.—Senate Meeting, Old Chapel.

7:30 p. m.—Pomology Club meeting.

WEDNESDAY, JAN. 21.

3:00 p. m.—Assembly. Rev. Samuel Higginbottom.

8:00 p. m.—Basketball, M. A. C. vs. Amherst, Drill Hall.

ROISTER DOISTER BANQUET

The Roister Doister Dramatic Association held a banquet and business meeting at Draper Hall, Thursday, Jan. 8. The meeting was well attended and many points of interest were discussed. It was the opinion of the association that the bronze medal for non-athletics should be abolished and that a small silver medal in the form of a charm be substituted. In an exceptional case of activity, a gold medal was thought necessary.

WORCESTER TECH WILL GIVE AGGIE HARD RUB

Even Chances for M. A. C. Quintet Against One of the Fastest Teams in New England.

The varsity basketball team will travel to Worcester on Saturday, lining up against W. P. I. in their third game of the season. From present indications they will have to travel at top speed to pin a defeat on the Tech five. Worcester has in Stoughton, Campbell and White, three veterans from last year's team, considered one of the fastest college teams in New England. Playing their first game on January 10, Tech defeated Brown by the decisive score of 29-13. Stoughton, a veteran of three years, works well with Campbell and the two form a pair of fast forwards. The latter scored 15 points against the Providence University. White, from last year's quintet, and Archibald play the guard positions, with Berry, a fast man at center. The Brown game cannot serve a criterion of the Worcester boy's ability since they were not forced to extend themselves to win, but they certainly look like a fast outfit.

Capt. Grayson's five is coming fast and seems to be hitting the stride of the teams of two and three years back. The probable return of A. W. Smith this week, permitting Grayson's shift to his old guard position, will undoubtedly strengthen the team, for they had been practicing in this formation prior to the Connecticut game, and the necessitated change effected the team work to some extent. Thompson has been playing a good game at center of late and will probably get into Saturday's game along with Stedman, whose defensive play has been first class in his chances in the first two games. Certain it is that the team has improved greatly since the first game and has at least an even chance of victory over their rivals.

TO BE EXPECTED

You possibly have wondered why dairymen who use

are so much more successful and prosperous than those who do not. There is nothing unusual about this when you consider the many advantages that are derived from the use of this material.

This cleaner thoroughly removes all objectionable and fermentative matter from dairy and creamery apparatus, leaving it pure, sweet, sanitary and clean, which is the condition most desired for the production of dairy products of the highest quality. It also proves to be an economy of considerable importance, because of the saving in time, labor and cleaning material necessary to fully accomplish your cleaning needs.

Make Sure of Your DE LAVAL Cream Separator Early in 1920

There's no happier or better way of starting the New Year right than by making sure of a new De Laval. If you are either without a cream separator or are using an inferior or half-worn-out machine that should be replaced.

For three years now, thousands of those who wanted a De Laval have had to wait weeks for it and many have had to buy a second-grade separator. The demand has simply exceeded the possible supply, though more De Laval have been made each year than ever before.

More and better De Laval will be made this year than ever before—as many available plant additions and skilled workmen can produce—but the demand gives every indication of being even greater still.

Order your De Laval now. Make sure of getting it. Let it save half its cost by spring.

JUNIORS AND SOPHOMORES WIN IN FIRST GAMES

Lack of Team Work Cause of Defeat For '20 and '23.

M. A. C. interclass basketball started in the Drill Hall last Thursday evening, January 8, the Sophomores and Juniors winning interesting games from the Seniors and Freshmen, respectively.

The Senior-Sophomore game was close throughout, and 1922 led at the finish by only four points, the final score being 22-18. The Sophomores showed flashes of excellent team work, which, coupled with Wetsch's accurate shooting, counted for a large share of the winners' points. Hooper and Kraskie also shot well, while Clark blocked several Senior passes, and played a good game at guard.

For the Seniors, Lathrop sunk six free tries, and Bachelder three floor baskets. Sullivan at center, also played well. The score at half time was 16-12, with 1922 leading, and although the Seniors evened matters soon after the start of the second period, they were unable to keep up the pace, and fell behind for the remainder of the contest.

The Junior-Freshman game was also close and well-played, although the Juniors never had any real difficulty in keeping the lead, and were ahead at the finish, 20-13. R. Readio played a fast game at left forward, and in addition to bagging three floor baskets, he also assisted considerably in the defense work. Whittle was also a consistent scorer. Sargent and Marsman were the bright spots in the yearlings' lineup, and accounted for all of the losers' points. The score at half time was 12-9 in the Junior's favor.

The speed developed in these two games promises a hotly-contested interclass series this year, and the teams seem to be so evenly matched that all the future games should be close and interesting.

NUMEROUS MAGAZINE TO RUN COLLEGE COMPETITION

Judge Appeals for Contributions. Prizes Offered.

Judge is going to hold a College Wits Contest, to be run on the same principles as an intercollegiate track meet. Pictures, poems, articles, and jokes are invited as entries in this contest, from undergraduates of all colleges.

All material accepted will be published in a special College Wits Contest Number of Judge, to appear March 6. Each contribution published will bear the name, class, and college of the contributor. And will score for his or her alma mater. And be paid for.

The best picture wins a silver cup. So does the best text contribution. The college making the best showing wins the large silver trophy for one year (it must be won three times for permanent possession.) All material entered in this contest must be received at the Judge office by Feb. 1; color designs (in all mediums) for cover by Jan. 15. Address, College Wits contest, 225 Fifth Avenue, New York City, in care of Judge, and enclose postage for return in case of rejection.

More than a Toggery—A College Institution.

WITH THE CLUBS

Ag. Ec. Club Formed.

A new club has been started on the campus—the Aggie Ec. Club. The committee detailed for formulating plans for the club met Tuesday night and elected the following officers: president, McGinnis '20; vice-president, R. Brown '20; and secretary and treasurer, Kimball '21. The meetings are to be held the second and fourth Tuesdays of each college month, beginning next Tuesday night when a speaker will be present.

The club will not be for major students alone, but any one interested in agricultural economics is invited to attend. One of the motives of this club is the employment service for the Senior major students.

Menorah Society.

At a meeting of the Menorah Society, Jan. 11, two study circles were organized: one for the study of Jewish history, and the other for the study of Zionism. These circles will meet every second week. On Wednesday, Jan. 1, Rabbi Prince of the Beth El Temple of Springfield will address the society.

Horticultural Manufactures vs. Cider.

The Pomology Club started the New Year with a very enthusiastic meeting last Tuesday evening in French Hall. Fifty-five were present to hear Professor Chenoweth lecture on fruit products. As Prof. Chenoweth is the leading man in this line in the country, he gave a very comprehensive talk on the past, present and future of horticultural manufacturing from the farmer's point of view. He compared this business with others of a similar nature and explained the fundamental principles upon which the industry is founded.

A discussion followed his talk and later he passed out some very appetizing samples of apple butter and apple jelly. All who were present were convinced that some really good products could be made on the manufacturing basis.

"Cider or Manufactured Products" will be the topic for a debate at the next meeting. Woodward, Harrington, Rinton, and Stowe will endeavor to find out which is the more economical way to use their cull apples.

The meeting will be in French Hall, Room F, at 7:30 on Tuesday, Jan. 20.

18.—Ernie Riter was on the Campus last Friday. He has a good position at the Falcon Flight Farm, Litchfield, Connecticut.

DR. ROBERT J. McFALL JOINS AGRIC. ECON. DEPARTMENT

To Take J. D. Willard's Place on Extension Service Staff.

The Extension Division of the Economics Department has been greatly strengthened by the addition of Dr. Robert J. McFall, who takes the position left vacant by Mr. Willard. He will assume his duties Jan. 15, and his work will be confined to this state.

Dr. McFall is a graduate of Geneva College, Beaver Falls, Penn. He took up graduate work at Glasgow University, Scotland, and also at Columbia University. At Columbia he received the degree of Ph. D. In 1915 he was a member of the Economics Department of the University of Minnesota. His special field there was transportation and commerce. In 1917 he was appointed chief of the Internal Trade Division of the Bureau of Statistics of the Dominion of Canada. From May 1918 until the office was abandoned, Dr. McFall served as Chief of Living Commissioner of Canada. He has published a volume on Railway Monopoly and Rate Regulation, in addition to writing articles on Food Regulation and Supplies for magazines and newspapers both in the United States and Canada. Dr. McFall has spent some time in Europe, where he has had the opportunity to become familiar with problems of agricultural economics on the continent.

PROPOSITION VI. WINS

(Continued from page 1)

A motion was made and carried that the student body proceed with the vote as previously arranged. The propositions and the vote of the Faculty and students are as follows:

Proposition 1.—I favor the ratification of the League and Treaty without amendments or reservations.

Proposition 2.—I am opposed to the ratification of the League and Treaty in any form.

Proposition 3.—I am in favor of the ratification of the Treaty and the League, but only with the specific reservations as voted by the majority of the Senate.

Proposition 4.—I favor any compromise under reservations which will make possible the immediate ratification of the Treaty and the League.

Proposition 5.—I favor the government's proceeding to make peace with Germany at once and leaving the question of a League of Nations to be settled afterwards.

Proposition 6.—I favor a compromise of the reservations of such a character as will avoid the danger of defeating ratification while still making clear that America can only be involved in war by a declaration of Congress, that domestic questions and the Monroe Doctrine are entirely outside the jurisdiction of the League, that plural votes of any member are all disqualified in the event of a dispute wherein we are disqualified from voting, and that on deciding to withdraw we are to be the judge of whether our obligations have been met.

The latest report from the Dean's office as to the standing of the vote on the Peace Treaty is as follows:

| | Faculty. | Students. |
|----------------|----------|-----------|
| Proposition 1. | 34 | 95 |
| 2. | 1 | 8 |
| 3. | 3 | 66 |
| 4. | 22 | 80 |
| 5. | 7 | 70 |
| 6. | 28 | 121 |

ROISTER DOISTER MANAGERS WANTED NOW

Sophomore Competition Now on.
Freshmen Competition Starts
With Prom Show.

Inasmuch as there is only one competitor out from the Sophomore class for the assistant Business Managership of the Roister Doister's, it has been deemed advisable by the general manager that a new call be issued for more men from 1922. Those intending to come out should report to Boardman 1920 immediately as the competition will only last until after the Prom Show.

Another call is also issued to Freshmen competitors who have not yet reported. The competition for Freshmen, however, does not start until after the Prom Show. The rules for the competition read as follows:

1. Competition for Manager shall start for Freshmen after the annual Prom Show.
2. At a meeting after the Prom Show the following year one of the candidates will be elected to serve as Assistant Manager in his Junior year.
3. The Junior Assistant Manager will automatically become General Manager at the same time.

CAMPUS NOTES

A new club made its appearance on the campus among the two year men and the unclassified men in the name of the "Colony Club," and so far has twenty members.

Two More Pledges.

Only two Freshmen pledged fraternities on the second pledging day, last Wednesday, January 7. Those men were C. A. Towne of Andoverdale, Q. T. V., and J. H. Burbeck of Peabody, Sigma Phi Epsilon.

Carlson Company's Projects.

The Ernest E. Carlson Company which is to construct the Memorial Building, has handled many recent construction jobs in Western Massachusetts; notably, an Exhibition Building for the Commonwealth, on the Exhibition grounds, West Springfield; a school for the city of Pittsfield; a laboratory building for the Springfield Armory; two theatres recently built in Springfield, and an office building for the Westinghouse Electric Company, Springfield.

ALUMNI NEWS

Alumni Day.

Among the alumni who have accepted the invitation of President Butterfield to speak at the M. A. C. Dinner on Friday January 23 are Mr. Herbert Myrick '82, and Mr. Myron Hazen '10. Mr. Myrick of the Phelps Publishing Company of Springfield has always been active in his interest in M. A. C. and is president of the Connecticut Valley Alumni Club. Mr. Hazen is president of the Coe-Mortimer Company of New York City and always has a message of interest to the students and alumni.

'07.—George H. Chapman, who is working for a New York engineering company on one of the largest tobacco plantations in Porto Rico, says that summer temperatures are prevalent on the island at the present time. Dr. Chapman's address is Cayey, Porto Rico.

'14.—Arthur Lundgren has been back on the campus for two weeks of intensive teacher's training.

'15.—S. D. Zehrung is with Phillips

& Wilcox, Landscape Architects, 1001 Kresge Building, Detroit, Michigan.

'16.—Ernest S. Russell of Hadley was recently elected overseer of the Hampshire County Branch of the State Grange.

INTERCOLLEGIATE NOTES

At Trinity it has been found necessary to appoint a student committee to keep the "confidential news" of the college out of the papers.

The University of Chicago has decided to play an eastern college eleven next fall in addition to the games on its regular conference schedule, and in December requested a game with Williams. Unfortunately no satisfactory date could be found, and in addition there was not time for the required action by the trustees; but evidently our neighboring institution in the Berkshire ranks well up in Western Conference football circles.

At Williams the plan of requiring the standing of Freshmen pledges to fraternities to be above a certain grade before initiation has been suggested in order to help prevent new and promising men becoming ineligible coincident with the rushing season. This plan would, it is believed, not only benefit the fraternity, but tend also to raise the general scholastic average of the college.

Acting Governor W. H. Ransome of New Jersey is quoted as follows concerning a college training: "There is a mighty strong call for college-trained men in public life today, and America needs such men who are willing to give of their talent for the betterment of mankind. I am not strongly in favor of specializing in college unless the student has a pronounced bent for some vocation, in which case the sooner he gets to work on it the better off he is. The building of as strong and broad a foundation as possible, upon which to erect a later structure of knowledge, is the wisest plan in most cases. College men should help to spread the gospel of hard work, for real success can come only in this way, and in America today there is a big place for the man of education and culture who can apply this rule, and give of his talents for the betterment of his fellow citizens."

The Freshman class at Williams is probably the first group of college students to take a psychology test. This same test is being given to a number of Freshman classes at New England colleges as an experiment in educational methods.

In New York state, professors and instructors of 16 universities and colleges have formed a union, affiliated with the American Federation of Labor, and all known as the Associated Teachers' Union Local No. 71. Recruiting for the organization is going on at Columbia, New York University, Cornell Medical School, Union Theological Seminary and Pratt Institute. The one strange feature is that in the constitution of the local strikes are specifically prohibited.

A boost for the Brown trip from the Dartmouth: "There are 22 Smiths in college, 19 are going."

From the Tufts Weekly, referring to the Aggie-Springfield game: "The result of last Saturday's game does show, however, the uncanny way the Aggie line has of breaking up the forward passing game. This is Springfield's long sult, and it was the defensive ability of the Farmer's line that held Springfield from scoring."

AMHERST SURPRISES AGGIE BY DEFEAT OF 3-1

Solid Defense of Amherst Counted
Against Long Shots.

In a game marked by long shots by
the Aggie, and a solid defense work
by Amherst, M. A. C. suffered the first
reverse in hockey of this season 3-1.
Despite the fact that the ice was not in
the best of shape, the game was fast.

During the first half, except for two
scorings when Amherst had a clear
field, the puck stayed in Amherst terri-
tory. Clean stops by Delahunt pre-
vented scoring by the Amherst team.
McCarthy several times got the rubber
within shooting distance, but on a pass
to a teammate, an Amherst stick spoiled
the chance for a score. The first half
ended with a score of 0-0.

Three minutes in the second half was
sufficient for Amherst to get one score,
and was enough to get two. From a
setback in the middle of the rink
Dowd raced the puck toward the Am-
herst goal, passed it to Leavitt and one
goal was counted for Aggie.

F. Davidson and Sisson, coverpoint
and guard for Amherst, broke up sev-
eral plays. Despite the fast work of
Leavitt and McCarthy, backed by Dowd
and Collins, Amherst edged the puck a
third time, just before the finish. The
final score was 3 to 1 in favor of Amherst.

The line-up:

AMHERST,
Metcalf, lw'
Clark, r
Burnett, c
A. Davidson, rw
F. Davidson, cp
Plumer, p
Sisson, g

M. A. C.,
rw, McCarthy
c, Snow, Mansell
r, Dowd
lw, Leavitt
cp, Crafts
p, Collins
g, Delahunt

Score—Amherst 3, M. A. C. 1. Ref-
eree—Begg. Timers—Marsh, Hicks.

HOCKEY TEAM BRINGS HOME CLEAN SLATE FROM BOSTON

Schedule Interrupted by Cancellation
of Two Games. B. C. Defeat-
ed by One Point, 5-4.

With the defeat of Boston College at
University Heights last Saturday after-
noon, the varsity hockey team ended a
very satisfactory three days' trip, and
finished the first week of the season
with a record of three games won and
none lost. The Maroon and White,
more or less an outfit of unknown
strength before the trip, proved their
mettle in the greater Boston district,
and their success of the past week
points to a good season, given sufficient
ice and the unstinted support of the en-
tire student body.

Starting on Wednesday the team
journeyed to Springfield, where they
Continued on page 21

FACULTY, STUDENTS, AND FRIENDS PAY LAST TRIBUTE

Gather at Phi Sigma Kappa House in
Memorial Service for the Late
George H. Richards.

Seldom, if ever, have any Aggie stu-
dents been privileged to attend a more
impressive service than that of last
Sunday evening at the Phi Sigma Kappa
house in memory of the late George
H. Richards of the class of 1921. This
group, gathered together to pay their
respects to the memory of George Rich-
ards as they knew him on the campus,
on the athletic field, in the classroom
and in fraternity and social life, in-
cluded members of the faculty, students
and friends.

The service began with a violin solo.
Following the reading of the scripture
by Dean Lewis, President Butterfield
gave a brief eulogy.

"The first feeling that comes to us all
at a time like this," he said, "is a sense
of personal loss, and the fact that
George Richards belonged to a fraternity
is indicative of how keenly his loss will
be felt by those with whom he was most
closely associated."

President Butterfield mentioned fur-
ther the sense of waste of life always
associated with the death of one so
young and at a stage of college life
when the plans, aspirations, and ideals
of future years are taking a definite
shape. He spoke of the uncertainty of
our lives and how we come to ad-
mire those who meet death fearlessly,
and in closing read a short poem en-
titled "The Stirrup Cup," being a vision
of the gallant of old drinking of the
cup of death with a fearless smile.

Donald C. Douglas, on behalf of the
Phi Sigma Kappa fraternity, thanked
the student body and friends for their
expressions of sympathy during the
fraternity's recent loss, and Dean Lewis
closed with the singing of "Abide With
Me."

FRESHMAN PLAY DEER- FIELD FRIDAY NIGHT

Visitors Will Give First Year Men
Hard Work.

The first scheduled Freshman Basket-
ball game of the season will be played
in the M. A. C. Drill Hall, with Deer-
field Academy, at 8:30 p. m. Friday,
Jan. 23, directly after the Alumni Din-
ner at Draper Hall. The Deerfield
quintet has exhibited its usual strength
and has won all the games that it has
played this season. The yearlings are
expecting plenty of opposition. During
the past few weeks, however, the Fresh-
men have been working conscientiously
and with Captain Tumey at center, Sar-
gent and Alger or Alexander as forwards,
and with Grayson and Hale or Latour
as guards, it is expected that the visit-
ing team will be forced to the limit to
win this encounter.

AMHERST TO BRING TEAM OF FAST VETERANS

Old Rivals will Make Strong Bid for
Victory Tonight in Drill Hall.

M. A. C. will clash with its oldest
rival, Amherst, on the Drill Hall sur-
face this evening. This will be Aggie's
fourth game. The team is out to get
revenge for the contest last winter,
when Amherst won by one lone tally.

The Amherst aggregation has played
but one game, that with Springfield
last Saturday, and was handed a 59-40
defeat. In spite of the apparent differ-
ence in scores, the game was very fast,
and the winners were obliged to play
at top speed throughout. The Amherst
team is composed almost entirely of vet-
erans, and has developed fast passwork
and an admirable five-man defense.

Kennedy and Eames, in the forward
positions, are both good men, and scored
18 and 14 points, respectively, in the
Springfield game. The latter was the
star of the interclass series, which is
held at Amherst before the varsity sea-
son starts. Horgan seems to be the best
bet at center, while Card and Palmer
hold down the defensive berths. May-
nard, one of the Saltrina's best athletes,
plays both at center and at guard.

Although Aggie has been defeated in
two games this season, the team seems
to be coming more and more into good
form, and should give Amherst a set-
back Wednesday. Gowdy, at left back,
who has been keeping his opposing for-
ward's fallies down to an almost min-
us quantity, can be depended on to prevent
Kennedy from doing much damage.
Siedman and Lent are also improving
their defense game. Center, the posi-
tion which the loss of S. V. Smith ren-
dered alarmingly weak, is now filled by
either Kroeck or Thompson. The for-
mer was used for the first time in the
Worcester game.

The team's pass work has never been
lacking. Both Pond and Grayson have
shot well in the last two games.

This Wednesday's contest has all the
indications for being one of the liveliest
of the year, and there is every reason to
think that Amherst may be sent home
with a defeat.

CLUBS PLAY IN HOLYOKE CITY HALL FRIDAY

Special Car Leaving Holyoke At Mid-
night Will Bring Home Dancers.

Next Friday evening, Jan. 23, at 8:00,
the combined musical clubs will give
their annual concert at the City Hall,
Holyoke, Mass. About 40 men are ex-
pected to make this trip, a list of whom
will be posted later. Since their last
concert in Amherst, the clubs have kept
in training by their weekly rehearsals,
and they are now ready to make the
Holyoke trip as successful as the pre-
vious trips of the season.

There will be a special car leaving
Holyoke for Amherst at 12:00 for those
wishing to stay after the concert.

ALUMNI DAY LOOMS BIG FOR AGGIE MEN

Sports, Concerts, Banquets, and Get-
togethers in General will
be Lively.

On Friday and Saturday of this week
the college is going to open wide its
doors and show everything, faculty, stu-
dents, classes, athletics, non-athletic
activities and a good time to an un-
usually large number of alumni who are
expected to be present for the Seventh
Annual Alumni Day.

Attractions? Yes, if they are needed.
Boston College was beaten in hockey
last week 5-4 in a 17 minutes overtime
period. Saturday afternoon they are
to be played on our own Pond Rink.
Then, too, there is Tufts again in bas-
ketball and Tufts is Tufts.

There is an M. A. C. dinner. "M. A.
C." because faculty, alumni and stu-
dents are all invited. Herbert Myrick
'82, of the Phelps Publishing Company
of Springfield and publisher of the
New England Homestead, Myron Hazen
'10 president of the Coe-Mortimer Fer-
tilizer Company of New York City, Er-
ford W. Poole '06, architect and engi-
neer of New Bedford and Sumner A.
Dole '15, assistant county agent of Ber-
shire county and center on the well re-
membered 1915 team are to be the
speakers.

These men are all interested and loyal
alumni of the college and their talks
will be of interest to everyone. After
the dinner comes a Freshman-Deerfield
basketball game and at Aggie a Fresh-
man game means a great deal. Fresh-
men are not eligible for varsity ath-
letics until the third term. That helps
for truly representative, non-professional
varsity teams, but Freshman teams are
possible and clean, fast contests are
staged with neighboring preparatory
schools that train future varsity ma-
terial. The Freshman opponent in this
contest, Deerfield Academy, has a repu-
tation as a snappy fighting aggregation
that is always welcome on Aggie's floor
and a clean game can be counted on.

The Musical Clubs concert and the
fraternity banquets are not the least
interesting events on the program.

Some one has said "There are friends
and there are college friends." Alumni
Day is set aside as an opportunity to
meet those college friends again.

Notice to Alumni.

It is important that alumni register
at the Alumni Office, No. 2, South Col-
lege, first entry as soon as possible after
arrival at Amherst. Here tickets will
be issued for the personal use of Alumni
that will admit to the various events on
the Alumni Day program. Here also
Alumni will find many things of inter-
est to the Alumni organization and can
learn the latest facts concerning the
progress of the Memorial Building pro-
gram and other alumni enterprises.

HOCKEY

(Continued from page 1)

lined up against the Y college outfit that afternoon, and gained a 6-0 victory in this, their first game of the season. The allround playing of the Maroon and White was first class, and the offensive power and team work of the forward line good, especially in the second half, when five of the six tallies were registered.

The cancellation of the encounter with Tufts, scheduled for Thursday, gave the team a layoff. M. I. T.'s cancellation of their tilt with Coach Mansell's charges, which was due to the death of President MacLaurin of Technology, necessitated the substitution of Boston University for the Cambridge team. This cancellation spoiled what promised to have been a fast game, for the two teams have played several close matches in past years. Coach Bland of B. U. had been able to give his team but one practice session previous to the Aggie mix, and though they played a hard game they were outclassed by the up-state outfit, the final score being 10-2.

By far the best game of the trip, and the most keenly appreciated victory of all three, was that over Boston College on Saturday afternoon. The teams were evenly matched and it took 57 minutes of actual play, 17 minutes of overtime, before McCarthy slipped the winning tally past O'Brien. This game was a battle royal from start to finish, with Boston College displaying a real comeback in the second period that made the extension of time necessary.

The Maroon and Gold sextet proved to be a hard proposition, so the game was hotly contested from start to finish. In spite of the snow and ice, which made good team work impossible, the affair was fast and furious all the way. Garrity made it first score for Boston College in four minutes from the start, and ten seconds later McCarthy banged one into the cage, tying the score. Just after the middle of the period Leavitt scored a second tally for the Maroon and White, only to have Hughes immediately make the score two all. Two minutes later the speedy Aggie left wing duplicated his preceding shot, and just before the half ended Dowd added another tally for M. A. C., making the score 4-2.

Coach Falvey's puck shooters were not to be denied, and Hughes, Healey, and Capt. Morrissey twice worked the rubber by the Aggie defense and into the cage immediately after the beginning of the second period. With the score four-all no further scoring was done and a five minute period was agreed upon. The puck traveled the length of the rink, from one goal to the other, without a score. After playing a second five minute overtime period, Captains Crafts and Morrissey agreed to

a sudden death period. After seven more minutes, from a scrimmage in front of the Boston College goal, McCarthy took a short pass and shot the puck by McCloskey for the winning score.

The lineup:

M. A. C. BOSTON COLLEGE
Delahunt, g. McCloskey, O'Brien
Dowd, p. p. F. Morrissey
Collins, cp. cp. L. Morrissey
McCarthy, rw. lw. Garrity, Corrigan
Mansell, c. c. Hughes
Leavitt, lw. rw. Healey

Score—M. A. C. 5, B. C. 4. Goals—McCarthy 2, Leavitt 2, Mansell, Garrity, Hughes, Healey, F. Morrissey. Referee—Carlton. Time—two 20 minute periods, two 5 minute overtime periods, and a 7 minute sudden death period.

TUFTS OUTSHOT BY**M. A. C. RIFLE TEAM**

Score 482 to 467. Aggie off Form. The M. A. C. rifle team started the season Thursday, Jan. 20, with a win over the Tufts aggregation. Both the score of the first five and the total score of the ten men shooting were greater than those made by Tufts. The final score was, for the first five men, Aggie 482; Tufts 467; for the ten men, Aggie 924; Tufts 890.

The M. A. C. team has been rounding into shape and the first match gives encouragement for a successful season. Manager Lambert has arranged matches with Boston Revolver and Rifle Club, Jan. 31; Harvard Rifle Club, Feb. 14; M. I. T. Rifle Club, Feb. 23. These matches are to be preliminaries before the regular intercollegiate matches.

Aggie's Great Loss.

The news of the sudden death of George Richards last Tuesday was a shock to every one who knew him, and especially to his many intimate friends who had not even heard of his illness until word was received of his sad departure.

The loss of so splendid a character is keenly felt by the entire student body. He had a winning personality and his ready wit and ever present humor made him a delightful companion. The earnestness with which he attacked every problem, his good judgment, his warm heart won him the confidence and respect of all with whom he came in contact. He was a valuable man both to the college and to the class. Words cannot adequately express our sorrow.

Hockey Team's Success.

The three victories which the hockey team won on its trip last week came as welcome news to all Aggie men. Such a record at the very beginning of the season certainly augurs well for the remaining games on the schedule, and there is every reason to believe that the team will continue to be highly successful. The reputation which the team is earning for M. A. C. this winter reminds us of former days when the Maroon and White seven had the distinction of being one of the fastest and best teams in intercollegiate hockey. Aggie has always held an enviable position in this sport, and with the backing and renewed interest of the students this winter the squad should live up to the high standards of preceding teams. As practically every man will be back next year, the prospects are excellent for attaining an even higher standard another year, and it is hoped a strong schedule can be arranged.

NOTICE

There will be a Chemistry Club meeting on Wednesday evening, Jan. 21, at 7:30 p. m. The Social Committee has assigned articles which will be read and discussed at this meeting.

TUFTS WILL MAKE HARD FIGHT FOR BIG GAME

Has Won Two and Lost One Game So Far.

Reports emanating from the "Hill" indicate that M. A. C. basketballers are to meet stiff opposition Saturday in their game with Tufts. However, the paper work sifts the dope down until it gives Aggie the shade over the wearers of the Brown and Blue.

Tufts has won two of her games and lost one. She defeated B. U. Law School, 28-22, R. I. State, 41-23, but was taken into camp by the N. H. State aggregation, 35-25. Tufts has been most unfortunate this year in the loss of Eager by death, and Captain Sampson by accident. Both were speedy forwards. These men have been replaced by Farren and Cohen. The former hooped nine baskets against R. I. State; the latter teamed up with his brother, and the three together form a formidable trio. The strength of the Tufts team lies in its adeptness in the passing end of the game, and in good shooting.

M. A. C.'s season has so far been slightly below par, but with more practice and a few shifts in the line-up, this will be remedied. Captain Grayson will, in all probability be shifted to guard, his old position, and Armstrong or Smith replace him at forward. Aggie's strength has been in her defensive power but she has been weak on the offense, especially in passing the ball. With Grayson in his old position and with other changes noted, a snappy offense should develop.

CAMPUS CALENDAR.

WEDNESDAY, JAN. 21.

8:00 p. m.—Basketball, M. A. C. vs. Amherst, Drill Hall.

THURSDAY, JAN. 22.

6-10 p. m.—Lecture by Dr. R. H. Seerley, Stockbridge Hall.

7:00 p. m.—Chemistry Club meeting in Chemical Lab. Informal.

7:30 p. m.—Interclass basketball games, Drill Hall, 1922 vs. 1920, 1923 vs. 2 yrs.

FRIDAY, JAN. 23. (ALUMNI DAY)

6:00 p. m.—M. A. C. Dinner in Draper Hall.

8:00 p. m.—Musical Clubs concert in Holyoke City Hall.

8:30 p. m.—Freshmen vs. Deerfield Academy, Basketball Game Drill Hall.

SATURDAY, JAN. 24. (ALUMNI DAY)

9:30 a. m.—Alumni Round Table in Room 114, Stockbridge Hall.

2:00 p. m.—M. A. C. vs. Boston College Hockey Game, Campus.

3:00 p. m.—M. A. C. vs. Tufts Basketball Game, Drill Hall.

5:00-6:00 p. m.—Musical Clubs concert, Stockbridge Hall.

8:00 p. m.—Fraternity banquets.

SUNDAY, JAN. 25.

9-10 a. m.—Chapel. Speaker, Dr. W. E. Strong.

TUESDAY, JAN. 27.

6-10 p. m.—Americanization Lecture, Dr. Bohner, Old Chapel.

WEDNESDAY, JAN. 28.

3-10 p. m.—Assembly.

7:00 p. m.—Animal Husbandry meeting, Stockbridge Hall.

Q. T. V. fraternity held a house dance Saturday which was a very enjoyable occasion. Seventeen couples were present with Mrs. C. S. Hicks as chaperone.

STEERING COMMITTEE ELECTED

A steering committee to investigate possible plans for commencement was elected by the senior class at a recent meeting. The committee includes Campbell, Horne, Frellick, Maples, and Meserve. It will report at a smoker to be held sometime next week.

Burns was elected manager of the class basketball team.

Kappa Sigma fraternity announces the pledging of John McKee Whittier '23 of Everett on Wednesday, Jan. 14.

TO BE EXPECTED

You possibly have wondered why dairymen who use

are so much more successful and prosperous than those who do not. There is nothing unusual about this when you consider the many advantages that are derived from the use of this material.

This cleaner thoroughly removes all objectionable and fermentative matter from dairy and creamery apparatus, leaving it pure, sweet, sanitary and clean, which is the condition most desired for the production of dairy products of the highest quality. It also proves to be an economy of considerable importance, because of the saving in time, labor and cleaning material necessary to fully accomplish your cleaning needs.

Make Sure of Your

DE LAVAL

Cream Separator
Early in 1920

There's no happier or better way of starting the New Year right than by making sure of a new De Laval. If you are either without a cream separator or are using an inferior or half-worn-out machine that should be replaced.

For three years now, thousands of those who wanted a De Laval have had to wait weeks for it and many have had to buy a second-grade separator. The demand has simply exceeded the possible supply, though more De Laval have been made each year than ever before.

More and better De Laval have been made this year than ever before—as many as available plant additions and skilled workmen can produce—but the demand gives every indication of being even greater still.

Order your De Laval now. Make sure of getting it. Let it save half its cost by buying.

See the nearest De Laval local agent at once, or write the nearest De Laval office below for any information desired.

THE DE LAVAL SEPARATOR COMPANY

165 Broadway 29 E. Madison St. 41 Beale St.
New York Chicago San Francisco

The origin of the name "worsted" has always been a matter of some controversy, but the better opinion is that it is derived from Worsted, a village, once a brisk centre of the woolen industry about a dozen miles northeast of Norwich, England.

It was there, so they tell us, that worsted yarns were first woven. English worsteds are world known for their quality.

That's why we import them and make them into Rogers' Feet socks.

The best of everything college men wear.

ROGERS' FEET COMPANY

Broadway at 13th St. "The Four Corners" Fifth Ave at 41st St.
Broadway at Warren

NEW YORK CITY

YOU'RE NOT IN SIBERIA

IT'S an Amherst winter that's nipping your ears and steaming your breath. But your haberdasher has mixed up the geography and brought Florida sunshine to the Connecticut Valley in the wearable, portable form of Sheep-lined Coats. Ask any man who wears one.

BATES REPLACES DARTMOUTH ON FOOTBALL SCHEDULE

First Two Games To Be Played At M. A. C.—No Game Scheduled With Amherst.

The football schedule which comprises eight games for the season of 1920 has been arranged by Manager Fuller and General Manager of Athletics Hicks. The schedule is the same as that for last fall, except that Dartmouth has been replaced by Bates.

LORENZO FULLER '21
Manager of Football.

Four games will be played on the home grounds and the pilgrimages to Springfield and Medford will be made as usual. The opening game will be played at M. A. C. with the Connecticut Aggies. This will be followed by another home encounter with Bates. The latter should prove a worthy rival as it was a contender for the State Championship in Maine. The New Hampshire State contest will be played at home, and as the event falls on the same day as that of the Memorial Building dedication, it will doubtlessly be the big home game of the season.

Because of the early completion of the Aggie schedule, games with many institutions had to be turned down, including West Point, Boston College, Dartmouth, Brown, Detroit, and Michigan Aggies.

The prospects for a successful team are very good, as seven letter men are returning and there are many consistent workers on the second and third teams and candidates from this year's Freshman team from which material for a good eleven can be built.

The schedule announced is as follows:

Oct. 2 Conn. Aggies at M. A. C.
" 9 Bates at M. A. C.
" 16 W. P. L. at Worcester
" 23 Vermont at Burlington
Nov. 6 New Hampshire at M. A. C.
" 13 R. I. State at M. A. C.
" 20 Springfield Y. M. C. A. at Sp'd.
" 27 Tufts at Medford

CORRECTION

A mistake has been made in the Baseball schedule printed in last week's COLLEGIAN. The game with Rhode Island will be played at Kingston, R. I., not at M. A. C.

AGGIE PLANS TO REPEAT HER VICTORY OVER B. C.

Newton Highlands Aggregation Coming Here for Vengeance Saturday.

Saturday afternoon Boston College will be lined up against Aggie on the ice for the second time this season. Last week at Boston the two teams played 52 minutes before either team became victor in a "sudden death" period.

The team will have an enthusiastic group of alumni watching the game, who have watched Aggie's record thus far this season with pride. The team, this year, has showed up well in comparison to former Aggie hockey teams.

The Boston College team is composed of larger men than the home team is but M. A. C.'s better team play and alertness has offset this factor. The playing of Leavitt at left wing against Healy is worthy of note. The combination of Healy and Garrity for B. C. netted that team two of its four scores.

Yet Mansell, McCarthy, and Leavitt worked throughout the game like a well oiled machine. It was only the less defensive work of McCloskey that prevented Aggie's further scoring, for the forwards and center tried a number of shots from the sides that McCloskey stopped.

The goal work of Delahunt was also good. Both Hughes and Norrissey are fast men in an open field, and should they break from the crowd they will surely show Amherst people an exhibition of good carrying down the ice.

Nothing can be predicted as who is likely to win Saturday. Both teams have proved to be of nearly equal strength, so that it will be a case of who has the edge in the pinch. Our team, under Coach Mansell, has been working well together, while the Boston team has the edge in weight. In any event the game will be a close, scrappy contest that will promise a lot of good hockey.

LANGUAGE BRINGS OUT THE MAN'S CAPABILITIES

Prof. Bohner of Springfield Criticizes The Present Text-book System Of Teaching.

Tuesday evening, Jan. 13, the second of the series of lectures on Americanization which is being given under the direction of the Y. M. C. A. was held in the Social Union room at 6-10 P. M. Mr. Bohner, Secretary of the Associated Industries of Massachusetts, spoke on the "Miracle of Language", and showed how a knowledge of English was necessary for the man working in the factory who hoped to get further in the world than his own machine. The man who can understand English can talk with his fellow workers and learn from them as well as read up on the subject and make himself capable of going on to a better position. It is necessary for the efficiency and safety of the whole factory.

He then went on to the teaching of the men by the objective method. Here he pointed out that the men are given text books made for the industry in which they are engaged and in this way learn the words which are used in that industry.

AGGIE BOWS TO WORCESTER'S TRUE SHOOTING TEAM

But M. A. C. Holds Opponents to a Score of 26-13.

Worcester Polytechnic Institute defeated M. A. C. in basketball, on the Worcester surface, last Saturday, Jan. 17, by a score of 27-13.

Although the score would seem to indicate a rather decisive victory for W. P. I., the difference in basketball ability was so little that the game was played at top speed, from the first to the final whistle. The team work developed by the Worcester team was generally admitted to be the best developed there for several seasons.

It was only in basket-shooting that Aggie was inferior. A great many shots from the floor were attempted but missed, and only a very small percentage of the free tries were turned into points. The pass work was excellent for both teams.

M. A. C. excelled in the defence. Time after time plays that would have brought Worcester tallies were broken up by the clever work of the Aggie guards. Worcester gained the lead in the first part of the tussle, and was never headed.

Stoughton and Berry were the mainstays of the Worcester aggregation. Pond and Grayson played especially well for M. A. C. Kroeck was used in center for part of the game, for the first time this year, and played a good offensive game.

Coach Emery Grayson and his charges do not feel displeased at the result, as the strength of the Worcester team on its own floor was well known, and, everything considered, M. A. C. showed better basketball than at any previous time this season.

The lineup:

| | W. P. I. | B. C. | F. | Tu. |
|---------------|----------|-------|----|-----|
| Campbell, rf | 0 | 0 | 0 | 0 |
| Whelpley, rf | 0 | 0 | 0 | 0 |
| Stoughton, lf | 3 | 0 | 6 | 6 |
| Berry, c | 6 | 3 | 15 | 15 |
| White, lf | 0 | 0 | 0 | 0 |
| Archibald, lf | 3 | 0 | 6 | 6 |
| Totals, | 12 | 3 | 27 | 27 |

M. A. C.

| | B. C. | F. | Tu. |
|-------------|-------|----|-----|
| Gowdy, lf | 0 | 0 | 0 |

| Grayson, lf | 3 | 0 | 6 |
| Pond, rf | 3 | 0 | 6 |
| Totals, | 6 | 1 | 13 |

Score at end of first half, W. P. I. 16, M. A. C. 8.

1922 STEPS OFF

At the meeting of the Sophomore class held in Stockbridge Hall, last Friday afternoon, plans were discussed for the Sophomore-Senior Hop. Ideas for the Arena Party and exercises for the edification of the offending Freshmen were also brought forward. A committee of five men was appointed to draw up a petition asking that the work in Agricultural Economics be alleviated.

1922 INDEX COMPETITION NOW UNDER WAY

Lasts until March 13. Twelve Editorial Positions Open.

Competition for the editorial section of the 1922 Index commenced Wednesday Jan. 14, at 4 p. m., and will last until Friday, March 13, at 5 p. m. The competition is being held under the general direction of the 1921 Index Board, and the following positions are open:

Literary department, 4.
Statistical department, 4.
Art department, 4, (including one photographer).

All desiring to compete will hand their names, immediately after the start of competition, to B. F. Jackson, editor-in-chief. It is desired that names be turned in as soon as possible in order that competition work may be evenly divided.

The competition for the business department has already commenced, but more men are needed, so that there may be sufficient material from which to build up a successful department.

SENIORS WIN GAME FROM JUNIORS 26-16

Two Year Men Show Lack Of Shooting Ability.

Two good class games were played last Thursday evening, Jan. 15, in the Drill Hall. 1920 defeated 1921 with a score of 26-16, and 1922 beat the two year team 16-10.

Crowe and Lothrop started for 1920. Crowe shot a total of five baskets, and Lothrop was very accurate on the free tries from fouls. Two sensational baskets made by Casio '21 were features of the game. Whittle '21 and Davis '21 played well, not only on the defensive, but also the offensive where their fast footwork was very noticeable.

The Sophomore-two year game was close and was marked by close blocking by both teams which kept the scores from becoming very large. Wentch and Stevens played well for the Sophomores, each making two baskets. The two year men were weak when it came to shooting baskets. Allen and Gerard showed the best form on the team.

"ROCKED IN THE CRADLE OF THE DEEP," WELL SUNG

Dr. Clark of Pilgrim Quartet Pleases Large Audience.

The second of the series of Social Union entertainments for the term, given by the Pilgrim Quartet of Boston, was held in Bowker Auditorium last Friday evening at 7 o'clock. In spite of the disagreeable storm outside, the students turned out almost in a body and were well repaid. The concert was well varied, from folk songs and ditties to more classical pieces, and several encores, both for solo and quartet pieces, were called forth by the prolonged applause of the students.

The hit of the evening was undoubtedly "Swanee River," which was rendered with great skill by the quartet. The singing of "The Deep Cold Sea," by the bass, Dr. Clark, was a great success, and he was called back to give "Rocked in the Cradle of the Deep" as an encore. The solo, "Loch Lomond" by Mr. Fitzgerald, was also unusually well given. The "Southern Medley," by the quartet, including several old dapper plantation songs, proved popular; and "Annie Laurie" with variations closed the program.

The clever acting of the members of the quartet, especially the pianist, added much to the more humorous pieces, such as the imitation of bagpipes, and they gave the students much entertainment.

J. STITT WILSON, SOCIALIST,
COMING FEBRUARY 6-9

Y. M. C. A. Plans for Institutes. Arrangement Committee Appointed.

Plans are now well under way for the Institutes on Conscience Christian Democracy to be held here by Hon. J. Stitt Wilson of California, Feb. 6 to 9 under the auspices of the Y. M. C. A. The work of preparation has been assigned to various committees under the following chairman: Arrangements, Goodrich '20; entertainment, Mackintosh '21; program, P. A. Read '20; publicity, Mellen '21; prayer, Luce '20. The chairman with Mr. Fielder will comprise a general committee with Lyons '20 as chairman.

About 12 younger Christian leaders are being asked to come at the same time to hold personal conferences on the Christian life and the committee will request the various fraternities to provide entertainment for their leaders during their stay. Further details are to be published at a later date.

FRESHMAN SHOW PROGRESSES

At a 1923 class meeting, Tisdale was elected Freshman Hockey manager, and Rihem was elected class cheer leader. Friend, chairman of the dramatics committee asked for suggestions for the Freshman play. Men were nominated for a committee to draw up by-laws for the class.

At a meeting of the class held on Friday, Jan. 16, five men were elected for a committee to draw up the class by-laws, and another committee of five was elected to nominate new class officers. It was also voted to send flowers to C. B. Johnson, who is at the hospital.

The preliminary number of the "Journal of Information and Opinion on the World Aspects of Agriculture," a publication of the World Agriculture Society, appeared at the close of the Christmas recess.

WESTERN LIVESTOCK SHOW PURELY AGRICULTURAL

Side-shows Seldom Seen,—Never to the Extent That They are Seen in Eastern Fairs.

The Animal Husbandry Club held a meeting in the Bowker Auditorium on Wednesday evening, Jan. 14. The speaker of the evening was Professor J. C. McNutt, who spoke about the Live-stock Shows in the United States.

After calling the meeting to order President Harvey briefly outlined the work of the club for the term. Several prominent livestock men are expected to address the club. On January 28, Professor Thomas Elder, who built up the famous Mt. Hermon herd of cattle, will give a talk on "How He Built Up His Herd." Later on in the term the club expects to have Mr. E. S. Archibald, who was Animal Husbandman for the Dominion of Canada, and who now directs the experimental work there; and Mr. James Dodge of the Hood Farm. Meetings will be held every two weeks. Professor McNutt was then introduced as the speaker of the evening.

He told first of work last fall when he judged over twelve hundred cattle. He then told of the purpose of livestock shows, which is to show good animals, and compare them with others. In this way competition is stimulated, and so better animals are grown. Livestock shows are useful in an educational way. Men show their livestock for the advertisement which they get, and also for premium money.

The difference between western and eastern shows was another point which he brought out. In the West the shows are purely agricultural and the larger part of the attendants are country people, while in the East there are many side-shows which detract from the main show, and city people make up the greater part of its attendants. In the Western shows there is much greater competition as each class of animals to be judged is large. There are usually three men to judge each class of animals and their responsibility is very great.

There was a good attendance at the meeting, over one hundred twenty-five being present.

Prof. Elder From Mt. Hermon.

There will be a meeting of the Animal Husbandry Club, Wednesday, Jan. 28, at 7:30 p. m. in the Bowker Auditorium. The speaker for that time will be Professor Thomas Elder of Mt. Hermon. Professor Elder is an authority on the subject and to him is credited the building up of the fine herd at Mt. Hermon.

SOPMORE HOCKEY TEAM ELECTS HASKINS CAPTAIN

Hockey Interest Runs High—Practice Stiff.

Candidates for the Sophomore Hockey team were called out last week by Manager Tucker. In spite of bad weather conditions the Sophs. have staged two stiff practice bouts, enough to get a line on the men out. With the variety going in winning style, interest in hockey is running high and the class games this year bid fair to attract considerable attention among the sporting lights of the college.

Phil Haskins will captain the Sophomores this year. The men out thus far are: Swift, Tucker, Aheson, Farewell, Haskins, Randall, Lindquist, Arms, Wentch and R. P. Smith.

DEPORTATION IS FUTILE ASSERTS REV. PIERCE

Dorchester Man Likens Occasion For Deportations To Purpose Of Great Flood.

Rev. Jason N. Pierce, in his address in Chapel, Jan. 18, maintained that this government was wrong in its treatment of the Socialists, and offered a remedy for this condition.

As a text, he read the story of Noah and the ark, God's hostile attitude toward man, the coming of the flood, and then the rainbow and God's covenant with man.

Was the recent Soviet ark a good thing? It was an object lesson for traitors to the government; but, like the great flood, it was futile. For the ideas cannot be deported; God saw he could not cure men by exterminating the leaders of evil practice. The conditions remain unchanged by deportation; so Noah fell back into the same habits after the flood. A change of conditions alone will bring about a change of ideas; so God gave us the conquering truth of religion to use and make the world better.

Science gives us power; art gives us direction for that power; religion gives us greater power, truer direction. The man who really finds himself is he who loses himself; the truly great man is he who knows how to serve his fellow men. The country's great need today is for MEN.

CAMPUS NOTES

At a meeting Sunday, Jan. 18 the COLLEGE Board voted unanimously in favor of establishing a credit system in non-athletics, each activity to count certain number of credits and the non-athletic medals to be awarded on the basis of the number of credits. The board was also in favor of changing the form of the medals from a fob to a pendant and of doing away with the present bronze medals. In its place would be substituted a silver medal requiring a somewhat higher standard of work while in special cases or for a higher number of credits gold medals would be presented.

Of the twenty-one specialists employed in the Extension Department, eleven are being actively considered for positions elsewhere paying from \$400 to \$4000 more than they are now receiving. Three resignations have been received in the last few days.

Lawrence Bevens '13 has been appointed county agent of Norfolk county to succeed Willard Munson '05 who has been made chief of the Bureau of Markets of the Massachusetts Department of Agriculture.

Frederick E. Cole '20, President of the Pomology Club has been awarded a silver loving cup with this inscription on it: Awarded to Frederick E. Cole for Highest Individual Score, Intercollegiate Apple Judging Contest, Providence, Rhode Island, Nov. 15, 1919. Cole has also done good work in many other contests, but did especially well in this one as shown by his fine award.

Sam Higginbottom To Address Mid-week Meeting.

Wednesday, Jan. 21, Mr. Sam Higginbottom of Allahabad, India, will speak at assembly and at the Y. M. C. A. mid-week meeting, Old Chapel, at 6:45 p. m. This meeting is open to the general public. Mr. Higginbottom is the outstanding agricultural missionary of the world, and has done great work in India by introducing eastern methods of farming.

**DR. SEERLEY ON CAMPUS
WITH STRONG APPEAL**

Begins Course Of Lectures On Personal Hygiene. Second Talk Tomorrow.

Last Thursday evening at 6-10 Dr. Seerley of the Springfield Y. M. C. A. College gave the first of his series of lectures on personal hygiene to about 200 of the men students of the college. Dr. Seerley spoke at Aggie several years ago, and has become well-known through his work at Springfield and across the water. He knows how to present his subject, and anyone who kept away because he had heard enough of the matter in the army is able to profit by the talks of one who knows how to present the subject in the proper light.

The second of the series of lectures will be next Thursday at which time Dr. Seerley will take a vote of the students to see if they wish the series extended to five lectures or to have them discontinued. He expressed a wish that more would attend the next talk.

**DR. R. R. PARKER, AGGIE '12,
IS GIVEN HIGH HONOR**

Is Sent to Poland to Investigate the Spread of Typhus Fever.

Dr. R. R. Parker, M. A. C. '12, in charge of entomological investigation in the Bitter Root valley of Montana for the past few years and assistant to the state entomologist, has been chosen a member of a North American commission of three experts to take up investigations of the spread of typhus fever in Russia and Poland. Dr. Parker left his home last week for New York, from which he sailed for Poland about Jan. 15.

The honor accorded Dr. Parker is the result of his very notable work in the Bitter Root valley. His work on the spotted fever problem throughout entomological study, has been of great service to the state and has gained him recognition throughout the nation. His announcement one year ago of a theory that the rabbit is the natural reservoir of the spotted fever germ and that the disease is only transmitted by the tick, won him the attention of entomologists in the east.

Dr. Parker goes to Poland under the definite understanding that he is to be released in April to return to this work in America.

No. 15

ARRANGEMENTS NEARLY COMPLETE FOR INSTITUTE

Four Day Program on Constructive
Christian Democracy Grow-
ing in Favor.

The Hon. J. Stitt Wilson of Berkeley, Cal. will hold a four days Institute on Constructive Christian Democracy in Stockbridge Hall, Feb. 6 to 9, under the auspices of the Y. M. C. A.

Mr. Wilson is a graduate of Northwestern University and has the degree of M. A. from that institution. While a student at that University his work brought him in contact with the suffering peoples of the slums. They touched his heart, and drove him to the study of the causes of their misery. This led him to Europe, and he lived for three years in the slums of London. He became closely identified with the early growth of the British Labor Party and counts among his friends such men as Henderson and Thomas. Throughout his 18 years in Europe, he made addresses all over the continent and in many places in the British Isles. During a series of coal strikes, he spoke

Hon. J. STITT WILSON

in every community in South Wales. In America he has spoken before every kind of national, labor, political, and church convention.

Mr. Wilson has steadfastly refused political preferment, with one exception when he became mayor of his home city, Berkeley, Cal., which office he held for three years.

During the last two years he has devoted a great deal of his time to speaking to the students of America, especially in the South and West. He made made a tremendous impression upon our delegates to the Northfield Conference last summer. The warmth of his heart draws people to him; his humor and wit are always alive and to the point; his arguments are clear and forceful; he is full of fight. He makes

(Continued on page 7)

TUFTS FAILS TO THREATEN AGGIE CHANCES OF VICTORY

Team Attains and Passes Fighting
Standard of Former Years.
Win 31-22.

The M. A. C. basketball team chalked up one more tally to its credit Saturday when it defeated Tufts 31-22. With her defense, comparatively impenetrable, the game was wholly Aggie's from the middle of the first half on.

During the first few minutes of play the attack of the visitors dazzled Lent and Gowdy, performing in the backfield. But after a short period of this they were breaking up the plays in a manner good to look at. From this moment on there was little to it.

Aggie's first point came after two minutes of play when Pond hooped a foul action for the total count of six. At this point the visitors made good use of a few lucky chances and raised their ante to seven. Here the game "broke", and Tufts never came within halting distance of the Aggie score.

Individual honors should go to Pond who sunk 11 from the foul line and four from the floor. For clever work the whole team should be cited. The defensive powers displayed by Gowdy and Lent forced the visitors into trying the longer shots, especially noticeable in the last half. Thompson and Grayson were in the limelight with their clever passing and several difficult shots.

For Tufts, Farver and Sampson take the crown. The former scored nine of the visitors points, while the floorwork of the latter was of a high order.

The game was witnessed by a capacity audience, who entertained themselves between the halves with a few songs. A large percentage of Alumni were present. The line-up:

| M. A. C. | G. | F. | Pts. |
|-------------------|----|----|------|
| Grayson, lf | 3 | 0 | 6 |
| Pond, rf | 4 | 11 | 19 |

The Commons Club Initiation banquet was held at the Orient, Holyoke.

MAINTAIN STIFF ELIGIBILITY RULES, URGES DOLE '15

Hazen '10 Calls Upon Aggie Men To
Thwart Radicals.

"Athletic eligibility rules at M. A. C. are as they should be and the general management of athletics and the policy of the present Athletic Department is to be commended."

This was the opinion of Sumner A. Dole '15, who voiced the sentiments of the Alumni body in a speech on Athletics at the M. A. C. banquet in Draper Hall Friday night. Mr. Dole described the "buying" of prep school stars by some of the colleges of the East, and said that he was proud to be the alumnus of an institution which could show good teams and an excellent record of victories without recourse to semi-professional tactics.

Mr. Myron Hazen '10, of New York City, President of the Coe-Mortimer Fertilizer Company, in a very eloquent address called on the agricultural college graduates to do all that they could to oppose the radical tendency found particularly among the foreign element of our country. He opposed the policies of the Non-Partisan League which in the Dakotas has started many socialistic movements. He stated that the great work which the farmer and the agricultural college organizations could perform today is the Americanization of the foreign farm owner and farm laborer.

Prof. H. F. Thompson '05, of the Market Garden Field Station in Arlington, congratulated the undergraduates on their very generous part in the recent Memorial Building Campaign and spoke of the practical work which many M. A. C. men were doing in serving an apprenticeship under successful market gardeners.

(Continued on page 7)

C. E. JEWEL '19 SEVERELY BURNED IN EXPLOSION

Sulphur Dioxide Blown Through His
Clothes Onto Chest. Eyes Unhurt.

While trying to obtain the critical temperature of liquid sulphur dioxide, Jewel '19, graduate assistant in chemistry, sustained some bad burns on the face and body. He had placed the sealed tube full of the gas into a bath

of concentrated 98% sulphuric acid when the tube containing the dioxide, not being able to withstand the great pressure caused by heating it, exploded and spattered the vitriol on Mr. Jewel. Luckily his glasses saved his eyes from being burned. Assistant Sturgis and Mr. Serex rendered him first aid until the arrival of the doctor, who immediately ordered him to the infirmary. From the latest reports, he is in no danger and will probably resume his work in a few weeks. The mishap was purely accidental.

AMHERST BASKETBALL TEAM TRIMMED 15-11

Hard Game—Much Effective Block-
ing Kept Score Down.

Lovers of clean, fast, basketball were given forty minutes of the finest exhibition of the game probably ever staged on the Drill Hall floor, when Aggie, on last Wednesday evening, won the annual tilt with Amherst by the close score of 15-11. From start to finish there was action every minute, and at no time before the final whistle was it possible to pick the probable winner, both baskets being alternately targets for the rival forwards. Both sides guarded so closely that floor baskets were few, and after the opening minutes, long range shots, well directed, and often missing connections by a half's breadth, became the offensive of both teams. The work of Captain Kennedy for the Purple and White on the foul line was sufficiently good to keep them in the lead until the middle of the second period, when Captain Grayson's quiet led the count, and forged ahead just before the final whistle.

The extra seats put along the side of the court failed to accommodate one of the largest and most enthusiastic of Aggie basketball audiences, and some were forced to occupy floor space. Except for about seventy-five Amherst rooters at one corner of the main bleachers, it was a crowd that pulled hard for a "Massachusetts" win and appreciated the hard won victory to the fullest extent. When M. A. C. gained the lead toward the end of the game, the cheering changed to pandemonium, making it impossible for the officials' voices to be heard, and causing a brief suspension of play.

Amherst's first chance to score came two minutes from the start, but Kennedy failed to make his chance at a free try count. His next chance, a moment later, put the Sabrinas one to the good. Three more baskets from fouls and a double decker by Eames, while Pond was counting three times from the foul line for M. A. C., brought the end of the half in sight with the visitors three points ahead. Then, one minute before half time, Pond, free under his own basket, sunk a two counter, making the score 6-5, in Amherst's favor.

In speedy play the second period began where the first had ended, and at mid-period Coach Widmayer's charges had increased their lead to two points, as Kennedy caged three free tries to Pond's two. Then Thompson, for Aggie, broke the ice, with the first floor goal of the period, tying the score. Grayson followed with a second, from the extreme side of the court, and the Maroon and White went into the lead. The game came back to a tie almost immediately, when Card scored the second floor basket of the evening for Amherst.

Aggie was not to be denied, and catching the opposing defense off their guard, Pond twice snuk the ball from close range. This brace of tallies was M. A. C.'s margin of victory, and the game ended right after.

For Aggie, Growdy's defensive and Pond's offensive game deserve special mention. Thompson played well. Kennedy, who scored seven of the team's eleven points, featured for the Sabrinas. The line up:

LOOKING FOR FOSSIL HORSES PROF. LOOMIS' SUBJECT

The Program for Future Meetings Arranged.

The Graduate Club, at a meeting held Thursday evening, Jan. 22 at Clark Hall, was addressed by Professor B. F. Loomis of Amherst College, who gave an interesting lecture on "Looking for Fossil Horses". The slides included a number of views of the Platte River country where the search was made, and of several drawings of specimens found on the expedition.

Professor Loomis traced the evolution of the horse from the small three-toed animal of the Eocene period to the hoofed horse of our own time, demonstrated that the hoof is but a development of the middle toe, the other toes having gradually disappeared in later periods. This development, he stated, is contemporary with the formation of the Rocky Mountains. By means of successive flood plains where the bones of the various periods died and are buried, their bones are preserved. The professor also spoke of prehistoric dogs and camels, whose remains were among the specimens found on the expedition.

The following program has been arranged for future meetings of the Graduate Club:

Feb. 4.—Social evening at Dr. Marshall's home, 44 Sunset Avenue.
Feb. 18.—Illustrated lecture by Professor F. L. Thompson of Amherst, Clark Hall, Room A.
Mar. 5.—To be arranged by Mrs. Marshall; to be held at 44 Sunset Ave.
Mar. 17.—Open. (Dr. E. A. Winstow of Yale University)
Apr. 7.—Professor Hopkins of Amherst College. Microbiology Library.
Apr. 21.—Open.
May 5.—Open. (Dean Ellis of Amherst College)
May 19.—Open.
June 2.—Open. (Banquet and Theater Party)
June 16.—Open.

Frank Hale ex-'20 was back on the campus for the week-end.

JUNIORS SWAMP SOPHS IN CLASS BASKETBALL

Score of 22-7 Run Up. Two Year Men Lose Again.

Two lively interclass basketball games were played last Thursday, January 22, in the Drill Hall. 1921 defeated 1922 to the tune of 22-7, and the Freshmen beat the Two-Year Men, 12-9.

In the Junior-Sophomore game, Wentzsch scored first for '22 by making a true shot from the floor. During the first ten minutes of playing, Krasker '22 sustained a broken cartilage in the nose and was replaced by Kokowski. The first half ended with the Juniors 9 and the Sophs 7. During the second half, the Juniors added 13 to their score, although the Sophs did their best to break them up. Casco on the defensive and Whittle in shooting, starred for '21, while Wentzsch and Clark excelled in shooting and passing for '22.

The Freshmen-Two-Year game was a close contest, and as both teams were equally matched on the defensive, the score was kept from soaring. Marshman did well in shooting and passing for the yearlings, while Stevens was very skillful in the free trials. The Two-Year Class was represented by about twenty basketball fans, who under cheer leader Nowers, gave some effective cheers for their team.

FOUR DAYS INSTITUTE

Continued from page 1

his audience feel the attractiveness and power of Jesus Christ, and makes clear the indispensability of Christianity as the only force which can bring about true peace and happiness in the world. All of the addresses will be held in Bowker Auditorium, Stockbridge Hall. Students and faculty will be accommodated first, and later the general public so far as space permits. In addition to the four regularly scheduled addresses, Mr. Wilson will give one address for the faculty only.

Among the younger Christian men and women who have been invited at the same time with Mr. Wilson, to hold personal interviews with any one who seeks them, on the Christian life, Christian callings as a life work, personal problems, and such subjects, the following have been arranged to come: Mr. Clarence P. Shed, Secretary of the International Committee of the Y. M. C. A. Student Dept. for New England.

Mr. L. A. Morehouse, State Student Secretary for Mass. and R. I.
Mr. W. M. Ross, Y. M. C. A. Secretary at Mass. Institute of Technology.
Mr. Samuel L. Shoemaker, Secretary of the Philadelphia Society, Princeton University.
Mr. Herman Lum, Y. M. C. A. Secretary at Wesleyan.

The entire program is under the direction of an undergraduate committee, of which Henry Lyons '20 is chairman, working in conjunction with a faculty committee.

Further details will be announced in the next issue of the COLLEGIAN.

Charles S. Crona ex-'22 was a visitor on the campus over the week-end.

LEGISLATURE WILL DECIDE FATE OF CAVALRY UNIT

Stable Must Be Erected At State Expense.

The prospects are bright, and it looks as tho a great advertising feature for the college will soon be added to our campus.

The War Department has agreed to furnish horses, saddles, and other equipment to the College providing we erect a stable for the horses. The horses will be fed and taken care of at government expense. A detachment will be furnished to take care of the animals. This detachment will consist of one 1st sergeant, one stable sergeant, one horse shoer, and privates at the rate of one for every three steeds.

The recruiting officer at Springfield has already been authorized to enlist men for this detachment, provided they are acceptable to Lt. Col. Walker. One man, Private Joseph Perrault, has already been enlisted for one year. Applications have been received from about thirty men.

The Board of Trustees has asked the Legislature to appropriate funds to build the stable. In a very short time we will know whether or not we are to have cavalry at M. A. C.

It will certainly be a drawing card to have cavalry. There are very few colleges around this section of the country that have this branch of the service, and when the news of our Mounted Field Day, drag hunts, and cross country rides begin to spread around there is sure to be a swelling in the enrollment of future freshmen classes.

It has been reported that some members of the Faculty have applied to join this cavalry for one day, and that day is the one on which the Faculty takes its annual hike to Mt. Toby.

'08.—Danforth P. Miller breaks right into the front pages of *The Country Gentleman* of January 24 with an illustrated story about "Saving Time by Spraying". Dan is now superintendent of a big orchard development proposition in North Brookfield.

CHEMISTRY CLUB TO VISIT NEARBY LABORATORIES

Jan. 30 is Date Fixed for Pilgrimage. Will Visit Smith College.

The bi-weekly meeting of the Chemistry Club, Thursday evening, Jan. 22, in the Chemistry Laboratory, was called to order at 7:30 by President Fredrick, who gave a report on the World Agricultural Society. The benefits derived from this society would be in exchange of ideas between countries, and opportunities for service. The matter of joining was considered and was put on the table for future reference. H. Ball '20 gave a talk on "Glues and Gelatine." He described the various glues put on the market and how they are manufactured. The chemical constituents of these articles are little known; the raw materials used in making them are hide scraps, sinews, and bone.

The Social Committee gave its report and outlined the schedule of the all-day trip which the club will make Jan. 30. The program will be as follows: Members taking the trip will leave Amherst on the 8:30 A. M. car for Northampton where they will visit the Northampton Silk Co. They will then go to the Northampton Cutlery Co., and to the Prophylactic Tooth Brush Co., situated in Bay State and Florence, respectively. The members will then return to Northampton to complete their trip by visiting the Smith College laboratory. The next meeting of the club will be held Thursday evening, Feb. 5, at 7:30.

INDIA'S NEEDS ECONOMIC. SAYS SAM HIGGINSBOTTOM

Message From India Says That Country Must Be Helped To Help Itself.

At last Wednesday's assembly, Mr. Sam Higginbottom of Allahabad, India, gave a vivid talk on the need of scientific agriculture among the Hindus. He described the harmful effects of the caste system on production in India, and explained that it was due to this cause that India is so impoverished. This appalling poverty in return has brought about great moral degradation. Only ten per cent of the men and one per cent of the women in India are literate.

By practical demonstration, it has been shown that the staple crops of India can be doubled by the application of scientific agriculture. India is preeminently an agricultural country. That is really its one occupation. Eighty per cent of the population are tillers of the soil and ninety per cent live in small villages. The great need is for agricultural schools to teach the people better agriculture. This would be the remedy for famine, and because of the comparatively high wages of the trained agricultural workers, the churches and schools would become self-supporting. "Help India to help itself" will bring about the solution of India's problems.

MAY RUN W. P. I. THIS SATURDAY, JANUARY 31

Manager Kendall Is Trying To Arrange Relay Race. Time Trials Run.

Time trials for the M. A. C. relay team were held last Saturday, January 24, at 10 A. M. The candidates for the team ran by twos, each pair doing three laps around the board track for a total of 300 yards. The following men ran together: Gray '21, and Sullivan '22; Dewing '20, and Skinner '20; Pree '20, and Alger '21; and Carleton '20, and Hurd '21. The trials between Sullivan and Gray, and between Carleton and Hurd were close, and the men made about the same time. Dewing and Pree gained some ground in their trials. Skinner's time was slowed by an attack of appendicitis.

Manager Kendall is trying to arrange for a race with W. P. I. here next Saturday, Jan. 31, but no definite arrangements have been made yet. Besides the B. A. A. meet in Boston February 7, Aggie will have entries in the American Legion Meet at the East Armory, Boston, February 27, and there will probably be a race with Amherst, February 7.

ALL MEN HAVE SOME OF GOD'S SPIRIT IN THEM—STRONG

Chapel Speaker Urges Men to "Give Unto God the Things That Are God's."

Dr. William E. Strong of Boston, who spoke at Sunday Chapel, Jan. 25, brought out the point that every man is created in the image of God, and for this reason it is his duty to serve God and be true to Him. The text was taken from Mark 12: 13, the incident in which the Jews tried to trap Jesus on the subject of tax paying. To make a man a partisan has always been a means of convicting him. But Jesus' reply was "Render unto Caesar the things that are Caesar's, and unto God the things that are God's."

The elm tree grows by the same processes as the grass at its foot; but not by this, but by their likeness, are they conspicuous. So is man conspicuous by his likeness to the rest of the universe. Man has the power of vision, of distant sight, and a mind that is ever searching, scanning, wondering. Furthermore, man has a soul which gives him a sacrificing nature, unlike the rest of the universe, save God alone.

The war has changed many men; they have discovered in themselves a newer, finer nature, their religious instinct. All men, whether in the army or not, have the marks of God, and a man is not living his life aright if he does not bear out these marks. First, be sure that your purposes and aims belong to God, then, in Christ's words: "Render unto God the things that are God's."

'19.—T. Carlton Upham is located at the Tome school, Port Deposit, Md.

Grow Up!

A remark overheard on the campus a few days ago brings to light an inexcusable condition. It applied to the very "kiddish" behavior of some students in the classroom, especially during the 10 minutes preceding the exercise.

Advantage is taken of these few minutes before the instructor enters the room to throw snowballs, paper, and other objects at one another. Not only this, but one man had the temerity to continue smoking a cigarette after he had entered the classroom. Unpardonable as such conduct is by any group of fully grown college students, the surprising fact is that this condition prevails largely in a few Junior courses, in which the Seniors take no small part in the disturbance. That the Juniors and Seniors cannot set a better example to the lowerclassmen and conduct themselves in a more gentlemanly manner is a disgrace. Personal pride and pride in keeping the reputation of Aggie untarnished should remedy this matter without the action of the Senate or of the faculty.

Student conduct is not of the best in the Dining Hall. Here again the upperclassmen are as much to blame as the two lower classes. They have set an example which the short course students have taken up with increased enthusiasm. Such deportment is not becoming of an Aggie man. Undergraduates here certainly should realize the importance of acting at all times like gentlemen.

The Trophy Room.

It is perfectly evident to the few men who occasionally stroll into the Trophy Room that the cabinet, containing the silver cups and souvenirs of many hard fought athletic contests, has been neglected for a long time. The cups are unpolished and the rows of footballs, basketballs, and hockey pucks have not been kept up to date. The whole cabinet has the appearance of dinginess and antiquity.

Is it small wonder then that you never hear the Trophy Room spoken of on the campus? How many students take a real pride in the banners and

trophies displayed there? Do all the students know that the shell, which is not labeled in any way, was rowed to victory against Harvard in the first intercollegiate regatta on the Connecticut river in 1871? Yet, no one can deny that Aggie men are proud of her splendid athletic record. Those who have attended football mass meetings know how much the Alumni cherish the victories of former years. The Tufts game of last fall is ample testimony of the way an Aggie triumph is prized today and the rejoicing and enthusiasm which follows. Did it mean anything to win over Amherst in basketball last week? Then why not keep the records of these games in an attractive and appropriate way so that the students will value the collection and the Alumni when they come back for a reunion will take pride in looking at the reminders of their undergraduate days.

Wait until the Memorial Building is built? That better facilities for displaying the trophies will be provided there is no reason for letting the present collection get into such bad shape. High School Day is coming and Commencement. Some of us would like to show our visitors what M. A. C. has done in athletics in years past, but the correct impression could hardly be gained from the Trophy Room of today. The Senate could very easily have this matter attended to by some undergraduate.

CAMPUS CALENDAR.

WEDNESDAY, JAN. 28.

3-10 P. M.—Assembly, Signora Olivia Rossetta Agretti.

Doran, assistant professor of botany at the New Hampshire State College, is author of a paper on "The Minimum, Optimum, and Maximum Temperature of Spore Germination in Some Uredinales", published in the September number of *Phytopathology* and reprinted as a scientific contribution of the New Hampshire Agricultural Experiment Station.

FRESHMAN TAKE DEERFIELD QUINTET INTO CAMP 18-11

Yearlings Show Good Form in Opening Tilt of Season.

The Freshmen added to the success of Alumni Day last Friday by opening their basketball season with a clean cut victory over the Deerfield Academy Five on the Drill Hall floor. It was a game marked by the fast floor work of Tumey, the yearling center, who garnered 14 of the Freshmen's 18 points.

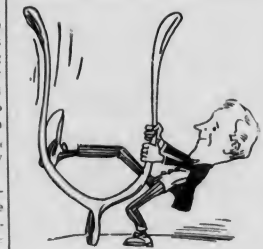

In the first half of the game neither side showed any adaptiveness for scoring, the ball travelling from one end of the court to the other with only one floor basket being charged against each team. Kinnear scored first by hitting the hoop on a free try, and Tumey followed suit a minute later by caging two of the same variety. The first floor basket came after ten minutes of exciting play when Parsons, the fast Academy center, made a counter from a difficult angle. The Freshmen evened matters up in the last minute of the period when Grayson, receiving a pass from Tumey, landed a double-decker from directly underneath the basket. Score: 4 all.

The second half opened with a dazzling display of speed on the part of the Freshmen, which netted them two bas-

kets within a short period of play. Parsons commenced the scoring for Deerfield in face of the yearlings' offence after cleverly evading the first year men's backs. However the Freshmen had assumed the lead and would not be denied the victory, retaining the margin for the remainder of the game. The final score was M. A. C. '23, 18; Deerfield Academy, 11.

For the Freshmen Tumey, Grayson, and Hale were the bright lights, while Kinnear and Parsons showed up well for Deerfield.

Albert G. Brason ex-'22 was back on the campus for the Tufts game and fraternity banquet. He is now employed by the Quaker Oats Company.

TO BE EXPECTED

You possibly have wondered why dairymen who use

Wyandotte
Cleaner and Cleanser

are so much more successful and prosperous than those who do not. There is nothing unusual about this when you consider the many advantages that are derived from the use of this material.

This cleaner thoroughly removes all objectionable and fermentative matter from dairy and creamery apparatus, leaving it pure, sweet, sanitary and clean, which is the condition most desired for the production of dairy products of the highest quality. It also proves to be an economy of considerable importance, because of the saving in lime, labor and cleaning material necessary to fully accomplish your cleaning needs.

Make Sure of Your
DE LAVAL
Cream Separator
Early in 1920

There's no happier or better way of starting the New Year right than by making sure of a new De Laval. If you are either without a cream separator or are using an inferior or half-worn-out machine that should be replaced.

For three years now, thousands of those who wanted a De Laval have had to wait weeks for it and many have had to buy a second-grade separator. The demand has simply exceeded the possible supply, though more De Laval have been made each year than ever before.

More and better De Laval will be made this year than ever before—as many as available plant additions and skilled workmen can produce—but the demand gives every indication of being even greater still.

Order your De Laval now. Make sure of getting it. Let it save half its cost by spring.

See the nearest De Laval local agent at once, or write the nearest De Laval office below for any information desired.

WALSH

STEVENS TO PLAY THIRD GAME OF ITS TRIP HERE

R. P. I. as Yet an Unknown Quantity. Have been Fast in Past Years.

The M. A. C. basketball schedule places two games for this week. Stevens Institute comes here Thursday night, and the local quintet journeys to Troy to take on the Rensselaer P. I. outfit Saturday.

Aggie's chances with the Stevens team are good. They play M. A. C. as the third of a series of one-night stamfs. The fatigue element should enter into the competition. So far this season, the visitors have succeeded in bringing into camp a good percentage of the teams that they have met. Their schedule to date has included Wesleyan, Delaware, Temple, Columbia, Dartmouth, and Springfield. They are fortunate in possessing all of last year's team as well as two returned letter men, Carlson and Kurtz will bear watching. But the constant hatching of so stiff a schedule should make them less dangerous to M. A. C. The dope sheets have it that Aggie should win.

Little or nothing can be learned of the Tech men. Rumors from the direction of Troy place the R. P. I. as a dangerous outfit. However, definite news cannot be ascertained. Past performances point toward a hard game.

Eight men will leave Friday, journeying westward. The party will probably include Grayson, Pond, Thompson, Kneek, Givody, Lent, Stedman, and Smith.

PRACTICAL INSTRUCTION FOR FOREIGNERS

Prof. Bohner Outlines Plan For Teaching New Americans This Language.

The third of the series of lectures given by Professor Bohner, on Americanization, was held in the old chapel, a week ago yesterday, at 8-10, and was attended by an interested audience of about 20. He gave a short review of the last week's lecture, and pointed out the wonderful effect that objective teaching was having on foreigners in this state. In this method or teaching a text-book using the vocabulary of a particular industry is used, and each step is dramatized. The students are separated into groups according to their literacy, and given one hour classes not more than three times a week, in which at least 50 minutes is used in talking, and the rest in concert reading. The latter part of the hour was spent in using the class as a demonstration.

The next lecture will be on Feb. 3, when Professor Bohner will briefly take up the question of civics. At that time a vote will be taken as to whether the students wish another lecture on this subject. Otherwise this will be the last of the series.

'18.—B. F. Taber is at the Ohio State University, Columbus, Ohio.

HOLYOKE CONCERT AND DANCE BRINGS BIG CROWD

Saturday Concert Pleases Audience of Alumni.

The sixth annual concert and dance of the combined Musical and Glee Clubs was held in the City Hall, Holyoke, last Friday evening at eight o'clock. The concert was well attended and was followed by a dance for those present. The usual program was given.

The concert which was held in Bowker Auditorium last Saturday, for the alumni, was attended by a rather small audience, due to the bad weather outside, which made many of the men slow in coming out. However, those present showed considerable satisfaction at the showing of the clubs. The usual

concert was cut considerably here, owing to the short time between the basketball game with Tufts and the fraternity banquets. The concert opened with a selection by the Mandolin Club, and was followed by "Dear Old Massachusetts" by the Glee Club, which called forth an encore. The quartet was the hit of the afternoon with popular songs and especially a ditty entitled "We Hail from M. A. C." The Glee Club gave a rendering of the "College Medley," and "Swords out for Charlie," which was followed by two selections by the Mandolin Club. The entertainment closed with "Sons of Old Massachusetts" by the combined clubs, in which many of the audience joined.

'15.—H. N. Bartley paid a flying visit to the campus last week before setting out for the wilds of Texas.

WHAT man doesn't like his pipe? There's nothing whets your smoke desires like seeing a good pipe lying around. Because you know that in it is the only real smoke satisfaction. Your appetite will be doubly whetted if it is a WDC, because in WDC Pipes all the sweetness and mellowness of the genuine French briar is brought out by our own special seasoning process. Then, too, WDC Pipes are good to look at. The designs are pleasing and workmanship perfect. You'll agree with us that our craftsmen are accomplishing their purpose—to make pipes that are without peers in all the world. Ask any good dealer. Be sure and look for the Triangle trademark. It's a guarantee against cracking or burning through.

WORLD'S LARGEST MAKERS OF FINE PIPES

CAMPUS NOTES

Miss Annie E. Simmons of Boston will give a lecture on Greenhouse Construction and Heating before the classes in floriculture and vegetable gardening Friday, Jan. 30, at 1-10 P. M., in French Hall. She will also lecture before the Landscape Gardening Club, in the evening, on the Greenhouse in its Relation to the Development of the Grounds.

Music With Your Meals.

The Dining Hall lived up to its reputation of something new each week by providing a four piece colored orchestra at dinner Monday evening, Jan. 26. The boarders were pleasantly surprised to find a first class jazz orchestra playing when they came in for supper. It is still more surprising to learn that the members of the orchestra all work at the Hash House. The management will supply music every few days after this for the enjoyment of the regular patrons. The orchestra will next appear for Sunday dinner.

Movies Again.

The big six-reel motion picture "Sporting Life" will be presented in Bowker Auditorium Saturday evening under the auspices of the Social Union. This film is a story of British sporting life, and shows some of Britain's famous sportsmen and athletes in action. The great Derby racing event is one of the features to be shown, and another is an important boxing match. "Sporting Life" has been a very popular picture and should be especially interesting to college students. A two-reel comedy will also be shown.

1921 Smoker.

The Junior Class will hold a smoker in the Social Union Wednesday evening. Elaborate plans have been made and a big time is anticipated.

Short Course Council Notice.

The first regular meeting of the elected Short Course Student Council was held last Wednesday evening. The appointed council, upon motion, turned over its business to the new body but continued in session with the elected council as an advisory board during the evening. The council unanimously voted to push subscriptions among the short coursemen for the *Index*. It was announced that Mr. Burnett had been elected as delegate-at-large to the council. The regular meeting of the council will be held Wednesday at 6:30 P. M. in the Senate room over the Library.

COLLEGIAN COMPETITION

1. p. board including the issues of Jan. 24. These and copies of the competition questions on the Collegian staff are as follows:

BANQUET LAST FRIDAY NIGHT

(Continued from page 1)

ners in the Eastern part of the state.

Mr. Evan F. Richardson, the President of the Associate Alumni, the toastmaster of the evening, was introduced by President Butterfield. The President stated that next year was to be a year of organization for the College, in that a very definite policy in connection with the future work of the institution was to be given a very important part to play in this matter. Their opinion was to be obtained and their views sounded by questionnaires sent them from time to time regarding their ideas concerning the future of the institution. This project was to be a part of the Fiftieth Anniversary Celebration, which was to begin with the laying of the corner stone of the Memorial Building. The main features of the program, however, would be scheduled for 1921 Commencement.

Prof. Lockwood spoke briefly on the great demand which he knew there was for M. A. C. trained men, and of the many requests which came to him while he was in charge of the mobilization work for M. A. C. men to handle responsible jobs along agricultural lines in the period of emergency.

APPLE BUTTER & COMPANY
TRIMS CIDER 29-12

Pom. Club Meeting Shows Horticultural Manufactures Preferable.

At a meeting of the Pomology Club, held in French Hall a week ago last Tuesday at 7:30, those present heard quite a lively and interesting debate on the question:

Resolved: That it is better for the grower to market cull apples as Horticultural Manufactures rather than as cull vinegar.

The affirmative, which was argued by Stone and Burton, won by a vote of 20 to 12 over cider, which was represented by Woodward and Harrington. Both sides produced some interesting evidence, and many questions vital to the fruit grower were discussed.

After the debate Mr. Drain of Pomology Department gave a short and instructive talk, accompanied by slides, on the insect pests of the orchard and their control. He took up the questions of the sprayer to use, the identification of the insect and his work, the proper time to spray, and the spray to use.

CHARLES STETZLE, NEW YORK
SOCIOLOGIST TO SPEAK

The speaker in Chapel Sunday, Feb. 1, will be Charles Stetzle, the noted sociologist of New York.

Mr. Stetzle was born in New York in 1899 and was ordained to the Baptist ministry in 1900. During 1908-1910, he was superintendent of the Department of Immigration. In 1914, he investigated the economic aspects of the liquor problem in the United States and in the European countries. He is an author of much repute. Some of his books are: "The Workingman and the Social Problems" 1908; "Boys of the Street" 1901. He is also a contributor to maps and various articles on sociology, so that the message he will bring will doubtlessly be appreciated.

19.—W. K. French is now working for Bowker's Insecticide and Fungicide Company in Ohio.

FRAT RELAY RACES

STARTED TUESDAY

Time Slow Without Use of Spiked Shoes.

The interfraternity relay races started Tuesday afternoon, Jan. 27. These races open a series which are bound to bring to light some fast material. In the past, men who did not know they could run have been pressed into service at the last minute and have made good time for the two laps.

Owing to the ruling which prohibits the use of spiked shoes, the time is not expected to be fast.

Tuesday's races ended as follows:

Alpha Gamma Rho beats Alpha Sigma

Phi; time, 2:25.

Kappa Gamma Phi beats Theta Chi; time, 2:21.5.

Sigma Phi Epsilon beats Lambda Chi

Alpha; time not taken.

ALL UNDERGRADUATES
STAY TO COMMENCEMENT

At the Alumni Forum held Saturday morning at 9:30 in Stockbridge Hall many items of interest to the Alumni and students were discussed. One which will be of particular interest to the undergraduates of the College is the desire on the part of the Alumni to make the commencement program a more worth while affair.

It was the sentiment of those present that commencement events should be scheduled during a week-end at least as far as concerns the three lower classes and the Alumni, and that the strictly Senior Class features should come the first of the following week. With the program thus arranged the Alumni present were unanimous in their opinion that undergraduates should remain through the week-end.

Another matter which the Alumni strongly favored was the featuring of the classing which it was thought was one of the most attractive events of the program.

SHAUGHNESSY '21. MARRIED
SINCE DECEMBER 12.

Few Classmates Aware That He Had Left The Bachelors' Ranks.

Announcements are being received of the marriage of Howard John Shaughnessy, M. A. C. 1921, to Miss Grace Myrtle Beck, Holyoke. The wedding took place on December 12, 1919, but has been kept a secret. Only a few of the most intimate friends of the couple knew that the ceremony had taken place before announcement cards were received a few days ago.

ALUMNI NEWS

The Southern Association of the M. A. C. Alumni held a banquet and dance for its members and their wives on December 26, at the Selwyn Hotel, Charlotte, N. C. It was a very enjoyable affair with over thirty present.

The menu and place cards were attractively gotten up and were a take-off of landscape office procedure. After dinner speeches from a number of the members were also enjoyed.

Among the speakers were H. P. Burley '13, J. C. Campbell '17, Miss Dorothy Waugh, B. F. Frost '15, D. W. Wooley '16, D. S. Dismore '17, and E. S. Draper '15.

ROUGH GAME WON FROM RENSELAER TECH, 19-17

Close Score Due to Last Half Rally
by R. P. I. and a Spurt
by M. A. C.

Playing their second game of the
season away from home, the Maroon and
White basketball team plucked a defeat
on Rensselaer Tech at Troy last Sat-
urday night 19 to 17, in a rough, fast game
although not as close a contest as the
score would indicate. The rough work
of the last few minutes was responsible
for the narrow margin of victory. Aggie
outlasted Rensselaer throughout, and
was in possession of the ball most of
the time during the first half, the re-
mainder of the time playing a defensive
game that kept R. P. I.'s star men,
Howard and Eller, from scoring a single
floor basket. It was a hard won and
well deserved victory, for five minutes
before the final whistle the home team
was one point to the good, after Aggie
had led from the start. Their lead at
this late juncture of the game was short
lived however due to the efforts of A. W.
Smith and Pond in the closing minutes.

The Aggie game was a feature of the
Big Star Carnival, a New York Alumni
celebration, and was preceded by a
freshman game with Troy High School,
making it 9-20 p. m. before the two
teams took the floor. The playing
surface was an excellent gymnasium,
and an extra large carnival crowd was
on hand to watch the game.

At the start Capt. Grayson's team
scored six points before Rensselaer
counted a tally. Aggie kept the lead
handily, playing an easy steady game,
and at half time was leading 12-8. Dur-

[Continued on page 21]

ARENA PARTY STAGED TO BENEFIT FIVE FRESHMAN

Sophomores Exercise Executive
Power For Beneficial Purposes.

Tuesday night Jan. 27, at eight
o'clock, a considerable number of four
year students attended a disciplinary
party given under the auspices of the
Sophomore class to five freshmen in the
Grinnell Arena. The occasion was a
success. The Freshman; Lewis, Lind-
skog, Mohor, Sandow, and Tarplin were
introduced one by one clad in pea-green
crepe de chene, and each rendered a
solo and an exhibition dance, the time
being regulated by the paddles of the
coaching Sophomores. An application
of molasses and feathers caused the en-
tertainers to take on an even more foul
aspect than before. Blind-folded wres-
tles with the goat, a mock football
game, a swimming race across the
arena, water being furnished by a hose,
and a penny hunt were also features of
the evening.

TRACK TEAM SUPERIOR TO WORCESTER QUARTET

Little Racing After Second Bank of
First Lap. Run New Hampshire
Saturday.

Last Saturday at three o'clock the
track team ran off an easy victory over
Worcester Polytechnic Institute on the
home track with the temperature around
ten below zero. M. A. C. won the toss
and started with Free at the pole run-
ning against Lyman for Worcester.
Free ran even with his man around
the first bank, but easily passed him on
second and held the lead for three laps
handing over seven yards to Sullivan.
Sullivan gained on Hoar, his opponent,
as did Carleton on Bateson. Gray was
anchor man for Aggie, running against
Carter of Worcester, and added to the
fine lead handed him by Carletons cross-
ing the line in three minutes and twenty-
three seconds with a lead of nearly a
lap.

The Aggie line-up showed a well bal-
anced team and much credit is due
Dewing, who is acting as both captain
and coach. Dewing was on the track
to run but owing to a cold decided not
to enter just before the race began. The
M. A. C. team showed better form
throughout than Worcester, running
more smoothly, taking the corners better,
and passing the baton without a hitch.

Next week the team has its biggest
race at the B. A. A. Meet in Boston
where they run New Hampshire
State, but with this as a practice
race, and the result as they stand M.
A. C. should come through with a
win in spite of New Hampshire's
fine team. New Hampshire has
Melville, O'Leary and Felkner with
them this year, all former B. A. A. run-
ners, but with the present material
available and Dewing in next week's
line-up the team feels confident of suc-
cess in Boston.

FIRST VOTES CAST FOR PER- MANENT SENIOR OFFICERS

1920 Smoker Draws About Half Of
The Class.

A meeting and smoker of the Senior
Class was held in the Social Union
rooms last Friday evening at 6-30. Bal-
lots for permanent class officers were
passed out and those present voted, but
the elections have not yet been an-
nounced, awaiting the ballot of those
not present. After this vote was taken
a recess was called to see the class
basketball games. After the game the
class returned, and Commencement ar-
rangements were discussed over the
pipes. The Commencement Steering
committee composed of Maples as chair-
man, Horne, Frelick, Campbell, and
Meserve made recommendations for the
Commencement program, and a com-
mittee was appointed to take up the
question of Senior canes and mous-
taches.

PROM PLANS NEARLY COM- PLETE—ANNOUNCEMENTS

Tickets Eleven Dollars This Year.
Drill Hall to be Used.

Plans for the annual Junior prome-
nade, to be held April 9, 10, and 11
are rapidly assuming definite form; the
prelims going on sale today at the Phi
Sigma Kappa house. They may be
obtained of D. C. Douglass '21.

These dates were chosen because of
the general good weather conditions
which exist at that time, because it is
the second weekend after the opening
of college for the third term, and be-
cause that these three days come within
the interim between basketball and
baseball.

The promenade itself will be held in
the Drill hall Friday night. Walter
Johnson's Colored Jazz Orchestra will
furnish the music. This team per-
formed at last year's Soph-Senior hop
and is the most popular in New Eng-
land, being frequently heard at the
Copley Plaza, and the Brookline Coun-
try Club. It will include seven pieces
with Walter Johnson himself at the
piano. Dancing will last from 9 p. m. to 5
a. m. with a midnight supper served at
Draper hall. The decorations and ap-
pointments bid fair to excel those of
former years.

Saturday will be occupied with the
prom carquet in the afternoon and the
show at night. The musical clubs will
be the attraction at the carquet which
will be held in the drill hall. The show
will be staged by the Holster Dusters
in Stockbridge Hall.

The program for Sunday includes a
concert at Stockbridge Hall and the
Haven Trio has been obtained for this
by the Social Union committee.

It is expected that 60 couple will
attend and plans have been made ac-
cordingly. Prelims, costing \$5 may be
obtained from Donald C. Douglass after
today at the Phi Sigma Kappa house.

The holder of one of these is entitled to
purchase the prom ticket itself at some
near future date. These will be \$8,
thus making a total cost of the ticket \$11.

Several of the fraternities are planning
on holding house parties to accommo-
date the fair guests of their members.

The personnel of the committee in
charge: D. C. Douglass, chairman, C.
D. Kendall, Starr M. King, John D.
Snow, P. L. Robinson, J. J. McCarthy,
and James W. Alger.

The class of 1921 extends to all the
students of the college an invitation to
attend this Junior Promenade.

HOCKEY SCHEDULE CHANGES

The following changes in the hockey
schedule are announced by Manager L.
S. Graft:

Feb. 11, Dartmouth vs. M. A. C. at Han-
over, N. H.
12, Amherst vs. M. A. C. on College
Pond.
21, Williams game cancelled, open.

FRATERNITIES TO HOUSE UNDER LEADERS

Program of Y. M. C. A. Institute In-
cludes Four Big Talks by
Wilson.

In the campaign for constructive
Christian Democracy to be held in
Stockbridge Hall, Feb. 6 to 9, under the
auspices of the Y. M. C. A. and under
the leadership of Hon. J. Stitt Wilson
of Berkeley, California, the following
representatives of different Christian
Communities have been invited to hold
personal interviews with anyone desir-
ing them, on any line of Christian work
or on personal problems:

Mr. Lyndon A. Morehouse, State Student
Secretary of the Y. M. C. A. for
Mass. and R. I.

E. Fay Campbell, Traveling Secretary
under the Student Volunteer move-
ment

S. M. Shoemaker, Jr. Secretary of the
Philadelphia Society, Princeton
University.

Herman Egan, Secretary of Wesleyan
University.

Wallace M. Ross, Secretary of M. I. T.
Henry H. White, M. A. C. '15, Missionary
of American Board.

G. O. Pierrel, Industrial Secretary of
Worcester, Y. M. C. A.

Dana Clark, Montu Smithson and Ames
Wilder—undergraduates of Yale.

Miss Alice Hoyt, Student Secretary of
Y. W. C. A. for New York and New
England.

Also representatives of County Work
Department of Y. M. C. A.

All the addresses will be held in the
Bowker Auditorium, Stockbridge Hall,
and will be open to students and faculty
and the general public so far as space
permits. The schedule of the meetings
is as follows:

Special Assembly Friday, Feb. 6 at 3 p. m.
Meeting, Saturday, Feb. 7 at 3 p. m.
Meeting, Sunday, Feb. 8 at 3-30 p. m.
Meeting, Monday, Feb. 9 at 7-300 p. m.

There will also be a special meeting
for the faculty at 3 p. m. on Saturday,
Feb. 7, in Room 114 Stockbridge Hall.

This meeting will be followed by an in-
formal reception for out-of-town guests
by the faculty in the Social Union rooms.

Many of those who come as friendly
helpers to hold personal interviews
and give of their experiences have been
assigned to the different fraternities
where they will be provided for and
where they hope to hold a brief
devotional meeting on some evening of
the campaign. These men have been
assigned to the fraternities as follows:

Phi Sigma Kappa, W. M. Ross
Sigma Phi Epsilon, H. Lum.
Kappa Sigma, E. L. Campbell.
Alpha Gamma Rho, H. H. White.
Theta Chi, G. O. Pierrel.

Short Course men and townspeople
will be welcome to attend all meetings.
There will be a secretary for each guest.
Mr. Wilson will meet students for per-
sonal interviews for an hour each. The
exact time when these meetings will
take place will be announced later.

M. A. C. NO MATCH FOR STEVENS IN FIRST HALF

Second Half Brings Out Life of Team
But Game Is Lost 39-15.

The Stevens-M. A. C. basketball game
in the Drill Hall on Thursday night
resulted in a victory for the visitors
with a score of 39 to 15.

The Stevens men showed excellent
condition especially after defeating
Springfield and Dartmouth in difficult
games. During the first half of the
game Stevens' method of attack some-
what baffled the home quintet. It
looked for a time as if Aggie was no
match for the speedy opponents, who
went off the floor after the first half,
with the score 25-3 in their favor; but
evidently there was no discouragement
among the Aggie players.

The attention of the spectators was
held during the halves by a mascot of
the visiting team, giving an exhibition
of real basket shooting.

The Aggie team showed up in real
fashion as soon as the whistle blew for
the second half, and at the end of the
game, had added twelve points to her
credit, while Stevens scored but four-
teen points.

The visitors on the other hand be-
came confident of victory during the
first half of the game, and were them-
selves surprised at the spirit the Aggie
team showed, and at their come-back in
the latter half.

Kurix and Carlson featured for the
visitors, the former scoring fifteen
points and the latter ten; while Pond
and Gowdy starred for Aggie. The vis-
iting squad brought seven letter men
with them, five of whom were on the
team last year.

The Stevens team gave the best all
round exhibition of basketball shown
here this year. The line-up:—

| STEVENS | G. | F. | Pts. |
|-------------|----|----|------|
| Bateman, lf | 3 | 1 | 7 |
| Daly, lf | 0 | 1 | 1 |
| Kurix, rf | 4 | 7 | 15 |
| Higley, lf | 1 | 0 | 2 |
| Carlson, c | 5 | 0 | 10 |
| Provost, c | 0 | 0 | 0 |
| Egger, lb | 0 | 0 | 0 |
| Roth, rb | 2 | 0 | 4 |
| Brune, rf | 0 | 0 | 0 |
| Total | 15 | 9 | 39 |

| M. A. C. | G. | F. | Pts. |
|-------------------|----|----|------|
| Gowdy, rg | 0 | 0 | 0 |
| Lent, Stedman, lg | 0 | 0 | 0 |
| Thompson, c | 1 | 0 | 2 |
| Pond, rf | 2 | 3 | 7 |
| Grayson, lf | 3 | 0 | 6 |
| Total | 6 | 3 | 15 |

Referee—Swaffield. Time—20 minute
periods.

All Short Course students including
two-year men are now wearing buttons
with M. A. C., S. C. on them which
serve to show their identity and distin-
guish them from the regular four-year
students.

RENSSELAER GAME

Continued from page 1

ing this period the Maroon and White
defence frustrated all attempts of the
rival forward to break through and
took the ball away when it came into
their half of the court time after time.

The second half was similar to the
first in the opening ten minutes, and
then, as Rensselaer began to draw close
they started to rough things up. Five
minutes before the end of the game
Aggie was one point behind. At this
point A. W. Smith, was put into the
game in place of Grayson, who had
been ruled out on personal fouls, was
called upon to shoot from foul, and he
connected, tying the score. About one
minute before the final whistle Pond
scored the winning basket, a long shot
from just beyond mid-court.

The team play and defensive work of
the M. A. C. five was first class through-
out, and they put up a superior brand
of basketball. Every man on the team
scored. Behan excelled for Rensselaer.
The lineup:

| M. A. C. | G. | F. | Pts. |
|-----------------|----|----|------|
| Pond, rf | 5 | 0 | 10 |
| Grayson, lf | 1 | 0 | 2 |
| A. W. Smith, lf | 0 | 1 | 1 |
| Thompson, c | 1 | 0 | 2 |
| Kent, rg | 1 | 0 | 2 |
| Totals | 9 | 1 | 19 |

| R. P. I. | G. | F. | Pts. |

MOST men prefer the pipe to any other form of smoking.
There's comfort, contentment, real satisfaction and
economy in a good pipe. WDC Pipes give you this, and
more. A special seasoning process makes the genuine French
briar bowl break in sweet and mellow. Pick a good shape
at your nearest dealer's, at your price.

WM. DEMUTH & CO., NEW YORK
WORLD'S LARGEST MAKERS OF FINE PIPES

Prof. Hart Invited.

Professor Hart has been invited by
the board of overseers of Harvard Uni-
versity to be a guest at a dinner Feb.
17, which is given in commemoration of
the establishment of the Graduate
School of Education in Harvard Uni-
versity. The new school will be in
effect the reorganization and enlarge-
ment of the course given in education
in the University. It will have a sepa-
rate faculty and will offer the degrees
of master and doctor upon the recom-
mendation of its faculty. The lullal
resources of the school will be an en-
dowment of two million dollars. The
various donations will be merged as the
Charles William Elliot Fund of the Grad-
uate School of Education.

DE LAVAL

the world's cream saver

Thousands of De Laval Cream Sepa-
rators have been sold to young peo-
ple just beginning to run a farm, be-
cause a father or friend wanted to
see them start right.

The older people know from expe-
rience that the De Laval skims clean-
er, runs easier and lasts longer. They
also remember the service they have
always received from the De Laval
Company and its agents.

The superiority of the De Laval and
the uninterrupted service back of it
are responsible for the fact that there
are more De Laval in use than of all
other makes combined.

Any time is a good time to buy a
De Laval Cream Separator—to start
saving cream, as well as time and
energy.

If you want to "start right," see nearest
De Laval agent. If you do not know his
name, write to nearest De Laval office.

CAMPUS NOTES

The Q. T. V. Fraternity held an im-
promptu house dance last Saturday
evening, with dancing from 7-30 to 11-30.
Ten couples were present and the party
was chaperoned by Professor and Mrs.
Robbins, and Mr. and Mrs. Perrin. Dav-
enport and Mitchell furnished the
music.

Clarence Lea Taylor '22 of Jamaica
Plain, and Francis Shea '23 of Holyoke
have recently pledged Kappa Gamma
Phi fraternity.

Coach Mansell and Captain Crafts of
the hockey team have both been ordered
home by the doctors to recuperate from
a recent attack of the grip. Both left
Monday.

This year the custom has been in-
augurated of taking care of members of
visiting athletic teams at the various
fraternity houses and a scheme has
been devised by the Interfraternity
Conference whereby each fraternity will
have a certain quota. This will also
apply to visiting Freshmen opponents
in the hope of inducing them to come
to Aggie in the future.

The Chemistry Club trip which was
scheduled for Friday, Jan. 30, has been
postponed in accordance with the re-
quest of the Amherst Board of Health
that students should not leave town
unless on urgent business because of
the influenza epidemic. The postpone-
ment is a severe disappointment to the
30 or more chemists who had already
signed up for the excursion.

Show Tryouts.

There will be tryouts for places in
the cast of the Prom Show Thursday at
7-30 in the Old Chapel. The play is en-
titled "Nothing but the Truth."

Cutting '08 Speaks.

The first meeting of the Agricultural
Economics Club was held on Tuesday,
Jan. 27. Meetings will be held every
second and fourth Tuesday each month.
At this last meeting Roy C. Cutting '08,
general manager of the Boston sales
force of the Quaker Oats Company gave
a talk on salesmanship. There were
about 40 men present at the meeting.

Treadway Coming.

The speaker in Assembly, Wednes-
day Feb. 11, will be Congressman Allen
T. Treadway. Mr. Treadway was born
in Stockbridge, in 1867, and was elected
Senator in 1908. During 1909-1911 he
was president of the Senate. He was a
member of the 63d-65th Congress (1913-
1919) where he represented the First
Massachusetts District.

Italian Club Formed.

The Italian members of the student
body united last Thursday evening to
form the Italian Club. The object of
this club is to teach its members to
read, write, and converse in Italian.
Weekly meetings are to be held. Carl
lorio, who has studied Italian for two
years, has already put the other two
members of the club to work. It was
found necessary to establish this club
because the Italian students were for-
getting their native tongue entirely,
using it only when home on an occa-
sional vacation.

Freehof to Speak.

At a meeting of the Menorah Society,
held in the Entomology Building Jan.
27, Professor Freehof, Hebrew Union
College of Cincinnati was the speaker.
After his talk, an open forum was held.
Dr. Drachler of Smith College will ad-
dress the Society Tuesday evening, Feb-
ruary 10 his subject will be "The Mod-
ern History of the Jews."

Nowers Cheer-Leader.

The Two-Year students held a
meeting in the Social Union rooms on
Wednesday, Jan. 28, at 5-00 p. m. The
matter of having a student social in the
near future was discussed. It was de-
cided to postpone the wearing of class
pins until next year. R. C. Nowers was
elected official cheer-leader. President
Loomer asked that all the men should
try to work up some class cheers. The
meeting adjourned at 5-45 p. m. No
special date has been decided upon for
the next meeting.

New Exotic Plants.

The Botany Department has re-
cently purchased a small collection of
exotic plants for use in connection with
classwork. The collection will be main-
tained in the department green houses,
and it is hoped that it will be enlarged
from time to time as funds become
available. The collection will be of
considerable value in supplying types to
illustrate various features of plant life
not ordinarily represented by our native
plants. One of the interesting features
of the collection is a number of insec-
tivorous plants such as the sundew,
pitcher plants, and fly trap which will
be maintained in an artificial bog.
There is also a small banyan tree which
is the only specimen of the tree on
the campus. A specimen of the most
ancient type of fern which is native to
Australia is another interesting member
of the collection.

RIFLE TEAM DEFEATED

The Boston Rifle and Revolver Club
Wins 494-476 Match from
M. A. C.

In the Rifle Match held Jan. 31, the M.
A. C. Rifle team was defeated by the
Boston Rifle and Revolver club by a
score of 494-476. Tillson and Lambert
made some very good scores although
the team in general was not up to its
usual standard. The Boston Rifle and
Revolver club did some very good shoot-
ing, Souther making a perfect score and
Bruce and Gibbons both hitting a 99
score.

The next match will be with the
Harvard Rifle club and will take place
place Feb. 14. These matches are pre-
liminaries before the Intercollegiate
matches.

Cavalry Detachment.

The appropriation of \$15,000 for a new stable was approved by the Governor last week, and assures the establishment of a cavalry unit at M. A. C. The college is now in a position to accept the War Department's offer to furnish 32 horses, all the necessary equipment, forage for the animals, and a detachment of 13 men to take care of them.

The introduction of cavalry drill by the military department will, no doubt, stimulate a much greater interest in the "Army life" on the campus. It will not only serve as a splendid form of physical exercise for the students, but will in all probability attract a good many prospective Freshmen. Also the instruction given in Animal Husbandry and Veterinary Science should be greatly helped by having a detachment of cavalry horses kept at the college.

The college is indeed fortunate in having this item in the budget approved and we earnestly hope that the other items so sorely needed will receive similar approval.

A Standard Schedule.

President Butterfield stated in his annual report that the policy of the college should be restated and the aims, purposes, and methods carefully set down on paper. This statement was reiterated at the banquet in Fraper Hall during the Alumni Reunion.

There is one policy affecting the students very directly which might well be changed. That is the custom of changing the term schedules every year, adding new courses, dropping others, and transposing the periods in which these classes come.

Under the present system, it is impossible for a student to plan the work of his college course in advance. He cannot plan it for two years, nor even for a single term ahead, due to the changes and delays in issuing the schedules. At present a man cannot plan out his studies even after he starts in his major work. A student may take up a course which is consecutive for two terms and be confronted, at the beginning of the

second term, with the choice of either changing his major or dropping the course because of unforeseen conflicts in the schedule. Such cases have come up several times.

The most undesirable feature of the present system brought about by not having a standard schedule is the fact that a student will pick out the courses required for his major and then finding that he cannot take the other subjects in which he is interested, "fills in" his schedule with any course which will give him the required number of credits. The result is that he looks around for some "snap" course and devotes the minimum amount of time in their preparation. He gains practically nothing from such courses and his time is largely wasted. It would be far better to cut down on the number of required credits and insist on more preparation for the remaining courses in which the student takes a real interest. When the student comes to graduate, he finds several very good courses which he was absolutely unable to get simply because of conflicts in the schedule. It is conceded that as the college grows this will be eliminated to some extent because of the greater number of sections which the increased size of the classes will necessitate. However, that does not do away with the injustice of the present system. The number of new courses introduced could be cut down in some cases by incorporating the material in some course already offered.

Let us have one standard schedule for each term and so enable a student to plan his work in advance.

FAST GAMES IN CLASS BASKETBALL SERIES

Freshmen Stave off Senior Rally and Win 20-15. Juniors Win 38-13.

A good exhibition of basketball was seen at the Drill Hall Friday night, Jan. 30, when the Freshman class team defeated the Seniors by the score of 20-15. Both teams had good team work coupled with stellar defense, and the game was fast from start to finish. Marshman '23, started the scoring with a double-counter, and Alexander scored a free try. Batchelder and Crowe came back with floor-baskets for '20, but the Freshmen soon gained the lead and kept it despite the Seniors' spurt in the final half. Batchelder and Lathrop showed fast work for '20, while much credit was due to Hunter '23, who broke up play after play of the Seniors. The feature of the second half was the passing of Marshman and the true shooting of Beal, with five floor-baskets to his credit.

The contest between the Juniors and the two-year-men resulted in a decisive victory for '21 to the score of 38-13. The two-year-men put up a scrappy game, but lacked ability in passing and team-work. The first and best basket of the game was a long shot from the middle of the floor by Readio '21. Soon the Juniors piled up eleven points to their opponents' 0, and from this time on the outcome of the game was never in doubt. Girard and Loomer, S.E., did good work for their team especially in shooting. Caselo and Davis '21, also showed shooting ability, each with seven baskets to his credit, while Brigham '21 helped to keep his opponents' score down by his first-class defense work.

'20 - Miss Ethel Harris is teaching in Wenham.

CHALLENGE OF WORLD OBLIGATIONS THROWN OUT.

Maples '20, Reports On Des Moines Conference.

American Missionary work must be pushed as never before in foreign countries. We helped them during the world war with our contributions of food and clothing. Now shall we leave them in the lurch? This was one of the many impressions which Maples '20 got at the student missionary conference, held at Des Moines, Iowa, and which he passed on to the student body at Chapel, Friday morning, Jan. 30.

The conference was made up of 7,000 men and women from all colleges of this country, and from forty foreign nations. The services were very impressive, especially the hymns sung by the whole body. The great auditorium resounded with cheers of the various sections, and banners were displayed all over the hall.

There were two services a day, in the morning and evening. During the rest of the time, parties of delegates met in the various churches, to discuss topics of importance, and to listen to speakers like Mr. Sam Higginbottom, whom our delegates heard there. The Aggle men also invited several speakers to dine with them, and thus got better acquainted with them.

The conference was really a recruiting agency for foreign missions. Its purpose was to present the world needs, and to challenge students to the immense task ahead of this country in missionary work. The poor condition and the practical needs of countries like India were brought before the conference by foreign missionaries, who left vivid impressions with every delegate present.

The Stamp of Approval

placed by the Agricultural Colleges of the United States and Canada upon

is a convincing testimonial to its unequalled ability to maintain wholesome, sweet and sanitary cleanliness in all departments of dairy production.

Wyandotte Dairyman's Cleaner and Cleanser not only cleans, but cleans thoroughly, quickly and clean. Its use applies to milking machines, separators, cans and general dairy equipment. Moreover, being free from caustic, lime, or any soapy or greasy ingredient, it rinses easily, leaving no film to affect the quality of milk product.

Wait a second and we'll go together.

WALSH

NEW HAMPSHIRE'S RECORD IN BASKETBALL GOOD

M. A. C. Team Looks Forward to Hard Fight Next Saturday.

Saturday night the last Aggie quintet will journey to Durham, N. H., to play against the team representing N. H. State.

Thus far New Hampshire has had a fairly successful season. They have defeated Portland A. C. 26-20, Boston University 35-19, and Tufts 35-25. Setbacks have been received from Portland A. C. 24-21, and from the W. P. 1-21-19. This shows that the Granite State team has no mean scoring ability and that their backs are holding the opposing forwards down pretty well.

Butler and Perry are playing forward. Butler is showing the best form of any man on the team. He is a veteran of several seasons. Perry is also a fast man and tosses some of the fouls. Craig and Anderson are alternating at center. Anderson is a veteran. He has played especially well in the last few games. He scored six floor baskets against Tufts. Captain Davis and Atkins are playing the two guard positions. Davis is showing his ability for shooting fouls this year. He shot 13 times against B. U., and is credited with 11 baskets. The team is fast and should show a fine brand of playing against the M. A. C. team Saturday.

The Aggie team under Coach Grayson is playing well now. Her latest victim was R. P. L. at Troy last Saturday, making the fourth victory of the season. The fast work of Pond was largely responsible for the resulting 19-17 score in New York State. Towley is also playing especially well on the defense. He scored his first basket of the year last Saturday.

The game promises to be close and interesting. With both teams in condition the result might be safely said to be a toss-up.

MOVIES RESUMED BY SOCIAL UNION MANAGEMENT

First Movies for Two Years Prove Success. "Sporting Life" Shown.

A very interesting and delightful program was presented this week by the Social Union authorities in the form of motion pictures given last Saturday in the Bowker Auditorium, Stockbridge Hall.

"Sporting Life," a Paramount photodrama was shown first. The plot of the story consisted of the villain trying to prevent the hero from winning his prize winning horse, Lady Love, at the races. How he is foiled in the attempt and how the horse wins the race was clearly depicted on the screen by the cinematograph.

"Whose Little Wife Are You?" was a Mack-Sennett comedy which kept the audience in a continuous uproar of laughter. It centered around a bathing resort and contained a personnel staying from rats to girls in bathing suits.

Dr. R. V. Waldron is in the Department of Botany at the University of Pennsylvania, Philadelphia.

RIGHT NOW, BETWEEN SEASONS—

PROFIT by the lesson of the past year, the scarcity of good clothing and continued advance in prices. See our line of overcoats—and suits with extra trousers. That "spare" shares the wear. Also odd trousers in staple patterns.

PROF. ELDER ADVOCATES THE PURE BLOODED BULL

Grade Cows May be Used to Start a Herd.

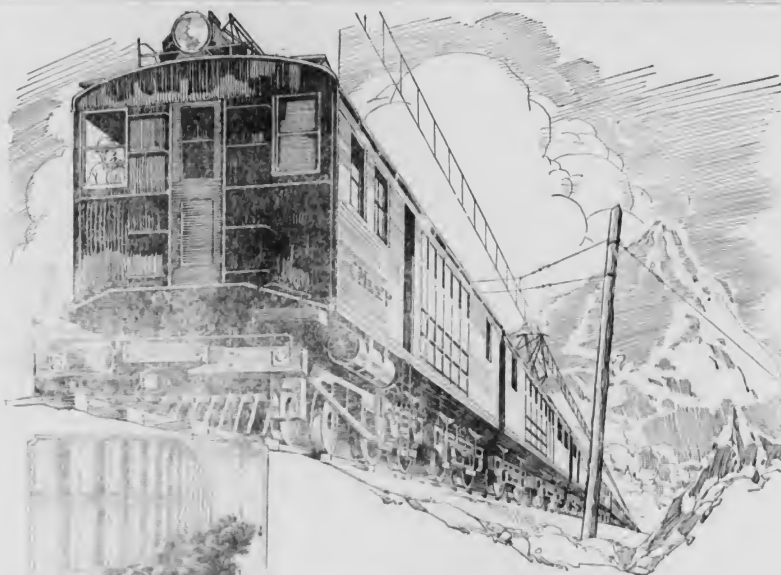

The Animal Husbandry club held a meeting on January 28, at Stockbridge Hall. The speaker was Mr. Elder from the Mt. Hermon School. He spoke first

about dairying in general and then in particular about the herd at the Mt. Hermon School.

New England was formerly a great dairy section and sheep were raised in quite large numbers, but lately herds and flocks have been decreasing. This is due to the opening of the west, and to industrial development. Very little was done in the east until recently to build up good dairy herds. Mr. Elder

thought that the industries had been unjustly criticized for taking men from the farms, because if they had not developed the cities there would not be such a big market for dairy products. Increased freight rates make it impossible for the West to compete with the East.

Conditions are very favorable to the small dairy farmer who can produce his own grain and fodder. The large

The Power of Electricity in Transportation

ELECTRICITY has leveled out the Continental Divide. The steam locomotive, marvelous as it is after a century of development, cannot meet all the present demands for transportation facilities. Its electric rival has proved to be far superior.

On the mountain divisions of the Chicago, Milwaukee & St. Paul Railway—the world's greatest electrification—giant electric locomotives today lift an ever increasing freight tonnage over the mile-high Rockies and also make traveling clean and comfortable. They utilize the abundant energy of distant waterfalls and then, by returning some of this power to the trolley, safely brake the trains on descending grades. And their capabilities are not impaired by excessively cold weather when the steam engine is frozen and helpless.

Electricity is the power which drives the trains of New York City's subway and elevated systems. It operates the locks and tows the ships through the Panama Canal. It propels the Navy's latest super-dreadnaught, the *New Mexico*. Electric mine locomotives have replaced the slow-moving mule and the electric automobile has also come to an important service. Such achievements were made possible by the extensive research and manufacturing activities of the General Electric Company.

Electricity has become the universal motive power. It has contributed efficiency and comfort to every form of transportation service and in this evolution General Electric apparatus has played a large part—from mighty electric locomotives to the tiny lamp for the automobile.

General Electric Company
General Office Schenectady, N.Y.
Sales Offices in all large cities 1912-1920

farmers cannot get enough labor. Recently the standard of dairy herds has been greatly improved by the culling out of the poorer animals. At the present time there is practically no field that offers such an opportunity as the development of a dairy herd.

It is usually thought that the milk distributors charge too much, but an investigation shows that they make only half a cent on a quart. This is due to the large wages that the drivers get and to the general lack of system in distributing.

The development of the Mr. Hermon dairy herd began in 1905 with a foundation of fifteen Holstein cattle. This herd was chosen because it was quietest and the students could handle it better. From one of their greatest cows Spring Brook Cronelle and her three sons can be traced 287 cows and 284 bulls. A bull had to be imported from outside because his animals were getting too refined.

A man starting to build a herd should start with grades and a pure bred bull, and develop his herd from them. In order to make good with cattle, a man must be a good judge of cattle and a good judge of men. He has got to like animals and has got to stand disappointment. He must feed his animals well because growth is essential.

After Mr. Elder spoke there were reports given by Mr. Thayer and Mr. Perry on articles from the *Country Gentleman* and from *Harvard's Dairyman*.

At the next meeting reports from members of the club on articles from other papers will be read.

CAMPUS CALENDAR.

THURSDAY, FEB. 5.

6-10 p. m.—Lecture by Dr. R. H. Seeley, Stockbridge Hall.

7-10 p. m.—Chemistry Club meeting in Chemistry Building.

7-30 p. m.—Interclass basketball: 1922 vs. 1923, 1920 vs. 2 year.

FRIDAY, FEB. 6.

7-40 a. m.—Chapel.

3-40 p. m.—Special Assembly, speaker, Hon. J. Stuart Wilson.

SATURDAY, FEB. 7.

3-30 p. m.—Hockey: Bensseler vs. M. A. C., out college Pond. Basketball: N. H. State vs. M. A. C., in Durham, N. H.

Williston vs. 2 year in Easthampton, Relay Race: M. A. C. vs. New Hampshire State, Mechanics Building, Boston.

7-40 p. m.—Lecture by the Hon. J. Stuart Wilson in Stockbridge Hall.

SUNDAY, FEB. 8.

9-10 a. m.—Chapel. Speaker: Mr. Alfred E. Stearns of Phillips Academy, Andover.

MONDAY, FEB. 9.

7-40 a. m.—Chapel.

WEDNESDAY, FEB. 11.

3-10 p. m.—Assembly, speaker: Congressman Allen T. Treadway of Washington, D. C.

7-30 p. m.—Animal Husbandry meeting, Stockbridge Hall.

Hockey: Dartmouth vs. M. A. C., in Hanover, N. H.

17.—Richard W. Smith is with the Jerome B. Rice Seed Co., Cambridge, N. Y. This concern planted last year 30,000 acres in vegetable seeds, and has lately developed a large foreign trade in Europe and South America.

Smith is leader of a boy scout troop and is secretary of the Captain Maxon Post 1534 of the American Legion.

FRATERNITY RACES RESULTS

Lambda Chi Alpha and Phi Sigma
Kappa Victors. Spiked Shoes
Worn.

The second series of the Interfraternity relay races was held on Thursday, Jan. 29. The race between Kappa Sigma vs. Alpha Gamma Rho was postponed. Phi Sigma Kappa ran against Q. T. V. and won by a wide margin. The race between Lambda Chi Alpha and Alpha Sigma Phi was not so one-sided as the first, Lambda Chi Alpha winning by a short distance.

By a new ruling of the fraternity conference manager runners are now allowed to wear spiked shoes.

Yesterday's races were as follows: Kappa Sigma defeated Q. T. V. time not taken.

The standings to date are as follows:

| | Won | Lost | % |
|-------------------|-----|------|-------|
| Phi Sigma Kappa | 2 | 0 | 1.000 |
| Alpha Gamma Rho | 1 | 0 | 1.000 |
| Kappa Sigma | 1 | 0 | 1.000 |
| Kappa Gamma Phi | 1 | 0 | 1.000 |
| Sigma Phi Epsilon | 1 | 0 | 1.000 |
| Lambda Chi Alpha | 1 | 1 | .500 |
| Theta Chi | 0 | 1 | .000 |
| Alpha Sigma Phi | 0 | 2 | .000 |
| Q. T. V. | 0 | 2 | .000 |

ALUMNI NEWS

78.—It will probably be of interest to the many friends of Dr. F. Tuckerman to learn that he is on the road to recovery, after a serious attack of pneumonia (at his home on College Street, Amherst).

79.—Mr. and Mrs. J. J. Gardner announce the arrival on January thirtieth of John Joseph, Jr.

80.—J. N. Everson of 2212 Jefferson Street, Savannah, Ga., is the proud possessor of three daughters. He is employed as Chief Chemist for the Central of Georgia Railroad.

81.—P. P. Pickard is with the Bowker's Insecticide and Fungicide Co., at Boston.

82.—Howard P. Gilmore is director of the Pittsfield Poultry Farms Company of Holliston and Westboro. This concern is running the largest chick hatchery in the world. Over 40 farms are under contract to help maintain a weekly setting of 53,000 eggs. Day-old chicks at the specialty. These are produced in five popular breeds: Rhode Island Reds, Barred and White Plymouth Rocks, White Leghorns, and White Wyandottes.

83.—T. J. Moreau's address is: Marquette Building, Chicago, Illinois. Care of American Park Builder's Association.

84.—R. Stanley Leonard is construction foreman for a concern that is handling some large road construction jobs. His address is 314 Shawnee Path, Akron, Ohio.

85.—O. E. Cristman of 182 North Maple Street, Florence, Mass., is Agricultural Instructor of the Smith Agricultural School, Northampton.

86.—J. S. Carver, is head of the Poultry Department at the Essex County Agricultural School. He is also Poultry Specialist for the Farm Bureau and Supervisor of the Essex County Egg-Laying and Contest Breeding.

87.—A. S. Thurston, who is teaching literature at the Maryland State College, has recently purchased a house and small farm about a mile and a half from the college, where he will be engaged in doing a little farming on the side.

88.—W. T. Baker is with the Plymouth County Farm Bureau at Brockton.

89.—A. Johnson and E. Kling '16 are employed by the Fisk Rubber Co., at Springfield.

90.—Mr. and Mrs. R. P. Hotis, of Middletown, Delaware, announce the arrival of a daughter, Carolyn Elizabeth, on January 11, 1920.

91.—A. L. Coe, who had a severe attack of influenza while in France, is spending the winter in Florida to recover his health.

92.—Mr. and Mrs. Edward H. Weir announce the marriage of their daughter, Margaret Anne, to Norman Russell Clark on Saturday afternoon, Jan. 17, at Peoria, Ill.

93.—Benjamin C. L. Sander, who was married last December, is now located at Middleboro.

94.—William Genna is now a first lieutenant in the army.

95.—Dwight F. Barnes is now located at 140 Newton St., Melrose, and is working with the Melrose Highlands Entomological Laboratory.

96.—G. A. Newton is farming in Durham, Conn., and is Lecturer of the Durham Grange, No. 57.

97.—A. O. Kinsman announces the recent arrival of a son, Alfred Williams. Mr. Kinsman is now occupied as herdsman for the Albion Farms, Hampton, N. H.

98.—Francis C. Harbort, Rockville, Conn., after nearly two years in the service is now running a 40 acre farm in Vernon Center, Conn.

99.—Ernie Ritter was back for a short visit last week. He is manager of the Co-operative Exchange and Page Demonstration Farms, Hardwick.

100.—W. I. Loring has taken a position at Hadley as a teacher of agriculture, at a salary of \$2,000. He succeeds E. J. Burke '16, who is now assisting in the instruction of Federal Board men at this college.

Ex-'18, J. C. Powell is attending Dartmouth.

101.—An announcement has been received of the marriage of Miss Ruth D. Blanchard and Mr. A. E. White on January 1, 1920, at Linwood.

DEPARTMENT NOTES

Landscape Men Active.

Last week Professor Waugh of the Landscape Department, went to Columbus, Ohio, to speak at the "Farmer's Week" at Ohio State University. About 4,000 attended this convention, among whom Professor Waugh met several Aggie men.

The Landscape Gardening class, as part of its work, is making surveys and drawings for the Amherst town planning board.

Mr. Bremer W. Pond, a well-known landscape architect of Boston, has been engaged as the speaker at the next meeting of the Landscape Club.

Addresses C. V. G. A.

Professor Machmer will address the Connecticut Vegetable Growers Association at Hartford on Tuesday, Feb. 10. His subject will be "The Markets of Massachusetts During the Past Year."

New Spraying Machine.

The Pomology Department has just received a new gasoline spraying outfit from the Hayes Plum and Planter Company. This will be used as a demonstration sprayer by the spring classes in spraying. The Niagara Sprayer Company of Gasport, New York, has sent a sprayer which will also be used in the Spring courses.

COPY OF 1917 INDEX GIVEN TO HIGH SCHOOLS

Twenty-seven Preparatory Schools
Receive Benefit From
Class Gift.

A very worth while gift to the college
was recently made by the class of 1917.
Twenty-seven *Indices* were presented to
as many high and preparatory schools
through the kindness of men who are
now undergraduates. The following
schools received these books:

Uxbridge High, E. R. Blanchard '23
Watertown High, G. A. Fetter '23
Northbridge High, F. W. Hossey '22
Springfield Technical High, F. W.
Johnson '21
Fitchburg High, R. L. Starkey '21
Orange High, G. W. Edmund '21
Amherst High, R. H. McNulty '21
Hartfield Academy, F. E. Williams '23
Dorchester High, R. B. Friend '23
Worcester Classical High, M. Reed '21
Boston Latin School, J. A. Crawford '20
Leominster High, M. R. Bacon '20
Salem High, L. E. Baker '21
Bacon Academy (Chechester, Conn.) R.
Glaxman '21
East Greenwich Academy (R. I.) R. P.
Lawrence '22

Stow High, W. R. Peck '22
Arlington High, J. J. McCarthy '21
Brooklyn High, (N. Y.) S. N. Bassoff '21
Holyoke High, B. Gamze '23
Boston English High, L. G. Quint '21
North Brookfield High, R. A. Dorne '23
Woburn High, R. D. Fuller '23
Brookton High, L. J. Fitzpatrick '23
Sanderson Academy, (Shelburne Falls)
R. E. Field '22
Quincy High, C. B. Fuller '20
Enfield High (Conn.) R. T. Stowe '20
Palmer High, D. H. McKee '23

Ex-'20, Fred R. Smith was married to
Miss Helen Stearns of Baldwinville,
January 9, 1920. They will live in
Rochester, New York, where Smith is
connected with the Central Oil and Gas
Storage Company.

'19, Samuel B. Ferris has recently
taken charge of the Springfield Ice Com-
pany of New Milford, Conn.

VARSITY QUINTET TAKES FAST GAME FROM PRATT

Brooklyn Institute is Second Victim
of Week.

The Aggie basketball live, by virtue
of clever passwork, coupled with close
guarding, was able to win his sixth
game of the season and their second
of the week on last Friday evening; the
fast Pratt Institute team of Brooklyn
being on the little end of a 17-10 count.
Floor baskets numbered only two in the
first half, those both to the credit of the
Maroon and White basket tossers, and
though Pratt garnered only one double
decker during the second period, the
foul shooting of their right forward,
Roth, plus their defense that kept the
Aggie forwards well in hand, kept the
visitors always in the running, and at
the middle of this period narrowed
Massachusetts' lead to two points. In
the last five minutes Aggie began to
draw ahead, and added the points that
established a substantial lead and won
the game.

The game started fast, and the ball
worked up and down the floor, with
close guarding preventing both sides
from shooting. The game went thus,
with both sides failing to score either
from the floor or in chances from the
foul line, for eleven minutes, before
Grayson sunk a free try for the first
point. He repeated a minute later,
and then on the tip off, pushed the
score to four points by carrying a long
shot from the floor. Roth dropped one
from the foul line for Pratt, for their
first score, and Grayson added one for
M. A. C. immediately after. Both re-
peated in short order, and just before
the half ended the Aggie captain scored
his second floor basket of the game,
from down under the hoop, making the
score 7-2.

Thompson broke into the scoring with
a double decker at the beginning of the
second period, increasing Aggie's lead
to seven points. Pratt Institute took a
bace, Roth scoring his team's first floor
basket and sinking two from the foul
line. The game began to tighten at
this point, and the gap between scores
was narrowed to two points when the
clever right forward of the visitors
again shot true to the mark from the
foul line. Grayson contributed two
points on free tries. Stedman replaced
Roth at right guard, and after Roth
had narrowed M. A. C.'s lead to three
again the Institute quintet took time
out, Butera replacing Schrafran when
play was resumed. Stedman divided
the length of the court and sank a twin-
shot from close range. Another
goal from foul by the Pratt captain
proved to be the extent of their scoring,
but for Aggie, Grayson and Thompson,
the latter with a neat shot from the ex-
treme side of the court, added the three

(Continued on page 7)

SERVICES FOR LATE ALLAN L. STILES IN OLD CHAPEL

Two-year Man Died of Pneumonia on
February 8th.

A memorial service was held last
Sunday in the Old Chapel for Allan
Langille Stiles, who died of pneumonia
at the College Infirmary, Sunday
morning February 8. Mr. Stiles came
here last fall from Littleton, and was
enrolled as a two-year student. In spite
of physical weakness throughout his
life, he showed undaunted spirit and
great ambition.

"We shall meet him no more on the
campus of this college," Prof. Phelan
said in reviewing Mr. Stiles' life, "but
his spirit will live on. The spirit that
sent him, frail in body but strong in
courage through high school and to col-
lege, to gain an education, to make the
most of his life that he might be of
service will be with his classmates, with
his teachers. It is that spirit that
makes a college. It is that spirit that
makes a worthy, useful life."

"The death of the young, those in the
morning of life, is one of the great
mysteries, the great tragedies of exist-
ence. We can understand the passing
of those who have lived the allotted
years, of those who have done their
work, who have reached their goal, and
who in the late evening of life in the
shadow of the rock of eternity lie down
to rest. But when a young man or a
young woman in love with life, filled
with the joy of living, passes beyond
our ken we face one of the greatest
problems of human existence. It is then,
more than at any other time that our
thoughts turn to immortality. We
know that in the Providence of God, to
this great economy, there is for every
blade of grass, for every flower and seed,
the promise of another springtime and
for the soul of man, life eternal.

"In that Providence we trust to meet
again in a life immortal our friend and
class mate, Allan Langille Stiles."

FOUR CLASSES TIED IN DEADLOCK—600 EACH

Two-year Men Have Not Won a
Game Yet.

The classes are now tied in the inter-
class basketball series. Out of twelve
games played each has won three and
lost two. The last games played were
last Thursday night when the Seniors
beat the Sophomores in a close game
with the score 24 to 11; and the Fresh-
men won over the Juniors with a score
of 20 to 6. The standings of the teams
to date is as follows:

| | Won | Lost | Percentage |
|--------|-----|------|------------|
| 1920 | 3 | 2 | .600 |
| 1921 | 3 | 2 | .600 |
| 1922 | 3 | 2 | .600 |
| 1923 | 3 | 2 | .600 |
| 2-year | 0 | 4 | .000 |

PROFESSOR HICKS ELECTED PRESIDENT OF E. I. C. T. A.

Representatives of Ten Colleges Ex-
press Their Respect for M. A. C.
Athletic Leader.

At a meeting of the representatives
of the Eastern Intercollegiate track as-
sociation last Saturday at Hotel Kim-
ball, Springfield, Professor Curry S.
Hicks, General Manager of Athletics at
M. A. C. was elected president of the
association, succeeding E. M. Jones of
Colgate. This association consists of
representatives from the following col-
leges and institutes: Colgate, Stevens,
St. Lawrence, New Hampshire, Holy
Cross, Worcester Tech, Boston College,
Springfield, Rhode Island State, and
Massachusetts Agricultural College.

The date of May 8 for the Annual In-
tercollegiate Track Meet at Pratt Field
in which ten teams are now sure to par-
ticipate was decided upon at the meet-
ing. There is also a possibility of Con-
necticut Agricultural College being
represented at the meet. Several New
York colleges were very anxious to en-
ter, but were not able to do so as the
date conflicts with that of the Middle
Atlantic meet.

Among the questions that came up at
the meeting was as to whether the
hammer-throw should be listed for this
year or not. At the meeting last year,
at which the organization was formed,
it was decided that the hammer-throw
be eliminated from the list of events.
At this meeting, however, J. T. Com-
stock, the representative from St. Law-
rence College, petitioned very strongly
in favor of again having the hammer-
throw. The general feeling was against
this, "as the hammer-throw is being
eliminated from most college circles, it
being considered one of the most dan-
gerous events in college sports. The
final decision will not be given, however,
until the next meeting which will be
held in Worcester in about two weeks.
Another question discussed was the
possibility of making the meet a two-
day event instead of running it in a
single day as was the case last year.
Due to the additional expense, and to
the fact that some of the colleges
would not be able to send their athletes
for an extra day, the decision was that
the meet should remain a one-day
affair.

The high place that M. A. C. now
holds in this association is due to the
fine working spirit of the college and
its representatives. The line work that
Professor Hicks has done for the athlet-
ics of this College is appreciated by all,
and the awarding of this honor to him
is all the more notable as there were no
representatives from M. A. C. at the
meeting.

At a meeting in the Entomology
Building, Tuesday evening, Feb. 10, the
Menorah Society discussed, in an open
forum the principles of J. Stitt Wilson.

AL. SPAULDING RESIGNS AS ALUMNI SECRETARY

Has Accepted Position as Advertising
Manager for Norwell Stores
in Boston.

After seven months of successful
work in behalf of the Alumni Memorial
Building drive and the college affairs in
general, A. W. Spaulding '17, last week,
tendered his resignation as assistant
secretary of the Associate Alumni, and
College field agent. The Alumni Exe-
cutive Committee met on Feb. 13 and
decided to make these two positions
permanent and open to one man.
Formerly the two offices were separate,
but this was held by Spaulding, to-
gether with the position of assistant
secretary of the Alumni.

A. W. Spaulding had recently ac-
cepted a position as advertising man-
ager in the Advertising Department of
the Shepard Department stores, form-
erly the Shepard, Norwell stores of
Winter street, Temple place, Tremont
street, Boston, and began work Mon-
day, Feb. 16. His home will be at 15
Brewster road, Newton Highlands.

Spaulding is a graduate of the class
of 1917, the July of that year he en-
listed for overseas in the Amherst Col-
lege Ambulance Unit. Immediately
on his return from France, July 1, 1919,
he became engaged in work for the col-
lege, especially on the Alumni Mem-
orial work, which has been carried
through with great success. This drive,
which has been the largest undertak-
ing, probably, in the history of the col-
lege, has resulted in the securing of a
fitting memorial for those M. A. C. men
who made the supreme sacrifice. The
immediate construction of the building
is now assured. Of the one hundred
and fifty thousand dollars wanted, one
hundred and forty-five thousand has
been pledged and the contract has been
let to E. F. Carlson of Springfield. Ex-
cavation for the building will be begun
in the latter part of March, just as soon
as the ground is workable.

The building as has been planned
will be located on the plot south of the
Stone Chapel and facing Lincoln avenue
and Olmsted road. The principal
front and main entrances to the build-
ing will be on the side of the building
facing the latter road. Other entrances
will be on the Lincoln avenue and at
the south end. The building has been
designed in the classic style with brick
walls and marble trimmings, as devised
by James H. Ritchie, the architect.

On the first floor there will be billiard
and recreation rooms and in the Mem-
orial room which is placed in the
northwest corner of the building, there
will be a special memorial commemora-
ting the service in the World War of
men of the college. The auditorium
will be on the second floor and will have
a seating capacity of about four hun-
dred. There is also on this floor a

special room set aside for the use of the Alumni, and a loggia enclosed with large French windows, while from the arched windows of the auditorium a wonderful view of the Connecticut Valley may be realized.

Much of this accomplishment should be credited to Spaulding. Besides his efforts in behalf of this drive, he has been active in the publicity work for the College. For the past three or four months he has been working on an illustrated booklet of the College, which will be published within two or three weeks. It was largely through his efforts that the Alumni Bulletin was inaugurated which has shown from time to time the progress of the Memorial drive. He has also served on several committees and spoken at several of the meetings during the big drive for the funds. In addition to this, he has been conducting correspondence with prospective students for the college.

The Alumni executive committee has been deliberating upon several who may be chosen for the office. G. M. Campbell of the class of 1920 has been appointed to take Spaulding's place. He assumed his duties last Monday.

HOCKEY TEAM LOSES OVERTIME CONTEST TO DARTMOUTH

Threshie Oages Winning Tally In First Few Minutes Of Second Overtime Period.

It required two overtime periods for the Dartmouth puck chasers to register a victory over the "Aggie" septet last Wednesday, February 11, on the Hanover rink. From a "Green" viewpoint the game was the fastest and roughest one ever witnessed on the Dartmouth ice.

The only winning tally was scored by a clever shot from Threshie's stick after a brief scrimmage in front of the "Maroon and White" cage. The poor condition of the ice contributed to make the game a good shiny test in the first few minutes of play and the use of team work for either side was made impossible. The goal tending was of high order throughout the contest, in fact it was the feature of the game. Time and time again Delahunt made sensational stops and Gale's wonderful work for Dartmouth was the only factor that prevented "Aggie" from returning the victor.

The opening of the first half found both sides quite at sea as to the use of the boards due to the exceedingly bad condition of the ice. Several rushes were made toward both goals resulting in hard scrimmages often directly in front of the cages but good shooting could not be coupled with fast advances appeared in the limelight far outshining any work done by the forwards. The end of the first period found the teams fighting hard to break the deadlock but to no avail. Score, 0-0.

With the opening of the second half the use of rough tactics commenced to such an extent that several players were sent to the side lines by the referee. The puck traveled up and down the ice with increased speed as time decreased but the necessary punch was lacking to cage the winning tally. Several long shots were attempted unsuccessfully and the end of the second period found the teams still in deadlock.

Five minutes of overtime were agreed upon by the two captains and in the second overtime period Threshie sank the elusive rubber in the "Maroon and

White" cage for the lone tally.

For Dartmouth the work of Threshie was of high class while for Aggie, Leavitt, Lyons and Dowd worked well.

The Summary:

CLASS OFFICERS FOR REST OF TERM ELECTED

Banquet Scrap Officers To Be Elected Later.

The Class of 1923 held a meeting in the Social Union Rooms last Friday evening at 6-15. New class officers were elected as follows:

President, Donald B. Alexander; vice-president, Tresscott T. Abele; treasurer, Marshall S. Hodsdon; secretary, Gilbert H. Irish; class captain, Raymond T. Grayson; sergeant-at-arms, Conrad L. Wirth; class historian, Ernest Putnam.

These officers will go out of office at the beginning of next term when, according to Senate rules, the class will elect its officers for the Banquet scrap.

After the election, class cheers were given for each of the retiring officers and then R. B. Friend gave his report on the progress of the Freshman play

CLOTHES OF CUSTOM QUALITY

If you think that foundry made suits can by any possibility equal the custom quality of Campion's Tailored Suits, pay the penalty, wear and forswear the spurious stuff.

CAMPION, the Only Trained Cutter and Tailor in Amherst.

C. A. C. LOSES FIRST GAME ON OWN FLOOR TO M. A. C.

Substitutions Work Well for Aggie
Score 27-22.

One of the most creditable games ever played by an Aggie basketball team took place at the Connecticut Agricultural College, at Storrs, Conn., last Thursday night, when Coach Grayson's team won by a score of 27 to 22.

This game was the first in the history of M. A. C. Athletic Association that the team has gone to Connecticut to play. It was the first beating that the Storrs team had suffered on its own floor. Everything seemed to be against the Aggie men at the start; the coach of the team, M. Grayson, was unable to officiate because of a bad cold, and for the same reason one of the most reliable men the team has had, Pond, was not able to play. Although away from home, the Aggie spirit was maintained in the great showing which the players exhibited throughout the game.

During the first period of the game Aggie piled up 18 points to its credit, while the Connecticut team scored 9. After the first 10 minutes of play the home team took the lead by one point, when 9-8 was chalked up, but soon they fell back and Massachusetts dropped in two baskets in quick succession. From this time on Connecticut did not come nearer than four points to their opponents' score.

In the second half of the game Connecticut tried hard to catch up with the fast team, and succeeded in gaining 13 points. The Aggie men added 9 to their score in this half, and the game ended in their favor.

Alexander, who started for Connecticut when they played in Amherst, succeeded in getting only one basket against Sedman, one of Aggie's guards, who dropped in three baskets. Gowdy's men went scoreless, and Thompson played the captain of the Storrs team off his feet, scoring two baskets in each half. Credit is due A. W. Smith, Aggie's right forward, who played his first full game on the team, and added 10 points to the score. Putnam explained for the Connecticut team, while Grayson and Thompson starred for Massachusetts.

This score and line-up:

| M. A. C. | B. | F. | Pts. |
|-----------------|----|----|------|
| Grayson, lf | 1 | 5 | 7 |
| Dezelle, lf | 0 | 0 | 0 |
| A. W. Smith, rf | 3 | 0 | 6 |
| Thompson, c | 4 | 0 | 8 |
| Gowdy, lb | 0 | 0 | 0 |
| Sedman, rb | 3 | 0 | 6 |
| Leavitt, lb | — | — | — |
| — | 11 | 5 | 27 |

| C. A. C. | B. | F. | Pts. |
|---------------|----|----|------|
| Putnam, lb | 2 | 0 | 4 |
| Rothchild, lb | 2 | 0 | 4 |
| Leavitt, lb | 0 | 0 | 0 |
| Grayson, c | 2 | 0 | 4 |
| Dezelle, lf | 0 | 0 | 0 |
| Alexander, lf | 1 | 0 | 2 |
| — | 7 | 0 | 10 |

Time—20 minute periods. Referee—

LEGISLATION REQUIRES MORE WORK THAN COMMENCEMENT

Congressman Treadway Explained
the Work of National Legislation.

"I am glad to be back in the college atmosphere," began Congressman Allen T. Treadway in his talk given in Assembly, Feb. 11, at 3:00. Mr. Treadway showed by a few illustrations how much work there is in the passing of a bill by the Legislature.

One of the great dividing features for many campaigns was the question of tariff. Previous to 1913 the annual budget was \$740,000,000, 40% of which, \$325,500,000, came from the Custom Houses. During 1914-1915, this percent was lowered to 40, and then to 30, so that it was very fortunate that in 1913 the sixteenth amendment to the Constitution was adopted, permitting an income tax. Previous to this, Congress had passed an income tax bill but this had been declared unconstitutional by the United States Supreme Court. During the war, President Wilson recommended an increase in the tax. Accordingly, a bill was framed in the Autumn of 1917 which became a law when signed by the President in February, 1919. The public in reading that the bill has become a law little realizes how much work it required for that bill to be passed.

Another interesting piece of Legislation will probably be enacted this week. Last May, the President advised Congress that the government be dispossessed of the railroads. The project was taken up last fall by the committee who finally introduced the Esch and the Cummings bills. These bills were finally made one and this final bill is now in the hands of the Ways and Means Committee, and after being passed by both Houses, it will go to the President if signed and on March 1 will become a law.

Mr. Treadway then mentioned the three most interesting days that he spent in Congress. The first of these was April 2, 1917. The regular session of Congress had just expired and there existed in the Capital an ominous silence. On April 2, the President called a special session of the sixty-fifth Congress and recommended that we declare war on Germany. After four days of session Congress, on April 6, 1917, declared war. Another interesting day was when General Pershing was congratulated personally by Congress. He is the first American general to obtain this honor. The last memorable time was when Victor Berger by an almost unanimous vote of the House was refused membership, not because he was a socialist, but because he had aided and abetted our enemy during the war. We welcome foreigners to our shores, but we desire that they in turn shall, when naturalized, assume the full responsibility of American citizens, and become 100% Americans. In closing, the speaker said, "Never was there more chance for the practical, educated, 100% American than today, so look well to your opportunities while in dear old Aggie."

Y. M. C. A. Also Pledges.

Money, money, money. How common that call is to day. It sounds from the pages of newspapers. It argues in Legislatures. It threatens industry. It echoes within the walls of churches. No matter in what phase of life one is interested in, he will hear of the need for money in the execution of plans. It takes money to make paper on which news is printed. Law must enable man to earn a reasonable wage. Investment must bring returns or they will not be made. Even a sermon must be paid for by the congregation.

The last phase of life, that phase which uses the spirit of man, to accomplish things must work on the same footing with the efforts that use material supplies to build with. But the significance of this fact seems to slip the minds of most men without much difficulty. It has slipped from many minds on this campus. Even the strength of the appeal that the Hon. J. Sitt Wilson made did not remind some that they owed the Y. M. C. A.

There are many who have not yet paid their pledges. The pledges were due the first of the month. So many have failed to pay that the association has been obliged to borrow in order to meet its expenses.

In the case of the Y. M. C. A. borrowing is a useless expense. It is also costly. Let men who have not paid their pledges see the treasurer of the association without delay. T. A. V.

Duplication of Effort.

The *Blade*, a journal of sentimentality with as it was aptly described in the announcements, appeared on the campus last week. While it is only a single mimeographed sheet of jokes and clever hits it took extremely well. The moderate price also helped to give it instant popularity. That it is a paper composed principally of personal slams and that it is largely the work of one fertile brain raises the question as to how long it will last. Does it not promise to be a permanent publication?

Last week's *Squib* contains a pertinent editorial on the large number of campus activities, and the appearance

of a second comic paper makes it a very timely criticism. This recent number of the *Squib* certainly was not aided by the appearance of the *Blade*. Several of the jokes in the latter publication would have added spice to the *Squib*. Why have this duplication of effort? We feel that one good Aggie publication can profitably use all the wit and humor on the campus, and there does not seem to be such an over-abundance that two distinct types of comic papers can exist separately for very long.

A Student Forum

The establishment of a student forum to follow the regular address at Assembly is a decided addition to the curriculum.

The honored custom of college debates has in a large measure given away to other activities. The popularity of college literary societies and oratorical contests has been dwindling for several years. This is as true in other colleges as it is in our own institution. Our Public Speaking Council, which at best only gives an opportunity to a limited number of men to develop their oratorical abilities, has not had any real support in several years. This is unfortunately true, despite the emphasis our alumni and business men in general are placing on the value of being able to speak in public.

A forum gives everyone the opportunity to stand up and express his views without the arduous preparation necessary for a speech. It helps develop a better understanding of current problems and gives a broader view of the issue discussed. The student body will derive a great deal of benefit from this plan if the men all respond in the right way.

Credit System For Non-Athletics.

The adoption of a credit system which will form the basis for awarding the Non-Athletic Activity medals, we believe, is a wise step. By limiting the number of awards, it gives a far greater value to the medals and a real incentive is offered for attaining the chief positions in each activity. Those men who earn a gold pendant are now placed on a par with the letter men in athletics, and the men awarded the silver pendants will prize them much more highly than they would the bronze medals formerly given. The system of points has been carefully worked out for each activity and the credits are awarded on a scientific basis according to the number of years spent in the activity and the man's ability. Credits gained in one activity may be combined with those gained in another activity to obtain a silver or gold pendant, in that way preventing all the gold medals going to the men holding high positions in one activity. This system should prove very satisfactory to all concerned.

MAGICIAN CAUSES MUCH WONDER TO COLLEGE MEN

Mr. E. P. Ransom Daintly Performs Sleight of Hand Tricks.

Mr. Elmer P. Ransom, magician, proved himself an interesting entertainer before a large audience at Bowker Auditorium, Saturday evening, Feb. 14. The general comment of the audience was that Mr. Ransom certainly knew his art, and could present his tricks in a pleasing manner. He was assisted in many of his acts by members of the student body and by children of

the audience, a fact which added much to his popularity.

The sleight-of-hand card tricks, always mystifying, were made even more so by Mr. Ransom. He seemed to pick the cards out of the air with one hand, while from the other they disappeared, nobody knew where. Then tearing up a card, he proceeded to smoke a cigarette, which proved to contain the same pieces he had torn up. His next trick was to have a piece of tape cut, tie it together again, and in one movement get rid of the knot, leaving the tape as whole as it was in the first place. The Hindu rings, which he put together and took apart at will, caused much speculation among the audience, but not a flaw or break could be found in the rings. Mr. Ransom tried to explain all his tricks to the audience personally as being very simple, and only succeeded in making them more mysterious than before.

A trick which proved quite popular was Mr. Ransom's "new way to make money." Taking a bat, he proceeded to extract from people's pockets money which they did not know they had; but on returning to the stage he took out of the bat a number of pieces of tin. Mr. Ransom appropriately closed his entertainment by producing, as if from nowhere, a large American flag.

DARTMOUTH TEAM TO PLAY HERE TOMORROW NIGHT

Team Has Improved With Season. Pond Still Out of M. A. C. Lineup.

Tomorrow night in the Drill Hall the varsity quintet will meet Coach Zahn's team from Hanover N. H. The game starts at eight sharp and should prove to be a game well worth seeing.

Although the Dartmouth team has lost all but one of its games this year the credit of the team should not be minimized, for nearly every team she has played has been a last outfit. An illustration of the possible strength of Dartmouth is the score of the Stevens Institute game in which the New York men were victorious with only a margin of one point. This was, of course, the best game of the year for Dartmouth, but the tendency in the games so far has been for her to weaken in the second half. The lineup since the first of the season has been changed materially so that a stronger team will face the Aggie team Thursday than was lined up against the early season conquerors of the Green and White.

Captain Brown and Ynill form the nucleus of Dartmouth's scoring strength. Vance, who is a polished player of great value, has been sick most of the season but will probably get a chance to play in this game. McBurnett has played a consistent game as guard. The inability of the forwards to shoot baskets at important moments was the cause of two overwhelming defeats at the hands of Union and Cornell, but in the game with Middlebury the Dartmouth men scored twice the number of points that their opponents scored.

The Aggie team is doing well at present, having won its last three games. The loss of Pond, who is sick now, would be a serious blow to the team. A. W. Smith will probably start in his place should he be unable to play.

MOUSTACHES THIS YEAR "AS YOU LIKE IT"

At 6:30 last Thursday evening the Senior class held a meeting in the Social Union room to discuss plans for Commencement. Chairmen were elected for various committees necessary to carry out the program. They were as follows: Cap and gown, MacLeod; banners, Worthley; class gift, Goodwin; program, Campbell; class day, Goodwin; decorations, Clarridge; picture, Maudie. The Steering committee which has been carrying on the work in regard to Commencement, will now be replaced by a committee made up of the chairmen of the various sub-committees who will choose their chairman from the Senior Steering committee.

The question of whether the Seniors should wear canes was brought up and it was decided to look into the matter of buying sticks and to decide at the next meeting whether they or dress canes should be the style. Moustaches it was decided would be allowed to take their natural course. Shave or not, "as you like it."

NEW SILVER MEDALS TO BE AWARDED FOR WORK

Credit System Planned will Insure Recognition of Men Active in Non-Athletics.

The non-athletic activities board makes the following announcement concerning the awards of medals to men who have been engaged in non-athletics:

Service in the various branches of non-athletics represented on this board shall be put upon a credit basis, subject at any time to revision by the Board, as follows:

Musical Clubs.
Regular participation in one or more of the clubs (each year), 1
Leadership of any one of the three clubs, 3
Assistant-managership, 1
Managership, 4

Roister Doisters.
A leading part in either of the two feature plays of the year (not more than three leads to be credited to a play), 13
A minor part in any play, 4
Assistant-managership, 1
Managership, 4

Debating.
A speaking part in any varsity debate, 1
Managership for the year, 1

Collegian.
Service on the board (each year), 1
Editorship-in-chief, 3
Managing editorship, 3
Business managership, 3

A silver medal is awarded to any man acquiring three credits in a single activity or four credits in more than one activity.

A gold medal is awarded to any man acquiring five credits in a single activity or six credits in more than one activity.

Awards are to be made at the end of each year and are permanent, the medals to be engraved in every instance.

The new arrangement is to go into effect this year, upperclassmen receiving credit for service during former years according to the records of the Board. Seniors qualifying for bronze medals on the old basis will be awarded such this year.

Silver and gold medals will be approximately the size of a ten-cent piece, except as recipients of the former shall have requested a medal of the size we have used in the past. Such requests should be made to the General Manager of the Board early in the spring.

Friend '23 Writes Play.

The first rehearsal for the Freshman play which is to be given under the direction of the Social Union, March 6, was held last Wednesday evening, Feb. 11, at the Old Chapel.

The entertainment this year will consist of a play written and directed by Roger Friend '23, and probably in addition to that, a small amount of vaudeville. The cast for the play has not yet been definitely decided.

"Is—F. C. Barber has purchased a farm near Windsor, Conn.

Dr. Seelye's lecture, which was to have been in Bowker Auditorium last Thursday, was postponed until tomorrow night at 6-30.

The Phi Sigma Kappa fraternity basketball team was defeated by the Sophomore class team last Saturday, Feb. 14 by a score of 24-23.

POULTRY CLUB ORGANIZED HAGAR, PRESIDENT

Purpose Similar To That Of Other Clubs On Campus.

The first meeting of the Poultry Club which has but recently been organized, was held last Thursday evening at 7:30 in room 114, Stockbridge Hall.

Mr. Jorgensen called the meeting to order and presided until the election of the president had been completed. Mr. Hagar, who is majoring in poultry, was the unanimous choice for president, and following his election, he assumed charge of the meeting. The vote for vice-president resulted in the selection of Mr. Lincoln, and because Mr. Jorgensen refused the nomination for secretary, it was decided to postpone the election of a member for this office until the next meeting. Mr. Jorgensen consenting to act as temporary secretary.

The club has been formed not only with the intention of having outside speakers address the meetings, but also with the idea of having the association act as a forum at which various subjects concerning poultry might be discussed. The students are to have full charge of the club, so it was decided that at the next meeting Mr. Mosher would debate with Mr. Tracy on Natural Incubation vs Artificial Incubation, following which there would be an open discussion on the subjects. After some discussion, it was voted that a committee of three, consisting of the president, vice-president, and Mr. MacFague, draw up a constitution and set of by-laws to be presented at the next meeting.

It is hoped that at the next meeting which will be held Thursday, Feb. 19 at 6:30 or immediately after Dr. Seelye's lecture, that not only all men, but also all co-eds interested in poultry, will attend.

1923 LOOSES ITS FIRST GAME TO NORTHAMPTON

Connecticut Valley Champions Get Too Big a Lead in First Half.

Saturday afternoon, at the Drill Hall, the Freshman Varsity basketball team was defeated by Northampton High School by the close score of 28-24. This team was the fastest which the Freshmen have encountered this year, and the game was fast throughout. Northampton got the jump on '23 just after the start, and ran up a score which proved too hard to overcome.

Captain Tunney, '23, started his team off well with the first basket of the game. But Viehues, Northampton's star forward, took the Freshmen by surprise, making three baskets and two free tries almost immediately. Although '23 came back with a twin-counter, Northampton kept up its whirlwind start, so that at the end of the first half, the score stood 21-8 in its favor.

The feature of the game was '23's come-back in the second half. Tunney again started the scoring with the prettiest basket of the game, and with Grayson's help ran up 12 points. The Freshman defense tightened, holding Northampton to one basket. Then Ziff and Foxen started a rally which put the game on ice. Northampton's teamwork was of the best, while Viehues and Ziff showed great shooting ability. For 23 Tunney at center played a very fast game, while Hale did good work in breaking up many of Northampton's plays. The whole team showed much better form and teamwork in the second half, but could not come through with quite enough points to overcome Northampton's big lead.

DE LAVAL the world's cream saver

Thousands of De Laval Cream Separators have been sold to young people just beginning to run a farm, because a father or friend wanted to see them start right.

The older people know from experience that the De Laval skims cleaner, runs easier and lasts longer. They also remember the service they have always received from the De Laval Company and its agents.

The superiority of the De Laval and the uninterrupted service back of it are responsible for the fact that there are more De Laval in use than of all other makes combined.

Any time is a good time to buy a De Laval Cream Separator—to start saving cream, as well as time and energy.

If you want to "start right," see nearest De Laval agent. If you do not know his name, write to nearest De Laval office.

PRATT INSTITUTE GAME

(Continued from page 1)

points that raised the winners' score to 17.

The defensive work of both teams throughout was good, as indicated by the small score, and the clean, fast play of the entire Pratt team was a feature, with Roth scoring all of his outfit's points.

For the Maroon and White Gowdy kept the rival forward's shots at a low mark, and Grayson did good work from the foul line.

The lineup:

DUROC-JERSEYS AND POLAND
CHINA HOGS FAVOREDAnimal Husbandry Club Hears Student
Reports. Mr. Smith Describes English Farming.

The meeting of the Animal Husbandry club, last Wednesday evening, Feb. 11, opened with a short business session. The constitution and by-laws were read, and it was recommended that the club officers be elected at the end of the second instead of the third term. This will be voted on at the next meeting. No important business was transacted.

Reports were given on the good features of different hog breeds by Bunker and Hasham '21, and Barnard '22. The Duroc-Jerseys are unattractive, but are the most widely adapted hogs, and the best for killing purposes. The Chester Whites are found mostly in the West, and are noted for their large size, length, and big bone. The Poland China breed has been marked especially by an advance in good breeding; the steady demand for this breed last year is a good sign of prosperity.

UNIFIED EFFORT AGAINST
EVIL MOST DESIREDRev. W. W. Weeks Urges Every
Man to Play the Game.

The speaker last Sunday in Chapel was the Rev. W. W. Weeks of Springfield. He pointed out the advantages of unity of purpose, and urged everyone to take a definite aim to work for. As an example he pointed to the Protestant churches, comparing them to an open hand as a means of combatting evil as against the united fist, and its ability to carry its point as compared with a disunited hand. A man should seek to develop himself as an all around man, losing himself, and not becoming over-developed along one line, as too many are inclined to do. If we do, some day we will need some part which we have not developed, and like the ostrich, who has neglected the development of his wings, will get into too deep water for our legs and be lost.

CAMPUS NOTES

The Graduate Club will hold a meeting tonight at 7:30 in Clark Hall, Room A. Professor Frederic L. Thompson, of Amherst College, will be the speaker and will illustrate his talk with slides given to him by the French Government. All regular students and officers of the college are invited to attend.

Hockey Announcement

Unless the conditions of the ice rinks improve unexpectedly there will be no more games this season.

Hamilton Holt Next Sunday.

The speaker in Chapel, Sunday, Feb. 22, will be Mr. Hamilton Holt, editor of the Independent. Mr. Holt was born in Brooklyn, New York, August 18, 1872, and graduated from Yale College in 1894. He was managing editor of the Independent from 1897 to 1913, when he became its editor and owner. He has lectured considerably throughout the entire country and was decorated with the Order of the Sacred Treasure by the Emperor of Japan in 1919. He is an author and has published two books, "Commercialism and Journalism" in 1909 and "Undistinguished Americans" in 1900. He is also an occasional contributor to reviews.

VARSITY QUINTET TAKES
FAST GAME FROM PRATT

Brooklyn Institute is Second Victim
of Week.

The Aggie basketball five, by virtue of clever passwork, coupled with close guarding, was able to win its sixth game of the season and their second of the week on last Friday evening; the fast Pratt Institute team of Brooklyn being on the little end of a 17-10 count. Floor baskets numbered only two in the first half, those both to the credit of the Maroon and White basket tossers, and though Pratt garnered only one double decker during the second period, the foul shooting of their right forward, Roth, plus their defense that kept the Aggie forwards well in hand, kept the visitors always in the running, and at the middle of this period narrowed Massachusetts' lead to two points. In the last five minutes Aggie began to draw ahead, and added the points that established a substantial lead and won the game.

The game started fast, and the ball worked up and down the floor, with close guarding preventing both sides from shooting. The game went thus, with both sides failing to score either from the floor or in chances from the foul line, for eleven minutes, before Grayson sank a free try for the first point. He repeated a minute later, and then on the tip off, pushed the score to four points by carrying a long shot from the floor. Roth dropped one from the foul line for Pratt, for their first score, and Grayson added one for M. A. C. immediately after. Roth repeated in short order, and just before the half ended the Aggie captain scored the second floor basket of the game, from down under the hoop, making the score 7-2.

Thompson broke into the scoring with a double decker at the beginning of the second period, increasing Aggie's lead to seven points. Pratt Institute took a brace, Roth scoring his team's first floor basket and sinking two from the foul line. The game began to tighten at this point, and the gap between scores was narrowed to two points when the clever right forward of the visitors again shot true to the mark from the foul line. Grayson contributed two points on free tries. Stedman replaced Roth at right guard, and after Roth had narrowed M. A. C.'s lead to three again the Institute quintet took time out. Bitters replacing Schraffen when play was resumed. Stedman dribbled the length of the court and sunk a twin-counter from close range. Another goal from foul by the Pratt captain proved to be the extent of their scoring, but for Aggie, Grayson and Thompson, one after with a neat shot from the extreme side of the court, added the three

(Continued on page 7)

SERVICES FOR LATE ALLAN
L. STILES IN OLD CHAPEL

Two-year Man Died of Pneumonia on
February 8th.

A memorial service was held last Sunday in the Old Chapel for Allan Langille Stiles, who died of pneumonia at the College Infirmary, Sunday morning February 8. Mr. Stiles came here last fall from Littleton, and was enrolled as a two-year student. In spite of physical weakness throughout his life, he showed undaunted spirit and great ambition.

"We shall meet him no more on the campus of this college," Prof. Phelan said in reviewing Mr. Stiles' life, "but his spirit will live on. The spirit that sent him, frail in body but strong in courage through high school and to college, to gain an education, to make the most of his life that he might be of service will be with his classmates, with his teachers. It is that spirit that makes a college. It is that spirit that makes a worthy, useful life."

"The death of the young, those in the morning of life, is one of the great mysteries, the great tragedies of existence. We can understand the passing of those who have lived the allotted years, of those who have done their work, who have reached their goal, and who in the late evening of life lie down to rest. But when a young man or a young woman in love with life, filled with the joy of living, passes beyond our ken we face one of the greatest problems of human existence. It is then, more than at any other time that our thoughts turn to immortality. We know that in the Providence of God, in His great economy, there is for every blade of grass, for every flower and seed, the promise of another springtime and for the soul of man, life eternal.

"In that Providence we trust to meet again in a life immortal our friend and class mate, Allan Langille Stiles."

FOUR CLASSES TIED IN
DEADLOCK—600 EACH

Two-year Men Have Not Won a
Game Yet.

The classes are now tied in the inter-class basketball series. Out of twelve games played each has won three and lost two. The last games played were last Thursday night when the Seniors beat the Sophomores in a close game with the score 24 to 11; and the Freshmen won over the Juniors with a score of 20 to 6. The standings of the teams to date is as follows:

| | Won | Lost | Percentage |
|--------|-----|------|------------|
| 1920 | 3 | 2 | .600 |
| 1921 | 3 | 2 | .600 |
| 1922 | 3 | 2 | .600 |
| 1923 | 3 | 2 | .600 |
| 2-year | 0 | 4 | .000 |

PROFESSOR HICKS ELECTED
PRESIDENT OF E. I. C. T. A.

Representatives of Ten Colleges Ex-
press Their Respect for M. A. C.
Athletic Leader.

At a meeting of the representatives of the Eastern Intercollegiate track association last Saturday at Hotel Kimball, Springfield, Professor Curry S. Hicks, General Manager of Athletics at M. A. C. was elected president of the association, succeeding E. M. Jones of Colgate. This association consists of representatives from the following colleges and institutes: Colgate, Stevens, St. Lawrence, New Hampshire, Holy Cross, Worcester Tech, Boston College, Springfield, Rhode Island State, and Massachusetts Agricultural College.

The date of May 8 for the Annual Intercollegiate Track Meet at Pratt Field in which ten teams are now sure to participate was decided upon at the meeting. There is also a possibility of Connecticut Agricultural College being represented at the meet. Several New York colleges were very anxious to enter, but were not able to do so as the date conflicted with that of the Middle Atlantic meet.

Among the questions that came up at the meeting was as to whether the hammer-throw should be listed for this year or not. At the meeting last year, it was decided that the hammer-throw be eliminated from the list of events. At this meeting, however, J. T. Connel, the representative from St. Lawrence College, petitioned very strongly in favor of again having the hammer-throw. The general feeling was against this, as the hammer-throw is being eliminated from most college circles, it being considered one of the most dangerous events in college sports. The final decision will not be given, however, until the next meeting which will be held in Worcester in about two weeks. Another question discussed was the possibility of making the meet a two day event instead of running it in a single day as was the case last year. Due to the additional expense, and to the fact that some of the colleges would not be able to send their athletes for an extra day, the decision was that the meet should remain a one-day affair.

The high place that M. A. C. now holds in this association is due to the fine working spirit of the college and its representatives. The fine work that Professor Hicks has done for the athletics of this College is appreciated by all, and the awarding of this honor to him is all the more notable as there were no representatives from M. A. C. at the meeting.

At a meeting in the Entomology Building, Tuesday evening, Feb. 10, the Menorah Society discussed, in an open forum the principles of J. Stitt Wilson.

AL. SPAULDING RESIGNS
AS ALUMNI SECRETARY

Has Accepted Position as Advertising
Manager for Norwell Stores
in Boston.

After seven months of successful work in behalf of the Alumni Memorial Building drive and the college affairs in general, A. W. Spaulding '17, last week, tendered his resignation as assistant secretary of the Associate Alumni, and College field agent. The Alumni Executive Committee met on Feb. 13 and decided to make these two positions permanent and open to one man. Formerly the two offices were separate, but this was held by Spaulding, together with the position of assistant secretary of the Alumni.

A. W. Spaulding had recently accepted a position as advertising manager in the Advertising Department of the Shepard Department stores, formerly the Shepard, Norwell stores of Winter street, Temple place, Tremont street, Boston, and began work Monday, Feb. 16. His home will be at 15 Brewster road, Newton Highlands.

Spaulding is a graduate of the class of 1917, the July of that year he enlisted for overseas in the Amherst College Ambulance Unit. Immediately on his return from France, July 1, 1919, he became engaged in work for the college, especially on the Alumni Memorial work, which has been carried through with great success. This drive, which has been the largest undertaking, probably, in the history of the college, has resulted in the securing of a fitting memorial for those M. A. C. men who made the supreme sacrifice. The immediate construction of the building is now assured. Of the one hundred and fifty thousand dollars wanted, one hundred and forty-five thousand has been pledged and the contract has been let to E. F. Carlson of Springfield. Excavation for the building will be begun in the latter part of March, just as soon as the ground is workable.

The building as has been planned will be located on the plot south of the Stone Chapel and facing Lincoln avenue and Olmstead road. The principal front and main entrances to the building will be on the side of the building facing the latter road. Other entrances will be on the Lincoln avenue and at the south end. The building has been designed in the classic style with brick walls and marble trimmings, as devised by James H. Ritchie, the architect.

On the first floor there will be billiard and recreation rooms and in the Memorial Room which is placed in the northwest corner of the building, there will be a special memorial commemorating the service in the World War of men of the college. The auditorium will be on the second floor and will have a seating capacity of about four hundred. There is also on this floor a

special room set aside for the use of the Alumni, and a loggia enclosed with large French windows, while from the arched windows of the auditorium a wonderful view of the Connecticut Valley may be realized.

Much of this accomplishment should be credited to Spaulding. Besides his efforts in behalf of this drive, he has been active in the publicity work for the College. For the past three or four months he has been working on an illustrated booklet of the College, which will be published within two or three weeks. It was largely through his efforts that the Alumni Bulletin was inaugurated which has shown from time to time the progress of the Memorial drive. He has also served on several committees and spoken at several of the meetings during the big drive for the funds. In addition to this, he has been conducting correspondence with prospective students for the college.

The Alumni executive committee has been deliberating upon several who may be chosen for the office. G. M. Campbell of the class of 1920 has been appointed to take Spaulding's place. He assumed his duties last Monday.

HOCKEY TEAM LOSES OVERTIME CONTEST TO DARTMOUTH

Thrashie Cages Winning Tally In First Few Minutes Of Second Overtime Period.

It required two overtime periods for the Dartmouth puck chasers to register a victory over the "Aggie" septet last Wednesday, February 11, on the Hanover rink. From a "Green" viewpoint the game was the fastest and roughest one ever witnessed on the Dartmouth ice.

The only and winning tally was scored by a clever shot from Thrashie's stick after a brief scrimmage in front of the "Maroon and White" cage. The poor condition of the ice contributed to make the game a good shiny fest in the first few minutes of play and the use of team work for either side was made impossible. The goal tending was of high order throughout the contest, in fact it was the feature of the game. Time and time again Delahunt made sensational stops and Gale's wonderful work for Dartmouth was the only factor that prevented "Aggie" from returning the victory.

The opening of the first half found both sides quite at sea as to the use of the boards due to the exceedingly bad condition of the ice. Several rushes were made toward both goals resulting in hard scrammages often directly in front of the cages but good shooting could not be coupled with fast advances down the surface. It was at these particular times that the two defenses appeared in the limelight far outshining any work done by the forwards. The end of the first period found the teams fighting hard to break the deadlock but to no avail. Score, 0-0.

With the opening of the second half the use of rough tactics commenced to such an extent that several players were sent to the side lines by the referee. The puck traveled up and down the ice with increased speed as time decreased but the necessary punch was lacking to cage the winning tally. Several long shots were attempted unsuccessfully and the end of the second period found the teams still in deadlock.

Five minutes of overtime were agreed upon by the two captains and in the second overtime period Thrashie sank the elusive rubber in the "Maroon and

White" cage for the lone tally.

For Dartmouth the work of Thrashie was of high class while for Aggie, Leavitt, Lyons and Dowd worked well.

The Summary:

| | |
|----------------|-------------|
| Dartmouth | M. A. C. |
| Rothschild lw. | lw, Leavitt |
| Cody, r | r, Dowd |
| Fiske, c | c, Snow |
| Ross, rw | rw, Lyons |
| Thrashie, p | p, Collins |
| Paisley, cp | cp, Crafts |
| Gale, g | g, Delahunt |

Score—Dartmouth 1, M. A. C. 0. Goal Thrashie. Referee, J. P. Bowler. Time 20 minute periods. Two five minute extra periods.

CLASS OFFICERS FOR REST OF TERM ELECTED

Banquet Scrap Officers To Be Elected Later.

The Class of 1923 held a meeting in the Social Union Rooms last Friday evening at 6-15. New class officers were elected as follows:

President, Donald B. Alexander; vice-president, Tressott T. Abele; treasurer, Marshall S. Hodsdon; secretary, Gilbert H. Irish; class captain, Raymond T. Grayson; sergeant-at-arms, Conrad L. With; class historian, Ernest Putnam.

These officers will go out of office at the beginning of next term when, according to Senate rules, the class will elect its officers for the Banquet scrap.

After the election, class cheers were given for each of the retiring officers and then R. B. Friend gave his report on the progress of the Freshman play

C. A. C. LOSES FIRST GAME ON OWN FLOOR TO M. A. C.

Substitutions Work Well for Aggie
Score 27-22.

One of the most creditable games ever played by an Aggie basketball team took place at the Connecticut Agricultural College, at Storrs, Conn., last Thursday night, when Coach Grayson's team won by a score of 27 to 22.

This game was the first in the history of M. A. C. Athletic Association that the team has gone to Connecticut to play. It was the first bearing that the Storrs team had suffered on its own floor. Everything seemed to be against the Aggie men at the start; the coach of the team, M. Grayson, was unable to substitute because of a bad cold, and for the same reason one of the most reliable men the team has had, Pond, was not able to play. Although away from home, the Aggie spirit was maintained in the great showing which the players exhibited throughout the game.

During the first period of the game Aggie piled up 18 points to its credit, while the Connecticut team scored 8. After the first 10 minutes of play the home team took the lead by one point, when 8 was chalked up, but soon they fell back and Massachusetts dropped in two baskets in quick succession. From this time on Connecticut did not come nearer than four points to their opponents' score.

In the second half of the game Connecticut tried hard to catch up with the last team, and succeeded in gaining 13 points. The Aggie men added 9 to their score in this half, and the game ended in their favor.

Alexander, who starred for Connecticut when they played in Amherst, succeeded in getting only one basket against Stedman, one of Aggie's guards, who dropped in three baskets. Gowdy's only shot was scoreless, and Thompson played the captain of the Storrs team well. Credit is due A. W. Smith, Aggie's right forward, who played his most full game on the team, and added 10 points to the score. Putnam excelled for the Connecticut team, while Thompson and Thompson starred for Massachusetts.

The score and line-up:

| M. A. C. | B. | F. | Pts. |
|-----------------|----|----|------|
| Grayson, lf | 1 | 5 | 7 |
| Putnam, lf | 0 | 0 | 0 |
| A. W. Smith, rf | 3 | 0 | 6 |
| Thompson, c | 4 | 0 | 8 |
| Gowdy, lf | 0 | 0 | 0 |
| Stedman, rf | 3 | 0 | 6 |
| Thompson, lf | 0 | 0 | 0 |
| | 11 | 5 | 27 |

| C. A. C. | B. | F. | Pts. |
|----------------|----|----|------|
| Putnam, lf | 2 | 0 | 4 |
| Rothschild, lf | 2 | 0 | 4 |
| Grayson, lf | 0 | 0 | 0 |
| Stedman, rf | 2 | 0 | 4 |

CLOTHES OF CUSTOM QUALITY

If you think that foundry made suits can by any possibility equal the custom quality of Campion's Tailored Suits, pay the penalty, wear and forswear the spurious stuff.

CAMPION, the Only Trained Cutter and Tailor in Amherst.

LEGISLATION REQUIRES MORE WORK THAN COMMENCEMENT

Congressman Treadway Explained
the Work of National Legislation.

"I am glad to be back in the college atmosphere," began Congressman Allen T. Treadway in his talk given in Assembly, Feb. 11, at 3-00. Mr. Treadway showed by a few illustrations how much work there is in the passing of a bill by the Legislature.

One of the great dividing features for many campaigns was the question of tariff. Previous to 1913 the annual budget was \$740,000,000, 40% of which, \$296,000,000, came from the Custom Houses. During 1914-1915, this percent was lowered to 40, and then to 30, so that it was very fortunate that in 1913 the sixteenth amendment to the Constitution was adopted, permitting an income tax. Previous to this, Congress had passed an income tax bill but this had been declared unconstitutional by the United States Supreme Court. During the war, President Wilson recommended an increase in the tax. Accordingly, a bill was framed in the Autumn of 1917 which became a law when signed by the President in February, 1918. The public in reading that the bill has become a law little realizes how much work it required for that bill to be passed.

Another interesting piece of legislation will probably be enacted this week. Last May, the President advised Congress that the government be dispossessed of the railroads. The project was taken up last fall by the committee who finally introduced the Esch and the Cummings bills. These bills were finally made one and this final bill is now in the hands of the Ways and Means Committee, and after being passed by both Houses, it will go to the President if signed and on March 1 will become a law.

Mr. Treadway then mentioned the three most interesting days that he spent in Congress. The first of these was April 2, 1917. The regular session of Congress had just expired and there existed in the Capital an ominous silence. On April 2, the President called a special session of the sixty-fifth Congress and recommended that we declare war on Germany. After four days of session Congress, on April 6, 1917, declared war. Another interesting day was when General Pershing was congratulated personally by Congress. He is the first American general to obtain this honor. The last memorable time was when Victor Berger by an almost unanimous vote of the House was refused membership, not because he was a socialist, but because he had aided and abetted our enemy during the war. We welcome foreigners to our shores, but we desire that they in turn shall, when naturalized, assume the full responsibility of American citizens, and become 100% Americans. In closing, the speaker said, "Never was there more chance for the practical, educated, 100% American than today, so look well to your opportunities while in dear old Aggie."

Y. M. C. A. Also Pledges.

Money, money, money. How common that call is to day. It sounds from the pages of newspapers. It argues in Legislatures. It thunders in churches. It echoes within the walls of colleges. No matter in what phase of life one is interested in, he will hear of the need for money in the execution of plans. It takes money to make paper on which news is printed. Law must enable man to earn a reasonable wage. Investment must bring returns or they will not be made. Even a sermon must be paid for by the congregation.

The last phase of life, that phase which uses the spirit of man, to accomplish things must work on the same footing with the efforts that use material supplies to build with. But the significance of this fact seems to slip the minds of most men without much difficulty. It has slipped from many minds on this campus. Even the strength of the appeal that the Hon. J. Still Wilson made did not remind some that they owed the Y. M. C. A.

There are many who have not yet paid their pledges. The pledges were due the first of the month. So many have failed to pay that the association has been obliged to borrow in order to meet its expenses.

In the case of the Y. M. C. A. borrowing is a useless expense. It is also costly. Let men who have not paid their pledges see the treasurer of the association without delay.

Duplication of Effort.

The Rhode, a journal of sentimentality which was aptly described in the announcements, appeared on the campus last week. While it is only a single mimeographed sheet of jokes and clever bits it took extremely well. The moderate price also helped to give it instant popularity. That it is a paper composed principally of personal slams and that it is largely the work of one fertile brain raises the question as to how long it will last. Does it not promise to be a permanent publication?

Last week's Rhode contains a pertinent editorial on the large number of campus activities, and the appearance

of a second comic paper makes it a very timely criticism. This recent number of the Rhode certainly was not added by the appearance of the Rhode. Several of the jokes in the latter publication would have added spice to the Rhode. Why have this duplication of effort? We feel that one good Aggie publication can profitably use all the wit and humor on the campus, and there does not seem to be such an over-abundance that two distinct types of comic papers can exist separately for very long.

A Student Forum

The establishment of a student forum to follow the regular address at Assembly is a decided addition to the curriculum.

The honored custom of college debates has in a large measure given away to other activities. The popularity of college literary societies and oratorical contests has been dwindling for several years. This is as true in other colleges as it is in our own institution. Our Public Speaking Council, which at best only gives an opportunity to a limited number of men to develop their oratorical abilities, has not had any real support in several years. This is unfortunately true, despite the emphasis our alumni and business men in general are placing on the value of being able to speak in public.

A forum gives everyone the opportunity to stand up and express his views without the arduous preparation necessary for a speech. It helps develop a better understanding of current problems and gives a broader view of the issue discussed. The student body will derive a great deal of benefit from this plan if the men all respond in the right way.

Credit System For Non-Athletics.

The adoption of a credit system which will form the basis for awarding the Non-Athletic Activity medals, we believe, is a wise step. By limiting the number of awards, it gives a far greater value to the medals and a real incentive is offered for attaining the chief positions in each activity. Those men who earn a gold pendant are now placed on a par with the letter men in athletics, and the men awarded the silver pendants will prize them much more highly than they would the bronze medals formerly given. The system of points has been carefully worked out for each activity and the credits are awarded on a scientific basis according to the number of years spent in the activity and the man's ability. Credits gained in one activity may be combined with those gained in another activity to obtain a silver or gold pendant, in that way preventing all the gold medals going to the men holding high positions in one activity. This system should prove very satisfactory to all concerned.

MAGICIAN CAUSES MUCH WONDER TO COLLEGE MEN

Mr. E. P. Ransom Deftly Performs Sleight of Hand Tricks.

Mr. Elmer P. Ransom, magician, proved himself an interesting entertainer before a large audience at Bowker Auditorium, Saturday evening, Feb. 14. The general comment of the audience was that Mr. Ransom certainly knew his art, and could present his tricks in a pleasing manner. He was assisted in many of his acts by members of the student body and by children of

the audience, a fact which added much to his popularity.

The sleight-of-hand card tricks, always mystifying, were made even more so by Mr. Ransom. He seemed to pick the cards out of the air with one hand, while from the other they disappeared, nobody knew where. Then tearing up a card, he proceeded to smoke a cigarette, which proved to contain the same pieces he had torn up. His next trick was to have a piece of tape cut, tie it together again, and in one movement get rid of the knot, leaving the tape as whole as it was in the first place. The Hindu rings, which he put together and took apart at will, caused much speculation among the audience, but not a flaw or break could be found in the rings. Mr. Ransom tried to explain all his tricks to the audience personally as being very simple, and only succeeded in making them more mysterious than before.

A trick which proved quite popular was Mr. Ransom's "new way to make money." Taking a hat, he proceeded to extract from people's pockets money which they did not know they had, but on returning to the stage he took out of the hat a number of pieces of tin. Mr. Ransom appropriately closed his entertainment by producing, as "I from nowhere, a large American flag.

DARTMOUTH TEAM TO PLAY HERE TOMORROW NIGHT

Team Has Improved With Season. Pond Still Out of M. A. C. Lineup.

Tomorrow night in the Drill Hall the varsity quintet will meet Coach Zahm's team from Hanover N. H. The game starts at eight sharp and should prove to be a game well worth seeing.

Although the Dartmouth team has lost all but one of its games this year the credit of the team should not be minimized, for nearly every team she has played has been a fast outfit. An illustration of the possible strength of Dartmouth is the score of the Stevens Institute game in which the New York men were victorious with only a margin of one point. This was, of course, the best game of the year for Dartmouth, but the tendency in the games so far has been for her to weaken in the second half. The lineup since the first of the season has been changed materially so that a stronger team will face the Aggie team Thursday than was lined up against the early season conquerors of the Green and White.

Captain Brown and Yull form the nucleus of Dartmouth's scoring strength. Vance, who is a polished player of great value, has been sick most of the season but will probably get a chance to play in this game. McDermott has played a consistent game as guard. The inability of the forwards to shoot baskets at opportune moments was the cause of two overwhelming defeats at the hands of Union and Cornell, but in the game with Middlebury the Dartmouth men scored twice the number of points that their opponents scored.

The Aggie team is doing well at present, having won its last three games. The loss of Pond, who is sick now, will be a serious blow to the team. A. W. Smith will probably start in his place should he be unable to play.

MOUSTACHES THIS YEAR "AS YOU LIKE IT"

At 6:30 last Thursday evening the Senior class held a meeting in the Social Union room to discuss plans for Commencement. Chairmen were elected for various committees necessary to carry on the program. They were as follows: Cap and gown, MacLeod; banquet, Wortley; class gift, Goodwin; program, Campbell; class day, Goodridge; decorations, Goodridge; picture, Goodridge. The Steering committee which has been carrying on the work in regard to Commencement, will now be replaced by a committee made up of the chairmen of the various sub-committees who will choose their chairman from the former Steering committee.

The question of whether the Seniors should wear canes was brought up and it was decided to look into the matter of walking sticks and to decide at the next meeting whether they or dress canes would be the style. Moustaches it was decided would be allowed to take their natural course. Share or not, "as you like it."

NEW SILVER MEDALS TO BE AWARDED FOR WORK

Credit System Planned will Insure Recognition of Men Active in Non-Athletics.

The non-athletic activities board makes the following announcement concerning the awards of medals to men who have been engaged in non-athletics:

Service in the various branches of non-athletics represented on this board shall be put upon a credit basis, subject at any time to revision by the Board, as follows:

Musical Clubs.
Regular participation in one or more of the clubs each year, Leadership of any one of the three clubs, 3
Assistant manager-ship, 1
Manager-ship, 4
Roaster Doisters.
A leading part in either of the two feature plays of the year (not more than three leads to be credited to a play), 14
A minor part in any play, 4
Assistant manager-ship, 1
Manager-ship, 4
Debate.
A speaking part in any varsity debate, 1
Manager-ship for the year, 1
Collegian.

Service on the board each year: 1
Editorship-in-chief, 3
Managing editor-ship, 3
Business manager-ship, 3

A silver medal is awarded to any man acquiring three credits in a single activity or four credits in more than one activity.

A gold medal is awarded to any man acquiring five credits in a single activity or six credits in more than one activity.

Awards are to be made at the end of each year and are permanent, the medals to be engraved in every instance.

The new arrangement is to go into effect this year, upperclassmen receiving credit for service during former years according to the records of the Board. Seniors qualifying for bronze medals on the old basis will be awarded such, this year.

Silver and gold medals will be approximately the size of a ten-cent piece, except as recipients of the former shall have requested a medal of the size we have used in the past. Such requests should be made to the General Manager of the Board early in the spring.

Friend '23 Writes Play.

The first rehearsal for the Freshman play which is to be given under the direction of the Social Union, March 9, was held last Wednesday evening, Feb. 11, at the Drill Hall.

The entertainment this year will consist of a play written and directed by Roger Friend '23, and probably in addition to that, a small amount of vaudeville. The cast for the play has not yet been definitely decided.

—F. C. Barber has purchased a farm near Windsor, Conn.

Dr. Serlye's lecture, which was to have been in Bowker Auditorium last Thursday, was postponed until tomorrow night at 6:30.

The Phi Sigma Kappa fraternity basketball team was defeated by the Sophomore class team last Saturday, Feb. 14 by a score of 24-23.

POULTRY CLUB ORGANIZED HAGAR, PRESIDENT

Purpose Similar To That Of Other Clubs On Campus.

The first meeting of the Poultry Club which has but recently been organized, was held last Thursday evening at 7:30 in room 114, Stockbridge Hall.

Mr. Jorgensen called the meeting to order and presided until the election of the president had been completed. Mr. Hagar, who is majoring in poultry, was the unanimous choice for president, and following his election, he assumed charge of the meeting. The vote for vice-president resulted in the selection of Mr. Lincoln, and because Mr. Jorgensen refused the nomination for secretary, it was decided to postpone the election of a member for this office until the next meeting. Mr. Jorgensen consenting to act as temporary secretary.

The club has been formed not only with the intention of having outside speakers address the meetings, but also with the idea of having the association act as a forum at which various subjects concerning poultry might be discussed. The students are to have full charge of the club, so it was decided that at the next meeting Mr. Mosher would debate with Mr. Tracy on Natural Incubation vs. Artificial Incubation, following which there would be an open discussion on the subjects. After some discussion, it was voted that a committee of three, consisting of the president, vice-president, and Mr. MacFague, draw up a constitution and set of by-laws to be presented at the next meeting.

It is hoped that at the next meeting which will be held Thursday, Feb. 19 at 8:30 or immediately after Dr. Seelye's lecture, that not only all men, but also all coeds interested in poultry, will attend.

1923 LOOSES ITS FIRST GAME TO NORTHAMPTON

Gloucester Valley Champions Get Too Big a Lead in First Half.

Saturday afternoon, at the Drill Hall, the Freshman Varsity basketball team was defeated by Northampton High School by the close score of 28-24. This team was the fastest which the Freshmen have encountered this year, and the game was fast throughout. Northampton got the jump on '23 just after the start, and ran up a score which proved too hard to overcome.

Captain Tunney, '23, started his team off well with the first basket of the game. But Vichules, Northampton's star forward, took the Freshmen by surprise, making three baskets and two free throws almost immediately. Although '23 came back with a twin-center, Northampton kept up its whirlwind start, so that at the end of the first half the score stood 21-8 in its favor.

The feature of the game was Tunney's comeback in the second half. Tunney again started the scoring with the first basket of the game, and with Grayson's help ran up 12 points. The Freshman defense tightened, holding Northampton to one basket. Then Ziff and Fowles started a rally which put the game on ice. Northampton's team work was of the best while Vichules and Ziff showed great shooting ability. For '23 Tunney at center proved a very fast game, while Hagar did good work in breaking up many of Northampton's plays. The whole team showed much better form and team-work in the second half, but could not come through with quite enough points to overcome Northampton's big lead.

DE LAVAL

the world's cream saver

Thousands of De Laval Cream Separators have been sold to young people just beginning to run a farm, because a father or friend wanted to see them start right.

The older people know from experience that the De Laval skims cleaner, runs easier and lasts longer. They also remember the service they have always received from the De Laval Company and its agents.

The superiority of the De Laval and the uninterrupted service back of it are responsible for the fact that there are more De Laval in use than of all other makes combined.

Any time is a good time to buy a De Laval Cream Separator—to start saving cream, as well as time and energy.

If you want to "start right," see nearest De Laval agent. If you do not know his name, write to nearest De Laval office.

Dr. McFall Considers Big Business Desirable to Prevent Waste.

Dr. J. F. McFall spoke to the members of the Agricultural Economics Club, at the meeting held Tuesday evening, Feb. 10, on "Government Control of Business." Dr. McFall is a Canadian, and during the war was actively engaged in duties brought on by the upset conditions, serving for a time, and until the office was abolished, as controller of the High Food Price Commission.

The next meeting will be held Feb. 24, at which the manager of the Eastern Farm Association will be the speaker.

DUROC-JERSEYS AND POLAND CHINA HOGS FAVORED

Animal Husbandry Club Hears Student Reports. Mr. Smith Describes English Farming.

The meeting of the Animal Husbandry club, last Wednesday evening, Feb. 11, opened with a short business session. The constitution and by-laws were read, and it was recommended that the club officers be elected at the end of the second instead of the third term. This will be voted on at the next meeting. No important business was transacted.

Reports were given on the good features of different hog breeds by Bunker and Haslan '21, and Barnard '22. The Duroc-Jerseys are unattractive, but are the most widely adapted hogs, and the best for killing purposes. The Chester Whites are found mostly in the West, and are noted for their large size, length, and big bone. The Poland China breed has been marked especially by an advance in good breeding; the steady demand for this breed last year is a good sign of prosperity.

UNIFIED EFFORT AGAINST EVIL MOST DESIRED

Rev. W. W. Weeks Urges Every Man to Play the Game.

The speaker last Sunday in Chapel was the Rev. W. W. Weeks of Springfield. He pointed out the advantages of unity of purpose, and urged everyone to take a definite aim to work for. As an example he pointed to the Protestant churches, comparing them to an open hand as a means of combatting evil as against the unified fist, and its ability to carry its point as compared with a disunited hand. A man should seek to develop himself as an all around man, losing himself, and not becoming over-developed along one line, as too many are inclined to do. If we do, some day we will need some part which we have not developed and like the ostrich, who has neglected the development of his wings, will get into too deep water for our legs and be lost.

CAMPUS NOTES

The Graduate Club will hold a meeting tonight at 7:30 in Clark Hall, Room A. Professor Frederic L. Thompson, of Amherst College, will be the speaker and will illustrate his talk with slides given to him by the French Government. All regular students and officers of the college are invited to attend.

Hockey Announcement

Unless the conditions of the ice rinks improve unexpectedly there will be no more games this season.

Hamilton Holt Next Sunday.

The speaker in Chapel, Sunday, Feb. 22, will be Mr. Hamilton Holt, editor of the *Independent*. Mr. Holt was born in Brooklyn, New York, August 18, 1872, and graduated from Yale College in 1894. He was managing editor of the *Independent* from 1897 to 1913, when he became its editor and owner. He has lectured considerably throughout the entire country and was decorated with the Order of the Sacred Treasure by the Emperor of Japan in 1919. He is an author and has published two books, "Commercialism and Journalism" in 1900 and "Unintentioned Americans" in 1909. He is also an occasional contributor to reviews.

NEW YORK EDITOR RECITES HIS WORK WITH LEAGUE

Maintains That the Senate is Not
Representing the People of
the Country.

Hamilton Holt, editor of the New York *Independent* spoke in chapel Sunday afternoon on The League of Nations. Mr. Holt was very different from any previous speaker on this popular subject, for instead of a cut and dried talk, he gave a vivid description of his personal experiences in connection with the League. His speech was most appropriate, for it radiated the true democratic spirit of our greatest American, George Washington, whose birthday we were holding in remembrance.

It was the duty of Mr. Holt, as secretary of the American League to Enforce Peace to go abroad over a year ago to act in conjunction with delegates from other countries in formulating a plan to enforce peace. It also became his task as head of the American delegation to be compelled almost always to stop any brilliant ideas set forth by the European delegates as not being in accordance with the United States Constitution. So many times did this happen that the matter became a joke, and whenever an admirable constructive addition was suggested it was always expected that Mr. Holt would arise to explain that the idea was not in accordance with his government's constitution. Many of the French people have a profound dislike for our laws and Lloyd George once said that whatever the protocol of the League of Nations was like, he sincerely hoped that it would never be similar to the United States Constitution. After a protocol had been drawn up by the League to Enforce Peace, it was presented to the peace conference then sitting in Paris, but it is unknown what influence it had on the conference.

Soon afterward Mr. Holt had the good fortune to be permitted, along with a few others, to have a private audience with President Wilson regarding the treaty. One can easily imagine the thrill which they felt when President Wilson arose and read to them the American plans which were to be presented to the approaching peace conference and which have never been published. Then through an intimate acquaintance who was connected with the British Foreign office, he was given the opportunity to read, but not to take notes on, the plans of a league of nations which were to be presented to the peace conference by the British delegation. From what Mr. Holt saw, he knows that the present document which is being so hotly debated in the Senate is fundamentally the original United States plan instead of the English one which is claimed by Senator Lodge. It appears that soon after the war ended,

(Continued on page 3)

RELAY TEAM DID NOT RACE AGAINST R. I. ON MONDAY

Dewey, Carleton and Gray Ran in
Individual Events. Track
Season Over.

M. A. C.'s winter track season with one decisive victory out of two races for the relay team, and with the creditable showing made by Gray, Carleton, and Dewey at the Legion track meet, at Boston, Monday, Feb. 23, has closed. In Boston, Monday, these men each put up good races, but owing to the large number of men from all parts of the state who took part, they did not succeed in bringing home any of the prizes. Carleton did especially well in the one-mile, coming in fourth place. Gray came in fifth place in the half-mile race, and Dewey won the seventh place in the quarter-mile. The relay race which M. A. C. was to have run with Rhode Island State College was unfortunately called off last Friday, Feb. 20. A telegram was received from them stating that their team would be unable to attend the meet, because during the past two weeks they have been unable to clear their track of snow sufficiently to hold practice. No other relay teams in M. A. C.'s class could be secured on short notice.

The track season started off well on Saturday, Jan. 31, when the M. A. C. relay team gained a decisive victory over the W. P. I. team. Free, Sullivan, Carleton, and Gray ran for Aggie, and showed the results of the good training given them by Dewey '20, who has acted as both captain and coach throughout the season.

The relay team did not fare quite so well at the R. I. A. meet held the next week, Feb. 7. Pitted against S. H. State's exceedingly fast team, the Aggie men could not come through with a victory. Sullivan had the misfortune to slip on the first lap, losing ground which could not be regained.

Considering the fast relay teams run against and the handicaps at the Legion meet, M. A. C. has good reason to regard its track season as an entirely favorable one.

BASKETBALL TEAM DEFEATED TWICE IN NEW YORK

Stevens and Pratt Take Games From
M. A. C. Quintet With Little
Difficulty.

The M. A. C. basketball team was twice defeated, by Pratt and Stevens, on the New York trip last Friday and Saturday. Pratt won by a 13-5 score, while Stevens was easily able to get away with a 28-12 victory.

It would seem that a nifty atmosphere did not agree with the players, for in no respect did the team have the form that it showed against Pratt and Dartmouth recently.

(Continued on page 7)

NO VARSITY DEBATES THIS YEAR—PLAN CLASS CONTEST

Both Tufts and Springfield Unable to
Arouse Interest in Debating.

A meeting of the Public Speaking Council was held on Wednesday evening in the Senate rooms to discuss the varsity debating situation. Manager Harvey reported that as the men at Tufts did not show enough interest in debating this year, the triangular debate between Tufts, Springfield, and Aggie would have to be dropped. It was also decided that the dual debate between Springfield and Aggie would have to be given up. Next year's schedule is to be arranged this spring in order to make certain of having debates next winter.

The Freshman-Sophomore class debate will be held next week.

LABOR HAS A RIGHT TO STRIKE, STUDENTS VOTE

Forum Hears Differences of Opinions
on Vital Labor Issue.

Shall workmen be allowed to organize strikes? This was the topic discussed by the student body at the student forum held at Assembly Wednesday, Feb. 18. Professor Sprague introduced the discussion with a brief history of strikes in England. In 1799, Parliament passed the combination laws, prohibiting strikes, and violators of the laws were taken away to the colonies.

The first argument was on the negative side: That workmen have no moral right to strike; but prevention of strikes does not get at the cause of the thing. Strikes will continue until something is substituted for them. The affirmative view was next given: That there is no other way by which the laborer can enforce his rights, therefore, the should be allowed to strike. Also

(Continued on page 2)

TRIANGULAR TRACK MEET MEANS BURLINGTON TRIP

Vermont and New Hampshire will
Compete Against M. A. C. June 5.

A triangular track meet with the University of Vermont, New Hampshire State College, and M. A. C. as participants, will be run off June 5 of this year, according to arrangements recently completed by the athletic department.

This form of triangular meet was decided on before the war. The meet with New Hampshire last spring was to have been a triangular contest but Vermont could not participate. The present agreement calls for three meets: the first one June 5, 1920, to be at Burlington, Vt., the second in 1921 to be at Durham, N. H., and the third in 1922 to be held in Amherst.

DARTMOUTH LOSES HARD GAME BY 8-6 SCORE

Both Teams Unfortunate in Basket
Shooting. Many Tries Lost.

Just one goal from the floor, and that in the last minute and a half of 40 minutes of the closest, hardest basketball ever seen on the Drill Hall floor, gave Aggie the decision over the Dartmouth five Thursday evening. The final score of the game, 8-6, tells the story. From start to finish it was a case of defense against defense, coupled with long shots from the center of the court. Play was fast with few fouls, and the total of five floor baskets was divided, with the Maroon and White credited with three and the Green with two. Two fouls were registered by each captain. Each team only once was able to score from under the basket, and both these chances came in the first period, the tightening of the game in the second half spoiling both quintets' passwork and shooting. These few words give but a poor idea of the closeness of the game, the last floor work by each team, the long range shots that missed by the merest fraction, and the attendant excitement throughout.

The Dartmouth team arrived late, due to the storm's interruption of the railroad service, and the game was delayed until 8:45.

The visitor's passwork started off strong, but in Massachusetts' half of the court the ball was lost, and the first minutes went by with both teams alternately having the ball. Then, four minutes after the start, Grayson scored the first point of the game from the foul line, which was followed soon by a floor basket by A. W. Smith, making the score 3-0 in Aggie's favor. Immediately following Smith's shot, Brown, for Dartmouth, sunk one from the foul line. At 3-1 the score stayed, with combinations being broken up by both sides until, five minutes before the period ended when following time out for Dartmouth, Yniff tied the score with a twin-counter from an outside pass formation. Just before the period ended Grayson broke the tie with his second basket from the foul line, making the score at half time 4-3 in Aggie's favor.

The play centered around mid-court during the first ten minutes of the second half, neither team being able to work the ball down into the rival territory. Well directed long shots bounded off both backboards alternately. Capt. Brown from the foul line scored the first point of the period at ten minutes from the start, tying the score at four all. For Dartmouth Schulting replaced Moore at right guard, and on the first play got within striking distance of the basket from where he scored a neat goal from the floor, putting his team in

ANIMAL HUSBANDRY CLUB WILL MEET MARCH 3

Secretary of Guernsey Cattle Club
Will Speak on That Date.
No Meeting Feb. 25.

The next meeting of the Animal Husbandry Club will be held on Wednesday evening, March 3, in Bowker Auditorium. At this meeting Mr. Caldwell, secretary of the Guernsey Cattle Club, of Peterboro, N. H., will be the speaker. He was to have come this month but he had to postpone his visit because of sickness. There will not be any meeting on Feb. 25, the regular time, but this meeting has been arranged as it will be the last one which the ten weeks students can attend.

In March there will be a special meeting devoted to swine; Professor V. C. Rice is making arrangements for it.

At the next meeting the question of changing the constitution regarding the selecting of officers will be discussed. It is proposed that the officers be elected at the next to last meeting of the second term, so that they can take charge of the club program during the last term and in this way get experience for the succeeding year.

TWELVE MEN MAKE POSITIONS ON SQUIB BOARD

Second Competition May be Started.

The competition for new members on the Aggie Squib board ended Monday night, Feb. 16, and the winning competitors were announced at the Squib board meeting, held at that time. Of the eighteen men who entered the competition, twelve were elected to the board, as follows: Editorial department—R. R. Brown '20, C. A. Donette '20, A. F. Boyce '20, C. E. White '22, T. T. Abele '23. Art department—F. S. Fletcher '21, C. A. Towne '23, D. H. Mackenzie '23. Business department—M. M. Smith '22, W. L. Bartlett '23, E. E. Buckley '23, D. A. Nowers '23.

The competition has been running through the first three issues of the Squib, and much good material has been discovered in the upper as well as the lower classes. This makes the prospects for the coming issues of the Squib look very bright. It is probable that a second competition will be started soon as more men from the lower classes are needed for the board to maintain the standard of the magazine next year.

HAMILTON HOLT SPEAKS

(Continued from page 1.)

The British Foreign office formulated a plan for a league of nations which was presented to President Wilson. Mr. Wilson then added his own ideas and when he went abroad he took the revised document and presented it as an American plan. In the meantime the British office had drawn up a new document, vastly superior to either their original one or the one submitted by President Wilson, yet it was not accepted. When President Wilson came to the United States after his first visit he obtained from the four republican leaders, suggestions for the treaty's betterment. Mr. Taft and Mr. Lodge recommended the same five improvements. These were woven into the treaty. Mr. Hughes and Mr. Root had their suggestions partially incorporated. Both Mr. Lodge and Mr. Taft agreed that those suggestions made the League and Treaty as sound as it could be. In the last three days there were three things added to the protocol which as Mr. Holt put it, "Changed the league from one to enforce peace to a league to insure progress." The assembly was changed so that each nation might have three votes, the meetings of the league were to be held automatically, and article 26 by which the league could amend itself, was added. In nine days 30 nations had given up any objections to the league and had agreed to that which the United States Senate has been vainly arguing about for over a year.

On last Feb. 14, Mr. Holt had the unique opportunity of watching the peace conference in session. He gave a graphic description of the room, which was large enough for the delegates only, the personal attaches even, having to stand up. The room was elegantly finished in white, gilt and marble; the walls were covered with pictures of shepherds tending their frolicking flocks, and "behind Mr. Clemenceau was a statue of Venus De Milo or some other Greek beauty." Mr. Holt remembers not which. Mr. Clemenceau sat at the head of the assemblage, and President Wilson on his right, both seated in gilded throne-like chairs of pink plush. As for the rest of the delegates, they were forced to content themselves with plebeian chairs of black ebony. All the delegates but generals Foch and Bliss wore sack gowns and looked like so many owls on their perches. At exactly eight past three President Wilson arose and read the treaty, then gave a speech straight from his heart, regardless of the journalists who were peering at him through the open door, and of the automata seated close by. When Mr. Wilson sat down there was absolute silence for a full half-minute. "The time had come in that half-minute"

said Mr. Holt, "when co-operation had been substituted among the nations in place of competition."

Mr. Holt took a vote by hand raising on the opinion of the student body on the League of Nations question. The four phases of the subject were similar to the four main statements that the student body voted on before. "The vote," said Mr. Holt, "is about the same as that taken in 35 other meetings in 10 states where I have spoken and if it is representative of the American people, the Senate is not."

THE DARTMOUTH GAME

(Continued from page 1.)

the lead 6-4. This lead was short lived, for within two minutes A. W. Smith edged a long shot for Massachusetts from the extreme side of the court, and the game began to draw to a close, with an overtime seeming to be unavoidable. With about a minute and twenty seconds to play, S. V. Smith duplicated A. W. Smith's shot of a few minutes previous, but from the other side of the court, giving Aggie the game 8-6.

The defense work of both teams featured, while A. W. Smith contributed two of Aggie's three floor baskets.

Captain Brown on the defense and Schulting, substituted in the last few minutes of play, contributed Dartmouth's redeeming plays.

The lineups:

Referee—Swaffield. Time—two 20 minute periods.

Two new men were enrolled at Aggie Thursday, Feb. 19, as unclassified students. These men, Boals Oklobdiga and Petar Martinovich, served in the Serbian army since 1914, and have come to this country to train themselves for teaching. But as they must first learn the English language, they will remain at Aggie one year, taking two English courses, also Mathematics and French. Professor Patterson has been appointed as their adviser.

NINE cases out of ten, the man who once smokes a WDC Pipe becomes a life member of the WDC club. He can't help it, because a WDC is certainly a man's size smoke. It's as sweet and mellow as carefully selected French briar and expert seasoning can make it. Not only material of the first water, but craftsmanship of the highest order, and designs that are most pleasing—all combine to make the WDC Pipe a smoke of peace, contentment and satisfaction. A man's smoke. Any good dealer will confirm this.

Develop the Forum.

Last Wednesday in assembly, the follow-up program of the William Inattitudes was begun. Labor's right to strike was discussed in a student forum.

The value of these forums will be in the expression of many opinions so that both sides of the discussed questions come before the students. They will come in a way that is unique in itself, because the arguments will come from the students, and they will consequently be considered with more interest than if an outside speaker should outline the points on one side of the question.

That the forums were enthusiastically received by the student body was evident from the applause that followed the words of the speakers last Wednesday.

We have a thing in these forums that can be made much of from several standpoints. From the standpoint of information it is good. From the standpoint of learning to speak it is good. From the standpoint of creating interest in current affairs it is good. Let us make the most possible of it by having many opinions expressed at the next forum.

PROFESSOR HICKS' HONOR.

The election of Professor CHITTY S. Hicks to the presidency of the Eastern Intercollegiate Track Association is indeed an honor. It is more significant when one considers that Mr. M. A. C. delegate was present at the meeting at which he was elected.

Do we on this campus who see Professor Hicks in his daily work, realize the quality of the work that he is doing?

His position on the campus is according to the catalogue, "Professor of Physical Hygiene." His concern is the physical welfare of the students both as a body and as individuals. His craft is the directing of the athletic activity so that it aids but does not encroach upon studies. His job is that of general manager of athletics. His affairs are the arrangements for intercollegiate athletic contests in conjunction with the student managers.

It is significant to say that the present

efficiency of the athletic department is largely due to Professor Hicks. He maneuvered the funds for the Alumni Field so that now we have a first class court for varsity contests. Another of the outstanding features of his work is the quality of the eligibility rules. On this page is a table comparing the eligibility rules of six colleges with those of M. A. C. It will be seen that Aggie rules are the stiffest. Yet, judging from past successes the teams have not suffered greatly from the stiffness. It speaks well for Aggie that it can maintain good athletic teams without cutting in on the studies.

It speaks well for the athletic department which in conjunction with the Dean's office, brought these rules into effect. Considerable credit is due to Professor Hicks. Let us remember the job he is doing and not fall with the salute when he passes. T. A. C.

"GOOD GRACIOUS ANNABELLE" IN STOCKBRIDGE

Second Movie by Social Union Management.

The Social Union on last Saturday evening presented the second movie entertainment of the season. The principal picture was "Good Gracious Annabelle" with Billie Burke playing the leading role. Annabelle, experiencing the love of a fast life, after expending all of her resources including two valuable mine stocks, was forced to take the position of a cook in order to earn her living. She had been married when young to a hermit who sent her away on account of her disposition but at the time gave her the two stocks which she later sold. Realizing her mistake in selling the stocks, thus endangering her husband's voting power, she succeeds after many thrilling experiences in winning back not only her stocks but also her lost husband. Two Mack Sennett comedies, consisting of thrilling races over tool tops and the speedy work of a waiter, concluded the program.

The following table of eligibility standards is taken from the rulings of some institutions that appear frequently on Aggie's schedules. In submitting these rules, certain athletic directors stated that changes were probable in the near future, and that more exacting regulations would be adopted, but this is the situation as it now exists.

| College | Freshmen | Special Students | "Transfers" | Scholarship |
|---------------|--|---|--|---|
| M. A. C. | Freshmen not eligible first two terms. | Two-year men not eligible. | Transfers not eligible first year residence. | Two conditions or delinquencies bar a man. |
| Maine | Freshmen are eligible. | As at M. A. C. | As at M. A. C. | Not eligible if conditioned in more than five hours work preceding Semester. Dean and major advisor may declare man ineligible for unsatisfactory work. |
| New Hampshire | Freshmen are eligible. | Two-year men are eligible. | Transfers are eligible. | Seven hours of deficiencies in mid-semester bar a man. |
| Rhode Island | Freshmen are eligible. | Short course students are not eligible. | Transfers are eligible. | Ten credits of deficiencies bar a man. |
| Connecticut | Freshmen are eligible. | Special students are eligible. Must take 14 hours a week. | Transfers are eligible. | Grade of "C" in one-half of credits is necessary. |
| Amherst | Freshmen not eligible first semester. | As at M. A. C. | As at M. A. C. | Two conditions or three delinquencies bar a man. |
| Tufts | Freshmen are eligible. | No ruling. | Are eligible unless previously members of varsity teams. | Must be in good and regular standing. (?) |

CAMPUS CALENDAR.

THURSDAY, FEB. 25.
5-40 P. M.—Interfraternity relay races.
6-10 P. M.—Lecture, Dr. Seelye, to the men students.
7-30 P. M.—Interclass Basketball in Drill Hall, 1922 vs. 1921. 1923 vs. 2 Year.
FRIDAY, FEB. 27.
7-40 A. M.—Chapel.
6-30 P. M.—Senior Class meeting, in Social Union Rooms.
SATURDAY, FEB. 28.
3-40 P. M.—1923 Show rehearsal in Stockbridge Hall.
8-00 P. M.—Basketball, Springfield vs. M. A. C. in Amherst. Deerfield Academy vs. M. A. C. Freshman at Deerfield. Springfield School vs. M. A. C. 2 Year at Springfield.
SUNDAY, FEB. 29.
9-10 A. M.—Chapel speaker, Albert E. Roberts, International Y. M. C. A.
MONDAY, MARCH 1.
7-40 A. M.—Morning chapel.
TUESDAY, MARCH 2.
5-40 P. M.—Interfraternity relay races.
7-15 P. M.—Senate meeting in Old Chapel.
7-30 P. M.—Ponology club meeting.
Rifle Match, M. A. C. vs. M. I. T.
WEDNESDAY MARCH 3.
3-10 P. M.—Student Forum.

Other Two Parts Chosen.

The last two parts in the play "Nothing but the Truth" have been assigned by the management of the Roister Boisters. The part of Mrs. Ralston is to be taken by Alfred Chong '20, and the part of Dick is to be taken by Carl M. Bogholt '21.

At present there is only one man out from the Sophomore class for manager of Roister Boisters. More men are needed and should report at once to manager Boardman '20.

Rehearsals for the Prom Show are being held twice a week.

At a meeting of the 1920 commencement committee James C. Maples was elected chairman.

The Y. M. C. A. Scholarship Committee, which met last Thursday night, considered the applications of about 25 students, including 19 regulars and 6 short course men. These will be acted upon, and decisions made later.

WESLEY METHODIST EPISCOPAL CHURCH

Amherst, Mass. (Cor. Main and Whitney Sts.)

Announcement for Next Sunday, Feb. 29

Preaching Service, 10-45 A. M.—Topic of the pastor's sermon, Feb. 29th: "The Use of an Extra Day."

Bible School, 12-00 M.—Henry Burt, Supt.—Classes for all. Topic in College Class: "Putting J. R. H. Wilson to the Test of the Sermon on the Mount."

Epworth League, 6-30 P. M.—John Crawford, President—A helpful and enjoyable young people's meeting, followed at 7:30 by a friendship hour for social and study fellowship.

The church cordially invites and welcomes all to its services.

PROF. THOMPSON COMPARES FRENCH CUSTOMS TO OURS.

Shows Lantern Slides of Devastated Regions at Graduate Club Meeting.

At a meeting of the Graduate Club in Clark Hall, Room A, last Wednesday, February 18, Professor Frederick L. Thompson of Amherst College gave a talk on "My Impressions of France and the French People." He said that he did not wish to be considered as speaking authoritatively. In his former visit to France he was inclined to think that the French people looked down on and made fun of the American people. When he last went to France, a year and one half ago, conditions were entirely changed. After the armistice was signed, the people got rather tired of the American soldiers, partly because they were tired of any kind of visitors, and partly because the Americans thought that everything American was better than the corresponding French customs and institutions. In some things we may be superior to the French, but in others they excel. They know how to live better than the Americans, that is, they enjoy themselves from day to day as they go along and do not chase the Almighty Dollar until they are sixty and then retire and try to enjoy themselves doing nothing as we do. Dr. Thompson then showed some fine lantern slides depicting the devastations at Rheims, Arras, and Paris, as well as at Chateau-Thierry and Verdun. One interesting picture was that of the base upon which the "Big Bertha" formerly rested. The "Big Bertha" herself has disappeared.

In closing, Dr. Thompson said that he thought that when the United States refused to enter the League of Nations wholeheartedly and unconditionally, they were throwing away a chance to do untold good to the world.

NO VARSITY DEBATES

(Continued from page 1)

late was discussed and it was decided candidates would be called for from each class, and that trials would be held on Mar. 5 or on the first of the following week. There are eight Sophomores who wish to try out for it and also several Freshmen. Subject matter for the debate was discussed and it was thought that some phase of the labor question would be appropriate for such a contest. The question which is used at the trials will also be used in the debate, as this will permit more thorough preparation at all sides of the question. The men will do individual work in the trials and then the debate will be a continuation of the question after the sides have been chosen.

The Barnham declamation will probably be held during the first two weeks in May, and it will be open to all Freshmen and Sophomores. The idea of having the First Oratorical contest as a feature of the commencement program was considered, and it was decided that the Public Speaking Council manager should take the matter up with the commencement committee.

MOVIES MARCH 2 AT THE POMOLOGY CLUB MEETING

Election of Officers to be Held at That Time.

Owing to the fact that one of the films, which was to have been shown by the Pomology Club, did not arrive, the motion pictures that were scheduled for last Tuesday, Feb. 17, will not be shown until the coming meeting, March 2, at 7-30, in Stockbridge Hall. In place of the movies Mr. Charles H. Gould, former county agent of Hampshire county and now in the Pomology department, gave a lecture on Massachusetts fruit growing, illustrated by slides. He spoke principally on conditions in Hampshire county and of the great possibilities for fruit growing in the Northwest section of the county known as Apple Valley.

Due to the few members present, accounted for by the change of place of meeting from Stockbridge to room F, French Hall, the election of officers was postponed until the next meeting.

ORANGE HIGH SWAMPED. FROSH WIN BY 51 POINTS

Visitors No Match for Fast Working Team.

In a game with Orange High School, last Wednesday evening, Feb. 18, the Freshman varsity quintet overwhelmingly defeated the visitors by a score of 41-10.

Tumey started the scoring after a few seconds of playing by netting a goal for the Frosh from directly under the home basket. Grayson almost immediately followed suit with a pretty shot from the floor. During the first half of the game 23 ran up the score to 37, and the sole scorer for the High School five was Smith, who earned two points on free tries from fouls.

During the second half the visiting team displayed more "pep," their forwards shooting in three field goals, and their right guard, Smith, again netted two points by his free shooting. Tumey, Sargent, and Grayson, in the meanwhile, raised the home score to 41.

For the Freshmen, Tumey, Grayson, and Sargent excelled in shooting. During the game, the Aggie captain acquired nine field goals and three points from fouls; Grayson obtained ten baskets from the floor, and Sargent gained seven two pointers. Hale started in defensive work, while Alger did well both in shooting and in the defensive work. For Orange, Smith's true shooting and the forwards three floor baskets prevented a shut-out. The Freshman team exhibited good playing throughout the entire contest.

Mr. Frederick A. McLaughlin, M. A. C. 1911, and at present an instructor in the botany department, is proud to announce the birth, on Sunday, Feb. 8, of a son, George Edward. Both mother and son are doing well, and "Mac" says that already he can see great prospects in the boy.

CAMPUS NOTES

Senate Making Banquet Rules.

At the Senate meeting Tuesday evening, Feb. 17, three questions of importance were brought up. Jakeman '20 was appointed to look up the holidays which other colleges have, and report at the next meeting, that Aggie may have more vacations. Then the question of the new Serbian students was talked over and commented upon favorably. A committee of three was also appointed to arrange the date and the rules for the banquet season next term. The committee consists of Campbell and Urtis '20 and King '21.

Prof. Sears' New Book.

Prof. Fred E. Sears, head of the department of pomology at this college, has written "Productive Small Fruit Culture," a new book which will be published in the near future. This

book contains many new points, and explains old ones in a clear and concise manner. Everything in it has been tested and proved to be of actual value. Prof. Sears compiled this book through his experience in classes, in the field, and in his association with practical growers in the country. He also obtained assistance and valuable information from G. W. Darrow of the Bureau of Plant Industry, U. S. D. A., and from the editor of Lippincott's Farm Manual, Professor Davis.

ex-'05—A. Russell Paul, of Belvidere, New Jersey, is just getting about with the aid of a cane, having been confined to his home for over two months past, because of a very bad fall.

'17.—Maurice Goldstein made a flying visit to the campus last Wednesday evening. He is now connected with the Plymouth Creamery Company of Boston.

HARVARD WINS RIFLE MATCH BY MARGIN OF FIVE POINTS

Robinson of M. A. C. and Young of Harvard Tied for High Score With 197.

The result of the rifle match between the M. A. C. team and the Harvard team, held Feb. 17, was a win for Harvard by the small margin of five points. The total score was, Harvard 975, M. A. C. 970. The highest individual scores made by each team were the same, Robinson of M. A. C., making a score of 197, and Young of Harvard 197.

Individual scores:

| HARVARD. | |
|------------|-----|
| Young, | 197 |
| Currier, | 196 |
| Wilson, | 195 |
| Bolton, | 194 |
| Wheatland, | 193 |
| Total, | 975 |
| M. A. C. | |
| Robinson, | 197 |
| Tilson, | 191 |
| Sanford, | 194 |
| Cook, | 192 |
| Lambert, | 191 |
| Total, | 970 |

In addition to this the rifle team has begun shooting in the intercollegiate series, and have turned in two scores so far. The report as to the standing of the team in respect to the other teams competing in the matches has not been received as yet.

Unofficial scores:

| FIRST INTERCOLLEGIATE FEB. 14. | |
|---------------------------------|-----|
| Tilson, | 194 |
| Robinson, | 191 |
| Lambert, | 189 |
| Sanford, | 186 |
| Cook, | 185 |
| Total, | 942 |
| SECOND INTERCOLLEGIATE FEB. 21. | |
| Main, | 194 |

| Total, | 964 |

DEPARTMENT NOTES

The Pomology Department will repeat the special extension school in fruit growing held last week at Framingham, on March 4 and 5.

There are 2300 eggs in the first incubation being carried on by the ten-week students which is due to come out of the incubator on the 29th of this month. The second hatching, which will be set March 2, will be managed by the vocational students. The third hatching, which will come April 1, will be managed by Juniors. There is one mammoth incubator now in operation which visitors may see by calling at the plant.

DE LAVAL

the world's cream saver

Thousands of De Laval Cream Separators have been sold to young people just beginning to run a farm, because a father or friend wanted to see them start right.

The older people know from experience that the De Laval skims cleaner, runs easier and lasts longer. They also remember the service they have always received from the De Laval Company and its agents.

The superiority of the De Laval and the uninterrupted service back of it are responsible for the fact that there are more De Laval in use than of all other makes combined.

Any time is a good time to buy a De Laval Cream Separator—to start saving cream, as well as time and energy.

If you want to "start right," see nearest De Laval agent. If you do not know his name, write to nearest De Laval office.

THE NEW YORK TRIP

Continued from page 1

The Pratt game was played in Brooklyn, Friday evening, Feb. 20. M. A. C. started with a changed line-up, but was forced to shift back because the Pratt team developed unexpected strength. The gymnasium was very small, and short passing was the only form of offensive usable. Throughout the game Aggie shot more than Pratt, but was unable to drop the ball through the basket. The first half was close. Readio and Grayson both sunk two-pointers, and the team left the floor with the small end of a 7-4 score. In the final period, however, Grayson got the only tally on a free try, while the Brooklyn team got three from the floor. Pratt took the lead early and held it throughout the contest. The Brooklyn forwards both played well, while Grayson and Gowdy played their usual good game for M. A. C.

| The line-up: | |
|-----------------|--------|
| PRATT. | |
| DeLand, lg | 0 0 0 |
| Bogart, rg | 0 0 0 |

| Totals, | 2 1 5 |

Score at end of first half—Pratt 7, M. A. C. 4. Referee—Thorpe. Timer—Arnold. Scorers—McIntyre and Campbell.

M. A. C. played a better game against Stevens at Hoboken, Saturday night, than against Pratt at Brooklyn. The contest was featured by very close blocking. However, Aggie was unable to pin down Eggor, the Stevens right guard, who broke through for seven baskets. Carlson, the Stevens center, who starred in the first game at M. A. C., was ineligible and did not play.

For Aggie, Gowdy, S. V. Smith, and Grayson did well. The team was off form in shooting, and many long shots were unsuccessfully attempted. Stevens was able to use many substitutes, and eleven men appeared on the floor against M. A. C. during the game.

FRESHMEN SLOW UP AND ARE DEFEATED 19-16

Had Six Points Lead Over Hartford at End of First Half.

In a close, well played contest with the Hartford High School five last Saturday afternoon, Feb. 21, in the Drill Hall, the Aggie Freshmen were defeated by a narrow margin of three points, the final score being 19-16.

As soon as the ball was tossed, Tunney dribbled it to the home basket and tried a goal. The ball rebounded to Alger who immediately sunk it in a two-point. Both sides were equally good on the defensive and it was only after five minutes of rough playing that the Aggie's left guard, Grayson, deposited another neat shot from the floor. Before the half was over the yearlings had run up the score to ten, while the visitors were only four.

During the second half, the High School quintet showed some excellent passing and defensive work. Escholtz, the visiting captain, took advantage of most of the home team's fouling and netted nine points on free tries. The Aggie captain was not given many such chances, as the opposing team exhibited almost faultless playing. Grayson did some skillful shooting but could not overcome the points gained by Escholtz.

For Hartford, Captain Escholtz starred in shooting, and the forwards showed considerable skill in the offensive. For Aggie, Grayson, and Alger excelled in shooting, while Sargent did well in break-up work.

LABOR HAS A RIGHT TO STRIKE

(Continued from page 1)

the strike is just a method of improving conditions, and to remove the right to strike would be to undermine our democratic principles. The question now is: What can we do to remove the necessity for strikes? The next argument against striking was that laborers have no right to injure people and property as they are now doing. Also that to allow only certain classes to strike, and not others, would be unconstitutional. The opinion was given that only such organization should be permitted as would co-operate with the employers for the best interests of both parties. On the other hand, unless public opinion can be changed for the workmen, they should have the right to strike. It was stated also that strikes are only a form of dynamite, which should be used to move the people only when everything else has failed. Thus we struck against Germany after other means had been tried.

A vote of the student body was then taken, giving a slight majority for the affirmative. Professor Sprague then brought up the question of the right to strike on railroads and other great public service industries. Is not this unjust to the people? This is where the public, that and great innocent factor, steps into the game. This question will be discussed more fully at the next student forum.

"12.—William Bent was recently home on leave from Gray, Indiana, where he has been with the Federal troops during the steel strike.

SPRING FOOTBALL PRACTICE BRINGS MANY OUT

Thirteen Juniors, Twenty Sophomores, and Twenty Three Freshmen Report.

The plans of Coach Gore and his assistants for the spring football practice point to a good foundation for the games of next fall. The practice this spring will cover a period of from five to seven weeks and will take place three days a week. Captain Poole will be in charge of the training and will be assisted by Starr King who will take care of the linemen, Parker Whittle who will have charge of the backfield men, and Mackintosh who will have the centers. It is expected that the Seniors and graduate letter men will help out from time to time. Out-door practice will begin just as soon as the field is in shape to go on.

Then there will be two dupe talks a week which come on the days before the practices. Uniforms will be issued to all the men. A great deal of attention will be paid to detail; there will be special attention paid to kicking and forward passing. There will be practice in signals and dummy and shadow scrimmaging. Several formations will be worked out and some time will be given to perfection of the plays.

This work is especially intended for the men who were substitutes last year, second string men and all the Freshmen candidates.

The talk and practice schedule for last Saturday afternoon was postponed till the coming Saturday, March 6, when a talk and demonstration will be given by K. C. Bevan, and the practice will be from 2 to 6 o'clock in the afternoon.

The following is the list of candidates: 1921.

James Alger, C. W. Bunker, P. J. Cascio, R. M. Gould, C. P. Whittle, Starr M. King, C. G. Mackintosh, H. W. Poole, Roger Readie, Richard Waite, D. A. Hurd, L. C. Kirkland, E. W. Martin.

1922.

J. H. Andrews, R. M. Acheson, H. J. Banton, C. F. Clark, G. A. Cotton, A. Krasker, H. Spring, A. Higgins, S. L. Freeman, F. A. Gilbert, J. Lewandowski, F. J. Murdoch, G. B. Packer, S. E. Stevens, H. E. Wentsch, Wildner, L. Bent, R. E. Field, C. F. Giles, J. G. Ireland.

1923.

M. W. Alger, H. Bates, James A. Deal, E. R. Blanchard, R. D. Mohor, V. D. Mudgett, H. P. Phelps, E. F. Ribero, F. L. Davis, R. H. Grayson, S. K. Hardy, S. D. Hilyard, Oliver P. Gattour, B. M. Lewis, F. D. Luddington, J. Graves, R. H. Sargent, B. P. Sherman, A. Tarplin, M. A. Tunney, A. M. Wilson, C. L. Wirth, A. A. Sowers.

NEW HAMPSHIRE TO PLAY AGGIE ON HOME FLOOR

Brings Fast Team That Can Make Use of the Breaks When They Appear.

New Hampshire State will oppose the M. A. C. basketball team in the last scheduled game of the season on the Drill Hall floor next Saturday night. Although this is the last game scheduled, a contest may yet be arranged with Springfield.

The N. H. S. team has had an altogether successful season up to date. It started off by defeating Tofia, and has also been victorious over Connecticut Aggie, Boston University, and a few other college teams. In addition to a victory over the Portland Athletic Club, W. P. I. had difficulty in beating N. H. S. by a 21-19 score. Springfield, Dartmouth, and the Portland Athletic Club also defeated them.

M. A. C. was beaten 20-16 in a ten minute overtime game against N. H. S. in Durham on February 7th. It was one of the fastest contests which the Aggie team has played this winter, and was a N. H. S. victory only because of a break in the last few minutes of the final overtime period.

Butler, at right forward, has been the most consistent scorer for the New Hampshire team during the season. Craig and Anderson alternate at center, and are both good men. David and Atkins play the guard positions, and usually take a part in the scoring.

The Aggie team will appear on the floor Saturday night for the first time in nearly two weeks, after an enforced rest, because of the twelve cancelled Springfield game. S. V. Smith who recently became eligible and has played in the last three games, or Thompson will probably start at center. Readie, A. W. Smith, and Grayson are now playing at forward. Stedman, Lent, and Gowsdy are all doing well on the defense.

ARE YOU GOING OUT FOR THE BASEBALL TEAM?

Then Read This Notice.

Baseball practice begins Monday, March 8, with battery practice for all candidates, varsity and Freshmen. Beginning the week of March 8, there will be two baseball talks held a week. In order that a working schedule may be more smoothly arranged, Manager Rice has requested that all battery candidates hand in their hour plans to him before the end of the week. All candidates for varsity baseball including Freshman this spring are to hand in the following information to Manager Rice at once:

1. Name.
2. Class.
3. Eligibility.
4. Positions played.
5. Positions preferred.
6. Previous experience.

All letter men and members of 1917 varsity need not fill in No. 6.

SUCCESSFUL HOCKEY SEASON IS CUT SHORT BY WEATHER

Only Five Games Played of Twelve Scheduled. Three Wins and Two Defeats.

The hockey season for 1920 is now history. Due to the persistently bad condition of the ice the team has played only five games of the 12 scheduled, and all of these away from the campus with a record of three wins and two reverses. The season has been a disappointment to the puck chasers as at the beginning of the year with a team composed entirely of veterans the outlook was very bright.

The first game of the year found the "Maroon and White" pitted against her old and honorable rival, Springfield. In this first encounter on January 14, the team displayed exceptional skill in pass work and the "Y" unit was left trailing 6-0.

The annual Boston trip was ushered in January 5, by a decisive victory over Boston University. This game was substituted on the schedule for M. I. T. due to the death of President McLaughlin of the latter institution. The contest was not marked by any flashy playing, the "Aggie" sextet holding the upper hand at all times.

By far the best game of the season and the hardest earned victory was chalked up January 15, when the team stacked up against Boston College and after 57 minutes of grueling fight emerged the victor, 5-4. The condition of the ice was such as to prevent much team work.

The first defeat was registered January 20 on the Amherst rink. The result came as a surprise to the supporters of both teams, for while the Amherst team was considered strong it was not thought that it would outskate the "Maroon and White". The game was marked by a good exhibition of team work on the part of the winners.

In what proved to be the last game of the season "Aggie" went down to defeat at Hanover, January 21 before

(Continued on page 2)

FRESHMAN SHOW COMES OFF FRIDAY, MARCH 5

Play "Blood Tell" by Friend '23 Promises Much Amusement.

On account of the basketball game scheduled for March 6, the Freshman play which was to have been given on that date, will be presented Friday evening March 5, in order that there be no condition of activities. Preceding the play there will be a short vaudeville sketch of Mexican boxing in which nothing will be "thrown but the ball." The names of the four men who are to take part in this sketch have been withheld, a precaution which has perhaps been necessary to secure the safety

(Continued on page 3)

ALLEN L. POND '20 SUCCESSFUL COMBS TO PNEUMONIA

Illness of Several Days Traced to Gassing. Game Fight for Life Seemed Successful at First.

Following a week's illness of pneumonia, which developed after an apparent recovery from a severe cold, death claimed Allen L. Pond '20, of Holliston, at the college infirmary on Thursday, February 26th. With him when the end came were his father and mother, who had been almost constantly at his bedside during the latter part of his sickness. Besides his parents, he is survived by two sisters. The funeral was held Sunday from his home in Holliston.

By his death the college loses not only its best all-around athlete, but a man who by his very participation in athletics here at Aggie, and through his association with various student activities, had become the most popular man in the undergraduate body, and one whose loss will be keenly felt on every hand.

Allen L. Pond entered M. A. C. in the fall of 1915, with the class of '19, and at once made a name for himself in athletics, playing on his class football, baseball, and basketball teams, captaining the latter. In his sophomore year he played a consistent game at half back on the varsity eleven, as well as being a clever performer on the varsity basketball team, and holding down an outfield berth on the Maroon and White baseball nine. At the end of his second year he enlisted in the 14th Railway Engineers, and saw several months active service overseas. He was for a time invalided to a French hospital as a result of gas poisoning, and later rheumatism. He returned to college early last spring as a member of the class of 1920, and despite the lingering effects of overseas duty, played a fast game at first base and in the outfield, on the varsity nine. He was elected captain for the coming year, at the close of the season.

This past fall, as captain of varsity football, Pond played a brilliant game at quarter back all season, and the success of the 1919 M. A. C. eleven was due in no small measure to the steady influence that his presence had on his teammates and to his natural ability as a leader. Up until the time of his fatal illness he had been putting up a fast game at forward on the basketball five. "Rac", as he was familiarly known to everyone, was prominent not only in athletics, but in other college activities as well. He was a member of the Kappa Sigma fraternity, had been president of his class, and was at the time of his death, permanent class sergeant-at-arms. He was elected to the student Senate at the end of his sophomore year, and re-elected on his return to college last spring, as well as being elected to Adelphi.

Thus, in a meagre way, it proved, did his college and class mates seek to honor Allen L. Pond. Yet trifles after all, are these undergraduate rewards to such a personality, to one, who for four years had given his best to put athletics and student relationships at Old Aggie on a higher plane. Possessed of the qualities of strength, valor, and leadership, yet modest and unassuming among his fellows, and with a heart as big as all outdoors, he had become a campus influence. Fortunate indeed was that person who numbered "Ras" among his friends.

In the minds of every Aggie man of the last five years, no memorial can do "Ras" Pond justice. Although his loss

is inestimable, his indomitable spirit, and his association on this campus with all that was the cleanest and best, and most truly representative of the old college which he loved and for which he did so much, will serve to always preserve the recollection of his life among those privileged to be in college with him during these years.

REVIEW OF HOCKEY SEASON

(Continued from page 1.)

Dartmouth. So close was the defence of the two teams that it required two over time periods to score the only and winning tally. From a "Green" viewpoint the game was the roughest and

fastest game ever witnessed on Dartmouth ice.

The clever goal tending of Delabunt deserves special mention, while Captain Crafts, McCarthy, Collins, Coach Mansell, Leavitt and Dowd were consistent performers.

Although the season has been very short this year, it has been sufficiently long to reveal the fact that M. A. C. possesses some clever puck chasers. As the team loses the services of only Captain Crafts, Dowd and Delabunt, the prospects for a good season next year are bright.

19.—Mr. Phelps has recently started a small retail flower store at Rochester, N. Y. He is also doing landscape work.

The Service of an Electrical Research Laboratory

The research facilities of the General Electric Company are an asset of world-wide importance, as recent war work has so clearly demonstrated. Their advantages in pursuits of peace made them of inestimable value in time of war.

A most interesting story tells of the devices evolved which substantially aided in solving one of the most pressing problems of the war—the submarine menace. Fanciful, but no less real, were the results attained in radio communication which enabled an aviator to control a fleet of flying battleships, and made possible the sending, without a wire, history-making messages and orders to ships at sea. Scarcely less important was the X-ray tube, specially designed for field hospital use and a notable contribution to the military surgical service. And many other products, for both combatant and industrial use, did their full share in securing the victory.

In the laboratories are employed highly trained physicists, chemists, metallurgists and engineers, some of whom are experts of international reputation. These men are working not only to convert the resources of Nature to be of service to man, but to increase the usefulness of electricity in every line of endeavor. Their achievements benefit every individual wherever electricity is used.

Scientific research works hand in hand with the development of new devices, more efficient apparatus and processes of manufacture. It results in the discovery of better and more useful materials and ultimately in making happier and more livable the life of all mankind.

Booklet, Y-863, describing the company's plants, will be mailed upon request. Address Desk 37

WILLISTON TAKES GAME FROM FROSH TEAM

Weight of Visitors Counts Against
First Year Men.

Aggie Freshmen suffered another defeat in basketball last Wednesday afternoon, Feb. 25, in the Drill Hall, when the heavy Williston team gained a decisive victory, by the score of 19-6.

During the first five minutes of the game, the ball was dribbled up and down the floor. Knox, of the visiting team, fouled, but the Freshmen did not gain by the free try thus offered. The ball then passed into the visitors' hands, and Knox netted the first score by a pretty shot from the floor, which he duplicated almost immediately. Williston then substituted Sullivan for O'Brien. Sargent earned the first tally for the home aggregation by a spectacular shot from the middle of the floor. Knox's true shooting soared the score for the Academy to 11, while Grayson added a point to the yearlings' reckoning by getting a free trial. At the end of the first half the score read Williston 11, Freshmen 3.

In the second half both teams essayed many baskets, but not until ten minutes of the half had gone by did Knox, the speedy forward of the prep school five get the ball under the net and add two points for his team. Alger was then replaced by J. Wilson. Aggie's left forward then sunk another two-point shot, and Grayson gained another point on a free try. Knox and Latta hoisted the opponents' score to 19. About two minutes before the end of the game Williston put in Thomas for Sullivan, and Magner for August. The score, however, remained unchanged.

For the Yearlings, Sargent and Grayson started in shooting, while Hale and Hunter did well in the defense. Knox was the stellar attraction on the opposing team, and garnered a total of 15 points. Latta played an all-around good game.

POULTRY CLUB ADOPTS CONSTITUTION

The constitution of the newly formed Poultry Club was voted on and passed at the second meeting, held Tuesday evening, Feb. 24, in Stockbridge Hall. Miss Viselak was elected secretary and treasurer and it was decided that the president, vice-president and secretary together with Mr. Mosher and Mr. Hatch should form the executive committee of the club. The constitution is similar to those of the other clubs on the campus, and the meetings are to be held every second and fourth Tuesday evening at 7:30 in room 114, Stockbridge Hall. Following the business meeting there was a general discussion by the thirty members present on the subject Natural versus Artificial Incubation.

Dr. G. E. Gage of the Veterinary department will speak at the next meeting on March 9, on the work of the state in testing birds for bacillary white diarrhea and the great benefits the poultry raisers are deriving from this work.

Our assortment of exclusive, rich weaves is as wide as the gap between Wilson and Lodge, and that's more than a gap—it's a yawn. Suits priced from \$50. Wool Hose \$1.50, Sale \$1.15. TIES AT WHOLESALE THIS WEEK ONLY

INTERCLASS TRACK MEET TO BE HELD MARCH 13

A Strong Competition Expected in
the Dashes.

The annual Inter-class track meet will be staged in the Drill Hall at 2:30 p. m. Saturday, March 13, this being the only available date this term. This event in the past has always been hotly contested and this year should be no exception. Each class should have at least one entry in each event and every man who is loyal to his class should hand in his name and come out and try. A second and third place may furnish the points necessary to win.

The three upper classes have a number of veterans of former meets but the Freshmen have brought out several men who are apt to make them travel. Apparently no class has any appreciable advantage over the others. The dashes should be very fast with Robertson '20, Alger '21, and Bent '22 among the candidates, while the distance events will bring together West '21, Rollins '22, Spring '22, Crawford '20, and MacCreedy '23. In the 300 and 600 yds races Woodworth '23, Skinner '20, Bent and Alger should make a fast race.

Entries for the meet must be passed in to Collins '22, Lewandowski '22 or McCarthy '21 before March 11. A small fee will be charged for each entry in order meet expenses.

The following events are scheduled: 25-yd Dash, 300-yd Dash, 600-yd Run, 1000-yd Run, Mile Run, 2-mile Run, Standing Broad Jump, Shotput, High Jump.

KEEN PREPARATION FOR CLASS DEBATING TRY-OUTS

Sixteen Men Out for Teams.

The subject for the Freshman-Sophomore debate is as follows: Resolved, that boards of arbitration with compulsory power should be established to settle disputes between employers and wage earners. The contestants are allowed to take any phase of this question which can be presented in three minutes. Each will present his argument before two judges. Professors Prince and Rand, who will select four men from each class for the teams. The teams will meet for the final contest about the middle of April. The tryouts are to be held March 6, Saturday afternoon at 1 o'clock.

The following men are out for the competition: 1922, Hussey, Krasker, Bromley, Beckwith, Eysalan, Russell, and Tanner. 1923, Abele, Dimmock, Martin, Sandow, Tanner, Putnam, Broderick, Rock and Cohen.

Real interest is being shown by the contestants, and a lively discussion is expected.

'08.—C. C. Gowdey, government entomologist at Uganda, Africa, has named and arranged the collection of African insects belonging to the Department of Entomology. Most of this collection represent gifts given by him to the Department.

Allen Leon Pond.

A shadow of gloom has been cast over the whole college by the death of Allen L. Pond. His absence, coming after such a brief illness, is hard to realize. Not only his classmates and fraternity brothers, but his many friends here and at other colleges share the grief of his immediate family.

The loss of so noble a character is felt most keenly by both students and faculty. Everyone knew him and admired him. The popularity which he won on the athletic field was strengthened by his sportsmanlike conduct and his ability as a leader. His cheery disposition and warmheartedness gained a host of loyal friends for him wherever he went. In spite of his enviable athletic reputation, he was always modest and diplomatic. His wonderful smile and magnetic personality made him a close friend to all. The feeling of the fraternalities was well expressed in one short sentence, "It seems that we, too, have lost a brother."

His broad smile will long be remembered, and his example of manhood and character will live on, while he goes "Tomorrow to fresh woods and pastures new."

RESOLUTIONS

Whereas, it has pleased God in His infinite wisdom to take from us our beloved classmate, Allen Leon Pond, and

Whereas, the Massachusetts Agricultural College has lost a true and manly son, be it

Resolved, that the Class of 1919 extend to his bereaved family our heartfelt sympathy in our mutual loss; and be it further

Resolved, that a copy of these resolutions be sent to his parents, a copy be published in the MASSACHUSETTS COLLEGIAN, and a copy be inscribed upon the class records.

For the Class,

PAUL FAXON,
ARTHUR M. MCCARTHY,
VINCENT H. CALLAHAN.

"14.—C. R. Fry is busied with landscape gardening at Columbus, Ohio.

COMMUNICATION

TO THE STUDENTS OF MASSACHUSETTS AGRICULTURAL COLLEGE:

We, the members of the Springfield College football team, take this means of extending to you our heartfelt sympathy in the loss of Capt. Pond. We admired him for his personality, his leadership, his fighting spirit, and his sportsmanlike conduct.

May his memory serve as an added incentive to the spirit of close friendship and clean rivalry that exists between the two institutions.

Sincerely,

E. BERRY, Coach.
Committee:
R. H. LAYNE,
CHARLES COWELL.

ROOSEVELT CONSERVED ALL POWERS OF BODY AND SOUL

Dr. Smith Tells Source of President's Strength as He Observed It.

"Never has anything been able to stir New York to such a degree as the day when, accompanied by a cyclone, cloud-burst, and earthquake, Theodore Roosevelt was born," said Mr. Smith of Manchester, N. H., in beginning his address at last Wednesday's assembly.

Mr. Smith brought out strikingly the admirable characteristics of fortitude, clear-mindedness, political independence, love for home and the love of righteousness of our great ex-president. It was Theodore Roosevelt's exceptional physical power which permitted him, after a long day's hunt in Africa, to return to camp and work at his typewriter far into the night. It was his great physical power which allowed him not only to explore the River of Doubt in South America but also to make a two-hour speech in Milwaukee with no assassin's bullet in his chest.

There is yet to be found a man who can tell of ever hearing Roosevelt recount a questionable story, and Jacob Reiss once said, "His mind was as pure as that of a woman". At the republican convention held in Chicago when the Bull Moose party was formed, Roosevelt needed twenty eight votes to be made the candidate for president. When offered 32 votes by certain Southern delegates on the condition that he change one of the planks in the party platform he flatly refused, though it meant his defeat for the presidency. His love for his home was ever apparent, and in spite of his arduous tasks at the White House he never forgot his lovable family on Sagamore Hill.

When Mr. Roosevelt attacked the British Colonial Policy, he spoke in London, when he attacked Parisian life he did so at the French capitol, and when he made his attack on the German war lords he made his attack in Berlin.

The secret of Mr. Roosevelt's success, said Mr. Smith in closing, was that he conserved and cultivated all the power of his body and soul.

USE SHRUBS FOR FRAMING VIEWS SAYS HARRISON

Professor Harrison gave an interesting illustrated lecture on "Reasons for Planting," at the meeting of the Floriculture Club last Wednesday evening in French Hall.

With the aid of a drawing he showed how shrubs were planted for useful and ornamental purposes, and that of an estate three divisions were dominant. The number may vary, but these three are general; the service portion, semi-

public portion, and private portion. Several pictures were shown where poor conditions existed, and of later improvements made by the planting of grass, trees and shrubbery. He illustrated how trees and foliage of other kinds gave artistic support to objects, on the sides, and in the background; and also that arched masses gave an interesting frame effect. Sometimes foliage is planted to hide uninteresting objects, and for protection from trespass, in the form of hedges. Shrubs may have different effects at different seasons, and often a variety is planted to give seasonable effects. One very uncommon reason for planting is for the sake of oddity. The largest exhibition of this is at Wellesley, Mass., where the trees and shrubs in one garden are cut in all sorts of forms and figures.

After the lecture a short business meeting was held to make plans for another meeting in the near future.

FRESHMAN SHOW

Continued from page 1

of their lives. The play, "Blood Tells," was written and produced by Roger Friend '23, and consists of three acts. It concerns the futility of allowing ancestry to influence one's judgment of humanity, and the scene is set at the country estate of the Mrs. Van Ruden.

A professional coach has been secured for the few remaining rehearsals and from the present progress that has been made, it appears as though the play would be a great success. A dress rehearsal, the last one before the regular performance, will be held Thursday evening. A newly formed orchestra, composed entirely of Freshmen, and directed by Fuller, '23, will play between the acts.

The cast is as follows:
Alfred Van Ruden, Owen E. Folsom.
Geoffrey, Alfreds brother,
William Geoffrey's cousin,
Gillert H. Irish.
Widath
Irving W. Slade.
Mrs. Van Ruden, Miss Bateman,
Helen Alston, Miss Martin.
Eunice Hays, Miss Boles.
The Doctor, John M. Whittier.
James, a servant, J. Gordon Tarr.

"18.—Howard Russell has moved to Leominster, where he is starting a self-service store. He is planning to establish a chain of them throughout the East.

MR. RAND'S "GARLINGTON" WIDELY RECEIVED

Collection of Poems Depicting Life in a New England Village Commended by Critics.

There is a little book gaining wide recognition throughout the country, which is closely associated with Aggie. This book, entitled "Garlington," is a collection of short poems written by Frank Prentice Rand, a member of the M. A. C. faculty, and prominent in college activities. It is copyrighted by the Cornhill Co., Boston, Mass., and so far has had a large publication.

"Garlington" is apparently a typical New England village, and this collection of poems at once places the reader in a rural atmosphere. Such sonnets as "Weeds" interpret New England village life very successfully; while "No Time For Questions" is an effective child verse. Mr. Rand's subjects are

easily understood by everyone, and deal with intimate associations, so that the book sends out a general appeal to the reading public. It was suggested that this was just the kind of poetry to send to our soldiers overseas. Though simple and easily read, the poems are so wholesome and so well wrought as to pass the best of critics.

The style of Mr. Rand's poems is likewise simple, but of a satisfying nature; his expression is full and sincere. It seems as if one was taken right back to the country village of a former generation, to live again the happy experiences of youth. Besides being of artistic value, the poems in "Garlington" are different, in that they give a direct appeal to the heart that cannot well be resisted.

"17.—W. C. Bonn is now connected with the Weirless-Sherman Company interested in the selling of Barium Phosphate.

"15.—M. N. Goodwin died of pneumonia on Feb. 22. For the past four years, he had held a position as landscape gardener with the J. Van Haden Company of Greensboro.

"16.—Raymond Upton, who has been teaching agriculture at North Attleboro, has gone to Philadelphia to take up government work there. The position is now open with a salary of \$2,000.

CAMPUS NOTES

The speaker in Chapel, Sunday, March 7, will be Rev. John Herman Randall of the Mt. Morris Baptist Church, New York City. Mr. Randall was born April 27, 1877 in St. Paul, Minn. He graduated from Colgate University in 1892 and was ordained to the Baptist ministry in 1895. He is an author and has published the following books: "A New Philosophy of Life," 1910; "Culture of Personality," 1912; "Humanity at the Cross-Roads," 1915; "Life of Reality," 1916; "The Philosophy of Life," 1917.

Following Wednesday assembly, the question of having chapel for the coming year on Tuesday, Thursday and Friday mornings at 7-40 instead of Sunday chapel, was voted on by the student body. With the exception of the Senior class, sentiment was unanimously in favor of continuing chapel under present conditions.

1923 Gets Shorter Hours Too.

At the regular Freshman class meeting, held Friday evening, Feb. 27, in the Old Chapel, Friend reported favorably on the class play which is to be presented Friday, March 5. It was voted to assess each class member 25 cents to meet the immediate expenses of the play, and volunteers were asked for to help the committee in its preparation. Alexander reported that the committee appointed to interview Mr. Dean had succeeded in getting shorter poultry assignments for the rest of the term. A motion to elect an assistant cheer-leader was voted down. The matters of the class debating team and the interclass track meet to be held soon were also discussed, and candidates for each were asked for.

61,439 Books.

The annual report of the M. A. C. Librarian is summarized as follows: Volumes added during the year, 2876; total in the library, 61,439; open 85 hours a week, and 241 days a year; 7444 volumes were loaned for home use, and nearly 700 periodicals received.

Lyons Sent to Holliston.

At a meeting of the Senior class in the Social Union rooms last Friday evening, Feb. 27, the question of having a play was discussed, and it was decided to hold a Senior show some time after the Junior Prom. The class gave President Dewey the power to select a committee of five to decide upon a suitable date and to submit suggestions as to the character of the play at the next meeting of the class. Professor Robbins' plan of having a class insurance was explained and discussed. Dr. Peter's scheme of having each Senior give \$5 a year for five years directly to the College in lieu of the insurance was also debated. Harvey suggested that a fund be established with this money for a definite purpose, such as scholarships for Aggie to give high school students. Nominations were made for the purpose of electing a class track manager for the coming inter-class meet and Mitchell was elected. Most of the class desired the class picture be taken as soon as possible. It was decided to have the picture taken in the early part of the next term, and to have a class banquet, the maximum cost to be \$4 per man. Henry Lyons was elected by the class to present, as their representative, a floral tribute at Allen Pond's funeral, which took place Sunday, Feb. 29, at Holliston. The class voted to have regular bi-weekly Wednesday meetings during next term. On account of the death of Pond, Delabont automatically became

SPRING!

The weather says it's a little early yet to talk much about it, but our store is beginning to fill up with the choicest lot of Spring Haberdashery of all kinds that we have ever seen. You know we have been selling clothing to college men for over thirty years, and we flatter ourselves that we have some idea of what they want in the clothing line.

SPRING SUITS, the Hart Schaffner & Marx kind.
SPRING SHIRTS, made with convertible collars.
SPRING HATS, all the new Spring shades.
SPRING NECKWEAR, in cut silks and knits.

Of course we always have just what you want in the way of

Sox and Underwear

OUR PRICES WILL PLEASE YOU

F. M. THOMPSON & SON

Ask the College Store about us.

E. Frank Coe's Fertilizers

Will help you secure "a greater yield from every field."

They have been the business farmer's standard for over sixty years and are more progressive than ever.

If you will tell us the crops which you intend to raise this year we will be glad to send you our new books on soils and fertilizers.

Ask us about our agency proposition.

DE LAVAL

Cream Separators
Are the Cheapest as
Well as the Best

This is the unanswerable argument in favor of the purchase of a De Laval Cream Separator.

Everyone wants the best, provided its cost is within his means. Fortunately a De Laval costs but little more than an inferior cream separator and saves that difference every few weeks.

Moreover, an inferior separator wastes in time and labor, and in quantity and quality of product what a De Laval saves, and goes on doing so every time it is used, twice a day every day in the year.

If you don't know the nearest De Laval agent, simply address the nearest De Laval main office, as below

class captain. The next meeting of the class of 1920 will be held Wednesday, March 12.

Movies of the Pigs.

A regular meeting of the Animal Husbandry club will be held on Wednesday, March 3 in the Bowker Auditorium at which time there will be a special speaker on Guernsey cattle.

On Tuesday, March 9, at the same place there will be a Swine Congress in charge of Prof. V. C. Rice. A talk illustrated by movies will be the program. There will be two reels of Poland China, two reels of Duroc-Jersey, one reel Packing House Industry furnished by Armour Co., and one reel of Berkshire furnished by the Swine Breeders Association. Every one is invited to attend.

Collegian Competition.

The competition for positions on the COLLEGIAN staff is rapidly nearing completion. The credits necessary for election is 20. The following is the standing of the various competitors up to and inclusive of the issue of Feb. 25. Of this number one Sophomore and three Freshmen will be elected to the business and editorial staffs, respectively.

CAMPBELL ASSUMES DUTIES OF ALUMNI SECRETARY

The duties of the Field Secretary and Assistant Secretary of the Alumni Association have been assumed by the new appointee, George M. Campbell of the class of 1920 following the resignation of A. W. Spaulding. Spaulding is now located with the advertising department of the Shepard Stores in Boston.

Campbell takes over the work in connection with the Memorial Building Fund and the editorship of the *Alumni Bulletin*, working also in co-operation with the registrar's and secretary's office in handling catalogue requests and in correspondence with high school inquiries.

An attractive illustrated booklet descriptive of the College has been placed in the hands of the printer by Spaulding and will be available for distribution within three weeks. It is gratifying to report \$147,436 contributed toward the Memorial Building, with \$44,000 already paid in. \$6000 is yet due on the first installment. The 1921 *Index* working in conjunction with interested members of the student body has already arranged to put copies of the *Index* in sixty high schools of the State.

George Campbell still remains a student at the college, and will graduate with this year's class. He has been one of the prominent students in activities; business manager of the COLLEGIAN; business manager of the 1920 *Index*; manager of basketball, Senate and Adelphi. Upon graduation he will continue permanently with the college in his new capacity.

Mr. Myron Evans, who is employed by Swift & Co., has been transferred to Chicago.

DEPARTMENT NOTES

The Experiment Station recently issued four bulletins, numbered 11, 12, 190, and 191. Number 11 is on the "Inspection of Commercial Feedstuffs" and deals with the results of the feeding stuff inspection for the year ending Sept. 1, 1919. Number 12, "Inspection of Commercial Fertilizers," gives a very detailed report of the fertilizer inspection for 1919. It contains an alphabetically arranged list of manufacturers and brands of fertilizers and various statistics concerning the fertilizer trade. Bulletin 190 is concerned with the "Propagation of Apple Trees on Their Own Roots." Report number 191 is entitled "Practical Results from Studies on Egg Production" and gives authentic statistics concerning the breeding of poultry. These bulletins are issued free by the Station. All requests should be addressed to the Agricultural Experiment Station, Amherst, Mass.

The Department of Agricultural Education will offer a new course commencing with the third term of the current year under the title "Genetic Psychology." This will include a study of the physical, mental, and moral development of the individual from birth to maturity; a study of the individual characteristics and variations; also a comparative study of the physiological and mental ages of children as revealed by tests. The course will be open to juniors and seniors with three hours credit.

EASTERN STATES FARMER'S

EXCHANGE DOING BIG JOB

The Agricultural Economics Club, at its regular meeting on Tuesday, Feb. 24, was addressed by Mr. Howard W. Selby on the work of the Eastern States Farmer's Exchange, of which he is the manager. This is a farmer's cooperative buying and selling organization, working through representatives which it has in most of the counties of New England. But it is always ready to assist groups of farmers along these lines anywhere in New England.

The Exchange has progressed rapidly since its organization a year and a half ago, but is feeling its way cautiously. Especially has it justified itself in lowering the prices of grain and fertilizer by means of its competition. The Exchange contemplates soon taking over some of the manufacturing plants on which it is dependent for its supplies.

The next meeting of the club will be held Tuesday, March 9, in Clark Hall. Arrangements for the speaker are not completed.

ALUMNI NEWS

'06.—James E. Martin is now a forester in the employ of the Cross-Bedline Lumber Company of Seattle, Wash.

'11.—A. P. Bursley '11 and R. S. Bragg '14 are doing survey work for A. B. Taylor '05 landscape architect of Cleveland, Ohio. At present they are spending the winter luxuriantly in Florida where they are laying out several real estate subdivisions.

'12.—E. N. Boland has been transferred to the Pittsburgh sales office of the Quaker Oats Co.

'15.—John Gifford is in charge of the agricultural department at North High School, Worcester, at a salary of \$2,000.

'16.—Harold Alken is now proprietor of the "Brown-Alken" farm at East Bridgewater.

'16.—"Duke" Curran is playing professional indoor football with a club in Boston.

'16.—George Palmer is in the employ of the Standard Oil Co., in New York. He has just recovered from a severe attack of pneumonia.

'16.—Perex Simmons is now in the employ of the United States government with headquarters at Alhambra, Cal. He has contributed specimens of a Western bean weevil to the collection of the Entomology Department.

'17.—William Dickinson of North Amherst is taking graduate work in landscape gardening at Harvard University.

'17.—Warren D. Whitcomb is stationed at Yakima, Wash., where he is conducting what is probably the most extensive codling moth experiment ever attempted for the U. S. Bureau of Entomology. He is working also on the parasites of the San Jose scale, and an outbreak of European earwigs at Seattle. He says that Yakima Valley is a great fruit section, last season's crop returning \$45,000,000. He thinks that all men interested in Pomology would do well to go out there to get real practical experience, before starting in for themselves.

'17.—I. W. Mayo who is teaching agriculture at Plymouth High School recently visited the college with other instructors of secondary schools for a two weeks course given by the Agricultural Education Department on "Educational Importance."

'18.—Richard Thorp is now employed in the extension service of the College.

Amherst, Mass., Wednesday, March 10, 1920.

No. 21

S. B. HASKELL DIRECTOR OF EXPERIMENT STATION

'04 Man Recently Elected to Fill Position Vacated by Dr. Brooks in 1918.

The trustees of the Massachusetts Agricultural College have elected Mr. Sidney B. Haskell of Baltimore Maryland, as director of the Experiment Station.

Mr. Haskell was graduated from the Massachusetts Agricultural College in 1904, and immediately entered the employ of the Experiment Station as Assistant Agriculturist. In 1905 he was appointed Instructor in Agriculture, and was promoted from time to time until in 1911 he was made Head of the Department of Agronomy. In 1907-08 he pursued graduate work in agriculture at the University of Leipzig in Germany. At the close of the college year in 1910 he resigned to enter the employ of the National Fertilizer Association. In this position he has had charge of extensive educational projects which have given him broad experience, both in educational work and in business relations.

Mr. Haskell while at the college was regarded as one of the strongest teachers on the faculty. He has been highly successful in his work with the National Fertilizer Association.

Mr. Haskell owns a farm in Massachusetts, and has had close contact with the agricultural problems of the practical farmer.

Both by training and experience Mr. Haskell is eminently fitted to assume the leadership in the work of agricultural research in Massachusetts, and it is anticipated that he will at an early date make a careful study of the agricultural needs of Massachusetts as they are related to research work.

Mr. Haskell will assume the responsibilities of this office July 1, and will fill the vacancy caused by the retirement of Dr. William P. Brooks in 1918. For two years the work of the station has been efficiently directed by Mr. Fred W. Morse of the Department of Chemistry.

NEW HAMPSHIRE WINS GAME BY 20-17 SCORE

Visitors Held Up Two Hours by Train Blockade. Fast Game, Hard One to Lose.

The varsity basketball team, playing its last regular scheduled game of the season Saturday night in the Drill Hall, lost to New Hampshire State 20-17. It was a hard, fast game, and a tough one for the Maroon and White quintet to lose, inasmuch as it was the second win of the season for the Granite State lads at Massachusetts' expense, and more particularly because Captain Grayson's team led the visitors from the middle of the first half until seven minutes from the end. Aggie appeared to have a slight edge on the Blue and White in the first period, breaking through their defence in the latter part of the period, and leading at the end of the half, 12-8. Captain Davis' team came back strong at the start of the last half and closed the four point gap. From then until the last minutes of the game both sides alternately were in the lead. A New Hampshire offensive then netted three floor baskets in succession, giving them a lead that M. A. C. narrowed, but proved unable to overcome.

The game was originally scheduled for eight o'clock, but was postponed to nine, and finally to ten, due to a train service that delayed the New Hampshire party several hours. The loyal basketball fans who came at nine and then left, returned in force at ten, and a large cheering section was on hand when the game began at ten fifteen.

Anderson got the tipoff, but his teammates were unable to pass the Aggie defence and both teams exchanged possession of the ball at the middle of the floor for the first two or three minutes. Finally Butler got free near the basket and sunk a double decker, putting New Hampshire in front by two points. Davis missed a chance to add one more to this from the foul line, but Butler dropped in his second floor ball, ket right after. At this point the Massachusetts defence tightened, holding the rival forwards in check. Thompson caged a long shot, the first score for M. A. C., S. Smith added a floor goal, and then Readie another, putting Aggie ahead 6-4. Then for the Blue and White, Butler contributed his third twin counter of the period, tying the score. Massachusetts took time out, and immediately following resumption of play, Thompson regained the lead for us with a neat long basket. The Aggie passing was fast from this on, and getting by the Durham boys' defence Grayson and Thompson hung up four points more. Just before the whistle Anderson cut Aggie's lead two points, following a fast dribble down the floor. New Hampshire, by virtue of two

(Continued on page 2)

MEMORIAL SERVICES HELD FOR ALLEN L. POND SUNDAY

"To Have Good Will for All Men" is the Lesson from His Life.

A memorial service was held in Bowker Auditorium last Sunday afternoon at 4:30 in honor of Allen L. Pond. The service was attended by about three hundred and fifty students and other friends of "Ras", who came to pay him the tribute that everyone felt was due to one who has done so much for Aggie, and whose influence and fine character has made so many friends.

ALLEN L. POND.

The service was opened with an organ prelude by Mrs. Watts, after which Dean Lewis gave the invocation. Those present then sang a hymn. Dean Lewis gave a brief outline of the wonderful work done by "Ras" in athletics, and how much his strong, good will and optimism helped us all lead better and happier lives. His natural ability as a leader, and his willingness to always play the game fairly and to the finish may well be lived up to and carried on by those of us who are left. President Butterfield supplemented the words of Dean Lewis and suggested the idea that each of us in our own hearts try to foster the good will and fellowship characteristic of "Ras". Harlan Worthley sang a solo and Dean Lewis gave a benediction followed by a hymn which ended the service.

"BLOOD TELLS" PROVES TO BE SATIRE ON HEREDITY

Freshman Play Sets New Standard for Class Productions.

The Freshman show "Blood Tells" which was staged last Friday night in Bowker Auditorium was received with unbridled enthusiasm. It was a clever three-act farce written by Roger B.

NEW HAMPSHIRE GAME

(Continued from page 1.)

baskets from well worked formations, tied the score before the second period was five minutes old. The visitors went into the lead on Davis' tally from a foul only to fall one to the rear, when Readle registered a long shot. Davis then failed to connect in two tries from the foul line, but Anderson's follow-in of his second attempt added two points for the Blue and White five, giving them the lead again. Davis contributed his first floor basket, increasing that lead to three, with five minutes to play. Both teams were forced to try long shots from this on. Anderson dropped in another from the floor, and this, with Davis' foul proved to be all that was needed to win, with but three minutes to go. Stedman's long floor basket and Grayson's addition from the foul line just as the final whistle blew halved the New Hampshire quintet's lead, making the final score 20-17 in their favor.

Butler, with five floor baskets, excelled for his team, and Thompson put up a good allround game for M. A. C.

The line-up:

| NEW HAMPSHIRE | | | | M. A. C. | | | |
|---------------|------|----|----|-----------------|------|----|----|
| | Pts. | F. | R. | | Pts. | F. | R. |
| Perry, rf | 0 | 0 | 0 | Stedman, lg | 1 | 0 | 2 |
| Butler, lf | 5 | 0 | 10 | Thompson, rg | 3 | 0 | 6 |
| Anderson, c | 3 | 0 | 6 | A. W. Smith, rg | 0 | 0 | 0 |

| | | | | Totals, | 7 | 1 | 17 |

Score—New Hampshire 20, M. A. C. 17. Score at half time—M. A. C. 12, N. H. 8. Referee—Kennedy of Amherst. Scorer—Campbell of M. A. C. Time—20 minute periods.

R. O. T. C. CAMP ATTENDANCE MUST BE LIMITED

Appropriations will limit this year's R. O. T. C. camp attendance to a total not to exceed 10,000 students. Senior Units will not be limited in attendance, with the possible exception of units more than 1000 miles from camp. Junior attendance from any single Junior Unit will not be approved for more than ten per cent of enrollment in last report, 1919.

Members of the R. O. T. C. taking the Advanced Course (Juniors and Seniors) are required to attend a camp between their Junior and Senior year. The intention of the per diem allowance made them is not to pay students for pursuing the advanced course but to make it possible for those in poor financial circumstances to take the course on an equal footing with those more fortunately situated financially. This is in order that our officers shall not be a class composed of the sons of wealthy men, and afford all young men starting in life an equal opportunity as far as possible. The allowance of 40 cents per day amounts in two years to about \$280—certainly an adequate sum to cover the losses in earning capacity that a young man would sustain in attending the required six weeks camp.

HONOR CONSTITUTION LAID ON TABLE LAST WEDNESDAY

Readjustments on Dismissal Desired By Many.

A Student Forum was held on Wednesday afternoon by Adelphi to discuss the Honor System. Dewing '20 opened the meeting by reading the Constitution as drawn up by the Honor System committee.

Haslam '21, opened the discussion in favor of an honor system but not as stated in the constitution. Before an honor system can be of any use, real honor must be developed in the student body, and high standards must be set. We must get rid of the watch dog system and help the student before and not after the examination. This could be done by changing the pledge from after to before the examination, and also by changing the wording of the pledge as follows: "I will neither give nor receive aid during this examination." Students caught in a dishonorable act during any examination should not be dismissed from college but should be given every opportunity to reform.

The next speaker, Frellek '20, was in favor of an honor system, but one with modifications of that in the constitution. "We take it for granted that we are living with honest men." If the extreme penalty of dismissal is carried out it will never be a real honor system. We come to college to help build up each other's character, and we can not do this by dismissing men as soon as they are found cribbing. The Faculty must meet the students half way, and the students must meet the Faculty half way. Examinations should be

standardized and should be a summing up of the course in order that the most good can be obtained by the students. Robertson, '20, criticized the distinction made in the constitution between four year men and others. The pledge is unnecessary, as any one can sign the pledge whether he has cribbed or not. Also, the penalty is too severe; we should help a man rise; not prevent him by dismissing from college. It is a poor honor system when the professors have the option of arranging the order of seats. Batchelder, '20, in answer for the Constitution committee, said that the question of the two year men can be decided later. The pledge is merely

to keep the matter before the minds of the students continually. Dismissal from college is just to the rest of the student body, and the committee is to use its judgment in deciding on the extreme penalty. The main thing in the whole system is the question of honor.

Caselo, '21, next spoke, saying that we must accept obligations with every privilege; and that failure to report a man in the honor system is the same as failure to report a man for treasonable acts. In this way, the greatest good for the greatest number can be obtained.

Tilson, '21, outlined three classes in the college: those who never crib under any circumstances; those who crib all they can; and a large class, comprising the majority of us, who crib only in a tight place, but are otherwise honest men. The honor system will give the college a much better reputation.

At the senate mass meeting held after the forum, Crafts desired that the matter be settled as soon as possible. Worthley, '20, was of the opinion that an 85% vote would be better than a 75% vote to accept the constitution, and that a 100% ballot should be cast of the whole student body. Every man who votes should know exactly what he is voting for, and what he is pledging himself to do. Lockwood, '21, then made the motion that the matter be laid on the table for further discussion.

FRESHMAN SHOW

(Continued from page 1.)

Friend '23, and directed by Frank P. Raml. The humor of the play consisted in the rivalry of three men over first one girl and then another, and also in the witty knocks at several professors.

Throughout the first act Mrs. Van Ruden lectures to her sons, Alfred and Geoffrey, and to her nephew William Matheson about associating so much with the gardener's daughter, Helen Alliston. From Dr. Gordon's book on "The Effects of Breeding", Mrs. Van Ruden reads many humorous passages including "Is not Dr. Page noted for his horse sense?" "Are not the honorable professors in the entomology building buggy?" "Has it not been rumored that Professor McNut, our eminent judge of live stock, can tell a good looking co-ed at a distance of a mile?"

In the second act Mrs. Van Ruden succeeds in diverting the attention of all three fellows from the gardener's daughter Helen, to Eunice Hayes, a guest of good breeding. Just now a rejected suitor, Wildsith, in the guise of an ancient bard, appears at the house, charms Eunice with his songs and guitar, and elopes with her. This is done only after many vain attempts of the other three men to disparage him in her eyes. In an attempt to get her back home, Alfred gets hurt, and a transfusion of blood is needed to save his life. Dr. Hicks finds that Helen's blood is most like Alfred's, and an operation is performed.

Finally, in the third act, Mrs. Van Ruden finds that Dr. Gordon is wrong, and that blood does not tell after all. Her respect for Helen rapidly increases,

as she believes that Helen must have come from good blood. Now Alfred Van Ruden comes out and announces his engagement to Helen.

The cast was as follows: Alfred Van Ruden, O. E. Folsom; Geoffrey Van Ruden, N. D. Hilyard; William Matheson, G. H. Irish; Wildsith, I. W. Slade; Mrs. Van Ruden, Miss Bateman; Helen Alliston, Miss Martin; Eunice Hayes, Miss Boles; James, J. D. Tarr; Dr. Hicks, J. M. Whittier.

All members of the cast showed good talent, but that of Hilyard was especially notable. It is the first year that girls have taken part in the Freshman show, and all agree that their appearance was a great success. Music was furnished by the class orchestra: violin, F. G. Sears; cello, D. G. Sowers; mandolin, C. Towne; clarinet, R. D. Fuller and piano, H. Whitaker.

The entertainment committee, with Friend as its chairman, deserves a great deal of credit. The other members are: R. D. Fuller, E. F. Ribero, J. S. Hale, Miss Martin, G. H. Irish and Miss Turner.

M. I. T. TEAM WINS BY FEW POINTS—THREE 100 SCORES

Frellek Resigns as Captain of Rifle Team.

At a meeting of the Rifle Club last week, Arthur Frellek '20 tendered his resignation as captain of the Rifle Team. The resignation was accepted, and Lambert, secretary of the club, was elected to fill his place.

In the match March 5, the M. I. T. team defeated the M. A. C. squad by a very close margin. The total score was M. I. T. 497, M. A. C. 492. Perkins and Johnson, M. I. T., and Cook, M. A. C., did the best shooting for their teams, each making a perfect score. The M. A. C. team also shot off an intercollegiate match during the week ending March 6, the results of which show an unofficial score of 1963 made by the team. The standing of the team in respect to the intercollegiate matches has not as yet, however, been received. There are prospects also of a match with the University of Maine within a week or so.

The individual scores made in the recent matches are as follows:

| M. I. T. | M. A. C. |
|--------------|----------------|
| Perkins, Jr. | 100 Cook, |
| Johnson, | 100 Sanderson, |
| Irwin, | 99 Tilson, |
| Allard, | 99 Wentsch, |
| Skllder, | 99 Sanford, |
| Total, | 497 Total, |
| | 492 |

Fellowships Offered.

Offers of traveling fellowship have recently been made by the American Scandinavian Foundation Fellowships of from \$1000 to \$1200 per year are offered for study in Scandinavian countries.

Particular information may be obtained at the Deans office.

GEORGE A. RAY '20, Advertising Manager
HERBERT L. BIER '21, Circulation Manager
EUGENE D. PRESTON '21, Editor

Subscription \$2.00 per year. Single copies, 10 cents. Make all orders payable to The Massachusetts Collegian.

In case of change of address, subscribers will please notify the business manager as soon as possible.

Entered as second-class matter at the Amherst Post Office. Accepted for mailing at special rate of postage provided for in section 1103, Act of October 3, 1917 authorized August 26, 1918.

The next issue of the COLLEGIAN will be March 31, 1920.

Looking Forward.

This is the last issue of the COLLEGIAN under the present board and we wish to extend to the new editors our best wishes in their new duties.

The present COLLEGIAN staff, starting under more or less of a handicap because of its inexperience, has endeavored to develop the COLLEGIAN into a real, live college paper containing the news of greatest interest to the students, and also including as many departments and alumni notes as possible for the benefit of the alumni. The length of the articles has been cut down so that a larger number of individual news items might be included. Added emphasis has been placed on campus news and considerable space has been devoted to Short Course news. The business department has built up the circulation and has taken a distinct step in advance by adopting a standard advertising rate card to conform with that used by all the leading magazines and newspapers.

We are confident that the incoming board will continue to improve the standard of the COLLEGIAN and will publish a wide-awake paper of real interest and value to the students and alumni.

The Freshman Show.

The Freshman Show last Friday evening was a decided success and a great deal of credit is due R. B. Friend for his clever production. The play was attractive and well acted, but the big hit was caused by the introduction of three co-eds into the cast. This innovation was highly popular and added immensely to the interest. It has raised the Freshman Shows to a new level and has marked the death knell of the old egg-throwing vaudeville performances which used to be staged in years passed. If public sentiment is any criterion, the class of 1923 is to be congratulated for producing one of the best Freshman Shows which has ever been seen on the campus.

An Explanation.

The following comment is reprinted from R. P. I. Polytechnic: "A regrettable incident marred the basketball game with the Massachusetts Aggies. One of the opposing players, due to a personal affliction, dumbness, gave a personal call. Troy High School, which was present en masse for the game with the Freshman at once took up the call, in the callous way of high school students in general. The regrettable part was that some students on outside of the bleachers also took up the call. Now inter-collegiate sport is rightfully the sport of gentlemen. Such an occurrence not only lowers the standing of every inter-collegiate sport, but strains what every loyal student would fight to uphold the fair name of his Alma Mater. Loyal students will see to it that such an occurrence does not happen again."

We feel obliged to explain that the peculiar call referred to is nothing more than the nick-name of one of Aggie's players, and that when Steadman yelled for the ball "Hey Goo, Goo, Goo," he was not suffering from any personal affliction.

COMMUNICATIONS

What is the Menorah?

There seems to be a great deal of doubt at M. A. C. as to what the Menorah Society is. It is hoped that this article will throw some light on the matter. The Menorah is not a fraternity. Menorah societies include both "frat" and "non-frat" men, and serve to bring all together on the basis of a common intellectual and moral pursuit. The Menorah is a movement to study and advance Jewish ideals and culture, and to prepare college men and women for intelligent service to the community. The word "Menorah" is Hebrew for the traditional seven-branched candelabrum; symbolically it stands for Jewish enlightenment and idealism.

The work of the Menorah is carried on in the following ways:

1. By meetings open to all, at which lectures are given by public men on current Jewish topics, followed usually by general discussion.
2. By forums devoted to all-sided discussions of current questions.
3. By specific reading of books and articles, and papers and reports presented by students at meetings of the Society as a whole or in sections.
4. By Menorah study circles in addition to the regular courses of study.
5. By Menorah prize competitions open to all students.

The Menorah is not a religious society appealing to men and women of all kinds of religious belief and bringing them together upon the purely intellectual basis of study and impartial discussion. It has promoted a more thorough understanding of Jewish ideals among college men and women. It has facilitated mutual understanding and co-operation among various groups of Jewish students by providing them with a common organization and ideal. It has furnished absolutely non-partisan forums for the broader comprehension of Jewish issues and problems, and has stimulated students to bring their education to bear in behalf of enlightened life and service.

There are 73 Menorah chapters at American universities and colleges, all of which are devoted to the purpose of the study of Jewish ideals and culture.

FRIDAY, MARCH 19.

5-00 P. M.—Winter term ends.

MONDAY, MARCH 22.

1-00 P. M.—Spring term commences with regular schedule of classes.

CLASS DEBATING TEAM PICKED SATURDAY

Sophomores Need One More Man as Alternates.

Last Saturday afternoon, March 6, in Stockbridge Hall, Professor Rand as judge, picked the Freshman-Sophomore Debating team from the three Sophomores and eight Freshmen who showed up for the try-outs. The Yearling team consists of Sandow, Bock, Tanner, and Martin, and the '22 side is Krasker, Tanner, and Beckwith. One more man is needed for the Sophomore team, three only appearing for the contest. The '23 men, however, with one exception, were all there. Tanner '23 gave the best talk for the Frosh, and Krasker was very fluent and forceful for the Sophomores. Each speaker was limited to three minutes. The teams will have their final contest about the middle of April, and as both sides are composed of credible speakers the tilt will doubtless be a good one.

'19.—Quincy Hagg is herdsman at Willow Brook Farm, North Pembroke, where he is taking care of 50 registered Guernseys.

AGGIE LOSES HARD GAME TO SPRINGFIELD FIVE

Rough Play Marks Game Postponed From Feb. 28.

Playing a game characterized by scrap and fight, M. A. C. concluded its basketball season with a loss to Springfield, 29-23, at the Drill Hall Monday night.

The playing was of a superior character throughout the entire game. Baskets, fouls, baskets, followed each other in such a way as to keep the score constantly teetering. Excitement reigned supreme among the spectators at all times. The feature was the work of A. W. Smith, who sunk six baskets and two fouls, totaling 14 points out of the 23 made by M. A. C. Aggie's weakness lay in her inability to connect with the hoop. But in spite of this, M. A. C. kept the minutes on their toes up until the whistle blew. The loss of Pond and Gowdy from the lineup was keenly felt.

The tenses moments of the game came during the latter part of the first and second halves. In both cases Springfield was ahead by a small lead, the wearers of the maroon led the score by superior floorwork, A. W. Smith scoring. In general, the floorwork of Aggie's team showed improvement. Her defeat is due to a general slump in basket shooting ability.

The line-up:

SPRINGFIELD M. A. C.
Smith, lg. D. A. W. Smith
Watters, rg. H. Grayson (Cap)
Egglebrecht, c (Cap) c. S. V. Smith
O'Donnell, lf. rg. Steadman
Bennet, rf. lg. Thompson, Head

Baskets—Smith, A. W. 6, Egglebrecht 5, Bennet 3, Watters, Smith, S. V. 2, O'Donnell, Steadman. Free tries—O'Donnell 7, Grayson 3, Smith, A. W. 2. Score at the end of first half—Springfield 16, M. A. C. 13. Referee—Swaffield. Timers—MacLaughlin, Layk. Scorer—Campbell. Time—20 minute periods.

LAMBERT '21 ELECTED PRESIDENT OF POMOLGY CLUB

"Fruit Growing in Nova Scotia" was the subject of Professor Sear's illustrated lecture before the Pomology Club on Tuesday evening, March 2.

Professor Sear has lived and taught in Nova Scotia, and as a result of his intimate knowledge of conditions in that country his talk was extremely interesting. The slides were from regions with which he was closely familiar.

Following the moving pictures, showing the Marshall orchard at Fitchburg, the business meeting was held and officers for the coming year were elected. Richard Lambert '21 was chosen president; George Slate, secretary; and Frederick Aoward, treasurer. The election of vice-president will not be held until next fall.

The 1922 Index competition, which was to have closed March 13, has been extended until the time 1921 Index is published, in order that the competitors may continue working in conjunction with the present Junior Board.

PHI SIGMA KAPPA TEAM UNDEFEATED IN RELAY

March 1.—Sigma Phi Epsilon defeated Theta Chi; time, 2:15. Phi Sigma Kappa defeated Kappa Gamma Phi; time, 2:30.

March 2.—Phi Sigma Kappa defeated Alpha Gamma Rho; time, 2:08. Lambda Chi Alpha defeated Kappa Gamma Rho; time, 2:11.

March 4.—Kappa Sigma defeated Theta Chi. Q. T. V. defeated Alpha Sigma Phi, by default. Alpha Gamma Rho defeated Kappa Gamma Phi. Phi Sigma Kappa defeated Sigma Phi Epsilon.

March 9. Phi Sigma Kappa defeated Kappa Sigma; time, 2:10. Lambda Chi Alpha defeated Theta Chi; time, 2:12. Q. T. V. defeated Alpha Sigma Phi by default.

ALUMNI NEWS

'14.—Murray D. Lincoln was recently elected secretary of the Ohio State Federation of Farm Bureaus at a salary of \$6000. The American Farm Bureau Federation membership from 28 states enrolled 478,000. Mr. Lincoln is one of a committee of 12 representing this number.

'16.—John Murphy is an engineer in the employ of the Carnegie Steel Company in Boston.

'17.—The receipt of \$50 from Walter Mack, for the new Memorial Building, has been acknowledged. In a recent letter from Capt. Mack, who is still in Germany, he said: "Personally, I was one of the bold battling Goo-Goo Warriors. Fought the battles of San Francisco, Kansas City, Baltimore, Los Angeles, New York, and a few others, without getting wounded at all. Then in June, 1919 they sent me over to fight the Hunns—away from the A. F. G. supply depots. Since I've been here, I had some of I should say the old battles of Paris, Nice, Monte Carlo, etc., ad infinitum, including also, however, Berlin, Potsdam, Antwerp, Brussels, etc."

'18.—F. A. Gullson is a graduate assistant in the Department of Soil Technology at Cornell University.

'19.—A. L. Chandler is selling "Pyrox" in West Virginia for the Bowker Insulated Company.

'19.—Roy Peterson is manager of one of the Capital Dairy Lunch branches in Brooklyn, N. Y.

'19.—Anna Lieberman is with Arthur D. Little Company, consulting chemists, Boston.

'19.—"Ned" Parsons is on the last stretch of his medical course at the University of Michigan.

'19.—Milan Logan is taking a post-graduate course in Chemistry and Industrial Management at Harvard Univ.

'19.—The Thomas W. Desmond Post, American Legion of Randolph is so called in honor of Thomas Witty Desmond, who was killed in action in France.

The Q. T. V. Fraternity held a house party last Saturday night. There were eighteen couples present. A supper was served by Blas, and then there was dancing until midnight with music by Boyce's orchestra.

'19.—"Bill" French has resigned his position as superintendent of a mountain orchard in Old Town, Md., and has joined the sales force of the Bowker Insulated Company.

'19.—George Erickson is assisting Walter Brice in the management of an 800-acre farm in Uxbridge. They have started a pure-bred Guernsey herd and have about 200 sheep.

A WDC Pipe is the biggest value that the World's Largest Pipe Manufacturers can put into a pipe. The WDC is a good, satisfying smoke, and bound to break in sweet and mellow every time. Highest quality of bit, band and bowl; craftsmanship of the highest order—that's what we mean by biggest value. Ask any good dealer.

DE LAVAL
Cream Separators
 Are the Cheapest as
 Well as the Best

This is the unanswerable argument in favor of the purchase of a De Laval Cream Separator. Everyone wants the best, provided the cost is within his means. Fortunately a De Laval costs but little more than an inferior cream separator and saves that difference every few weeks. Moreover, an inferior separator wastes in time and labor, and in quantity and quality of product what a De Laval saves, and goes on doing so every time it is used, twice a day every day in the year.

If you don't know the nearest De Laval agent, simply address the nearest De Laval main office, as below

THE DE LAVAL SEPARATOR COMPANY

ject must take the precedence.
 All Junior, Senior and unclassified grades are to be reported on individual slips. Sophomore and Freshman grades are to be reported on report sheets. The Two-year and Vocational course grades are to be reported on individual blanks. All blanks may be obtained by request of the instructors at the Registrar's Office.

USE OF GAS IN WAR DES-
CRIBED FOR CHEMISTRY CLUB

At a meeting of the Chemistry Club last Thursday evening, March 4, in the Chemistry Laboratory, Mr. A. B. Hart Jr., Sergeant-Major in the Gas Defense Division, now a Ten-week students at the college, gave a talk on "The Evolution of the Gas Mask as Used in the World War." The Germans were the first to use gas in warfare when they passed chlorine over the Allies' trenches occupied by British and Canadian soldiers at Ypres in May 1915. These men, totally unprepared for and having no means of protecting themselves from this form of attack, used wet sandbags and handkerchiefs to facilitate breathing, but nevertheless 3,000 men perished. Mr. Hart described the various masks from the first one devised by the British to the present D.K. mask, an American invention. He also explained the different ways in which the masks were tested in the United States before they were shipped "over there". When he had finished, the Club examined two gas masks owned by the speaker. The next meeting of the Club will be Thursday evening, April 1, in the Chemistry Laboratory.

FRESHMEN AND SOPHOMORES TIED FOR CHAMPIONSHIP

Each has Won Five and Lost Two.

Two games of the interclass basketball series were played Tuesday evening, March 2, when the Sophomores beat the Juniors, 20-27, and the Freshmen beat the Two Year Men, 23-15. The '21-'22 game was the faster of the two and the outcome was in doubt until the very last minute of play.

The score stood 15-14 in favor of the Juniors at the end of the first half; then the Sophomores caged 4 baskets quickly, but with the shooting of Whittle and Casco, '21 came back strongly. At this stage both teams tightened up their defense, but Hooper finally caged a double-counter for '22, and clinched the game. Armstrong '21 and Hooper '22, starred for their teams in shooting and team-work. In the second game, Marshman started the Freshmen off well with a basket in the first ten seconds, followed presently by Alexander and La-tour. At the end of the first half the score stood 17-6, but in the second half the Two Year Men held their opponents to 6 points.

In the games played Thursday, March

4, '23 topped '20 by the score of 17-16, and the Two Year Men won their first victory, beating '21, 21-19. Both scores were close and the '23-'20 game was the fastest yet played in the series, as both sides realized that the winning team would be tied with '22 for the league championship. At the end of the first half the Seniors led 9-7, but could not increase their lead; and at the very close of the game Marshman '23 dropped 3 successive fouls, winning the game by one point. The other game was a close-blocking contest, with Stevens, S. C., doing most of the scoring for his team.

The class standing is as follows:

| | Won | Lost | % |
|--------|-----|------|------|
| '22 | 5 | 2 | .714 |
| '23 | 5 | 2 | .714 |
| '20 | 4 | 3 | .571 |
| '21 | 3 | 5 | .371 |
| 2-Year | 1 | 6 | .143 |

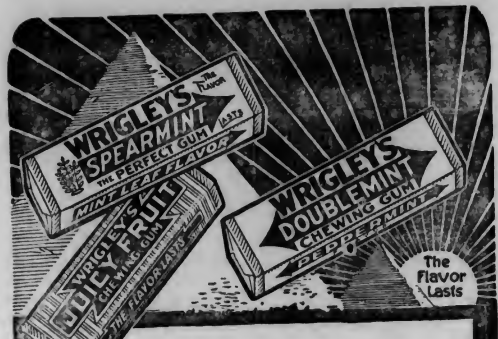

The A. T. G. Fraternity which was organized last fall from members of the Senior Class of the Two Year Course held an initiation in Odd Fellow's Hall, Amherst, Friday evening, March 5. Fifteen men from the Freshman Class of the Two-Year Course were admitted into the organization at that time.

AGGIE MAKES GOOD RECORD IN UPHILL SEASON

Fastest Teams in New England and
New York Played.

The record made by this season's Aggie basketball team can be accounted entirely favorable. The final annuity shows seven games won, as against eight lost. A good record, considering the recognized strength of the teams played, their rating in eastern intercollegiate basketball, and further taking into account the conditions under which the Maroon and White team worked at times. Of the eight games lost, four were by close margins: two to New Hampshire by 20-16 and 20-17 scores, the former at Durham being a ten minute overtime game; one to Pratt Institute at Brooklyn 13-5; and the Springfield game, the last of the season by a 20-23 score. Fast close games were taken from Dartmouth, 8-6; R. P. I. 19-17; Amherst, 15-11; Connecticut A. C., 27-22; and Pratt Institute, at Amherst, 17-10. Only twice during the entire season was the team decisively defeated, and then by the same team, the fast Stevens Tech quintet, admittedly one of the best intercollegiate ones in the East.

Several difficulties faced the squad from time to time. At the start of the season a captain had to be elected, as none had been picked at the close of last season, and Grayson '20, ex-'18, and guard on the 1917 varsity, was chosen to pilot this season's team. Though a number of candidates responded to the first call, including six letter men, most of the latter were veterans of different seasons, back from the service; who had never played together, making it necessary to weld this experienced material into a unified team, and to develop finished team work. There was a scarcity of center and forward candidates with varsity experience, which necessitated shifting Captain Grayson from a guard to a forward position and developing a man for the pivot position. Thompson '22 developed rapidly as the season progressed and played at center in a majority of the games.

Assistant Coach E. E. Grayson, captain and star center of the 1917 varsity, was chosen as head coach, following the resignation of Coach Gore shortly after the start of the season. The well balanced team which he succeeded in turning out is sufficient proof of his ability as a basketball mentor.

The illness and death of Pond '20, which deprived the team of his services following the New Hampshire State game on Feb. 7, was the last and hardest blow to the team, telling in its personnel as well as in its playings strength. He had been one of the mainstays of the outfit, having been high scorer all season, and having played an important part in the victories over Amherst, R. P. I.

ALLAN LEON POND MEMORIAL FUND

Friends of Allan Leon Pond are raising a fund, the income of which is to be used in securing a medal to be known as the "Allan Leon Pond Memorial Medal," to be awarded annually to the member of the football team doing the most for the team.

The Allan Leon Pond Memorial Medal is to be awarded to the best all-around member of the team, the man who best exemplifies the qualities which "Ras" Pond showed in every game he played—good will, leadership, perseverance, willingness to keep physically fit, playing ability, and the determination to keep Aggie "with the best of 'em."

The Allan Leon Pond Memorial Medal will be awarded by the Joint Committee on Intercollegiate Athletics or a committee to be appointed by the President of the College. The fund is to be held in trust by the Treasurer of the College.

If the income from the fund should be more than required for securing the medal, the surplus will be used for the assistance of needy and deserving students.

The Joint Committee on Intercollegiate Athletics, representing alumni, students and faculty, have appointed a committee of three to arrange the details for securing the fund and for its award.

Subscriptions may be sent to any member of the committee, and it is desirable that they be sent in by June 1.

(Signed)

HAROLD M. GORE,
Chairman,
PHILIP B. HARBROUCK,
GEORGE M. CAMPBELL.

HONOR SYSTEM CONSTITUTION ADOPTED BY STUDENTS

Committee Makes Report Through
Adelphi in Forum.

The following is the Constitution of the Honor System submitted to the student body and adopted on March 10.

FOREWORD

We, the students of Massachusetts Agricultural College, believe that the goal of education is character. The man of character deals fairly with himself and with others, and would rather suffer failure than stoop to fraud. The Honor System stands for this attitude in all relations to the students with the faculty. In expression of our belief we pledge ourselves to the support of the Honor System.

ARTICLE I. APPLICATION

Sec. 1. This, the Constitution of the Honor System, shall apply to the regular four-year students of the Massachusetts Agricultural College.

ARTICLE II. HONOR

Sec. 1. Each and every student shall be governed by the Honor System and shall abide by its Constitution.

Sec. 2. In order to make an examination valid, each and every student shall at the end of his paper sign the following declaration:—

"I pledge my honor that during this examination I have neither given nor received aid."

Sec. 3. Dishonor shall be defined as the giving or the receiving of aid during an examination.

Sec. 4. Dishonesty shall be punishable by expulsion from college or by

ROISTER DOISTERS TO GIVE "NOTHING BUT THE TRUTH"

Three Act Comedy by J. H. Montgomery to be Presented "Prom" Guests.

The Roister Doisters will make their initial appearance of the season Saturday, April 10, by presenting the three act comedy, "Nothing but the Truth."

The performance will be a part of the regular "Prom" program and with an all-star cast it will undoubtedly be the highest classed production that the association has staged for several years.

"Nothing but the Truth" a three act comedy by James H. Montgomery was first staged in Indianapolis and Chicago in 1916 and immediately created a sensation. After playing on Broadway for a year it traveled over the entire country and scored countless numbers of successes. The plot of the play which is carefully woven around a \$10,000 bet keeps the audience in breathless suspense until the last minute. Bob Bennett who cannot see the necessity of certain business lies makes a bet with Mr. Halston, Dick Donnelly, and Mr. Van Dusen that he can tell the absolute truth for 24 hours. From the very minute that the bet starts Bob is in hot water, first with his mother-in-law to be then his fiancée and then business. Numerous incidents arise which cram the play full of side-splitting laughs up to the final curtain, and then to cap the climax there is a big surprise waiting in the final act.

Among the characters who will surely cause a snicker are the Bishop, portrayed by Davidson '21, who is con-

Continued on page 3

GOWDY '22 ELECTED BASKETBALL LEADER

Unusual Honor to Clever Defense
Player Means a Junior Captain.

Carlyle Gowdy '22 of Westfield, was elected captain of the basketball team at the annual banquet held in Draper Hall Friday, March 12. The entire squad was present, George Campbell '20 acting as toast-master.

CARLYLE GOWDY.

Gowdy won his letter playing on the team his Freshman year. He was captain of the Westfield High School team, where he was noted for his clever defense work. This has also been the outstanding feature of Gowdy's playing since he has been at college. Last season he played in all games except the last two when he was forced out on account of the grip.

Besides Captain Gowdy for next season the coach will have a wealth of material to choose from, including the five letter men Lent '21, A. W. Smith '22, S. V. Smith '22, and Thompson '22.

PHI SIGMA KAPPA WINS INTERFRATERNITY RELAY SHIELD

Makes Unofficial Record of 2-07 3-4
For 300 Yards Per Man.

Phi Sigma Kappa has won the possession of the Interfraternity Relay League shield, and has, in addition, the distinction of being undefeated during the season. Alpha Gamma Rho gained second place, and was defeated only by Phi Sigma Kappa in the most interesting of all the contests. The last race took place in March. The schedule was interrupted by unfavorable weather condition, which caused several races to be decided by default. The leaders made a new record when they did 2-08 1-5 in the Theta Chi race. They also unofficially did 2-07 3-4 later in the season.

BUNKER ELECTED BASKETBALL MANAGER IN ASSEMBLY

Evers Elected To Manage Hockey Team.

At assembly March 17, Carrol W. Bunker of Somerville was elected to manage the 1921 varsity basketball team; and Joseph D. Evers of Malden was elected to manage the hockey team.

Carrol Bunker was born in Somerville in 1899 and was graduated from the Somerville High School. He entered M. A. C. with the class of 1920, but was in service during the war so that he is now a member of 1921. He has held the following positions in college: Class football 1, 2; Class baseball 2; Varsity football 3; Index board; COLLEGE board 2; and class vice-president 2. He is a member of the Q. T. V. fraternity.

Joseph Evers was born in Malden in 1898 and graduated from the High School of that city. He is a member of the class of 1921. He holds the following offices on the campus: Manager class tennis team 2; Index board; class cross-country team 3; Agricultural Economics Club and Catholic Club. He is a member of the Sigma Phi Epsilon fraternity.

\$459 PLEDGED TO THE ALUMNI FIELD FUND

Not Sufficient to Meet Needs of Athletic Department.

But little more than half of the money asked of the student body by Prof. Hicks for the athletic field, has yet been pledged. It was estimated that if each of the 700 students should contribute \$1, a sufficient sum could be raised to complete the needed improvements on the field, but only \$459 has been pledged. As approximately 35 percent of the students have not yet pledged, it is hoped that the desired total may soon be reached.

Following is the standing of the classes:

1920—Total membership, 111; 82 pledged, 29 not pledged. \$100 pledged.
1921 Membership, 101; 69 pledged, 32 not pledged. \$808.5 pledged.
1922—Membership, 107; 74 pledged, 33 not pledged. \$74.25 pledged.
1923—Membership, 107; 77 pledged, 30 not pledged. \$71 pledged.
Two-year and Federal Board—Membership, 284; 144 men pledged, 140 not pledged. \$119 pledged.
Unclassified, \$14.

HUBBARD, AMHERST '06 TO BE TRACK COACH

The committee on intercollegiate athletics has recently elected John Hubbard, Amherst '06, as coach of the M. A. C. track team.

When attending Amherst Mr. Hubbard won the intercollegiate championship in the high hurdles; in '06 he was All-American half-back; in '07, '08, and '09, he was head coach at Amherst and in 1911 he became head football coach at M. A. C.

On Friday evening March 12, Coach Hubbard gave a short talk to about 60 candidates who were out for spring track. He emphasized the need of regularity in habits, and cautioned the men not to overwork in the beginning of their training.

'16—Carrick C. Wildon was on the campus recently. He is now teaching at a trade school in New Britain, Conn.

BASKETBALL REVIEW

Continued from page 1

L., and Tufts.

The defensive work of the backs, Gowdy and Stedman, has been an outstanding feature of the M. A. C. five's play all season, accounting for the closeness of the scores on those games lost by a few points as well as those won by a narrow margin.

The "Old Aggie fighting spirit" has been in evidence all season, and win or lose the M. A. C. basketball team has played fast, hard, and clean basketball from start to finish in every game. Capt. Grayson has been a hard working and conscientious leader, one under whose guidance the team has responded with a will, and in giving their best have made a highly satisfactory showing in spite of handicaps at the start of the season and from time to time during its progress. With only two regulars, Capt. Grayson and Stedman, lost by graduation, and with several promising candidates from this year's freshman teams, the prospects of a fast team next season look bright.

Amherst (Cor. Main and Whitney Sts.)

EASTER SUNDAY, APRIL 4, 1920

10-45 A. M.—Sunday School Easter Concert.

6-30 P. M.—Epworth League.

Easter's message is the world's hope. A Roman soldier says: "He is here: He is dead: He is in a tomb of rock." But an angel, with a sword of lightning in his hand, says: "He is not here: He is risen." We have not a dead Christ. We have a living Christ. Bethlehem means nothing without Calvary. But Calvary means nothing without the resurrection. Nothing so so bold as falsehood, yet nothing will abide but truth. It is the abiding truth and power of the resurrection which give to all life its real dignity and trust hope. Through the power of a risen Christ, stand an angel at every Christian's grave-side, saying: "He is not here: He is risen." It is God's world-old plan and loving purpose. Said one of long ago: "Thou hast set Eternity in our hearts." It is the Divine good-will through which we feel the power of an endless life.

FROSH WIN CLOSE GAME

Trim Sophs 16-11 in Championship
Game of Interclass Series. Final
Standings of Classes.

The Freshman-Sophomore numeral game, Tuesday evening, March 9, resulted in a decisive victory for the Freshmen, by the score of 16-11, and put them at the head of the interclass league. The game was one of the hardest fought of the series, and was marked by the close blocking of both teams, so that neither had many chances to score from the floor.

Soon after the ball was put into play, Krasker '22 started the scoring with a basket from the front. Then '23's defense tightened, and Marshman sunk two from the foul line, tying the score. The ball zigzagged up and down the floor, but before a basket could be shot the play would be broken up time after time. Both teams showed equally good form, and at the end of the first half the score stood 6-6.

Again, in the second half, the Sophomores started the scoring with a basket by Hooper, and the game bid fair to be as close as before. But '23 forged ahead, sinking two from directly beneath the basket, while Wirth '23 made a fine shot from the middle of the floor. The play centered first at one end of the floor, then at the other, with neither side able to shoot accurately, until Marshman '23 broke away and made two perfect baskets from the side. Although the Sophomores took many desperate chances at the last of the game they could not score again.

About Ourselves

We salute you on bended knee, fellow students and alumni of M. A. C. And in so doing we wish to extend to you a promise of our best efforts for the coming year. There are those among us who are familiar with the ways of college journals, and there are those whose only experience has been a brief competition. But one and all, our sole ambition is to serve you, the students and alumni of M. A. C.; to give you the best that we can with all due speed and accuracy. If we can succeed in this endeavor we will be satisfied. You will be the judge.

But we cannot do this without your help. Constructive criticism is more than welcome at all times.

With this issue the post-war reconstruction period in COLLEGIAN affairs is at an end. During the war the constant changings and shiftings of personnel, economic pressure, and other difficulties of publication were disposed of in one way and another.

With the cessation of hostilities, and the subsequent return to college of former members of the board, these troubles were adjusted. The final outcome is the COLLEGIAN as it stands today.

The future lies before us filled with unusual possibilities. Advertising threatens to push the news matter off the page. And, in turn, backed by well-justified complaints from readers, the editorial department shrieks aloud for space for its copy. In consequence, the dream of COLLEGIAN boards for many years past, that of two issues a week, seems about to come true. It is too early in the year to make definite promises. There are many matters requiring readjustment. The financial question being paramount. We hope that the opening of the next collegiate year will bring the inauguration of this plan. It will mean more, better, up-to-the-minute news.

In attempting to solve the difficulties surrounding the publication of two complete COLLEGIANs each week, the

board is merely carrying out its avowed policy of service to the student body and alumni.

College Spirit?

For the first time in the history of Alumni Field the student body of M. A. C. has failed to fulfill its obligation to it. At a recent chapel exercise Professor Hicks requested a contribution of one dollar per student to be used to liquidate unavoidable debts and support necessary future expenditures. The total sum required was \$700. Of this but \$450 was pledged. Among the pledges there were many for more than the amount asked. However, over 35 per cent of the student body pledged nothing. This is more than regrettable.

The whole issue revolves about a question of college spirit. Alumni Field, devoted to athletic purposes for the benefit of the college as a whole, is an institution which merits the heartiest of undergraduate support. College life without this field is unimaginable. It is notable that it is the upper classes who pledged the most towards its support on this occasion. It is these same classes who, when the project was first launched, pledged more than their quota and at the same time performed much of the manual labor on the actual construction work. But they, too, have failed in this instance.

It would seem from this that the statement which has been made by several alumni is true; that college spirit at M. A. C. is on the wane. Do you want this stigma to be attached to your class? "Get Going!"

COMMUNICATIONS

Damaging Property.

An indifferent regard for the rights and property of others seems to be the attitude of many men upon the campus at the present time. Of late, the class room has been the scene of considerable property damage. On several occasions, perfectly good chairs have been forcefully pulled apart, with the intent to lower the occupant to the floor. The action furnishes amusement, but the damage to college property is not considered. In one of the lecture pits it is convenient for the classes, during entrance and after dismissal, to use the seats for stepping stones. This has resulted in a number of the chair seats being broken, rendering them unavailable for use. Such conduct is in no way creditable to college men. Strange as it may seem, the worst offenders are upperclassmen. Attention is called to these facts, that such downright carelessness and violation of college property will cease.

H. M. GORF.

Respect.

It is high time that the attention of the student body was called to the Wednesday afternoon assembly. President Butterfield spends much time in securing speakers who can tell us some things that we cannot get in books. Many of these men come from distant places in order to speak to us, and the attitude which the student body shows toward these speakers is very poor. Looking around in Assembly, one sees here a man fast asleep, there one studying for a quiz, or fooling with his neighbor. All this reflects on the mentality of the men here at Aggie as compared with other colleges. Let us at least show our respect for the speaker, that he may take away a good impression of our college.

Practical Knowledge

To know how to accomplish the desired results in the application of dairy husbandry is as valuable as to know what the desired results are.

Because thousands of users know the superiority of

and profit by this knowledge they are able to prevent the regrettable losses of milk quality that are certain to occur unless the milk containers, machinery and utensils are kept sanitary, wholesome and clean.

So valuable is the use of this cleaner and so little its cost that no one engaged in dairying or any of its branches can well afford to be without the assistance it brings.

CAMPUS CALENDAR.

THURSDAY, APRIL 1.
7-30 P. M.—Chemistry Club Meeting, Chemical Laboratory.
SATURDAY, APRIL 3.
2-30 P. M.—Interclass Track Meet, Drill Hall.
SUNDAY, APRIL 4.
9-10 P. M.—Chapel, Speaker: Prof. John M. Tyler, of Amherst.
3-00 P. M.—Concert, Social Union Series, Bowker Auditorium, Stockbridge Hall.
TUESDAY, APRIL 6.
7-00 P. M.—Senate Meeting, Old Chapel.
7-30 P. M.—Pomology Club Meeting, French Hall.
WEDNESDAY, APRIL 7.
3-00 P. M.—Assembly, Speaker: To be announced.
7-00 P. M.—Animal Husbandry Club Meeting, Stockbridge Hall, Room 114.

CAMPUS NOTES

The interclass track meet, postponed from March 13, will be held Saturday, April 3, at 2-30 P. M. All the events will be run off as scheduled.

At a meeting held in the Drill Hall Monday, March 15, the Sophomore class elected Frederick B. Cook as its representative on the new Honor Council.

Professors Machmer and Moore of the mathematics department represented the college at the mid-winter meeting of the Association of Mathematics Teachers in New England, which was held in Springfield Saturday, March 13.

The Pomology Club will meet next Tuesday night at 7-30 in French Hall. The speaker will be Mr. Root of Easthampton, who will have for his subject, "Marketing Fruit." Lambert '21, president of the club, will hold a short business meeting after the lecture.

One hundred twenty slides of Guernsey cattle, left by Mr. Hill, assistant secretary of the American Guernsey Cattle Club who spoke to the Animal Husbandry Club the previous week, were shown before the classes in Animal Husbandry 50 and 26 on Wednesday, March 17.

Mr. Derby, who has been employed as clerk and assistant in the Physical Education Department, has resigned and taken a position as private secretary to one of the sales managers in the employ of C. P. Rockwell & Co. in Boston. This company is a distributor of Nash motor cars. Mr. Derby takes up his new duties on April 1.

On Tuesday evening, March 16, three reels of moving pictures on pigs were shown in Bowker Auditorium under the auspices of the Animal Husbandry Club. Each reel showed a different breed and the pictures brought out well the characteristics of each breed and the difference in type of the different breeds.

The first reel showed the Berkshires on the famous Gossard Breeding Estates, the second the Duroc-Jerseys so popular in the middle west, and the last, the champion Poland Chinas at the National Swine Show.

It will be good news to all M. A. C. alumni and undergraduates to learn that the state legislature has acted favorably on the bill for money in connection with the new Memorial Building. The bill calls for \$8000 which will be used to connect the new building with the central heating plant of the college. Much credit for the success of the bill is due Mr. Clark '77, Dr. Gilbert '04, and Bill Munson '05, who appeared before the state educational committee and presented Aggie's wishes.

Convention Addresses.

The report of the Des Moines convention, containing addresses as presented on the platform and in section meetings, will be made quickly available both for delegates and for those not privileged to be at Des Moines, in a report volume for which orders at the Student Volunteer Movement Headquarters, 25 Madison Avenue, New York City, before March 15, and accompanied by remittance, will be accepted at \$2.00, carriage prepaid. The price of the volume when published will be \$2.50.

Social Union Entertainment.

The first Social Union entertainment of the term will be given Sunday afternoon, April 4, at three o'clock in the Bowker Auditorium, and will be in the form of a two-act play given by Messrs. Guy Maier and Lee Patterson. They have made a successful study of ensemble playing, and their art is distinguished by fine precision, clarity, and well-marked rhythm. Both are capable pianists and their recitals always command admiration.

Golf Y. M. C. A. President

At the election of officers of the Y. M. C. A. held on March 17th, the following were chosen: President, Harold M. Goff, of Cambridge; vice-president, Richard A. Mellen, of Cambridge; secretary and treasurer, Starr M. King of Pittsfield. During the past year, Goff was chairman of the committee on Americanization. Mellen has been chairman of the committee on Boy's Work and chairman of the committee on Sunday School Work. King has been generally prominent in all "Y" work.

CAPT. POOLE STARTS SPRING FOOTBALL PRACTICE

Spring football practice has opened with a vim with the beginning of the third term. This week there are about 40 men in the squad, and with nearly four full teams good spirit is being shown. Practice is being held regularly on Tuesday, Wednesday, and Thursday afternoons, and will be continued for five or six weeks. The time will be devoted chiefly to kicking, forward-passing, dummy scrimmage, and football problems. Poole takes are being given by Capt. Poole who has full charge of the practice. Tuesday, March 30, signal practice was held in the Drill Hall, and Wednesday afternoon the signal was given its first outdoor workout. Saturday, April 3, there will be a special practice at which a kicking contest will be held to determine the best men for punting, drop-kicking, and kickoffs.

ANY tobacco—every tobacco—tastes better in a W.D.C. Pipe. Our own specially seasoned and carefully selected French briar makes it so. Add to this the supercraftsmanship of the Demuth workers, and you'll not wonder that we claim pre-eminence in the quality of our pipes. Ask any good dealer.

DEAN LEWIS REPORTS ON BOSTON SMOKER

College re-opened Tuesday morning at 7-40 with chapel exercises in Bowker Auditorium. Dean Lewis welcomed the students with a short address in which he praised them for their loyalty to the college, and the way they have stuck together since the soldiers and sailors returned to make up a large part of the student body. He believed that it was the memory of those who went from here and paid the supreme sacrifice in the World War that has made it impossible for friction to exist.

Dean Lewis then gave an interesting report on the M. A. C. Smoker which was held in Boston last Friday. The feature address of the evening was by Mr. Halsey of the Transcript on "The American Sleeping Sickness." America did her part in the war but since then has relaxed and fallen into a sort of lethargy. To help arouse patriotism the "Star Spangled Banner" might be sung more, especially in the schools and colleges. Mr. Halsey also made the point that teachers and educators are underpaid and it is up to the college men to see that they are properly paid and that educational institutions are supported. The principal subject of the other speeches, and that which was of interest to all, was the New Memorial Building. It was with a return of the old M. A. C. spirit, and the thought of its significance, that many present offered donations toward this Memorial. A very touching and impressive letter, enclosing a contribution from the widow of one who died in France, was read at the smoker and also to the assemblage on Tuesday. It was suggested last Friday in Boston by the speaker of the evening that on each Armistice Day morning the student body stand with bowed heads for a few moments before the New Memorial.

DEPARTMENT NOTES

Word has recently been received from Professor Ernest Anderson, formerly professor of Chemistry at this institution now professor of Chemistry at Transvaal University, Pretoria, South Africa, stating that he has planned and is supervising the construction of a new chemical laboratory at the University, and further, that during his vacation periods he is carrying on extensive chemical investigations of the soil in different parts of the colony.

Professor G. Chester Crampton, of Insect Morphology at M. A. C., has been recently elected to the Society of Entomology of London.

ALUMNI NEWS

'19.—Raymond T. Parkhurst is doing extension poultry work at the Iowa State College. He writes that another man will be needed soon. His request is the fourth that has come to the Poultry Department asking for experts in Extension Work. Every mail brings to the department numerous inquiries for day old chicks and eggs, indicating a very healthy situation in the business this year.

'05.—Goulding Whitaker, son of Mr. and Mrs. Chester L. Whitaker of West Medford, Mass., died February 16th. Age eight years, three months.

'13.—Charles A. Hurley died on February 14th after a few days illness with influenza.

'13.—George Zaborski 2d, who has been in British Columbia since graduation in transportation work, recently left Vancouver for New York City.

DE LAVAL

Cream Separators

Are the Cheapest as Well as the Best

This is the unanswerable argument in favor of the purchase of a De Laval Cream Separator.

Everyone wants the best, provided its cost is within his means. Fortunately a De Laval costs but little more than an inferior cream separator and saves that difference every few weeks.

Moreover, an inferior separator wastes in time and labor, and in quantity and quality of product what a De Laval saves, and goes on doing so every time it is used, twice a day every day in the year.

If you don't know the nearest De Laval agent, simply address the nearest De Laval main office, as below

THE DE LAVAL SEPARATOR COMPANY

THE HONOR CONSTITUTION

(Continued from page 1)

Other penalty that the Honor Council may recommend.

Sec. 5. Each and every student and member of the faculty shall be bound to report to the Honor Council all violations of the pledge that may come to his attention.

ARTICLE III. ORGANIZATION

Sec. 1. There shall be an organization known as the Honor Council whose duties shall be:

(a.) To have general charge of all matters pertaining to the Honor System.

(b.) To interpret the Constitution.

(c.) To try and convict or acquit any case of alleged dishonesty that may come to its attention.

(d.) To file with the President of the College any cases of dishonesty.

Sec. 2. The Honor Council shall consist of three Seniors, two Juniors, one Sophomore, and one Freshman.

Sec. 3. The officers of the Honor Council shall consist of a President and a Secretary, and shall be chosen by the Council.

Sec. 4. Should any member of the Council have fraternal or family relations with any student accused of dishonesty, or should any member be unavoidably absent from trial, such members shall be relieved of the duty of sitting on that case. The President of the Council shall appoint a substitute from the class of the relieved member.

Sec. 5. A quorum shall consist of six members of the Council. A vote of one less than a quorum is necessary for conviction.

ARTICLE 4. REGULATIONS

Sec. 1. The conduct of every student during an examination shall be such that he shall not interfere with any other student.

Sec. 2. The instructor shall ascertain that the meaning of all examination questions is clear to the students.

ARTICLE IV. PENALTIES

Sec. 1. This Constitution may be amended, revised or nullified by a three-fourths vote of those governed by it.

BY-LAWS

ARTICLE I. GOVERNING THE HONOR SYSTEM

Sec. 1. Each class except the Senior class shall elect one new member to the Honor Council at least one month prior to the close of the college year, and those elected shall serve for the remainder of their normal college course.

(a.) The Freshman member of the Honor Council shall be elected during the first week after the Christmas vacation and shall hold office until the election at the end of the college year.

(b.) Councilmen elect shall assume office immediately after election.

Sec. 2. It shall be the duty of the Honor Council each year:

(a.) To provide for discussion of the Honor System at three sessions of the entire student body.

(b.) To ascertain that every member of the faculty understands the system.

(c.) To distribute copies of the Honor System Constitution to both faculty and students.

(d.) To explain the Honor System to all new students during the first two weeks in college.

ARTICLE II. INTERPRETATIONS FOR THE FACULTY

Sec. 1. The faculty must enforce the signing of the pledge in order to cooperate with the Honor Council, and to keep the System constantly before the minds of the students.

Sec. 2. Attention should be called to the Honor System, in some manner, before each examination, by the instructor.

Sec. 3. It shall be required that a student attach his signature to the pledge.

Sec. 4. The faculty shall have the option of seating students in any examination.

Sec. 5. An instructor all ascertain that his questions are clear before leaving the room. He may leave the room at his option, but before doing so he shall inform the students where he may be found.

Sec. 6. Examinations shall be conducted to mean any written tests.

Sec. 7. Should any student forget the pledge at the end of an examination the instructor shall give him the opportunity to sign it at his earliest convenience.

ARTICLE III. INTERPRETATIONS FOR THE STUDENTS

Sec. 1. Talking that is in any way annoying is prohibited by the Constitution. The one annoyed has the privilege of asking and of obtaining his request that the talk cease. He may report the disturbance to the Council for action.

Sec. 2. Smoking during examinations shall be governed by the rules of the building in which the examination is held.

Sec. 3. Undue moving about or unnecessary leaving the room that would cause disturbance or arouse suspicion shall be avoided.

Sec. 4. Normal college course shall be constructed to mean consecutive years in the class by which he was elected.

'13.—Stuart Dadds Sampson has embarked bag, baggage, and family for California.

'13.—Benjamin W. Ellis has resigned as County Agent, Putnam, Conn., and becomes Assistant Leader in County Agent Work, Connecticut Agricultural College, with his headquarters at Storrs, Conn.

'13.—Dr. Glover E. Howe has opened an office of his own at Hartford, Conn.

'14.—H. D. Louns has been assigned duties as Assistant Superintendent, Snubbery Plant Nestles Food Co., Inc. of New York in charge of Nestle's Malted Milk.

'15.—"Bunny" Clough writes that there isn't a building in Baltimore high enough for him to use in proclaiming to the world the arrival of Milliecent Edmunds Clough on February first.

"Bunny" hints that there is to be a 1915 Italy Show at Commencement but writes there won't be any use for it. Just send the cup right down to me now. His address is 1001 Fidelity Building, Baltimore, Md.

'13.—Nils Paul Larsen is teaching bacteriology and doing research work at Cornell Medical College, New York City. Paul graduated from Cornell as an M. D., 1916, and was a major in the Medical Corps with the 27th.

INTERCOLLEGIATE NOTES

The Honor System at Williams College has become one of its best institutions. A recent proposition by the Student Council was set forth by which those soliciting chapel cuts of monitors would be subjected to the same punishment as those cheating in exams. The Honor System Committee believed that this should not be done, and considerable feeling has arisen over the trouble. The proposition is now before the student body to vote on as an amendment to the Honor System Constitution.

A recent Stevens Institute paper contained an article about a case of violation of the Honor System. It concerned a Freshman who reported for a class and then with the intention of cutting, started out. He was caught and questioned. The Honor System Board did not impose any other punishment than a warning because it was a Fresh-

man and the first offense. It was made clear, however, that cutting a class after reporting was a direct violation of the Honor System Constitution.

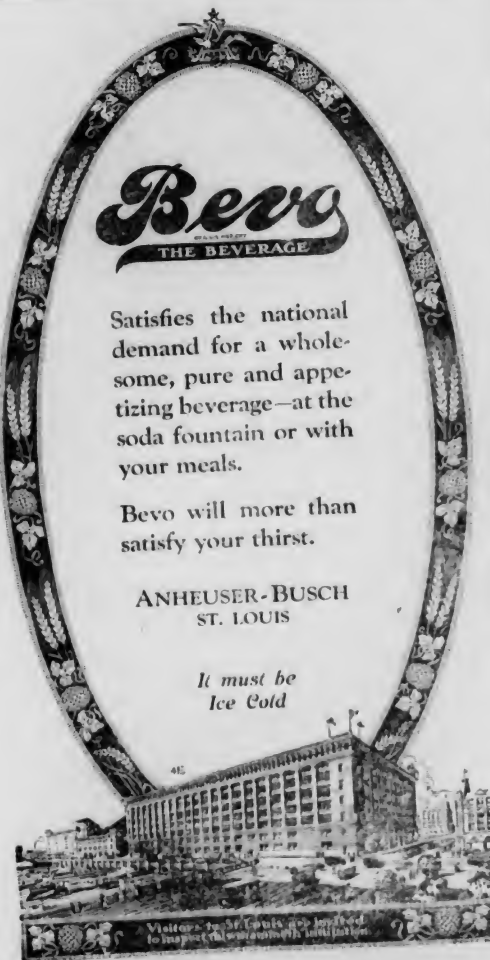

ROISTER DOISTERS

(Continued from page 1)

stantly calling to Ichabod, Mabel and Sahel two chorus girls, with not too good reputations portrayed by Watkins and Lahrwitz '21 respectively, and Mrs. Kalkon who is quite active in society played by Clough '20.

The scene of action is in a downtown broker's office in a New York hotel and in Mr. Kalkon's summer home on Long Island.

Tickets are now on sale at the Q.T.V. House and may be reserved by telephoning Amherst 280. Tickets will also be on sale at Deuel's Drug Store on Friday April 9. Student activity tickets will be accepted as 50 cents toward the purchase of any ticket.

BASEBALL SQUAD SHOWS PROMISING MATERIAL

Jakeman '20 Elected Captain. First
Cut in Squad Leaves 26 Men.
Competition Keen.

Baseball practice has progressed rapidly with the fine weather of last week, and the team bids fair to be in perfect working trim by the time of the first game, April 22. With Jakeman '20, recently elected baseball captain for the coming season, the squad has at its head an experienced all-around player. While in Winchester High School, "Jake" was interscholastic 3d baseman in the Mystic League. He showed up well on his Freshman team and also on last year's varsity. There is much veteran material to work with, so that Coach Gore should turn out one of the best teams that Aggie has had for several years.

The first cut in the squad was made last week, there being 26 fortunate ones retained. Wednesday, March 31, the men were given their first outdoor workout with a scrub game in which everybody was given a chance. Saturday, April 3, a nine-inning game was staged between teams A and B. Arthur Johnson, pitching ace and captain of the crack 1915 Aggie team, had charge of the battery work. Dope talks are being given every Tuesday and Thursday nights, and in indoor practice much emphasis is laid on hitting.

The exact line-up has not yet been picked. Competition is keen both in the infield and outfield, and it is largely a question of hitting during the next two weeks to determine the first team. Batchelder at 1st and Jakeman at 3d are both first-string men, while at the second berth it is a toss-up between Davis and McGinnis. Both McCarthy and Dowd are promising well at shortstop. Dewing will probably hold down his old place at center field, but there is much competition for the other two positions. The pitchers retained were Crafts, Collins, and Luce, all of last year's team; also Brigham, Lent, Knoch, Tirrell, and Sargent '23. Newell and Delahunt are the veteran catchers, while Mosely and Haskins are the new candidates for the backstop position. There will be another nine-inning game next Saturday afternoon between teams A and B.

New Rifle Club Supplies.

The Military Department has recently received from Springfield Armory eight new Springfield Rifles, model 1903, caliber .22, to replace old rifles which have been in use here ten years or more, and one hundred new cartridge holders. The department has also received 20,000 rounds of .22 caliber ammunition, the latest and best ammunition made by the U. S. Cartridge Company. Shooting on the outdoor range for the Sophomore class will be held during this term.

PROM ARRANGEMENTS ARE NOW COMPLETE

Feminine Invasion Awaited. Cabaret
Saturday Afternoon, Roister
Doisters in the Evening.

Preparations for the Junior Prom are rapidly nearing completion and already Draper Hall is almost entirely decorated for the coming event. The Promenade will be held Friday evening in Draper Hall, and dancing will last from 9 p. m. to 5 a. m., with a supper to be served at midnight. No flowers are to be worn by the ladies at the dance. Music will be furnished by Walter Johnson's Colored Jazz Orchestra which is so popular all over New England; especially at the Copley Plaza and the Brookline Country Club. Walter Johnson himself will be at the piano in charge of his six piece orchestra, which appeared last year at the Sophomore-Senior hop. Forty-five couples will attend.

Saturday afternoon the Musical Clubs will hold a Cabaret in Draper Hall, for the entertainment of the prom guests. The affair will begin at 2:30, the program lasting until about 5:30. Light refreshments will be served between dances.

Owing to the small number of Prom guests there will be twenty tickets available for those not attending prom. Tickets are on sale at the Phi Sigma Kappa House and at the Q. T. V. House. The Prom show to be given in Stockbridge Hall will be informal. The Roister Doisters will make their first appearance of the season by presenting "Nothing But The Truth," a three act play by James H. Montgomery. The play promises to be one of the best presented on a prom program in many years, and with the cast spending so much time on the production, the play should be thoroughly enjoyable. On Sunday afternoon the Havens Trio, consisting of Alvin Schroeder, Raymond Havens and Sylvian Nones, will entertain in Stockbridge Hall. Mr. Schroeder is first cellist of the Boston Symphony orchestra. Mr. Havens is a concert performer of great merit and is acknowledged a master pianist by press and profession. Mr. Nones is a player of international repute and is at present assistant concert-master of the Boston Symphony orchestra. These artists were obtained by the Social Union Committee under very strenuous conditions.

The list of patrons and patronesses and include President and Mrs. Kenyon L. Butterfield, Dean and Mrs. E. M. Lewis, Professor and Mrs. Curry M. Hicks. The committee in charge consists of D. C. Douglass, chairman, C. D. Kendall, Starr M. King, John D. Snow, P. L. Robinson, J. MacCarthy and James W. Alger.

"14." "Ned" Edwards is efficiency expert with Logan, Johnson Co., Boston.

GRAY '21 WILL CAPTAIN RELAY TEAM NEXT WINTER

Spring Track Practice Begins This
Week. Good Material
This Year.

The elections for captain of the relay team for next winter, held last week, resulted in the election of I. E. Gray '21 of Woods Hole. Since his return to college last fall, Gray has been active in track athletics, doing good work in the cross country team and winning his "M" in relay track this winter. The spring track season began Tuesday, April 6, with the issuing of equipment to the men coming out. Due to the weather conditions there was no practice on that date, but it is scheduled to begin when conditions are favorable. Forty-nine men are reported out for the squad, among them some of the track veterans who showed up well last year and former years, besides some very good new material.

Sullivan '22 is out as a record-breaker for the 100 and 220, Lyons '20 will show up well in the half and the mile, Slate '21 is a very promising candidate for the mile and two mile runs, Meserve '20 is out for the hurdles and S. V. Smith '22 promises well in the high jump. Woodworth '23 is considered the pick of the new candidates.

Coach Hubbard will have charge of the practice every afternoon from 5 to 6 o'clock. There will probably be practice Saturdays, also. The schedule of the meets is as follows: May 8.—Eastern Intercollegiate meet at Springfield. May 15.—High School Day meet at M. A. C. May 22.—New England Intercollegiate meet. May 31.—Connecticut Aggie vs. M. A. C. at Alumni Field. June 5.—Triangle meet at Burlington, Vt.—New Hampshire State, University of Vermont, and M. A. C.

FROSH WIN INTER- CLASS TRACK MEET

Woodworth '23 and Bent '22 Star.
Two Mile Run Hotly Contested.

Saturday afternoon the postponed interclass meet was run off at the Drill Hall. Despite a strong wind from the northeast, the races were hotly contested and were run in fair time. The Freshman team with Leverett Woodworth as star performer won the meet with a total of 31 points. The Juniors were second with 24 and the Sophomores third with 17. The two Senior entries were unable to score.

Woodworth '23 and Bent '22 were the individual stars, scoring 17 and 11 points respectively. West '21 and Macready '23 also did good work.

The high jump proved to be of little interest as the best jumpers were no-

COMMENCEMENT PROGRAM DEFINITELY ARRANGED

Class Business is Being Dispatched
Early. Speakers Elected. Honor
Council Members Chosen.

The Seniors on Wednesday evening held their regular class meeting and decided a number of matters in connection with commencement. Readle reported that a representative of the White studios would be on the campus during the week of April 12 to take class pictures. Boardman submitted a report for Senior Class Play Committee. He gave the plans and the names suggested for the play which will be given on High School Day, May 15.

The Commencement program as finally agreed upon by the class representatives and faculty committee, and adopted by the class is as follows:

FRIDAY, JUNE 18.
2:00 p. m.—Junior Frolic.
Freshman-Sophomore Baseball game.
6:30 p. m.—Interclass Sing, Steps of Stockbridge Hall.
8:00 p. m.—Dramatics, Bowker Auditorium.

SATURDAY, JUNE 19.
9:30 a. m.—Business Meeting of the Associate Alumni, Old Chapel.
12:00 m.—Alumni and Senior Dinner, Draper Hall.
3:00 p. m.—Baseball game, M. A. C. vs. Univ. of Vermont.
5:00 p. m.—Faculty-Senior baseball.
7:00 p. m.—Fraternity reunions.

SUNDAY, JUNE 20.
9:30 p. m.—Baccalaureate address, Bowker Auditorium, address by Hon. Frank A. Vanderlip.
5:00 p. m.—Laying of the Corner Stone of the Memorial Building.

MONDAY, JUNE 21.
9:30 a. m.—Senior Class Day Exercises.
11:00 a. m.—Competitive Drills.
1:00 p. m.—Meeting of the trustees of the College.

2:30 p. m.—Commencement exercises, Bowker Auditorium, address by Hon. Frank A. Vanderlip.
Following the Commencement exercises, President's reception, Rhododendron Garden.

6:00 p. m.—Alumni Class reunions.
8:00 p. m.—Sophomore-Senior Hop, Drill Hall.

TUESDAY, JUNE 22.
8:00 p. m.—Senior banquet.

Lyons showed samples of several canes, and after some discussion a motion was passed to have the class adopt a soft wood cane, and the chairman of the cane committee was authorized to take charge of the ordering of them.

McLeod, reporting for the Cap and Gown committee, said that outfits could

be purchased for \$8 or rented for \$2. It was decided to wear caps and gowns for two weeks.

The following men were elected class day orators: Class Day Oration, John A. Crawford, Allston; Ivy Oration, George M. Campbell, Baltimore, Md.; Campus Oration, Arthur L. Frellek; Everett; Pipe Oration, Frank J. Binks; Maynard.

It was voted to hold regular class meetings every two weeks on Wednesday evening, the time to be set by the President.

The Interclass sing was brought up and suggestions were solicited as to how the sing could best be made a success. The secretary was requested to cast a unanimous vote for Harlan Worthley as class song leader. Campbell urged the Seniors to reserve rooms for Commencement immediately.

Following the Commencement discussion, Campbell, Crawford, and Goodridge were elected to the Honor Council.

At the meeting of the New York Horticultural society held recently at Poughkeepsie, the following M. A. C. men were present: Dr. E. P. Felt '91, P. M. Eastman '08, W. W. Clark '10 and W. J. Birdsall.

HIGH SCHOOL DAY TO BE HELD ON MAY 15

Plans Being Arranged to Keep Time Full.

It has been announced that High School day this year will be held on Saturday, May 15.

High School day is an annual affair at this institution and has served to interest boys all over Massachusetts in their state college. There will be a long list of student activities during the day and everything will be done to make the visitors feel perfectly at home. As in past years there will be an inter-scholastic track meet held on the athletic field, in which all the visitors may participate. The fraternities will do their usual share in entertaining the boys and making them comfortable by housing them for the night.

There will be a combined concert by the Musical Clubs on Saturday afternoon in Stockbridge Hall and in the evening, a complementary supper will be served by the college in Draper Hall. More complete information will soon be sent out to the various high schools of the state by Prof. James Watts who has charge of all the arrangements.

AMERICA is fast becoming a pipe smoking country. Every year more and more men are realizing the comfort, the satisfaction, and the economy of the pipe. And by natural selection, more and more men are smoking W D C Pipes. This is not chance. It is because W D C Pipes offer the utmost in pipe value. Honest French briar, seasoned by our own special process make W D C Pipes break in sweet and mellow. Coupled with that is a self-governed body of pipe makers whose sole object is to fashion pipes which are without peers in all the world. And it has been accomplished. Ask any good dealer.

WORLD'S LARGEST MAKERS OF FINE PIPES

ANNUAL COLLEGIAN BANQUET APRIL 3

Gathering at Plymouth Inn Marks
Close of Thirtieth Year of the
Paper. Old Board Retires.

The members of the COLLEGIAN board, excepting those newly elected from the competition, gathered at the Plymouth Inn, Northampton, April 3rd, for the annual round up and free feed. The affair was distinctly informal; it being noted that saucers were used to cool the coffee, and finger bowls served as drinking cups. Toothpicks were given as souvenirs.

Manager Senna of the hotel secluded the group away from public gaze and hearing in private quarters where joy could be unrestrained. A sumptuous menu was provided which included:

Tomato Bisque Olives Pickles
Fricassee of Chicken with Rice Potatoes au Gratin String Beans
Hot Rolls Fruit Salad
Vanilla Ice Cream with Hot Chocolate Sauce
Cake Coffee

An ample supply of cigars and cigarettes was on hand for the "hard boiled", and as experimental material for the uninitiated. Attractive flowers reminded those of what might be eventually expected.

James C. Maples, the retiring editor-in-chief, served as toast-master and said the proper things when due. Informal talks were made by the editor-in-chief-elect Larry P. Martin, the retiring managing editor, John A. Crawford, the new managing editor, Robert L. Jones, Herbert L. Geer, the new business manager did double duty while the retiring business manager, G. M. Campbell, was unavoidably exploding the gas in Boston. Professor Frank Prentice Rand, the general manager of non-athletic activities held the group in check, and gave a few appropriate remarks. Ex-professor, ex-manager of non-athletics, non-agent H. H. Robbins showed by his presence the marked difference between insurance and teaching as a means of personifying prosperity, and expressed to his former cohorts remarks fitting to the occasion.

A distinctly successful banquet, with all entering in the spirit of a good time, ended when time intervened to remind one of the last car for Amherst.

The Prom Girl

With all your winning ways and captivating charm, we greet you. The very fact that you are the choicest of your sex is enough to guarantee the height of enjoyment to your mere male associates. For a few short days the college keys of good fellowship are yours. We give them to you gladly that you may enjoy to the fullest degree the gaiety that should be yours. We hope that Aggie hospitality will exceed your fondest dreams and that you will leave us satiated with a feeling of thorough enjoyment. Your presence, brief as it may be, will add much to the dull routine of our daily life. It is our only regret that we cannot have you with us oftener.

The class is to be congratulated on its splendid efforts in behalf of these charming invaders. The best is all that we have to offer and the Juniors have done their utmost to obtain this. May their efforts be crowned with a memorable success.

Cheap Talk

The greater part of the editorial columns of the recent issue of the *Squib* is devoted to a discussion of a human species known as the "crab". It is an evident fact that this breed is much too prevalent on the Aggie campus. Criticism of the type generated by the crab is rarely constructive, and it is the constant mouthings of these unformed individuals that have done much to forestall progressive movements on this campus.

Talk is cheap. It requires but a slight amount of lung power and a negligible expenditure of effort to criticize any or all events, persons, or institutions. But in the majority of cases an investigation of facts will lead to a different viewpoint on the case in question, usually commendatory. Furthermore, the man who knows of what he speaks, and because of this knowledge is steadfast in his resolution, is the man who becomes ultimately successful. Superior knowledge is always a power

over your opponent, but correspondingly wild statements not founded on facts are bound to result in a loss for the individual concerned. Many men are daily losing the respect of their comrades by their constantly critical attitude. Their highly-colored, know-it-all gabble lowers them in the eyes of men. Others who know even less are influenced by them and rarely in the right direction.

It should be the duty of every Aggie man to know the facts before he criticizes and then to make an effort to reconstruct that which he has destroyed.

CAMPUS CALENDAR.

THURSDAY, APRIL 8.

10:00 A. M.—Government Inspection of the R. O. T. C.

7:30 P. M.—Glee Club rehearsal in Old Chapel.

FRIDAY, APRIL 9.

7:30 P. M.—Animal Husbandry Club Meeting, Stockbridge Hall, Room 114.

DOUBLE PIANO RECITAL
WELL RECEIVED

Players Render Strictly Classical Program.

In spite of the inclemencies of the weather last Sunday afternoon, a large audience attended the Piano Recital given in the Bowker Auditorium by the noted players, Guy Maler and Lee Patterson, under the direction of the Social Union. The entire program was drawn from the works of famous composers and the entertainment one of the first class. The opening selection was Schuetz, the "Impromptu Boccaccio" and was received with appreciative applause. Next was the "Coronation Scene" from the Opera "Boris Godunoff" by Moussorgsky. This represented a scene in Moscow, Russia, at daybreak, with the bells of the Kremlin ringing. The one lone peal rings out calling for Boris to appear. The sounds of a procession are then represented with the ringing of the bells and the singing of the crowds. Other selections were "Sicilienne" from Bach, "Scherzo" from Saint-Saëns and another from the same composer "Variations on a theme by Beethoven." Then followed three short selections from Casella, a March, a Lullaby and a polka. These were illustrations of the Ultramodernistic compositions. They were composed for children and no definite rule is followed in the making of them. The simply "Impressionistic." A Waltz and

"Scherzo" from Arensky were next given, and the program was brought to a close with a selection from Chabrier, a Rhapsody "Espana."

Another musical entertainment will be given in the Bowker Auditorium, Sunday, April 11, at 3 P. M. It will consist of a concert given by the Havens Trio, composed of the musicians, Mr. Heavens Pianist, Mr. Schroeder, 'Cellist and Mr. Theodorowicz, violinist.

Are they soled with all-leather? Are they sold on a mileage basis?

Practical Knowledge

To know how to accomplish the desired results in the application of dairy husbandry is as valuable as to know what the desired results are.

Because thousands of users know the superiority of

and profit by this knowledge they are able to prevent the regrettable losses of milk quality that are certain to occur unless the milk containers, machinery and utensils are kept sanitary, wholesome and clean.

So valuable is the use of this cleaner and so little its cost that no one engaged in dairying or any of its branches can well afford to be without the assistance it brings.

NO RIGHT TO STRIKE IN PUBLIC SERVICE INDUSTRIES

So Student Body Voted in Assembly.
Lively Discussion Aroused.

"Should Public Service Industry workers be allowed the right to strike?"

This was the question before the student forum at last Wednesday's assembly, at which Dr. Sprague of the Economic Sociology Department presided. After a varied and interesting discussion on both sides of the question it was voted by an overwhelming majority that strikes in public service industries should be prohibited.

Berman '20 broke the ice by pointing out that when one group struck it was simply an example for another to use the same means to get their rights. Tanner '22 thought that a strong argument in favor of the question was that it gave the workers a chance to show their discontent, and was a just way in getting their wants. Haslam '21 said that one great feature of strikes was their bad public policy. Strikes in general are contrary to public policy, and in strikes in public service industries the need of the public is the greatest consideration. The point of equal rights was next brought out in favor of the question.

The first to answer from the balcony asserted that he had had sixteen years of laboring before going to college and that his views would thus be well founded. The speaker, a short course student, said that Aggie students did not know what work was, and that they, consequently, were not in a position to discuss such matters intelligently. From this time on arguments poured forth thick and fast, so that even four or five men would try to gain the floor at the same moment.

DE LAVAL
Separator Savings

No machine used on the farm returns a larger profit on the investment than a De Laval Cream Separator.

It saves from 25% to 50% of cream twice a day every day in the year over crocks and pans; and from 10% to 25% of cream over an inferior or half-worn-out separator.

With butter-fat at the present high prices these savings mount rapidly. Many thousands of users have found that their De Laval paid for themselves in a few months. De Laval users are always on the profit side of the ledger at the end of the year.

More De Laval are used than all other makes combined.

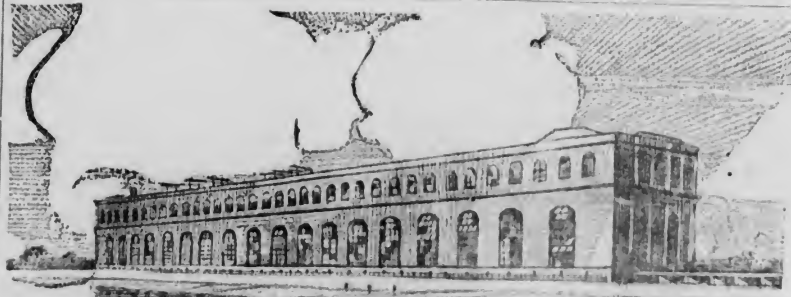

Your local De Laval agent will be glad to demonstrate what an improved De Laval will save you. If you don't know the nearest agent, simply write the nearest office below.

Two other arguments in support of strikes were:—Big Industries, and No Standardization. A man in a big industry is a very small unit, and almost entirely dependent on his work for an existence. He cannot, like a corner store clerk, leave his job and expect to find another handy. Furthermore there is no standardization of wages, working hours or conditions. Until this point is reached workers will keep on striking.

for shorter hours and higher wages. Frellick '20, the next speaker, brought out the point that those affected by the strike as well as those who struck were part of the same public. He refuted previous arguments by saying, "I do not like what was said about Aggie men not knowing how to work, or what work is. A lot of us swung the shovel before we came here, and many of us since."

'13.—Mr. W. Stuart Moir is making a study of practical forestry problems in Sweden. In June 1919 he was awarded the American-Scandinavian Scholarship from the Yale Forestry School, which he attended after graduating from M. A. C. and in September left for Sweden. Mr. Moir was one of ten students selected from the various scientific institutions abroad on a fellowship established by the American-Scandinavian Foundation.

Mississippi River Power Company, Keokuk, Iowa

A cutting for use of the large water-wheel driven generators installed in the Mississippi River Power Company's plant at Keokuk. This installation will ultimately consist of thirty of these machines, giving a total capacity of 30,000 kilowatts (30,000 horsepower). It is the largest hydro-electric development in the world. The General Electric Company built generators for water-wheel drive in place ranging from 75 to 20,000 kilowatts and the aggregate capacity of 67-8 units now in successful operation is in excess of four million horsepower.

Utilizing Nature's Power

ELECTRICAL energy generated by water power has grown to be one of our greatest natural resources—and we have only begun to reach its possibilities. It mines and refines our ores, turns the wheels of industry, drives our street cars and lights our cities and towns. The power obtained from Nature saves many millions of tons of coal every year.

At first the field of its utilization was limited by the distance electricity could be transported. But soon research and engineering skill pointed the way to larger and better electrical apparatus necessary for high-voltage transmission. Then ingenious devices were invented to insure protection against lightning, short-circuits, etc., which cause damage and interrupt the service. And now all over the country a network of wires begins to appear, carrying the magic power.

The General Electric Company, with its many years' experience, has played a great part in hydro-electric development. By successfully coordinating the inventive genius of the company and its engineering and manufacturing abilities, it has accomplished some of the greatest achievements in the production and application of electrical energy.

The old mill wheel of yesterday has gone. Today the forces of immense volumes of water are harnessed and sent miles away to supply the needs of industry and business and the comforts of the home.

GROUND BROKEN FOR NEW MEMORIAL BUILDING

Excavation in Progress Now. Expect to Lay Corner Stone in June.

Carlson and Company of Springfield started work on the Memorial Building last week, although the ground is not yet entirely free from frost. Fifteen men and four teams were at work Saturday ploughing and carrying away the dirt, which is to be used as a filler on the swamp end of the Athletic Field. An office, with telephone connections, etc., for the foreman, Mr. Willard, has been erected on the ground opposite the Drill Hall.

The labor has been increased this week to 22 men and seven teams, and 30 men will soon be used. If weather conditions permit. Local labor is being used.

The contractors hope that all the excavation and foundation work will have been finished and form work begun by commencement in June. Dean Lewis has announced that at that time there will be appropriate exercises for the laying of the corner stone.

CAMPUS NOTES

The lot southwest of the Veterinary Laboratory has been closed as the site for the new cavalry stables. This selection was made by F. C. Kenney, treasurer of M. A. C., Professor Ford, Captain Walker, and an architect from Boston.

Prof. J. W. Campbell of Springfield College, and Fred B. Freeman, secretary of the International Y. M. C. A. Committee for County Work will be the speakers at the "Y" Conference on County Work, held Thursday evening at 7:30 in the Old Chapel. The county work at home and its rural work abroad offer very attractive opportunities for the finest type of Christian Social Service among rural populations. All students are cordially invited to attend this conference.

Radio Station at M. A. C.

M. A. C. now ranks among the colleges possessing a well-equipped wireless station. An amateur license has been granted to the physics department by the department of Commerce and a set of first class apparatus has been installed.

R. O. T. C. Summer Camp.

As provided for in Section 48 of the National Defense Act, military training camps for the further practical training of the Reserve Officers' Training Corps organized in educational institutions will be held for a six weeks period, from June 17 to July 28, at Camp Devens, an infantry camp will be established where students of M. A. C. may grasp this opportunity of having a fine vacation without expense to themselves, as the government pays the fare to the camp and provides food, clothes and shelter.

FRESHMAN-SOPHOMORE BANQUET RULES

The Senate at a recent meeting brought up and adopted the following set of rules for this season's banquet season.

1. All Freshman class officers shall be elected in open class meeting of the class for that purpose. At least 90 per cent. of the class must be present and vote for each officer. All present must be notified of the results of the meeting before leaving the meeting. The election must be held within the campus zone.
2. A sealed list of the Freshman

LAW

THE BOSTON UNIVERSITY LAW SCHOOL

Trains students in the principles of the law and in the technique of the profession so as to best prepare them for active practice wherever the English system of law prevails.

College graduates may receive scholarships not exceeding \$75.

Course for LL.B. requires 3 school years. Those who have received this degree from this or any other approved school of law may receive LL.M. on the satisfactory completion of one year's resident attendance under the direction of Dr. Melville M. Higelow. Several \$25 and \$50 scholarships open in this course.

HOMER ALBERS, Dean

11 Ashburton Place, Boston

class officers, giving their names in full and the respective office each holds plainly written before each name, shall be handed to the President of the Senate on or before April 28, 1920.

3. The Campus Zone shall consist of a tract of land bounded by a line running as follows:

Along the middle of Lincoln Ave. from the Veterinary Building to the first right hand road running direct East crossing Pleasant St. along the road near Prof. Hasbrouck's house, continuing East and following the telephone line south side of the Mathematics Building running into road immediately north of Apley, following this road to East Pleasant St., along College driveway directly West to telephone line, following this line directly west along south side of Forestry Dept. lot, turning to right and north and going north along west boundary of Forestry lot to wire fence; then west continuing along fence at north boundary of the woods to brook at west side of College land, turning south along middle of Plainville Rd.; then turning south east and running along middle of Plainville Rd.; to Lincoln Ave., then turning north and following middle of Lincoln Ave., to Veterinary Building.

4. There shall be no kidnapping or personal violence or other hostilities previous to the opening of the season. There shall be absolutely no hostilities outside the Zone.

5. The season shall be opened as follows:

(a) At a special mass meeting held by the Senate in the Old Chapel at 10:00 p. m., April 30, 70 per cent of the Freshmen class, including the officers, must be present. All Freshmen not present shall be debarred from participation in the banquet season.

(b) The entire Sophomore class shall meet in the Chapel at 10:00 p. m. April 30. Ten men whose names have previously been handed to the president of the Senate shall be exempt from this rule.

All Sophomores not present at this meeting shall be debarred from participation in the banquet season.

(c) The Freshman class meeting shall be dismissed at 10:30 p. m. April 30. No member of the Freshman class shall leave the Campus Zone before 10:00 a. m. May 1.

(d) At 11:00 p. m. April 30, upon the ringing of the Chapel bell by the Senate, the Sophomore class will be dismissed.

6. The banquet season shall close at 6:00 p. m. Saturday, May 1.

The banquet may be held at any time that evening, thereafter.

7. The following buildings shall not be used at any time during the season. (To be announced at a later date.)

8. No locked room shall be used by either class during the season. Inside the Zone no method of conveyance shall be used by either class after the opening of the season. Guns and firearms shall not be used.

9. The banquet shall not be a success if the Sophomore class succeeds in detaining the Freshman President or any other two officers of the class. The officers of the class shall consist of President, Vice-President, Secretary, Treasurer, Sergeant-at-Arms, Captain, Liaison, and Chairman of the Banquet Committee.

10. Any one infringing rule 4 will be liable to college discipline.

CLASS TRACK MEET

(Continued from page 1)

able to compete. The result was Woodworth '23 1st; Watkins '21 2nd; and Moody '22 3rd. Height 5ft. 1 in.

The 25 yd. final heat brought Bent '22, Allen '21, Alger '21 and Moody '22 to the mark. The race was close but Bent got the jump and finished just a hair ahead of Alger with Allen a close third. Time 3 and 3-5 seconds.

The 300 yd. final proved to be the most exciting race of the meet. Bent '22 got off to a good start and kept his lead throughout, although Allen was twice running shoulder to shoulder with him. A. W. Smith '22 finished third. Time 37 and 3-5 seconds.

At the start of the mile run Rollins '22 jumped into the lead and kept it for nearly half of the race. Slate '21 off to a poor start crept up gradually and passed Rollins. He was followed closely by West '21. Slate finished 1st, West 2nd and Rollins 3rd. Time 5 min. and 5 seconds.

The 600 yd. run was won easily by Woodworth. Ribero '23 was 2nd and Bent 3rd. Time 1 min. 34 seconds.

Able '23 proved a surprise when he won the broad jump. He did not have to exert himself and won easily with 8 ft. 6 in. Woodworth and Moody were

led for second place.

In the 1000 yd. run MacCreedy '23 took the lead early in the race and running easily with a fine stride he finished nearly a half lap ahead of West '21 and Buck '22. Time 2 min. and 45 sec.

The two mile run threatened to be an exceptional race. Eight of the best distance men in college were entered. Howard Goff '21, present holder of the indoor two mile record, took the lead at about the eighth lap and held it until the race was nearly over; but Woodworth who had already scored twelve points came from behind and passed the leader. With a show of fine reserve strength the Freshman drew away from the Junior and finished with a safe lead. It was in this race that the Seniors made their strongest bid to score. Tanner '23 ran a heady race and finished a half lap behind the winners. Time 11 min. 5 sec.

Individual scores:

| | | | |
|---------------|--------|-----------------|-------|
| Woodworth '23 | 17 pts | Watkins '21 | 3 pts |
| Bent '22 | 11 " | Moody '22 | 3 " |
| West '21 | 6 " | Ribero '23 | 3 " |
| Slate '21 | 5 " | Goff '21 | 3 " |
| Able '23 | 5 " | A. W. Smith '22 | 1 " |
| MacCreedy '23 | 5 " | Rollins '22 | 1 " |

JUNIOR PROMENADE IS SUCCESSFUL FUNCTION

Social Event of Year Well Attended.
Johnson's Jazz Orchestra Furnishes Excellent Music.

The most important social event of the year, the annual Junior Prom, was held Friday night at 9 o'clock in Draper Hall. The dancing began shortly after 9:30, following the grand march, and lasted until midnight. A supper was then served in the east wing of the hall, after which dancing was continued until 5 A. M.

The hall was prettily decorated with pink and white crepe paper festoons forming a long overhead arch, with the streamers gathered together in clusters on the sides of the walls. Large ma-noon and white Aggie blankets were hung up on one side of the hall, and all the decorations were very effectively set off by three large lights surrounded with orange and black crepe paper. At the east end of the hall, under a pergola trimmed with purple flowers, sat the patroness and patronesses, Mrs. and Mrs. Keayon L. Butterfield, Dean and Mrs. E. M. Lewis, Prof. and Mrs. Curry M. Hicks. At the other end of the hall sat that group of gloom dispellers, Walter Johnson's Jazz Orchestra. The music was the best ever and full of old jazz that kept the 40

(Continued on page 1)

HONOR SYSTEM OFFICIALLY ADOPTED MONDAY, APRIL 12

College Accepts Progressive Ideas After Much Consideration.

The Honor System went officially into effect with the first meeting of the Honor Council Monday, April 12, at 5-15 P. M. Election of officers took place. It was decided to have a Senior president and a Junior secretary. John A. Crawford '20, of Boston, was elected President of the Council and Peter J. Cascio '21, of Williamette, Conn., was elected secretary. Frederick B. Cook '22, was appointed to see to the printing of copies of the Honor System Constitution. The by-laws of the Constitution were looked over, and a few were changed. It was decided to keep all judicial proceedings secret, and to make a request that the Honor Council come under the jurisdiction of the Non-Athletic Board. The secretary was authorized to draw up an insert for this year's college catalogue and Freshman bible in connection with the adoption of the Honor System by the college. The Council includes the following members, who will serve for the remainder of the year. They are: George N. Campbell '20, John A. Crawford '20, George L. Goodrich '20, Peter J. Cascio '21, Emerson F. Haslam '21, Frederick B. Cook '22, and Roger B. Friend '23.

J. D. WILLARD GIVES REASONS FOR HIGH LIVING COSTS

High Prices Natural Result of Inflation of Credit.

At assembly Wednesday afternoon, John D. Willard, Director of the Extension Service of the College gave one of the most interesting lectures which has been presented to the student body this year. His subject was the present high living cost and he gave some of the facts discovered by the State Committee of Investigation of which he was a member.

As a result of over 600 arithmetical computations the committee found that the cost of necessities of life had increased 92 per cent over pre-war prices, while in the same time the wage of the average unskilled labor had more than doubled. It is only among college men and professional men such as teachers and lawyers that the purchasing power of incomes has fallen off. With this increase in purchasing power on the part of the great majority there has been no corresponding increase in the amount of purchasable goods. To the contrary shorter working hours in the factories with a tendency to loaf on the job have tended to keep production down. The farmers alone have worked harder in response to the call for more food. The result of all this has been inflation of credit and high prices which have been more serious in most foreign countries than in America.

High prices cannot be corrected by legislation but as in similar circumstances in the past will gradually rectify themselves; meanwhile we can help to remedy conditions by every one getting down to work to produce more and reducing the demand by going without things.

GRADUATE CLUB ELECTS HELDER AS PRESIDENT

Fine Program Has Been Arranged for Coming Meetings

At a business meeting of the Graduate Club held last Wednesday at 7 P. M., Arthur H. Helder, graduate assistant in the department of Landscape gardening, was elected president of the club, following James A. Purington of the department of Agronomy, who as retiring president conducted this as his last meeting. Mr. Purington leaves soon for New Hampshire State College where he will fill a position in the extension service.

Wednesday, April 14th, the Graduate Club, combining with the Amherst Science Club have secured as a speaker Dr. C. E. Winslow of the Department of Public health at Yale, who will lecture at the Science Club rooms. On the Wednesday following, Professor Hopkins of Amherst will address the Graduate Club at the Microbiology Laboratory.

CONCERT BY HAVENS TRIO WELL ATTENDED

Prom Guests Enjoy Last Feature of Week End.

On Sunday afternoon in Bowker Auditorium the Havens Trio of Boston gave a concert before a large audience of Prom guests, students and townspeople. The trio was obtained by the Social Union and was composed of Raymond Havens, pianist; Alwin Schroeder, cellist; and Julius Theodorowicz, violinist.

The concert was a marked success. The feature numbers were three solo selections: Nocturne, Op. 27 No. 2 by Chopin-Sarasate which was played with perfect time by Mr. Theodorowicz; Ave Maria, which was rendered in fine fashion by Mr. Havens; and the Spanish Dance, "Vito" played with much fervor by Mr. Schroeder.

The program was as follows:

| | |
|-----------------------------|-----------------------|
| Trio in D Minor | Atensky |
| Allegro moderato | Allegro molto |
| Adagio | Allegro ma non troppo |
| Nocturne Op. 27 No. 2 | Chopin-Sarasate |
| Rondo | Chopin-Sarasate |
| Ave Maria | Mr. Theodorowicz |
| Waltz, A Flat Major, Op. 42 | Mr. Havens |
| Largehetto | Gavotte |
| Spanish Dance, "Vito" | Mr. Schroeder |
| Trio in D Major | Andante |
| Poco Adagio | Presto |

LEGISLATIVE COMMITTEE MAKES ANNUAL VISIT

Agricultural Solons on Campus Last Week.

The annual spring visit of the Legislative Committee on Agriculture to Aggie took place last Thursday and Friday. The Committee visited all the buildings on the campus, including the Poultry Plant and the barns. At the dinner given in honor of the committee Thursday evening in Draper Hall, President Butterfield spoke on the "Needs and Problems of the Massachusetts Agricultural College." He also talked on the work which the Experiment Stations are doing, and also on the work of the Extension Service.

On Thursday afternoon, the committee "inspected" the students at a special Assembly held in the Auditorium at 4 o'clock. The chairman of the Committee and two other members gave short talks to the student body. The last speaker was especially interesting. He said that the last time he was on the Aggie campus was 50 years ago, and then in a very quaint manner he told of his boyhood days, and finished his talk with a recital of a poem which he had learned in the old school days. The committee departed from Aggie Friday afternoon.

JUNIOR PROM SHOW IS WELL RECEIVED

Roister Doisters Successfully Present "Nothing But the Truth".

The comedy "Nothing but the Truth," given by the Roister Doisters Saturday evening in Bowker Auditorium as the annual Prom show, proved to be a very successful production, being very well presented, and thoroughly appreciated by the capacity audience, which included the Junior Prom guests. From start to finish the actors were well received, and the many humorous incidents and audacious situations did not fail to draw many laughs.

The play, a comedy by J. H. Montgomery, was in three acts, and carried a cast of eleven characters, six men and five women. The scene of act one was the New York office of Ralston, Donnelly, and Bennett, stock brokers; while the summer home of Ralston furnished the setting for acts two and three. E. M. Ralston, stock broker, Van Dusen, a hanger on, and Dick Donnelly, one of Ralston's partners, got trayed by W. B. Peckham '20, R. G. Leavitt '21, and C. M. Bogholt '21 respectively, but Bob Bennett, junior partner of the firm, that he could not tell the absolute truth for 24 hours. The sum put up is \$10,000, Bob's fiancée, who is Ralston's daughter, having given him this sum to double for her. The events of this play center around this bet, and before Bob, at the end of 24 hours, wins this bet he gets into much difficulty himself as well as causing his business partners much inconvenience.

The character of Bob Bennett was very well taken by J. H. Smith '21. (Continued on page 1)

VANDERLIP TO DELIVER COMMENCEMENT ADDRESS

Mr. Frank A. Vanderlip, President of the National City Bank of New York, will deliver the commencement address on June 21.

President Vanderlip was born in Aurora, Illinois. After being educated at the Universities of Illinois and Chicago, he became a reporter for the Chicago Tribune in 1890, and later was made Financial Editor of the paper. During 1897-1901, he was Assistant Secretary of the Treasury. In 1901 he became Vice-President of the National City Bank, New York. In 1909, he became the President of the bank, a position which he still holds. He is also an economist, and the author of the following publications: Chicago Street Railways; The American Commercial Invasion of Europe; Business and Education; Political Problems of Europe; What Happened to Europe. He has published several treatises on economics and finance.

STATISTICS FROM SENIOR CLASS ARE COMPILED.

Answers to 192 Questions Make
Interesting Data.

A recent survey of the Senior Class gives insight into the seniors' four years on the campus, and is quite representative of the student life as a whole. The three coeds of the class were excluded—it not being considered quite in good taste to insist upon answers to some of the questions.

Seventy-two of the hundred seniors smoke;—it may be well to remind the reader again that the coeds are not included; ninety-two dance; eighty-four would not touch intoxicants if they were available. Sojourns to the neighboring colleges of Mt. Holyoke and Smith is an avocation of much delight. The class is unanimous in recommending the practice. Smith is first choice of the two; although Mt. Holyoke girls are in the running as strong competitors. To save the married and engaged from perturbed questioning this will not be called unanimous; however, the thrill of a kiss from a girl other than a relative or fiancée has been experienced quite generally. Four of the seniors are married and eight are engaged in spite of H. C. I. boogies.

Fifty-six per cent. of the class have been members of class or varsity athletic and sixty-eight per cent. of non-athletic activities. Fifty-six per cent. have received offices through popular election. Eighty per cent. favor compulsory athletics. There is a wide difference of opinion as for just how long a period this should be. Most favor two years.

The scholastic honorary society Phi Kappa Phi and the society of Adelpia representing those men prominent in leadership, share nearly equal'y in the students' minds as to which is the greater attainment, Adelpia wins by four votes.

New buildings felt most needed in order are: gymnasium, library, chemistry laboratory and men's dormitory. The years which the men look back upon as the best of their college career are the junior and senior, with slight preference for the junior year. Seventeen have already secured positions. The general salary asked is \$1500 although there is one bargain at \$1000 and one expensive man who asked \$3500. Only seven per cent. contemplate entering business other than in those agricultural specializations for which they are trained at the college.

ALUMNI NEWS

'16.—Earl L. Marshall is with the Edison Company of Boston. His address is: 32 Minot Street, Neponset, Mass.

Ex-'16.—William Doggett, not long ago a lieutenant of Engineers in France, is assistant engineer for the Sisco Milling Company at their quarry and crushing plant in Castleton, Vt. His address is Hotel Maples, Castleton. Many still remember how Bill used to clip off the seconds on the old board track.

'17.—Earle Randall, 1st lieutenant of Marines, writes from Hineche, Republic of Haiti, and tells about the "enemy" as follows: "A brigade is about 20 with a general in command. And they have chiefs of divisions (100 men) who are generals. Then there are delegates, ministers, etc., while every one rates some kind of a title, each brigade being full of colonels and majors and all commissions, just like kids playing soldier."

A detachment under Lieut. Randall's command captured four of the brigands on one occasion, including an "extremely ragged general, chief of Brigade." Address: 1st Lieut. E. M. Randall, 53rd Co., 2nd Reg., 1st Prov. Brig. Marines, Cape Haitien, Rep. of Haiti.

'17.—C. H. Hagelstein is with the army in the Philippines.

'18.—Sidney S. Smith has been engaged for several months in the oil business in Texas. His headquarters are at Wichita Falls, Texas, but you can never be certain where to find him, because he makes trips quite often to

Colorado, Montana, Oklahoma and Utah. He has been joined by Jack Preble '18. '18.—H. L. Russell and '12.—H. H. Wood have opened a self-service grocery store at Leominster.

The Rolster Doister Dramatic Association wishes to express its deep appreciation for the valuable assistance given by Mrs. McCloud, Mrs. Bachrach, the Misses Davidson, and the co-eds in the costumeing of the Prom Show, and for the efficient and profitable criticism given by Mrs. Jennings and Mr. Rand.

INTERCOLLEGIATE NOTES

The intercollegiate wrestling title for this season was won by the Springfield College team. Harvard came second in the rating.

A wrestling club has been organized at Middlebury and meetings are held every week. The team will be developed soon. It is expected, so that challenges will be sent to the Vermont and Norwich team.

There has recently been much criticism of the military department at New Hampshire State by the students of that college because of the system in vogue there, whereby long extracts from the I. D. R. have to be memorized word for word. As a result of such restrictions approximately 50 per cent. of the students taking those courses failed to pass or were conditioned last term.

UNUSUAL SUMMER SCHOOL COURSE AVAILABLE

Special Work in Vocational Instruction to be Offered.

"Special Improvement Opportunities in Agricultural Education at the Massachusetts Agricultural College, Summer School, 1920," is the title of a folder of several pages whose contents are of interest to all connected with the work of agricultural teaching. Briefly, the Summer School at the Massachusetts Agricultural College will present unusual opportunities for study along this line of vocational instruction. It is part of a program for the improvement of teachers in service and the training of teachers, supervisors, and directors of agricultural instruction. The work will be carried out co-operatively by the Agricultural College and the State Department of Education. It will be increased in breadth and intensity by bringing to the college the biggest men in the country in agricultural instruction as a part of the teaching force. The work continues for six weeks, from June 28 to August 6, 1920. Credit for a degree and for advanced degrees may be secured by successful work. The courses are open to present occupants of the positions mentioned above, and to others interested in this kind of work. Further information may be obtained by writing to the Department of Agricultural Education, M. A. C. Amherst, Mass.

'16.—Fred Barnes, late Ensign, left the service February 1918, and returned cross-country from San Diego to Boston, where he is now living at 45 Westland Ave., Suite 6. On his last trip, from the east coast to the Pacific, the Canal, Fred saw a short period of service in finding a dance at the mahogany villa of the Vice-consul.

"Nothing But The Truth"

The Rolster Holsters are to be congratulated upon their notable success in the production of "Nothing But The Truth". The performance was characterized by countless evidences of careful preparation, serious effort, and a painstaking attention to details. And what is more praiseworthy, this splendid result was accomplished without the assistance of a professional coach. Their success is but the natural reward of real work. The enthusiasm and aplomb with which the play was received was entirely due to this capable organization.

Worth Our While?

A dean in a leading university declares in *Bana's Greek Exchange* that he has never known a more feverish interest in social matters among fraternity men than at the present time. He further suggests that the excessive continuance of the condition might lead to the abolishment of the fraternities from college life. The writer sounds a warning well worth the attention of the fraternities of M. A. C. Although our fraternity system is making serious efforts towards the elimination of those men whose only ideal is the pursuit of pleasure, there is much more yet to be done. The elusive, happy medium between play and work should be sought and maintained as far as possible. The adoption and enforcement of house rules regarding study hours, a comprehensive supervision of the underclassmen by the Seniors, and the discouragement of excessive social activity will help.

COMMUNICATIONS

Carry On.

What next? We have adopted the honor system. What is our next task? Our next task is to carry on with a spirit and zest already shown, and make the honor system at M. A. C. one of the best in the country; one worthy to be Aggie's. This should not be very difficult when we stop and consider the

conditions under which the honor system is to work, and what an honor system does and stands for.

The honor system did not work well in only one of the 30 or 40 colleges from which information was received, and this college stated that there was not as much cribbing going on as there was under the police system. Of course in some colleges the conditions are not particularly good for an honor system to work well in, but here at M. A. C. the conditions are ideal. We have a small student body where every one is acquainted with every one else. Our student body is not bulky and unwieldy as that of a university would be, but it is a body which can act smoothly and easily. Its every whim is soon made part of a college atmosphere. We have a faculty that helps to make conditions ideal. The faculty is interested in us and what we do. It is not a faculty that knows you just by the number 3,4, or 5 depending on the number of your seat. We have a faculty especially interested in this honor system, a faculty vitally enough interested to co-operate with us to the very limit. Then we have the type of man here that prides himself on his red-blooded manhood. The type of man to whom being honorable comes as second nature; not a soft spineless sort of a creature, but one of character and will. Perhaps it would be well to consider some things that an honor system does and stands for.

It rests upon the initiative of the students on whether or not the honor system is going to work, and a little initiative will certainly hurt none of us. It brings the college together, for in it you have all forces working for a common end. It leads a man to look at his actions through the eyes of an adult, increasing individual responsibility during four years that he is in college. It gives the men with strong characters a chance to do a good turn, to bolster up the few among us that are weak. One of the most important things that it does is to bring about frank and candid relations between the professor and the student, between the administrative force of the college and the student body. Above all other things the honor system strengthens public opinion in regard to the virtue of honesty. Honesty is up before us constantly. We are reading about it, thinking about it, talking about it. We cannot get away from it. Can we truthfully say that four years in an environment like this will have no effect on our character? Natural exterior environment changes the color of the tree to that of its habitat in but a few weeks. Imagine what, not only exterior, but also interior exposure to this spirit of honor for four years may do to one's character. We must remember, however, to carry on and be ready for any slump in enthusiasm.

There will be periods of lesser interest, when students will become careless and the fire of enthusiasm will burn low. Then will be the time for the present and future big men of the college to get busy; stir up the fire until the pot boils and overflows with the determination to have honor persist on the campus, and not die a dishonorable death. Judging from the working of the system in other colleges a period of laxity every three or four years is almost inevitable. Nevertheless we have men on the campus that can make this period of laxity short and unimportant. It should be the duty of the honor system council to keep the honor system constantly before the student body

through discussions and editorials. It must do its utmost to have the men of M. A. C. working ahead with honor shining before them as the ultimate premium.

The keynote of the whole situation, the thing we must all strive for in order to accomplish this next task, is to keep the public sentiment of the college behind the honor system to such a degree that anyone will report any other whom he sees acting dishonorably. There is little reason why one should not report a dishonorable classmate. This classmate has gnawed at the foundation of the bulwark of honesty that we are trying to build up. He has lowered the standard of the college and cheapened the degree of every graduate. What happens when you do report a man? He is given an absolutely fair trial. You have a group of broad-minded men comprising the honor system council, who, if anything, will be partial to the student. You can get no group of college men to expel a student unless that student is a hopeless case. The council will not expel the man who has made a little slip, but the man whom they know is a flagrant habitual cribber. Knowing that a man will receive a square deal let us go half way and report anyone whom we see infringing on our honor system.

In conclusion, remember there are two systems, an honor system and a dishonor system. We have chosen the system. We have considered the honor benefits of an honor system and know the conditions here are ideal for such a system to work. Now let us carry on and show our "pep" and pride in our Alma Mater by seeing to it that we do not let anyone cause her to break her word of honor to live and abide by the honor system. Remember that the only true system of education of gentlemen is under the honor system. Do

Practical Knowledge

To know how to accomplish the desired results in the application of dairy husbandry is as valuable as to know what the desired results are. Because thousands of users know the superiority of

and profit by this knowledge they are able to prevent the regrettable losses of milk quality that are certain to occur unless the milk containers, machinery and utensils are kept sanitary, wholesome and clean.

So valuable is the use of this cleaner and so little its cost that no one engaged in dairying or any of its branches can well afford to be without the assistance it brings.

DE LAVAL Separator Savings

No machine used on the farm returns a larger profit on the investment than a De Laval Cream Separator.

It saves from 25% to 50% of cream twice a day every day in the year over crocks and pans; and from 10% to 25% of cream over an inferior or half-worn-out separator.

With butter-fat at the present high prices these savings mount rapidly. Many thousands of users have found that their De Laval separators paid for themselves in a few months. De Laval users are always on the profit side of the ledger at the end of the year.

More De Laval separators are used than all other makes combined.

Your local De Laval agent will be glad to demonstrate what an increased De Laval will save you. If you don't know the nearest agent, simply write the nearest office below.

CAMPUS NOTES

Prof. A. K. Harrison was called away on Wednesday by the death of his sister at Saratoga Lake, New York.

Word has been received of the sudden death on April 2 of Mrs. Anna H. Nehrling of Crawfordsville, Indiana. Professor Nehrling was for several years head of the Department of Floriculture at M. A. C.

The following men attended the National Convention of the Theta Chi fraternity, held at the Hotel Aster, New York City, last Thursday, Friday and Saturday: John Holloway, acting delegate, Charles Anderson, Donald Collins, Ralph Stevens, and Roy Brown.

Agricultural Economics Club.

At a recent meeting of the Agricultural Economics Club the following officers were elected for the ensuing year: President, Joseph D. Evers, vice-president, William L. Kimball, secretary-treasurer, Walter I. Palmer. The next meeting will be held April 27.

A beautiful American flag was presented to the M. A. C. Alumni Club of Massachusetts by the Women's Relief Corps at the public patriotic exercises held in Shawmut Church Wednesday, April 17. The flag is of silk and has attached to it two dark blue streamers bearing forty-nine gold stars. It will be placed in the new Memorial Building when completed and until that time will be used in Stockbridge Hall.

The Pomology Club, at its meeting Tuesday evening, April 6, voted to become a member of the American Pomological Society, and elected President Lambert as a delegate to the next meeting of this society. Mr. Egan, a former Aggie man, who now owns a large fruit farm in Easthampton, gave the club an interesting talk on "Growing and Marketing Fruit." He emphasized strongly that to have a good trade a man must give his customers what they want; he also gave a description of a farmers' co-operative market now being held in Holyoke.

The English Department of M. A. C. will give a series of readings in the Old Chapel, beginning Wednesday evening, April 14, at 9:15. All undergraduates and others interested are invited to attend. The readings are to be by the different professors of the department, and have been selected from a variety of interesting literary subjects. The program is to be as follows:

April 14.—Prof. Patterson, Henry IV, Part I.
April 21.—Dean Lewis, Robert Frost's Poems.
April 28.—Mr. Rand, Garlingtown.
May 5.—Prof. Prince, Mrs. Pat and the Law.
May 12.—Prof. Neal, Selected Short Stories.

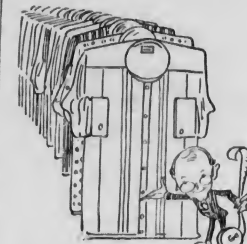

At a meeting of the Junior class, held in the Social Union rooms last Wednesday night at 7:00 o'clock, Peter J. Casco of Willimantic, Conn., and Emerson F. Haslam of Westwood were elected to the Honor Council, which is a body of men to have charge of the new Honor System, recently instituted here by the student body. Other elections at this meeting, included that of Harland E. Gaskill as baseball man-

ager, and of Howard Goff as song leader at the class slug. The election of two committees, one to be in charge of the tree planting and the other in charge of the frolic, was left in the hands of Roger Radio. It was also voted to hold the class banquet the latter part of May.

FRESHMAN BASEBALL NINE IS SHAPING UP WELL

1923 Infield Looks Good. Outfield Competition Keen.

Competition for Freshman baseball started on the old Varsity Field last week with over 25 ambitious yearlings out to "make" the nine. Coach McCarthy is coaching the recruits every afternoon and Saturday mornings, and is fast whipping his raw material into shape. The line-up has not, as yet, been ascertained, but the following first year men have been doing well in the infield and have shown the proper "grip": Latour, first base; Hilyard, shortstop; Tarplin, 2nd base; Alexander, catcher; and Marshman, 3rd base. Gordon and Grayson are doing good work in the outfield where there is very keen competition. The 1923 nine will play its first game of the season with the Greenfield High School team at Greenfield.

ALUMNI NEWS

'75.—Dr. J. F. Winchester of Lawrence, Mass., one of the "Old Guard" of the A. V. M. A. has recently been elected to membership in the famous Author's Club of London, an organization which includes many noted literary men of the English-speaking world.

'98.—Samuel Wiley of Wiley & Co., Inc., Analytical chemists has purchased a large portion of territory in Baltimore, with a frontage on Bead Street and Calvert Street, upon which he plans to build a laboratory to cost \$100,000. The structure will be three stories high and will be occupied by the corporation of which Mr. Wiley is a member.

'11.—G. E. Labontely and A. R. Jenks are running a fruit farm in eastern Massachusetts.

'11.—H. G. Hyde is at Sharon, Pa., where he is doing engineering and landscape work for a large housing proposition. About 100 houses have already been built and the work will continue for three years more involving a total expenditure of approximately \$2,000,000.

'12.—E. I. Wilde is now Assistant Professor of Floriculture in charge of the department at Pennsylvania State University.

'12.—Favorable comment has been received from Lewis F. Deury in regard to the adoption of the "Honor System."

'13.—Word has been received of the marriage on December 29 of H. W. Allen to Margaret J. Warren of North Adams. They are at home on 32 Pierce Street, Arlington in which town Mr. Allen has a position with the Entomology Laboratory.

'13.—Word has recently come to the alumni secretary of the death of Charles A. Hurly, who died on Feb. 14 of influenza.

'13.—Mr. and Mrs. George Zahriske 2nd announce the arrival of a daughter Elizabeth Hoyt, on March 28.

'14.—E. C. Edwards, 116 Dodge Street, Beverly, Mass., is Assistant Factory Manager of Logan-Johnson Limited, Boston Mass., manufacturers of preserved jellies and peels.

'15.—S. K. Farrar is acting as field agent for "The Fame Canning Company" of Tipton, Ind.

'15.—Word has been received of the safe arrival in Tientsin, China, of R. C. Hill. He sailed from this country, December 18, 1919.

'15.—Merton U. Lane, Box 498, Biltzville, Wash. Mer. has charge there of an investigation of wireworms in wheat, for the U. S. Bureau of Entomology.

'16.—Born on Saturday March 5, 1920, to Mr. and Mrs. James T. Nicholson, 1417 Grand Concourse Avenue, New York City, a seven pound girl. Mrs. Nicholson was before her marriage Marguerite E. Dolson, Smith '16.

'16.—Harold N. Caldwell with the National Farming Corporation writes that there are excellent opportunities fellows desiring positions on truck or fruit farms.

'16.—Dwight F. Barnes has severed connections with the U. S. Bureau of Entomology at Melrose Highlands and is engaged in the insecticide business in Boston.

'16.—When last heard from Ralph Kilson was at Chagrin Falls, Ohio, on an extensive landscape development by Warren H. Manning. Hill '11 is superintendent of a farm in the vicinity. The city of Cleveland has the distinction of being 16 miles from Chagrin Falls. Ralph's home address is 334 Franklin St., Newton.

THE JUNIOR PROM

(Continued from page 1.)

couples on the move almost every minute of the long dance.

The following fraternities held house parties: Phi Sigma Kappa, Kappa Sigma, Lambda Chi Alpha, and Q. T. V.

On Saturday afternoon at 2:30 the Combined Musical Clubs gave their annual cabaret in Draper Hall. The clubs were received with the usual enthusiasm and the quartet, consisting of Hylan N. Worthley, Howard M. Goff, Charles Crowe, and Emerson F. Haslam, was especially applauded. Dancing lasted until 6 o'clock and light refreshments were served at tables placed around the hall.

The following were the patrons and patronesses at the cabaret: Pres. and Mrs. Kenyon L. Butterfield, Prof. and Mrs. Philip B. Hasbrouck, and Mr. and Mrs. Frank Prentice Rand.

The following attended the Prom:

Lambda Chi Alpha—W. A. Baker and Miss Beulah Stoddard, Melrose; W. Clapp and Miss Dorothy Bower; P. Brown and Miss Mildred Warren, Camden, N. J.; J. D. Brigham and Miss Ruth Bimay, Whitinsville; L. Fuller and Miss Ardelle L. Kempton, Haverhill; G. L. Goodridge and Miss Elizabeth Guild, Melrose; F. Howard and Miss Elizabeth Stockwell, Sutton; C. J. Johnson and Miss Mabelle Thresher, Brockton.

Phi Sigma Kappa—H. V. Allen and Miss Ruth Gardner, Wellesley; D. C. Douglas and Miss Nathalie Stearns, Allston; C. H. Mallon and Ethel Tirrell, Ashmont; J. J. McCarthy and Miss Vida McCarthy, Arlington; M. M. Smith and Miss Florence Malcolm, Newtonville; J. D. Snow and Miss Helen Douglas, Cambridge.

Kappa Sigma—J. Alger and Miss Christie Webster, Reading; N. Ames and Miss Pauline Hatch, West Somerville; S. King and Miss Annie Urban, Passaic, N. J.; H. Rice and Miss Susan Campbell, Cherryfield, Me.; J. Stockbridge and Miss Rosanna P. Groat, Fitchburg.

Alpha Sigma Phi—R. Chambers and Miss Helene Sands, Melrose Highlands; H. Gaskill and Miss Frances Hause, Harrisburg, Pa.; C. Graves and Miss Helen Kaylor, Chicago; W. Peckham and Miss Susan Greely, Baltimore, Md.; K. Sloan and Miss Alice Brooks, Amherst.

Theta Chi—D. Davidson and Miss Montgomery, Hadley; R. Leavitt and Miss Emmie Stohn, Colorado, Nev.; W. Palmer and Miss Irene Stebbins, Melrose; J. H. Smith and Miss Adela Lyman, New Bedford.

Sigma Phi Epsilon—P. J. Gasco and Miss Mildred Smith, Springfield; W. S. Beauregard and Miss Cecil Patrey, Milwaukee, Wis.; H. P. Quaid and Miss Muriel Hyatt, Ellsworth, Me.

Q. T. V.—C. Boardman and Miss F. Bartlett, Cambridge; R. Horne and Miss Eleanor Darling, Sunderland; D. Kendall and Miss Catherine Hall, Worcester.

Alpha Gamma Rho—S. C. Johnson and Miss Beata Erhard, Milton; P. Robinson and Miss Ina Boles, Dorchester. Commons Club—A. C. Faneuf and Miss Fanny C. Knapp, Lowell.

E. Labrovitz and Miss Rose Labrovitz, Amherst.

INTERCOLLEGIATE

The University of Virginia has organized a club of about 200 students and professors to stimulate interest in the nomination of Herbert Hoover as the Democratic candidate for the next president. One of the objects of this club is to secure the organization of similar clubs throughout the other American colleges and universities.

"NOTHING BUT THE TRUTH"

Continued from page 1

whose clever acting of the part is in no small way responsible for the entire success of the show. Donald Davidson '21, as the village bishop who was innocently swindled out of fourteen hundred pounds by stock transactions, played his part especially well. He received generous applause at each appearance. The two most difficult feminine roles, that of Mrs. E. M. Rolston and Gwen Rolston, wife and daughter respectively of E. M. Rolston, were played by A. A. Clough '20 and Paul Reed '22. Both of these passed for very clever women and acted their parts accordingly. T. D. Watkins '21 and E. B. Labrovitz '21 as Mabel and Sabel, two chorus girls with a part in which they try to connect themselves to Mr. Rolston, played their roles very creditably, and got a big hand. G. R. Lockwood '21, as the butler, proved to be well suited to his part.

The determined efforts of the participants in the production, plus their willingness to give their best in time and effort, accounts for the general success of the play, which success is very noteworthy, considering that this was the first time in several years that the

association has not had a professional coach.

ANDERSON '21 NOW PRESIDENT OF INTERFRATERNITY COUNCIL

The Interfraternity conference held its first meeting of the term Thursday, April 1, at which meeting the new Sophomore members were present for the first time. Officers for the coming year were elected as follows: President, Anderson '21, Theta Chi; vice-president, King '21, Kappa Sigma; secretary-treasurer, Gowdy '22, Sigma Phi Epsilon.

Interfraternity baseball, better known as the Sunrise and Sunset League, will begin as soon as the schedule is arranged. The committee having charge of the league and the making out of the schedule consists of King '21, Gowdy '22, and Moseley '22. The annual interfraternity conference banquet, to be held in Amherst during the next two weeks, is being arranged by a committee of three—Suow '21, Kroeck '22, and Coombs '21.

'19.—Edward Faber was alumni delegate to the National Convention of the Theta Chi Fraternity, held in New York City at the Hotel Astor last week.

No. 25

VARSITY NINE OPENS SEASON THIS WEEK

Chances with Colby on Thursday and
W. P. I. Saturday Look Good.

In writing the prospects for our first two baseball games this week little can be said as to the relative merits of the opposing teams for neither of the teams have played up to this time. The game with Colby on Thursday will be the fourth game for the Maine team on their annual Southern trip. Their team is the same as that of last year when they were runners up in the Maine State League. The Saturday game will be the first game of the season for Worcester Tech. All of last year's team will be seen in their lineup with the exception of the first baseman.

At present the Aggie team under Coach Gore is rounding into shape, and judging from the amount of time that Dean Lewis spends on the field, M. A. C. is going to have a much more successful season than last year. The defensive work of Newell, Captain Jakeman, and Dewing is of the best while Jakeman, Collins, Leut, and Newell are showing up well in batting practice. If opportunity presents, Delahunt or Davis may be seen on first base. Moseley is showing up well in batting.

(Continued on page 5)

REUNION IS PLANNED FOR COMMENCEMENT

Class of 1905 Expects to be on
Hand for Alumni Day.

One of the most important items for the next Alumni Day will be the celebration of the 15th reunion of the class of 1905. According to word received from Prof. H. E. Thompson of the Department of Vegetable Gardening, tentative plans have already been made for the event by Albert B. Taylor, the class secretary. Due to his initiative, the campaign for the big class reunion to be held at Commencement has been started. He has written several letters to class members, and reports much interest in the plans for the reunion. 1905 men are scattered from Boston to Southern California. Fred L. Yeaw recently wrote the secretary that he was planning to come from New Mexico. Several of the men in California are laying plans to make a trip east in time to be on the campus at Commencement. It is rumored that a cup is to be offered to the class that has the largest percentage of its members present on Alumni Day. It so, indications are that 1905 will give other classes stiff competition for this prize. It may be recalled that this class has won the \$100 prize offered for the best showing on the Memorial Building drive, and can be counted on to help make the 1920 Commencement a memorable one.

PROGRAM FOR HIGH SCHOOL DAY, MAY 15, 1920

FORENOON

9-00 to 12-00—Registration and inspection of the college.
10-00—Stock Judging Contest—Grinnell Arena. One class each of cows, horses, sheep, and swine. A special feature provided by the Animal Husbandry Club and the Animal Husbandry Department co-operating. Open to students of high school grade.
11-00—Livestock Parade. An exhibition of the best livestock on the college farm—Grinnell Arena.

AFTERNOON

1-15—Interscholastic track meet. Open to all students of high school grade—Alumni Field.
4-00—Varsity baseball game—Alumni Field. M. A. C. vs. N. Y. State Teachers' College.
6-00—Complimentary supper at Draper Hall, followed by a short program of speaking.
8-00—Concert in Stockbridge Hall Auditorium by the Musical Clubs.
9-30—Fraternity Receptions.

FIRST SPRING INFORMAL WELL ATTENDED

Sixty Couple Enjoy the Annual Prom
Informal.

On April 17 the first informal of the semester was held in the Drill Hall and was attended by about 60 couple. The girls coming mostly from Smith and Mt. Holyoke under the chaperonage of Miss Anna Starr from Mt. Holyoke and Mrs. Carroll and Mrs. Marjorie from Smith.

The hall was very well decorated with the same style decorations as were used at the Junior Prom the week end.

(Continued on page 2)

DRAMATIC ASSOCIATION ELECTS NEW OFFICERS

J. H. Smith '21 Re-elected President
and G. W. Edman '21 Chosen
General Manager.

Last Friday evening the Roister Doiners held their second banquet of the year in Draper Hall. The supper was carefully selected by Miss Diether and proved to be a very fine feed. Immediately after the banquet the annual election of officers and business meeting took place, with President Smith as chairman. The election resulted in the re-election of Jonathan H. Smith as president, and the election of George W. Edman as secretary. Mr. Edman was also elected as general manager for the next year. A committee composed of Mr. Rand, Mr. Edman and Mr. Smith was appointed to see to the selection of a suitable play to be put on at Commencement this spring. The prospects for a successful year are very bright, as practically no one in the society is graduating this spring.

ANNUAL CLASS SING TO BE REVIVED THIS YEAR

Competition for Trophy to be Re-established at Coming Commencement. Original Songs Wanted.

The Annual Class Sing, which last took place in 1916, will take place this year, as in years past, during Commencement on Friday, June 18, at 6-30 P.M., on the steps of Stockbridge Hall.

At a meeting of the representatives of the four classes about two weeks ago it was decided unanimously by them to make this event as attractive as possible. The Alumni, also, at an informal meeting held here this winter, urged particularly that the sings, which have been interrupted on account of the war, be renewed. The Class Sing contest probably ranks among the foremost of popular events at Commencement, and in previous years has attracted large crowds from Amherst and the surrounding towns. The class of 1907, "to stimulate college singing in general, and to encourage the production of original college songs", has established a permanent trophy to be competed for annually under the conditions stated below. This class offered a cup to be preserved in the Trophy Room of the Social Union, and to bear the numerals of the class winning the trophy each year. This will be known as the "Arthur H. Armstrong Trophy" in honor and to the memory of Arthur H. Armstrong, a deceased member of '07. The following are the rules and regulations that govern the Sing:

1. To be an eligible competitor, a class must have present at least 80% of its total membership.
2. Each class shall present at least one selection suitable to be used as a college song, the words or the words

(Continued on page 5)

MCCARTHY '21 TO CAPTAIN NEXT YEAR'S SEVEN

Hockey Letter Men Choose Veteran
of Three Seasons to Pilot
1921 Team.

At a recent meeting of the "M" men of this past season's hockey team, Justin J. McCarthy '21, of Arlington, was elected captain of the team for next season. J. H. Evers '21, of Malden, had previously been elected manager of the 1921 Aggie seven, so the organization for next year is thus complete.

McCarthy prepared for college at Arlington High, where he played on the fast high school team for three years, putting up a sufficiently clever game at wing to cause his selection for an interscholastic septet. He was also a member of the baseball nine in high school. Entering M. A. C. with the class of 1921, McCarthy at once became prominent in athletics. He made the Freshman class track team, and that winter, the season of 1918, the waiving of the Freshmen eligibility rule enabled him to win a place on the Maroon and White seven without much difficulty. He put up a sterling game all season at right wing, and again in 1919 turned in a good season's work for the varsity at the same position. This past season, at his old berth, captain-elect McCarthy has played a consistent game, being considered the fastest man on the team as well as an excellent shot, and his election is a natural criterion of his worth to the team.

His selection as captain of next year's

J. J. MCCARTHY

Aggie hockey team is a popular one and he has all the qualities requisite to a good leader. In addition to his ability as a hockey player, McCarthy is an infielder of no mean ability, and won his baseball "M" in his Sophomore year, playing a fast game at short all season. He is popular in class and college activities, having been class president and at present a member of the college Senate.

He is a member of the Phi Sigma Kappa Fraternity.

Coincidental with the election of the captain for next year comes the announcement of the contemplated plan to condense next season's hockey schedule into five weeks, this to be considered in order to take better advantage of weather conditions and thus complete the schedule. This past season only five of the scheduled games were played owing to poor hockey weather. These five resulted in a 6-0 victory over Springfield, a 10-2 victory against B. U. and a 17 minute overtime win over Boston College. The last two games were reverses, one a 3-1 defeat by Amherst at Pratt Field, and the other a 1-0 setback by Dartmouth at Hanover, N. H. In a 10 minute overtime game, Satisfactory as the showing was from the team's standpoint, the management regretted being able to complete only five of the twelve scheduled games, and the shortening of the playing period into five weeks of good puck chasing weather, while it may mean stiffer work for the team, will in the end undoubtedly prove more satisfactory. If this plan is followed as now seems probable, one of M. A. C.'s leading sports should come into its own next season, and with a revised schedule and a fast team, give a good account of itself. There will be sufficient material on hand next season to build up a fast team around McCarthy as the leading offense man, for only three of the veterans of the season just closed, Captain Crafts, Delahunt, and Dowd will be lost by graduation.

SENIORS HOLD

IMPORTANT MEETING

They Discussed Arrangements for Commencement.

The Seniors on Wednesday evening, April 14, held a regular class meeting and discussed numerous questions in regard to graduation.

Lynons reported that canes had arrived and are now on sale down town at Thompson's for \$1.45. He also announced that the price of the leather covered Commencement programs, containing views of the campus, would probably cost about 90 cents each.

Boardman, as head of the Play Committee, announced that the date of the Senior show had been changed to May 22, and the name decided on is "The Last Chord."

Worthley, reporting for the Class Banquet Committee, said that Draper Hotel at Northampton had been selected for the banquet and that a good menu had been chosen at \$3 a plate. The program for the evening will include three speakers; the president of the class acting as toastmaster, a faculty member, and some live wire alumnus. A picked quartet will be on hand with the music. A special car will be engaged to bring the class home following the banquet.

Mr. Watts has offered to have the words "As of the class of '19" placed on the diplomas of all ex-'19 men who left school on account of the war and were not able to graduate with their class. Similar words will also be placed on the diplomas of all ex-'18 men who desire it.

Dewing announced that President Butterfield wished to talk with the class, so it was suggested that a class supper, followed by a smoker, be held in Draper Hall. Arrangements were left in the hands of the Smoker Committee.

It is desired by Mr. Watts that any

men expecting to enter extension work hand in their names to him.

The Class Ode was discussed and members of the class and the co-eds were urged to write an ode.

Following the meeting measurements were taken for caps and gowns.

STUDENT FORUM DIS- CUSSES STRIKE PROBLEM

Speaker Scheduled for Wednesday's Assembly Is Unable to Get to Amherst.

The speaker who was to have been here on Wednesday, April 14, was not able to address the student body in assembly on account of the railroad strike in New York City. The hour was therefore devoted to a student forum, presided over by Dr. Sprague of the Economics Department. At the last forum a discussion of the right to strike created a great deal of interest in the subject of strikes in general, and a lively talk for this meeting was predicted.

"What Can Be Done To Prevent Strikes," was the topic for debate. The first point that was made was that the working man should receive fair and just treatment, and that shop committees should be formed for their benefit. One other point that was argued considerably was that of allowing the worker to hold shares of stock in the company, and thus become more interested in this work. This was refuted by the statement that it had been tried out and had failed, and also that they could buy now, without making laws to that effect. As another remedy it was suggested that immigration be prohibited for a number of years in order to make labor more valuable. If labor was made scarce, it would be better treated. It was mentioned by several that labor did not strike for higher wages and shorter hours, but for something which it could not understand, namely, the desire for better treatment and greater respect. It was agreed that these were the fundamental reasons why workers showed discontent.

JAMES MACDONNELL

the Harvard middleweight wrestler has recently been elected captain of the team for the third consecutive year. As he was also captain of his Freshmen team this gives him the singular honor of leading a Crimson team for four seasons.

FROSH START SEASON WITH A VICTORY

Defeat the Greenfield Nine 16-2.

On April 19th the Freshman baseball team played its first game of the year against Greenfield High School at Greenfield. The game which was loosely played by Greenfield was won by the Freshman 16-2. Sargent pitching for Freshmen, struck out sixteen men and allowed but one hit, while his teammates led by Gordon ran up a total of seventeen hits, including four or five doubles and a triple by Gordon. Greenfield's fielding was very poor, their fourteen errors making the game a poor exhibition to watch. The Freshmen played well on the defense.

J. P. CAMPION

SEVERE COAL SHORTAGE IS FELT AT POWER PLANT

Plant is Forced to Run for Week on Cord Wood.

Due to the difficulty in renewing the coal contract and to the poor transportation facilities, the power plant has been severely affected by the coal shortage. Since March 24 the plant has been forced to use cord wood for heating purposes. For eight days, from the above mentioned date to April 1st, it was impossible to get other fuel than cord wood, and as a result that was used alone. Coal in limited amounts was, however, obtained at that time, and since April 1st the heating has been maintained by a mixture of coal and cord wood. The coming of warmer weather has aided materially, but at one time the situation was very acute.

INFORMAL

(Continued from page 1)

before. Potted palms hid the orchestra and three or four Japanese parasols at one end gave a unique touch to the hall. The orchestra consisted of five pieces of Boyce's College Orchestra and was repeatedly encircled. Supper was served in the College Dining hall by Miss Dethier at 6 o'clock. The menu was chicken soup, lamb chops, boiled potatoes, green peas, olives, rolls, fruit salad, maple college ice, cakes, candies, demitasse. Dancing continued after supper until 9 o'clock at which time the Smith girls had to leave on a special car for downtown. As the day was pleasant many of the couples spent the time between dances watching the baseball game between the Varsity team and the 2d team on the old Varsity field.

Frank C. ("Zip") Webster has just accepted a position with Armour & Co. at their branch house at Gloversville, N. Y.

The Fraternity House Dance

A review of campus activities for the second semester brings to light the fact that there were no informals held during that period. On the other hand, a number of fraternity house dances were held. The absence of informals may be partly attributed to the difficulty in securing adequate facilities. But this alone does not explain the matter fully. There is a tendency here away from the democratic social gathering. There is a corresponding tendency toward the group affair. One of the last strongholds of true college democracy, the informal, is on the decline. There exists a trend toward the state which exists in one of the nearby colleges.

Aggie democracy is based upon the absence of group action, socially or otherwise. Aggie is proud of her reputation as a truly democratic institution. If fraternity house dances tend to establish an atmosphere of "elitism," they should go. The informal is the truly democratic type of social gathering and should be developed to a greater extent than at present.

The attendance at the informals this year has been comparatively small. There are many men in the college whose financial condition does not allow of their attendance at both their fraternity house dance and an informal within a short space of time. As they seem to prefer the house dance, they are passing up the chance of meeting, on a social basis, their fellow students as a whole, as against the smaller group gathering. This is distinctly contrary to the democratic ideals of M. A. C. There exists, without a doubt, a place for the fraternity house dance among the campus activities. But under the present system it is working toward the wrong end.

Why not change the system? Why not establish a fraternity house dance day? On this day each fraternity could hold its house dance and individual members could exchange dances between houses. The scheme could be

further developed to include a two-day houseparty, if so desired: the feature of the program to be the house dance. This is a matter for the attention of the Interfraternity Conference. The fraternity house dance as conducted at M. A. C. is contrary to the democratic ideals of the institution, and should be accordingly modified, or even completely abolished.

The Class Sing.

The announcement of a class sing as one of the features of the commencement program brings a new activity into the experience of the majority of the students now in college. The class sing is traditional at M. A. C. but was dropped from the commencement program in the spring of 1917 because of war conditions. It has since remained absent for the same reason. The present revival of this custom should receive the enthusiastic support of the entire student body.

The competitive element will increase class spirit. This can do no harm to any of the present classes. The sing is a contest which calls for brains and ability to a high degree. The honor of winning is well worth the effort expended in attaining success.

The evolving of an original song will naturally fall into the hands of those few who are gifted along musical and literary lines. Their number is limited on this campus. The student body is looking to them for something real, not mere rehearsals of productions from other colleges.

The class sing is one of the most beautiful and pleasing customs which previous classes have handed down to the present generation. No class can afford to shirk its responsibility in this matter. Hard work, almost drudgery, will be necessary to perfect the rendition of the songs. Faithful attendance at rehearsals will not be enough in itself; a sincere effort will be necessary on the part of the individual to acquire the proper interpretation. It is due the graduating class, the commencement visitors, the college as a whole, and the individual himself, that the class sing be developed to the extent and position that it formerly held in this college. Individual effort, collectively directed in units of classes, will make it a success. Let us have the class sing back again, with all its old-time harmony and beauty.

J. M. THOMAS OF MIDDLEBURY GIVES INTERESTING THEME

Speaks in Sunday Chapel on "A True Christianity."

At chapel, Sunday, President John M. Thomas of Middlebury College gave the address, using as his title "A True Christianity." His message was preceded by a cello solo rendered by Nowers '23, accompanied on the organ by Mrs. Watts.

At the commencement of his talk Mr. Thomas told of the devotion of Paul to Jesus Christ and named him as a Christian among Christians. When Saul of Tarsus died and the Christian Paul was born, one of the greatest victories thus far in Christ's life was won. Paul's complete transformation is well illustrated in his verses on love. Paul lived on the faith that lived in his soul which visualized a new world in faith of Jesus Christ.

Many people have the idea that Christian religion is teaching the maxim: "Thou shalt not dance nor

play cards," but such is not the case. Christianity is freedom and the living of the life of God in our souls. No man can get along without having sympathetic relations with the people with whom he is working, and yet we each have our own work to do and it is made for us to do it each in our own way as God has seen fit to have us do it.

In closing Mr. Thomas said, "Christianity is in the spirit and deeds of Christ. Let Him into your hearts with a devotion and thoroughness which will make you the man God wanted you to be. Follow not the ideas of any institutions or laws but work out the spirit of his life in your every task."

The Army Athletic Council at West Point has sent letters to Harvard, Yale, Cornell and Princeton regarding the formation of a Polo League. The replies which have been received have been favorable and it is possible that Polo will soon rank as a major sport in these Colleges.

ANNOUNCEMENT

With its recent change in staff, the COLLEGIAN Board has returned to the old plan of holding weekly Monday evening meetings, and wishes to announce that any one who has suggestions or criticisms to offer, or who wishes to bring any matter to the attention of the board, is welcome to come to the office in North College on Monday evenings between 8:30 and 10:00 o'clock, at which time the entire editorial force is in session. Attention is also called to the schedule of office hours of the Editor in Chief and the Managing Editor, posted on the office door in North. THE COLLEGIAN BOARD

Practical Knowledge

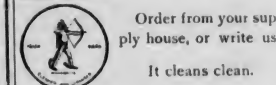

To know how to accomplish the desired results in the application of dairy husbandry is as valuable as to know what the desired results are. Because thousands of users know the superiority of

and profit by this knowledge they are able to prevent the regrettable losses of milk quality that are certain to occur unless the milk containers, machinery and utensils are kept sanitary, wholesome and clean.

So valuable is the use of this cleaner and so little its cost that no one engaged in dairying or any of its branches can well afford to be without the assistance it brings.

Indian in circle

Order from your supply house, or write us. It cleans clean.

DE LAVAL Separator Savings

No machine used on the farm returns a larger profit on the investment than a De Laval Cream Separator.

It saves from 25% to 50% of cream twice a day every day in the year over corks and pans; and from 10% to 25% of cream over an inferior or half-worn-out separator.

With butter-fat at the present high prices these savings mount rapidly. Many thousands of users have found that their De Laval paid for themselves in a few months. De Laval users are always on the profit side of the ledger at the end of the year.

More De Laval are used than all other makes combined.

Your local De Laval agent will be glad to demonstrate what an improved De Laval will save you. If you don't know the nearest agent, simply write the nearest office below.

the length of time that the squad has been at work the result was satisfactory to everyone. Sullivan '22 in the 100 yard dash and the 220 yard dash showed exceptionally fine form and was followed closely in both times by Woodworth '23. Slate '21 also showed up well in the 100 yard dash and Gray '21 and Allen '21 finished well in the 220 yard affair. Crawford '20 finished first in the trials for two miles. Sears '23 also showed up well in this event. In the mile run Gordon '20 and Lyons '20 ran together most of the race but Gordon pulled ahead at the finish and just beat his man. Slate running alone made good time also in the mile. Allen Gray, Spring '22, and Macready '23 ran the half mile. Their time was slow as the runners were hindered greatly by a strong northwest wind. Gray finished first with Allen second. Nothing is known as to the strength of the hurdle race and the men in the field events but Meserve '20 and S. V. Smith '22 are showing up well in practice.

BASEBALL SEASON OPENS

(Continued from page 1.)

practice and although his throwing is not yet in first class shape, he may catch in one of the games. Lent will probably pitch the Gully game, and Kroeck the Worcester game although Luce is going well and may appear in one of the games. The probable lineup against Gully is:

First baseman L. B.
Glavin S. S.
Coffins L. F.
Lent or Kroeck P.
Dewing C. F.
Jukeman S. R.
Maginnis 2 B.
Newell C.

LAW

THE BOSTON UNIVERSITY LAW SCHOOL

Trains students in the principles of the law and in the technique of the profession so as to best prepare them for active practice wherever the English system of law prevails.

College graduates may receive scholarships not exceeding \$75.

Course for LL.B. requires 3 school years. Those who have received this degree from this or any other approved school of law may receive LL.M. on the satisfactory completion of one year's resident attendance under the direction of Dr. Melville M. Bigelow. Several \$25 and \$50 scholarships open in this course.

CAMPUS NOTES

Theta Chi Fraternity announces the pledging of John C. Perry '23 of Waltham.

Doctor Drachler, Professor of Sociology at Smith College, gave an exceedingly interesting talk to the Memorah Society last Tuesday, April 13, in the Entomology Building. His subject was "Democracy and Assimilation."

Adam MacClellan, ex-'19, spent the week-end on the campus. "Mac" will shortly take up a position with a New York engineering firm.

The funeral of J. P. Campion, eldster to a generation of Aggie men took place Saturday at St. Bridget's church.

Mr. John C. Simpson, General Manager of the Eastern States Exposition, will address the Animal Husbandry Club, Thursday night at 7-30 P. M. on the subject "The Eastern States Exposition and its relation to Agriculture in the East." The meeting will be held in Stockbridge Hall, Room 114.

Research Worker Conducts Tobacco-Drying Investigation.

Dr. George B. Chapman, a member of the botanical research department of the college has recently returned from Cayez, Porto Rico where he conducted a series of experiments in the artificial curing of tobacco in connection with the erection of a curing plant by a New York engineering company. The trip extended over a period of three months.

Dr. Chapman's work in the line of tobacco research has become nationally known during the last few years. He is the author of several bulletins on this subject.

DEPARTMENT NOTES

The class in Animal Husbandry 52, with Professor McNitt, took a profitable trip to the Mt. Hermon School, Saturday, April 17, for the purpose of studying the cattle for which Mt. Hermon is noted. The class arrived at East Northfield at 9-30 A. M., and spent the forenoon in judging the East Northfield herd. Lunch was eaten at the Mt. Hermon School, after which the class judged Holsteins until 3 o'clock, arriving home at 5-30 P. M.

Messrs. Wild, Monahan, and Payne, of the M. A. C. Poultry Department, appeared on the program at the meeting of the Amherst Poultry Association, Thursday evening, April 15, at Old Fellows Hall. An auction sale of hatching eggs and live poultry was also held.

Professor Payne addressed the Springfield Poultry Association, Tuesday, April 13, on the subject, "New Discoveries in Artificial Incubation."

Last week a chick feeding experiment was started at the poultry plant. 600 chicks are being tested with six different chick mashers commonly used in this state, to get the rate of growth and the cost of gain.

Colgate has the misfortune to lose the services of captain-elect Laird for the 1920 season. He was recently debarré from all teams representing Colgate, the athletic board having found that he had participated in professional football games.

1921 CLASS BABY

Born April 14, to Mr. and Mrs. George Cole Howe, 81 Pleasant street, a daughter, Madeline Louise, weight 7½ pounds. This item contains the information that the class of 1921 is the possessor of a class baby, the only class now in college to boast of the fact. The father was formerly an '18 man but his foreign service interrupted his college career.

The class of 1921 will take appropriate action at their next meeting.

ALUMNI NEWS

'09.—Born to Mr. and Mrs. G. E. MacGowan, on March 28, a daughter, Ruth Elator, weight, 8½ pounds.

'17.—Mr. and Mrs. R. L. Holden announce the birth of a daughter Dorothy Ephraim Holden on April 12.

Ex-'20 J. Silverman made a week-end visit to Aggie last Saturday. He is doing estimate work for an automobile concern in Boston.

INTERCOLLEGIATE

Harvard University will take up basketball as a major sport next winter. The matter was recently put up to the student body and the majority vote was in favor of establishing basketball on a par with football and baseball.

At University of Vermont rules for women students are in force and are published in the *Squire*. It is interesting to notice that there no rules for the Senior girls but that the latter are asked to bear in mind certain facts.

Rhode Island State varies the publication of their college journal, *The Beacon*, by having one issue each year put out by the Sophomore class and one by the Freshman class, each class electing their own board complete, to handle the publication of the issue.

Tufts has recently been given some lumber for the purpose of building bleachers sufficiently large to accommodate the Oval crowds, and will have the bleachers erected in a unique and economical way. The work of construction will be done by the students, the total project being divided among the nine fraternities on the "hill" and a certain section of the bleachers will be built by each. The only expense to the management will be the nails and tools necessary to construction.

The co-eds at New Hampshire State recently gave a gym exhibition to demonstrate their prowess in physical training, and what is more they held it in the mens' gymnasium.

High school day at Tufts is known as Sub-Freshman Day, and will be held on April 24 this year. The entertainment of the prospective Tufts men has been left in charge of "Ivy," the Junior honorary society.

University of Vermont is to have a Memorial building, and plans to get it in much the same way as M. A. C. secured here, by pledges from alumni and undergraduates. Commenting on how much can be raised among the undergraduates the *Cynic* says: "The students of M. A. C. raised \$25,000 toward a similar building, and it is now being constructed." The building at U. of V. will serve much the same purpose as the Aggie Alumni Memorial Building, and many other colleges throughout the country are planning to raise money for erecting substantial memorials to their dead, in the same way that Aggie is doing.

"T. A. O. Kinsman Jr., has left Albamont Farms, Compton, N. H., and is now located in Epping, N. H., in charge of the sheep on the farm of which Sam Soyes '17 is manager.

ADELPHIA ELECTS TEN MEN

Picks Diversity of Prominent Men.
Evenly Divided Between Athletics and Non-Athletics.

At a meeting of the Adelpia held last Wednesday evening in the Senate rooms, elections were made from the present Junior class for the coming year. The names will be announced at Wednesday assembly. Ten men were picked as those who had done the most for M. A. C. during their college career. The following were selected: Charles H. Kendall of Worcester, Starr M. Kling of Pittsfield, Charles G. Mackintosh of Peabody, Justin J. McCarthy of Arlington, Harold W. Poole of Hudson, Roger F. Readie of Florence, Philip S. Newell of Newton, Lorenzo Fuller of Lowell, Carroll W. Bunker of West Somerville, and Laurence P. Martin of Malden.

Bunker and Fuller have been prominent in many lines of athletic endeavor, both as active participants and managers. Their efforts have culminated in their election as varsity basketball and football managers, respectively. Kendall has been varsity track manager and business manager of the *Index* during the past year as well as a member of several social activity committees. King and Mackintosh have more than done their bit on the athletic field, notably in varsity football. Their record also includes work along social and Y. M. C. A. lines. McCarthy has proved his mettle on the hockey and baseball teams, as well as taking part in many other activities. He is captain-elect of the 1920-21 hockey team. Martin has devoted his efforts to non-athletic activities and is editor-in-chief of the COLLEGIAN. Newell's work as backstop on the baseball team will be long remembered. He has taken an active interest in other forms of athletics as well as non-athletics. Poole is captain-elect of the football team. His record includes a startling diversity of other achievements. Readie is president of the Junior class and has a long list of activities to his credit.

The date of the initiation banquet will be announced in the near future.

LECTURE BY PROF. HOPKINS

A very interesting lecture was given by Prof. A. J. Hopkins, of Amherst College, at a meeting of the Graduate Club last Wednesday evening at 7:30, in the Microbiology Building, on the "Hydrogen Ion Concentration". After reviewing the various ionization theories, he showed how the different concentrations of the hydrogen ion can be determined by indicators. He also demonstrated how this applies to analytical work. The next meeting of the Graduate Club will be in the form of a social entertainment, and will be held at the home of Dr. and Mrs. Marshall, 44 Sunset Avenue, Amherst.

BASEBALL TEAM HAS TWO HARD GAMES OVER WEEK-END

Rhode Island State and Connecticut Opponents.

On Friday, April 30, "Kid" Gore's sphere chasers journey to Kingston, R. I., to take a fall out of the dusky warriors of the State Institution. Up to date neither team has displayed any brilliant brand of ball, the down-casters having lost to Brown 10-1 and Tufts 3-0. Aggie has lost to Colby 9-8, and to W. P. I., 8-6. Rhode Island has a team this year that should eventually come through. It has five veterans, a fair corps of pitchers and a goodly aggregation of hitters.

On Saturday May 1, Connecticut State comes to the campus in place of the Maroon and White journeying to Storrs as stated in the schedule. The game will be called at 3:30 p. m. and will probably be played on Alumni Field. The Nutmeg Nine has fared as badly as Aggie so far in the season having lost to Brown 3-2 and to Springfield 3-0. However the visitors have a veteran team and are full of surprises.

CAVALRY TRAINING WILL BE OFFERED NEXT YEAR

According to an announcement by the Military Department, infantry training will be displaced by cavalry training at M. A. C. next year. As horses will not be available for all the lower classes, the regular dismounted cavalry drill will be used. The site for the stable has already been staked out, and the Landscape Department is at work on the grading plans.

Advance information the Library has placed on its shelves the April issue of the *Cavalry Journal*, a monthly magazine published in the interest of cavalry. The journal contains articles by such men as General Pershing and Sir Douglass Haig, and has interesting accounts of various cavalry campaigns in the World War. One of its aims is to dispel the many doubts concerning the value of cavalry to the military world at the present time.

The Military Department urges that all men who are planning to become members of the M. A. C. cavalry unit get acquainted with this important branch of the service through this periodical.

DELEGATES AT CONFERENCE

A delegation of 13 students from M. A. C. attended the 18th Annual Conference of the Connecticut Valley Intercollegiate Missionary Union held at Smith College, Northampton, April 16-18. The program included many incidents of missionary work. The opportunities in this field, and for workers, were presented by able speakers, among them being Mr. G. Sherwood Eddy and Mr. Frank W. Bible.

FACULTY ENTERTAIN 1921 IN UNPRECEDENTED MANNER

Chapter of Overhall Club is Established.

An unusual precedent was established last Friday evening when the faculty attired in overalls, tendered a reception to the Class of 1921. In the Social Union Rooms.

The entertainment commenced sharply at 8:00 p. m., with an economical cornet solo by Dr. Sprague, after which the entire class was divided into groups and entertained royally by various groups of the faculty.

A straw vote for president was taken with Dean Lewis presiding over the polls. W. J. Bryan was the winner by a fair majority. The agricultural prowess of each man was tested by his ability to identify by order the various brands of fertilizer. Dr. Hano was the worthy pourer of the ale with Prof. Hasbrouck as his assistant. Both performed nobly, while Prof. Mackmer was quite at home giving entrance exams in subjects of various description. The feature of the entertainment was the combination of crullers, sandwiches, coffee, and ice cream served at 10:00 p. m., by Mr. Kenney, caterer.

An Overhall Club was organized into which everybody present, including faculty and students, were initiated. It adopted as its insignia "red tape and black buttons." The meeting adjourned at 10:30 p. m., after a vote of thanks had been given the faculty for providing such a novel and unprecedented entertainment.

INTERFRATERNITY BASEBALL GETS UNDER WAY.

ΣΦΕ and ΑΓΦ Defeat ΑΧΑ and ΘΧ

The interfraternity baseball league opened its schedule Monday, April 20, with two games in which Sigma Phi Epsilon and Alpha Gamma Rho emerged the victors over Lambda Chi Alpha and Theta Chi by scores of 8-6 and 4-2. Both games were close and interesting and especially in that between Sigma Phi Epsilon and Lambda Chi Alpha a better brand of baseball was shown than in most fraternity games. Bacon pitched effectively for Sigma Phi Epsilon and received better support than the opposing pitchers. His teammates gave him a lead in the first inning and were never headed. In the other game play was looser but the score was kept down by the light hitting of both teams.

The score by innings: 1 2 3 4 5
Sigma Phi Epsilon 1 2 0 4 1-8
Lambda Chi Alpha 0 0 3 3 0-6
Batteries: Bacon and Rollins; Holley, Johnson, Bent, Goodridge, Lyons.

1 2 3 4 5
Alpha Gamma Rho 1 0 2 1 0-4
Theta Chi 1 1 0 0 0-2
Batteries: Binks and Hurd; Anderson and Murray.

FIRST GAME OF SEASON RESULTS IN WIN FOR COLBY

Maine Team on Large End of 9-8 Score. M. A. C. Shows Hitting Ability.

The baseball season at Aggie opened Thursday afternoon when the varsity went down to defeat at the hands of Colby by a 9 to 8 score. Despite the threatening weather conditions it was decided to start the game on the old varsity field. The game had no sooner started than the sun came out strong, helping to dry the field nicely.

Lent was on the mound for Aggie and was opposed by a southpaw, Klain. Neither pitcher lasted the full game; Lent being relieved by Crafts after a disastrous sixth and seventh innings, and Klain being relieved by Buckman in the sixth. Both pitchers who started were hit hard. Colby got to Lent in their two big innings and made three singles, three triples and a home run. A screeching double by Collins and a pass to Lent were the undoing of Klain.

Both teams went down in pretty nearly one, two, three order for the first three innings. Lent and Maginnis came across with singles in the second and third respectively. In the fourth Lent hit on the line to deep left center and chased Collins around the bases, scoring what looked to be two big runs for his team.

In the sixth Colby scored five times on a triple by Lampher, a single by Good, Buckman's triple, an error by Glavin, a pass to Klain and a third triple by Wills. Wills was caught off third by a quick throw from Newell to Captain Jakeman. In the seventh the Maine team added two more runs on a long homer to left by Taylor, an error, a passed ball and two singles by Greenlaw and Buckman. In the eighth they scored their last two runs off Crafts on a combination of a pass to Wills, Taylor's neat sacrifice, a single, and an error by Hatchelder on an easy chance which he dropped through his over-anxiety to catch the man at home. Taylor's third hit, a single, in the ninth did no damage.

The sixth inning brought a run for Aggie on Collins' double, a pass to Lent and an infield grounder by Holmes which was too slow to catch Collins. Dewing and Jakeman singled only to be left when Newell hit into a double play. In the seventh Glavin's single, an error by Good and a fine double down the left field line by Lent scored two more for the home team.

The old Aggie fight came back strong in the last half of the eighth and Coach Gore's men put three more men across the plate, coming within one of their opponents' score. Dewing was given four bad ones and took first. Jakeman made it two on when he landed a nice

The Season.

"She are here." With these words one of the leading college humorous magazines conveys the information that spring has finally come. The students of M. A. C. are more than glad to welcome this sprightly season. Following a winter of hardship and difficulty, any style of spring will be enjoyable. The disappearance of the snow, the appearance of green grass in abundance, the bursting of the buds, rain instead of snow, a moderation in the temperature, all these are signs. Closely allied with these comes the sound of bat and ball in the daytime, and the sight of dim figures, male and female, wandering about the campus in the nighttime.

Along with these very apparent manifestations of the best season of the year comes another, indefinite, intangible. It is a condition or state, to which all persons are subject. A general lassitude, a disinclination to perform physical or mental labor; these are the symptoms of "spring fever." Its effect is obvious in the class room and laboratory. Poor work always results. The man who lacks the moral determination to succeed against the intruders of this malady is weakening himself against the future. "Spring fever" is no excuse for shirk work. The remedy is simple. Large doses of stick-to-itiveness are all that is necessary.

The Players.

In collegiate dramatics, wherever the cast calls for women characters, there is always an unpleasant note in the final presentation. Although the female impersonators may portray their parts with an astonishing similarity to the reality, as in "Nothing but the Truth," no more man can expect to take the place of the woman on the stage. The effect tends to verge on the burlesque.

At M. A. C. this condition can be easily remedied. There is in the student body a number of young women who have already demonstrated their willingness and ability in college theat-

ricals. They could, and should, be admitted within the organization of the Roister Doulsters. M. A. C. is a coeducational college and is becoming more and more so every year. With the opening of the new Women's Dormitory, the proportion of men to women will steadily decrease. The present is the time to recognize this fact in those college activities in which the women can participate.

For the benefit of the better, smoother, and more pleasing productions the women students of M. A. C. should be admitted to membership in the Roister Doulsters.

COMMUNICATION

The Informal Committee wishes to announce that there will be two more Informals during the present College year. The dates for these are May 8th and June 5th. In selecting these dates we have tried to have them on week-ends when there is no other attraction on the campus and thus insure a good attendance. The price of Informals for the year has been \$3.00 per ticket, which has included the dance itself, supper, and the tip for the waiter. This is cheaper than for several years. However, at such a price, it is now necessary to raise the price to \$3.50 for the remaining dances and the waiters will not be paid by the committee but must depend on tips from their respective tables.

Informals are one of the best of the college customs and deserve the support of the entire student body. The attendance has been comparatively small at the last two dances. Let us come back strong on the next two affairs. Four years ago an attendance of one hundred to one hundred and twenty-five couples was customary for spring informals. Can we duplicate that? The committee has no way of knowing how many will attend except by calling for a "stand" in Assembly. Won't you cooperate with the committee and stand at such a time? Tickets will be on sale at the office of the field secretary and at the Phi Sigma Kappa House.

CHAS. M. BOARDMAN, Chairman.
For the Informal Committee.

FRESHMAN-SOPHOMORE

BANQUET SCRAP MAY 1

Classes Are Even in Numbers This Year.

The annual Freshman-Sophomore banquet scrap, scheduled for May 1st, promises to be more of an even affair than last year when the Sophomores were outnumbered two to one. The time during which hostilities will take place will be a trifle longer this year than last, being from 11 p. m. Friday to Saturday afternoon, whereas last year it was from 7-30 a. m. to 2 p. m. Saturday. To prevent the success of the Freshmen, the Sophomores this year need detain only two Freshman officers, or the president, while last year three, or the president, was the number required.

It is expected that the present Sophomore class will not resort to the strategy employed by the Sophomore class of last year, when, on the night before hostilities were to begin, some of the unsuspecting Freshmen were gathered up in auto trucks, handcuffed, and held in bondage in an old barn in a neighboring town. However, the Freshmen contrived to escape and joined their classmates who outnumbered the

Sophomores two to one, had vanquished them in the scrimmage, tied them up, and placed them in the wooden stocks which they had prepared in the Drill Hall for the Freshmen. During the scrap this year there is a little larger opportunity for legal kidnapping for both classes, as the season lasts thru the night before the banquet.

The banquet season constitutes one of the most famous of the old college

The lamb gambols, but there's no gamble on the lamb's wool!

At least, not here!

When a fabric goes into our clothes for men and boys we know it's all wool because we prove it by chemical test.

Everything college men wear.

Practical Knowledge

To know how to accomplish the desired results in the application of dairy husbandry is as valuable as to know what the desired results are.

Because thousands of users know the superiority of

and profit by this knowledge they are able to prevent the regrettable losses of milk quality that are certain to occur unless the milk containers, machinery and utensils are kept sanitary, wholesome and clean.

So valuable is the use of this cleaner and so little its cost that no one engaged in dairying or any of its branches can well afford to be without the assistance it brings.

traditions, and in the past was considered one of the greatest events of college life. Former graduates were wont to look back on their banquet scrap as one of the outstanding events of their college experience, and as one of the greatest means of uniting the class and stimulating its spirit. All things considered, the coming season will prove to be as exciting as many, at least, of the past were.

FRESHMEN MENTOR LEAVES FOR NEW POSITION MAY 1

A. M. McCarthy to Teach and Coach at the Arms Academy.

Arthur M. McCarthy, the coach of Freshmen teams has resigned his position and will leave May 1st for Shelburn Falls, where he is to organize and teach a course in agriculture at Arms Academy.

McCarthy graduated from M. A. C. with the class of 1910 and while in college was one of the leaders of his class and in athletics. He was for two seasons captain of the varsity basketball team, a member of the baseball nine, a member of the Senate, of Adelsia, and Q. T. V. Besides holding several class offices. After graduation he returned to M. A. C. as Freshman coach and has turned out very creditable teams.

In college McCarthy majored in Animal Husbandry but during this past winter has taken a course in Agricultural Education in preparation for teaching. He is well fitted for his new duties and is leaving with the best recommendations of the college authorities and the good will of the student body.

DE LAVAL Separator Savings

No machine used on the farm returns a larger profit on the investment than a De Laval Cream Separator.

It saves from 25% to 50% of cream twice a day every day in the year over crocks and pans; and from 10% to 25% of cream over an inferior or half-worn-out separator.

With butter-fat at the present high prices these savings mount rapidly. Many thousands of users have found that their De Laval separators paid for themselves in a few months. De Laval users are always on the profit side of the ledger at the end of the year.

More De Laval separators are used than all other makes combined.

Your local De Laval agent will be glad to demonstrate what an improved De Laval will save you. If you don't know the nearest agent, simply write the nearest office below.

8-15 p. m.—Reading by Prof. Prince in Old Chapel. "Mrs. Pat and the Law."

7-00 p. m.—Joint Debate, Animal Husbandry Club and Poultry Club, Room 114 Stockbridge Hall.

DEAN LEWIS READS FROM ROBERT FROST

Second of Series of Readings by English Department.

Dean Lewis gave the second of his series of readings being given by the English Department, Wednesday evening in the Old Chapel. His readings were several of the poems of Robert Frost, who has personally read his poems to the college on two different occasions. "The Code," the most popular of his poems was well received. "The Death of the Illred Man," "The Home Burial," "Mending the Wall," "Blue Berries," and "The Fear" are some of Mr. Frost's very popular poems which Dean Lewis also read.

On Wednesday evening, April 28, Mr. Rand will read the book of poems which he himself has written, entitled "Gardintown." This publication has attracted national attention in literary circles, exciting favorable comment among the critics.

JOINT DEBATE

On Wednesday evening, May 5, at 7 o'clock in room 114 Stockbridge Hall, a joint debate will be held between the Animal Husbandry Club and the Poultry Club. The question to be debated is: Which offers the greatest inducements to the M. A. C. graduate, going into agriculture, poultry or dairying in Massachusetts? E. F. Haslam and L. Fuller, both '21, will speak for the Animal Husbandry Club, and N. Lincoln and H. Hatch will uphold the poultrymens side of the question. Following the debate the floor will be thrown open for discussion by the members of the two clubs.

By staging such a debate, the two clubs have introduced a new idea on the campus, that of getting the various clubs together. It is believed that such inter-club co-operation will not only stimulate and enlarge both clubs, but will also form a stronger bond of friendship between all the members.

The Roister Doulsters have selected the play "The Witching Hour," by Augustus Thomas, for commencement. Tryouts will be held as soon as the manuscript arrives. Freshmen candidates for assistant managership should hand in their names at once to Edman at the Q. T. V. House.

SOCIAL FORUM MOVEMENT INTRODUCED IN ASSEMBLY

Harold Marshall Universalist Leader of Boston Innovates New Idea.

Harold Marshall, the Universalist leader of Boston, addressed the students in assembly, Wednesday, April 21, on the subject "Democracy and the Social Forum." After a half hour's enlightening on the topic in general, the men in the audience were given a chance to ask questions. This was after the form of the forum at Ford Hall.

The speaker first showed different ways in which the phrase, "All Men are Created Equal" might be interpreted. "Brotherhood and democracy are closely related," he said, "unless I have missed the true meaning of the word." Washington believed that all men were created free and equal, but confined his conceptions to his own aristocratic class, and did not think of considering his negro slaves. Jefferson, on the other hand, was a future idealist and his ideas were way ahead of those of the present day. His meaning of the phrase was truly democratic. In elucidating the difference between intelligence and knowledge, Mr. Marshall said that newspapers, books, magazines, etc., were not sources of intelligence, though they might be of knowledge. The most isolated, remote country farmer might have a high degree of intelligence, but very little knowledge. In other words, "Knowledge is not a test of intelligence."

Mr. Marshall said that the forum was a democratic gathering of all nationalities, which he liked to call "New Americans," rather than "Foreigners," who met on a basis of equality to discuss vital problems. It is a place where many have discovered democracy.

The speaker was then kept busy answering such questions as, "How can you call a foreigner intelligent?" "How are you going to make the newspapers tell the truth?" The answer to the first question was that reading and writing the language was not as important as teaching a man what it is to be an American and what America stands for. As to newspapers, he said that it was not always practicable to tell the truth to the public. The interesting question was asked, "How are you going to test intelligence?" Mr. Marshall said that he did not know, but that "service and intelligence manifest themselves in so many ways that it is hard to come to a conclusion."

LIMIT SOPH-SENIOR HOP TO ONE HUNDRED COUPLES

Prelims will be on Sale During the Month of May.

Plans for the Sophomore-Senior Hop are already well under way and the prospects are that it will be the biggest event ever this year. It will be held in the Drill Hall on the evening of June 21 and before that time the floor will undergo extensive repairs. Decorations are to be sent for immediately, the color scheme selected being apricot and Alice blue. Walter Johnson's Orchestra, which performed so satisfactorily at the recent Junior Prom, will furnish the music.

Preliminary tickets will go on sale for Seniors and Sophomores the first two weeks in May, and for Juniors and Freshmen the three weeks following. They may be secured from C. F. Clark at the Q. T. V. House. Attendance this year will be limited to one hundred couples, only.

MR. J. C. SIMPSON SPEAKS AT ANIMAL HUSBANDRY MEETING

On Thursday, April 22, Mr. John C. Simpson, secretary of the Eastern States Exposition spoke to the Animal Husbandry Club on "The Relation of Expositions and Fairs to Farmers and The General Public." Very few fairs, which are highly specialized, as the National Dairy Show, have been successful, for men have found that they must have something to appeal to all classes. Next year at the Exposition, as an appeal to the young people, \$800.00 in prizes is to be awarded to the student judging teams.

Many people dislike horse-racing at a show, but Mr. Simpson pointed out that any fair to be successful must have some amusement for the people. He believes that we must look to the young people rather than the old men to carry on successful fairs. As to the lure of the West which so many talk about, Mr. Simpson says there seems to be no choice. The East is far ahead of the West, with the good roads, modern improvements, and big markets and opportunities, and the land here is just as good as in the West.

AGGIE ALUMNI OF AMHERST TO HOLD SMOKER

The M. A. C. Alumni in Amherst and vicinity are to hold a smoker in the Social Union on Thursday, April 29th. The meeting is not only to be a social affair but a discussion will be held in regard to the Commencement programs. Several of the classes are planning to hold reunions. The members of the classes that are to hold reunions are in particular asked to be present. The following classes are those that are to hold reunions: '75, '80, '87, '88, '90, '95, '06, '07, '08, '10, '15, '17, and '19. This list is not final and it is expected that a few more classes will plan to get together. Invitation is extended to every Aggie alumnus in Amherst and vicinity and all others who can arrange to come.

SUNDAY CHAPEL

The last Sunday Chapel service was held Sunday, April 25, and the sermon was given by Rev. Archibald Black of the Old South Church, Boston, Mass. The text was taken from the first book of Samuel: "And Saul took his sword and fell upon it." With Saul this was not to be wondered at, for he had always been turning his opportunities against himself.

Education Mr. Black proved, is a great weapon in the hands of men; yet many people use it, not as a benefit to others, but as a curse and hindrance to themselves. Riches is today the best weapon for good and uplift, and it is also the one most seldom put to good advantage. We saw the great weapons of Germany, wealth, philosophy, learning, turned to blood and suicide. France and Belgium, bled white by Germany, have not fallen upon their sword, but will live forever.

Mr. Blake concluded: "All privileges, advantages, gifts, are weapons for our use in the world, to serve men and not to hurt them. I am confident that a man will be judged in eternity by the

use he makes of the weapons given him. I know of no more flashing hell than to turn them against oneself—to fall upon one's sword."

AGGIE ALUMNUS MAKING GOOD AS FARM EXPERT

A somewhat unusual position which one of our alumni has been most successfully filling for the past five years is that of Farm Expert for the Society for Savings, Cleveland, Ohio. This banking institution has found the services of an agricultural expert well worth while. While Murry D. Lincoln '14 has been with the bank the deposits have been boosted from approximately \$500,000 to \$3,000,000. His energy in making better farmers and better farm business men has shown concrete effect in the bank's assets. Alumni will find some interesting articles about Murry D. Lincoln and his work in copies of "Progressive Farmer". The alumni office will gladly send to those interested the issues pertaining. Mr. Lincoln has recently been selected as Executive Secretary of the Ohio Farm Bureau Federation. He has already severed his connection with the Society of Savings and has opened state headquarters for this bureau in the Southern Hotel, Columbus, Ohio.

—Alumni Bulletin.

At a meeting of the Menorah Society last Sunday morning, April 25, in the Entomology Buildings, the speaker was Mr. Victor Kramer of the Harvard Law School. His talk was on "The Jewish Problem in American Universities."

CAMPUS NOTES

Steve Richardson revisited the campus last week.

Albert F. McGuinn, 1922, of Worcester, has pledged Alpha Sigma Phi.

Richard W. Sears '15 and W. K. French '19 visited the campus over the week-end.

"Bill" McKee '18 was back on the campus last week. He is now on the editorial board of the *Berkshire Eagle*.

The Sophomore Company of the M. A. C. R. O. T. C. are having rifle practice in the pit at the rear of the Drill Hall. About half the company has fired, with an average of more than 80%.

The Freshman Relay Team defeated the Sophomores in the annual relay race on the board track last week. The teams ran in the following order: '23—Tarplin, Alexander, MacCreedy; '22—Tarpin, Alexander, MacCreedy, and Woogworth; '21—A. W. Smith, Lewandowski, Spring, and Bent.

Landscape Work in Texas.

Thursday evening, April 22, the Landscape Club was addressed by William Dickinson '16, who is now doing landscape work in the southwest. He told many of his personal experiences since leaving college, and during his talk he showed 40 lantern slides illustrating

the development of landscape gardening, especially in Texas. These slides, which proved very instructive to the future landscape workers, were taken from Mr. Dickinson's own photographs, many of which he took while connected with the army.

INTERCOLLEGIATE NOTES

Williams is seriously considering the abolishment of week-day chapel.

The *Williams Record* makes note of a versatile athlete who won the 60-year dash at a certain meet.

Daniel F. Snow of Tufts, 1921 has been elected manager of next year's hockey team. He is a brother of John Snow, M. A. C. '21.

Five large Eastern colleges are considering the question of tennis as a major sport. Princeton and Yale have already voted to give the tennis men letters. Why not make tennis a varsity sport at M. A. C.?

Students of George Washington University in Washington, D. C., are lured to the performance of the terpsichorean art by an advertisement in the *University Hatchet* which reads as follows:

Dance in the Moonlight at St. Mark's Cafe Every Evening from 9-11

Budweiser

FRESHMEN TAKE BEATING IN BANQUET SCRAP

1923 Retains Officers and is Conceded a Technical Winner.

At 10 o'clock Friday evening, April 30, the Sophomore-Freshman Banquet season began with the Senate calling a meeting of the two classes in the Old Chapel, where the roll was called. At 10:30, the Freshmen were dismissed and gathered at the Old Varsity Field, where they divided alphabetically into two sections. Then they broke up, and cutting across the campus in threes and fours, reassembled in back of the Mathematics building. The officers, within four minutes after leaving the Chapel, were safely stowed away in a small attic of South College. Meanwhile 10 men of the Sophomore class, who had been excused from the mass meeting, were stationed at various points on the campus as scouts, and were provided with torches and rockets for signalling purposes. As the Freshmen met at their rendezvous, one of these scouts, who was stationed at the Entomology building, lit a red torch, signifying that a large body of Freshmen were in his vicinity. As soon as they were all assembled, the yearlings ascended the hill in back of the Storage Plant and halted at the gravel pit. Patrols were sent out every few minutes, and finally the report came that '22 had reached East Pleasant Street, and were still advancing. About 1:15 A. M. the Sophomores were seen approaching in a column with a red torch at its head. Immediately the quiet of the night was broken by loud and discordant yells rendered by both classes. The approaching enemy then sent up a rocket, which burst directly over the pit, where the Freshmen had been "watchfully waiting" for two hours, and illuminated the group of Fresh and the future battlefield. '22 then broke ranks, rushed upon the Freshmen, and the two-hour scrap was on. Some unfortunate Fresh who were so foolish as to wear belts and aprons were immediately deprived of these by their opponents, who used these as things with which to tie their victims when their supply of rope had run out. The Freshmen, fighting valiantly, put up a stiff resistance, but their numbers gradually dwindled down as the Sophs carried off their victims in automobiles to Sunderland and Pelham, thereby breaking number eight of the Senate Banquet Rules, which reads, "Inside the Zone, no method of conveyance shall be used by either class after the opening of the season." As the Freshmen had not much rope and as the Sophomores, profiting by their experience of last year, wore nothing that could be used by their opponents, the latter finally gained the upper hand, and carried off about 30 Fresh to the Drill Hall. Then load after load of victims were carried off in autos to the surrounding towns, where they remained until morning when they walked back to the campus.

FIFTEEN UNDERGRADUATES ELECTED TO PHI KAPPA PHI

Twelve Seniors and Three Juniors Admitted into Honorary Fraternity. Two Faculty Members Elected.

Once again the annual Phi Kappa Phi elections have been held, with the result that 12 men from the Senior class and three of the Juniors have received the highest scholarship honor which this institution has to bestow; while two of the Faculty have been elected as honorary members. The official list of elections is as follows:

PAUCITY.
Arthur B. Beaumont, and Charles H. Patterson of Amherst.

SENIORS.
Harry A. Ball, Bridgewater; Alan F. Boyce, Melrose; Alfred A. Clough, Wollaston; Clinton J. Daggett, Albany, N. Y.; Charles F. Doucette, Melrose; Forrest Grayson, Milford; John E. Littlefield, West Lynn; Max S. Marshall, Amherst; Philip A. Readie, Florence; Lester W. Simmons, Dighton; Raymond T. Siow, Tellico, Conn.; Harlan S. Worthley, Amherst.

JUNIORS.
Roger C. Coombs, Penobscot; Richard A. Mellen, Cambridge; Reginald D. Tillson, Whitman.

These men were suggested by the nominating committee after a careful investigation of each man's record of scholarship; and the list was made to conform to the rules of the society, which state:

At the end of the eighth term in college there shall be elected three per cent. of the men ranking highest in the Junior class.

ROISTER DOISTER TRYOUTS for "The Witching Hour" TO-NIGHT AT 8-15 Old Chapel.

Tryouts for the cast of the Annual Commencement Show will be held Wednesday evening, May 5, at 8-15 P. M., in the Old Chapel.

The Roister Doisters have selected "The Witching Hour" by Augustin Thomas, a play of unusual merit, to be presented to the Commencement guests. The play has had a long run in New York and other large cities throughout the country. The plot is cleverly spun around the phenomena of mental telepathy, and a number of startling incidents occur which tend to nerve up the audience to such a state that when the final curtain drops, faith in the so called bluff is established.

JUNIOR INDEX BECOMES COLLEGE PUBLICATION

Will be Published by Junior Class Under Supervision of Non-Athletic Board.

Wednesday afternoon assembly, on April 28, was in charge of Dewing, '20, President of Adelpia, who brought up for discussion several matters of general interest to the whole student body. Previous to the forum, Dewing announced the ten Juniors and two Seniors recently elected to Adelpia, whose names were published in last week's *Collegian*.

Business Manager Kendall of the 1921 *Index* read a letter from Mr. Frank P. Rand of the non-athletic activities board. Mr. Rand advocated that the *Index* should become a college publication, as the *Collegian* and *Squib*, and thus be supported by a student tax to be paid at the Treasurer's office. This would lower the cost of production to about \$2.50, and give the book a wider circulation.

Kendall suggested that grinds and editorials be omitted, and the book devoted wholly to the historic annals of the class. Lyons '20, later defended the editorials, and Frellick, '20, said the grinds should not be left out, for they have such a large part in the class history and the make-up of the book. Campbell '20, was in favor of giving the non-athletic board control over the finances of the *Index*, for they have the responsibility of getting it out. Later, in the Senate mass meeting, a motion was made and passed, making the *Index* a college institution supported by the student body.

Hunter '21, brought out the point that it is not right to be kept late in classes and receive a half-cut for the next class across the campus. As to the success of the recent forum meetings, it was felt that they were not profitable, as the men often showed by their actions that they were uninterested. Most men have to prepare a speech beforehand, and unless this is done the forum cannot be made a success.

ADELPHIA ELECTS TWO SENIORS

Honorary Body Establishes Unusual Precedent.

President Dewing of Adelpia announced at Wednesday assembly the election of two seniors to the body: Brooks F. Jakeman of Winchester, and John A. Crawford of Allston. This is a departure from established custom. Jakeman has been prominent in athletics and other activities. He is captain of varsity baseball. Crawford has been a leader in all branches of non-athletics, including Y. M. C. A. work. He is also a member of the relay team. He is editor-in-chief of the *Squib*.

(Continued on page 2)

Southern Alumni Club Takes Initiative in Undergraduate Interests.

The Southern Alumni Club, largely through the efforts of the president, Mr. Earl S. Draper '15, has contributed a baseball cup, to be awarded annually to the member of the M. A. C. baseball team who shows the best all round ability throughout the season.

This contribution shows the increasing interest of our more remote alumni in the activities of their Alma Mater, and should also stimulate a healthy rivalry among the members of the baseball team.

CONNECTICUT AGGIE NINE IS DEFEATED 5-1

Nutmeg State Collegians Get Only Four Hits Off Brigham.

Saturday afternoon on Alumni Field the varsity baseball team won their second game in two days when they defeated Connecticut Agricultural College by a 5-1 score. The presence of a fairly strong northwest wind made it difficult for the men to judge some of the high hit balls. Brigham pitched his first full game of the season. His arm was feeling pretty good; so good, in fact, that his opponents got but one clean hit in the nine innings. Their other three hits were infield chances on slow balls. He struck out nine men. In three innings he struck out two consecutive batters, while Mettill thrice fell victim to his shots.

Aggie scored in the first on an error, a stolen base and another error. In the third doubles in succession by Lent and Kroeck scored another run. Collins' single, a steal of second, and Lent's infield hit scored a run. The plate was left uncovered on Lent's hit, and Collins scored from second without sliding. Dewing's single, a passed ball, a sacrifice and an error by the pitcher scored the fourth run in the sixth. The last run was scored in the eighth on Kroeck's second double and an infield miscue. A double play by Slicker on Newell's infield fly killed a promising rally here.

C. A. C. scored their lone run on a hit by Slicker, a fielder's choice and a passed ball.

The fielding of Slicker, the batting of Kroeck, and the all round work of the Aggie pitcher were the outstanding features in the game.

ADELPHIA ELECTION

(Continued from page 1.)

In electing these two men Adelpia has made use of a little known privilege, that of selecting seniors. When the unusual activity of a member of the senior class warrants their election, Adelpia has the right to do this. This year sees the first use made of this ruling.

(Due to an error which was made by a representative of Adelpia in the listing of the elections, the above was not included in the article published in the issue of the previous week.—The Editor.)

FRESHMEN ENJOY BANQUET AT SPRINGFIELD HOTEL

Yearlings End Season With Successful Affair at the Bridgway.

The banquet season of 1920 passed into history last Saturday evening, with the class of 1923 holding a most enjoyable banquet at the Hotel Bridgway, Springfield. Professor Machner was the guest of honor. The 1923 orchestra furnished very good music, and the 1923 Quartet, which proved to be an octet, sang "In a Kingdom of Our Own" a la Caruso. The Class Orator and retiring Historian, Putnam, read the Class History, which was in epic form. Slade then sang "Dear Evelina", his performance being as creditably done as his previous one in the Freshman Show several weeks ago. Alexander, the retiring President, was called upon by Toastmaster Hilyard to give a talk on "Fussing as an Art". He dodged the issue most skillfully and reviewed the class victories over 1922. The next speaker was President Friend who also evaded his subject, "Success Without Women" and spoke about the fine organization of the Class. Professor Machner then gave an exceedingly inter-

esting talk, ending, by telling the class about scholarship. Slade, who was elected Class Song leader a few weeks ago, led the class in a song composed by Sandow and Friend. Several impromptu speeches followed. Grayson, the retiring Class Captain, spoke about his experiences in the scrap, but as he was taken out rather early and given a "joy ride" to the Orient to see Buckley and Barbeck, he could not tell much about the real battle on the hill. Marshman, the leader of the first section in the Scrap told of his "enjoyable" trip to Sunderland and vicinity. Here, he and Alexander hugging a telegraph pole for a few hours, were able to watch the onions growing, and to study the landscape most efficiently. To show that they had mastered the art of "serenading", the Freshmen, led by Slade, sang all the College songs. By this time, all the cigars had been consumed and with a rousing cheer for the Class of '22, the Freshman Banquet ended.

The Class officers are: Roger B. Friend, President; James A. Beal, vice-president; Irving W. Slade, secretary; John S. Hale, treasurer; Robert D. Mohr, sergeant-at-arms; Richmond H. Sargent, Captain; Luther B. Arrington, Historian. The Banquet Committee consisted of Norman D. Hilyard, Chairman, Conrad L. Worth, Edwin F. Ribero, Alexander Sandow, Wilbur H. Marshman, Gilbert H. Irish and Leverett S. Woodworth.

DON'T take a fellow's pipe. Take some other possession. Because wrapped up in his pipe is a fellow's peace of mind, his relaxation, his contentment. This is more than true if it's a WDC Pipe, because then a good smoke is multiplied many times over. Our special seasoning process takes care of this by bringing out all the sweetness and mellowness of the genuine French briar. Just you go to any good dealer and select several good shapes. Put them in your rack. Smoke a cool one every time, and you'll be well on your way to pipe-happiness.

BATFEST AT KINGSTON IS M. A. C. VICTORY

Aggie Sluggers Get Fifteen Hits, For 17-13 Victory.

Friday the baseball team went to Kingston, R. I. and won their first game of the season, against Rhode Island State, in a 17-13 batting bee. The home team used two pitchers while Coach Gore used Lent, Luce, and Brigham. The Aggie batting order was also shifted so that Kroeck is now batting in cleanup position.

In the second inning Aggie scored

four runs. Dewing singled, Newell and Jakeman drew passes, Holmes squeezed home, and a two base hit by Glavin and Cullin's single scored three more runs. Rhode Island scored one in the first, and in the second they counted five more on singles, a two base hit by Murphy, and a sacrifice hit.

Jakeman was passed to open the fourth. Maginnis, Luce, and Glavin slugged and scored on Lent's three base hit. The next inning spelt Waterloo for Rhode Island. Dewing was safe on an error and before the inning was over the Massachusetts team had scored eight runs on a passed ball, a hit batter, two more errors, singles by Glavin and Lent, and Cullin's double. In these two innings Rhode Island scored six runs on a combination of two errors, a hit batter, a base on balls and five hits.

The home team scored once more, in the seventh inning and the M. A. C. team scored once more in the ninth on Dewing's single, a passed ball, a sacrifice by Jakeman, and a single by Maginnis.

ACCOMPLISHMENT IN THE DAIRY

The increasing popularity of milk products is largely due to educational work of the Agricultural College.

The Agricultural College has not only demonstrated the exceptional food value of milk, but has also educated the dairyman in methods of manufacture that insure to the consumer a wholesome, nutritious dairy product entirely free from harmful bacteria and insanitation.

These methods have been assisted and made possible by the aid of

A cleanser which provides the most efficient, sanitary cleanliness to dairy equipment, and for this reason it bears the endorsement of the Agricultural Colleges of the United States and Canada.

Order from your supply house.

It cleans clean.

The J. B. Ford Co., Sole Mfrs., Wyandotte, Mich.

Junior Banquet May 26.

Immediately following the close of assembly the junior class held a meeting in the auditorium. The banquet committee made a report of tentative dates and arrangements. It was voted to hold the banquet at Draper Hall following the Amherst game on May 26. Song leader Goff made the request that original songs be written for the interclass sing and handed in to him. President Readle announced the appointments of the following committees: Tree planting, Sloan, Poole, Kimball; class numeral, Sanford, Jones, Lambert; Junior frolic, Lockwood, Gelligan, L. Baker, Newton and Watkins.

The Pledge.

The honor system, as adopted, is a decided success. It has been in force but a short while. However, there is one phase of its operation that is not generally understood. This can be best explained by quoting from the constitution of the honor system itself. Article II, Section 2. "In order to make an examination valid, each and every student shall at the end of his paper sign the following declaration:

"I pledge my honor that during this examination I have neither given nor received aid."

Section 6 of Article II of the By-laws says that "Should any student forget the pledge at the end of an examination, the instructor shall withhold the grade until the student has been given an opportunity to sign the pledge." To avoid unnecessary annoyance to instructors and students alike, these two sections should be kept in mind at examinations.

The Eligibility System.

With each successive Dean's Saturday, groans and sighs emerge from Aggie's athletes who are prevented by scholastic difficulties from taking part in varsity sports. Although it is evidently just that a failure in studies should stop such participation, the recent Dean's Board revealed the startling fact that some of M. A. C.'s best track material was in danger of being cut from the team because of averaging below 60 per cent in two one-credit subjects.

Under the present system a man below in any two subjects is ineligible for a varsity team, although these subjects may represent only 10 per cent of his total credits. At the same time, a man may be below in a five credit course, representing perhaps 25 per cent of his credits, and yet be eligible. Such a system seems rather obviously unfair. Why should it not be possible for this ineligibility to be based on credits instead of subjects, in order that actual standing might determine rights to athletic participation?

N. F. J.

COMMUNICATION

THE OUTDOOR RIFLE TEAM.

In this day of sustained effort in reviving old Aggie institutions it would be well for us not to overlook the outdoor rifle team. In years past M. A. C. has been noted for her strong rifle teams, and has produced some of the best college teams the country has seen. What has been done in the past we can do now. During the war there has been no outdoor rifle team. This year there will be such a team and it will be a good one. We have the material here for a strong team this year. There is an intercollegiate trophy being contested for a period of 16 years. At present M. A. C. leads, having won it four times. George Washington University, of Virginia is second, having won it three times. If we win it again it is ours for good. Let's go get it! Practice will begin on the rifle range as soon as it can be put into condition, and weather permits. New Springfield 30-30 caliber rifles and plenty of ammunition are available. Let's have every man who can shoot or thinks he can learn to shoot come out and provide the keen competition which will insure a good team. Here is a sport for every red-blooded, steady-armed, keen-eyed, virile man in the college.

N. F. J.

SENIORS HOLD COMBINATION SMOKER AND SUPPER

Decide on Commencement Details.
Senior Show Tickets Soon to be on Sale.

Combining a class supper, smoker, and meeting into one even, the Senior class met at Draper hall Wednesday evening at 6:30. Supper was served in the east wing of the dining hall, at specially reserved tables.

Following the completion of the report, President Dewing called the class to order and took up the business of the evening. Secretary Maples, chairman of the steering committee, suggested a blanket tax to cover all commencement expenses. This was adopted. Plans for the banquet and Senior show were given by the chairmen of the various committees, and were approved by the class. Tickets for the Senior show will be on sale shortly. Time and place to be announced later. Hatlan Worthly lead the class in a short practice sing.

REMAINDER OF 1922 INDEX BOARD SELECTED

Results of Competition Announced.

Competition for positions on the Editorial and Business sections of the 1922 Index ended last week. This has been in conjunction with the 1921 Index board, and in this way the work has been of actual value to an Index, in addition to showing the abilities of the competitors. The editor-in-chief has reserved the right of making any future additions to the board that may be necessary. The following men have been chosen:

Literary Department, Edmund T. Cary, editor, Roger W. Blakey, Kenneth C. Randall, Stanley W. Bromley; Statistical Department, Donald S. Lawcross, editor, William H. Peck, Joseph T. Sullivan, Willis Tanner; Art Department, Roger M. Acheson, editor, Walter J. Rollins, Frank A. Gilbert, photography editor, Clifton F. Giles; Business Department, Robert P. Lawrence, advertising manager, Howland P. Smith, assistant advertising manager, Herve F. Law, sales and collections, Myron G. Murray, photographer.

HILYARD ELECTED CAPTAIN

Starr M. King '21 Appointed as Coach.

The freshman baseball nine recently elected Norman D. Hilyard captain. Hilyard comes from Beverly High, where he played baseball and football. To date he has been putting a good game at shortstop for the 1923 outfit. He was a member of the class football team last fall and manager of freshman basketball this past winter.

Starr M. King '21 has been selected to fill the position of Freshman baseball coach, left vacant by the resignation of Arthur McCarthy '20. McCarthy has accepted the position of agricultural instructor at Ames Academy, Shelburne Falls. King will hold the position for the remainder of the college year. He has had considerable baseball experience, having played short stop on his Freshman team. McCarthy has left the beginnings of what promises to be a fast team, and King should turn out a nine equal to freshman teams in years past. To date the yearlings have played one game, beating Greenfield High 16-2.

TRACK TEAM IN FIRST TEST OF SEASON.

Coach Hubbard Will Send Strong Delegation to Springfield May 8.

Saturday, May 8th, marks the date of the Annual Eastern Intercollegiate track meet, the first meet of the season in which the Aggie team will participate. Ten teams or more from New England and vicinity are expected to enter. A representative team from M. A. C. will be picked later this week. Good work has been done by the team in general so far, and a good showing

THE SAXOPHONE IS NOT THE WHOLE ORCHESTRA

But it's the instrument that adds the sparkling sport in the ensemble.

Just so with TOM'S haberdashery—there's a cravat for you that will "pep-up" your whole appearance without blurring the landscape.

EVER AND ALWAYS CONSULT WALSH

at the meet is expected. Representatives will be present from the following colleges and institutions: Colgate, Stevens, St. Lawrence, New Hampshire, Holy Cross, Worcester Tech, Boston College, Springfield and Rhode Island State.

ALUMNI SMOKER

A group of M. A. C. Alumni gathered at the Social Union Rooms for a social evening and smoker on April 29th. Discussion of Commencement plans and remonies resulted in suggested changes in the program.

Those present included: H. Jewell '19, F. A. Gray '16, Charles Gould '16, Dr. C. A. Peters '17, R. H. Jackson '18, E. J. Montague '19, D. S. Flint '17, R. L. Huden '17.

Pray brought some interesting news from Cuba. He spends his winters there with the Trinidad Sugar Company. Labor is scarce; the U. S. L. is as with us, and sugar shows indications of being a curiously dear next winter. Following the smoker, refreshment was provided in the form of ice-cream and apple-pie.

The Freshman baseball team will play Newburyport High at M. A. C. Thursday afternoon, May 6 at 4 p. m. The visitors are champions of the North Shore League and are coached by Little '16. The yearlings showed considerable ability in their first game with Greenfield High and Thursday's contest should be very interesting.

'20.—George K. Babbitt is manager of a large farm in Marion, Mass. Address, R. F. D. No. 1.

VACUUM RESEARCH ROOM G-E LABORATORY

Using the X-Ray in the Home

Greater X-ray Service—through Research

FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and its use for this purpose soon became universal.

Then further research resulted in the development of an X-ray tube of a radically new type—the Coolidge Tube—with both electrodes of wrought tungsten and containing the highest attainable vacuum.

But the complication of high-vacuum pumps made the new tube in large

quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war, the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.

7-10 P. M.—Landscape Club.
FRIDAY, MAY 7.
7-10 A. M.—Chapel.
Baseball, M. A. C., vs. New Hampshire at Durham.
SATURDAY, MAY 8.
3-10 P. M.—Baseball, M. A. C. vs. Tufts at Medford.
3-30 P. M.—Informal, Drill Hall.
Varsity Track, Eastern Intercollegiate Meet, Springfield.
MONDAY, MAY 10.
7-10 A. M.—Chapel.
WEDNESDAY MAY 11.
3-10 P. M.—Assembly, Mr. C. A. Lyman, of the National Federation of Farm Organizations.

TWO GAMES FOR BASEBALL NINE THIS WEEK

Maroon and White Takes on N. H. State Friday and Tufts Saturday.

This weekend the Aggie baseball nine will leave the campus for a two game trip playing New Hampshire State at Durham on Friday and Tufts at Medford on Saturday. Both of these are considered good ball teams but have made only fair records so far and on the showing it made against Connecticut last week Coach Gore's nine should have better than an even chance.

New Hampshire has lost two out of three games thus far. Her best playing has been done by her two veterans, Butler and Perry, and Blonette a freshman pitcher who struck out 16 men in a game with the Durham Textile Co. last Saturday. He will probably pitch Friday but the chances are that he will not find an easy picking against the Aggie slugger.

Tufts has a nearly veteran team and will probably make the M. A. C. players show their best. Tufts was beaten four times on her southern trip but show her return has beaten Boston University and Trinity College, the latter by a score of 25-5. While at shortstop Glavin and Captain Callahan have been playing particularly good ball. Either Weaver or Calver will probably face Captain Jake-man's nine on the mound.

The Aggie team has apparently struck its stride in the last two games but the pitching staff is still rather uncertain. Crafts and Lane have been out with ruble and Kroeck has been bothered with rheumatism. Brigham will probably appear again in one of the games but the choice for the other is problematical. Batchelder's shoulder is still troubling him and he may not be back on first for some time yet.

Saturday afternoon at 3-30 the second informal of the term will be held in the Drill Hall. Owing to a deficit in the treasury the price of the informals from now on will be raised to \$3.50 rather than \$3.00. Also, that waiters will not be paid by the committee but must depend on tips for any recompense for their services. Attendance this year has not been as large as in former years. Let's get out and show a little of the old spirit that lived before the war.

RESULTS AND STANDING IN INTERFRATERNITY LEAGUE.

After the first week of the interfraternity baseball games Sigma Phi Epsilon, Q. T. V., A. F. P. and Φ K. K., each with percentages of 1000, are tied for first place. Five games have been played in all, every fraternity with the exception of Kappa Gamma Phi having played at least one game.

Phi Sigma Kappa and Kappa Sigma played off their postponed game of April 27, on Thursday afternoon at 5-30 P. M. Both teams were very evenly matched and two extra innings were necessary to decide the contest. Several times Phi Sigma Kappa was in a position to score, but Ames who was pitching for Kappa Sigma brought his team through in the pinches. In the last of the seventh, with two out and a man on first, Bowen came through with a three bagger, scoring the run.

On Friday afternoon, April 30, Q. T. V. defeated Alpha Sigma Phi. Tukey pitched a no hit no run game for Q. T. V., striking out nine men in five innings and allowing but two men to get on base. Three runs were made off Sullivan's delivery in the first and three more were added for the third. The final score stood 6-0.

Sigma Phi Epsilon annexed its second game on Monday by defeating Theta Chi in a live lining game, 4-3. Bacon pitched for Sigma Phi Epsilon and Vinten was on the mound for Theta Chi.

Following is the league standing to date:

| LEAGUE STANDING. | Won | Lost | Per Cent. |
|-------------------|-----|------|-----------|
| Sigma Phi Epsilon | 2 | 0 | 1.000 |
| Q. T. V. | 1 | 0 | 1.000 |
| Alpha Gamma Rho | 1 | 0 | 1.000 |
| Phi Sigma Kappa | 1 | 0 | 1.000 |
| Lambda Chi Alpha | 0 | 1 | .000 |
| Alpha Sigma Phi | 0 | 1 | .000 |
| Kappa Sigma | 0 | 1 | .000 |
| Theta Chi | 0 | 2 | .000 |
| Kappa Gamma | 0 | 0 | .000 |

DE LAVAL
Service Covers the Continent

Every separator user realizes the importance of having his separator in use every day. Delays waiting for parts, with a separator out of use, means great inconvenience and loss of product.

The farmers buy more De Laval separators every year than all other makes combined because there is a De Laval agent conveniently located in practically every dairy community, who is individually trained to assist his customers in setting up and operating their machines, to furnish and put in place repair parts, and to insure prompt service and satisfaction to De Laval users.

Not only is the De Laval Cream Separator superior in all points of separator efficiency, but every user of a De Laval is assured of prompt and competent service for all the years to come.

The nearest De Laval agent will be glad to demonstrate a De Laval. If you don't know his name, write to nearest De Laval office.

RIFLE TEAM COMPLETS SUCCESSFUL SEASON

Makes Creditable Record in Spite of Obstacles.

The M. A. C. Rifle Team has completed a successful season, having made a good showing in the ten National Rifle Association matches and the four matches with individual colleges which have been shot. Full returns of the results in the National Rifle Association matches have been made and show M. A. C. ranking eight among the colleges of the country. Although this record is not the equal of the one made last year, it is still one which M. A. C. may be proud of, especially as these results have been attained in the face of many and serious obstacles. The team has lacked any financial support. The old rifles which have been in use quite a number of years are about worn out, and not as accurate as they should be. The fact that the team has not been able to practice as much as it should on account of the limited amount of ammunition until near the end of the season has also had its detrimental effect. But in spite of all this Captain Frellick and later Captain Lambert have been able to build up a good team with four veterans as a nucleus. Tibson leads with two perfect scores, the only ones made by the team this year in the intercollegiate matches, and has been shooting consistently well during the entire season, while Robinson, Lambert, Cook, Main, Sanderson, Santori and Webster follow close behind. The outlook for next year is bright as

the team loses only one man by graduation this year.

The following is the list of the scores:

M. A. C. 482—Tufts 467.

M. A. C. 483—Boston Revolvers and Rifle Club 494.

M. A. C. 492—M. I. T. 497.

M. A. C. 970—Harvard 975.

Intercollegiate matches:

First match 942; 2nd 964; 3rd 908;

4th 903; 5th 978; 6th 978; 7th 972; 8th 967; 9th 961; 10th 970. Total, 9683.

Highest total made by any college, 9921.

PHI KAPPA PHI ELECTION

Continued from page 1

At the end of the eleventh term these shall be elected enough men from the Senior class to make not more than ten per cent. of the class.

Absolutely no men shall be elected who do not have an average of 85 per cent for their whole college course.

Prof. Charles H. Patterson, A. M., A. B., is assistant professor of English. He graduated in 1887 from Tufts and has been at M. A. C. for four years.

Dr. A. B. Beaumont is a graduate of the Kentucky State University '08. He spent from 1913 till 1917 in graduate study at Cornell University, majoring in soils, where he received the degree of Ph. D., and was elected to the honorary scientific society of Sigma Xi.

He came to the Massachusetts Agricultural College as head of the Department of Agronomy in 1917.

ALUMNI NEWS

'03.—Dr. Henry J. Franklin, Superintendent of the Cranberry Sub-Station Experiment on Cape Cod, and officially known as the greatest bee expert in the world, was a visitor over the week-end.

'13.—J. D. French is now teaching the art of agriculture to Canadian soldiers about to take up land.

'15.—Arthur Johnson recently pitched the Hendee Indians to victory against the New Departure Brake Co., of Bristol, Conn.

'19.—Hall Carpenter, writing from Alexandria, La., says: "Officially I am scouting for the Pink Bollworm, a new pest that is eating up cotton and cotton seed, and the territory I have covered so far takes in the southeastern part of Texas and the southwestern part of Louisiana. We have quite a problem yet to work on."

Obituary.

'72.—Word has been received of the death of Samuel C. Thompson at his home in the Bronx. Mr. Thompson was among the most prominent of Aggie's alumni, as well as one of the oldest. He was a director of the Bronx Realty Co. and the White Plains Building Block Co. He was a member and a director of the American Society of Civil

Engineers and took great pride in holding the latter office. He was past president of the Municipal Engineers of the City of New York; member of the National Geographical Society, Phi Sigma Kappa, Phi Kappa Phi, the League of American Sportsmen, Roome Lodge No. 740, F. and A. M.; Knights of Honor, Royal Arcanum and the Loyal Association of the latter organization. He also held an office of national importance in the Phi Sigma Kappa fraternity, that of Chancellor of the Supreme Court. Mr. Thompson is survived by his wife, Mrs. Alice Thompson, and one daughter, Mrs. Elsie Thompson Shepard.

'74.—Dr. John M. Benedict, who was assistant house physician and surgeon at the Hartford Hospital in 1882 and 1883, died at his home in Woodbury yesterday. He had been engaged in his profession in Waterbury more than thirty years. He was a graduate of the Massachusetts Agricultural College in 1874 and the medical department of the University of the City of New York in 1882. While at college he gained a reputation as an oarsman, rowing on college crews. He was connected with the Connecticut National Guard as Surgeon of the Second Regiment with the rank of major, and was a member D. C. K. fraternity.

COMPLETE CAST SELECTED FOR COMMENCEMENT SHOW

Recent Tryouts Unearth a Wealth
of Good Material.

As a result of the competitive tryouts for the Commencement Show, "The Witching Hour," last Friday night, in the Old Chapel, the following cast was picked:

Joe, a negro servant, Robert L. Jones '21
Jack Brookfield, a gambler, Jonathan T. Smith '21
Tom Denning, a patrolman, George R. Lockwood '21
Harvey, a negro servant, Carroll W. Bunker '21
Mrs. Alice Campbell, Helen S. Millard '20
Mrs. Helen Whipple, Marion E. Early '20
Viola, Susan A. Smith '20
Clay Whitpole, Charles H. Anderson '21
Frank Hardbouth, Carl M. Bogholt '21
Law Ellinger, Lorenzo Fuller '21
Justice Prentice, Donald H. Davidson '21
Justice Henderson, F. A. Fletcher '21
Sergeant, Samuel N. Bosoff '21
Colonel Hayes, Russell D. Baker '21
Mr. Emmet, Roger H. Friend '20

Rehearsals are being held twice a week, and with several experienced "cutters" on the cast, the Commencement guests surely will be delighted with this high class production.

CHRISTIAN ASSOCIATION CON- FERENCE AT BATES COLLEGE

The Annual Presidents' Conference of the New England Intercollegiate Students' Christian Association was held at Bates College, Lewiston, Me., from April 30 to May 2.

More than 15 New England colleges sent their association leaders to the gathering. Aggie was represented by Cecil Fielder, general secretary of the local association; Howard M. Goff, president; and Kenneth Moody, chairman of the Committee on Deputations.

The conference opened with a banquet Friday evening at which the delegates and speakers were introduced and the program announced. Saturday and Sunday were taken up with discussions on how the Christian Association can best serve the college man. The immediate task is to launch a strenuous campaign to enlist students for the Annual Christian Association Conference to be held at Silver Bay this summer from June 24 to July 4.

TRACK TEAM PLACES SIXTH AT SPRINGFIELD

Scores Five Points in Eastern Inter-collegiate. Fourteen Colleges Compete.

At the second annual Eastern Inter-collegiate Track Meet, at Pratt Field, Springfield, last Saturday afternoon the Maroon and White track squad sent down by Coach Hubbard garnered five points, and won sixth place in the meet, out of 14 colleges competing. Boston College won the meet, with Springfield a close second, and the other colleges to place ahead of M. A. C., were, in the order named: N. H. State, Holy Cross, Stevens, and St. Lawrence.

The fact that the Aggie outfit did not place nearer the top may be attributed perhaps, not so much to the unusually competition, as to the very poor weather conditions, that caused a wet and slow track. This assumption as to placing seems in part borne out by the fact that some of the Aggie track athletes who placed well up in the morning trials under favorable track conditions, failed to come through in the afternoon. This was true of Sullivan and Woodworth in the 100 and Smith in the hurdles all three of whom qualified easily in the morning, but lost in the finals.

The 220, the running broad jump, and the mile, were the events in which Aggie scored her five points, two in each of the first two named, and one in the last. In the 220, won by Watson Springfield with Luguan, Holy Cross, second, Sullivan of M. A. C. won third place. Our two points in the running broad jump came by virtue of S. Smith landing a third in this event. In a last mile, won by Nightingale of N. H. State, Lyons with fourth place, brought in another point, making the Aggie total five.

All in all, in this first test of the season, sixth place out of 14 entrants, was good, and speaks well for the success of the team later in the season.

ADELPHI HOLD INITIATION BANQUET

Twenty Five Present at Enjoyable Occasion at Davenport.

The annual initiation banquet of Adelphi was held at the Davenport, last Wednesday night, May 5th, at 8:00 p. m. The affair was a memorial occasion to all present and credit is due Grayson '20, who was in charge of the banquet. About twenty-five were present, including those newly elected, whose initiation took place at that time. Dewing '20, acted as Toastmaster, and after dinner speeches were given by Campbell '20, and Crawford '20. The faculty was represented by Professors MacKimmie, Machmer, and Gore, all of them gave interesting talks.

MR. C. A. LYMAN SPEAKS ON FARM ORGANIZATIONS

Secretary of the National Board in Assembly Speaker.

At the assembly of May 5th, Mr. Charles A. Lyman, secretary of the National Board of Farm Organization, spoke on "Farm Organization."

Mr. Lyman said that Congress is coming to look with more and more favor on the Board, because through its help, they are able to find out what the farmers really want. "The farmers have allowed other groups to gain undue ascendancy in business and government. The Federation of labor, etc., were first on the field, and they have impressed their viewpoints on Congress at the expense of the farmer." So the balance of the city and the country has been out of line. At the present time, it is the duty of the farm organizations to act for agriculture as the human brain acts for the individual.

"The city must be shown the value of the country." As the balance changes in favor of the city, the law-making bodies become more and more urban. It is possible for the decline to continue until there is no longer enough food. Next to understanding the world's situation comes the necessity of understanding the importance of American Agriculture.

"The most immediate thing for agriculture to do is to strengthen its organization. Co-operation is the big thing, for without it, dissemination is bound to occur."

BURNHAM DECLAMATIONS TO TAKE PLACE IN ASSEMBLY

The Burnham Declamation Contest is to take place in Assembly June 2. The call has already been sent out for contestants by Prof. Prince, and nine men have come out, three Sophomores and six Freshmen. This number includes much excellent oratorical material, and the speeches should be of considerable interest to the student body.

No date has yet been set for the Flint Oratorical Contest, although there is a movement on foot to have it a part of the Commencement exercises. The call for contestants was given this afternoon at Assembly.

COLLEGE AWARDS DIPLO- MAS TO SERVICE MEN

Announcement is made from the President's Office that all men who completed three years of their course here at college, and who enlisted in the service during the war, should be awarded the degree of B. Sc. *Honoris Causa*. The names of these men are to be announced some time before commencement.

BISSINETTI HOLDS M. A. C. TO ONE RUN AT DURHAM

Allows Visitors but Three Hits, Maroon and White Losing by 7 to 1 Score.

Friday afternoon the baseball team went down to defeat at the hands of Bissinetti, a young New Hampshire State lad, who held the Aggie team down to three hits, and struck out ten. The score was 7-1.

The M. A. C. team went to Durham handicapped by the loss of Lent, who will probably be out of the game for the rest of the season. In the middle of the game an incident occurred that will necessitate the changing of the infield for the remainder of the season. Glavin slid into second base on a close play, and somehow or other got his foot caught in the bag so that a small bone in the lower part of his leg was broken. This injury is a serious blow to the team, and to "Bill" who has played a creditable game at short stop this spring, and has been showing good form with the stick.

Although the Granite State men made only six hits, errors proved costly to our team. Five of the runs were the result of errors on the part of the M. A. C. team.

New Hampshire scored twice in the second inning on two wild throws: a single, and a sacrifice hit. They scored twice more in the third on a pass, a two base hit, and a sacrifice fly by Combs. A pass, a sacrifice, another pass, and two errors annexed two more runs in the fourth. Their final run was made in the fifth. It took an error, a sacrifice, an infield out, and a single to manufacture this run.

The Aggie team scored in the fourth inning. Maginnis drew a pass, Brigham singled, and Collins singled. Holmes ended a threatened rally by hitting into a double play. Aggie threatened again in the ninth. Dewing singled, and Jakeman walked, but the next three

(Continued on page 21)

LAST INFORMAL OF YEAR HELD

Last Saturday afternoon the last informal of the year was held in the Drill Hall under the direction of the committee. Boyce's College orchestra furnished the music. The dance was attended by but 40 couples who braved the driving rain and wind. The hall was decorated with blue paper hangings and the banners of all the fraternities on the campus, and with the customary Smith and Mt. Holyoke banners. Miss Diether served supper in Draper Hall. The chaperons were Miss Putnam and Mrs. Hamilton from Smith. Mrs. Hicks from Amherst, and Miss Kenny from Mt. Holyoke.

Owing to the small attendance at this informal there will be no informal on June 5.

Two base hits—Butler and Broderick. Stolen

bases—Glavin, Dewing and Champaign. Sacri-

fice hits—Rummala, Broderick, Bislinetti, and

Comor. Double plays—Bislinetti and Comor.

Double plays—Bislinetti, Butler and Champaign.

Struck out—by Brigham 6, Bislinetti 16. Base

on balls—off Brigham 4, off Bislinetti 5. First

base on errors—M. A. C. 0, N. H. State 4. Hit

by pitched ball—Perry. Left on bases—M. A. C.

6, N. H. State 5. Double plays—Bislinetti to

Bolton to Champaign, Glavin to Maginnis to

Dewing.

The loss of Glavin and the disability

of Maginnis has made it necessary to

whip a new infield into shape. Capt.

Jakeman will continue to play at third.

Batchelder will be seen back on first

base as soon as his arm is in shape.

McCarthy and Moseley are trying out at

second base, while Hilyard has been

taken from the Freshman team and is

practising at short stop.

On High School Day the varsity will

play N. Y. Teacher's College on Alumni

Field. The New York team was de-

feated decisively by Worcester Tech last

week. Other than this little is known

of the strength of the team that will

line up against us Saturday.

SHORT COURSE NEWS

Federal Board Students Organize Vocational Club.

The Federal Board students have or-

ganized a Club to promote the welfare

of the Federal Board men both in social

and college life. The organization has

been named the Massachusetts Agricul-

tural College Vocational Club and will

hold its meetings every Tuesday even-

ing at seven o'clock in Room D of the

Entomology Building. So far about 100

ex-soldiers have signed up as charter

members, but there will be a chance

for the Federal Board men who wish to

join to be enrolled as charter members

next Tuesday evening. The formation

of this club has been brought about

with a great deal of interest on the

part of the Federal Board men, and

their efforts have met with hearty co-

operation on the part of the faculty and

the four-year men.

Two-Year Team Starts Well at Home.

The Two year team made a good

showing on the home grounds last Wed-

nesday by defeating the Hopkins Acad-

emy by the score of 16-1. The playing

of Reardon, left fielder of Hopkins fea-

tured for the visitors, while the batting

of Captain Kaveney with 4 hits in 5

times up aided the Shorthorns to vic-

tory. The fielding of Stockbridge and

Coughlin was also good. The summary:

Training College Men for Business

The Graduate School of Business Administration of Harvard University offers a two-year course to college graduates. The course is designed to give a broad fundamental training for business together with specialization in those fields in which the student is most interested.

College men, looking to business as a career, feel the lack of adequate preparation which enables them to deal effectively either with general business problems or with the problems in their own special fields. The Harvard Business School aims to fill this need.

Special emphasis is placed upon the application of business theory to actual business problems. For this purpose the "problem method" of instruction is used. The Boston territory affords an excellent business laboratory.

Courses offered: Accounting, Business Law, Banking and Finance, Marketing, Advertising, Industrial Management, Employment Management, Business statistics, Foreign Trade, Transportation, Insurance, Lumbering, Income Taxation, Office Organization, Printing and Publishing.

Completion of the two-year course leads to the degree of Master of Business Administration.

INTERCLASS BASEBALL SCHEDULE ANNOUNCED

1922 and 1921 Look Like Strongest Combinations.

The interclass baseball series is now under way, but apparently less interest is being shown than usual. All of the teams are more or less uncertain quantities and the Sophomores are the only ones who have yet held any organized practice. 1920 has the material for a

ACCOMPLISHMENT IN THE DAIRY

The increasing popularity of milk products is largely due to educational work of the Agricultural College.

The Agricultural College has not only demonstrated the exceptional food value of milk, but has also educated the dairyman in methods of manufacture that insure to the consumer a wholesome, nutritious dairy product entirely free from harmful bacteria and insanitation.

These methods have been assisted and made possible by the aid of

a cleaner which provides the most efficient, sanitary cleanliness to dairy equipment, and for this reason it bears the endorsement of the Agricultural Colleges of the United States and Canada.

The War-Diplomas.

In granting diplomas to those men who attended M. A. C. for three years and then left college for the service, the faculty is taking a step which should have been made long ago. It is never too late to mend and the faculty is to be congratulated upon their belated magnanimity. Just exactly what these diplomas are worth, except as parlor decorations, remains to be seen.

What do You Know?

What do you know about M. A. C.? What is the relation between the extension service, the experiment station, and the college? Could an engineering department be established at this college without the permission of the state legislature? Why is military training compulsory? What is the Hatch Act? Who supports the college? What departments receive federal aid?

An examination on the history and organization of the college administration would find the majority of men on this campus rated very low. The undergraduate body has no apparent interest in these facts. Yet, is it not worth the while of any man to know how and why his college came to be what it is today? Its story is one of the important parts in the history of Massachusetts. To possess a complete knowledge of, and to be able to talk intelligently on the subject of what your state has done toward the development of agriculture is something which could be expected of a man attending M. A. C. Can you?

The devotion of a morning chapel to a brief explanation of the college history and organization would bring enlightenment to many.

Old Clothes

The official adoption of an old clothes campaign by the students will make little difference in the general appearance of the men. Although not in the sweatshirt class, neither are the men of M. A. C. accustomed to appearing in

formal attire at the evening meal. It is apparent to the casual observer that a sensible adaptation of the old-clothes movement has been in force on this campus for some time past. Serviceability has been placed ahead of appearance. Sartorial display has been relegated to the background in favor of comfort and durability.

Nevertheless, the official sanctioning of the old clothes movement, rather than the promulgation of an overalls club, is a step in the right direction. Overalls would be merely a new expense, especially so, considering the "croaking" qualities of the fabrics used in their manufacture. Old clothes are comfortable, inexpensive, and more or less durable. More power to the old clothes campaign!

COMMUNICATION

The Rolster Dolsters feel that an explanation is in order regarding the selection of the cast for the Annual Commencement Show, "The Witching Hour."

An unusual, yet wholesome, precedent has been established this year by placing co-eds on the cast. In a drama possessing the high standard of the production under consideration it seemed almost sacrilegious to let men murder the women's parts, and especially when the very action and characterization of these parts are so vitally important to themselves and to the success of the play.

Then, again, the association is congratulating itself for being able to obtain the services of the three Senior co-eds, Miss Helen Millard, Miss Susan Smith, and Miss Marion Early. In the rehearsals held up to date they have all demonstrated their ability and proved to several "Dothing Thomases" that co-eds are an asset at M. A. C., and are capable of upholding the ideals and standards of the college.

SQUIB BOARD ORGANIZED FOR 1920-21.

The recent elections of the Squib Board for the coming year are announced as follows:

Editor-in-Chief, M. F. Webster '21.
Managing Editor, C. R. Vinton '22.
Literary Editor, B. F. Jackson '22.
Exchange Editor, G. E. White '22.
Art Editor, F. S. Fletcher '21.

BUSINESS STAFF:
Business Manager, D. C. Douglass '21.
Advertising Manager, M. M. Smith '22.
Circulation Manager, R. P. Lawrence '22.

These officers will take up their duties with the last issue of the Squib, which appears in June, and remain in office one year.

At Assembly last Wednesday, May 5, the student body voted to allow the wearing of old clothes and overalls around the campus. This is in harmony with the majority of the colleges in the country, where the students are wearing overalls in an attempt to overcome the high price of clothes.

The Agricultural Economics Club will hold a joint meeting with some other club on Tuesday evening, May 18. Howard Russell '18, will be the speaker. He will speak on the self-service grocery stores, one of which he has recently been managing.

About 100 students have applied for student labor next term. This includes those who already hold positions and wish to renew them.

AGGIE GRADS RATE HIGH IN LANDSCAPE WORK

In Landscape Architecture for January, there appeared an editorial in connection with the recent election of superintendent of the Niagara State Reservation, which should be of special interest to Aggie men. There were 60 applicants for the position, of all ages and all trades, from gardeners to bookkeepers. The Reservation Committee evidently wished to find a man who was a good executive officer, expert in handling men, with a knowledge of park work, and also capable of originating and designing extensions and improvements. And of the eight high candidates for the position, the four highest were Aggie men, two of whom were Charles A. Tirrell '06 and James Walker '08.

The H. C. L.

is to be discussed in the College Class

WESLEY METHODIST EPISCOPAL CHURCH

7-40 P. M. — Agricultural Economics Club Meeting, French Hall.

WEDNESDAY, MAY 19.

8-00 P. M. — Assembly, speaker to be announced.

PROF. PRINCE READS

"MRS. PAT AND THE LAW"

The fourth number of a series of readings given by the English Department was rendered at the Old Chapel last Wednesday evening at 8:15, by Prof. W. E. Prince.

The reading was "Mrs. Pat and the Law" by Mrs. Aldis. The story depicts a Irish woman who was abused by her husband until she even took out a warrant for his arrest, but became at the reading moment remorseful and happy. The selection was much enjoyed by the small crowd.

The last number is to be given at night, when Prof. Neal will read from selected short stories.

STANDING IN INTERFRATERNITY LEAGUE CHANGES

4-2 K Goes Into Lead, in First Place
Deadlock is Broken.

With the increasing number of games played in the interfraternity series, comes a corresponding change in the league standing, with Phi Sigma Kappa and Alpha Gamma Rho tied for first place.

Four games scheduled for the week were played and three were postponed. Sigma Phi Epsilon was beaten 10-6 on May 7 by Alpha Sigma Phi, and so lost her hold on first place. Q. T. V. also fell back into the tie for second place by being defeated by Phi Sigma Kappa 2-2. Lambda Chi Alpha came up to the bait by mark on Friday, May 7, when she won a four inning game from Theta Chi, 1-0. Kappa Sigma played another seven inning game when on May 10 they were trounced by Theta Chi. The score was 1-0 to the sixth, but in the seventh Theta Chi scored up the game by recording a clean run. The final score was 1-0.

LEAGUE STANDINGS

| | Wins | Loss | Per Cent |
|-------------------|------|------|----------|
| Phi Sigma Kappa | 2 | 0 | 1.000 |
| Alpha Gamma Rho | 1 | 0 | 1.000 |
| Sigma Phi Epsilon | 2 | 1 | .666 |
| Q. T. V. | 2 | 1 | .666 |
| Alpha Sigma Phi | 1 | 1 | .500 |
| Lambda Chi Alpha | 1 | 1 | .500 |
| Theta Chi | 1 | 2 | .333 |

| Kappa Gamma Phi | 0 | 0 | .000 |

MR. RAND READS FROM HIS OWN POEMS

Pleasant Audience with Selections from Garlingtontown.

Frank P. Rand read a collection of his own poems, "Garlingtontown," to an assemblage of students in the Old Chapel recently. Professor Patterson introduced the speaker and spoke very highly of his collection.

Mr. Rand said that although he considered the title "Garlingtontown" a great pity to his poems, there were critics who thought that it reflected too much of care, and recommended one of "Union Town." So, this week's readings, and selections in Garlingtontown were two readings which created great favor with the audience. Mr. Rand also read some selections which are as yet unnamed and not published.

The organization at the power plant is considerably improved, and although they are still using wood, the future outlook is much better. Teams are hauling the coal from the depot since the truck, ordinarily used, is being overhauled.

MUCH INTEREST SHOWN IN COMING SUMMER SCHOOL

Many Requests for Particulars Already Received.

Great interest is being shown throughout the state in regard to the Summer School to be held at M. A. C. this coming summer. Over 300 unsolicited inquiries regarding the course and requests for bulletins have been received by the Short Course Department. An enrollment of at least 400 is expected. In addition to the regular course, there is a six weeks course offered by the Department of Agricultural Education. There will also be the regular summer term for the Federal Board men. The six weeks course in Agricultural Education mentioned above will be from June 28 to Aug. 6, and is designed as a practical course for workers in agricultural teaching and administration under the Vocational Educational acts. The course is open to men who are now employed in advanced positions who feel the need of adding to their stock of information, and to successful teachers of agriculture looking for advancement. Since the courses are six weeks in length it may be possible to secure credit in them for a half term toward a degree.

CAMPUS NOTES

D. Cook ex-'21 attended the Informal last week.

The Sophomore class, at a recent meeting, elected R. W. Arms of Hopkinton tennis manager.

A "get-together" of all ex-1st Division men is to be held at 90 Pleasant street this evening at 7:00 p. m.

At a class meeting last Thursday evening the Juniors elected Carl M. Bögholt tennis manager.

The first Dean's Board of the term appeared last Saturday morning with a representation of 68 Sophomores, 11 Juniors, 4 Seniors, and 9 unclassified.

The Massachusetts Chapter of Commons Club was represented at the National Federation meeting at Wesleyan University last week by A. E. Tower '14, A. C. Williams '20, F. M. Gifford '20, and E. B. Newton '21.

It plans materialize, the Pomology Club will hold a joint meeting, possibly with the Aggie Ec Club, on Tuesday evening, May 18. Films on the Citrus Industry are expected from California, and these will be shown at the meeting.

The Princetonians mention the Princeton campus as the most beautiful spot on earth during the spring months, and asks the student support in keeping the lawns looking well. Let's keep off the campus lawns here at Aggie and show visitors that New England's prettiest campus is in this part of Amherst.

The Poultry and Animal Husbandry Clubs met in their scheduled debate last Tuesday evening at 7:30 in Room 114 in Stockbridge. Hatch, Haslam, Lincoln, and Kirkland gave prepared talks, and the meeting was then thrown open to all present. About twenty-five men of the two clubs attended the meeting.

The Graduate Club held a social evening Wednesday, April 28, at 8 p. m. at the home of Dr. Marshall. Music and singing were provided by Mrs. Marshall and Mrs. McFall. About twenty members of the Club were present and among the guests were Prof. McFall, Prof. and Mrs. Taylor, Mrs. Jefferson, and Miss Donadale.

NEW YORK STATE COLLEGE OVERWHELMED 20 TO 1

Hilyard, Kroeck, and Dewing Lead
Batfist on Alumni Field.

Saturday afternoon the reorganized varsity baseball team defeated the New York State Teachers' College by the one sided score of 20 to 1. The game was played on Alumni Field before a crowd of over a thousand high school men and students of the College. It took two and one-half hours for the players to decide that they had run bases and batted enough for one day. Although the game was uninteresting from the standpoint of good baseball as a whole, it brought out several redeeming features to the Aggie rooters. Hilyard, a Freshman, played his first game at short stop and put up a very good game in the field besides making three clean hits. Brigham pitched a good game and fielded well. He struck out 12 men. Dewing came in from deep center in the fifth inning, on the dead run and caught what looked to be a sure hit from Cassavant's bat. In the next inning he delighted the crowd by hitting the ball to deep left, making a home run. Kroeck also hit well, getting three hits and scoring five times. After Brigham had struck out three men in the first inning, Hilyard started the game right with a line drive to left. He was sacrificed to second by Batchelder. Collins was safe on Sherlock's error, and singles by Kroeck and Dewing brought in three runs. In the second inning singles by Jakeman, Collins, and Maglioni, a base on balls to Brigham and Batchelder, two base hits by Hilyard and Kroeck, two errors and a sacrifice hit by Jakeman, brought in nine runs. After this the New York

ANNUAL HIGH SCHOOL DAY OBSERVED SATURDAY

Record Number of Prospective Aggie
Men on Campus.

High School Day at Aggie was observed Saturday, May 15, with a record-breaking throng of visitors. Besides many prospective Aggie men of high school age, the college entertained a large number who were here simply to look around and enjoy the festivities. The actual number of visitors for the day was 414 for the boys and 93 for the co-eds. There were 52 high schools represented, well distributed from one end of the state to the other. Many of those from distant points arrived Friday night and left Sunday, and while here were quartered at the various fraternity houses and in other rooms about town. The weather of Saturday proved to be very respectable, and the various affairs took place as scheduled. Early in the forenoon the visitors began to arrive, and kept coming until noon. The morning was devoted chiefly to sight-seeing and to registering at North College. Some parties stayed on the campus, while others journeyed to Sugar Loaf and other points to see the surrounding country. A stock judging contest was held before dinner at Grinnell Arena for those interested in the farm animals. Directly after dinner the intercollegiate track meet took place on Alumni Field, followed at 4 o'clock by the baseball game, M. A. C. vs. N. Y. State Teachers College. After this the visitors enjoyed a complimentary supper at Draper Hall. The building was taxed to overflowing at both dinner and supper.

The next event of importance was an entertainment at 8 o'clock in Stockbridge Hall. This included a concert by the Musical Clubs with the Quartet, some Scotch selections by Davidson '21, and a short performance by Smith and Leavitt '21. Davidson was encored line after time by the audience while the dancing act given by Smith was especially good. The Glee Club was forced to omit several numbers from the program owing to the absence of the leader, Harlan Worthley; however, both clubs made a fine showing, and the Sub-Freshmen were able to get a very good idea of some of the college talent.

To complete the day in the proper manner, the fraternities observed "Open House" Saturday evening, and informal get-togethers were held after the concert. The Sub-Freshmen were thus given a better chance to get acquainted with the men together and to see the fraternity life. High School Day this year was considered the biggest event of its kind ever held on this campus, both in the number of visitors and in special features; so that prospects look bright for a large entering class at Aggie next September.

NEW SENATE MEMBERS ELECTED AT ASSEMBLY

Seven Men Chosen from Junior and
Sophomore Classes. Fuller
New Cheer Leader.

At the Assembly of May 12 the annual elections were held for the College Senate. The following men were elected: Juniors—Lorenzo Fuller, H. W. Poole, and R. F. Readio; Sophomores—C. F. Clark, C. H. Gowdy, J. N. Lewandowski, and A. W. Smith.

Fuller is manager of varsity football, has held the offices of vice-president and captain in his class, has played class football and basketball, and was manager of the latter in his Freshman year. He was also recently elected to Adelphia.

Poole is captain of the 1921 varsity football team, has played in the varsity backfield for two years, and has been a member of class and varsity hockey teams. He was also elected to Adelphia. Readio is a member of Adelphia, has played varsity football and basketball, has been on his class football, basketball, and baseball teams, is on the Informal Committee, was class captain in his Sophomore year, and is at present the president of the Junior class.

In 1922, Clark has played class football and basketball, is assistant manager of varsity baseball, and was class president in his Freshman year.

Gowdy is captain of the 1920-21 varsity basketball team, has played varsity basketball for two years, is an assistant manager of varsity baseball, and was class president in his Freshman year. Lewandowski was on the varsity football team last fall, and has played class basketball.

Smith has played baseball, basketball, and tennis for 1922, and was class president during the fall term of this college year. He played varsity basketball during the past season.

The college cheer-leader was also elected last Wednesday, and Lorenzo Fuller was chosen by a large majority. Fuller has shown much ability in this field, and has on numerous occasions put the needed life in the cheering sections at varsity contests.

At a meeting held Wednesday, May 12, the following men were elected as an executive committee of the Tennis Association, until permanent officers can be elected: Sampson '21, chairman; A. Smith '22, Randall '22, Moody '22, and Towne '23.

Prelims for the Soph-Senior Hop will be on sale to Juniors and Freshmen from Wednesday, May 19, on. They may be purchased from C. F. Clark at the Q. T. V. House.

TRACK TEAM ELECTS MESERVE AS CAPTAIN

Veteran of Last Season will Lead
Aggie C or Squad.

At a recent meeting of the varsity track squad Albert W. Meserve of Framingham, was elected captain of the spring track team for this season by a unanimous vote.

ALBERT W. MESERVE.

Meserve is a member of the class of 1921 and this will be his second season of Varsity track. He won his "M" last year when he was one of the leading point getters of the Aggie team and in the dual meet with Middlebury College established a new college record of 17 3-5 sec. in the 120 yd. high hurdles. He also performs in the 220 yd. low hurdles and in the discus throw.

Besides his track activities, Meserve has been prominent in his class. He is a member of the Kappa Gamma Phi Fraternity.

AGGIE'S CHANCES WITH AMHERST LOOK GOOD

Old Rivals Meet in First Baseball
Game May 26.

On Wednesday afternoon, May 26, the Maroon and White line up against their old athletic rival, Amherst, on Alumni field for what appears to be a formidable battle. This will be the first of two baseball games scheduled with the Sabrinas, the second coming June 14 at Pratt Field.

The Amherst nine have been playing good ball to date, and coached by Jack-slicht, an experienced ball player, and composed almost entirely of veterans of from two to three years experience. Captain Maynard's team has brought home some notable victories. On their Southern trip the beginning of the season, they won three encounters out of

four. The first game on the home diamond was a 4-0 victory over Trinity. Cornell has defeated them both at home and abroad by scores of 6-5 and 2-1. University of Virginia also took them into camp to the tune of 4-3 in a 12-inning game, and last Saturday the Purple and White defeated the Harvard nine by a score of 3-1 at Cambridge. For pitchers, Coach Jackalitch has Zink and Cummings, both experienced twirlers, who have been very successful on the mound all season. Davison at the receiving end of the battery, is a clever all-round player, and has been putting up a fast game to date. The infield is fast and sure, Cowles at first being a smooth player. Captain Maynard is perhaps the best of a trio of fast outfielders. Cowles and Brisk have led the team in batting thus far.

Aggie, though it cannot show as fair a record as the squad from the other end of the town, is playing good ball right now, better perhaps than at any time thus far, and with an even break, will make their opponents travel at top speed. The return of Batchelder to first and Maginnis to second has strengthened the infield, and both are doing good. Captain Jakeman is playing in top notch form at third, and Dewing Kroeck, and Collins are working together well in the outfield. The selection of a pitcher to go after the Sabrinas is hard to predict thus early, and the choice may fall to any one of the group of moundmen. It is certain that the old Aggie spirit so much an asset in past Amherst games, will be 100% present, and that the game will be a battle royal, with Aggie's chances of coming through on the long end of the score very good.

SUFFIELD WALKS AWAY WITH TRACK MEET

Connecticut School Captures Ten
Firsts in Interscholastic Events
on Alumni Field.

The Second Annual Interscholastic track meet held on Alumni Field at 1-15 last Saturday afternoon, one of the big features of High School Day, was easily won by the team that the Suffield School of Suffield, Conn., put on the track. Williston Academy took second place, but succeeded in cleaning up only 10 points against the 70 of Suffield. The Connecticut team walked away with 10 first places, five seconds, and six thirds, which placed it beyond competition. Nine teams entered the meet, Worcester Academy, considered a strong contender, arriving in time for only the last two events, but succeeding in getting a first in the high jump and a second in the shot-put. The number of points won by the first four teams were: Suffield 70, Williston 10, Worcester Academy 8, Arms Academy 5.

The summary is as follows:
100 yard dash—Won by Falkner, Suffield; Zanitas, Worcester Classical, second; Fuller, Williston, third. Time, 10 4-5 secs.
220 yard dash—Won by Prout, Suffield; Clarke, Suffield, second; Rogers, Suffield, third. Time, 29 3-5 secs.
440 yard dash—Won by Dawes, Suffield; Coa, Suffield, second; Caldwell, Suffield, third. Time, 59 secs.
880 yard dash—Won by Brady, Suffield; O'Brien, Williston, second; Dawes, Suffield, third. Time, 2 min. 10 sec.
One mile run—Won by Kaccio, Suffield; Houghton, Greenfield, second; Sylvester, Suffield, third. Time, 5 min. 6 2-5 sec.
100 yard hurdles—Won by Prout, Suffield; Resors, Suffield, second. Time, 20 2-5 sec.
220 yard hurdles—Won by Prout, Suffield; Clarke, Suffield, second; Rogers, Suffield, third. Time, 29 2-5 sec.
Running high jump—Won by Campbell, Worcester Academy, height, 5 feet 3 in.; Parker, Howard School, second, 5 feet 2 in.; Moles, third, 5 feet 1 in.
Running broad jump—Won by Johnson, Arms Academy, distance, 18 feet 4 in.; Rogers, Suffield, second, 18 feet 1 in.; Thomas, Williston, third, 18 feet.
Pole vault—Won by Tryon, Suffield, height, 10 feet 1 in.; Jackson, Hardwick, second, 9 feet 9 in.; Feranti, Howard, third, 9 feet 5 in.
Discus throw—Won by Tryon, Suffield, distance, 105 feet; Graves, Williston, second, 85 feet 8 in.; Babidione, third, 83 feet 8 in.

Training College Men for Business

The Graduate School of Business Administration of Harvard University offers a two-year course to college graduates. The course is designed to give a broad fundamental training for business together with specialization in those fields in which the student is most interested.

College men, looking to business as a career, feel the lack of adequate preparation which enables them to deal effectively either with general business problems or with the problems in their own special fields. The Harvard Business School aims to fill this need.

Special emphasis is placed upon the application of business theory to actual business problems. For this purpose the "problem method" of instruction is used. The Boston territory affords an excellent business laboratory.

Courses offered: Accounting, Business Law, Banking and Finance, Marketing, Advertising, Industrial Management, Employment Management, Business Statistics, Foreign Trade, Transportation, Insurance, Lumbering, Income Taxation, Office Organization, Printing and Publishing.

Completion of the two-year course leads to the degree of Master of Business Administration.

MAROON AND WHITE IS FAVORITE OVER TRINITY

Aggie Nine Appears To Be In Best
Form Of Season, For Saturday's
Game.

On Alumni Field, Saturday afternoon, the varsity nine lines up against Trinity College here, at 3-00 p. m.

Up to last Saturday the Trinity team had played only three of their seven scheduled games. This was due to the inactivity of the weather. The first game of the season resulted in a reverse at the hands of Amherst. The score of the game was 4-0, which speaks well for the Hartford team, as Amherst is playing pretty good baseball this Spring. The second game resulted in a walkover for Tufts, for as the Trinity pitchers were off form, they were pounded to all corners. The third game in a 7-2 victory for Brown. Reynolds and Bruce, the two pitchers who have been used, are not yet up to their best form; but this may be blamed on the weather which has not been of the best yet, although this week promises to be a good baseball week. Lynch and Nichols are leading the team in batting with averages of over .400, while Leeke and Doran are batting for .333.

The reorganized Aggie team which so decisively defeated N. Y. S. T. C. last Saturday, is playing together well and is batting in better form than they have shown at any time this season. The addition of Hilyard has strengthened the

infield. His batting in the game of last Saturday shows that he can be relied upon to come through at the right time. Batchelder's arm is all right again and he is back on first base. Dewing came across with a single and a home run last Saturday. With the fleet center fielder hitting in his customary form, the batting of the team will be strengthened considerably. Kroeck and Collins are also batting well. Brigham is pitching the best of the moundmen now, although Luce may get a chance to start a game soon. The coming of warm weather will probably add fifty per cent to the pitching staff, for Crafts and Kroeck are only waiting for lots of sun to put their arms into first class shape.

M. A. C. NINE TO MEET STEVENS TODAY

Will Stack Up Against Fast Team
At Hoboken, N. J.

The Stevens Tech Nine, against which the Varsity lines up this afternoon at three o'clock, appear by their records this season to be a fast team, and will make the Aggie Varsity travel at top speed.

Stevens to date has played three games. They conquered R. P. L. 6-3 in their first game, tied the Army 4-4 in an eleven-inning encounter, and took Brooklyn Tech into camp 13-7. Their showing against the Army was especially good, as the West Point aggregation is one of the best on the intercollegiate diamonds of the east. Batley, their captain and third baseman, played a fast game, and their first baseman, Egger, who has been seen here in the basketball contest, covers the initial sack in fine style. Wigle looks like their best hurler, and with Ferari behind the bat, makes up a formidable battery. Just whom Coach Gore will send to the bat is uncertain. The pitchers are all coming along well, and with the advent of good baseball weather, the choice remains doubtful. Brigham, who has been doing very well on the slab to date, or Luce who has not yet had an opportunity to show this season, appear to have the call. The rest of the Aggie line-up will doubtless be the same as that which opposed the New York State Teachers' College last Saturday afternoon, May 15.

REUNION FOR '17 PLANNED FOR COMMENCEMENT

The class of 1917 is planning a Reunion at Aggie during Commencement. This will be their first real chance to get together as a class since they graduated. Their committee in Amherst, consisting of E. Grayson, Dick Holden and Olie Finn, is on the job, and a definite program for the '17 doings will soon be ready. The class will march in the parade which is to precede the baseball game with the University of Vermont, and will wear special costumes. Headquarters will be secured in the dormitories, for those returning for the reunion.

ACCOMPLISHMENT IN THE DAIRY

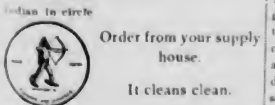

The increasing popularity of milk products is largely due to educational work of the Agricultural College.

The Agricultural College has not only demonstrated the exceptional food value of milk, but has also educated the dairyman in methods of manufacture that insure to the consumer a wholesome, nutritious dairy product entirely free from harmful bacteria and insanitation.

These methods have been assisted and made possible by the aid of

A cleaner which provides the most efficient, sanitary cleanliness to dairy equipment, and for this reason it bears the endorsement of the Agricultural Colleges of the United States and Canada.

Order from your supply house.
It cleans clean.

Commencement.

Commencement time is fast approaching with all its attendant festivities. Plans for this season will make it the biggest and best that Aggie has ever seen. A large number of the classes are planning reunions. The undergraduates are reviving a number of the old customs that have been dead during the war-times, with an end in view of showing our alumni that the present undergraduate body is up to the old standard. And, last but not least, the cornerstone of the Memorial Building is to be laid. All these plans bid fair to be carried out in detail to exceed the fondest dreams of their sponsors. The Commencement this year is to be the biggest ever.

The Alumni would do well to try and rearrange their plans to include a trip to Amherst so as to be present at Commencement time. The College will be ready to show them the liveliest and the best Commencement ever held. It will be distinctly worth their while to come back.

The Squib.

The Squib has now been fighting its weary battle for existence over a series of years. It has had its ups and downs, but of late has been up. It is in a position to be taken over by the non-athletic board without any radical changes in its method of operation.

The Squib is the Aggie humorist's monthly. It represents M. A. C. in this field of collegiate endeavor. But yet, it is the work of a small group of Aggie men who have taken it upon themselves to revive the pre-war publication. They are assuming the financial responsibility as well as that of digging out the material necessary to fill its pages. These men should not be made to carry the entire burden of the Squib upon their shoulders while at the same time they are giving all the credit to the student body.

The Squib has succeeded. Its future is bright. The fact that the whole college is behind it in its activities will do

much to "buck up" those men who so far have had no official recognition. The student body should recognize the Squib and place it under the wing of the non-athletic board on a similar basis as the COLLEGIAN.

Credit for Index Men.

The recent acceptance of the Index as an activity by the student body, and the placement of the Index on practically the same basis as the COLLEGIAN, suggests one other change in the non-athletic board rulings. Credit should be given members of the Index board toward the non-athletic medals, the same as for service on the COLLEGIAN staff. The cases are analogous. Although the average Index board man does not work so long nor so hard as the COLLEGIAN man, at the same time he does a large amount of real work and has a definite responsibility. He should be given credit accordingly.

COMMUNICATIONS

To THE EDITOR OF THE COLLEGIAN:

Dear Sir:

The committee in charge of the Allan Pond Memorial Fund want to again draw the matter to the attention of those who are interested, and give them the opportunity of subscribing. The committee has set June 1st as the date on which they desire to head-up the contributions. The committee also wants to emphasize the fact that the "Memorial" to "be right" should represent small sums from practically everybody in the student body.

(Signed)
HAROLD M. GORE.

To THE EDITOR OF THE COLLEGIAN:
Dear Sir:

A meeting of the tennis committee was held Wednesday evening, at Lambda Chi House, and certain rules of conduct for the use of courts were suggested for immediate application. In general, they embodied rules for daily use of courts, for keeping courts in fair playing condition, and careful use of the materials that are now on hand. A provision has been made by the college authorities for the use of one of the courts from 4 p. m. until 8 p. m. every day. As there are many men students in tennis, and in view of the great interest in all interclass series or events, it would seem logical that such an annual event would be provided for by the authorities having charge of student activities. In the far distant past there was an Aggie tennis team. Have we had a chance to show whether we have or not? Perhaps we might go down and beg of our more generous Amherst friends for the use of their courts to play our matches on? It seems as if the donors of our fine courts would inquire as to the benefits of their act in seeing these courts that the students would come to recognize a fine, clean sport. We know that the athletic department has all that it can manage, and can do little to promote this sport. There are, however, a number of students who will put both interest and work in keeping alive the sport until, at some future time, it will receive its due attention. So, in bringing up such undesirable comment, we hope to stir into action student spirit and fair consideration from the authorities higher up.

R. N. Smith has been elected manager of the Senior class tennis team.

CAMPUS CALENDAR.

WEDNESDAY, MAY 19.

3:00 P. M.—Varsity baseball, Stevens Institute vs. M. A. C., Hoboken.

THURSDAY, MAY 20.

4:00 P. M.—Interclass Baseball, Sophomores vs. Freshmen, Old Varsity Field.

FRIDAY, MAY 21.

7:15 P. M.—Rollster Doister Rehearsal, Old Chapel.

SATURDAY, MAY 22.

4:00 P. M.—Varsity Baseball Game, Alumni Field. M. A. C. vs. Trinity.

TUESDAY, MAY 25.

4:00 P. M.—Interclass Baseball, Seniors vs. Sophomores, Old Varsity Field.

7:15 P. M.—Rollster Doister Rehearsal, Old Chapel.

WEDNESDAY MAY 19.

3:00 P. M.—Assembly, speaker to be announced.

4:00 P. M.—Varsity baseball, Amherst vs. M. A. C., Alumni Field.

ALUMNI NEWS

The meeting of the American Chemical Society, April 13-16, at St. Louis, Mo., provided an opportunity for an M. A. C. reunion in the Middle West. Six Aggie men were present at the banquet held Wednesday evening, April 14, at the Planter's Hotel, all of whom greatly enjoyed talking over the "good old times." Professor Peters '97 had news to give from the college, and others present were, P. C. Brooks '01, R. H. Bogue, instructor in chemistry 1912-1917, H. G. Dunham '17, and A. G. Weigle and Carl Allen '14. Bogue is with Mellon Institute in Pittsburgh, while Brooks, Allen and Weigle are all situated in St. Louis. These men are planning now to have another and bigger get-together next year at St. Louis.

'18.—Carl Qureshin visited the campus recently.

Price wouldn't matter so much if allowances were more elastic!

The big idea is to buy only what we need.

Though it's equally true that we need to buy the best when we buy.

Fine quality suits, overcoats, hats, shoes and fixings for college men. Prices reasonable.

INTERCLASS TENNIS SCHEDULE ANNOUNCED

At a meeting of the tennis association last Wednesday evening, the following schedule for inter-class matches was drawn up:

Week of May 17th:
Seniors vs. Freshmen,
Juniors vs. Sophomores.

Week of May 24th:
Juniors vs. Freshmen,
Seniors vs. Sophomores.

Week of May 31st:
Seniors vs. Juniors,
Sophomores vs. Freshmen.

The foregoing dates are subject to any change arising from bad weather or from inability to arrange. The managers of the class teams will arrange for time of playing of individual matches. All cases of forfeiture will be decided by the committee or by someone appointed by them. Notices will be posted from time to time on a board near the courts or on the Physical Director's board in the Drill Hall. Men who desire to play on their respective class teams will hand in their names to their respective managers. The following is a list of the managers:

1920—R. N. Smith.
1921—C. M. Bogholt.
1922—R. W. Arms.
1923—H. Baker.

CAMPUS NOTES

"Ted" Channel ex-'21 was on the campus over the week-end.

S. E. Wright '20 attended the Smith College Prom this week-end and came over to the campus for a short visit.

The Chemistry Club made a trip to Northampton and vicinity last Monday, May 17, where various chemical industries were visited, among them being the Corticelli Silk Company, the Prophylactic Toothbrush Company, Belding Brothers, and the Northampton Cutlery Company. The "chemists" also visited the Smith College laboratory, and made an "inspection" of it during a class hour. The party consisted of 15 members, with Mr. Serex in charge.

Landscape Exhibit.

The Department of Landscape Gardening is making an exhibit of drawings from the office of E. S. Draper '15, landscape architect of Charlotte, N. C. These prints are posted in the reading room at Wilder Hall and show the development of several Southern mill villages.

Professor Neal gave the last of the series of readings given by the English Department, on Wednesday evening in the Old Chapel. He read from the works of Omar Khayyam, and preceded his readings by a very interesting talk on Omar Khayyam's writings, and the meaning of the poem.

M. A. C. TO HAVE DELEGATION AT SILVER BAY CONFERENCE

A good start has been made on the M. A. C. delegation to the annual Student Conference, to be held at Silver Bay, Lake George, N. Y., from June 25th to July 4th, nine men having already handed in their names as going. This is the conference which heretofore has been held at Northfield. Men who have attended these conferences before, or have been on Lake George need no argument to get them to go. The Student Conference is undoubtedly one of the greatest experiences open to college men, and this is expected to be one of the best ever held.

About 800 men, representing 100 colleges, from Maine to Ohio and West Virginia, will be there. The leaders and speakers are among the best in the world along religious and social lines. The mornings are taken up with Bible study, discussion of social and religious work, especially as it applies to college men, a series of special addresses, such as those given here by J. Stitt Wilson, and a platform address by some outstanding Christian leader. There are plenty of opportunities to meet and talk with men, along any subject that one is interested in.

The afternoons are used entirely for recreation, including intercollegiate games. Silver Bay offers first class facilities, a first rate athletic field, with cinder track, baseball diamond and tennis courts, boats and canoes, and a new and thoroughly equipped gymnasium. There is good swimming and fishing, and walks through virgin forest. Fort Ticonderoga and other interesting historical places are nearby.

The expense for the ten days, exclusive of railroad fare, is \$25.00. Special rates are offered foreign students. Announcement as to reduced railroad fare will be made in the near future. The men now intending to go are planning four days between the close of college and the opening of the conference. Further information can be obtained at the Y. M. C. A. office or from R. A. Melten, '21, or K. W. Moody '22.

SHORT COURSE NEWS

First Division Get Together.

The men of the First Division held their first weekly meeting last Wednesday. The evening was spent in talking over the war-days and France in general. Pictures of the First Division both behind the lines and in action were the featured portion of the program. At a late hour refreshments were served, and the ex-soldiers voted to have meetings every Wednesday evening at the homes of the several members.

FRESHMAN-SOPHOMORE
RIFLE MATCH SHOT

1923 Wins by Three Points.

The annual Freshman-Sophomore rifle match was shot off in the indoor gallery last Thursday and Friday evenings, and after a long and seesaw match the first year men emerged the victors by the scant margin of three points, the score being 479 to 476. Although three varsity men were shooting on the Sophomore team the highest scores were turned in by two Freshmen, E. Johnson with a score of 99 and Perry with 98. These two men and Bock, who wrenched the lead from the Sophomores at the last moment with a 95, were largely responsible for the victory of their team.

The five high men of each team and their scores were as follows:

| 1923 | |
|-------------|-----|
| E. Johnson, | 99 |
| Perry, | 98 |
| Bock, | 95 |
| Sargent, | 92 |
| Martin, | 92 |
| Total, | 479 |
| 1922 | |

| Barnard, | 93 |
| Total, | 476 |

HOLYOKE HIGH DEFEATS
FRESHMEN TEAM

Aggie Freshmen suffered their first defeat of the season last Wednesday, May 12, when they lost to the Holyoke High Nine at Holyoke. At first it looked as if the Yearlings would bring home a victory, but during the last few innings of the game, Holyoke ran up a fairly large score, so that they won the game 13-6.

The contest started with eight of the visitors facing the Holyoke pitcher. These batters ran up a total of four runs, which score was duplicated by the home team in the same inning. During the second inning, neither team scored, but in the third inning, however, Gordon and Latour crossed the plate for the Freshmen, while Holyoke didn't see first base. No more runs were made until the sixth inning, when the home team netted two more, thus again tying the score. Holyoke gained two more runs during the seventh inning, while the Freshmen failed to reach home, thus causing the score to become 8-6 in favor of the High School Team. In the eighth inning, Holyoke made five runs, while the Freshmen failed to add anything to their score during the remainder of the game.

JUNIORS WIN FIRST
INTERCLASS BASEBALL

The first interclass baseball game was played Thursday afternoon, May 13, when the Juniors won from the Sophomores. The result was expected, on account of the experienced men on the Junior team.

Phil Haskins went on the mound for the Sophomores and held his own for the first four innings. In the fifth he weakened and was replaced by Ames. Leavitt pitched well for the Juniors until in the third five runs were collected from his delivery, and he was forced to retire in place of Lent, who allowed but one run. Bowin caught

ADVERTISING

The best friend a newspaper can have is the reader who patronizes an advertiser and tells him that he saw his advertisement in the paper. Department store advertising managers figure that if ten people come to their store as the result of reading an ad. and say so that ninety more come and say nothing about it. The great question with all advertisers is "Does it pay?" The sure and certain proof of advertising paying is when a reader replies to an ad. and says so.

The stronger the counting room the stronger the newspaper. So we ask you, kind reader, whether you answer the smallest want ad. in gate type or go to make a purchase in one of the big stores to write or say the little boasting sentence: "I saw your ad. in the News." For without the advertiser you would have no paper, and without you there would be nobody to advertise to, and without you both—well, we hate to think what would happen to us.

—The Maiden Evening News.

DE LAVAL
Service Covers the Continent

Every separator user realizes the importance of having his separator in use every day. Delays waiting for parts, with a separator out of use, means great inconvenience and loss of product.

The farmers buy more De Laval every year than all other makes combined because there is a De Laval agent conveniently located to practically every dairy community, who is individually trained to assist his customers in setting up and operating their machines, to furnish and put in place repair parts, and to insure prompt service and satisfaction to De Laval users.

Not only is the De Laval Cream Separator superior in all points of separator efficiency, but every user of a De Laval is assured of prompt and competent service for all the years to come.

The nearest De Laval agent will be glad to demonstrate a De Laval. If you don't know his name, write to nearest De Laval office.

THE DE LAVAL SEPARATOR COMPANY

DRAINING THE OLD

HOKUM BUCKET

The movie museum of anthropoid freaks, including the "old" preacher, the fur-whiskered doctor with his bag of screw-drivers, the big business man who can't eat a home dinner without his Tuxedo, and the cowboys who never work—this anthropological collection, we started to say, is about to welcome a new member: the conventional picture college man.

The traterities are after him, the Greek letters are going to get him, whether he watches out or not. Phi Delta Epsilon, for one, raises its classic arms in defense of the outraged undergraduate. Philip C. Pack, Phi Delta Epsilon's former national secretary, says:

"Despite the fact that now and then a college man kicks over the traces and lands in the newspapers, he is, on the whole, a pretty sober, earnest sort of chap. But the picture producer exhibits him on the screen as a sartorial nightmare, a cross between Lothario and Beelzebub, strangled in fire-risk cravats, suspended in high-water trousers, hiding behind an enormous letter on an enormous sweater, living in a den of pipes and pennants, and dividing his

C. D. KENDALL ELECTED PRESIDENT OF SENATE

Succeeds Retiring President Crafts.
Other Officers also Elected.

At the weekly Senate meeting on Tuesday, May 18, C. Donald Kendall of Worcester was elected President for the ensuing year, to succeed the retiring President, Gordon B. Crafts. Kendall was graduated from Worcester North High School in 1917 and is a member of the class of 1921. He has been particularly active in both class and college affairs, having served as class vice-president, a member of the Sophomore-Senior Hop Committee, Business Manager of the 1921 Index, Adelphi, Manager of Varsity Track, Manager of Class Track, and a member of the Junior Prom Committee. He was elected to the Senate as a Junior member last year. He is a member of the Q. T. V. Fraternity.

C. DONALD KENDALL, Senate President.

The result of the remainder of the elections is as follows: Vice-president, Starr M. King; Secretary, A. W. Smith; Treasurer, C. G. Mackintosh; Marshal, J. J. McCarthy; Chairman of Election Committee, R. F. Readie; Junior Members of Election Committee, C. F. Clark, C. H. Gowdy; Vice-president of Social Union, J. N. Lewandowski; Chairman of the Informal Committee, J. J. McCarthy.

The new officers assumed their duties immediately following the election.

The final examinations for Juniors and Seniors will begin on Saturday, June 12 and last through the following Wednesday, except on Monday afternoon, June 14, when there are none scheduled. Saturday afternoon however is included. The schedule in detail will be published in the next issue which will come on June 6.

MACKINTOSH ELECTED PRESIDENT OF ADELPHIA

Senior Honorary Fraternity Organizes for Coming Year.

The Junior members of Adelphia held a meeting in the Senate room last Friday evening at which Charles G. Mackintosh was elected president and Roger F. Readie, secretary and treasurer of the society for the following year.

Mackintosh is a native of Peabody, and prepared for college in the High School of that town. He entered M. A. C. with the class of 1921 and has been one of the leaders in the class. He has held several class offices, played on the class basketball team, and was elected to the Senate his Sophomore year. Last fall he won his "M" at center on the varsity eleven, proving to be one of the strongest men in the line. He is one of the ten Juniors recently elected to Adelphia and his latest honor is the presidency of that society. He is a member of Phi Sigma Kappa Fraternity.

Readie is a former 1919 man who returned to college last fall as a member of 1921. This year he has been on the varsity football and basketball squads, and is now the president of his class, a member of the Informal Committee and a member of the Senate. His home town is Florence. He is a member of the Alpha Gamma Rho Fraternity.

M. I. T. FIRST IN N. E. I. C. A. A. TRACK MEET AT BOSTON

Sullivan '22, in 220, Gains the Only Point for Aggie.

The finals of the New England Inter-collegiate Track Meet were held at Tech Field, Cambridge last Saturday afternoon in spite of the unprecedented adverse weather conditions. With a drizzling rain at their backs the contestants splashed down the cinder track, inundated in some places by five inches of water. Two events only were cancelled—the pole vault and the running broad jump. The Maroon and White track squad was one of the four teams in the meet gaining one point, which in our case was won by Sullivan '22 who had fourth place in the 220 yard dash. The meet was won by the M. I. T. squad, capturing 83 points while Brown ran a close second with a total of 80 points to her credit. Gordon Nightingale of New Hampshire who ran in the meet held here last spring, won the mile and Brown of Williams who also ran here won the two mile. Those who entered for M. A. C. were: for the 100 and 200 yard dash, Sullivan '22; for the quarter-mile, Woodworth '20; for the two mile, Lyons '20 and Crawford '20; for the high and low hurdles, Meserve '20. Although M. A. C. did not place any higher in the annual meet than she did last year, credit is surely due the team for their spirit under the poor conditions, and the outlook is favorable for the coming meets during the season.

STATUE OF MINUTE MAN PRESENTED TO COLLEGE

Gift by Wheeler '71 to be Placed in Memorial Building.

William Wheeler of the class of '71, for many years a trustee of the College, has presented to the College a beautiful plaster cast of the famous statue of the Minute Man at Concord. The bust was made by Pietro Caproni of Boston. The model from which Mr. Caproni has been making and selling copies of the Minute Man for some 20 years past, was gone over and perfected in its details by Mr. French with a great deal of care. The gift is appreciated not only because it is so satisfactory in itself and adds to the altogether too meager equipment of the College in respect to a collection of statuary and paintings, but it also has certain interesting connections that make it particularly appropriate. The sculptor of the Minute Man, as is well known, is Daniel Chester French, a native of Concord and one of the most prominent American sculptors. It is perhaps not so well known that Mr. French's father, Judge French, was the first president of the Massachusetts Agricultural college. The bronze bust of President French that stands in the reading room of the library was made by his son. Furthermore, it requires very little imagination to note that the Minute Man as portrayed in this statue was a typical American farmer of the revolutionary days, equally ready to follow his vocation and to defend his liberties. It is symbolic of the part which the American farmer played in the early history of our country. It is probable that the statue will be placed in the new Memorial Hall, at least until the college has a fireproof library.

Rev. J. B. Parry speaks on life of Lloyd George.

REV. J. B. PARRY SPEAKS ON LIFE OF LLOYD GEORGE

Springfield Pastor Gives Some Interesting Sidelights of Life of Eminent Statesman.

Rev. J. Burford Parry, pastor of the Hope Congregational Church of Springfield, addressed the student body in Assembly last Wednesday afternoon at 8:30 o'clock, his talk taking the form of an impersonation of the British statesman, David Lloyd George.

The speaker told of the political side of George's life; as a master of assembly and as one of the big figures that the world looks up to today. When all England was crying out for peace, he told them to wait, that the peace offer of Germany looked dangerous and England waited.

Rev. Mr. Parry went on to tell how, at another time, when other statesmen failed to quiet some Welsh strikers, George, who understands the human heart, induced them to return to work.

MAROON AND WHITE HOLDS STEVENS TO A 2-1 SCORE

Brigham Yields Only Two Hits, Striking Out Five.

Stevens Institute 2, M. A. C. 1, tells the story of one of the best games of ball played on Castle Point Field, Hoboken N. J. this year. The game marked the culmination of the home team's schedule and was played in a little over an hour. Although Aggie lost, all the credit in the world is due Brigham who pitched a fine game, allowing but two hits during the nine innings and striking out five men. The outfielders on both teams were kept busy. Thirteen fly balls were hit to the outergardeners during the afternoon. The best catch of the day came in the fourth inning when Dewing ran in from his position and caught a line drive for the third out. Maginnis also played well in the field. In the second inning he caught a fly from Koch's bat and ran to second catching Egger, who had singled, for a double play.

Aggie's one run came in the sixth inning. Brigham was safe at first when Hanneke threw high to Egger and Hillyard brought him home with a line two base hit down the third baseline. The next three men went out in order.

Stevens scored in the second on a wild throw, an infield out and a clean single. They scored again in the fifth on a base on balls, two stolen bases, and a wild throw to first.

FRESHMEN DEFEAT SOPHOMORES IN ANNUAL DEBATE

Results in Favor of Compulsory Arbitration. Martin '23 and Tanner '22 Prize Winners.

The annual Freshman-Sophomore debate, which took place at Wednesday afternoon assembly, May 12, resulted in a victory for the Freshman team by the vote of two to one, adding one more to their list of victories for this year. The subject of the debate reads: Resolved, that boards of arbitration with compulsory powers be established to settle disputes between employers and wage earners. Both teams delivered their speeches in a forceful manner, but the weight of argument went decidedly towards '23, who gave a very strong rebuttal against their opponent. For individual excellence in speaking, Martin '23, gained the first place, with Tanner '22, second. The judges of the debate were Mr. C. B. Roote, Northampton, Rev. H. G. Ives, Amherst and Henry J. Burt, Amherst.

The speeches in brief are as follows: Tanner '22, 1st speaker for the negative:

Compulsory arbitration is wrong in principle. It interferes with a workingman's rights of liberty to work as he will. It is also opposed to the 13th amendment of the Constitution, stating that there shall be no involuntary servitude except as a punishment for crime.

Tanner '23, first speaker for the affirmative:

The present conditions in the industrial world are intolerable, as is readily seen by the unrest that is throughout the country. Existing remedies, all voluntary, are inadequate. The remedy for these conditions is compulsory arbitration.

Beckwith '22, 2d speaker for the negative:

Compulsory arbitration is not practicable, and both labor and capital are opposed to it. The plan failed in New Zealand, where conditions should be most favorable for it. W. H. Stewart says: The worker will seek revenge, not by striking, but by decreasing individual production, causing an impediment to industry.

Sandow '23, 2d speaker for the affirmative:

Compulsory arbitration is sound in theory, because it is equitable. Industrial disputes will be settled in a regular court, impartially and advantageously to labor, capital and the public. Compulsory arbitration is also American, both in ideal of government, and in machinery of government.

Krasker '22, 3d speaker for the negative:

There is a more effective method in the solution of these problems. We recommend a plan set forth by the Industrial conference held Jan. 12, 1920. There will be joint organizations of managers and employers, with collective bargaining through a shop committee. There will also be local and national boards set up for conciliation. This is an Americanized method, with a true democratic spirit of co-operation.

Martin '23, 3d speaker for the affirmative:

Compulsory arbitration is sound in practice. The example cited of New Zealand is not a true one, as the law in effect there is not really compulsory. Such arbitration has really worked in Kansas; there has not been a dispute in the Railway Shopmen's Union and other industries provided for by the law which was not submitted to the court for award. A strike of 400 miners there, to prove the law would not work, collapsed. In the face of this fact, our three adversaries are trying to prove by argument what 400 miners have already disproved.

Beckwith, in his rebuttal, maintained that his opponents' arguments were based on theory. In reply, Martin stated:

One whole speech was to show that compulsory arbitration worked in practice. Our adversaries also object to compulsion. Everything we do is by compulsion, for "Obedience to law is liberty." The recommendation of the industrial conference, which we have already shown to have failed. We have not a cure-all for industrial ills, but we believe we advocate the best remedy yet suggested.

WILLISTON DEFEATS FRESHMEN 11 TO 2

Gordon and Faneuf Play Good Ball for 1923.

Aggie Freshmen suffered defeat at the hands of the superior Williston nine, who trounced them 11 to 2, last Wednesday, May 19, at Easthampton.

The home team played pretty good ball, and showed a better knowledge of the game than the yearlings. Faneuf and Gordon for Aggie, and Smith and Sengstaken for the prep school played very well. The home team did some fine hitting when it was needed, while several misplays by the visitors soared the score for their opponents. The Freshmen, however, showed lots of improvement since the game with Holyoke, and there is every reason to believe that they will come out the victors in the return game with the Paper City, on next Tuesday, June 1.

WILLISTON.

AGGIE NINE HAS TWO GAMES OVER WEEK-END

Takes on Connecticut Saturday and Springfield Monday.

After having played two games at home the Aggie baseball nine will journey to Storrs on Saturday to meet the Connecticut team on their home field, and on Monday, May 31, will play Springfield College in Springfield. The team will not play again on the campus until the Commencement game with University of Vermont.

The Connecticut team has already fallen before Aggie on Alumni Field, and the fact that they are this time playing at home will not offset the 5 to 1 score of the previous contest. While M. A. C. defeated Trinity 11 to 2 in five innings the latter team only lost to Connecticut by a 3 to 0 score over the full route. The Nittim team has been playing good ball with pitcher Johnson and Sicker on third base as the particular stars but in the other game she was able to secure only four hits off Brigham and provided the Aggie men put up the same brand of ball they have been playing Coach Gore's team should return with another victory.

In Springfield M. A. C. will probably strike her hardest opponent of the season. The athletes from down the river have only played three games, beating Connecticut twice and losing to Colgate, but they, never-the-less, appear to be one of the strongest teams in this section.

They have a fine pitching staff in Twombly, Purver, and Carlson, and a nearly veteran team behind them. Aggie will probably have to show her best to win but there are reasons enough for thinking that she will give her old rival a surprise, as she did last year. Coach Gore's men are apparently going at their best. With Lent, Hilyard, and Newell hitting the ball hard, and with Brigham making an excellent record in the box, there is the combination of offense and defense which makes a winning team.

LAMBDA CHI ALPHA GOES INTO LEAD
Lambda Chi Alpha has climbed up into first place in the Interfraternity League series, and from present appearances it will be a hard job for any team to pull down the league leaders. Three teams are now tied for second place. Phi Sigma Kappa losing the lead and dropping back into second position. Alpha Gamma Rho, lost during the week and so fell into the 500 column.

On Wednesday, May 19, Taylor pitched for Q. T. V. in a 4-2 win over Kappa Gamma Phi. Delahunt pitched for the losers, but both sides played poorly and ragged support was given both pitchers. Sigma Phi Epsilon took a tumble out of the league leaders on Wednesday, May 18, by defeating Phi Sigma Kappa 10-4. Bacon started pitching for the winners, but could not seem to find the plate, and Carleton took his place in the box. Lambda Chi Alpha won two games during the week, the first on Wednesday, from Alpha Gamma Rho, 10-4. Binks and Pool pitched for Alpha Gamma Rho, while Holly twirled his usual good ball for the winners. Holly again brought his team over the top, when on Monday he pitched a 9-3 win over Kappa Sigma.

LEAGUE STANDING.

| Team | Won | Lost | Per Cent. |
|-------------------|-----|------|-----------|
| Lambda Chi Alpha | 4 | 1 | .800 |
| Phi Sigma Kappa | 3 | 1 | .750 |
| Sigma Phi Epsilon | 3 | 1 | .750 |
| Q. T. V. | 3 | 1 | .750 |
| Alpha Gamma Rho | 1 | 1 | .500 |
| Alpha Sigma Phi | 1 | 1 | .500 |
| Theta Chi | 1 | 2 | .333 |
| Kappa Gamma Phi | 0 | 3 | .000 |
| Kappa Sigma | 0 | 4 | .000 |

71.—Report has been received of the death of Samuel H. Cutler of Florida.

He passed away April 29 at his home in Cutler after an illness of four months of Bright's disease. He was buried at Miami with Masonic honors. Cutler was with his class at their last reunion in October, 1917, the first and only time he had visited Amherst or been with his class since 1871. He was a man of sterling worth and will be held in loving remembrance by his classmates who survive him. So far as known today 13 men of the 28 graduates of the class of '71 survive.

76.—Richard Wellington has resigned his position in the Maryland State college and has accepted a position with the New York Agricultural Experiment Station at Geneva, N. Y., his new work to commence July 1.

The next issue of the COLLEGIAN will appear Wednesday, June 9.

The Pond Memorial.

The recent reminder published by the Allan Leon Pond Memorial Committee should receive the attention of each and every man in the student body. Pond's record at warrant repitition. The record of work achieved places this sterling collegian in the historical list of those whose memories will become traditions of the college. It is especially fitting that the memorial is to take the form of a football medal to be awarded to the best of each year's team. Football was his major sport and as the leader of last season's team he added much to M. A. C.'s athletic glory. As a man, morally, physically, mentally, he is worthy of emulation. The prize of this medal will act as an added incentive.

Small amounts are asked for. The necessary sum total is not large. It is the wish of the committee that the fund be representative of all the students. The student body should not delay in supporting this worthy cause.

Frosh.

It might be well to call attention to these columns to the sudden death of a pre-war custom which had raised its head in forlorn hope. In refusing to render financial aid to the Juniors in their class banquet, the Freshman class has established another precedent. This class is merely continuing to follow out its seeming unwritten program of indifference to any custom which concerns another class or the college as a whole, except as that custom will bring benefit or honor directly upon itself.

The Band.

During the past year, due to causes unknown, the Aggie band has fallen by the wayside. It is an old-time organization whose total demise will be tragedy. A volunteer band such as has

functioned at all the important athletic contests in the past, is an important institution. When the student body marches as a whole up to a game, the band is the instrument that changes the unwieldy, straggling mob into a semblance of marching order. It furnishes a source of amusement for the spectators during those interludes which occur between the periods. The zip and vim which it infuses into the veins of the spectators reappears in the cheers that surge on the players. It more than does its part in pushing the teams on to victory. All in all, the band is an important part of an up-to-date athletic contest.

Such an occasion is coming at the next baseball game with Amherst. There remains ample time for an organization to perfect itself in a few marches and songs. Let us have the band at the head of the parade down to Pratt Field on June 14.

COMMUNICATIONS

AMHERST, MASS., May 24, 1920.

MR. C. D. KENDALL,
PRESIDENT SENATE,
MASS. AGRICULTURAL COLLEGE,
AMHERST, MASS.

Dear Mr. Kendall:

On behalf of the Amherst Student I would like to offer through you an apology and explanation to the student body of the Massachusetts Agricultural College with reference to the last issue of the *Student*. On Thursday we ran a humorous issue as our contribution to the Prom week festivities here, and, as is usual in such cases, individuals and institutions were satirized in a spirit of good natured humor. At that time there appeared an article under the head of Intercollegiate News which I understand has created an unfavorable impression at your college. We greatly regret our part in this unfortunate incident and hope that this apology may help to strengthen the spirit of friendliness which exists in the natural rivalry between the Massachusetts Agricultural College and Amherst, a friendly spirit which we hope and trust will manifest itself anew at the time of the coming baseball game.

In case you deem it advisable, we kindly bring this explanation and apology to the attention of your student body.

Very sincerely yours,
L. SUMNER PRYNE.

JUNIORS BEAT SENIORS
5-2 INTERCLASS SERIES

In their second game of the year, the Juniors last Thursday won from the Seniors, 5-2. Lent pitched good ball against the Seniors, and he was well backed by his team mates. Bacon twirled well for the Seniors, but poor support lost his team the game. Coombs played good ball in the field, saving his team twice by making fine catches. The longest hit of the game was made by Mansell, who lined out a three bagger.

But two games have been played in the class series, the Juniors taking both, and on Thursday they will tackle the Freshmen.

Score:
Juniors. 1 2 3 4 5
Seniors. 0 0 1 0 1-2
Batteries—1921, Hunt, Haskins; 1920, Bacon, Delahunt.

The drawing of rooms in the dormitories for next year took place Monday in the Dean's Office.

CAMPUS NOTES

Junior Tree Planting.

The annual Junior tree planting will take place after the banquet on Wednesday evening May 26 and according to the vote of the class will be dry. The tree will be a maple and the site selected is in the plot between the Experiment Station and the waiting station on the lower side of the road and near the path leading to the Microbiology Building.

Roger Readle will make the presentation speech and Ralph Leavitt and Donald Douglass are also on the program to offer a few remarks.

High School Day Returns.

The registration for High School Day was 500. 422 of these were boys and 87 girls. 209 of the boys definitely stated that they intended to enter M. A. C. There are a considerable number of "undecided" and only 59 boys present said "no" to M. A. C.

There were 98 Massachusetts schools represented and six schools from out of the State.

It has been decided finally to award all men who completed three years of their course before the outbreak of the war, and who did not return, a degree of B. Sc. Honoris Causa. The names are withheld until a later date, but there will be about six men to receive them.

The Journalism classes of M. A. C. will visit the various newspaper offices of Springfield, on Saturday, May 29. All students interested in Journalism are invited to make the trip. The time of departure from Amherst will be announced.

Mr. Purington, who has been a graduate student in Agronomy in M. A. C. for about a year, is to enter the Extension Service of New Hampshire State College. He expects to receive his master's degree here this spring.

At a meeting of the class held last Friday the Freshmen voted against a tax in support of the Junior Banquet. In the past it has been the custom for the Freshmen to pay a part of the expenses but this year's class after considerable discussion voted not to do it.

There was a short meeting of the Sophomore class following assembly Monday morning. President Butterfield brought up the subject of vocational council. A new system has been devised this year and all Sophomores are required to consult with Professor Lockwood before choosing a major.

Professor Lincoln W. Barnes of the Department of Agricultural Education

Why do we call 'em "Scotch Mist"?

Because they won't wet through even in a real Scotch mist—and what's wetter?

Our own idea—attractive, serviceable, long wearable, rain-proofed overcoats.

"BEHIND THE CLOUDS IS THE SUN STILL SHINING"

"Thy fate is the common fate of all;
Into each life some rain must fall."

But for real sunshine in your life and for such necessities as light-weight suits, white flannels, sport coats, etc., that will gladden your heart for the good old summer time—

CONSULT WALSH

has been made a member of the committee on training candidates for Agricultural Mission work by the International Association of Agricultural Missions. His work will be in conjunction with Professor T. H. Salter, Columbia University, and Professor Sam Higginbottom, Allahabad, India.

The Department of Agricultural Education has outlined a course of study for men in training for agricultural missionary work which was endorsed by the International Association of Agricultural Missions at its recent meeting in New York City.

At a meeting of the Annual Husbandry Club in Stockbridge Hall last Wednesday evening, the following men were elected as officers for the coming year: Emerson F. Haslam of Westwood, President; Paul W. Brown of Fiskdale, vice-president; Marlon R. Russell of Roxbury, secretary; George R. Lockwood of Waban, treasurer. A discussion was held on the matter of having the stock-judging teams of the various clubs put under the Non-Athletic Board.

At a meeting of the Menorah Society in French Hall last Friday evening, Mr. Benjamin C. Stone, Editor of the *Jewish Farmer*, gave an exceedingly interesting illustrated talk on "Farming by the Jews." Election of officers took place after the lecture. The following were elected for office: Louis E. Baker of Salem, President; Abraham Krasker of Revere, vice-president; Alexander Sandow of Pittsfield, secretary; Morris Roel of Worcester, Treasurer.

In a practice game with the Amherst High School nine last Tuesday afternoon, May 25, on the Old Varsity Field, the Freshmen decisively trounced the visitors by a score of 21 to 8. Marshman, on the mound for the yearlings, pitched a pretty good game, while Tirrell '20, was on the mound for the High School Team, as their twister was absent. The Freshmen showed much improvement both at bat and in the field. Marshman was recently elected captain of the Freshman team to take the place of Hilyard, who has been transferred to the Varsity nine. Marshman has been playing good ball to date, and should prove a good captain. He played a consistent game at forward on his class basketball team the past season.

Dr. Newell L. Sims has been appointed Professor of Rural Sociology at the Massachusetts Agricultural College. Dr. Sims has the degree of A. M. and Ph. D. from Columbia University. He is also a graduate of the Union Theological Seminary and from 1901 to 1915 served as a pastor in Missouri, New York and Ohio. From 1915 to 1920 he was Professor of Sociology and political Science at the University of Florida.

Alpha Sigma Phi held a very pretentious dance Saturday, attended by about ten couples. Mrs. Harvey was the Smith chaperon, and Bias, Amherst, catered for the party. The Alpha Sigma Phi orchestra furnished music.

CAMPUS CALENDAR.

WEDNESDAY, MAY 26.

3:00 P. M.—Assembly, speaker to be announced.

4:00 P. M.—Varsity baseball, Amherst vs. M. A. C., Alumni Field.

THURSDAY, MAY 27.

4:00 P. M.—Interclass Baseball, Sophomores vs. Freshmen, Old Varsity Field.

FRIDAY, MAY 28.

4:00 P. M.—Varsity Baseball Game, Connecticut Agricultural College vs. M. A. C. at Storrs.

MONDAY, MAY 31.

Holiday.

4:00 P. M.—Varsity baseball, Springfield vs. M. A. C., at Springfield.

TUESDAY, JUNE 1.

4:00 P. M.—Baseball, Freshmen vs. Holyoke High, Old Varsity Field.

4:00 P. M.—Baseball, Seniors vs. Sophomores.

7:00 P. M.—Senate meeting, Old Chapel.

WEDNESDAY, JUNE 2.

3:00 P. M.—Assembly. Burnham Declaration contest.

4:00 P. M.—Baseball, Freshmen vs. Orange High, Varsity Field.

THURSDAY, JUNE 3.

4:00 P. M.—Baseball, Juniors vs. Freshmen.

SATURDAY, JUNE 5.

4:00 P. M.—Varsity Baseball, Union College vs. M. A. C. at Schenectady, N. Y.

2:00 P. M.—Triangular Track Meet, New Hampshire, Vermont, and M. A. C., at Burlington, Vt.

TUESDAY, JUNE 8.

4:00 P. M.—Baseball, Freshmen vs. Northampton High School, at Northampton.

4:00 P. M.—Baseball, Juniors vs. Sophomores, Old Varsity Field.

7:00 P. M.—Senate Meeting.

WEDNESDAY, JUNE 9.

3:00 P. M.—Assembly, Speaker, L. H. Bailey of Ithaca, N. Y.

4:00 P. M.—Varsity baseball, Dartmouth vs. M. A. C. at Hanover.

Tennis Match Results.

During the past week the following matches were held in class tennis:

Mitchell '21 defeated Folsom '23 6-2, 7-5.

Tucker '22 defeated Mansell '21 6-4, 3-0, 6-2.

Smith '22 defeated Simpson '21 6-4, 5-7, 6-4.

Permanent officers for the Tennis Association will be elected at the next meeting.

MUSICAL CLUBS END SEASON.

With the Concert given in the Bowker Auditorium on High School Day, the Musical Clubs closed a very successful season from both a social and a financial standpoint. The concert season began with the annual concert at Hadley, where the Town Hall, crowded to overflowing, showed how popular the Musical Clubs were. On December 19th the Combined Clubs went on their annual trip to the Eastern part of the State, and after giving their usual Annual Concert at the Copple-Plaza in Boston, went to Berry, New Hampshire, where the townspeople received them with open arms, and showed their appreciation for the Clubs by housing all of the men over night. On New Year's eve, the usual concert and dance were given in Amherst Town Hall. Thus concert after concert was successfully rendered by the Aggie Clubs, and it has been a very good year for them. The graduating of Horne leaves the management vacant, but Assistant Manager Howard '21, will doubtless succeed him. The leaders for the Glee Club and Orchestra for the coming year have not as yet been chosen, but although there are fourteen Seniors leaving the Clubs, there is enough good material from the remainder to get some capable leaders. The entering class of 1924 will also probably be able to furnish Aggie a few Carsons and Heethovens.

SUMMER SCHOOL PROGRAM ANNOUNCED

The Massachusetts Agricultural College Summer Schools open June 28 and offer 44 courses of instruction. Such subjects, as farm management, dairying, fruit growing, design and practical arts, languages for teachers, and subjects of general nature, as reading, methods of teaching, professional problems, etc., will be included in the curriculum. These courses are given primarily for teachers, and are open to everyone. Scholarships are offered for ex-service men.

All the buildings on the campus will be open for these short course students. The instructors will be specialists in the subjects they teach. The courses will continue until July 23. Anyone interested in these summer schools can obtain a bulletin of information from the Director of the Short Courses, John Phelan, M. A. C., Amherst, Mass.

ASSEMBLY.

(Continued from page 1)

He told them to look out of the window to the cliffs, where, when he was among them, they would climb the rocks bit by bit, sometimes slipping back, but never giving up until lamb after lamb was secured from the crevices and taken home to safety. George said, "That is what our boys are doing yonder on the battle field, and some day we will have a new democracy. What are you doing here, are you helping them now?"

Rev. Mr. Parry told of the great respect of the Welsh people, George's countrymen, had for their statesman, and how, in spite of his nervousness and queer ways of approaching an audience, he always won them to his cause. The speaker said that it was the custom in England for people in the audience to interrupt the speaker by the sign of catching his eye. He is supposed to reframe or answer each question, and Lloyd George is said to have the greatest ability to do this.

SPRING FOOTBALL

PRACTICE ENDS

Preliminary Instruction in Fundamentals Proved Very Satisfactory.

The spring football practice at M. A. C. ended May 11, with a demonstration of punting and forward passing. The candidates have made very satisfactory progress. About forty men were out, more than half of whom have never been on a varsity squad before.

Captain Poole has had charge of the practice. One of the objects has been to acquaint the new men with Aggie football customs. Much attention has been paid to kicking, as some of last fall's material will be lost by graduation. Forward passing has also been tried to a large extent. During the scrimmages, several basic plays were worked out. Next fall will see fewer green men out than usual because of this preliminary training, and practice will be lightened thereby.

ALUMNI NEWS

'13.—S. M. Jordan is engaged in the oil business in Los Mochis, Simaboa, Mexico. He expects to be around for commencement.

'16.—J. Nicholson is Director of Boys' Club Work for the St. Georges Church of New York.

'19.—Hall Carpenter expects to be on the campus this week-end.

DE LAVAL

Service Covers the Continent

Every separator user realizes the importance of having his separator in use every day. Delays waiting for parts, with a separator out of use, means great inconvenience and loss of product.

The farmers buy more De Laval separators every year than all other makes combined because there is a De Laval agent conveniently located to practically every dairy community, who is individually trained to assist his customers in setting up and operating their machines, to furnish and put in place repair parts, and to insure prompt service and satisfaction to De Laval users.

Not only is the De Laval Cream Separator superior in all points of separator efficiency, but every user of a De Laval is assured of prompt and competent service for all the years to come.

The nearest De Laval agent will be glad to demonstrate a De Laval. If you don't know his name, write to nearest De Laval office.

DEPARTMENT NOTES

Poultry Department.

The annual Poultry Convention will be held at M. A. C. during the last week of July and will continue three days. An interesting program has been arranged and a number of speakers from outside of the State have been secured. Among them will be Professor James E. Rice, the head of the Poultry Department at Cornell University. The lectures will be open to the public. During the same week the annual camp of the Boy's and Girl's Junior Poultry Club will be held here also.

Professor Graham of the department is expected back at the college about the first of July.

A new course will be installed in this department next term. It will be listed as a course in Farm Poultry and will be a general course open to any who have taken courses in general Agriculture.

There are seventy men taking courses in the Poultry Department. Last term there were 370 enrolled, which was the largest enrollment of any poultry department in the Eastern colleges.

The Agronomy Department is installing demonstrations of fertilization defects, planting methods, and crop treatments on the College Farm. These will be used for resident and extension instruction, and particularly for Farmers' Week.

Short Course News.

Winard K. French, supervisor of farm practice, left last Wednesday to inspect the members of the Short Course working on farms in the northeastern part of the state.

Animal Husbandry.

Lockwood and Kirkland of the class of 1920 are planning to work on large stock farms near Columbus, Ohio, after graduation. The College has just received a valuable Aberdeen Angus bull calf as a gift from F. W. Barham of Greenfield; also a fine Hereford calf as a gift from J. F. Pratt, of Pratt's Junction.

Short Courses.

The eighteen Senior Short Course men, who are graduating this year, are going out on farm work. Some are going to their home farms, others are going as herdsmen, while some have not made definite plans for their work.

8:00 P. M. Sophomore-Senior Hop.

Tuesday, June 22:

8:00 P. M. Senior Banquet.

General headquarters for alumni at North College.
The COLLEGIAN of June 16 will contain further details of Commencement arrangements and festivities.

AGGIE THIRD IN TRACK MEET AT BURLINGTON

Sullivan and Dewing Score 21 Points in the Dashes.

The Triangular meet, held at Burlington, Vt., last Saturday afternoon, in which the track teams of New Hampshire State, University of Vermont, and M. A. C. participated, resulted in a score of 504 points for New Hampshire. (Continued on page 7)

BURNHAM CONTEST HELD IN ASSEMBLY WEDNESDAY

Erysiyan '22 Wins First Prize, and Newton '23, Second.

The 45th Annual Burnham Declaration Contest was held in Bowker Auditorium last Wednesday afternoon, June 2, at 3:00 o'clock. The contest was won by Harry A. Erysiyan, a member of the sophomore class, who was given 15 dollars in cash for the first prize. Erysiyan chose for his work a description of the Armenian massacres of 1894, from Gladstone's immortal speech to the house of Parliament.

The second prize in the contest was won by Payson D. Newton '23, of Holyoke, who received 10 dollars for his efforts. His selection was "The Victor of Marengo."

The judges of the contest were Dean Edward M. Lewis, Professor Frank P. Rand and Henry J. Burt of Amherst. Professor Charles H. Patterson was presiding officer.

The other speakers, in order of delivery, were Frank J. Kokoski, "The Storming of Mission Ridge"; Benjamin Ganzue, "The Execution of Sidney Carton"; Edwin Tanner, "The Mission of Japan"; Roger B. Friend, "The Strenuous Life"; Lawrence F. Broderick, "Conditions with the Colonies"; and Richard G. Wendell, "The Rescue of Lygia."

AMHERST IS VICTOR IN CLOSE GAME, 6-4

Brigham and Clark Pitch Well but Aggie Defense Wobbles.

On Wednesday, May 28, the Amherst College ball team came up to Alumni Field and in the seventh inning put three men across the plate, cutting down Aggie's lead and giving themselves enough runs to win one of the closest games ever played between the two rivals. The final score was 6-4.

Before the game the entire Aggie student body gathered in front of Stockbridge Hall and, led by the College band they marched to the field and took seats along the third-base bleachers. The Amherst men were seated on the first-base side of the field. Throughout the game the cheering was continuous on both sides. The game was called at 4:00 but did not begin until half past the hour.

Brigham was on the mound for Aggie and was opposed by Clark. Brigham had a slight edge on his opponent but was not given the support that he should have been given. Amherst only earned two of her runs. One of these was a long home run to left center by Coles in the fourth inning. Amherst scored two runs in the third on three singles, two errors a base on balls and two batters' choices. In the fourth Coles' home run made them three to Aggie's one. They were one run behind in the seventh, but the hopes of the M. A. C. team were dashed when three more errors, a base on balls and a two-base hit brought in three more runs for Amherst.

M. A. C. scored one in the third. Moseley singled to center, went to second on a passed ball and scored when Davidson dropped a throw to the plate. Collins singled in the fourth and (Continued on page 2)

FIRST POND PARTY OF SEASON HELD

Poor Attendance From Freshman Class.

The first Pond Party of the spring was held on Friday, May 28, at 12:30 P. M. The following Freshmen were immersed: W. S. Bartlett, Joseph Goldstein and Robert Maha. Several other yearlings were to have submitted to the "dunk," but were unable to keep the engagement.

As a whole, the Party was one of the duller of several years. The water seemed to be about the only thing with the old time pep. Bartlett captured the distance events while Maha was an easy victor in the 200 pond splash. The small crowd was much disappointed that Goldstein was unable to sing the piece that so often awakes the inmates of South College, namely, "Come Back to Erin." More parties will undoubtedly be held in the near future.

THE SILVER BAY CONFERENCE GROUNDS

This beautiful spot on Lake George, N. Y., is the new site of the annual Student Conference. There is still time to join the big M. A. C. delegation, now numbering about fifteen men. Further information at the Y. M. C. A. office.

THE AMHERST GAME

(Continued from page 1)

Dewey got on but Newell ended the inning with a hit to second base. In the sixth Hilyard drew a base on balls and went to second on Batchelder's fine hit over second. Collins singled scoring Hilyard and both Batchelder and Collins scored on Newell's long double to right field. Newell was thrown out at third on Moseley's hit. Lent got on again in the eighth and Captain Jakeman got a fine single in the ninth but Amherst's three runs in the seventh had done the damage.

Brigham struck out nine men and Clark eight. Lent caught a fly in short right field in the second inning and doubled up Cowles at first.

The second game of the series will be played on Pratt Field and should prove to be an even closer game than this one was for Aggie will be strengthened by the return of Kroeck's arm to shape and the change in the infield by which Lent is playing third-base.

The score:

| AMHERST | AB. | R. | H. | ER. | PO. | A. | E. |

Prof. L. B. Parker of the Mathematics Department is the author of the leading article in *El Campo*, the Spanish Agricultural magazine of South America. The article is entitled, "The Influence of the War on French Agriculture" and is very well illustrated with the author's original photographs.

MAROON AND WHITE TACKLES GREEN THIS AFTERNOON

Baseball Nine Liable to Spring a Surprise at Hanover This Afternoon.

Today the Aggie nine lines up at Hanover for what will doubtless be a closely contested game. Captain Merritt's team have been playing pretty good ball to date, and have accumulated for themselves eight victories out of 15 games. In the early part of the season, Coach Tesreau's aggregation went to Cambridge where they defeated the Crimson to the tune of 10-7. Three weeks ago, Columbia was taken into camp at Hanover, the home team trouncing the New Yorkers by the score of 11-3. The Hanoverians have avenged their Tuts defeat in the beginning of the season by triumphing over the Hill team quite recently on the Mefford oval. About two weeks ago, the Green played the Salinas at Pratt Field and easily conquered the Purple and White by the score of 11-4. Last Thursday, the University of California squeezed out the Hanoverians in a closely played game in the East by the tally of 10-9. Captain Merritt, for Dartmouth, may play either end of the battery in today's game, while Robinson will cover the initial sack as usual.

Reese, who has been hitting the ball in great style lately, will probably play his usual center-field position. Coach Gore's choice for the mound will probably be either Kroeck or Brigham, and with Newell behind the bat, Lent at third, and the rest of the team in their ordinary positions, Dartmouth will be tried to the limit to come out to any advantage over the Aggie mentor's team.

Coach Gore's choice for the mound will probably be either Kroeck or Brigham, and with Newell behind the bat, Lent at third, and the rest of the team in their ordinary positions, Dartmouth will be tried to the limit to come out to any advantage over the Aggie mentor's team.

SENIORS AND JUNIORS LEAD INTERCLASS BASEBALL

All of the classes have played at least two games, with the result that the Seniors and Juniors are tied for first place.

The Seniors won their first game on Thursday when they beat the Freshmen 3 to 2. A misplay in the third with the bases loaded lost the game for the Freshmen and allowed the Seniors to collect two runs. Holly pitched for '23 and Bacon for '20. On Friday after-

noon the Seniors, with Bacon in the box, defeated the Sophomores in an extra inning game, 5 to 4. Nineteen twenty-twoed up to the last half of the fifth, when the Seniors tied the score. With three men on, a ball was hit, struck a tree and fell foul, but was declared to be fair. It netted '20 their two tying runs, and in the sixth they managed the one run needed for a win. Haskins and Bacon both pitched well and were given good support.

The Juniors dropped a game to '22 last Tuesday, 6 to 0. Haskins pitched for the Sophomores and allowed but few hits.

The Sophomores trimmed '23 on Monday, 2 to 0.

The rumor that Prof. R. W. Neal is to leave Aggie for other fields has been officially denied.

Penny Wise—Pound Foolish Separator Buying

Many buyers of cream separators are tempted to save \$10 or \$15 in first cost by buying some "cheaper" machine than a De Laval.

In practically every case such buyers lose from 10 to 50 cents a day through the use of an inferior separator. That means from \$30.50 to \$182.50 a year.

Twice a Day—Every Day in the Year

It should always be remembered that the cream separator saves or wastes in quantity and quality of product, and in time and labor, twice-a-day every day in the year.

Moreover, a De Laval Separator lasts twice as long on the average as other separators. There are De Laval farm separators now 25 years in use.

The best may not be cheapest in everything but it surely is in cream separators.

M. A. C. AGAIN TRIUMPHS OVER CONNECTICUT 7-3

Brigham Holds Opponents. Scoreless until Eighth Inning.

On May 29 the baseball team went to Storrs, Conn. and defeated the Connecticut Agricultural College for the second time this season. The score was 7-3, all the runs coming in the latter half of the game.

The batting of Collins, Lent, and Brigham was hard. The three men with Mahoney drove out six doubles. Johnson also connected for a two-bagger. Brigham at second base for Connecticut accepted seven chances without a slip up. John Brigham pitched a good game for M. A. C. He pitched shutout ball for seven innings but eased up a little at the end when his team mates began to hit Johnson.

Moseley in the fifth on his own single, Jakeman's single, and an infield hit by Brigham.

In the sixth Collins and Lent drove out long doubles, and an error with a base on balls, a hit batter and a fielders choice scored two more runs.

Lent got his second two base hit in the seventh. He immediately stole third and home, scoring the fourth run for his team.

Two errors and a sacrifice hit by Jakeman scored another run in the eighth. Connecticut scored her three runs in the eighth and ninth on good hitting.

M. A. C. annexed her two final runs in the ninth on a base on balls to Hilyard, an infield hit and two perfect squeeze plays with Collins and Lent laying down the outs. The score:

The Agronomy Department has adopted a new and unusual method of instruction from final examinations this spring. Because of the unusual brilliancy of the students or the extreme ability of the instructors, a large percentage of the class is above 85%. To avoid undue exhilaration, only 10 members of the class having the best marks and attitude will be exempted.

SPRINGFIELD NINE DOWNS M. A. C. 4-0

All Runs Scored in Third Inning on Four Hits and Three Errors.

Four infield hits, three errors and a stolen base in the third inning gave Springfield four runs and the game in a fast contest staged on Pratt field in Springfield on the 31st of May. With the exception of this one inning Kroeck pitched gilt edged ball for Aggie. The only hits outside this inning were three made by Norfeldt, the diminutive Springfield left fielder, who played a fine game for his team. The pitching of Captain Carlson of Springfield was also of high calibre. He sent his opponents down in one, two, three order until the fifth inning, and at the end had held the Aggie team to five hits and no runs.

In the disastrous third inning Norfeldt and Bennett laid down infield hits. Kallouch was safe when Batchelder dropped a throw to first. Singles by Zigler and McFarrah, coupled with two more errors, brought in the four runs. After this Kroeck settled down and only three men faced him in each of the remaining five innings. Lent, Batchelder and Hilyard completed a fast double play in the fifth inning.

Singles by Moseley and Kroeck in the eighth gave Aggie her best chance to score, but a fast double play killed all hopes of a score. Again in the ninth Batchelder and Lent got on base; but they were both caught off.

The batting of Norfeldt and Kroeck was hard and timely. Kallouch and Moseley both put up a fine game at second base; while Batchelder accepted eighteen chances at first with his two only slips in the third inning.

The score:

| SPRINGFIELD | AB. | R. | H. | ER. | PO. | A. | E. |

Commencement.

"Stay to Commencement." This appeal is being constantly made to the Juniors. And with the exception of a few unusual cases there are no real reasons why the Senior-to-be should not heed the request of those who are to wear the cap and gown.

The real reasons for leaving early seem to be three: a desire to get "on the job," a simple yearning to leave Amherst as speedily as possible, and more disinterested. The last two are negligible, being a matter of personal whim. The man who has a real job awaiting him is, to a certain extent, excusable. But, on the other hand, Commencement time is as much a part of the college year as the Junior Prom, only more so. There are relatively few jobs that will not wait through this period. Another year is coming and the present Juniors will be as anxious to see the present Sophomores stay over as are the present Seniors to see the present Juniors. "Do unto others—"

Commencement time brings back many Alumni. They wish to talk over college affairs with men who know. The Seniors will be much too busy for this. The Juniors, by virtue of the next longest term at college, can give them the dope that they are seeking.

"Stay for Commencement." The appeal should be heeded. It is a question of fair play against personal desire. Are you going to stay?

Summer Jobs.

The merry search is now on for the mythical soft job that pays big money. Here and there a man is found who thinks that he has achieved the millennium in picking the biggest graft of them all. But with the reopening of college another story is told. The lad who picked the softest job finds that it was all a mistake, whereas the lad who went to work with an earnest purpose in mind returns with tales of the perfect summer and an accumulated bank account.

There is a moral hidden in this. Do not attempt the impossible; there are no soft jobs. Every job, no matter

what it is, carries with it a certain amount of work. The amount of effort necessary to accomplish this work rests wholly with the individual and his personal abilities.

In picking their jobs for the summer men of M. A. C. should pay a bit of attention to other than the mere monetary income. The experience gained in the course of a summer's labor is oftentimes the deciding factor in placing a man on his life work after graduation. Think it over. Go to work with an idea of learning something, rather than becoming a Croesus over summer. There are no jobs now-a-days that do not pay a living wage, but there are only a few that pay a worth while sum in terms of experience.

By voluntarily writing an extra number of original poems, the Sophomore class, as a body, has achieved the heights of literary activity for this college. The material which has been turned in to the English Department has been unusually good. Several specimens are worthy of publication in the columns of a national magazine. This class has established a precedent which is worthy of approbation. The annual Sophomore poem is evidently no longer the bugbear of olden times.

COMMUNICATION

TO THE EDITOR OF THE COLLEGIAN:
Dear Sir:

We sincerely hope that the sentiment expressed in the editorial of last week's COLLEGIAN is not the feeling of the college toward the class of 1923. If it is, we are gravely misunderstood. Discussions during a recent class meeting made it clear that we believe in good college traditions and customs, and that we have endeavored to support such at all times. Our decision in this matter means merely that the class does not consider financial assistance to the Junior Class a tradition worthy of revival.

Yours very sincerely,
IRVING W. SLADE,
Sec'y 1923.

M. A. C. MEETS AMHERST IN SECOND GAME, JUNE 14

Both Teams Will Present Changed Lineups, and Chances Appear Even.

On next Monday, June 14, the M. A. C. baseball team meets Amherst in a return clash on Pratt Field and is out to turn the tables on her rival, after her defeat of two weeks ago.

Amherst has slumped badly since the last contest, losing three games in a row to Williams, Dartmouth, and the University of California while the Aggie nine has played consistent ball, winning from Connecticut 7-3, and losing to the strong Springfield combination 4-0. In practice the team is now going better than ever.

Neither team will start with the same lineup as in the previous conflict. M. A. C. will have Lent on third and Holmes in the outfield as in the Springfield game, while Amherst has had a general shakeup of the infield which is expected to strengthen the team materially. Eames is now playing first with Cowles back in his old position on third and McCandless is playing on second base in place of Weber.

The choice for boxmen is not yet certain, but with Brigham, Kroeck, Crafts, and Luce all in good shape Aggie

will not have to worry about that department. All three Amherst hurlers have been hit rather freely in recent games. Taken all together and considering the previous game, things look favorable for a victory. Amherst will have to show her best if she wins, even with the advantage of her home field.

'13.—James W. Dayton was married on May 22, to Miss Marjorie Summerfield, of Brooklyn, N. Y.

SENIOR CHAPEL

The last chapel of the year on Friday morning, will be the annual Senior Chapel, at which time it is the custom to have the chapel exercises conducted by the Seniors, who will march in in caps and gowns.

The Faculty will be present, and in their behalf Prexy will give the outgoing class a few farewell words.

Thus, for the last time, we will see the class of 1920 sit together as a class of undergraduates at a college exercise.

Now, then, Juniors, Sophomores, and Freshmen, in this our last opportunity to pay our respects to the class of 1920, let's forget about our unused cuts and be in chapel Friday morning.

Shop 'round and see!

We are asking even less for our kind of quality than they do elsewhere for suits not nearly so good. You see, we are our own manufacturers, base selling price on actual cost and take (and want) only our normal trading profit.

The best of everything college men wear.

Dairy Science.

When the Agricultural Colleges entered the field of Dairy Husbandry they turned the light of science upon this industrial field with the result that better methods of manufacture and high-grade products are made possible.

Among these better methods none appear to be more important or more necessary than sanitary cleanliness, if good results are to be obtained, and the use of

Wyandotte
Cleaner and Cleanser

is recommended by the Agricultural Colleges of the United States and Canada, because the fresh, wholesome, sanitary cleanliness this cleaner provides is not only an adequate protection to the dairy from insanitation, but is also proving most efficient and economical.

In every pkg. The J. B. Ford Co., Sole Mfrs., Wyandotte, Mich.

TUESDAY, JUNE 15.

Freshman and Sophomore finals start.

JUNIOR BANQUET

HELD AT DRAPER

Attractive Menu and Interesting Speakers Help to Make the Affair a Success.

The annual Junior class banquet was held in Draper Hall at 8 o'clock on Wednesday evening, May 26. Miss Dietrich catered, and music was furnished by Davenport and Hunter.

The menu was rather unique in arrangement as well as substance, each order being preceded by a timely and descriptive phrase in introduction. "While the orchestra plays soothing music we will indulge in vanilla ice-cream," and "After the weary waiters have passed the demi-tasse we will leave a sigh of relief and settle down to listen to the pearls of wisdom that may fall from the lips of our hand picked speakers."

An interesting program of speakers was followed out with Roger F. Readlin as toastmaster. The first speaker was Professor Sprague whose subject was "Most Anything." Other speakers in order were, T. D. Watkins, "Southern Breezes"; J. D. Snow, "Puck Shots"; Professor Robbins, "The Outside World," Starr M. King, "Line Bucks"; Harold W. Poole, "A Few Fun-Ts," and Carroll W. Bunker, "Trims."

The last speaker, but the most serious and constructive, was Professor Hicks. He had chosen to speak on "College Spirit," and used that spirit prevalent in the Freshman class as an example of a disgraceful condition. Professor Hicks' ideas were well founded, and he said that the present Freshman class was altogether too independent of the rest of the college. Back three or four years when Alumni Field was started, Freshmen got out there and worked an hour or two before classes in the morning. This class could not see any spirit in that. Rather than accept an old custom and say nothing, they had a lengthy debate over what they should do about aiding the Juniors in their banquet. They voted to abolish the custom as far as their class was concerned.

At the close of the banquet the college song was sung, and the class adjourned to the site of the class tree planting. The banquet committee, to which credit is due for the success of the occasion, consisted of Fuller, chairman; Readlin, Geer, Brown, West, Anderson, and Martin.

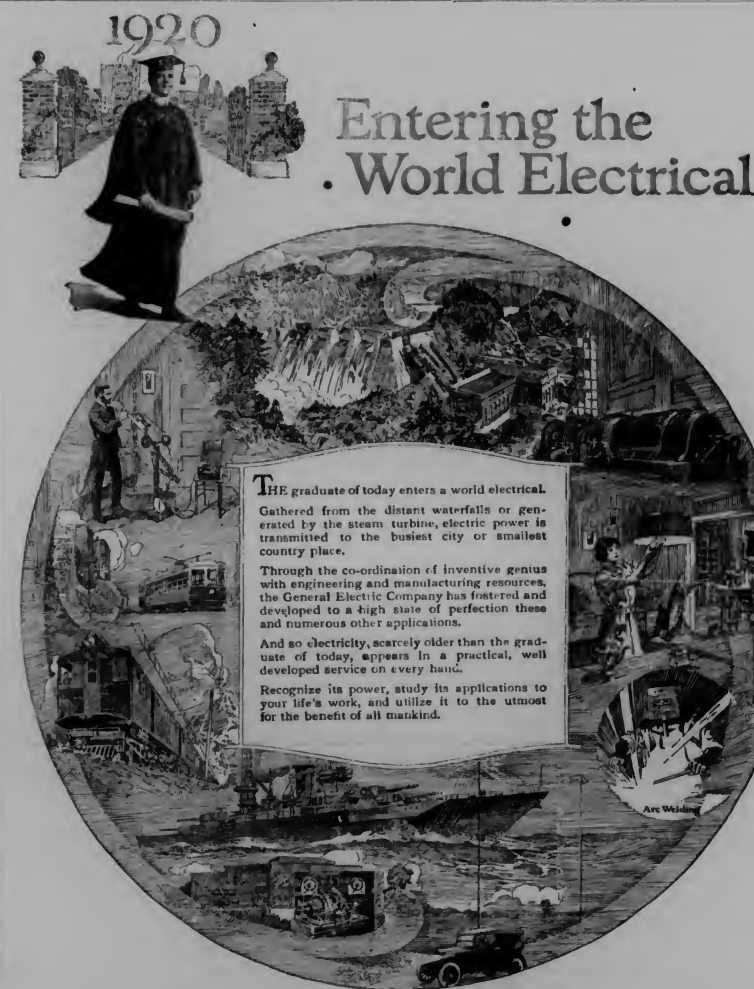

FAREWELL DEAN'S BOARD OF YEAR, MAKES ITS APPEARANCE.

With hardly a week left to go, another Dean's Board burst upon us last Saturday, with its usual assortment of surprises. Due to the high cost of real ink, the departments of Agronomy and Military Science were not represented. The spring fever must have really

stricken the lofty seniors, for several seem to be on the outs with their majors. The Wood Chopping Department mercilessly hit a 1920 cripple when he was down. Chemistry 27 was there in two colors, with red prevailing. Minor injuries were reported here and there among the older classes. All present indications point at the cancelling of frivolous engagements for the next

week on the part of some of the student body, and at the generation of extra electricity on the part of the Power Plant.

Mallory '18, now an instructor in the Agronomy Department, is carrying on an unusual and interesting set of experiments on soil acidity affected by different moisture contents.

THE graduate of today enters a world electrical.

Gathered from the distant waterfalls or generated by the steam turbine, electric power is transmitted to the busiest city or smallest country place.

Through the co-ordination of inventive genius with engineering and manufacturing resources, the General Electric Company has fostered and developed to a high state of perfection these and numerous other applications.

And so electricity, scarcely older than the graduate of today, appears in a practical, well developed service on every hand.

Recognize its power, study its applications to your life's work, and utilize it to the utmost for the benefit of all mankind.

THE WITCHING HOUR TO BE PRODUCED AT COMMENCEMENT

Roister Doisters to Stage Well Known
Drama by Augustus Thomas.

The Annual Commencement Show
this year promises to at least be up to
the standard of the old Roister Doister
productions. The society is staging at
this time "The Witching Hour" by Au-
gustus Thomas; a drama in four acts.

The play is one of many good qual-
ities, standing high in the ranks of good
literature. The theme is based upon
mental telepathy and holds the atten-
tion of the audience throughout.

Rehearsals are being held regularly
and the cast certainly deserves credit
for the prodigious amount of work that
it is doing to make the production a
success. Several new members will be
in the limelight for the first time; nev-
ertheless they are all capable and with-
out a doubt will give a good account of
themselves. Of the veteran Jack Pick-
horns who are assuming important roles
there are C. Bougholt playing the part of
Frank Hardmuth, J. Smith as Jack
Brookfield, and G. Lockwood as Tom
Denning.

COMMENCEMENT MILITARY PROGRAM ANNOUNCED

Competitive Drill to Come on June
21 at 11 O'clock.

Commencement Drill at M. A. C. will
take place on the Parade Ground, June
21 at 11 A. M. The drill this year will
be competitive. To the officers and non-
commissioned officers of the winning
company watch fobs will be given.
Similar prizes will be awarded to the
nine privates of the winning company
that have the best records for drill dur-
ing the year. The judges will be army
officers and are to be announced.

The drill will be as follows:

Co. B—Exhibition of Kochler's rifle
drill (7 minutes).
Co. A—Bayonet exercises (7 minutes).
Co. B—Company close order drill (10
minutes).
Co. A—Company close order drill (10
minutes).
Best platoon of Co. B, extended order
drill (5 minutes).
Best platoon of Co. A, extended order
drill (5 minutes).
Battalion Parade.

TRACK MEET AT BURLINGTON

(Continued from page 1)

51 points for Vermont, and 114 for
Aggie. The races on the whole, how-
ever, were exceptionally good and the
eleven men sent up from M. A. C. did
very well. The track was in a fair con-
dition, despite threats of rain. The re-
sults of the meet were in doubt up to
the very last when New Hampshire won
the relay, thus placing ahead of Ver-
mont. It is notable that M. A. C. was
ahead during the first part of the meet
but lost out in the second. The best
race of the day was undoubtedly the
relay which was closely contested be-
tween New Hampshire and M. A. C.
with Vermont practically out of it. The
mile-run was an exciting event, also,
when Nightingale, the star runner for
New Hampshire, who will probably en-
ter the Olympics, was hard pushed
by Slate, M. A. C., on last lap.

Bellows of Vermont was the star of
the meet, placing first in five contests,
and winning half of the points for Ver-
mont's team, in spite of the fact that he
had strong competition in each event,
with very little rest between. Sullivan
'22 started for the Maroon and White
team, with two firsts and a second to
his credit, besides good work in the re-
lay. He won the 100-yard, 220-yard,
and won second place in the high jump.

The 220 and 100-yard were the two
events in which Aggie scored her great-
est number of points, winning seven in
the former and eight in the latter.
Two points were made in the 120-yard
hurdles, three in the mile, one in the
discus throw, one in the shot put, five
in the high jump, three in the two-
mile, six in the 220-yard hurdles, three
in the 880-yard run, and one in the
broad jump. The four highest scores
for M. A. C. were Sullivan with thirteen
points, Dewing eight, Meserve six, and
Slate five.

On the whole, the strong competition
and closeness of the contests speak well
for the team, and we may consider that
the team came through well in spite of
the final score.

14.—Mr. and Mrs. Raymond P. Wal-
ker of Bridgeport, Conn., announce the
arrival of a son, Philip John on May 15.

INTERFRATERNITY BASEBALL

With but one week left in which to
end the Interfraternity league baseball
series, and with two teams tied for
first place, results are still in doubt as
to who will win the cup for this year.

Phi Sigma Kappa has again gained first
place, but is tied with Sigma Phi Epsi-
lon for the lead. Lambda Chi Alpha
lost two games during the week and so
fell from first to fifth place. Both Kappa
Sigma and Kappa Gamma Phi won their
first games of the year, the former win-
ning 4-3 from Alpha Gamma Rho, and
the latter from Theta Chi 4-2. On Fri-
day, Lambda Chi, without the services
of Holly, who has been their chief
strength, lost to Phi Sigma Kappa 9-0.
The same evening Sigma Phi Epsilon
beat Q. T. V. 5-3. Bacon pitched for
the winners, this being his third time
in the box in two days, and Crafts
pitched for Q. T. V. up to the fifth in-
ning. Q. T. V. was leading 2-1, but dark-
ness and wild pitching resulted to a
large degree in their 5-3 loss. Alpha
Gamma Rho barely lost to Q. T. V. 11-10
on Thursday. Tunney pitched for four
innings, but was replaced by Taylor in
the fifth. Alpha Gamma Rho collected
eight runs in the last dimly-lighted
inning, but Q. T. V. came back with a
scally, and ended the game by bring-
ing three men home. On Thursday
evening Alpha Sigma Phi won from
Kappa Sigma 9-2.

Below is the league standing:

| | Won | Lost | Per Cent. |
|-------------------|-----|------|-----------|
| Phi Sigma Kappa | 4 | 1 | .800 |
| Sigma Phi Epsilon | 4 | 1 | .800 |
| Q. T. V. | 5 | 2 | .714 |
| Alpha Sigma Phi | 2 | 1 | .666 |
| Lambda Chi Alpha | 4 | 3 | .571 |
| Alpha Gamma Rho | 1 | 3 | .250 |
| Kappa Gamma Phi | 1 | 3 | .250 |
| Theta Chi | 1 | 3 | .250 |
| Kappa Sigma | 1 | 6 | .143 |

NEW NON-ATHLETIC MEDALS
TO MAKE APPEARANCE FRIDAY

The new Non-Athletic medals will probably be awarded at chapel Friday morning and will be a departure from the old style medals both in size and shape. They will be adapted to wearing as a watch chain.

The following is a list of the medals awarded, and the basis on which the awards were made, together with the credits awarded to date in non-athletic activities, as made public recently by Faculty Manager Frank P. Rand, of the Non-Athletic Activities Board:

The Non-Athletic Activities Board has made the following medal and credit awards on the basis of the new system of accumulation. In doing so it was guided by certain considerations which may be of interest to the student body:

1. In some instances the activity year begins and ends in the spring.
2. Periods of competition prior to election to any organization are not subject to credit whether the candidate is ultimately successful or not.
3. Ineligibility for more than half a term bars a candidate from credit for the current season.
4. Irregularity of attendance at rehearsals or public performances bars a candidate from recognition.
5. Awards for previous years are based largely upon the recommendations of the previous managers.
6. The Board reserves the right to make exceptions in favor of individuals of peculiar merit.
7. Any revision of the awards must be made by the Non-Athletic Activities Board through the General Manager.

Senior Medals.

FRANK PRENTICK RAND,

General Manager, N. A. B.

Any Senior entitled to a bronze medal (2 credits in one activity, 3 in combination) and desiring the same, should confer with Mr. Rand.

NEW PLAN OF MAJOR
SELECTION BEING TRIED

Prof. Lockwood Acting as Vocational Guide to 1922 Men.

Professor Lockwood, head of the Dairy Department, is meeting the members of the Sophomore class every day and trying to find out for what line of work each is best fitted, and advising them what department they should go to for consultation concerning their major work. Professor Lockwood says that it is surprising how many men there are that have not seen a major advisor, or even thought of going to him. It is not necessary, he says, to know what major one should follow up now, but that it is high time one began to think about it.

His system is one to help a man get his bearings, and to find out his own qualifications. The way he does this is by having each man fill out a card of questions. After Professor Lockwood has glanced over this card he knows the man fairly well, and can tell whether or not his mind is unsettled by the consistency of the answers. For instance, there was a case where a man said his choices of majors were chemistry, psychology, and rural journalism, three diametrically opposed things. Professor Lockwood said that a man's choice of majors should be in some degree connected, as dairying and animal husbandry, or horticulture and landscape gardening.

The questions on the "Vocational Guidance" card are so arranged that if a man does not really know what he wants, the examiner can soon find it out. Besides the question asking what work the man liked the best in college was one asking which studies were disliked and why? The student is also asked to check the subjects he is interested in, and double check those that particularly interest him. In this way Professor Lockwood can tell whether the man is on the right track, and just what his inclinations are.

Not only does Professor Lockwood want to find out the qualifications of a man, but he wants them to think of what their work will mean to them twenty-five years from now. He wants them to take for an example some one who has worked along a certain line for a number of years, see what condition he is in, and then determine whether or not he would like the same life. The trouble with many students is, says Professor Lockwood, that they picture only the ideal side of work, rather than the true and practical side.

After appointments with Professor Lockwood have been filled, he tells the students to go and see their major advisor, first of all, and then to return to his office for another conference. In this way the student will come back to college in the fall having a fair idea of what he is fitted for, and just what he wants to do.

GALLERY SHOOTING PRIZES.

The Sophomores who have the best gallery shooting record are to compete soon with the ten leading Freshmen for the following prizes: First prize, a wrist watch; second prize, kodak; third prize, a fountain pen.

The ten Sophomores who have the best record for range shooting at both 200 and 600 yards will also compete for similar prizes. Some very good scores have been made on the range and indications show that the competition will be very keen.

PLANS LAID FOR
SEVERAL REUNIONS

Commencement Will See Fourteen
Former Classes Represented
on Campus.

As plans are fast materializing for commencement, it is evident that the largest reunion in the history of the College will occur over the coming week-end, from the 19th to the 21st. Already fourteen classes have definitely decided on class reunion, and close to three hundred men will be back for their class gatherings. There will also be a large number of grads back on the old campus besides those gathering for their class reunions.

The forty-fifth reunion of the class of '76 will be a real old-time get-together, and the boulders which mark the trees set out by '75 will be dedicated during the week end. At least ten men will be back and their class banquet will be held at the home of Dr. Brooks. The plans of '86 are in the hands of Mr. Winfield Ayers, but this program has not yet been definitely settled.

"Keep up the good reputation of the past," writes Mr. F. H. Fowler in his
(Continued on page 5)

MEMORIAL HALL CORNER
STONE TO BE LAID JUNE 20

Atherton Clark '77 to Preside at
Impressive Exercises.

The corner stone of the Memorial building will be laid next Sunday, June 20, at 5 P. M. This will be one of the main commencement features and marks the steady progress which has been made on the construction work.

The platform party will consist of Kenyon L. Butterfield, president of M. A. C., Evan F. Richardson, president of the associate alumni, Atherton Clark '77, chairman of the building committee, William Wheeler '71, and Dr. Joel Goldthwait '85. Mr. Clark will preside and lay the cornerstone. Dr. Goldthwait and Mr. Wheeler will give brief addresses. There will be singing of the college songs in addition to the speaking. The ceremonies will be very impressive.

(Continued on page 7)

It is imperative that all men who plan to go out for varsity baseball next year see me before the end of college.

C. F. CLARK,

Mgr. Varsity Baseball 1921.

PROGRAM FOR CLASS DAY
EXERCISES ANNOUNCED

Class Ode Composed and Delivered
by Raymond W. Swift.

The program for the Senior Class Day exercises, which will take place at 9:30 Monday morning, June 21, gives promise of an exceptionally good order of ceremonies. The program begins with the Ivy exercises, which will take place on the south side of the steps of the Old Chapel. The class numerals will be cut in the brown stone above the numerals on the granite stones, and the Ivy will be planted to cover the space on that side of the building that is now bare.

George M. Campbell will give the Ivy oration. After the ceremony is completed the Seniors will march over to the Senior Fence, where they will be seated, while the Juniors march in and take their places on the grass facing the Seniors. Here the Campus oration will be given by Frellick, followed by the Class Day oration, given by John Crawford. The pipe of peace will then be passed down the Senior line, while Frank Binks delivers the Pipe oration. Then the pipe is passed from the end of the Senior line to the Juniors, who

(Continued on page 5)

VARSITY DOWNS
AMHERST 2 TO 1

Injury to Third-baseman Lent Mars a
Brilliant Victory.

M. A. C. 2, Amherst 1, tells the story of Aggie's great comeback on Pratt Field last Monday. A fast double play by Hilyard and Hatchelder in the last half of the ninth inning left Amherst on the short end of the score.

The game was scheduled to start at 3 o'clock but the different exercises and so forth pulled off by the reunion classes of Amherst took up a good deal of time so that the game did not end until after six o'clock. The class of '14 gave a short stock company (original) performance. The class of '10 sailed across the diamond in the good ship "Jolly Rogers" while '05 sent up balloons and rockets in celebration of their 15th reunion date.

In the 2d inning first baseman Cowles of Amherst was presented a medal in recognition of his being the most valuable player to the team during the past season. John Henry, Amherst '10, a former Washington catcher, made the presentation speech while the members of both teams gathered at home plate.

The game in detail:

1st Inning—M. A. C. Hilyard and Hatchelder struck out. Collins lined short stop. No runs. Amherst. Evelyth out, Moseley to Hatchelder. Senamans out Kroek to Hatchelder. Brisk was safe on a questionable decision at first when Hatchelder dropped the ball. Brisk stole second and went to third on a wild pitch, but Maynard flied to Moseley. No runs.

2d Inning—M. A. C. Lent was safe on Weber's error. Lent came in contact with Cummings at first so that a small bone in his foot was broken. After a short delay Mansell ran for Lent. Lent showed his pluck later and stayed in the game. Mansell was thrown out at second on Kroek's hit to MacNamara. Kroek stole second. Dewing flied to short stop and Newell sent up a fly to Cowles. No runs. Amherst. Cowles walked, MacNamara sacrificed, Davison struck out. Weber grounded out, Lent to Hatchelder. No runs.

3d Inning—M. A. C. Moseley hit a hot one to Weber and beat the throw to first. Holmes sacrificed. Hilyard hit a fly to

ANNOUNCEMENT MADE OF THE LAIRD SCHOLARSHIP

Parents of '16 Aggie Grad. Offer
Sum of \$100.

The parents of Kenneth B. Laird '16, have offered a \$100 scholarship to be known as the Kenneth Bradford Laird Scholarship, open to members of the Brockton High School, from which he graduated. This scholarship will be paid to the winner in the scholarship contest on receipt of a statement of matriculation at Massachusetts Agricultural College, signed by a college official.

Kenneth B. Laird was an excellent scholar and musician. He entered the Brockton High School in 1908, and graduated in June, 1912. He was pianist in the school orchestra at that time. In the fall of 1912 he entered M. A. C. to further his botanical studies, and received his diploma here in June, 1916. Upon graduation he joined the faculty of the Hartford High School as teacher of botany, where he served a year, leaving for the New Hampshire State College, where he filled the chair of botany in that institution. Shortly after, he entered the U. S. service, doing research study and work along scientific lines in New Haven. While there he contracted influenza, which developed into pneumonia, causing his death.

While at M. A. C. he joined the Beta Kappa Phi Fraternity, now Alpha Gamma Rho, and was prominent in musical and social activities. He was a member of the glee club, leader of the orchestra, president of the musical clubs, and a member of the Sophomore Hop Committee, and on the cast of the 1915 Commencement Show.

Penny Wise—Pound Foolish Separator Buying

Many buyers of cream separators are tempted to save \$10 or \$15 in first cost by buying some "cheaper" machine than a De Laval.

In practically every case such buyers lose from 10 to 50 cents a day through the use of an inferior separator. That means from \$36.50 to \$182.50 a year.

Twice a Day—Every Day in the Year

It should always be remembered that the cream separator saves or wastes in quantity and quality of product, and in time and labor, twice-a-day every day in the year.

Moreover, a De Laval Separator lasts twice as long on the average as other separators. There are De Laval farm separators now 28 years in use.

The best may not be cheapest in everything but it surely is in cream separators.

DARTMOUTH TRIMS

Varsity 10 to 4

Green Score Six Runs in Two Big Innings.

Last Wednesday the varsity baseball team went to Hanover, N. H., and played the strong Green team.

Brigham and Kroek pitched for Aggie, and Tracy was on the mound for the Dartmouth team. The M. A. C. defense started off poorly and before the team had settled down Dartmouth had scored six runs. After these two innings there were four runs scored by each team.

M. A. C. scored once in the third. Newell singled, Moseley singled and stole second after Newell had been thrown out at second. Holmes was safe on a fielder's choice, Hilyard got on the same way, and a dropped throw by Munier let Moseley in.

In the seventh, Dewey was hit by a pitched ball. Newell and Moseley each got singles. Dewey was thrown out but Newell scored.

Hilyard opened the eighth by walking. Collins singled and Lent scored. Hilyard with a sacrifice fly to center field.

The final run came in the ninth as a result of Moseley's third single, a base on balls to Maginnis and an infield single by Hilyard.

Dartmouth's six runs in the first two innings were obtained with the aid of only two hits; a double by Merritt and a single by Maynard. Their other four runs were earned, as they need five hits, a sacrifice and two bases on balls in manufacturing them.

The score:

Goodby and Goodluck.

Within the coming week the seniors will have completed the last of the events which are to crown their four years of effort. They are leaving behind in other classes many former members who have been forced to drop back. And too, there are many members of the present class who were formerly enrolled in other classes which have gone before. Such has been the result of war.

The class has maintained a remarkable unity throughout its years in spite of all its difficulties. There are several phases of its history which are worthy of more than passing attention. Without a doubt, 1920 is the best financed class which has gone out of this college in many years. This is a unique distinction. On the other hand, it has always done its share in helping out the college whenever that need appeared. Its record of material aid in establishing the honor system needs no comment. It has always maintained college traditions and customs. After all has been said and done, 1920 is among the best that Aggie has ever produced.

Volumes have been written about the duties and opportunities of the college graduate. The Collegian does not attempt to better this vast labor. To the class of 1920 she wishes to say: "Be the man, play square, remember always the fair name of M. A. C. Good luck to you all."

COMMUNICATION

To the Editor of the Collegian:
Dear Sir:

The Roister Dusters wish to extend their thanks and appreciation to Professor Frank Prentice Rand, who, as Faculty Manager of Non-Athletics, has aided the society so materially in the past year: to the Co-eds; to Miss Dieter; to Mrs. Bachrach; to Mrs. Jennings; to Mr. Brown of Deerfield; to the College Orchestra and to Mr. W. A. Burnett and the Northampton Academy of Music, for their valuable suggestions and assistance during the past season; and to the Faculty, Students and Al-

ni of the Massachusetts Agricultural College.

JONATHAN A. SMITH, President
GEORGE W. EDMAN, Manager

SENIOR BANQUET PLANS COMPLETE

Good Program of Speakers For 1920's Farewell Undergraduate Get-together.

The Senior banquet this year is to come after the regular commencement exercise, and is to be the crowning event of Aggie's whole commencement program. It will take place Tuesday evening, June 22, at 8 o'clock, at the Draper Hotel, Northampton, Mass. The plans now provide for auto accommodations both to and from the banquet, and the committee intends to spare nothing to make this the most successful and enjoyable occasion of its kind ever held by the class of 1920. It is the class's last get-together as undergraduates, and it is intended to make the most of it. About an even hundred are expected to be present; several who left college during the year are coming back to join their class, and will make up for the few who will be unable to remain after the commencement exercises.

The toastmaster for the evening will be the president of the class, Warren M. Dewing. Before introducing the other speakers, he will say a few words on the subject "Everybody Happy?" Other toasts will be:

"The Seer Speaks" George M. Campbell.

"1920's Contribution" John A. Crawford, Class Historian.

This will be in the form of a brief review of the class' activities during its four years, and of what it has done for the college. The faculty speaker for the evening will be Prof. W. P. B. Lockwood. His subject "The Man Outside" will be about those with whom the men will come in contact in getting their positions after graduation. Dr. Arthur W. Gilbert, State Commissioner of Agriculture, will give the main speech of the evening on "The World Before You," a subject which speaks for itself as most appropriate for the occasion. With such speakers and with the old 1920 spirit prevalent throughout the evening, the affair should prove to be a most fitting one with which to complete the Senior's four year career at old Aggie.

JUNIOR FROLIC COMES FRIDAY AFTERNOON

The Committee Have a Surprise in Store.

On Friday afternoon, June 18, at two o'clock, the Junior Frolic, another pre-bellum Aggie tradition, will be resumed. The Frolic Committee has great plans in store for the doings of '21. The best baseball talent of the Junior class will be exhibited, and the athletic prowess of the women will be demonstrated. The Seniors-to-be will parade in a kaleidoscopic array. They will assemble at the Social Union rooms at 1:30 p. m. They will then march up the cross-walks to the waiting station. From there they go down Pleasant street to the Phi Sigma Kappa House, back to North College, to the Drill Hall, and then to the ball field.

The 1921 Index will not be out before July 15 at the earliest. Seniors will have them sent to them. Others may on payment of 25 cents to Geer '21, Kendall '21, or Law '22.

AGGIE FACES STRONG U. OF V. TEAM ON ALUMNI FIELD

Commencement Game Promises to be Real Battle.

The M. A. C. baseball nine will wind up the schedule with the commencement game Saturday, and on that day will be pitted against one of the strongest teams in New England when it faces the University of Vermont Alumni Field.

Vermont has a record of twelve victories and four defeats this season. She has trampled over such teams as Georgetown, Harvard, Princeton, Boston College, Williams, Syracuse and Fordham, and has lost only to Holy Cross, Tufts, Boston College and Fordham, all by close scores. She has a strong team in all departments and two star pitchers, Kibbee, who has done the greater part of the box work this season, and Duba, who has pitched two sensational no-hit no-run games. One of these two will probably be on the mound Saturday. The team is now on a three day trip, playing at Williams commencement Thursday, at Tufts Friday and M. A. C. Saturday.

Following the victory over Amherst, Aggie is looking for still bigger game.

When you "dig" for the price of a suit, remember it pays to buy the best.

Specially when our kind costs no more than is asked elsewhere for clothes of inferior grades.

The best of everything college men wear.

and in spite of the formidable record of Vermont, Saturday's game should be a real battle. The Aggie team is out to win, and although without the services of Lent, with both Kroeck and Brigham pitching fine ball and the whole team going at top stride, she has an excellent chance.

ALUMNI PARADE TO PRECEDE GAME SATURDAY

Fourteen Classes Expected to be in Line.

A novel and most interesting feature of the Aggie Commencement this year will be the alumni parade, which is to take place just before the baseball game with the University of Vermont on Saturday afternoon. The various classes will assemble at three o'clock in the Social Union room. Then, led by the Drum and Pipe Corps, they will march in a double column down Lincoln avenue, and will enter the Alumni Field by way of the Veterinary Laboratory gate. They will parade the field once and then will march to the section of the bleachers which will be held in reserve for them. The number in the procession will be about one hundred and fifty. Each class will be distinguished by its apparel. The classes participating in the event are: '75, '86, '87, '88, '90, '95, '06, '07, '08, '10, '11, '17, '18, and '19.

Dairy Science.

When the Agricultural Colleges entered the field of Dairy Husbandry they turned the light of science upon this industrial field with the result that better methods of manufacture and high-grade products are made possible.

Among these better methods none appear to be more important or more necessary than sanitary cleanliness, if good results are to be obtained, and the use of

Wyandotte
Cleaner and Cleanser

is recommended by the Agricultural Colleges of the United States and Canada, because the fresh, wholesome, sanitary cleanliness this cleaner provides is not only an adequate protection to the dairy from insanitation, but is also proving most efficient and economical.

Good-bye, Boys, We Want to Shake—

We extend our most hearty thanks for your very generous patronage during the past year and promise our very best efforts for 1920-1921.

Best wishes for a good summer, and may health, wealth and happiness attend you all.

Sincerely,

"The House of Walsh"

FRESHMAN-SOPHOMORE GAME ON JUNE 18

Rival Nines Look to Be Evenly Matched for Numeral Contest.

The annual numeral baseball game between the Sophomores and Freshmen is one of the first attractions of the commencement program this year, being played on Friday afternoon, June 18. This game promises to come up to all former traditions of numeral games by being a close, hard-fought contest. Both teams have been going good during the season, and at present are evenly matched.

The '22 team has showed favorably in the interclass series, although it has been beaten by both Juniors and Seniors. Haskins on the mound has pitched consistent ball throughout the season, and has been given live support in the field. The hitting of Bent and Lewandowski has featured, while Bent at shortstop and Giles at second base help to form a strong infield defense.

The Freshmen will also have a strong team on the field to continue the clean record of their class. The regular Freshman team will be strengthened considerably by the addition of Tumeay, as pitcher, and of Grayson in the field. Gordon has been doing good work with the stick lately, while Tarplin and Marshman have been putting up a fast game in the infield.

'23 started the season off well with a decisive victory over Greenfield High, 16-2. They met with less success when they clashed with other strong teams of this vicinity, losing to Williston Academy and Holyoke High. On the return game at Amherst, the Freshmen had an off day and lost again to Holyoke; soon after, Orange High visited the campus and added to their long list of victories by taking a snappy game from '23.

The line-up of the two teams have not been definitely announced as yet, as several changes have been made in both, with the hope of strengthening the teams as much as possible.

BRIGHT FRESHMEN TAKE CURE IN SECOND POND PARTY

Successful Affair Featured by the Work of Alger and Grayson.

The second pond party of the spring, which was held Friday, June 11, at 12:30 p. m., was a much livelier affair than that of the previous week. Eight Freshmen had their spirits dampened. These men marched in single file to the platform erected on the northern shore, and two of their number rendered pathetic selections on a brass horn and a drum.

A large crowd was present, and cheered on the trembling Frosh, who shouted their sobs across the slimy water previous to their punishment. The chief offence was that of failure to wear coats, which is certainly inexcusable in the mild weather of the past few weeks.

Grayson and Alger featured for the yearlings. The former had evidently

mistaken his summons for an invitation to play tennis with the co-eds, for he wore the full equipment, necktie and white trousers, both of which must have dazzled the frogs and turtles, which are accustomed only to drill pants and jerseys. Alger shot into the water chin first, and came up with three families of algae and all their household furnishings on his face.

As a whole, the party was a success, and undoubtedly served its purpose to discipline the untamed Frosh.

FACULTY AND SENIORS FIGHT FOR LAST TIME FRIDAY

Collegian Offers Lineup to Faculty For Baseball Game on Alumni Field.

On Friday, June 18, at 4:00 p. m., the faculty and Seniors meet for the last time in deadly combat, this time on the baseball field. The Seniors will probably present the same line-up that they have used in the class games.

The members of the faculty team have not yet been announced, but with such a wealth of material on hand, a winning nine can undoubtedly be turned out. If our suggestions are of any value, the Collegian would like to offer the following list of men to the faculty for their team: "Ted Lewis, pitcher; "Stub" Chamberlain, catcher; "Slim" Torrey, first base; "Art" Beaumont, second base; "Lute" Bauta, short stop; "Shy" Renny, third base; "Walt" Prince, "Bob" Neal, and "Pat" Patterson, fielders.

As any undergraduate can testify, anything will have to be pretty good to get by such an infield, and that the outfield can be depended on to hit everybody hard. As for the battery, everybody knows the work of Lewis, while very little ever went over Chamberlain's head. We hope the faculty will take us in all seriousness in this matter and develop a stellar team.

RESOLUTIONS

Whereas, it has pleased God in His infinite wisdom to summon from our midst our beloved brother, John Frost Winchester of the class of 1875 of the Massachusetts Agricultural College, be it

Resolved, that we, the members of the Q. T. V. Fraternity, extend our heartfelt sympathy to the bereaved family; and be it further,

Resolved, that the Fraternity loses a true and loyal brother; and be it further,

Resolved, that a copy of these Resolutions be sent to our late brother's family, that they be inscribed on the Records of the Fraternity, and that they be published in the Massachusetts Collegian.

For the Fraternity,
C. D. KENDALL,
CARROLL A. TOWNE,
ROBERT D. FULLER.

'17.—Henry G. Dunham recently attended a meeting of the American Chemical Society at St. Louis. He expects to visit here in the near future.

SENIOR CHAPEL HELD ON FRIDAY MORNING

An Old Custom Revived After Four Years.

Senior Chapel was revived again this year after an interval of four years. Last Friday morning the graduating class appeared in their caps and gowns and marched into the auditorium while the three lower classes remained standing. Dean Lewis then opened chapel, and several members of the faculty, to honor the Seniors, were present on the platform.

After the singing of the hymn President Butterfield gave a short address, praising the Seniors for the many ways that they have worked to uphold the spirit of Aggie. He told them not to forget their Alma Mater and to carry on its traditions through their life work, ever keeping an interest in the College. President Butterfield praised them particularly for their efforts in getting back the pre-war customs, and passing them on to the following classes.

After the President's talk the lower classes rose while the Seniors marched out.

REUNION PLANS

(Continued from page 1)

call to the men of '87 to be back on the old campus, for Commencement. The class banquet will be held Sunday noon at The Davenport. The class of '88 will hold its 32nd reunion over the week-end and the banquet will be held at the home of Mr. E. H. Dickinson, North Amherst, on Monday at 6 p. m.

Over ten men of '95 have signified their intention of coming back under the old elm trees, for this is their 25th reunion, and incidentally the 50th of the college.

The slogan of '05 is to have ninety per cent. or more of its number back, and already twenty of its men have definitely decided to return.

The men of '07 will hold their reunion on Sunday night, and will hold their banquet in Draper Hall, Monday, at 6 p. m.

'08 and '10 expect at least twenty men of each class back, and following the laying of the corner stone of the Memorial Building on Sunday afternoon, Prof. Hasbrouck will entertain '10 at his home.

The class of '15 will be represented by at least 25 of the "boys" and their slogan is "our first big reunion. Lets go!"

The classes of '17, '18, and '19 plan to have a real get-together, for about one hundred and fifty men of the three classes will be on the Campus. '18 will have sixty-five men here, and combined with the many ex-'18 men who are now graduating as Seniors, they will have a real reunion. This will be '19's first reunion, and fifty of the returning men will do their best to make Commencement a real old-time affair.

'15.—F. S. Hyde recently purchased a 250 acre farm in Southern Maryland, a portion of which is in timber.

CLASS DAY EXERCISES

Continued from page 1

smoke it in turn. This and the following ceremony symbolize that all hostilities between the two classes are at an end. Then Delahunt will give the Hatchet oration and perform the ceremony of burying the hatchet. When this is completed the Seniors will leave the fence, filling past the Juniors, who take their places on the fence, while the Seniors give them a cheer. The Juniors will then leave the fence and give the Seniors a cheer in return.

During the Ivy exercises, the Class Ode, by Raymond W. Swift, will be read.

CLASS ODE—1920

Ere we part to sail life's ocean,
Ere we go to things untold,
Let us pay to golden days
All the tribute mem'ries hold;
Happy hours we've spent together,
These in mem'rie's hold now lie
Like the flowers lost forever,
Like the flowers which bloom but die.

Though uncertain, sad, and fearful,
Though the future dim and drear,
For the hours that thou hast given us
Mem'ries fill our hearts with cheer;
Though the clouds of war hung o'er us
Making joy to sorrow fade,
Let us now of all three classes
Be as one which fate has made.

Alma Mater, as we leave Thee,
As we part to struggle on,
We but ask thy benediction
And thy blessing when we're gone;
Alma Mater, we will cherish
Thy great love and friendship true,
Thou hast bound our hearts in union,
May Thy spirit guide us through.

COMMENCEMENT DRILL PLANS NEARLY COMPLETE

The competitive commencement drill will be held at 11 a. m. Monday, June 21. The judges will award prizes to members of competing companies as follows: A watch for each officer and to each of the nine privates having the best records in drill for the term, in the company winning the contest.

The program of the drill was announced in last week's issue. After the drill there will be a parade, and after passing in review, the battalion will be reformed in line and prizes awarded to members of the winning company and to individuals shooting prizes will be presented.

The ten Sophomores having the best gallery scores will shoot off with the ten Freshmen having the best gallery scores. The first prize will be a wrist watch, the second a kodak and the third a fountain pen.

The ten Sophomores having the highest scores on the target range will shoot for the prizes: First, watch; second, kodak; third, fountain pen.

The judges are not yet chosen, but it is almost certain that Roger Weeks, ex-'18, and an ex-captain in the army, will be one of them. Major Hammond of Northampton will also be one of the judges.

Building Progress on May 8th

Construction began on March 30th. The muddy condition of the dump where the dirt from the excavating was hauled has permitted only slow progress during these wet days. In one corner the excavation has reached its final depth and sufficient progress is being made to insure the laying of the corner stone at commencement as planned.

(Continued from page 1)

pressive, and a large attendance of students should be present in memory of those for whom the building is being erected.

The Carlson Co. have made excellent progress, and the cement work on the east wall will have been finished by the end of the week.

1921 INDEX ANNOUNCEMENT

In the student mass meeting following Assembly of June 9th, C. D. Kendall, business manager of the 1921 Index, announced that the annual cannot make its appearance before graduation. Those who leave their money with the manager will have their copies mailed to them, while other students will receive theirs in the fall.

Despite the unlooked-for delay, the Index is to be of very high quality, and has more photographs than any since the 1918 issue. For this reason, a little wait will be worth while.

FRATERNITY DANCES

The Q. T. V. fraternity held a week-end party on May 27 and 30 which all present voted was one of the best ever held at the house. The dance on Saturday was attended by 20 couples with Robert's colored orchestra of Springfield furnishing excellent music. The house was tastefully decorated with evergreens young cedars adorning the corners and doorways. Mrs. McClond of Amherst acted as chaperon while Bias catered. On Sunday the members of the party went to Sunderland and held a picnic dinner on Mt. Toby.

Sigma Phi Epsilon held a house dance on May 29 with about 20 couples in attendance which was a very enjoyable occasion. Davenport's orchestra performed very satisfactorily. The chaperons for the party were Mrs. Kimball of Smith College and Mrs. Guppy of Mt. Holyoke. Bias of Amherst catered for the occasion.

On Saturday, June 5, Alpha Sigma Phi held a successful house party. Twelve couples attended with Miss Julia Howe of Northampton acting as chaperon. Jerry's Jazz Orchestra supplied very acceptable music for the evening. Bias catered.

Lambda Chi Alpha held a dance at the house on Saturday, June 5. Fifteen couples attended and all declared it a great success. Dancing lasted from three o'clock until twelve with an intermission while the party took supper at the Davenport. Music was supplied by Burnett's orchestra of Holyoke. The chaperon was Mrs. Cameron of Mt. Holyoke.

A dance was held at the Theta Chi house on Saturday, June 5. Dunbar's Orchestra furnished music for an enjoyable evening, with fifteen couples present. Mrs. Nash acted as chaperon while Bias catered for the party.

Prof. R. W. Seal, head of the Department of Rural Journalism at M. A. C., has written a new book on "Editorials and Editorial Writing," which will be off the press next fall. There is also to be a reprint of Prof. Seal's "Short Stories in the Making," published by the Oxford University Press.

INTERCLASS TENNIS

The Interclass series of Tennis matches terminated last Thursday afternoon when the Sophomores won two sets from the Freshman, thus making the Sophomores the winners of the series with not even the loss of a single match against them. The match last Thursday was a game of doubles, Randall and Under '22, playing Fatou and Marshman '23. The score was 6-1 and 4-2 for the two sets. Previous to this three single matches had been won from the Freshmen.

The playing as a whole has been exceptionally good this year, and there has been developed players who could easily uphold the honor of Aggie in Varsity games, if a College team was formed.

SHORT COURSES

Approximately three thousand Bulletin regarding the Summer School, which have just come off the press are now ready at the Short Course office.

Willard K. French is now finding positions for regular students who desire them.

Poultry Department.

Mr. Banta, instructor in Poultry Husbandry, is taking his annual vacation this month. He will be back at the end of June and will teach in the Summer School.

The Unit Federal Board men are now building six or eight different types of brooder houses just beyond the orchards for the purpose of gaining experience in the brooding of chickens. About seven hundred chicks will be raised and the fowls kept there during the fall.

"14.—F. W. Reed has recently been appointed specialist in charge of standardization for the Department of Agriculture of California with headquarters at Sacramento. He will be joint employee of the U. S. D. A. The position carries with it a salary of \$3000 plus a good car and dwelling expenses. After the preliminary work of organization is completed, Mr. Reed will have a large force of men to make shipping point inspections, enforce state grade laws, and standards and see that citrus fruit measure up to the maturity test.

INTERFRATERNITY LEAGUE

STANDING UNCHANGED

The standing in the interfraternity league remains practically the same, with Phi Sigma Kappa and Sigma Phi Epsilon still tied for first place. Each has a postponed game to play, and upon these may depend the season's victory.

Alpha Sigma Phi is going well, but lack of time in which to play the rest of her games may force her out of the race. On Wednesday she beat Lambda Chi Alpha, 9-2, and now she has four remaining games to play. Phi Sigma Kappa beat both Theta Chi and Alpha Gamma Rho during the week. Haskins was in the box against Alpha Gamma Rho and fanned ten men. Hawley made the best hit of the game, a three-bagger to right. Sigma Phi Epsilon with Bacon in the box also beat Alpha Gamma Rho, 13-3. Kappa Gamma Phi forfeited a game to Sigma Phi Epsilon, and as a result she is remaining tied for first position. By mutual agreement Q.T.V. and Theta Chi canceled their remaining games because of lack of time.

Below is the league standing:

| LEAGUE STANDING. | | | |
|-------------------|-----|------|----------|
| | Won | Lost | Per Cent |
| Phi Sigma Kappa | 6 | 1 | .857 |
| Sigma Phi Epsilon | 4 | 1 | .857 |
| Alpha Sigma Phi | 3 | 1 | .750 |
| Q. T. V. | 5 | 2 | .714 |
| Lambda Chi Alpha | 4 | 4 | .500 |
| Theta Chi | 1 | 4 | .200 |
| Kappa Gamma Phi | 1 | 4 | .200 |
| Alpha Gamma Rho | 1 | 6 | .143 |
| Kappa Sigma | — | — | — |

CAMPUS NOTES

The Irrigation class of the Agronomy Department spent Saturday, June 5, on a trip to Sunderland, where they were shown examples of overhead irrigation.

The second issue of the magazine *World Agriculture* was issued last week and contains many interesting and educative articles by leading authorities. One of the principle articles is "World Agricultural Principles" by President Butterfield. It is a memorandum to the Peace Commission read at the Beaune conference and deals with the importance of the farmer's position in the present day problems and the right of the farmers to enjoy free organization, economic, political, and social justice. In addition, the resolution made at the conference is printed.

Will Work for Forest Service.

Prof. Frank A. Waugh of the Department of Landscape Gardening has been engaged by the U. S. Forest Service to make certain extended and interesting landscape studies in the West this summer. The principal project consists of a survey and location for a scenic automobile road around the base of Mt. Hood, Oregon. The whole distance covered will be about 200 miles, a considerable portion of which lies through wild, unmapped country where for the present transportation is confined wholly to saddle horse and pack train. Professor Waugh will also report on certain work for the Forest Service in Southern Colorado and expects to visit some of the national parks. Mrs. Waugh will accompany him.

DOWN WITH TUBERCULOSIS

Under the title of "Occupational Therapy in Tuberculosis" an elaborate report has just been issued, being an extract from the May number of *The Scientific Monthly*. This report is signed by Captain Frank A. Waugh, Sanitary Corps and, as described in a subtitle, is "a critical retrospect upon the program of physical reconstruction as developed in the military hospitals for tuberculosis."

This is the work in which Professor Waugh was engaged during the war, being stationed at United States Army General Hospital No. 16, New Haven, Connecticut, where he had unusual opportunities for the study of tuberculosis and its treatment. At Hospital No. 16 a graduate school of medicine was maintained by the Army for the training of doctors in the tuberculosis work. The faculty included some of the best specialists anywhere in the United States and the work done in that school was generally considered to be notable from a medical point of view.

Professor Waugh, who was in charge of the reconstruction program, took the course himself and had the help of the best men in the country in developing his own department of the hospital. The medical men themselves believe that the reconstruction work is of great importance in tuberculosis, especially those forms known as occupational therapy. Captain Waugh not only had the benefit of the experience in New Haven, but received orders from the Surgeon General's Office in Washington to visit and inspect several of the other army hospitals dealing with tuberculosis. The paper now published was prepared with the assistance of some of the best medical men, passed the medical censors in Washington and has been published under the authority of the Surgeon General of the Army. It is illustrated with several photographs showing the work of the reconstruction service at Hospital No. 16. Professor Frank P. Rand was connected with the same work at Hospital No. 16.

ALUMNI NEWS

'03.—John R. Perry, a member of D. G. K. while in college, was initiated into Kappa Sigma June 12. He was captain of varsity football back in his college days.

'11.—A. R. Jenks of Newtonville has established a retail fruit by-products store at West Acton. He is specializing in homemade fruits and vegetable preserves.

'13.—W. C. Forbush is now acting dean and professor of Agronomy at the University of Porto Rico. He has also organized a native infantry troop which was officially recognized May 30.

'14.—Leslie H. Norton, formerly with the Bowker Insecticide Company, is now running a farm in Middleboro, where he is raising garden truck especially.

'15.—G. H. Cale is now living at 425 Dorset avenue, Chevy Chase, District of Columbia.

'15.—M. J. Clough who is with the Bowker Insecticide Co. at Baltimore was a recent visitor on the campus. "Bunny" reminded us that he is the possessor of twins.

'17.—Phillip R. Babcock was recently married to Miss Theo Evelyn Jaques of Lynn. "Bab" was in aviation service over across, and has an excellent record as an aviator, as well as some medals, to his credit.
